Welcome to American River College.

American River College is, as our vision statement makes clear, a learning community that enriches and transforms people’s lives. Over the years, we have developed a statewide and national reputation for excellence, innovation, and a strong commitment to our students.

Your education is important to us, and we trust that the information in this catalog will help you make the best academic and career decisions.

A college catalog is just one decision-making tool. If you haven’t already done so, I encourage you to make an appointment for a personal visit with a counselor to review your options and begin to build a plan that can take you toward achieving your goals. You can also get valuable information from instructional faculty and other college staff whose services are described on the following pages.

We value the diversity of people and ideas at American River College, and we enjoy that richness in an atmosphere of mutual respect and trust. You will find us willing to be your partners, whatever your educational goals, and we hope to hear from you about ways in which we might serve you even better.

Learning is a lifelong process, and we take that to heart. Whether you seek a training certificate, university transfer, sharper job skills or new cultural experiences, we at American River College are here to provide those opportunities.

David Viar
President

Note: Fall and summer registration take place at the same time. A complete calendar, including important deadlines, can be found in the class schedule and online. Application for enrollment can be completed online. Online (eServices) enrollment are available every day, including holidays, from 7:00 a.m. to 11:30 p.m. for registration and adding and dropping classes, except when down due to maintenance.
**about the college**

**Who we are**

Founded in 1955, American River College is a two-year public community college that offers students the option of working toward a degree, certificate or transfer to a university or other institution. It is the largest institution of higher learning in the greater Sacramento area, with more students than either UC Davis or Sacramento State University, and has a strong reputation for its programs and leadership.

American River College is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges [3402 Mendocino Ave., Santa Rosa, CA 95403 (707) 569-9177], an institutional accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation and the U.S. Department of Education.

American River College does not discriminate on the basis of age, color, creed, disability, marital status, veteran status, national origin, race, or sex.

**History**

American River College opened its doors as California's 61st public junior college in 1955. Its history, however, dates back to February 28, 1942, when Grant Union Junior College was established in Del Paso Heights to train civilian personnel for national service during World War II. In 1945 the name was changed to Grant Technical College.

In June 1954, voters agreed to the establishment of a new junior college district, followed by the approval of a $3 million bond issue in November of that year. Grant Technical College ceased operation after 13 years and American River Junior College was born in the fall of 1955. For the first three years, classes were offered at the former Grant Technical College campus. However, soon after its first semester of classes had begun, the college purchased a 153-acre site known as the Cameron Ranch on which to construct a permanent campus. By October of 1958, when official dedication ceremonies were held, eight new building complexes had been erected among the magnificent oaks native to the area. Since that dedication the stately oak has been adopted as the official college symbol (including the campus seal).

In 1965 the college became a part of the Los Rios Community College District and became American River College. Today, along with Sacramento City College, Cosumnes River College, and Folsom Lake College, ARC is directed by a board of trustees elected by voters residing in the district.

Campus facilities development in the 1960s included Davies Hall, a three-story classroom and faculty office building, and facilities for chemistry, physics, engineering, women's physical education, and technical education studies. The campus grew rapidly in the 1970s, including a three-story library, a horticulture complex, a child care center and counseling center.

The 1980s saw the completion of the Rose Marks open-air pavilion and a new bookstore (remodeled in the 1990s). Improvements since then include major remodeling of laboratories, a second child care center, and new facilities for Disabled Student Programs & Services, and instructional technology. In 2002, voters approved a multimillion bond measure that is funding construction and renovation of classrooms and laboratories, including a new Learning Resource Center, new or renovated facilities for Allied Health, Physical Education, and Performing Arts, and a new Natomas Educational Center. Another bond measure was passed in 2008, ensuring that the college will be able to provide facilities and equipment for its students.

With approximately 38,500 students, ARC is among the largest community colleges in the state and the largest institution of higher education in the greater Sacramento area. Looked upon as a leader in innovative programs and services, ARC transfers more students to UC Davis and CSU Sacramento than any other community college. Today, more than five decades after its founding, American River College continues its leadership role in higher education, as set down in its statement of vision, philosophy and mission (below).

**Vision, philosophy and mission**

**ARC Vision**

American River College is a premier learning community that transforms and enriches people’s lives.

**ARC Mission**

American River College is a public community college granting certificates and associate degrees. Although the college serves people from a variety of geographical areas, it primarily serves the adult residents of the five-county Greater Sacramento region who are capable of benefiting from community college instruction.

ARC exists to ensure students identify their educational goals and needs and successfully accomplish student learning in the following broad educational areas:

- Developmental education to achieve basic foundation skills in reading, writing, mathematics, English as a Second Language, and learning and study skills which are necessary for students to succeed in college-level work.
- Career and technical education to achieve employment or enhanced career skills for job advancement.
- General education to achieve knowledge, skills and attitudes for post-secondary education success, personal enrichment, self-development, and a purposeful and meaningful life as a member of a global community.
- Lower division post-secondary education to achieve transfer to and success in obtaining a degree at a four-year post-secondary education institution.
Fiscal Responsibility
It is necessary to maintain a fiscally sound, efficient, and effective operation that achieves our mission within the resources available.

Evaluation
Efficient and effective accomplishment of the ARC mission, vision, and student learning outcomes requires regular and ongoing data-based evaluation.

Statement of Community
American River College is a diverse academic community composed of individuals having many perspectives, abilities, faiths, cultures, ethnicities, races and orientations. We come from a multitude of backgrounds, and with distinct needs and goals. We recognize that to create an inclusive and intellectually vibrant community, we must understand and value our individual differences and affirm the inherent dignity in all of us.

We recognize the right of every individual to express any idea, and to counter another’s point of view. And, while we promote open expression of our individuality and our diversity, we do so within the bounds of courtesy, sensitivity and respect. We reject all manifestations of discrimination, including those based on race, ethnicity, gender, age, disability, sexual orientation, religious or political beliefs. We recognize and support the richness contributed by each individual. We take pride in our various achievements and we celebrate our differences.

Institutional Student Learning Outcomes
Upon achievement of his or her intended educational goal (degree, certificate, or set of courses) at American River College, a student will be able to:

• Employ strategies to work cooperatively and effectively with others.
• Demonstrate skills and behaviors which contribute to open and respectful communication of diverse ideas and beliefs.
• Locate and critically evaluate information to create informed responses to issues, problems, and challenges.
• Demonstrate and employ marketable skills and personal qualities for professional growth and career advancement.
• Utilize a variety of methods to communicate effectively.
• Recognize the value of lifelong learning for personal growth.
• Recognize the importance of contributing personal knowledge, resources, and skills for the benefit of the local and global community.
class locations

In addition to the college’s main campus, college-credit classes are taught at four off-campus locations in the northern and northeastern areas of Sacramento County. Classes at the Ethan, McClellan, Natomas, and San Juan Centers offer the same credit as those taught on the main campus, and students can complete most degree requirements at the centers. Counseling, assessment, and other services are also available at those centers.

See map below, showing the American River College service area and how to get to the off-campus centers.

**ARC main campus**

4700 College Oak Dr.
Sacramento, CA 95841
Telephone: (916) 484-8011

**Ethan Way Center**

1400 Ethan Way
Sacramento, CA 95825
Telephone: (916) 563-3276
Hours: Mon. to Fri. 8:00 a.m. to 8:00 p.m.

**McClellan Center**

See Sacramento Regional Public Safety Training Center

**Natomas Education Center**

2421 Del Paso Rd.
Sacramento, CA 95835
(916) 485-6000
Office hours: Mon-Thurs 8:00 to8:00 p.m.
Friday, 8:00 .am. to 5:00 p.m.

Classes are also held in adjacent Inderkum High School:
2500 New Market Dr. Sacramento, CA 95835

**San Juan Center**

San Juan High School
7551 Greenback Ln.
Citrus Heights, CA 95610
Telephone: (916) 723-1481
Hours: Mon. to Thurs., 5:00 p.m. to 9:00 p.m.

**Sacramento Regional Public Safety Training Center / McClellan Center**

5146 Arnold Avenue, Room 110A
McClellan, CA 95652
Telephone: (916) 570-5000
Hours: Mon. to Sat., 8:00 a.m. to 4:30 p.m.
In this section you will find:

- Application
- Assessment
- Orientation
- Counseling
- Registration
- Financial aid
your first four steps

You probably have many questions about becoming a student at American River College. You will find answers to these questions throughout this catalog, or through your discussion with your counselor, but as an incoming student, you need to be familiar with the four steps you will need to complete before enrolling in classes:

Step 1. Application
Step 2. Assessment
Step 3. Orientation
Step 4. Counseling

step 1. application

You may apply to ARC and enroll for classes here or at any of the other colleges in our district (including Cosumnes River College, Folsom Lake College, Sacramento City College) by going online to eServices through the ARC web site [www.arc.losrios.edu].

Personal assistance is available at the ARC eServices Center, located on the north side of the cafeteria. Enrollment options are explained below.

Your online application will be processed quickly and you will soon receive information on how to proceed toward enrolling in classes.

Admissions eligibility

Any person who has earned a high school diploma or the equivalent, such as a certificate of proficiency issued by the State Board of Education, is eligible for admission to American River College. Non-high school graduates over 18 years of age, who demonstrate to the satisfaction of college authorities that they are able to profit by the instruction, may also be admitted.

First-time students

All first time college students need to complete the following steps before they may register:

1. Complete an application for admission online [www.arc.losrios.edu].
2. Take the appropriate assessment test. The ARC assessment test schedule is available at the Assessment Center (916-484-8423) and Counseling Center. Note: Assessment for recommended class placement is based on more than test scores alone.
3. Complete the new student orientation, in person or online.
4. See a counselor for assistance in developing your educational plan.

Residence requirements

American River College is a public college under California law. The application for admission includes a statement of residence from which residency is determined. The law provides that a person can have only one residence. If you have resided in another state just prior to the residence determination date (the first day of the semester)—even if you had been a California resident previously—you may be considered a nonresident for purposes of enrollment fees. Residency is determined at the point of admission once a completed application is submitted to the Enrollment Services Office.

Out-of-state students may be admitted to American River College, provided their application is approved. Out-of-state students are classified as nonresidents, unless eligible for an out-of-state fee exemption.

If a student is erroneously determined to be a nonresident, and pays a tuition fee, the fee is refundable, provided acceptable proof of state residence is presented within the period for which the fee was paid. Refund requests will be processed only if accompanied by the receipt issued at the time of payment.

Fees are subject to change without notice upon approval by the trustees of the Los Rios Community College District, and pending approval by the state legislature and governor.

A nonresident student who has falsified residency information shall be excluded from classes upon notification, pending payment of the nonresident fee. Written notification may be given at any time. Students excluded because of falsification shall not be readmitted during the semester or summer session from which they were excluded, nor shall they be admitted to any following semester or summer session until all previously incurred nonresident tuition is paid.

All new transfer students

All new transfer students, except those transferring from Cosumnes River, Folsom Lake, and Sacramento City colleges, should complete the steps listed for first-time college students. Instead of a high school transcript, transfer students are required to mail official transcripts of all other previous college work to the Enrollment Services Office.

High school international baccalaureate program

American River College may award college credit for international baccalaureate (IB) higher level course completion with scores of 5, 6, or 7, if the course work is compatible with ARC’s curriculum. Credit may only be granted upon evaluation and approval by individual academic departments in which the course exists. No credit will be granted for subsidiary level course work completed in the IB program.
Students must have successfully completed 12 units at ARC, and be in good standing before requesting college credit for IB higher-level course completion. A maximum of 15 units may be awarded for credit toward an A.A. or A.S. degree. Credit may not be earned for courses that duplicate credit already allowed for advanced placement exams. No grades are given, and course credit does not enter into computation of the student's GPA for transfer or graduation from ARC. Students requesting consideration for college credit are to have the IB North America Office forward an official report of their scores to the Enrollment Services Office at American River College.

**Returning students**

All students returning after an absence must complete an application for admission and must mail official transcripts of all other college work to the Enrollment Services office. Students should consult with a counselor before registering for classes; call the Counseling Center (484-8572) for an appointment.

**International students**

American River College welcomes international students from all over the world. Students who enter the U.S. on a non-immigrant visa are considered international students; however, there are different attendance requirements for each visa type. ARC is approved by the Bureau of Citizenship and Immigration Services (formerly, INS) to issue the I-20 for the F-1 Visa. Requirements for admission as an F-1 student include proof of proficiency in the English language, evidence of high school graduation, certification of financial ability, health examination to include evidence of freedom from tuberculosis, and medical insurance to cover emergencies while in the U.S.

An international student must be enrolled in at least 12 units each semester and must maintain a C (2.0) grade point average at all times, in order to be in compliance with F-1 visa requirements. For more information, contact International Students, at (916) 484-8774.

Non-resident applicants who are both citizens and residents of a foreign country shall be assessed a non-refundable application process fee of $50. The application fee is due and payable with submission of the application for admission or readmission. International student applications will not be processed without payment of the fee. Fees are also assessed based on the number of units (credit hours) in which the student has enrolled. See the **Fees** section of this catalog for more information.

**Advanced education for high school students**

Courses that provide enrichment and advancement in educational experience may be offered on a limited basis to high school students who have demonstrated exemplary academic achievement. In addition, the student needs to be 16 years of age or have completed the sophomore year of high school prior to enrollment. Advanced education students may not take remedial classes, classes which need to be repeated because of low grades, and classes offered in the student's own school.

High school students should request information from their high school counselor regarding eligibility and an Advanced Education application. Prospective advanced education students should bring to the ARC Counseling Center an advanced education application form which has been signed by a parent and by a high school counselor or principal, an official transcript plus work in progress, a written statement describing how the eligibility criteria are met and why they wish to take classes, and ARC assessment exam results if appropriate. This should be done as early as possible in the semester, prior to the first day of the class the student wishes to take.

After the advanced education application has been approved by the ARC counselor, the student may register for classes. Students must attend the first class session of the course. Late adds are usually not permitted. An advanced education student is not considered a continuing student when registering for classes for any subsequent semesters. Additional information can be obtained from the ARC Counseling Center. Call (916) 484-8572 for more information.

**Special resources for incoming students**

**CalWORKs**

American River College assists students who are currently receiving TANF (formerly AFDC) funds in making the transition from public assistance to achieving strategically planned career goals. College staff work cooperatively with the Department of Human Assistance in Sacramento and surrounding counties to assist students in becoming more competitive job applicants. CalWORKs stands for California Work Opportunity and Responsibility to Kids. The center is located in the Student Services Building.

**Disabled Students Programs and Services**

The goal of Disabled Students Programs and Services is to promote equal access to programs, services and facilities at American River College, thereby insuring that students with disabilities have the opportunity to participate fully in campus activities. The philosophy of DSP&S is to encourage maximum independence and personal empowerment.

A variety of support services are available at no additional cost to the student with a disability. Specialized counseling services, interpreters for the deaf, tutors, notetakers, readers, and test facilitators are provided upon request. An array of specialized equipment, including adapted computer hardware and software, are offered in an effort to accommodate most educational limitations.

Contact DSP&S for an appointment. Registration assistance is provided to students with verified disabilities. A comprehensive resource guide, listing all specialized services and equipment for students with disabilities, may
be obtained at Enrollment Services, Counseling, the Health Center, Learning Disabilities, and DSP&S. For additional information, please contact DSP&S at (916) 484-8382; or 484-8365 (TDD). Materials in braille, large print, or audio tape format are available upon request. A variety of academic accommodations and support services are available for students with disabilities. See the While You Are Here section of this catalog for more information.

**EOP&S/College Awareness/CARE Program**

Extended Opportunity Programs and Services (EOP&S) is designed and funded by the State of California and the district to recruit and assist college students who show academic and financial need. EOP&S promotes student success with enrollment assistance, educational planning, tutoring and limited financial assistance. Participation is limited to California residents who are eligible to receive the Board of Governors Grant and have an academic need. The EOP&S office is located in the Student Services building. EOP&S-eligible students, who are single head of household TANF/AFDC recipients, may also be eligible to participate in the CARE (Cooperative Agencies Resources in Education) program.

**Re-entry Center**

The Re-entry Center, located in the Student Services building, serves men and women, including veterans, who after a period of absence have decided to return to school. Our peer mentors are ready to offer personalized support services that allow for a successful transition back to school. Our program offers help with registration, matriculation, financial aid applications and applying for scholarships. We also offer weekly support groups, campus and community service referrals, career, educational and personal counseling, student success workshops, and opportunities to network with other returning students. No appointments are necessary. Call (916) 484-8391, or stop by or visit our website: [www.arc.losrios.edu/reentry].

**Veterans**

The ARC Veterans Affairs office, located in the Enrollment Services office in the administration building, expedites the processing of V.A. Educational Benefit paperwork and coordinates with other campus services. New students who are veterans should contact the office at least two months prior to the term they plan to attend. Continuing students also should check in at least two months prior to the next term of attendance to complete any paperwork that may be required for continuous V.A. payment. In addition, all recipients must confirm their classes with the Veterans Affairs Office after completion of registration and once again the week before final exams begin. All material submitted to the Veterans Administration takes approximately two months for processing through the regional processing center. Phone (916) 484-8135.

After enrolling at ARC, a veteran may apply for evaluation of military service experience for college credit. A copy of the veterans DD214 separation paper must be submitted at the Veterans Affairs office and a petition completed during the first semester of attendance. Credit granted for military service is based on *A Guide to the Evaluation of Educational Experiences in the Armed Services*, published by the American Council on Education. All military veterans are entitled to enrollment priority. (Ed code #66025.8.)

**Military personnel and dependents**

Military personnel who are stationed on active duty in California and their eligible dependents are granted resident classification. This resident classification will continue for the duration of the student’s continuous enrollment.

**Matriculation**

Matriculation is a set of services that brings the college and the student together in a partnership agreement designed to help student’s develop and achieve their educational goals. Students are more likely to succeed in college when they have an accurate assessment of their skills, clear educational goals and an understanding of the course selection and enrollment processes. Therefore, for the college, the agreement includes providing the following services:

1. An admission process
2. Orientation to college
3. Student Services
4. A curriculum or program of courses
5. Pre-enrollment basic skills assessment
6. Counseling and advisement on course selection
7. Opportunity to develop an educational plan
8. Continued monitoring of academic success with referral to support services when needed
9. Program of institutional research and evaluation

The student agrees to:

1. Identify an educational goal within a reasonable period of enrollment
2. Attend classes regularly and complete assigned coursework
3. Maintain progress toward an identified educational goal according to standards established by the college and the State of California
4. Use support services as needed
5. Consult with counselors and advisors when appropriate

**How does the matriculation process work?**

All new students and students who are attending American River College for the first-time must complete the following matriculation components:

1. **Admissions**

   Admissions materials are available and must be completed by all students for enrollment into the college. All new students and students who are attending American River College for the first time are directed by the counseling office to matriculation services as needed. New first time non-exempt students who complete the matriculation process by the identified deadline are given priority registration that allows them to register with continuing students.
2. Assessment
All new students (new to college and/or new to ARC) and non-exempt students are required to complete the basic skills assessment tests in mathematics and in either English (reading and writing) or English as a Second Language (ESL). These tests help the students, with assistance from a counselor, determine the appropriate course placement when developing an educational plan. Test dates and times are available on the college website (www.arc.losrios.edu), in the Assessment Center in the Student Services building or in the Counseling Center.

3. Orientation
Orientation services are available to all students and required of all new students and students who are attending American River College for the first time who are non-exempt. Orientation sessions are provided throughout the fall and spring semesters prior to the beginning of registration. After registration begins an abbreviated orientation is provided to all late registering students who require the service.

4. Counseling Services
All matriculation students must meet with a counselor prior to the beginning of classes for the purpose of developing a student education plan. Recent high school students should bring a copy of their high school transcripts with them to the counseling session. Most new students will see a counselor on the same day they receive orientation services referred to above.

Follow-up
Student academic progress is monitored and when students seek a new educational goal or experience academic difficulty, a referral is made to see a counselor and/or the appropriate academic and student support service for assistance. Students may be instructed to attend a group meeting and/or meet with a counselor for guidance and assistance.

Exemption criteria
Students can elect to not participate or be exempt from most or parts of the matriculation requirements based on the following criteria:
1. Student has completed an associate degree or higher.
2. Student satisfies at least two of the following:
   • identified a goal of upgrading job skills
   • enrolled fewer than 12 units
   • concurrently enrolled in another postsecondary institution
   • declared no degree or occupational objective

Challenges to matriculation process
Exemptions
New students can elect to be exempted from matriculation requirements (orientation, assessment and/or counseling) if they meet one of the following two criteria:
1. Student has completed an associate degree or higher.
2. Student satisfies at least two of the following:
   a. Identified a goal of upgrading job skills.
   b. Enrolled in fewer than 6 units.
   c. Concurrently enrolled in another post-secondary institution.
   d. Declared no degree or occupational objective.

Students who wish to challenge any part or all of the matriculation process (orientation, assessment, or counseling) must meet with the matriculation coordinator or designated representative to discuss the reason and rational for the challenge, or provide information to the matriculation coordinator supporting the challenge.

In addition, students wishing to challenge specific matriculation services will be informed of their rights to participate in all other non-disputed components, and will be asked to sign a statement waiving their right to the matriculation services, thus providing acknowledgment to the college of receipt of the information above. All new American River College students are required to participate in the matriculation process (Assessment, Orientation and Counseling) with the exception of those who meet exemption criteria.

Students who wish to challenge the matriculation process should meet with a counselor to discuss the challenge. The college shall provide students with written and verbal information about the purpose of matriculation and the benefits of participation in each component.

Students wishing to challenge specific components will be informed of their rights to participate in all other non-disputed components. Students will be asked to sign a document acknowledging receipt of the above information.
step 2. assessment
Assessment tests provide information to counselors that can be useful in determining your readiness to enter a particular course. ARC’s Assessment Center, located in the Student Services building, provides a variety of testing services to assist students with course placement in English (reading and writing), English as a Second Language, mathematics, and chemistry. Testing services are available free of charge at the Assessment Center to any prospective student who has completed ARC’s application for admission.

The Assessment Center also provides testing for reading and mathematics competency which may satisfy the requirement for graduating with an Associate degree. Testing is also available to establish ability to benefit for students who are applying for financial aid, who do not have a high school diploma, or GED.

Current office hours and the testing schedule are available on the ARC Assessment Center website (www.arc.losrios.edu/assess) and at many student services offices. In addition, the Math Self-Assessment Test is available anytime online through the college website.

step 3. orientation
Orientation provides new students with important information about college programs and services, including explanations of key concepts that will help a student do better in their first months at ARC, and thus get off to a good start toward completing their educational goals. Orientation can be done in person or online, and information on these options is sent to students after they have applied.

step 4. counseling
All entering students are asked to meet with a counselor, in order to establish an educational plan that suits the student’s needs and goals. The primary goal of the Counseling Center is to provide learning opportunities for students to clarify their values and goals, to make decisions, and to develop self-esteem, self-confidence, and self-direction as related to educational objectives.

Toward this goal, a staff of competent, highly trained, and diversely experienced counselors are available to assist students in identifying their needs, assessing strengths, and overcoming barriers. Counselors may also assist students in the selection of appropriate programs of study relative to their chosen objectives. Educational objectives may include completion of a vocational program, transfer to four-year colleges and universities, enhancement of employment skills, or improvement of basic skills.

American River College’s counseling services include academic counseling, educational counseling, career counseling, and personal counseling. Academic counseling includes program planning, determination of transfer requirements, course information for a degree and/or certificate. Educational counseling includes selection of a major, time management, study skills, and course selection. Career counseling includes assessment of skills, interests, values, and personality styles, test referral and interpretation, exploration of career goals based on personal assessment, development and implementation of career plan. Personal counseling, as related to success in college, includes self-awareness, interpersonal communication, stress management, relationship counseling, clarification and resolution of problem areas, and referral to on-campus and off-campus resources.

Counseling services are offered to day and evening students. Appointments may be made by telephone or in person. Counselors are also available on a drop-in basis in the Counseling Center, located in the east wing of the Administration Building. Call 484-8572 or visit [www.arc.losrios.edu/counsel].

For students attending classes at off-campus outreach centers, counseling appointments are also available at those locations. For Natomas Center, call (916) 485-6000; for San Juan Center, call (916) 723-1481; for Ethan Way Center, call (916) 563-3276; and for McClellan Center, call (916) 570-5000.

enrolling in classes
Once you have applied for admission, you may enroll in classes—also called registering or registration. Registration dates are listed in the calendar at the front of the class schedule and online [www.arc.losrios.edu]. Students may register online during their designated registration appointment or during open enrollment using a web browser, or in person at the college’s eServices Center. Be sure to check the college website or printed class schedule for instructions. The class schedule may be purchased at the ARC Bookstore, Business Services, or Enrollment Services. The schedule is also available online, free of charge.

It is not desirable or possible for the college to offer each course of instruction every semester, and therefore many of the classes listed in this catalog are not offered each term. The student should check the schedule of classes to determine if a class is to be offered in a given term. When a course is known to be offered only in a given term, the catalog course description includes the information.
special programs

The following programs offer alternative methods for working toward your educational goal, and offer help to students in both enrolling and registering for classes.

Accelerated College Education (ACE)
ACE is an accelerated educational format for working adults to complete their education while meeting the demands of their busy lives, with classes meeting one evening per week and on Saturday. The program is made up of a pre-planned set of classes. Students enroll in two short-term classes every eight weeks during the semester, for a total of 12 units each semester.

Features of the ACE program include:
• Continue working while you complete your educational goals
• Qualify for more job advancement opportunities
• Prepare to transfer to a university and be prepared for the quarter system
• Start 2 new classes every 8 weeks, meeting Wednesday evenings & Saturdays at Ethan Way Center [MAP]
• Join a highly motivated group of adults with similar goals
• Receive individual attention to help you along the way
• Work towards an A.A. degree

For more information, visit the ACE website (arc.losrios.edu/ace) or contact the ACE office [(916) 563-3281 or ACE@arc.losrios.edu].

Puente Program
The mission of the Puente Community College Program is to increase the number of educationally under-represented students who transfer to four-year colleges and universities, earn degrees, and return to the community as leaders and mentors. Classroom instruction includes a pre-transfer level composition course and a transfer-level English class. Each English class is linked with a Human Career Development class. The composition courses feature Mexican American/Latino literature.

Puente students meet regularly with a Puente counselor and are matched with a professionally and academically successful mentor from the community. Students also attend field trips to college campuses. All students are welcome to apply. To obtain a Student Information Form, call or visit the English area office in Davies Hall, 484-8101, or the Counseling Center, 484-8572. Students are admitted on an ongoing basis.

other helpful information

Auditing
American River College does not permit auditing. (Auditing is defined as attending a course without having enrolled, and without responsibility for completing assignments and without receiving a grade or credit.)

Concurrent enrollment
Students enrolled at American River College may concurrently enroll for college credit at another institution. Students requesting to have completed units considered towards a degree or certificate at American River College must submit an official transcript to Enrollment Services. Concurrent enrollment at another accredited college may impact a student’s eligibility for financial aid at American River College.

Childcare
Childcare is available to eligible students. See Other Services in While You are Here section.

Housing
American River College does not provide residence housing. However, the Student Activities Office does have information available on roommates, shared housing, and available rentals. The college does not screen or approve student housing.

Insurance
Students are not covered by the district or college for medical insurance. Students should arrange for some type of medical insurance if they are not covered by parents or individual insurance policies. International students (F Visa) will be required to show evidence of approved health insurance coverage throughout the duration of their studies at American River College. Students needing information on Student Health Insurance plans are invited to visit the Health Center located in the Administration Building or call (916) 484-8383; or online [www.arc.losrios.edu/health].

Scholarships
ARC Foundation scholarships are provided to currently enrolled students by the college, alumni, and private donors, and are awarded on the basis of academic excellence and promise of future achievement.

Financial need is a factor for some awards, but not all. In order to apply, students must have completed at least six units at ARC and at the time of application, be enrolled in six units. In 2006 over 200 scholarships totaling more than $120,000 were awarded. The scholarship program runs from January through March each year. Students are notified in April, and recognized at the annual awards ceremony and reception in May. Scholarship monies are disbursed beginning the first day of classes of the fall semester (mid-August). The application is completed online [www.arc.losrios.edu/funds].
In addition to the ARC Foundation scholarships, many other scholarships are available from Sacramento-area, state, and national sources.

**Student classification**

**Part-time:** Student taking fewer than 12 units.

**Full-time:** Student taking 12 or more units.

**Freshman/First year standing:**

Student who has completed fewer than 30 units.

**Sophomore/Second year standing:**

Student who has completed 30 or more units.

**Graduate:**

Student who has been awarded the Associate in Arts or Science degree, or a higher degree by an accredited college.

---

**financial aid**

The Financial Aid office is located in the Student Services Building, and administers financial aid in accordance with federal and state regulations and national policy. Funds are distributed to students who have documented financial need determined by the total resources available to them. Phone: (916) 484-8437.

Parents are considered to have the primary responsibility for assisting the dependent student in meeting the cost of education. Financial aid is available to help meet the student’s academic expenses.

Aid to independent students is available based on student contribution and the student’s academic expenses.

The free application for federal student aid (FAFSA) is used to apply for campus-based aid and the Pell Grant/Student Loans. The application allows the government to calculate the expected family contribution. The student completes the FAFSA application listing American River College as the college of choice. The FAFSA is completed online at www.FASA.Ed.Gov.

In approximately four weeks the Federal Student Aid Program will mail the student a Student Aid Report (SAR). The college financial aid office will notify the student by e-mail of the required documentation needed to complete their file. Documentation requested is confidential and must be furnished if the student is to receive aid. Students awarded financial aid are notified by e-mail.

A student or parent may not foresee accurately the expenses involved in attending college, and may find themselves in financial difficulty. While students must determine their own budget, in keeping with needs and resources, the following is the average annual cost of education for financial aid students attending American River College:

**Student eligibility requirements**

There are a number of requirements that must be met before a student is considered eligible for financial aid. Students must: 1) demonstrate financial need; 2) be a U.S. citizen or eligible non-citizen; 3) not be in default on a Perkins Loan, National Direct Student Loan, Stafford Loan, Guaranteed Student Loan, PLUS Loan, or Supplemental Loan for Students (SLS); 4) not owe a refund on a Pell Grant or Supplemental Educational Opportunity Grant; 5) make satisfactory progress (financial aid and academic); 6) agree to use any federal student aid received solely for educational purposes; 7) have earned a high school diploma or GED/proficiency certificate, or have passed the ability-to-benefit test; 8) submit all requested documentations to the financial aid office. Reminder: Men are required to register with the Selective Service System upon reaching 18 years of age in order to be eligible for federal financial aid.

Many of these items are collected at the time students apply for financial aid. Before financial aid is awarded, the Financial Aid office will verify that a student is enrolled in an eligible program and that he or she is making satisfactory progress.

**Satisfactory progress policy**

In accordance with federal regulations, all students on financial aid are required to meet established standards of satisfactory academic progress, whether or not the student is a prior recipient of financial aid. Failure to meet federal standards will result in the denial of aid. American River College students are evaluated at least once per academic year. Students must:

1. Maintain progress—successfully complete at least 75% of units enrolled (Progress percentage = Total units with a grade of “F”, “W”, “I”, “IP” and “NC” or “NP” divided by the total units attempted. Must be 25% or less.)
2. Maintain a minimum of a 2.0 ARC cumulative grade point average (GPA).

Other conditions include:

- Students who complete a degree or certificate will be denied financial aid.
- Students may attempt up to 90 units in pursuit of their educational goal. Students who have attempted 90 units or more will be denied aid.
Sources of student financial assistance

Note: General financial aid programs are need-based. Eligibility is determined by application.

# Not all Cal Grants are available to community college students.
* A federal entitlement grant program. Grant is determined by need, units and status.
** A federal grant-in-aid which does not have to be repaid. Grants may range from $150 to $600 depending on need and availability of funds. FAFSA application required.
*** Federal Grant Program - Student must be Pell Grant eligible, full time enrollment required.
**** Low-interest, long-term loan arranged through a participant commercial lending agency. May be half-time student. Repayment is deferred as long as the student is enrolled at least half time. Need based and must be awarded aid before applying for loan. Eligibility interview required.
***** A federal program which allows a student to earn part of their financial aid through a part-time job on campus. Need based, FAFSA application required.

Probation

Students who have had an academic deficiency (progress or grade point average) in one semester may be put on probation. Students on probation must submit an education plan to the financial aid office.

Appeal

All students who are denied aid for lack of satisfactory progress may appeal the denial. Appeals are submitted in writing to the Financial Aid Office and evaluated by an appeals committee. If an appeal has been denied by the committee, the student may submit a new appeal when the deficiency has been resolved.

If you receive federal financial assistance and withdraw from class(es), you may be required to repay all or part of the financial assistance you received. Failure to repay this debt may result in your loss of future federal financial assistance, your academic transcript put on hold, and collection costs assessed by the Department of Education.

If you must withdraw from school, you must follow the appropriate withdrawal procedures explained elsewhere in this catalog. Some conditions apply to certain classes. Students are eligible for aid when enrolled in those courses required for an eligible degree or certificate.

Reinstatement

A student who is disqualified may have his/her eligibility reinstated by making up the unit shortage or raising the grade point average during a semester without financial aid. The units and semesters attempted without aid count toward the maximum number of units a student can attempt. Satisfactory academic progress will be reviewed upon request for reinstatement for Financial Aid.

Student loan payments

Loan checks are mailed to students in multiple disbursements. Students must be in good standing and be enrolled in a minimum of 6.0 units. Failure to successfully complete 6.0 units in the fall semester will result in subsequent disbursements for the spring semester being denied. Note that first-time borrowers are subject to a 30-day disbursement hold on all federal loan checks.

educational progress

American River College’s academic standards and resources are intended to support a successful learning experience for all students.

We offer many services to help students achieve their educational goals. Students enrolled in degree or certificate programs are expected to demonstrate satisfactory academic progress as defined by the following three general policy requirements:

• Minimum Grade Point Average: Students must achieve and maintain the required grade point average.
• Credits Earned/Credits Attempted: Students must complete a minimum percentage of attempted credits per quarter.
• Degree/Certificate Completion: Students must complete the degree or certificate within the maximum credit limit.

The college recognizes the unique and diverse backgrounds and needs of its students, and while all students are held to the same level of academic excellence, students with special circumstances may petition for special consideration. Students enrolled in special programs are also required to follow the requirements specified by their funding agency. In addition, students receiving federal and/or state financial aid must follow the Financial Aid Satisfactory Progress Policies.

academic standards

Good standing

In determining a student’s eligibility to acquire or remain in good standing at American River College, both quality of performance and progress toward completion of objectives are considered. A student who completes 12 or more semester units, earns a 2.0 GPA on a 4.0 grading scale, and completes 50 percent or more of all enrolled units, merits good standing with the college. Students in good standing are limited to 18 units per semester. In exceptional cases, a student may initiate a petition with a counselor to exceed the 18-unit limit.

attendance requirements

Excessive absences

College students are expected to attend all sessions of their courses. Excessive absence may result in the student being dropped from class by the instructor. A student may be dropped from any class when that student’s absences exceed six percent (6%) of the total hours of class time.

If a student is absent because of illness verified by the Health Center or personal physician, the absence may be excused and the student allowed to make up work missed.

No shows

Students who have not attended at least one of the first three sessions of a class will be dropped as a no show following the third session of the class per Title V section 58004.

Change of address or name

Students must report a change of address immediately to Enrollment Services. Students will be held responsible for all misdirected mail if the address change was not provided. Change of name, social security number, and other information that would affect your student record must be reported in writing to the same office with the proper documents to substantiate the change.

grades and credit

Credit/Unit

The course grants units of credit based upon a relationship specified by the governing board between the number of units assigned to the course and the number of lecture and/or laboratory hours or performance criteria specified in the course outline. The course requires a minimum of three hours of student work per week, per unit, including class time and/or demonstrated competency, for each unit of credit, prorated for short-term, laboratory, and activity courses.

Grades and grade point average (GPA)

At the end of each semester or term, the college reports students’ grades for every enrolled course. The grading standards, with their grade point equivalents, are as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
<th>Grade Points Per Unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4</td>
</tr>
<tr>
<td>B</td>

<tr>
<td>IP</td>
<td>In progress, course transcends semester limitation</td>
<td></td>
</tr>
<tr>
<td>W</td>
<td>Withdrawal, not computed in GPA, but affects progress probation and dismissal</td>
<td></td>
</tr>
</tbody>
</table>

*Courses taken prior to June 30, 2008 will be noted on the student records as CR/NC (Credit/No Credit). Courses taken July 1, 2008 and in the future will be noted as P/NP (Pass/No Pass), per title V section 55022.
Credit/pass - No credit/No pass grading
A student may elect that one course per semester be graded on a credit/pass or no credit/no pass basis. A petition to take a class credit/pass - no credit/no pass must be filed with Enrollment Services by the deadline published in class schedule. The equivalent of an A, B, or C received for the course will be recorded as CR/P, with units earned. The equivalent of a D or F will be recorded as NC/NP, with no units earned. Units attempted for credit/pass - no credit/no pass grades are not computed in the grade point average, but are used for determining progress probation and progress dismissal.

A student who has elected to be graded on a credit/pass - no credit/no pass basis may not have the CR/P or NC/NP changed to the letter grade (A, B, C, D, F). A maximum of 20 elected credit units may be applied toward the Associate in Arts or Science degree.

Grades of incomplete
An incomplete grade (I) may be assigned by the instructor when, in the judgment of the instructor, the student is unable to complete the requirements of a course before the end of the semester because of an unforeseeable emergency or other justifiable reason. To receive credit for the course, the incomplete work must be finished no later than one year from the end of the semester in which the incomplete was assigned. A final grade will be assigned when the work stipulated has been completed and evaluated, or when the time limit for completing the work has elapsed. A student receiving an incomplete may not re-enroll in the course. A student may petition for a time extension due to unusual circumstances.

Grades of in-progress
A grade of “in-progress” indicates that a course is still in progress and a final grade has yet to be assigned. A student receiving an in-progress grade must re-enroll in the course in the subsequent semester. Failure to re-enroll will result in an evaluative (letter) grade being assigned in lieu of the in-progress.

Withdrawal from class or college
A student may withdraw from courses without a “W” notation being placed on the permanent academic record, if the withdrawal is completed prior to the published deadline. Courses dropped after the deadline will have the withdrawal noted on the permanent academic record as “W”.

A “W” is used for determining progress probation and progress dismissal. No withdrawals are permitted during the last 25 percent of a course, except due to extenuating circumstances (verified cases of accident, illness or other circumstances beyond the control of the student), for which a student may request withdrawal through the student petition process. After consultation with the instructor and with administrative approval, the withdrawal may be recorded as a “W.”

Drops and withdrawals must be completed by published deadline dates listed in the class schedule. Students may drop classes online, or in person at eServices or Enrollment Services.

Military withdrawal
Military withdrawal occurs when a student who is a member of an active or reserve U.S. military service receives orders compelling withdrawal from courses. Upon verification of such orders, a withdrawal may be assigned at any time during the semester and fees refunded. Contact the Dean of Enrollment Services, for more information.

Leave of Absence
Students may petition for a leave of absence from the college in order to maintain catalog rights (see Catalog Rights in Programs of Study section) to a specified degree requirement option. A leave of absence may be granted for verified medical or military situations that prevent the student from attending classes in any college session in a calendar year. A leave of absence shall be limited to two successive calendar years.

Withholding student records
The college reserves the right to withhold student transcripts and records and to deny future enrollment for any outstanding student obligation.

Credit by examination
Under special circumstances, a student who has successfully completed 12 units at American River College, who is currently enrolled and in good standing, and who is qualified by experience or previous training, may be allowed to take a special examination to establish credit in a course in which he/she is not formally registered, or has not received previous credit.

Note: Credit by examination is not applicable to all courses, and in some instances the process may require measures of evaluation. A student seeking credit by examination should consult the dean of the appropriate area to determine if credit by examination is allowed for a particular course.

The units granted by examination are not assigned a letter grade and may not be used to satisfy the 12-unit residence requirement for graduation. A maximum of 15 units may be allowed by examination.
College Level Examination Program (CLEP)
After completing 12 units at American River College, a student in good standing may submit qualifying scores on College Level Examination Program (CLEP) General Examinations, except for English scores, to Enrollment Services to determine eligibility for college credit. No more than 30 units may be granted toward the completion of the college’s general education requirements (not inclusive of the English requirement). Credit is not granted for CLEP Subject Examinations. Students should be aware that some two-year and four-year colleges have the right to accept, reject, or modify the CLEP units accepted by American River College.

College Entrance Examination Board (CEEB)
A maximum of 15 units may be earned by examination. Advanced Placement Examination credit is included. Students who earn acceptable scores will be awarded credit toward an A.A. or A.S. degree but grades are not awarded. Such course credit does not enter into computation of the GPA for transfer or graduation from ARC. Credit may not be earned for courses which duplicate credit already allowed for Advanced Placement Examinations. See AP (Advanced Placement) Test Scores chart at end of Getting Started section for credit given and ARC course equivalencies.

Repetition of courses
Repetition of courses must be conducted in compliance with Title V sections 55040 and 55041.

Academic renewal without course repetition
A student may petition to have previous substandard work, (D’s or F’s), earned at American River College discounted. Courses and grades which no longer reflect a student’s current educational objective and current level of academic success may upon petition be discounted in the computation of the grade point average. The following conditions must apply:

1. A minimum of 12 consecutive months shall have elapsed since the end of the semester or summer session in which the work to be alleviated was recorded; and a minimum of twelve (12) semester units (or its equivalent) with a grade of C or Credit/Pass or better shall have been attained. The coursework must have been completed at a regionally accredited college.
2. Current educational objectives must be discussed with a counselor and the counselor’s recommendation must be included on the petition.
3. No more than 30 units of substandard grades may be discounted.
4. Under no circumstances may course work be discounted if it was used to fulfill requirements for a degree or certificate that has been granted.
5. All grades remain on the permanent record and transcript of grades. However, a proper notation on the transcript will indicate the specific grades that were discounted from the grade point average.

6. Questions regarding this policy should be directed to the Dean of Enrollment Services.
7. Once elected, the academic renewal cannot be reversed.
8. Academic Renewal is not intended for courses that are required and/or will be repeated.

Academic renewal petitions are available in the Counseling Center.

Remedial unit limitation
The California Community Colleges Board of Governors has adopted regulations limiting the number of remedial course units a student may take to 30. These courses are usually numbered 1-99. Students may petition for a waiver to the thirty-unit limitation through a counselor. However, federal financial aid does not allow a student to receive aid for more than 30 remedial units.

academic probation
A student is placed on academic probation if the student has attempted at least 12 units and earned a grade point average below 2.0 in all units that were graded. A student on academic probation may be subject to counselor intervention.

Progress probation
A student who has enrolled in a total of at least 12 semester units is placed on progress probation when the percentage of all units in which a student has enrolled, and for which entries of W, I and NC/NP are recorded, reaches or exceeds 50 percent of all units attempted. A student on progress probation may be subject to counselor intervention.

Unit limitation
A student on either academic or progress probation may be limited to 12 or fewer units, or to a course load recommended by the student’s counselor.

Removal from probation
A student on academic probation is removed from probation and acquires good standing when the student’s cumulative grade point average (GPA) is 2.0 or higher. A student on progress probation is removed from probation and placed in good standing status when the percentage of units with entries of W, I and NC/NP drops below fifty (50) percent of all units attempted. To see how GPA and progress percentage are calculated, see Grades and grade point average (GPA) in While You are Here section.
**Academic dismissal**

A student on academic probation is subject to dismissal when the student earns a cumulative grade point average of less than 2.0 in all graded units in at least three successive semesters.

**Progress dismissal**

A student on progress probation is subject to dismissal if the percentage of units in which the student has been enrolled for which entries W, I and NC/NP are recorded reaches or exceeds 50 percent in at least three successive semesters.

**Readmission following dismissal**

A dismissed student may petition to the Dean of Student Services for permission to enroll if the student feels that the cause for dismissal reflects extenuating circumstances. The burden of written documentation in support of these circumstances remains with the student. A dismissed student must see a counselor to initiate a student petition.

**Academic honors**

The distinction of Honors and High Honors is noted on a student’s transcript for each semester in which a student has enrolled in 12 units or more, and has earned a grade point average (GPA) of at least 3.0 (Honors) or 3.5 or higher (High Honors). Students earning High Honors will be notified by mail of their eligibility to join the college honor society.

**Fees**

Community College Enrollment fees are set by the California State Legislature. All fees are subject to change. The general enrollment fee for California residents was $20 per unit for all students as this catalog went to press. Should the California State Legislature increase enrollment fees, students who have registered for classes prior to any increase may be billed for the additional amount. See the current class schedule for a full schedule of fees, or visit our web site [www.arc.losrios.edu].

**Non-resident tuition**

Students who have not established legal residence in California will be required to pay a tuition fee in the amount of $210 per class unit (includes the Community College Enrollment Fee) at the time of registration.

**International student application fee**

Non-resident applicants who are both citizens and residents of a foreign country shall be assessed a non-refundable application process fee of $50. The application fee is due and payable with submission of the application for admission or readmission. International student applications will not be processed without payment of the fee.

**International student tuition**

International students who are admitted with a foreign student visa will be required to pay a tuition fee in the amount of $228 per class unit (includes the Community College Enrollment Fee). International students must enroll in a minimum of 12 units (full-time) and maintain good academic standing.

**Student Access Card/Universal Transit Pass Fee**

All students must pay this fee including those receiving BOG Fee Waivers. Students taking less than six units pay $5, students taking six to 11.9 units pay $10. Students taking 12 or more units pay $15. BOG students will be charged half this amount. Exempted from this fee are students at the Public Safety Training Center, those who are part of the apprenticeship program, and UCD students taking classes at the Sacramento City College Davis Center.

If your Student Access Card is lost, stolen or damaged during the academic year in which it was issued, there will be a $5.00 fee for replacement. There will be a $20.00 fee to replace lost or stolen Student Access cards which have a UTP sticker attached.

**Instructional materials fee**

Students may be required to provide instructional and other materials required for a credit/pass or no credit/no pass course. Instructional materials may be charged in certain courses.

**Parking fee**

See Transportation in While You are Here section.

**Fee refunds**

In order to qualify for an enrollment fee refund, students must drop a course by Friday of the second week of instruction for full-term courses or Friday of the first week of instruction for short-term courses, including summer session.

The student may file for the enrollment fee refund up to the last college day of instruction in any semester or summer session, provided the student has withdrawn from full-semester classes or before the tenth college day of instruction, and from less-than-full-semester and summer session classes by the fifth day of the session. For specific dates and deadlines refer to the class schedule or web site.

To qualify for a refund, the student must officially drop the class(es) online, at eServices, or Enrollment Services within the time lines published in the class schedule. The student must also file a refund application with the college business office by the last day of instruction in the semester or summer session in which class(es) were dropped.

Refund eligibility will be determined by the date the class(es) were dropped and the date the refund application is filed with the college business office.
**Maintenance allowance**

A California resident who resides more than 60 miles from the nearest public community college campus may file an application for a maintenance allowance in Enrollment Services. The rate of payment is determined by the State Chancellor’s Office, and is issued to the parent or guardian of minor non-district students, and directly to adult non-district students and married minors. Payment is based on each day of full-time scheduled attendance.

**Academic Resources**

**Athletic/Academic Support Services**

Athletic/academic support service links student-athletes to academic support programs on the ARC campus. The academic support team will also provide follow-up on individual academic progress throughout the semester. This service is free to all student-athletes.

**Beacon Program**

Beacon tutoring sessions focus on working together with other students in a collaborative learning environment. The results show that students who work collaboratively learn faster and more efficiently, have greater retention, and feel more positive about the learning experience.

The Beacon group learning experience has a long history at ARC, and many students have benefited by getting better grades, better understanding of the course content, acquiring improved study skills, and by making new friends. The Beacon tutor is a student who took the same class with the same instructor, and who has gone through a tutor training course that helps them better manage the group learning environment. Beacon is not drop-in tutoring; students are expected to attend regularly throughout the semester. Beacon study group meet throughout the campus.

**Career and Job Opportunity Center**

The Career and Job Opportunity Center offers an outstanding array of resources at no cost to assist students in choosing career options, planning for college, researching current job openings, interest assessments, resume development, interviewing techniques, and online access to job listings.

Computerized career guidance programs aid in researching occupations, finding which colleges offer a specific major, investigating potential companies and organizations. Monthly workshops are offered on resume writing, job search strategies and interview information.

Employment information is available to students who are looking for part-time, full-time work and internship opportunities. Students are encouraged to apply for jobs related to their majors in order to obtain relevant work experience. Current job listings are posted online at [www.arc.losrios.edu/career]. Students are advised to check frequently as new jobs are posted daily.

Additional services include current labor market information and on-campus recruitment by employers. Job-seeking skills workshops covering job search, resume writing and interview techniques are coordinated by the Career and Job Opportunity Center, located in the Student Services building. All these services are provided at no charge to ARC students and alumni. Call 484-8492 for additional information or visit the web site [www.arc.losrios.edu/career].

**ESL Center**

ESL (English as a Second Language) students who would like to improve their reading, writing, speaking and listening skills are encouraged to enroll in the ESL Center. Located in the Learning Resource Center, the ESL Center is open Monday through Friday. Courses offered through the center include ESL 97 and 181. Students may work in traditional workbooks, use specialized computer software, or participate in oral skills sessions to develop and reinforce their English language skills at beginning, intermediate and advanced levels.

The center is staffed with an instructor, instructional assistants, and tutors available to answer questions and review student work. Students should be enrolled in ESL 30 (or higher) to qualify for ESL 97; however, concurrent enrollment in the ESL program is not required.

**Learning Resource Center**

The Learning Resource Center (LRC) is a well-equipped, professionally-staffed facility that offers students a personal approach to academic success though small classes, independent study, individualized tutoring and alternative modes of learning.

The tutoring program is a specialized service of the LRC. The program provides individualized tutoring in most subjects for students who need academic assistance outside the classroom. In addition to individualized tutoring, the Beacon program offers group tutoring with an emphasis on collaborative learning. The small groups are led by trained tutors who have successfully completed the course for which they will be tutoring.

The Reading, Writing and English as a Second Language Centers are located in the LRC, as well, and provide an opportunity for students to enroll in individualized self-paced modules at a variety of skill levels. Additional programs housed in the LRC include Writing Across the Curriculum (WAC), Reading Across the Disciplines (RAD), and the Foreign Language Lab.

The ARC Learning Resource Center is unique because of the wide range of academic services available to students along with the latest in technology equipment.
Library
The ARC Library offers students a place for both research and study. With a quality book collection, scholarly journals, current newspapers, magazine articles, and online databases, the library is a great place to start any research project. Additionally, the library offers a learning environment by providing both individual study carrels and group study rooms. More than 100,000 items are available in the collection and additional materials are easily obtained from the other Los Rios colleges.

Students are welcome to study, search on a topic, use computers for research, and get help in finding information. Online access to the library’s catalog, e-books, and databases is helpful for researching from off campus [www.arc.losrios.edu/library].

The Reference Area has computers with Internet access, the reference books, and librarians available to assist you. Explore the catalog, research databases, and Internet links covering many academic subjects—whether the sources are books, articles, media, or web pages. Further, ARC students can gain information literacy skills by enrolling in library classes and/or coming to orientation sessions. Thirty-minute research appointments are also available allowing students to meet one-on-one with a librarian.

Services include the reserve collection, computers available for e-mail, and staff members to assist you. The Periodicals Room is where you can browse journals, magazines, and newspapers.

Librarians are on duty every hour the library is open. Call the Reference Desk: (916) 484-8458 or the Circulation Desk: (916) 484-8455.

MESA (Mathematics, Engineering, and Science Achievement) Program
Are you studying for a career in science? Want to be a mathematician or computer scientist? Plan on being an engineer? MESA can help.

Students who have on-campus friends with similar interests and career goals, and who support and motivate each other toward learning, are more likely to succeed in college. The MESA program can connect you with just such a group of friends. In addition, tutoring, study groups, and academic advising is available to program participants provide the needed academic support to ensure success.

MESA is a statewide program that offers assistance to students preparing to transfer to a four-year institution to earn a degree in fields related to mathematics, science, or engineering. Participants must be eligible for financial aid or a fee waiver, and must be in the first generation of their family to earn a four-year college degree. For more information, go to [www.arc.losrios.edu/~mesa].

Reading Across the Disciplines (RAD) Center
The RAD program helps students meet their academic goals by improving their reading and comprehension in their college-level courses. RAD students receive help in: annotating textbooks and research materials, paraphrasing techniques, developing outlines and maps, reading and understanding graphics, understanding jargon, and preparing for tests and analyzing test items. The goal is accomplished by holding individual sessions, workshops, and facilitated group meetings for students across campus. RAD works with all academic. Students need to be enrolled in college-level courses.

Reading Center
The Reading Center offers individualized, self-paced reading modules at a variety of skill levels, ranging from basic skills to college level. Instructors, instructional assistants and tutors work with students on a one-to-one basis to improve their skills in reading comprehension, vocabulary, critical analysis, textbook reading, test-taking techniques and study skills. The Center is designed to appeal to a variety of learning styles for students who can work independently.

Science Study Skills Center
Students involved in the sciences can acquire or improve their skills in note-taking, paraphrasing, graphics reading, concept mapping, test preparation, and test taking. Peer tutors assist students in individualized instructional modules. These vary, depending on student need and skill level. Students enroll in BIOL 490: Science Skills and Applications. Available spring and fall.

Tutoring Center
Available to any student enrolled in an ARC class. Peer tutors assist students—individually and in small groups—in courses the tutors have successfully completed. This service is free. Students must submit an application with the signature of the instructor who is teaching the course in which tutoring assistance is requested.

Writing Across the Curriculum (WAC) Center
Serves students who need assistance with writing assignments for all classes across campus, and with personal statements for scholarships and college transfer. Instructors and instructor assistants work with students on an individual-appointment basis, and in group workshops.

Writing Center
The Writing Center offers individualized, self-paced materials for students who can work independently and who wish to be more successful with their classroom writing assignments. The curriculum is wide ranging from basic skills to transfer level. The center is staffed by instructors, instructional assistants, and tutors, all of whom provide one-on-one help. Students may enroll through the twelfth week of the semester for .5-2 units per semester.
other services

Bookstore
The college-operated bookstore is conveniently located adjacent to the college cafeteria. The bookstore carries all required textbooks, supplemental textbooks, and a wide variety of supplies and other items. In order to better serve students, the bookstore purchases used textbooks on a year-round basis. Visit the bookstore’s web site at book.arc.losrios.edu. The bookstore is totally responsible for all of its operating costs, and any remaining profit is used to support instructional related programs and projects on campus.

Cafeteria
The college-operated cafeteria provides food service Monday through Friday, during most of the times that classes are in session. The cafeteria operates a limited service during summer. During summer, the cafeteria and kiosk are open Monday through Thursday.

Child Development Center
American River College operates childcare programs for parents who are continuing their education at ARC. The center serves toddlers starting at the age of 18 months and preschool children through the age of five. School-age childcare is only available during the summer session. Program options include part-time, full-time, mornings/afternoons. Fees for the program are based on a sliding scale set by the Department of Education, Child Development Division.

In the summer, care may be provided Monday through Thursday. Contact the center during the spring semester regarding the summer program.

The centers are licensed by the Department of Social Services. Also, the centers serve as a teaching laboratory for students in early childhood education, child development, child psychology and nursing programs. The center is staffed by Child Development Permit Teachers, who plan an implement developmentally-appropriate curriculum.

Health Center
The Health Center is located in the administration building and is staffed by registered nurses. Services include health assessment and consultation with appropriate referral to community resources; vision, hearing, and blood pressure screening; tuberculosis skin testing; Hepatitis B, tetanus and measles/mumps/rubella and influenza immunizations; reproductive health services and student testing; health education, including classroom and campus wide presentations; first aid and emergency care. All consultations are confidential. No appointment is necessary.

Transfer Center
The Transfer Center provides to students and all staff the most current information to ensure a smooth transition to four-year colleges and universities. See Transfer section of this catalog for more on transfer options and about the center’s services.
**campus life**

**Activities Office**

The campus program of student activities is coordinated through the Campus Life Center, located in the Cafeteria Building. The office serves as a focal point for students and student groups, provides support services for campus clubs and organizations, and provides information about a variety of student projects, student leadership, activities and services.

The activities office provides information about club activities, student involvement opportunities, distribution of material, publicity poster approval, general information, off-campus housing, *This Week At ARC* (weekly newsletter), student grievance information and bike locker rental. A major responsibility of the staff of the activities office is to provide guidance and support services to the Student Association officers and representatives in their endeavors to meet the needs of all students. Also, the staff assists students interested in other clubs, organizations and activities.

**The Arts**

The Fine and Applied Arts (FAA) programs at ARC are highly regarded and nationally recognized in Art, Art New Media, Fashion, Culinary Arts, Interior Design, Music, Commercial Music, Theatre and Film. With over 100 events each year, faculty and staff are committed to providing students and the community with quality academic programs that are designed to facilitate the degree seeking/transfer student, vocational student, return-to-learn student, or students who seek a creative activity to enhance their college schedule. Many students and faculty have achieved not only national recognition but international notice of creative and technical skills.

The new state-of-the art theatre, classrooms, practice rooms, and professional-level recording studio is home to the Music and Theatre Departments. Performance opportunities include: plays and musicals, student directed one-acts, Music Circus internships, Fair Oaks Summer Theatre program, the ARC orchestra and chamber ensemble, as well chamber singers, concert choir and many traditional and jazz vocal and instrumental ensembles. The James Kaneko gallery provides an on-going schedule of shows and exhibits, including works by students, faculty and highly regarded local artists.

**Clubs and organizations**

Chartered clubs on campus are organized around various special interests and promote participation in a variety of cultural and social activities. Membership is open to all interested students. More information is available from the Campus Life Center.

**College Hour**

Each Thursday noon, the college schedules fewer classes in order to leave open time for special events, speakers, workshops, concerts and other activities.

**Intercollegiate athletics**

As part of our physical education program, ARC athletics hosts 20 intercollegiate athletic teams. Fall semester sports include cross country (men/women), football (men), golf (women), soccer (men/women), volleyball (women), water polo (men/women). Fall/spring sports include basketball (men/women). Spring semester sports include baseball (men), golf (men), softball (women), swimming and diving (men/women), tennis (men/women), and track and field (men/women).

Full-time students (12 or more units) who fulfill the requirements of both the Commission on Athletics and ARC are eligible to compete in freshman and sophomore years of intercollegiate athletic eligibility. With the aim of promoting both the athletic and academic success of our student-athletes, we have a full support service for athletic training/sports medicine needs and for academic advising and support.

ARC athletic teams are well respected among both the California community colleges and the four-year college and university systems. Our teams are always competitive, regularly qualifying for post-conference play. At ARC, the student athlete is always first, preparing and competing with integrity and good sportsmanship.

**Student government**

The Student Association, through the approved charter, is the recognized student government body that represents students in all phases of college life. Student government maintains the link between the students and the administration, faculty, classified support staff, and the district’s board of trustees. Participation in student government is a valuable educational experience available to students.

**Student publications**

The *Current*, the college newspaper, is published by student staff, and the *American River Literary Review* is published each spring by students in English and Art New Media.

A weekly information sheet, *This Week*, is available every Monday. Important campus announcements are made through this publication which is distributed in bulletin boxes on campus and in the Campus Life Center.
transportation

Parking

Designated student parking areas are located in all parking lots on campus, except in parking lot E and the parking area in front of the Administration Building. (See campus map at the back of this catalog.)

All students wishing to park a motorized vehicle in designated student parking are subject to a parking fee. A parking permit (decal) may be purchased.

Automobiles: $30 per semester; $15 per summer session
Motorcycles: $15 per semester; $8 per summer session

Instead of a semester permit, students may purchase a daily parking ticket for $1 from machines located in various parking lots, as indicated on the campus map. Students driving motorcycles are encouraged to use parking permits (decals), rather than daily parking tickets.

Parking by semester decal or daily parking ticket is enforced from 7:00 a.m. to 11:00 p.m., Monday through Thursday, and from 7:00 a.m. to 5:00 p.m. on Friday, whenever classes are in session. Vehicles not having a valid parking decal or daily parking ticket properly displayed will be given a parking citation.

Citations will also be issued for violations of campus parking and traffic regulations. A copy of campus parking/traffic regulations may be obtained from the Campus Police Office, or viewed on the ARC web site [www.arc.losrios.edu/police].

Regional Transit

Sacramento Regional Transit current serves American River College via four bus routes. Information is available online: on the ARC home page [www.arc.losrios.edu] use the “Quick Links” menu, then click on “Bus Routes.” ARC students receive a substantial discount on fares for any bus or light rail service provided by Sacramento Regional Transit (not just for commuting to school), provided via the Universal Transit Pass fee that is assessed as part of the class enrollment process.

campus security

Safety at American River College is everybody’s business. Students, staff and faculty are partners with the college in creating an atmosphere that is safe and encourages learning. American River College is a diverse community within a community. During the school year, we have over 30,000 students, 350 full-time faculty, over 365 part-time faculty and a support staff of 223 working together. At the same time, the college is very much a part of the greater Sacramento metropolitan area.

The college, in accordance with its mission statement, is a community center for lifelong learning through education, cultural, and recreational programs. Many community members visit and use the services the college offers seven days a week. The college strives to be accessible to the community and welcomes the use of its facilities.

No community, of course, can be totally risk-free in today’s society. American River College strongly believes it has a major role in providing a safe learning environment, but, also, is realistic enough to recognize that students, staff and faculty must come together in a strong partnership and use common sense precautions to reduce the opportunity for criminal/anti-social activities. Crime happens in our society. We have no magical formula to stop it at our campus. Thefts, assaults and other crimes happen at American River just as at any other college campus.

To reduce the possibility that any student may be exposed to potential hazards, American River College has taken many steps, described herein, to reduce whatever risks there may be. All of us can further reduce risks by thinking about personal safety and taking common sense precautions.

Safety programs at American River College are under the direction of the Director of Administrative Services. We have a proactive approach to campus safety that is best viewed as education, prevention and our ability to respond to questionable events.

Education

The key to crime prevention is an awareness gained through education. At American River College, the College Police department, staff, faculty and students work together and take responsibility for their own safety and are ready to help others in time of need. This is a very potent force.

The vast majority of incidents on college campuses can be avoided if the college population recognizes they are potential victims and take basic precautions, such as using the “buddy system” when walking at night, locking car doors and not leaving valuables unattended. The College Police department is available to meet with groups or individuals and discuss anti-crime tactics or any anti-social activities.
American River encourages reporting of all crimes, even minor crimes, and any suspicious activity. The College Police department would rather have a hundred unfounded calls of suspicious activities than miss one call when a crime is occurring. We need to know about crimes that occur. If we are not informed of a crime, we cannot advise and help students and staff. Crimes occurring on campus should be reported immediately to a College Police Officer.

When appropriate, the College Police will contact the Sacramento Sheriff’s department for assistance and/or to conduct an investigation. A College Police report will be made; a copy of the report will be made available to the reporting individual provided he/she is the victim of the crime. Officers may be contacted by telephone or by coming to the College Police office located on the west side of the Gym parking lot.

College police officers are available to address classes about prevention of crime. Additionally, the Student Association has hosted forums on crime prevention at which outside experts as well as college police officers have offered commonsense approaches to avoid becoming a victim of a crime.

American River College offers a major in Chemical Dependency Studies which is accredited by the California Alcoholism and Drug Counselors Educational Program. American River College is committed to a drug-free campus. Violators will be subject to disciplinary procedures.

Forums are held throughout the year by the campus Health Center and Student Association on issues of substance abuse. A special program, the Beaver Athletic Assistance Program, has been developed to offer support and advise to student athletes on drug and alcohol abuse. The college offers its facilities for weekly meetings of Alcoholics Anonymous and Narcotics Anonymous. These meetings are offered at times convenient for students and advertised widely to students.

This information is updated annually and is available to all students, employees and applicants. Additional information is available from College Police personnel. Any serious crime involving potential bodily harm will be reported promptly to staff and students.

Prevention
The college actively supports crime prevention through a number of programs. These include:

- **Emergency automotive assistance.** While not mechanics, campus police officers are equipped and trained to start cars with dead batteries or unlock non-electric car doors when keys have been left inside the automobile. Proper identification is required for the performance of these services.
- **Lighting.** A major effort has been made to upgrade the lighting in the interior of the campus to reduce areas of darkness. Continuing progress is being made on upgrading the lighting in campus parking lots.
- **Firearms.** Firearms are not permitted on campus except for professional law enforcement officers. Persons with firearms on campus will be subject to disciplinary action. (LRCCD Regulation 2441)
- **Alcohol.** Consumption of or being under the influence of alcohol while on campus is strictly prohibited. Violators are subject to suspension, expulsion and/or criminal prosecution. (LRCCD Policy 2443)
- **Emergency telephones.** Outdoor emergency telephones are strategically located throughout the campus. These phones are marked and easily identified by a blue light. When accessed, these emergency telephones will automatically connect the caller to the College Police department.
- **Illegal drugs.** The use, sale, or possession on campus of, or presence on campus under the influence of, any controlled substance is strictly prohibited. Violators are subject to suspension, expulsion and/or criminal prosecution. (LRCCD Policy 2441 and 2443)
- **Sexual harassment.** Sexual harassment in any situation is unacceptable and is in violation of state and federal laws and regulations. Corrective action will be taken where evidence of sexual harassment is found. (LRCCD Policy 2423)
- **Hate violence.** Any act of physical intimidation or physical harassment, physical force or physical violence, or the threat of physical force or physical violence, that is directed against any person or groups of persons, or the property of any person or group of persons because of the ethnicity, race, national origin, religion, sex, sexual orientation, disability, or political or religious beliefs of that person or group will not be tolerated. Appropriate action will be taken where evidence of hate violence is found.
- **Sexual assault.** In accord with California Education Code section 67385, students, faculty and staff who are victims of sexual assault committed at or upon the grounds of or upon off-campus grounds or facilities maintained by the college shall receive information and referral to treatment. The campus procedure relative to incidents of sexual assault is contained in student/staff handbooks, class schedules and in the counseling and campus health centers.
- **Computer Related Crimes.** Tampering, interference, damage and unauthorized access to lawfully-created computer data and computer systems is a violation of Penal Code 502 (LRCCD Policy 2441.)

Response
American River College employs P.O.S.T. certified police officers and community service officers who have public safety experience and are sworn peace officers under California Education Code 72330. While on campus, they are empowered to conduct investigations and make arrests for violations and infractions they observe. They are responsible to assist in providing a safe campus environment, detecting and reporting safety/fire hazards, enforcing traffic and parking regulations, and promoting crime prevention. All campus police officers have current certification in CPR and first aid.
The officers patrol in fully equipped vehicles and are dispatched through a central communication center. At those times when there is no dispatcher (after 10 p.m. and on weekends), the officers are available by cellular telephone at 764-7860.

The College Police department coordinates its activities with the Sacramento Sheriffs department. All officers are in radio communication with the Sheriffs department while on duty.

**non-discrimination policy**

American River College, as part of the Los Rios Community College District, supports established policies to support learning and work environments that are free from discrimination, based upon sex, sexual orientation, age, race, color, religion, creed, national origin, ethnic group, marital or parental status, physical or mental disability, or any other unlawful consideration; sexual harassment; as well as providing for college premises that are drug and alcohol free. Our policies are rooted in established state and federal laws, and support a psychologically safe working environment for students, staff, and the community. Further information may found on the Los Rios web site [www.losrios.edu/legal/GCpolreg].

*National*

On-campus refers to crimes committed on the campus property, non-campus refers to crimes committed at all Outreach Centers and properties that are leased or rented by ARC for instructional purposes.

Non-campus bldgs. only include crimes that occurred in the specific times used by ARC.

Public property refers to those areas immediately adjacent to and accessible from the College, including streets, sidewalks, parking facilities, parks. It does not include private residences or businesses.

The Los Rios Community College District's Annual Security Report for American River College includes statistics for the previous three years concerning reported crimes that occurred off-campus, in certain off-campus buildings or property owned by American River College and on public property within, or immediately adjacent to and accessible from, the campus. The full report also includes institutional policies concerning campus security, such as policies concerning sexual assault, and other matters. This report is distributed/posted by October 1 each year. You can obtain a copy of this report by contacting the Los Rios Police Department at (916) 558-2365, or by accessing the following website: www.arc.losrios.edu/clery.

---
access to student records

The Los Rios Board of Trustees, in order to meet the provisions of the Family Rights and Privacy Act of 1974 and the Education Code, has established policies giving students access to certain designated records. A summary of the rights and procedures for access are contained in the Students Rights and Responsibilities section of the Los Rios Community College District Policy manual. Complete copies of the Act, Education Code, and Board policies are available in the offices of the Dean of Enrollment Services, and the Vice President, Student Services.

District Regulation 2265 provides for the release, without student consent, of specific student directory information (student name, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and most recent previous public or private school attended). In addition, federal law provides that representatives of the U.S. Department of Defense shall be provided a student’s name, address and telephone number for recruitment purposes. Students have the right to refuse the release of directory information by submitting a written request to Enrollment Services.

student rights & responsibilities

I. Preamble
(Approved by the Los Rios Community College Board of Trustees, June 3, 1970, revised March 6, 1996).

The policy statement below, relating to students’ rights and responsibilities is based upon three fundamental concepts:

A. College students, citizens of the United States and foreign guests are members of the academic community. They have the same rights and freedoms that all citizens have as students, and must comply with federal and state laws and statutes. In addition, students must also comply with Los Rios Board policies and individual college rules and regulations.

B. The president of a college in the district serves as the chief administrator of the college and is responsible for the overall supervision of the operation of the college in conformity with the directives and duties as defined by the district chancellor and consistent with the policies of the Board of Trustees.

C. In any conflict relating to student discipline, students shall be informed in writing of charges to be brought against them and be given an opportunity to defend these charges.

II. Student rights

In the context of these concepts, students’ rights consist of the following:

A. In preparing student publications, the editorial staff and faculty advisors shall be free from censorship and advance copy approval except as provided by published district policy, statutes, or campus regulation. These publications shall do the following:

1. Adhere to canons of responsible journalism, such as avoidance of libel, indecency, undocumented allegations, attacks on personal integrity, and the techniques of harassment and innuendo.

2. State on the editorial page that the opinions expressed are not necessarily those of the college or the student body.

B. Students shall have the right to take stands on issues, the right to examine and discuss questions of interest to them, and the right to support causes by orderly means which are in harmony with the regular functioning of the institution.

C. Students shall have the right to hear speakers on any subject and on-campus recognized student organizations shall have the right to present speakers on any subject. In addition, students shall have the right of free assembly on each campus subject to regulations that assure the regular functioning of the institution. The policies and regulations shall include reasonable provisions for the time, place and manner of conducting these activities, but shall not prohibit the right of students to exercise free expression including, but not limited to, the use of bulletin boards, the distribution of printed materials or petitions, and the wearing of buttons, badges and other insignia. Expression which is obscene, libelous or slanderous according to current legal standards, or which so incites students as to create a clear and present danger of the commission of unlawful acts on college premises, or the violation of lawful district or college regulations, or the substantial disruption of the orderly operation of the college, shall be prohibited.

D. Students shall have the right to form an organization around any particular interest; this right will include the freedom to organize and to join student organizations subject to published campus and district regulations.

E. Students shall have the right to be informed on all campus matters that can be shown to be directly relevant to them by having a voice in decision making that affects their academic future with the exception of staff appointment, termination and tenure. In case of conflict in determining what campus matters are relevant to students, the determination will be made by a campus-designated student, faculty, administrative committee. In addition, student representatives shall be members of all faculty and administrative committees related to students’ concerns; such student representatives shall have a vote as committee members.
F. Students shall have the right to have their academic records treated in a confidential and responsible manner with due regard to the personal nature of the information these records contain. Students’ records will be released only on the written consent of the students or as provided by law.

G. Students shall have the right of protection against prejudiced or capricious academic evaluation. At the same time, however, students are responsible for maintaining standards of academic performance established in advance for each course in which they are enrolled.

H. Students shall have the right to file a grievance as outlined in the procedures of the District Student Grievance Policy, in the event of an alleged breach of their rights. (See Policy# P2412, R2412)

III. Student responsibilities
Admission to college assumes the expectation that the student will be a responsible member of the college community; will obey the law; comply with the published rules and regulations of the college; respect the rights, privileges and property of the other members of the college community; and not interfere with legitimate college affairs. Students will assume the responsibility for their conduct. In the case of student conduct which involves an alleged or proven violation of criminal law, the disciplinary authority of the college will not be used to duplicate the function of criminal authority. Disciplinary action may be taken if the conduct also involves a violation of district or campus policy.

IV. Student conduct code
The California Education Code requires every community college governing board to adopt specific rules governing student behavior along with applicable penalties for violation of such rules and regulations. (Section 66300, Chapter 5 Rules of Student Conduct; E.C. 76030 Authority to suspend or expel.)

All students enrolling at American River College assume an obligation to abide by all College rules and regulations. These regulations are described in the Los Rios Community College District Board of Trustee Policies, Section 2400 Student Rights and Responsibilities/ 2440 Standards of Conduct and Due Process. Students who choose not to abide by these standards will be subject to college sanctions and disciplinary measures.

The president of the college may authorize the suspension of a student for good cause (E.C. 76033) which is defined for numerous offenses which includes:

1. Continued disruptive behavior, continued willful disobedience, habitual profanity or vulgarity, or the open and persistent defiance of the authority of, or persistent abuse of, college personnel.

2. Assault, battery, or any threat of force or violence upon a student or college personnel.

3. Willful misconduct which results in injury or death to a student or college personnel or which results in cutting, defacing, or other injury to any real or personal property owned by the district.

4. The use, sale, or possession on campus of, or presence on campus under the influence of, any controlled substance, or any poison classified as such by Schedule D in Section 4160 of the Business and Professions Code.

5. Willful or persistent smoking in any area where smoking has been prohibited by law or by regulation of the governing board.

6. Persistent, serious misconduct where other means of correction have failed to bring about proper conduct.

7. Good cause is further defined, but is not limited to the following:

a. Violation of college rules and regulations including those concerning student organizations, the use of college facilities, or the time, place and manner of public expression and distribution of materials.

b. Obstruction or disruption of teaching, research, administrative disciplinary procedures or other college activities, including its community service activity, or of other authorized activities on college-controlled premises.

c. Theft of or non-accidental damage to property of the college or a member of the college community or campus visitor while on campus or at college-sponsored events.

d. Unauthorized entry to or use of college facilities.

e. Dishonesty, such as cheating, plagiarism or furnishing false information to the college, forgery, alteration or misuse of college documents, records or identifications.

f. Knowing possession or use of explosives, dangerous chemicals or deadly weapons on college property or at a college function without prior authorization of the College President or designated representative.

g. Use, possession, distribution or being under the influence of alcoholic beverages, narcotics or dangerous drugs on college property or at college-sponsored events.

h. Soliciting or assisting another to do any act which would subject a student to expulsion, suspension, probation, or other discipline pursuant to this policy.

i. Violation of any order of a College President, notice of which has been given prior to such violation, and when order is not inconsistent with any of the other provisions of this policy. This notice may be given by publication in the college newspaper, by posting on an official bulletin board designated for this purpose or by any other means reasonably calculated to inform students of its provisions.

j. Attempting to do any of the causes for disciplinary action identified above.
8. **Computer-Related Crimes:** A student may be subject to disciplinary sanctions up to and including dismissal for commission of any computer-related crimes as specified in Section 502 of the Penal Code. Such crimes include, but are not limited to, the following:

   a. Knowingly access and without permission alter, damage, delete or otherwise use any data, computer system or computer network in order to either (a) devise or execute any scheme or artifice to defraud, deceive or extort, or (b) wrongfully control or obtain money, property or data.

   b. Knowingly access and without permission take, copy or make use of any data from a computer, computer system or computer network, or take or copy any supporting documentation, whether existing or residing internal or external to a computer, computer system or computer network.

   c. Knowingly and without permission use or cause to be used computer services.

   d. Knowingly access and without permission add, alter, damage, delete or destroy any data, computer software or computer programs which reside or exist internal or external to a computer, computer system or computer network.

   e. Knowingly and without permission disrupt or cause the disruption of computer services or deny or cause the denial of computer services to an authorized user of a computer, computer system or computer network.

   f. Knowingly and without permission provide or assist in providing a means of accessing a computer, computer system or computer network in violation of this section.

   g. Knowingly and without permission access or cause to be accessed any computer, computer system or computer network.

   h. Knowingly introduce any computer contaminant into any computer, computer system or computer network.

No student shall be removed, suspended or expelled unless the conduct for which the student is disciplined is related to college activity or college attendance, or pursuant to Penal Code Section 502 or other laws specifically authorizing such.

**V. Student Grievance Policy**

The Student Grievance procedure shall be available to any student who believes an action or decision of the district or college staff has adversely affected his/her status, and/or rights as outlined under II. STUDENTS’ RIGHTS. Grievances relating to grades are subject to Education Code 76224 (a) which reads:

“When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student’s grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetency, shall be final.”

The complete text of the district’s policy, regulation, and timeline on Student Grievance is available in the office of the Dean of Student Development. Students who wish to exercise a grievance can receive policy and procedural steps from the Dean of Student Development.

The College Student Grievance Officer may assist the student in the procedural steps of a student grievance. The name and location of the College Student Grievance Officer can be obtained from the office of the Vice President, Student Services.  
*Revised by Los Rios CCD Board of Trustees, July 8, 1992*

**VI. Sexual harassment**

**Sexual harassment policy**

It is the desire of the Los Rios Community College District Board of Trustees to provide for all students and employees an educational environment and work place free from sexual harassment. Sexual harassment in any situation is unacceptable, and is in violation of state and federal laws and regulations. Where evidence of harassment is found, appropriate corrective action shall be taken.

**Definition of sexual harassment**

A. Sexual harassment means unwelcome sexual advances, requests for sexual favors, and other verbal, visual, or physical conduct of a sexual nature, made by someone from or in the work or educational setting, under any of the following conditions:

1. Submission to the conduct is explicitly or implicitly made a term or a condition of an individual's employment, academic status, or progress.

2. Submission to, or rejection of, the conduct by the individual is used as the basis of employment or an academic decision affecting the individual.

3. The conduct has the purpose or effect of having a negative impact upon the individual's work or academic performance, or of creating an intimidating, hostile, or offensive work or educational environment.

4. Submission to, or rejection of, the conduct by the individual is used as the basis for any decision affecting the individual regarding benefits and services, honors, programs, or activities available at or through the educational institution.

B. For the purpose of further clarification, sexual harassment includes, but is not limited to:

1. Making unsolicited written, verbal, visual, or physical contact with sexual overtones. Some examples are: epithets, derogatory comments or slurs of a sexual nature; impeding or blocking movements or any physical interference with normal work; derogatory posters or cartoons.

2. Continuing to express sexual interest after being informed that the interest is unwelcome. (Reciprocal attraction is not considered sexual harassment.)
3. Within the work environment, engaging in explicit or implicit coercive sexual behavior which controls, influences, or affects the career, salary and/or work environment or any other term or condition of employment; within the educational environment, engaging in explicit or implicit coercive sexual behavior which controls, influences, or affects the educational opportunities, grades and/or learning environment of the student.

4. Making reprisals, threats of reprisal, or implied threats of reprisal following a negative response to a sexual advance. For example, within the work environment, either suggesting or actually withholding support for an appointment, promotion, or change of assignment; suggesting a poor performance report will be prepared, or suggesting probation will be failed. Within the educational environment, either suggesting or actually withholding grades earned or deserved; suggesting a poor performance evaluation will be prepared; or suggesting a scholarship recommendation or college application will be denied.

5. Offering favors or educational or employment benefits, such as grades or promotions, favorable performance evaluations, favorable assignments, favorable duties or shifts, recommendations, reclassification, etc., in exchange for sexual favors.

Complaint procedure and impact

Any individual who believes that he or she has been sexually harassed is encouraged to follow the complaint procedures as set forth in the District’s Affirmative Action Regulation R-2423. Throughout the procedures, the College President and the College/District Affirmative Action Officers will insure that confidentiality will be maintained and that due process will be followed with respect to both parties.

In the case of a student, it shall not affect grades, class selection, or other matters pertaining to his or her status as a student. In a situation where evidence is found that an allegation of sexual harassment is brought solely for the purpose of vexation, the appropriate disciplinary action will be taken. Sexual harassment policy, procedural steps and forms are available from the campus Equity Officer, Associate Vice President, Instruction at 484-8405.

VII. Student and family access to records

The Los Rios Board of Trustees, in order to meet the provisions of the Family Rights and Privacy Act of 1974 and the Education Code, has established policies giving students and parents of dependent students access to certain designated records. A summary of the rights and procedures for access are contained in the Students Rights and Responsibilities section of the Los Rios Community College District Policy manual. Complete copies of the Act, Education Code, and Board policies are available in the office of the Dean of Enrollment Services.

District Regulation 2265 provides for the release, without student consent, of Student Directory Information, i.e. student’s name, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and most recent previous public or private school attended. In addition, federal law provides that representatives of the U.S. Department of Defense shall be provided a student’s name, address and telephone number for recruitment purposes. Students have the right to refuse the release of directory information by submitting a written statement to Enrollment Services.

Reporting sexual assault

1.0 Procedure

1.1 It is the objective of the College, in accord with EC67385, that students, faculty and staff who are victims of sexual assault committed at or upon the grounds of or upon off-campus grounds or facilities maintained by the College shall receive information and referral to treatment. This information shall be provided with sensitivity and in consideration of the personal needs of the victim.

2.0 Notification

2.1 Any student, faculty or staff member who is a victim of sexual assault at a College facility as defined above should notify the Campus Police Department. With the consent of the victim, the Campus Police Department will notify the Associate Vice President, Instruction and Campus Health Center.

3.0 Legal reporting

3.1 Pursuant to legal requirements the Campus Police Department will notify the appropriate local law enforcement agency of the reported sexual assault.

3.2 In accord with the Campus Crime Awareness and Security Act of 1990, the College, on an annual basis, shall notify students and employees of statistics concerning specific types of crime, including sexual assault. This notice shall be made through appropriate publications/mailings.

3.3 In case of violent crimes considered to be a threat to other students and employees, the College shall make timely reports, respecting the confidentiality of the victim, to the College community in a manner that will aid in the prevention of similar occurrences.

4.0 Campus services and resources

4.1 Upon notification of a sexual assault, the Campus Police Department will make available to the victim a description of campus resources and services available to the victim as well as appropriate off-campus services. This listing of resources and services shall be updated each September 1 or more frequently as required.
4.2 The listing of resources and services shall be available through the Campus Police Department, the Counseling Center and the Health Center.

4.3 A victim of sexual assault shall be provided with information about the existence of at least the following options: criminal prosecutions, civil prosecutions, the disciplinary process through the college, the availability of mediation, academic assistance alternatives, and mental health counseling.

5.0 Case management

5.1 A victim of sexual assault shall be kept informed by the College President/designee of the status of and disposition of any District/College disciplinary proceedings in connection with the sexual assault.

5.2 The Counseling Center and Health Center shall assist, upon request, the victim of sexual assault in dealing with academic difficulties that may arise because of the victimization and its impact.

6.0 Confidentiality and requests for information

6.1 The identity of a victim of sexual assault shall remain confidential unless otherwise prescribed by law. Requests for information regarding the sexual assault from the press, concerned students and parents will be handled by the College Public Information Office in accord with these regulations, the Family Educational Rights and Privacy Act applicable California Education and Administrative Code sections, and Los Rios Community College District Policy.

7.0 Dissemination of Procedure

7.1 These procedures shall be published in all student, faculty and staff handbooks and shall be given to any student or employee who is the victim of sexual assault.

---

**ARC is a drug-free campus**

The abuse of illicit drugs and alcohol disrupts classes, compromises our physical and mental health, subjects us to criminal penalties, and impairs our ability to benefit from the learning experience. We therefore ask you to actively support the creation of a drug and alcohol free learning environment by knowing and making others aware of college policies and the substantial health and legal consequences of abuse. If you or someone you know is having problems with alcohol or drugs, contact one of the agencies listed on this page.

**District policy**

Los Rios Community College District policy 2443 states that the District “...is committed to maintaining a drug and alcohol free workplace in accordance with the requirements of the U.S. Drug-Free Workplace Act of 1988, and a drug and alcohol free college environment for students and employees in accordance with the requirements of the Drug-Free Schools and Community Act Amendment of 1989”

**Legal sanctions**

The LRCCD Standards of Student Conduct prohibit the use, sale, or possession on campus of, or presence on campus under the influence of, any controlled substance. Controlled substances include; cocaine, marijuana, LSD, heroin, methadone, mescaline, peyote, and methaqualone, among others.

If you abuse drugs of alcohol on campus, or appear on campus or at a college-sponsored function under the influence of drugs or alcohol, you can be suspended, expelled, and/or criminally prosecuted. The penalties for the more common offenses are:

- Possession or use of alcohol: year in jail and/or fine
- Possession of marijuana (oz): criminal citation and fine
- Possession of cocaine: imprisonment in a state prison
- Sales of any illegal drug; imprisonment in a state prison
- Possession or use of alcohol by a minor; one year in jail and/or fine
- If you are a student employee, you may be terminated
- You are required to report any convictions within five days of the occurrence
- You will be ineligible for financial aid

**Smoking policy**

It is the American River College policy that no smoking be permitted inside buildings, or outside within 30 feet of building entrances. This policy is to be enforced through common courtesy.
Illegal Distribution of Copyrighted Materials

American River College students are prohibited from using the Los Rios Community College District information network to illegally download or share music, video and all other copyrighted intellectual property. American River College supports the Higher Education Opportunity Act and Digital Millennium Copyright Act, including efforts to eliminate the illegal distribution of copyrighted material. Under the law, college administrators may be obligated to provide copyright holders with information about users of the FHDA information network who have violated the law.

Be aware that illegal forms of downloading and file sharing as well as the unauthorized distribution of copyrighted materials are violations of the law and may subject violators to academic sanctions from the college as well as criminal and civil penalties, including a lawsuit against you by the Recording Industry Association of America (RIAA). Learn more at www.campusdownloading.com. In addition to being illegal, file sharing drains the FHDA network’s bandwidth, which slows computer connections for students and employees who are using the network for legitimate academic purposes and ultimately costs the college money.

The college has developed policies and consequences to ensure that students respect music and other forms of intellectual property as well as conduct responsible use of the Internet. Review these policies online (www.losrios.edu/legal/Policies/P-7000/P-7831.htm). There are plenty of easy, affordable ways to get music online legally. To protect their intellectual property, companies have licensed hundreds of digital partners who offer a range of legal downloading options, including download and subscription services, legitimate peer-to-peer services, video-on-demand, podcasts and CD kiosks. For a list of sources that offer legal downloading sites, visit the RIAA website (www.riaa.com).
In this section you will find:

- Degrees and certificates
- Graduation requirements
- General education requirements
- Detailed information on all programs leading to a degree or certificate
degrees and certificates

Students come to American River College to pursue many different educational goals. However, other than those who attend to take only a few classes, most students have one of three objectives: an associate degree, a certificate, and/or transfer to a four-year college or university.

Associate Degree Programs
American River College offers both Associate in Arts and Associate in Science degrees. Students majoring in one of the two-year curricula and planning to graduate with the Associate degree must complete all of the required courses for a major (from 18 to approximately 30 plus units), fulfill general education requirements and sufficient electives to meet a minimum total of 60 units.

Certificate Programs
The Career Certificate (18 units or more) and the Certificate of Completion (17.5 units or less) are offered to students completing program requirements. Certificate programs have been developed, with the assistance of business and industrial advisory committee, to provide vocational training for students who are not necessarily seeking a college degree. A Career Certificate certifies that a student has completed all required courses for a major and is prepared to enter the career designated on their certificate. Career certificates require 18 units or more with a 2.0 grade point average in the courses leading to the certificate. A minimum of 12 units must be completed at American River College.

and Certificate concentrations:
Business
Case Management/Social Services
Environmental Design
Health Care
Recreation
Social Policy/Advocacy
Vocational Certificates:
Activity Coordinator
Leadership in Assisted Living Communities
Dementia Care
Elder Care
Ethnicity & Aging
Program Assistant
RCFE Administrator
Social Service Designee

Horticulture
Degrees: A.S. - Landscape Industry
A.S. - Nursery Industry
Certificates: Floristry
Landscape Industry
Nursery Industry

Hospitality Management
Degree: A.A. - Culinary Arts/Restaurant Management
Certificates: Culinary Arts/Restaurant Management
Restaurant Management
Introductory Baking

Human Services
Degrees: A.A. - Human Services
A.A. - Chemical Dependency Studies
Certificates: Human Services
Chemical Dependency Studies

Interdisciplinary Studies
Degrees: A.A. - English Communication and Literature
A.A. - History of Creative Arts
A.A. - Language Studies
A.A. - The Individual and Society
Certificates: CSU General Education
Intersegmental General Education Transfer (IGETC)

Interior Design
Degree: A.A. - Interior Design
Certificates: Kitchen and Bath Design
Interior Retail Merchandising
Para-Professional Interior Design Assistant

Journalism
Degree: A.A. - Journalism and Mass Communication

Legal Assisting
Degree: A.A. - Legal Assisting
Certificates: Introduction to the Law and Legal Research
Law Office Assistant
Legal Assisting

Management
Degrees: A.A. - Management
A.A. - Modern Management
Certificates: Management
Modern Management
Introduction to Leadership in Action
Leadership in Action: Psychology and Team Facilitation
Leadership in Action: Systems Thinking
Leadership in Action: Theory of Knowledge/Prediction
Leadership in Action: Variation and Statistics

Marketing
Degrees: A.A. - Advertising & Sales Promotion
A.A. - Marketing
A.A. - Retail Management
Certificate: Retail Management (WAFC)

Mathematics & Statistics
Degrees: A.S. - Mathematics
A.S. - Physical Science/Mathematics

Music
Degrees: A.A. - Music
A.A. - Commercial Music: Business
A.A. - Commercial Music: Recording
A.A. - Jazz Studies
Certificates: Commercial Music: Business
Commercial Music: Recording

Natural Resources
Degree: A.S. - Natural Resources
Certificate: Natural Resources

Nursing & Allied Health
Degrees: A.S. - LVN to RN Career Mobility
A.S. - Registered Nursing
Certificates: Acute Care Certified Nurse Assistant
Certified Nurse Assistant
Home Health Aide
Licensed Vocational Nurse (LVN) - 30-unit option

Nutrition & Foods
Certificate: Dietary Manager/Dietary Service Supervisor

Paramedic
Degree: A.S. - Paramedic
Certificate: Paramedic

Physical Education
Certificate: Fitness Specialist

Physical Science & Physics
Degree: A.S. - Physical Science/Mathematics

Political Science
Certificate: International Studies

Psychology
Degree: A.A. - Psychology

Public Safety
STC Certified Core Courses
Traffic Accident Investigations Series
POST and STC Certified Courses for Perishable Skills
POST and STC Certified Instructors Courses
Law Enforcement In-Service

Real Estate
Degree: A.A. - Real Estate
Certificate: Real Estate

Degrees and Certificates continued over
Certificates of Completion are intended to certify that students completing all required courses of a major are prepared to meet specific occupational needs, upgrade skills or for advancement in an existing career. A grade of “C” or better is required in each course leading to the Certificate of Completion issued by the department. The certificate requires completion of all courses listed in the required program of the student. Certificates of Completion require 17.5 units or less.

For certificates in Level 1 and 2, all units must be completed at American River College. For all certificates in Level 3, 12 units must be completed at American River College. Certificates of Completion are issued by the department listed in parentheses.

Level 1: 3-6 units  
Level 2: 7-11 units  
Level 3: 12-17.5 units

**Certificate**  
**Level**  
Acting (Theatre Arts) 3*  
Activity Coordinator (Gerontology) 2  
Acute Care Certified Nurse Assistant (Nursing) 2  
Advanced Electronics and Telecommunications (Electronics Tech) 3*  
Air Conditioning Service (Automotive Technology) 3*  
Assistant Teacher (Early Childhood Education) 1  
Associate Teacher (Early Childhood Education) 3*  
Basic Electronics and Telecommunications (Electronics Tech) 2  
Certified Nurse Assistant (Nursing) 1  
Children’s Theatre (Theatre Arts) 3*  
CMOS Mask Design (Electronics Technology) 3*  
Computer Information Security Essentials (Computer Information Science) 3*  
Costuming (Theatre Arts) 3*  
Digital Repair and Upgrade Technician (Electronics Tech) 3*  
Dietary Manager/Dietary Service Supervisor (Nutrition & Foods) 3  
Family Child Care (Early Childhood Education) 2  
Family Service (Early Childhood Education) 3  
Fiber Optics (Electronics Technology) 3*  
Film (Theatre Arts) 3*  
Fitness Specialist (Physical Education) 3*  
Floristry (Horticulture) 2  
Gas Metal Arc and Flux Cored Arc Welding Plate (Welding) 2  
Gas Tungsten Arc Plate and Pipe Welding (Welding) 2  
Gerontology (certificates under 3 units):  
Dementia Care  
Elder Care  
Leadership in Assisted Living Communities  
Program Assistant

Undercar Service (Automotive Technology) 3*  
Virtual Office Professional (Business Technology) 3*  
Welding Equipment Maintenance and Blueprint Interpretation (Welding) 3  
Welding Metallurgy and Inspection (Welding) 3*

*This Career Technical Education level 3 certificate has been entered into the inventory of programs at the California Community College Chancellor’s Office.*
apprenticeship

American River College conducts, in cooperation with industry, a number of apprenticeship programs. An apprenticeship program is a formal system of occupational training from one to five years, that combines paid employment, on-the-job training and job related college instruction in order to develop skilled workers. Apprenticeship programs are a cooperative effort between the Joint Apprenticeship Training Committee (JATC) and the college. The JATC is composed of representatives from both labor and management. All apprenticeship programs are approved by the Division of Apprenticeship Standards of the California Department of Industrial Relations.

Enrollment in an apprenticeship course is limited to registered apprentices. Information on admission to apprenticeship status can be obtained from the local JATC having jurisdiction over the trade in which you are interested, or from the office of the Dean of Technical Education. Apprenticeship programs are available in:

- Carpenter
- Drywall/Lathing
- Electrical
- Ironworkers
- Sheet Metal

career and technical education

The pattern of Career and Technical Education (CTE) course offerings at American River College is designed to be as flexible as possible in meeting student needs. The college encourages CTE students to plan, with counselor assistance, a course of studies which will prepare the student for a career. Educational programs in this area offer a planned curriculum which can lead to either a certificate, an Associate degree, or transfer to a four-year college. Although many four-year colleges give full or partial credit for some specialized CTE courses, these programs are not primarily designed to satisfy transfer requirements. The student planning a career technical education major and wishing to transfer to a four-year college should plan a transfer program with the assistance of a college counselor.

cooperative work experience education & internship program

Cooperative Work Experience Education is an experiential, academic program which allows students to apply what they have learned in the classroom to a work environment. Upon completion of their Work Experience (WEXP) orientation course, students may earn 1-4 units of transferable credit with a letter grade. Work Experience serves college interns, volunteers, and employees. Positions may be paid or unpaid.

WEXP internships & opportunities

Internships and volunteer experiences provide an opportunity for students to obtain work experience related to their academic or career goals. Internships assist students with developing technical skills, exploring possible career choices, building confidence, networking with people in the field, and transitioning for entry into a competitive labor market.

Students interested in internship placement assistance must apply two or more weeks before classes start through the program website https://wexp.losrios.edu/ Students are required to participate in a weekly career management orientation (course). Units earned are determined by the amount of hours worked from the first week of instruction to the last week of instruction during an enrollment term, and success with completing program forms and classroom assignments.

Employees

Work experience also assists our busy employed students who are interested in advancing within their existing work environment. Through WEXP and the approval of the student’s employer supervisor, students can apply what they have learned in the classroom to their job and earn college credit.

Note: Courses may or may not satisfy lower division major preparation, general education, and/or elective requirements. Please meet with a counselor for specific course evaluation.

How the Co-op Work Experience and Internship Program works

There are two types of Work Experience Programs: Occupational and General Work Experience.

Occupational work experience (298/498)

Occupational work experience provides students with opportunities to develop or add marketable skills related to their major study programs. These units may count towards the Area III GE pattern, and possible elective units or major units, only WEXP 498 units are transferable to CSU.

Eligible students should register for 1-4 units. One unit of credit may be earned for each 75 hours of paid work experience or for 60 hours of unpaid work experience hours worked from the first week of instruction to the last week of instruction during an enrollment term. A total of 16 units may be earned in Occupational Work Experience.

Students should also understand Work Experience requirements and unit limitations as defined by your major department requirements. Please talk to an advisor or faculty in your major department for more information.
General Work Experience (198)

General work experience education assists students in learning about the world of work and is open to all students regardless of major. Like occupational work experience, it is designed for students wanting to apply skills learned in the classroom to a work environment. These units may count towards the Area III GE pattern, and possible elective units or major units. **WEXP 198 units are NOT transferable.**

Eligible students should register for 1-3 units (Work Experience 198). One unit of credit may be earned for each 75 hours of paid work experience or for 60 hours of unpaid work experience hours worked from the first week of instruction to the last week of instruction during an enrollment term. A total of 6 units may be earned in General Work Experience.

**Work Experience students must:**
- Be working in a paid job or volunteer opportunity. Students not currently in an internship opportunity who would like assistance should contact the Work Experience & Internship Program website at https://wexp.losrios.edu/
- Have a cooperating employer by the end of the third week of the full semester or first week of an eight week (or summer session) to remain in the weekly orientation (course).
- Establish new or expanded on-the-job learning objectives with employer's assistance that will be documented and evaluated.
- Attend a weekly career management orientation (course) or qualify for the “Returning Student” status. However, attendance is required for the first orientation meeting or as stated by the instructor.

**NOTE:** To assist in a successful experience and learning opportunity, students are recommended to have taken ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.

**WEXP 198 units are NOT transferable.**

Students not currently in an internship opportunity who would like assistance should contact the Work Experience & Internship Program website at https://wexp.losrios.edu/

For more information, call 916.484.8182 or visit our website: https://wexp.losrios.edu/

---

### independent and special study

Students who are in good standing at American River College, may pursue their studies and research beyond courses listed in the college catalog through Independent Study and/or Special Study. Units taken in either Independent or Special Study may not be transferable, however, the student should consult a counselor regarding a specific college or university’s acceptance of these units.

No more than one study may be taken per semester, except regularly scheduled special study classes.

Regular meetings between student and professor will be held; examinations or other measures of evaluation, field trips, term papers, and other assignments may be required by the professor.

**Independent study**

An opportunity for the student to extend classroom experience in a specific subject, while working independently of a formal classroom situation. Independent study is an extension of work offered in a specific class in the college catalog; it carries the same credit and hour value as the class being extended. To be eligible for independent study, students must have completed the basic regular catalog course. Independent study can be declared for credit by the professor and approved by the student.

**Special study**

An opportunity to pursue a study of special interest which is not specifically covered in established catalog courses. Such study is confined to the scope of college lower division, and community college programs. While enrollment in Special Study may be on an individual basis, from time to time a special study may be established to satisfy the needs of a particular group, offered on a scheduled basis for enrollment through the regular registration process. To qualify for Special Study, the student should have completed college courses basic to the study, or have had actual field experience or special training in the field of study. Credit to a four-unit maximum is given. Note that four-year colleges and universities may not accept more than one special study in a subject and may limit the total number of special study units accepted. No more than 12 special study units may be used to fulfill graduation requirements at American River College.
Application
To apply for Independent or Special Study, a student first discusses the study with the professor who will supervise the study and with the area dean. The student then completes the petition and course description forms with the assistance of the professor, who will process the petition. If it receives final approval, the student is registered in the course and receives a grade as in any regularly scheduled course. Petition for Independent or Special Study must be filed by the deadline published in the class schedule in the semester in which the study is to be completed.

Course numbering
Under the numbering system which went into effect in 2003, non-transfer and transfer courses are clearly distinguished by specific number ranges (100-299 for non-transfer courses; 300-499 for transfer courses). In most departments, courses are now numbered in prerequisite order (MATH 25, 32, 100, 120, & 300, for example).

1-99 Basic Skills and Developmental courses are numbered 1-99. They are not acceptable for associate degree or transfer credit.

100-299 College-level, non-transfer courses are numbered 100-299. They are primarily occupational or technical and meet associate degree requirements such as apprenticeships and fire technology. Some are acceptable for transfer by four-year institutions offering degrees in similar subject matter. Check with your counselor.

300-499 College-level, transfer courses are numbered 300-499. They meet requirements for associate degrees and are generally accepted for transfer to four-year institutions to meet major, general education, breadth, or elective credit requirements. Check with your counselors regarding transferability of course to the University of California, private colleges, and out-of-state universities.

1000-1999 Courses at the 1000 level are typically continuing education courses for working professionals who need to update their skills for employment or licensure. The number range 1000-1999 also includes contract education courses offered by the Sacramento Regional Public Safety Training Center and other college units. The 1000 number may also be used for tutoring and other attendance-only courses such as Supervised Tutoring (e.g., HSER 1000 or HCD 1000), and for block scheduling purposes (e.g., Learning Community courses).

Graduation
American River College has one graduation ceremony each year, at the end of spring semester in May. August and December graduates, and May candidates, may participate in this commencement exercise. All students who are eligible for the Associate in Arts or Science degree must petition by the deadline dates noted in the calendar in the class schedule. Notification of eligibility to participate in the graduation ceremony is done by mail through the Dean of Enrollment Services office no later than May 1.

Catalog rights and related requirements
For purposes of graduation from any of the colleges of the Los Rios District, students who remain in attendance in one regular session (quarter, semester or summer session) at any California community college, or any combination of California community colleges, campuses of the California State University, the University of California, or any accredited institution of higher education, may elect to meet the requirements in effect at the Los Rios college from which the student intends to graduate, in one of three ways:

1. Requirements in effect at the time of admission to a Los Rios college, or
2. Requirements in effect at the time the student originally enrolled in an accredited college or university, or
3. Requirements in effect at the intended date of graduation from a Los Rios college.

Please note:
- A college may authorize or request substitution for discontinued courses.
- Students changing their major field of study may be required to complete those requirements for the major in effect at the point of change.
- For purposes of this section, “attendance” means taking classes in at least one semester, quarter, or summer session in each calendar year. Absence for attendance at another accredited institution shall not be considered an interruption in attendance.
American River College grants the degree of Associate in Arts or Associate in Science. Requirements for the degree conform to the laws and regulations of the California Community Colleges Board of Governors and the Los Rios Community College District Board of Trustees.

Students may graduate from American River College with the Associate in Arts or the Associate in Science Degree by fulfilling the following five (5) requirements:

1. Satisfactory completion of 60 units of collegiate work (excluding 200 – 299 numbered courses taken Fall 1989 – Spring 2003, 1-99 numbered courses & courses numbered 1,000 or higher taken after Spring 2003) with a C (2.0) grade point average in a curriculum that the district accepts toward the degree. At least 12 of the 60 units must be earned at American River College.

2. Students are held to the graduation requirements in place when they begin college as long as they maintain their catalog rights.

3. Major: Complete a two-year Major Program of Study offered at American River College (Minimum 18 units). Courses used to complete major requirements must be completed with a grade of ‘C’ or better.

4. Completion of ARC’s general education requirements with a minimum GPA of 2.0 in courses used for general education (21 unit minimum) or possession of a Baccalaureate Degree or higher from a *regionally accredited college or university in the U.S.

5. All students who wish to receive an A.A. or A.S. degree from American River College must demonstrate competency in writing, reading and mathematics as listed below.

A. WRITTEN EXPRESSION COMPETENCY is satisfied by the following:

a. Completion with a C or better in one of the following courses or its equivalent at a *regionally accredited college in the U.S.: BUS 310; ENGWR 300, (480); ESLW 340.

b. Passing an acceptable college writing course taken at a *regionally accredited college in the U.S. with a grade of C or better.

c. Possession of an AA/AS or higher from a *regionally accredited college in the U.S.

B. READING COMPETENCY is satisfied by one of the following:

a. Completion with a C or better of one of the following courses: ENGRD 310, 312; ESLR 340.

b. Completion with a C or better of an equivalent college level reading course at a *regionally accredited college in the U.S.

c. Possession of an AA/AS or higher from a *regionally accredited college in the U.S.

d. Achieving a qualifying score on a college level reading examination administered by a Los Rios Assessment Center. Only 2 attempts are permitted district-wide on this test.

C. MATHEMATICS COMPETENCY is satisfied by one of the following:

a. Complete one of the following with a ‘C’ or better: MATH 110, 120, 124, 300, 310, 320, 325, 330, 340, 342, 344, 350, 351, 370, 400, 401, 402, 410, 420; PHIL 325; STAT 300,301.

b. Complete an equivalent course with a C or better at a *regionally accredited college in the U.S.

c. Obtain a satisfactory score on a Los Rios Math Competency Test.

d. Possession of a BA/BS or higher from a *regionally accredited college in the U.S.

The graduation competencies listed apply only to those students who first enrolled in this college on or after Fall 2009. Students who have catalog rights that predate Fall 2009, may satisfy the graduation competencies pursuant to their catalog rights.
**ARC general education requirements 2009-2010**

**I. Humanities** – One course from the following (3 units minimum):

**II. Language & Rationality** – Two courses (6 units minimum):
- a. One course from the following: (3 units minimum)
  - BUS 310; ENGW 300, 480; ESLW 340;
- b. One additional course from the following: (3 units minimum)
  - ANTH 341*; AT 105; BUS 105; CISA 305, 315, 320; CISC 300*; CISP 315, 320, 350, 360, 400, 440; ET 310, 311; ENGW 300, 480; ENGR 310, 312; ENGW 301, 302, 330, 342, 481, 482; ESL 350; GEOG 330, 375; JOUR 300; MGMT 360; MATH 120, 124, 300, 310, 320, 325, 330, 340, 342, 344, 350, 370, 400; PHIL 320, 325; PSYC 330; SPEECH 301, 331, 361; STAT 300, 301; WELD 140

**III. Living Skills** – (3 units minimum):
- a. One Physical Education activity course with one of the following prefixes:
  - ADAPT, DANCE, FITNS, PACT, TMACT, SPORT
- b. Minimum of 2 units from the following:
  - AT 107; BIOT 308; BUS 320*; CISC 300*; ECE 330, 350*; ECON 320*; ENGED 320, 324*; ET 250; GERON 300*, 330*; HCD 310, 318, 330, 331, 336; HEED 300, 352*; HIST 399*; HSER 340*; INDIS 325; LIB 310, 318, 325; MATH 315; NUTRI 300*, 302*, 305; PSYC 340, 342, 354, 356, 358, 359*, 370*, 378*, 379*, 390, 400*, 481; SOC 335*; SPEECH 321; WELD 150; all ARC courses numbered 198, 248 & 498

**IV. Natural Science** – One course from the following (3 units minimum):
- ANTH 300, 301, 303, 480; ASTR 300, 310, 320, 330, 400; BIOL 102, 115, 116, 300, 303, 305, 310, 350, 352, 370, 400, 430, 431, 482; CHEM 305, 309, 310, 325, 334, 400; ENERGY 303; ET 303; GEOG 300, 301, 306, 307, 308; GEOL 300, 301, 305, 310, 325, 330, 342, 345; HEED 308, HORT 300; NATR 300, 302, 303, 304, 320, 330, 332; NUTRI 300*, 302*; PHYS 310, 311, 312, 350, 410; PS 300, 301; PSYC 310, 311

**V. Social & Behavioral Sciences** – (6 units minimum):
- a. AMERICAN INSTITUTIONS: One course from the following: (3 units minimum)
  - HIST 310, 311, 318, 320*, 321*, 323*, 325*, 327, 330*, 483, 484; POLS 301;
  - b. SOCIAL/BEHAVIORAL SCIENCES: One additional course from the following (3 units minimum)

**VI. Ethnic/Multicultural Studies** – (3 units minimum):

**Note:**
- *Courses appearing in more than one category may be used to satisfy only one category.
- †Courses are cross-numbered in two subject areas and may count in only one area.
- *These multicultural courses can also satisfy general education category requirements.

Required major courses taken in excess of 18 units may be used to satisfy both major and general education requirements, provided they are among the general education courses listed above.
student learning outcomes
(General Education)

The primary function of education is to transmit from each generation to the next the knowledge and skills requisite to enlarge the comprehension of our place in the universe. General Education gives breadth to the college experience, enhances the ability to learn and develops critical thinking skills.

American River College is committed to the principle of providing general education which includes: Humanities, Languages and Rationality, Living Skills, Natural Sciences, Social and Behavioral Sciences and Ethnic/Multicultural Studies. All of these are basic and necessary to participate in and contribute to a balanced life in a democratic society that is diverse in its social, cultural and educational backgrounds.

I. Humanities
At the completion of the Humanities general education requirement, the student will be able to:
• Identify values of a culture as expressed through its art or language; or
• Employ concepts or theories of a subfield of the humanities to analyze and evaluate works produced within that subfield; or
• Analyze and interpret events or artistic/linguistic works in light of historical forces/patterns; or
• Assess works produced within a subfield of the humanities as critical commentaries of culture.

II. Language and Rationality
At the completion of the English Composition portion of the Language and Rationality general education requirement, the student will be able to:
• Demonstrate effective expository and persuasive writing skills using the rules of standard written English in a written assignment of at least 1,000 words.
• Employ an academically recognized format (e.g., Modern Language Association, American Psychological Association, etc.) in a research paper.
• Revise, proofread and edit written work.

At the completion of the Communication and Analytical Thinking portion of the Language and Rationality general education requirement, the student will be able to:
• Organize and analyze information relevant to a problem or issue.
• Develop and interpret a conceptual, visual, oral or physical representation of a problem or issue.
• Develop a reasoned solution to a problem.
• Defend a position or explain a solution, using appropriate language and/or notation.
• Evaluate arguments, algorithms and/or solutions.
• Apply learned problem-solving skills to new situations.
• Distinguish the form of an argument from its content.

III. Living Skills
At the completion of the Living Skills general education requirement, the student will be able to:
• Identify and apply skills and knowledge necessary to function capably as an individual within society to achieve academic, career, and/or personal success as a lifelong learner.
• Formulate and monitor progress toward achieving well-defined goals that lead to one’s personal, social, physical, and emotional well-being through the process of on-going self-evaluation, personal awareness and self-motivation.
• Demonstrate personal management skills such as planning, time management, coping with anxiety, and the ability to work cooperatively with others.
• Recognize and explain the relationships between the social and physical environment with regards to human behavior, relationships, sexuality, nutrition, physical fitness, health, and stress management.
• Apply successful techniques for exploring and/or resolving conflicts and dealing with differences in a variety of settings.

IV. Natural Science
At the completion of the Natural Science general education requirement, the student will be able to:
• Evaluate new and accepted ideas about the natural universe using testable methodology.
• Articulate orally and/or in writing the importance of continuous examination and modification of accepted ideas as a fundamental element in the progress of science.
• Sort, arrange, and quantify objects using the international system of measurement (metric) as the standard.
• Recall basic definitions and fundamental theories of an introductory natural science.
• Analyze a wide variety of natural phenomena using basic definitions and fundamental theories of an introductory natural science.
• Apply appropriate quantitative and qualitative methods to interpret and analyze pertinent data.
• Recognize ethical components of scientific decision making and apply personal and social values within the process of decision making in scientific endeavors.

V. Social and Behavioral Sciences
a. American Institutions:
At the completion of the American Institutions portion of the Social and Behavioral Science general education requirement, the student will be able to:
• Critique the constitutions of the United States and California, and other founding documents.
• Analyze the relationships of individuals, groups, and societies at the federal, state and local levels, including conflict resolution and the establishment of governing processes.
• Evaluate significant events in the entire area now included in the United States of America, including historical and ongoing influences of social, cultural, and economic groups, and regions they inhabit.
• Assess the influence of the aforementioned groups on domestic and foreign affairs within a framework of politics, economics, social movements, and geography.

b. Social/Behavioral Sciences:
At the completion of the Introductory Methods portion of the Social and Behavioral Science general education requirement, the student will be able to:
• Differentiate and evaluate the methods of inquiry and evidence used in the behavioral and social sciences.
• Critically assess the dynamic interaction between individuals and societies, and compare the functioning of subgroups within and between different societies.

VI. Ethnic/Multicultural Studies
At the completion of the Ethnic/Multicultural Studies general education requirement, the student will be able to:
• Examine one's own culture from a removed perspective.
• Examine various cultures/ethnicities through the authentic voices/perspectives of those same cultures.
• Investigate how several cultural/ethnic groups have interacted through time.
• Analyze how the concepts of ethnicity, ethnocentrism, and racism shape and explain ethnic experience.
• Synthesize 1 & 2 into an appraisal of one's own identity within local cultural contexts.

prerequisites, corequisites & advisories
It is the intent of American River College to guide students into courses in which they will have the greatest chance for academic success. Therefore, you will find courses that have prerequisites, corequisites or advisories in their description. The definitions for prerequisites, corequisites and advisories are:
a) “Prerequisite” means a course that a student is required to take and pass in order to demonstrate readiness for enrollment in another course or educational program.
b) “Corequisite” means a course that a student is required to take in the same session as another course.
c) “Advisory on recommended preparation” means that a student is advised, but not required, to take a specific course before or in conjunction with enrollment in another course or educational program.

Prerequisite verification
Students enrolled in courses that have a prerequisite will be asked to provide verification to the instructor that they have met the prerequisite. Verification can consist of a counselor verification form or student copy of a grade report (unofficial transcript.) Corequisite verification requires a student registration printout. Students should bring verification with them to the first class meeting. Students trying to add a class that is full need to provide verification before the instructor will issue a permission number for enrollment. It is the student's responsibility to verify that he or she has completed the prerequisite or has the required skills.

Prerequisite challenge procedure
Students who do not meet a prerequisite should seek counseling advice for making an appropriate course selection, prior to enrolling in Associate degree credit courses. If you feel that you can meet the requirements, or one of the conditions below exists, then you can challenge a prerequisite. A Prerequisite Challenge Form may be obtained from the appropriate division, or the Counseling Center. The form will explain what you must do. Criteria for challenging a course are:
1) You have knowledge or ability to succeed in the course without the prerequisite.
2) The course which provides the prerequisite is not readily available.
3) You believe that the prerequisite is discriminatory or being applied in that manner.
4) You believe that the prerequisite was established in violation of regulations and/or the established district-approved policy and procedures.

Once you have completed the challenge procedure, your challenge will be reviewed by a department's Prerequisite Challenge Committee. You will be informed in writing of the committee's determination within five working days of the review. Working days consist of days that faculty are on campus and classes are in session. If you register for a class and do not meet the prerequisite, the instructor has the right to drop you from the class.
Accounting Degree

The Accounting degree focuses on preparation for careers in various accounting professions. The program develops a common foundation in accounting and business, and provides various courses covering both fundamental and specialized accounting topics to meet individual career goals.

Student Learning Outcomes

Upon completion of this program, the student will be able to:
- Evaluate and perform all steps in the financial accounting cycle.
- Track and analyze costs within a company.
- Analyze and communicate appropriate information to managers, investors, creditors, and other interested parties utilizing a variety of reports.
- Audit financial statements and express appropriate opinions on those statements.
- Integrate the principles of business, business law, ethics, and economics into accounting functions.
- Apply accounting standards and techniques to one or more specialized areas of accounting.

Career Opportunities

The Accounting degree is designed for a variety of student objectives. The degree includes courses required for immediate employment in accounting positions. Also, these courses meet the requirements of governmental employers for promotional exams. Students seeking transfer to four universities will meet the transfer requirements of financial accounting (ACCT 301) and managerial accounting (ACCT 311). Individuals with existing Bachelors Degrees can also use these courses to meet the requirements to take the exam for Certified Public Accountant.

Accounting Certificate

The Accounting certificate provides occupational training and preparation for entry level clerical and technical positions in various accounting careers. The program provides a strong background in fundamental accounting concepts and typical accounting computer applications. In addition, the program provides various specialized accounting topics to meet career individual goals.

Student Learning Outcomes

Upon completion of this program, the student will be able to:
- Evaluate and perform all steps in the financial accounting cycle.
- Track and analyze costs within a company.
- Analyze and communicate appropriate information to managers, investors, creditors, and other interested parties utilizing a variety of reports.
- Implement and utilize typical software applications used by accountants and small business.
- Integrate the principles of business law and ethics into accounting functions.
- Apply accounting standards and techniques to one or more specialized areas of accounting.

Career Opportunities

The Accounting certificate includes courses required for immediate employment in accounting positions. Also, these courses meet the requirements of governmental employers for promotional exams. Students seeking transfer to four-year universities will meet the transfer requirements of financial accounting (ACCT 301) and managerial accounting (ACCT 311). Individuals with existing Bachelor’s Degrees can also use these courses to meet the requirements to take the exam for Certified Public Accountant.

Taxation Certificate

The Taxation certificate is designed to provide occupational training and continuing education in the areas of tax preparation and consulting. Courses in this program provide a background in personal, corporate, partnership, and estate taxes, as well as work experience in the field of taxation. Practical experience is obtained through required participation in the Volunteer Income Tax Assistance (VITA) program.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Assemble federal and California individual income tax returns.
- Prepare federal and California corporate and partnership income tax returns.
- Produce federal estate, gift, and trust tax returns.
- Research federal and state tax issues.
- Advise and assist clients with federal and state income tax returns and tax planning.

*Enrollment in ACCT 498, BUS 498, or WEXP 498 with income tax work experience may be substituted with approval of the VITA coordinator.

ACCT 101 Fundamentals of College Accounting 3 Units

Prerequisite: ACCT 301 with a grade of "C" or better.

Hours: 54 hours LEC

This is an introductory course in small business accounting. It covers the accounting cycle for service and merchandising businesses. Topics include the general journal, the general and subsidiary ledgers, and adjusting, correcting, and closing journal entries. Income statements, statements of owner equity and balance sheets are prepared and analyzed. Additional topics include cash management and bank reconciliations, sales and purchase discounts, sales taxes, and payroll. This course is required for accounting degree and certificate candidates.

ACCT 103 Intermediate Accounting - Part I 4 Units

Prerequisite: ACCT 301 with a grade of "C" or better.

Hours: 72 hours LEC

This course continues the study and evaluation of financial statements with emphasis on cash flows, receivables, liabilities, inventory, and long-term assets. This course is typically offered in the Fall semester only.

ACCT 104 Intermediate Accounting - Part II 4 Units

Prerequisite: ACCT 301 with a grade of "C" or better.

Advisory: ACCT 103.

Hours: 72 hours LEC

This course continues the study and evaluation of financial statements with emphasis on long-term assets, equity, income tax, and financial statement evaluation. This course is typically offered in the Spring semester only.

ACCT 107 Auditing 3 Units

Prerequisite: ACCT 301 with a grade of "C" or better

Advisory: ACCT 103 and 104

Hours: 54 hours LEC

This course covers auditing practice and theory in accounting. This course emphasizes the content of financial statements and the accompanying footnotes. Topics include Generally Accepted Accounting Principles (GAAP), ethics, accounting research methodology, and internal control analysis. This course is typically offered in the Fall semester only.

ACCT 108 Careers in Accounting 2 Units

Hours: 36 hours LEC

This course provides the role of the accountant in today's business environment, the different job accountants do, and the types of employment opportunities available for accountants in public, private for-profit, private non-profit, and governmental accounting. This course is typically offered in the Fall semester only.
ACCT 109  Professional Ethics for Accountants  1 Unit
Prerequisite: ACCT 301 with a grade of “C” or better.
Advisory: ACCT 107.
Hours: 18 hours LEC
This course provides a framework for ethics in the accounting profession. Topics include ethics of accountants, auditors, and organizations including ethical expectations, professional responsibilities, and ethical decision making. The course emphasizes the California Accountancy Act, including the impact of statutes, regulations, and cases on current practice situations. The provisions of the American Institute of Certified Public Accountants (AICPA) Code of Professional Conduct are reviewed and examined through rulings and cases. High-profile cases, including Enron, and other ethical lapses are evaluated. Codes of conduct from the Institute of Management Accountants and Institute of Internal Auditors are reviewed, evaluated, and compared to those of the AICPA.

ACCT 111  Cost Accounting  3 Units
Prerequisite: ACCT 311 with a grade of “C” or better.
Hours: 54 hours LEC
This course is a continuation of managerial and cost accounting systems. Emphasis is placed on the development of quantitative information needed by managers for analyzing, planning, operating, and controlling manufacturing and service related businesses. This course is usually offered Spring semester only.

ACCT 121  Payroll Accounting  3 Units
Prerequisite: ACCT 101 with a grade of “C” or better.
Advisory: CISA 315.
Hours: 54 hours LEC
This course covers current practices in payroll accounting and tax reporting, including federal and state laws that affect payroll records and reports. Topics include both manual and computer payroll systems with hands-on computer applications.

ACCT 125  Federal and State Taxation  4 Units
Hours: 72 hours LEC
This course covers federal and California tax regulations pertaining to individual returns. Topics include filing of returns, income and adjustments, itemized deductions, and gains and losses. It meets the qualifying education requirement of the California Tax Education Council.

ACCT 127  Volunteer Income Tax Assistance (VITA)  2 Units
Corequisite: ACCT 125
Hours: 24 hours LEC; 36 hours LAB
This course prepares students to qualify as tax preparers and conduct and manage a Volunteer Income Tax Assistance (VITA) program recognized by the Internal Revenue Service (IRS). Students assist taxpayer-clients in the preparation and electronic filing of both federal and California income tax returns.

ACCT 128  Taxation of Corporations, Partnerships, Estates, and Trusts  4 Units
Prerequisite: ACCT 125 and 301 with grades of “C” or better
Hours: 72 hours LEC
This course provides a continuing study of federal and state income tax compliance with an emphasis on the taxation of business entities including corporations, partnerships, limited liability companies, S-corporations, estates and trusts. Topics include related party transactions, filing requirements, differences in book and taxable income, tax computation, available credits, tax elections, and working with the Internal Revenue Service on tax administration matters.

ACCT 153  Governmental Accounting  3 Units
Prerequisite: ACCT 301 with a grade of “C” or better.
Hours: 54 hours LEC
This course covers accounting and financial reporting for governmental units and institutions with emphasis on the accounting standards prescribed by the Governmental Accounting Standards Board (GASB). Additional topics include governmental budgeting and budgetary controls. This course is typically offered Spring semester only.

ACCT 301  Financial Accounting  4 Units
Advisory: ACCT 101; ENGWR 102 or 103 and ENGRD 116 or ESLR 320 and ESLW 320; MATH 100 or BUS 105
Course Transferable to UC/CSU
Hours: 72 hours LEC
This course covers accounting systems and the preparation and interpretation of financial statements primarily for external uses by stockholders, creditors, regulators, and other stakeholders. It includes accounting for assets, liabilities, equity, revenues, and expenses. Accounting systems, internal control, forms of business organization, and financial statement analysis tools are also discussed.

ACCT 311  Managerial Accounting  4 Units
Prerequisite: ACCT 301 with a grade of “C” or better
Course Transferable to UC/CSU
Hours: 72 hours LEC
This course continues the study of accounting with coverage of accounting information used by managers, sources of this information, and how this information is used by managers in making business decisions. Topics include cost concepts and reporting of costs, costing systems, the analysis and use of cost information in decision-making, cost-volume-profit analysis, contribution margin, profit planning and capital budgeting, standard costs, and financial statement analysis.

ACCT 341  Computerized Accounting  2 Units
Prerequisite: ACCT 101 or 301 with a grade of “C” or better
Course Transferable to CSU
Hours: 27 hours LEC; 27 hours LAB
This course emphasizes the major areas of a computerized accounting system, general ledger, revenues and accounts receivable, expenses and accounts payable, fixed assets and depreciation, payroll, banking and bank reconciliations, job costing, adjusting and closing entries, and financial statements. It provides practical experience in the use of master files, transactions, and reports. Individual sections of this course use software designed for small businesses such as QuickBooks, Peachtree, or other contemporary accounting systems.

ACCT 343  Computer Spreadsheet Applications for Accounting  2 Units
Prerequisite: CISA 315 with a grade of “C” or better.
Corequisite: ACCT 301.
Course Transferable to CSU
Hours: 27 hours LEC; 27 hours LAB
This course combines the study of accounting and computer spreadsheets. Projects include business transactions, accounts receivable, inventory, payroll, special journals, financial statements, financial analysis, and other accounting topics. The course focuses on accuracy, clarity, creativity, adaptability, and presentation skills.
ACCT 361  Ethical, Legal, and Professional Standards in Accounting  3 Units
Advisory: ACCT 107 and 301
Course Transferable to CSU
Hours: 54 hours LEC
This course explores the legal and ethical issues that must be addressed by accountants. Topics in ethics include ethical foundations as well as the unique ethical requirements of professional organizations and the California Board of Accountancy. Topics in law include legal liability of accountants, contracts, sales, negotiable instruments, documents of title, secured transactions, debtor and creditor relationships, agency, federal securities regulation, other regulations, and property law.

ACCT 381  Introduction to Appraising for Property Tax Purposes  1.5 Units
Course Transferable to CSU
Hours: 30 hours LEC
This course introduces the basic principles of property tax appraisal. It covers the economic aspects and legal definitions of market value, California Property Tax Laws and Regulations, the appraisal process, and methods of valuation. It is designed to meet the California Board of Equalization training requirements for County property tax appraisers.

ACCT 498  Work Experience in Accounting  1-4 Units
General Education: AA/AS Area III(b)
Enrollment Limitation: Must be enrolled in a minimum of 7 units at ARC.
Course Transferable to CSU
Hours: 18 hours LEC, 60-225 hours LAB
This course is supervised work experience in accounting for the purpose of practical experience in accounting careers. Students must be employed in a paid or volunteer work experience environment. This course may be taken twice for a maximum of 8 units.

FIN 310  Financial Planning - Insurance  3 Units
Advisory: BUS 320
Course Transferable to CSU
Hours: 54 hours LEC
This course introduces risk management and insurance decisions in personal financial planning. Topics include insurance for life, health, disability, property and liability risks, as well as annuities, group insurance, and long term care.

FIN 320  Financial Planning - Investments  3 Units
Advisory: BUS 320
Course Transferable to CSU
Hours: 54 hours LEC
This course introduces investment planning in the personal financial planning process. The course covers the various types of securities traded in financial markets, investment theory and practice, portfolio construction and management, and investment strategies and tactics.

FIN 330  Financial Planning - Retirement Planning  3 Units
Advisory: BUS 320
Course Transferable to CSU
Hours: 54 hours LEC
This course introduces retirement planning in the personal financial planning process. The course provides an understanding of public and private retirement plans. The public plans include Social Security, Medicare and Medicaid. The private plans include defined benefit and defined contribution plans and their regulatory provisions. Additional topics include the issues that individuals face in retirement such as life-style choices and medical issues.

FIN 350  Financial Planning - Estate Planning  3 Units
Advisory: BUS 320
Course Transferable to CSU
Hours: 54 hours LEC
This course focuses on the efficient conservation and transfer of wealth, consistent with the individual's goals. The legal, tax, financial and non-financial aspects of estate planning are covered, including trusts, wills, probate, advanced directives, charitable giving, wealth transfers and related taxes.

FIN 380  Financial Planning - The Comprehensive Financial Plan  2 Units
Prerequisite: ACCT 125, FIN 310, FIN 320, FIN 330, and FIN 350 with grades of "C" or better
Advisory: CISC 300
Course Transferable to CSU
Hours: 27 hours LEC, 27 hours LAB
This is a capstone course in financial planning for individuals. Skills and knowledge from all previous courses in individual financial planning are utilized to develop a comprehensive financial plan for an individual or family. The end product of the course is a comprehensive financial plan prepared using financial planning software.

PROPTX 310  Introduction to Appraising for Property Tax Purposes  1.5 Units
Course Transferable to CSU
Hours: 30 hours LEC
This course introduces the basic principles of property tax appraisal. It covers the economic aspects and legal definitions of market value, California Property Tax Laws and Regulations, the appraisal process, and methods of valuation. It is designed to meet the California Board of Equalization training requirements for County property tax appraisers.

PROPTX 311  Appraisal of Machinery & Equipment  1.5 Units
Course Transferable to CSU
Hours: 32 hours LEC
This course covers the principles of property tax appraisal for tax assessment of personal property and fixtures. Topics include the economic aspects and legal definitions of market value, California Property Tax Laws and Regulations, the appraisal process, and methods of valuation. It is designed to meet the California Board of Equalization training requirements for county property tax auditor-appraisers.
Anthropology Degree

Anthropology is the study of humankind around the world and throughout time, with the goal of understanding our evolutionary origins, our biological distinction as a species, and our diverse manifestations of culture. A degree in anthropology provides the student with basic skills in critical analysis, application of the scientific method, and cross-cultural understanding.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Apply the science of anthropology towards a holistic understanding of human nature.
- Synthesize the principles that form the foundation of anthropology.
- Analyze social and ethical issues related to the field of anthropology and its practical applications.
- Analyze the cultural, physical and linguistic diversity expressed in our species.

Career Opportunities

The anthropology major may enter many vocations varying from archaeological excavation, exploration, and museum management to the analysis of cultures, linguistics, forensics, primatology, teaching, and consulting with governmental and educational institutions.

Associate Degree Requirements: The Anthropology Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

ANTH 300  Physical Anthropology  3 Units

Advisory: ENGW 102 or 103, and ENGRD 116; OR ESLR 320 and ESLW 320; OR placement through assessment process.

General Education: AA/AS Area IV; CSU Area B2; IGETC Area 5B

Course Transferable to UC/CSU

Hours: 54 hours LEC

This course covers the concepts, methods and theory of biological evolution and its application to the human species. There is a specific focus on molecular, Mendelian and population genetics mechanisms of evolution, primatology, paleoanthropology, biocultural adaptations, human variation, and current bioethical issues. The philosophy of science and the scientific method serve as foundations to the course.

ANTH 301  Physical Anthropology Laboratory  1 Unit

Corequisite: ANTH 300

General Education: AA/AS Area IV; CSU Area B2; CSU Area B3; IGETC Area 5B

Course Transferable to UC/CSU

Hours: 54 hours LAB

This course is an introductory laboratory designed to provide opportunities to become familiar with the methods of the science of biological anthropology while investigating topics in laboratory and field situations. Topics covered in the course are: the scientific method, sources of biological variation and forces of evolution, human osteology, human variation, taxonomy and comparative osteology of the primates, and the fossil evidence for human evolution. Field trip may be required.

ANTH 303  Introduction to Forensic Anthropology  3 Units

Advisory: ENGW 102 or 103, and ENGRD 116; OR ESLR 320 and ESLW 320; OR placement through assessment process. ANTH 300 and 301; OR BIOL 102; OR BIOL 115 and 117; OR BIOL 430.

General Education: AA/AS Area IV; CSU Area B2; IGETC Area 5B

Course Transferable to UC/CSU

Hours: 54 hours LEC

This course is an overview of forensic anthropology which is an applied field of physical anthropology. Forensic anthropology uses the analysis of human skeletal remains to answer medico-legal questions. This course emphasizes current techniques used in analysis of human skeletal remains, medico-legal procedures, and the role of the anthropologist in the investigative process. It examines the basics of bone biology, methods of skeletal analysis, and recognition of bone pathology and trauma.

ANTH 310  Cultural Anthropology  3 Units

Advisory: ENGW 102 or 103, and ENGRD 116; OR ESLR 320 and ESLW 320; OR placement through assessment process.

General Education: AA/AS Area V(b); AA/AS Area VI; CSU Area D1; IGETC Area AA

Course Transferable to UC/CSU

Hours: 54 hours LEC

This course is an introduction to the various customs, traditions, and forms of social organizations in both Western and non-Western societies. Multicultural perspectives are examined for such topics including subsistence methods, belief and religious systems, linguistics, trade and economic systems, arts, kinship systems, marriage and family systems, technology, and changes due to internal and external forces.
ANTH 311 Cultural Anthropology Discussion 1 Unit
Advisory: ANTH 310.
Course Transferable to CSU
Hours: 18 hours LEC
This course provides opportunities to discuss issues relevant to cultural anthropology and explore non-Western cultures using the anthropological literature. The applicability of terms such as “ethnocentrism” and “cultural relativity” is examined.

ANTH 312 Anthropology of Gender 1 Unit
Advisory: ANTH 310.
Course Transferable to CSU
Hours: 18 hours LEC
This course examines the contributions of anthropologists to the field of gender studies. The course deals with topics relevant to gender issues from a cross-cultural perspective. Gender issues are studied as they relate to family, social groups, and the concept of “self”.

ANTH 315 Cultures in Focus 3 Units
Advisory: ENGRD 116; OR placement through assessment process.
General Education: AA/AS Area V(b) and VI; CSU Area D1; IGETC Area 4A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course provides information regarding development issues in emerging countries of the world. The course examines the historical and cultural context of development and diversity in pluralistic societies. Globalization and technological changes are examined as they influence ideological aspects of culture. Problems such as overpopulation, underemployment, famine, and women’s issues, are discussed within their cultural context.

ANTH 320 Introduction to Archaeology and World Prehistory 3 Units
Advisory: ENGRD 116; OR placement through assessment process.
General Education: AA/AS Area V(b) and VI; CSU Area D1; IGETC Area 4A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an introduction to the theories, concepts, and methods employed by the archaeologist in the study of human history and prehistory. The development and diverse evolution of social and cultural systems is emphasized. The challenges and achievements of non-literate and traditional cultures, diverse communities, and social classes over time are also explored.

ANTH 330 Magic, Witchcraft, and Religion 3 Units
Advisory: ENGRD 116; OR placement through assessment process.
General Education: AA/AS Area V(b) and Area VI; CSU Area D1; IGETC Area 4A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a cross-cultural study of the forms and functions of supernatural beliefs and associated rituals in traditional societies of Africa, Asia, aboriginal Australia, Oceania, South America, Native North America and elsewhere. Attention is also given to world religions. Emphasis is on understanding the role of beliefs and rituals within their given social contexts, as well as on a broader comparison to derive insight into the general functions of beliefs and rituals in human life.

ANTH 333 American Indians of California 3 Units
Advisory: ENGRD 116; OR placement through assessment process.
General Education: AA/AS Area V(b); AA/AS Area VI; CSU Area D1; CSU Area D3; IGETC Area 4A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course surveys the sociocultural systems of California Indians from the prehistoric period to the present. In addition to offering an overview of the diversity and complexity of aboriginal California, it includes environmental adaptations, material culture, social structure, ideology, and response to change. Field trips may be required.

ANTH 334 Native Peoples of North America 3 Units
Advisory: ENGRD 116; OR placement through assessment process.
General Education: AA/AS Area V(b); AA/AS Area VI; CSU Area D1; IGETC Area 4A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an introductory survey of traditional Native American societies. It describes the peoples and cultures of North America and emphasizes native ecological adaptations, languages, social organizations, religions, mythologies and world views, and artistic representations. It also explores the interrelatedness of Indigenous Native American groups through trade, intermarriage, and other forms of cultural exchange. Field trips may be required.

ANTH 335 Research Methods in Anthropology 3 Units
Prerequisite: ANTH 300 or 310 with a grade of “C” or better.
Course Transferable to CSU
Hours: 54 hours LEC
This course introduces research methods for the field of anthropology. Familiarization with specific observational research methods and the practical application of these methods in a contemporary setting is emphasized. Field trips will be required.

ANTH 341 Introduction to Linguistics 3 Units
Advisory: ENGRD 116; OR placement through assessment process.
General Education: AA/AS Area II(b) and Area VI(b); Area VI; CSU Area D1; IGETC Area 4A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course explores the role of language in social interaction and world view construction. In addition, it examines minority languages and dialects, bilingualism, literacy, and the social motivation of language change. Analytical techniques of socio-cultural linguistics are examined.

ANTH 370 Primatology 3 Units
Advisory: ANTH 300
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course provides an analysis of non-human primate comparative morphology, behavior, and ecology. Areas of study include general primate morphology, diet and ecology, behavior including reproduction and social systems, cognition and intelligence, and primate conservation issues. Primates in both captive and free-ranging settings are examined. Field trips for primate observations may be required.
ANTH 372 Primatology Field Studies 2 Units
Advisory: ANTH 300.
Course Transferable to CSU
Hours: 36 hours LEC
This course provides practical experience in non-human primate observational studies. The Sacramento Zoo serves as the “field site” where observations on non-human primates are conducted. Focus is on training in research methodology and observational techniques. Field studies may focus on the ChimpanZoo Program under the Jane Goodall Institute. Field trips will be required.

ANTH 480 Honors Physical Anthropology 3 Units
Prerequisite: Cumulative GPA of 3.0 or above; ENGWR 300 or 480 with a grade of “C” or better.
General Education: AA/AS Area IV; CSU Area B2; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an in depth introduction to the science of physical anthropology. This seminar style honors course approaches the topical material through class discussion which encourages problem solving techniques focusing on current anthropological issues. Weekly topical issues will be presented in a case study format. Critical thinking skills are emphasized in responding to these issues. The following topics are included in the course: evolutionary theory, heredity, human variation, taxonomy and behavior of the living primate and the fossil evidence of human evolution.

ANTH 494 Topics in Anthropology 1-3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116; OR ESLR 320 and ESLW 320; OR placement through assessment process.
Course Transferable to CSU
Hours: 18-54 hours LEC
This course is a concentrated study of current anthropological issues. Topics reflect contemporary issues and problems in the four traditional fields as well as an applied approach where appropriate. Issues in the area of physical anthropology are approached from a biological and ecological perspective; issues in cultural anthropology, linguistics, and archaeology are approached from a multi-cultural and international platform. This course may be taken four times on a different topic.
American River College conducts, in cooperation with the local construction unions, a number of apprenticeship programs (most of which can lead to an Associates of Arts degree). An apprenticeship program is a formal system of career training from two to five years that combines paid employment, on-the-job training and job related college level instruction in order to develop highly skilled workers.

Apprenticeship programs are a cooperative effort between the Joint Apprenticeship Training Committee (JATC) and the college. The JATC is composed of representatives from both labor and management from each apprenticeship area and their purpose is to oversee apprenticeship training. All American River College apprenticeship programs are approved by the Division of Apprenticeship Standards of the California Department of Industrial Relations.

Enrollment in an apprenticeship course is limited to registered apprentices, however anyone meeting the apprenticeship requirements can apply for acceptance. Information on admission to apprenticeship programs can be obtained from the local JATC having jurisdiction over the trade in which you are interested. Listed below are the program types and contact persons.

### Carpenter Apprenticeship

The Carpenter Apprenticeship program concentrates on training apprentices to the specific levels required for the construction industry and has been approved by the State of California Department of Apprenticeship Standards. Training emphasis includes safety, blueprint reading, residential and commercial construction processes, building codes, estimation, and various carpentry topics.

#### Student Learning Outcomes

**Upon completion of this program, the student will be able to:**

- Demonstrate safe working practices in a field construction environment.
- Demonstrate proper selection, use, care, preparation, and handling of the carpenter's tools of the trade.
- Analyze, interpret, and apply national building codes relating to carpentry.
- Analyze and interpret residential and commercial construction blueprints.
- Evaluate, layout, and construct various systems such as floor, wall, roof, and concrete form.
- Evaluate and layout a building site using architectural drawings.
- Calculate elevations by using an engineer's rod and various leveling devices.
- Estimate and order material for construction projects.
- Identify and select appropriate materials for each phase of construction.
- Develop interpersonal skills with customers, co-workers, and different trades-workers.
- Plan projects with given information such as blueprints, specifications, and contract documents.

#### Career Opportunities

Upon completion of the Carpenter Apprenticeship degree or certificate, students may find employment in the following sectors: government, residential and commercial construction and maintenance, utilities, and facilities management.

Drywall/Lathing Apprenticeship

The Drywall/Lathing Apprenticeship program concentrates on training apprentices to the specific levels required for the construction industry and has been approved by the State of California Department of Apprenticeship Standards. Training emphasis includes safety, metal framing, blueprint reading, exterior/interior wall finishes, welding, residential and commercial construction process, building codes, estimation, and various construction topics.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Demonstrate safe working practices in a field construction environment.
• Demonstrate proper selection, use, care, preparation, and handling of the drywall/lathing craftsman’s tools of the trade.
• Analyze, interpret, and apply national building codes relating to the drywall/lathing profession.
• Analyze and interpret residential commercial construction blueprints.
• Evaluate, layout, and construct various metal framing systems such as floor, wall, roof, and arches.
• Calculate elevations using various leveling devices.
• Identify and select appropriate material for each phase of construction.
• Estimate and order material for construction projects.
• Plan projects with given information such as blueprints, specifications, verbal and written information.

Career Opportunities

Upon completion of the Drywall/Lathing Apprenticeship degree, students may find employment in the following sectors: government, residential and commercial construction and maintenance, utilities, and facilities management. Students may further their career as a licensed contractor.

DRLTH 298 Work Experience Drywall/Lathing Apprenticeship (1 - 4)

Associate Degree Requirements: The Drywall/Lathing Apprenticeship

Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Electrical Apprenticeship

This program provides instruction in the installation, operation, and maintenance of the electrical distribution systems in commercial and industrial sites. Topics include safety training, AC and DC electrical theory, metering, electronics, use of electrical codes, raceways, conductors, grounding, motors, transformers, fire alarm systems, fiber optics, instrumentation, building automation and heating, ventilating and air conditioning (HVAC) systems.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Apply commercial and industrial safety procedures on job sites.
• Analyze, interpret and apply national, state and local electrical codes.
• Apply mathematics in calculating AC and DC series, parallel, and combination circuits.
• Identify different wiring methods for conductors, cables, and conduits.
• Analyze functions of blueprints, specifications, schedules, agendas and revisions in construction.
• Describe the function, operation and characteristics of a system and individual components of the system such as burglar alarms, fire alarms, information transport, HVAC, etc.
• Describe functions of instrumentation in industrial process control systems.

Career Opportunities

Upon completion of the electrical program, students may find employment in the following industry sectors: government, commercial and industrial construction and maintenance, utilities, and facilities management. With the degree, students may further their career as licensed contractors.

Associate Degree Requirements: The Electrical Apprenticeship Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Residential/Commercial Electrician Trainee Certificate

The Residential/Commercial Electrician program provides instruction in the installation, operation, and maintenance of the electrical distribution systems in residential and commercial sites. Topics include safety training, AC/DC electrical theory, metering, electronics, use of electrical codes, raceways, conductors, grounding, motors, transformers, fire alarm systems, fiber optics, and HVAC systems. The program complies with state regulations to become an Electrician Trainee.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Apply residential and commercial safety procedures on job-sites.
- Analyze, interpret and apply national, state and local electrical codes.
- Apply electrical mathematics in calculating AC/DC series, parallel, and combination circuits.
- Identify different wiring methods for conductors, cables, and conduits.
- Analyze functions of blueprints, specifications, schedules, addenda and revisions in construction.
- Describe the function, operation and characteristics of a system and individual components of the system such as burglar alarms, fire alarms, information transport, HVAC, etc.

Career Opportunities

Ironworker Apprenticeship

The Ironworker Apprenticeship Program has training for Field Ironworkers and Reinforcing Ironworkers. Training is provided in major ironworker components to Division of Apprenticeship Standards (DAS) guidelines.

For more information contact:
Program Director
3524 51st Ave
Sacramento, CA 95823
(916) 428-7420

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Demonstrate safely working in a field construction environment.
- Analyze and interpret blueprints.
- Interpret and apply welding codes.
- Demonstrate proper selection, use, care, preparation, and handling of fiber lines, steel cables, wire ropes, chains, slings, cranes, ladders, scaffolds and helicopter rigging.
- Define, identify, interpret, and analyze uniform building codes (UBC), classifications, plans, schedules, charts, and specifications commonly used in the ironworker trade.
- Describe and apply reinforcing techniques and principles to concrete structures using steel, bar supports, bar splicing and welding.
- Perform proper structural steel erection on bridges, overpasses, and large buildings.
- Weld various ferrous metals using common welding processes and safety guidelines.
- Set cable tensions and pre-stress reinforcing steel to industry standards.

Sheet Metal Apprenticeship

The Sheet Metal Apprenticeship certificate concentrates on training apprentices to the specific levels required for the construction industry and has been approved by the State of California Department of Apprenticeship Standards. Training emphasis includes safety, blueprint reading, residential and commercial processes, building codes, estimation, and various sheet metal topics.
Career Opportunities
Upon completion of the Sheet Metal Apprenticeship certificate, students may find employment in the following sectors: government, residential and commercial construction and maintenance, utilities, and facilities management. Students may further their career as a licensed contractor.

For more information contact:
Program Director
1624 Silica Avenue
Sacramento, CA 95815
(916) 922-9381

Student Learning Outcomes
Upon completion of this program, the student will be able to:
- Demonstrate the ability to apply mathematical concepts to the sheet metal trade.
- Acquire skills and knowledge to make a successful transition to a journey-level position in the sheet metal worker trade.
- Demonstrate the ability to apply mathematical concepts to the sheet metal trade.
- Demonstrate proficiency in the principles, concepts and applications in metal fabrication methods.

Sheets Metal Service Technician Apprenticeship
The Sheet Metal Service Technician Apprenticeship Associate of Arts and certificate concentrates on training apprentices to the specific levels required for the construction and the heating, ventilation, and air conditioning (HVAC) industries. This program has been approved by the State of California Department of Apprenticeship Standards. Training emphasis includes safety, blueprint reading, residential and commercial processes, building codes, estimation, and various sheet metal topics. It includes the servicing, start-up, and balancing of HVAC systems.
Art Degree

The A.A. degree in Art provides a foundation in art principles and practices. Course work includes study in art history and studio practice in the creation of two and three-dimensional works of art. The Art degree is designed for students who wish to transfer to a four-year university or college, and for students who are interested in furthering skills in the visual arts.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• differentiate major historical developments in the visual arts.
• evaluate major trends in contemporary works of art.
• compose works of art using a combination of materials available in contemporary art expression.
• construct and document an initial portfolio of works of art for professional presentations.
• analyze works of art on the basis of theory and technique.
• critique image, form and content in the visual arts.
• conceive and develop conceptual structures of art within a specific technical process.
• assess aesthetic and visual traditions.

Associate Degree Requirements: The Art Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

ART 120  Introduction to Metal Fabrication and Sculpture .5-3 Units

Same As: WELD 104

Hours: 0-36 hours LEC; 27-54 hours LAB

This course covers metal sculpture techniques, design principles and materials used for sculpture, functional and nonfunctional art forms on ferrous and non-ferrous metals. Techniques on the major welding processes such as shielded metal arc, gas metal arc, gas tungsten arc, and oxy-acetylene are an integral part of the course as well as related safety issues. Different artists and topics are covered each semester. ART 120 and/or WELD 104 may be taken 4 times for a total of 6 units.

ART 122  Introduction to Ornamental Iron .5-3 Units

Hours: 0-36 hours LEC; 27-54 hours LAB

This course covers the hands-on basics of metal forming, design principles and materials used for sculpture, and functional art forms with emphasis on the use of the anvil and the gas forge. Different artists and topics are covered each semester. This course may be taken 4 times for a total of 6 units.

ART 294  Topics in Art .5-4 Units

Hours: 9-36 hours LEC; 0-108 hours LAB

This course is designed to give students an opportunity to study topics in art not included in current course offerings. It may be taken four times with no duplication of topics.
ART 300  Elementary Drawing and Composition  3 Units
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, ELSW 320, or placement through assessment process.
General Education: AA/AS Area I; CSU Area C1
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a studio class in drawing and composition. Lectures and discussions stress the fundamental discipline related to the visualization of concrete or abstract concepts. Practice in drawing and development of content will be emphasized.

ART 302  Elementary Drawing and Composition  3 Units
Prerequisite: ART 300.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course will further develop the skills and concepts of drawing as introduced in Art 300. Students will continue to develop the relationship of the formal elements of line, shape, value, texture, spatial relations and color through the creative exploration of materials. Students will critically evaluate their own and others' art work.

ART 304  Figure Drawing and Composition  3 Units
Prerequisite: ART 300 with a grade of "C" or better.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This is a studio class where the understanding of human form and structure is based upon drawing from the nude figure. Topics include analysis of proportion, anatomy and the relationship of the figure to space. Projects developing compositions in which the figure is the subject for a study of line, shape, value, texture and space will be emphasized. This course may be taken twice for credit.

ART 305  Figure Drawing and Composition  3 Units
Prerequisite: ART 304 with a grade of "C" or better.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This is a combined lecture and lab class where the human figure is studied directly and in historical context. Students will study the structure, proportion, and relationship of the nude figure to compositional space and color. Students will study great works of figurative based art and will practice subjective responses to a multitude of aesthetic theories. This course may be taken twice for credit.

ART 306  Facial Expression and Anatomy  3 Units
Same As: ARTNM 320
Advisory: ART 304
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers human facial expression and anatomy using live models, anatomical references and imagination. Issues of expression as it relates to skeletal and muscular anatomy will be addressed through a series of 2D and 3D projects. Not open to students who have taken ARTNM 320.

ART 314  Introduction to Illustration  3 Units
Same As: ARTNM 370
Prerequisite: ART 300 with a grade of "C" or better
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course will survey the history of the art of illustration. The course defines areas of specialization and the illustrator's role in visual communication. This course will evaluate the appropriate use of materials, tools and methods. Illustration will be analyzed as a method of visual problem solving through a series of projects with varied applications. Not open to students who have taken ARTNM 370.

ART 317  Character Design  3 Units
Same As: ARTNM 372
Prerequisite: ART 302 with a grade of "C" or better
Advisory: ART 304 and ARTNM 302
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course introduces the visual development of characters including anatomical structure, environment, social and psychological concerns, and costume. Both digital and traditional media are applied. This course covers the graphical development of characters for animation, games, comics, graphic novels, children's books, and illustrated novels. ARTNM 372 and/or ART 317 may be taken two times for credit covering different characters.

ART 320  Design: Fundamentals  3 Units
Same As: ARTNM 310
Advisory: ENGWR 102 or 103, and ENGRD 116; OR ESLR 320 and ESLW 320; OR placement through assessment process.
General Education: AA/AS Area I; CSU Area C1
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course focuses on the fundamentals of design, establishing a foundation for intermediate and advanced art courses as well as developing a visual and verbal vocabulary essential to understanding and appreciating art and design esthetics. Design principles are applied through a series of studio projects that are derived from the study of both historical schools of art as well as contemporary theory. The elements of line, shape, form, spatial relationships, value and color are analyzed in concert with their use by artists throughout history. Projects utilize a wide range of tools, media, and presentation techniques. This course is not open to students who have completed ARTNM 310.

ART 322  Design: Image and Content  3 Units
Prerequisite: ART 320 with a grade of "C" or better
General Education: AA/AS Area I
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course will present problems in organizing the elements of design (line, shape, form, color, texture) into creative visual expressions. Emphasis is placed on the relationship between design (image) and content (ideas and feelings). Discussion and criticism of problems utilizing a variety of media will be included.

ART 323  Design: Color Theory  3 Units
Prerequisite: ART 320 with a grade of "C" or better
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers studio problems in the use and understanding of color, including its application to works of art, interior design and graphics, basics of color theory and color interchange. It also includes image and composition as related to the use of color both functionally and creatively. Field trips may be required.

ART 324  Collage and Assemblage  3 Units
Advisory: ENGWR 102 or 103, ESLL 320 or ESLW 320; OR placement through assessment process.
General Education: AA/AS Area I; CSU Area C1
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course investigates the alteration and creation of a dimensional surface with found and constructed materials. Topics on the history of collage and assemblage and the application of historical and contemporary techniques and concepts provide the impetus for production of works of art. Development of a personal visual language is fundamental to this course.
ART 327  Painting  3 Units
Prerequisite: ART 300 or 320.
Course Transferable to UC/CSU
Hours: 36 hours LEC, 54 hours LAB
This course is designed to encourage creative expression. May be taken twice for credit. (CAN ART 10)

ART 328  Painting  3 Units
Prerequisite: ART 327 with a grade of "C" or better.
Course Transferable to UC/CSU
Hours: 36 hours LEC, 54 hours LAB
This course is a continuation of ART 327. It covers artistic style, style development and general and specific criticism in painting. Different artists and topics are covered each semester. This course may be taken twice for credit. Field trips may be required.

ART 329  Painting II  3 Units
Prerequisite: ART 327 with a grade of "C" or better.
Course Transferable to UC/CSU
Hours: 36 hours LEC, 54 hours LAB
This course will survey the creative strategies of contemporary painting. Topics include post-modern ideas such as image/text, the blending of 2D and 3D form, and combining multiple styles and techniques within a single artwork. This course may be taken twice.

ART 330  Watercolor Painting  3 Units
Prerequisite: ART 300 or 320 with a grade of "C" or better.
Course Transferable to UC/CSU
Hours: 36 hours LEC, 54 hours LAB
This course is an introduction to the medium of transparent watercolor. It covers techniques of brush painting, traditional and contemporary approaches to composition, color relationships, and artistic style in watercolor. Different artists and topics are covered each semester. This course may be taken twice for credit.

ART 331  Intermediate Watercolor Painting  3 Units
Prerequisite: ART 330 with a grade of "C" or better.
Course Transferable to UC/CSU
Hours: 36 hours LEC, 54 hours LAB
This is an intermediate watercolor course. It includes an in-depth study of contemporary methods and concepts in transparent watercolor. Emphasis is given to different approaches to watercolor, as well as composition, technical problems and solutions, and individual style development. Each semester different artists are discussed to illustrate concepts and techniques. Field trips may be required. This course may be taken twice.

ART 332  Media Studio I: Pigment-Based Media  3 Units
Same As: ARTNM 331
Course Transferable to CSU
Hours: 36 hours LEC, 54 hours LAB
This course covers the techniques and materials of oil painting. Projects are based on twentieth century painting contributions and the use of formal values as they relate to expression. This course is designed to encourage creative expression. May be taken twice for credit. (CAN ART 10)

ART 336  Printmaking: Survey  3 Units
Course Transferable to UC/CSU
Hours: 36 hours LEC, 54 hours LAB
This course covers various printmaking techniques, which may include relief printing (wood, linoleum, collagraph, and rubber), monotype, stencil (silkscreen printing), and repetitive stencil printing. Each semester different artists and/or visual examples are discussed. Field trips may be required. This course may be taken twice.

ART 370  Three Dimensional Design  3 Units
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, ESLW 320, or placement through assessment process.
General Education: CSU Area C1
Course Transferable to UC/CSU
Hours: 36 hours LEC, 54 hours LAB
This foundation course covers an analysis of historical and contemporary designs, primarily concerned with the visual dialogue between form and space, with focus on visual sensitivity for three-dimensional composition. Line, plane, and volume are utilized to construct 3-D forms using a variety of materials; wire, plaster, cardboard and paper. May be taken twice for credit.

ART 371  Foundry Casting for Sculpture  3 Units
Course Transferable to UC/CSU
Hours: 36 hours LEC, 54 hours LAB
This course introduces the techniques, metallurgy, and practice of casting bronze and aluminum for sculpture using the sand molding method. Emphasis is placed on historical examples, design, techniques, vocabulary and safety. Patterns are utilized directly with sand to create sculptures in metal. Different artists and topics are covered each semester. This course may be taken four times for credit.

ART 372  Sculpture  3 Units
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, ESLW 320, or placement through assessment process.
General Education: CSU Area C1
Course Transferable to UC/CSU
Hours: 36 hours LEC, 54 hours LAB
This course provides basic practice in the expressive use of form and color in three-dimensional space using traditional additive and subtractive media such as clay and plaster, as well as constructive media such as wood, found objects, and other materials. The course utilizes a problem-solving format in order to develop knowledge of technical process formal vocabulary, and individual expression. Both historical and contemporary approaches in developing form and content are included.

ART 373  Intermediate Sculpture  3 Units
Prerequisite: ART 372 with a grade of "C" or better.
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, ESLW 320, or placement through assessment process.
Course Transferable to UC/CSU
Hours: 36 hours LEC, 54 hours LAB
This is an intermediate course in the practice of the expressive use of form and color in three-dimensional space. It utilizes traditional additive and subtractive media such as clay and plaster, as well as constructive media such as metal, wood, found objects, and other materials. It utilizes a problem-solving format in order to develop knowledge of technical process, formal vocabulary, and individual expression. It examines both historical and contemporary approaches in developing form and content. It develops the ability to process visual information and create expressive objects in three dimensions.
ART 374 Sculpture Lab 1-2 Units
Corequisite: ART 120, 122, 324, 370, 371, 372, 373, or 375
Course Transferable to UC/CSU
Hours: 54-108 hours LAB
This course offers laboratory experience to assist in completing complex sculpture projects. The course focuses on the development of a personal creative vision furthering technical skills and complex problem solving. It may be taken four times for credit.

ART 375 Figure Sculpture 3 Units
Advisory: ART 304.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course introduces figure sculpture, using the live nude model as a reference. It will develop an understanding of the human form as it relates to both modern and traditional sculpture. These concepts will be developed by making studio projects using a variety of sculptural materials. The projects will combine new understanding of human form with imagination, for a more complete expression of technique and creativity. May be taken twice for credit.

ART 382 Metal Design: Emphasis in Mixed Media 3 Units
Advisory: ENGW 102 or 103 and ENGRD 116 or ESLR 320, ESL 320, ESLW 320, or placement through assessment process.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers contemporary approaches to mixed media in small metal sculpture and jewelry. Basic small glasswork, enameling, plastics, etching, reticulation and granulation will be studied. May be taken twice for credit.

ART 383 Metal Design: Emphasis in Fabrication 3 Units
Advisory: ENGW 102 or 103 and ENGRD 116 or ESLR 320, ESL 320, ESLW 320, or placement through assessment process.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers historical and contemporary approaches to fabrication design. Sculptural forms will be made utilizing processes of fabricating, surfacing, soldering, forming and forging of metals. Basic methods and techniques for use with silver and base metals will be covered. May be taken twice for credit.

ART 384 Metal Design: Emphasis in Casting 3 Units
Advisory: ENGW 102 or 103 and ENGRD 116 or ESLR 320, ESL 320, ESLW 320, or placement through assessment process.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers historical and contemporary approaches to centrifugal casting, mold making, wax patterns, and the aesthetic aspects of metal casting for small scale sculpture and jewelry will be studied. Basic methods and techniques for wax working, kiln burnout, centrifugal casting, vulcanized rubber molds and metal finishing will be emphasized. May be taken twice for credit.

ART 385 Metal Arts Lab 1-2 Units
Corequisite: Current enrollment in ART 382 or 383 or 384.
Course Transferable to CSU
Hours: 54-108 hours LAB
This course offers laboratory experience to assist in completing complex metal art projects. The course focuses on the development of a personal creative vision furthering technical skills, and complex problem solving. May be taken three times.

ART 386 Metal Design: Emphasis in Mixed Media 3 Units
Advisory: ENGW 102 or 103 and ENGRD 116 or ESLR 320, ESL 320, ESLW 320, or placement through assessment process.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers contemporary approaches to mixed media in small metal sculpture and jewelry. Basic small glasswork, enameling, plastics, etching, reticulation and granulation will be studied. May be taken twice for credit.

ART 387 Alternative Firing Processes in Ceramics 3 Units
Prerequisite: ART 390 with a grade of "C" or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers alternative firing processes in ceramics which includes raku, wood, soda, saggar, sawdust, and pit firing. Ceramics is explored through hand building and wheel throwing techniques. Glaze formulation for the firing processes is included. Emphasis is placed on in-depth examinations of the history of kilns and firing techniques. Different firing processes are explored each semester. Field trips may be required. This course may be taken four times for credit.

ART 388 Ceramic Murals and Tiles 3 Units
Prerequisite: ART 390 with a grade of "C" or better
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This is a course in ceramic mural and tile methods and techniques. It explores the technical and creative processes of ceramic pottery making and sculpture including surface treatment and various firing processes. Focus is placed on an in-depth examination of contemporary ceramics. Different artists, techniques, and projects are explored each semester. This course may be taken twice for credit.

ART 389 Ceramic Lab 1-2 Units
Corequisite: Current enrollment in ART 380 or 391.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course offers laboratory experience to assist in completing complex ceramic projects. The course focuses on the development of a personal creative vision, furthering technical skills, and complex problem solving. May be taken twice for credit.

ART 390 Ceramics 3 Units
General Education: CSU Area C1
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course is an introduction to ceramics in hand building and throwing techniques. Elementary clay construction including pinch pot, coil, slab, and slump molds are covered as well as an introduction to the potter's wheel. Different methods of glazing and firing are studied.

ART 391 Intermediate Ceramics 3 Units
Prerequisite: ART 390 with a grade of "C" or better.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This is an intermediate course in wheel throwing and sculpture techniques. It explores the technical and creative processes of ceramic pottery making and sculpture including surface treatment and various firing processes. Focus is placed on an in-depth examination of contemporary ceramics. Different artists, techniques, and projects are explored each semester. This course may be taken twice for credit.

ART 392 Ceramic Lab 1-2 Units
Corequisite: Current enrollment in ART 390 or 391.
Course Transferable to UC/CSU
Hours: 54-108 hours LAB
This course offers laboratory experience to assist in completing complex ceramic projects. The course focuses on the development of a personal creative vision, furthering technical skills, and complex problem solving. May be taken twice for credit.

ART 393 Figure Sculpture Lab 3 Units
Advisory: ART 304.
Course Transferable to UC/CSU
Hours: 54-108 hours LAB
This course offers laboratory experience to assist in completing complex sculpture projects. The course focuses on the development of a personal creative vision furthering technical skills and complex problem solving. It may be taken four times for credit.

ART 394 Film Making 2 Units
General Education: CSU Area C1
Course Transferable to UC/CSU
Hours: 18 hours LEC; 54 hours LAB
This course involves discussion and studio participation relating to the structural, technical and intellectual aspects of film making. Work by contemporary film makers will be studied to supplement class lectures and criticism. The student choosing to make an individual film must furnish camera, film and processing. Equipment and materials are supplied for students participating in a group film.
ART 422 Film Making 3 Units
Prerequisite: Art 420 with a grade of "C" or better.
Course Transferable to UC/CSU
Hours: 36 hours LEC, 72 hours LAB
This course is a continuation of Art 29A. It is designed for more serious filmmaking student who will be given the opportunity to explore the motion picture medium more extensively. The student choosing to make an individual film must furnish camera, film and processing. Equipment and materials are supplied for students participating in a group film.

ART 430 Art and Children 3 Units
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, ESLW 320, or placement through assessment process.
General Education: AA/AS Area I; CSU Area C1
Course Transferable to CSU
Hours: 36 hours LEC, 54 hours LAB
This course introduces the use of artists’ materials and techniques appropriate for teaching art to children. It includes the study of art history, movements, concepts, and techniques of creating drawings, paintings, and sculptures to inform classroom instruction with children.

ART 432 Art for Children Practicum 2-4 Units
Prerequisite: ART 431 or 320; ART 300; and one Art History (ARTH) course.
Course Transferable to CSU
Hours: 18-36 hours LEC, 54-108 hours LAB
This practicum class provides students with the opportunity to participate in preschools, elementary or junior high schools and to work with credential lead teachers as “art tutors.”

ART 440 Artists’ Materials and Techniques 3 Units
Advisory: ENGWR 102 or 103, ESLL 320 or ESLR 320 or ESLW 320 or placement through assessment process.
General Education: AA/AS Area I
Course Transferable to CSU
Hours: 36 hours LEC, 54 hours LAB
This course focuses on developing and analyzing media used in the creation of paintings and drawings. Information about the various materials, their relationship to personal imagery and style, in both traditional and contemporary painting and drawing is emphasized. Study in the composition of pigments, paints, oil mediums, inks, dyes, pastel, crayon, fresco and other artists’ materials (egg tempera, silver point, encaustic) are fundamental to the course. Included are the use of tools and materials in constructing painting supports and carriers, and techniques of matting and framing art work.

ART 442 Art Gallery Operations 2 Units
Prerequisite: Two college art courses.
Course Transferable to CSU
Hours: 18 hours LEC, 54 hours LAB
This course covers gallery preparation and maintenance for students grounded in fundamentals of the visual arts. It involves experience in planning and installing exhibitions.

ART 444 Art Gallery and Portfolio Preparation 3 Units
Prerequisite: ART 442 with a grade of "C" or better.
Course Transferable to CSU
Hours: 36 hours LEC, 54 hours LAB
This course offers study in both sides of the business world of art, including gaining entrance into galleries as an artist and finding, installing, and advertising professional gallery exhibitions (portfolio management). Emphasis is on the selection of exhibitions, announcements, and receptions in addition to photographing art and preparing artists’ statements and resumes. Field trips to galleries and museums are required. This course may be taken twice for credit.

ART 470 Art Lab 1-2 Units
Corequisite: ART 300, 302, 304, 305, 306, 314, 320, 322, 323, 324, 327, 328, 329, 336, 337, 361, or 440
Course Transferable to CSU
Hours: 54-108 hours LAB
This course offers laboratory experience to assist in completing complex art projects. The course focuses on the development of a personal creative vision, furthering technical skills and complex problem-solving. It may be taken four times for credit with differing co-requisites and/or projects.

ART 494 Topics in Art .5-4 Units
Course Transferable to CSU
Hours: 6-36 hours LEC; 9-54 hours LAB
This course is designed to offer an opportunity to study topics not included in current course offerings. Practicing artisans will present hands-on workshops demonstrating their craft. Topics may include bronze casting, glass blowing, and air brush painting. This course may be taken 4 times for a maximum of 6 units.

ARTH 300 Introduction to Art 3 Units
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, ESLW 320, or placement through assessment process.
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of the visual arts including drawing, painting, sculpture, architecture, and additional media. It offers a foundation for understanding art. Field trips to art galleries or museums may be required.

ARTH 302 Art: Stone Age Through the Middle Ages 3 Units
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, ESLW 320, or placement through assessment process.
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a study of the architecture, sculpture, and painting of the ancient Near East and Europe from the Stone Age through the Middle Ages. Art works of each period are discussed and related to respective cultures. Field trips and/or individual visitation to art galleries and museums are required.

ARTH 308 Renaissance Tradition in Art 3 Units
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, ESLW 320, or placement through assessment process.
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a study of painting, sculpture and architecture of European and U.S. cultures from the 14th century early Renaissance to the 19th century pre-Impressionist period. Outstanding art works of each major period are discussed, analyzed, and placed within an historical context.
ART

ARTH 310  Modern Art  3 Units
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, or placement through assessment process.
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a study and discussion of the historical evolution of fine arts from the 1850s through the 1970s. Examples showing the relationships between various techniques and styles in Modern Art are analyzed. Field trips to art galleries or museums may be required.

ARTH 322  Art History of the Non-Western World  3 Units
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, or placement through assessment process.
General Education: AA/AS Area I; AA/AS Area VI; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This is a survey of art history throughout the non-Western world. It covers the architecture, sculpture and painting of the peoples of India, Africa, Asia, the Americas, the Arctic, Australia, and Oceania. The time period spans from the Stone Age to the 18th century. Field trips and/or individual visitations to art galleries and museums are required.

ARTH 333  Introduction to Islamic Art  3 Units
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course studies the art and culture of Islam. It primarily focuses on Islamic art and architecture and provides fundamental information on the formation of Islamic art, its history and philosophy. It identifies works of art produced by artists from Muslim countries and regions. This course includes but is not limited to visual examples from Arabic, Persian and Indian cultures. Field trips may be required. AA/AS area 3B

ARTH 334  International Contemporary Art  3 Units
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a worldwide survey of trends in art, including painting, sculpture, and architecture since 1980, with an emphasis on the diversity of contemporary global cultures. New art mediums, such as video, computer, street art, and performance art are highlighted. Social and political commentary in art are another primary focus. A field trip to a local art exhibition may be required.

ARTH 480  Honors Introduction to Art  3 Units
Prerequisite: GPA of 3.0 or above; ENGWR 300 or 480 with a grade of "C" or better
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an honors level introduction to the visual arts. Critical thinking skills will be used to analyze drawings, sculptures, paintings, architecture, and printmaking. Using a seminar style, the focus will be on developing evaluation skills and achieving a thorough understanding of the visual arts. Required field trips and/or individual visits to art galleries and museum will create a synthesis between class discussions and actual works of art.
**Art Photography**

**ARTPH 300  Basic Art Photography  3 Units**
Advisory: ENGWR 102 or 103, ESL 320 or ESLR 320 or ESSLW 320, or placement through assessment process.
General Education: AA/AS Area I (effective Summer 2009); CSU Area C1
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course consists of a structured examination of the formal and technical aspects of 35mm photography. Topics include critiques of major movements in the history of photography and contemporary silver process artists. A problem-solving approach is utilized to explore compositional ideas. Camera operation, black and white film developing, and printmaking are covered. Digital photography concepts are introduced. A 35mm single lens reflex (SLR) camera as well as darkroom and portfolio supplies are required. Processing chemicals are provided.

**ARTPH 305  Digital Photography  3 Units**
Advisory: ARTNM 302
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This is a course in basic digital photography. Topics include digital camera functions, exposure systems using f-stop and shutter speed combinations, digital shooting practices, photographic composition and aesthetics, editing tools and software, and print portfolio development. It also includes issues in contemporary photography and the history of photography. Digital cameras with adjustable f-stops and shutter speeds, camera memory cards, re-writable CD's and memory devices are required. Field trips may be required.

**ARTPH 310  Intermediate Photography  3 Units**
Prerequisite: ARTPH 300 or 305 with a grade of "C" or better
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers the technical control of black and white photographic materials and equipment. Professional camera techniques and the creative aspects of photography are emphasized. A 35mm single lens reflex (SLR) camera or digital camera with manual options as well as darkroom and portfolio supplies are required. Different artists and topics are covered each semester. This course may be taken twice for credit.

**ARTPH 320  Color Photography  2 Units**
Prerequisite: ARTPH 300 or 305 with a grade of "C" or better
Course Transferable to UC/CSU
Hours: 18 hours LEC; 54 hours LAB
This course covers the aesthetic aspects of color photography involving camera and digital techniques emphasizing uniqueness of expression. It includes a continuing exploration of form and composition, lighting and exposure and film scanning and enlarging, with emphasis on color photography as an art form. Digital color correction, editing, and other digital concepts are included. A 35mm single lens reflex (SLR) or digital camera with manual options as well as memory devices and portfolio supplies are required.

**ARTPH 340  Alternative Process Photography  3 Units**
Advisory: ENGWR 102 or 103, ESL 320 or ESLR 320 or ESSLW 320, or placement through assessment process.
General Education: AA/AS Area I
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers photographic printing processes produced in sunlight. No camera is necessary. Processes such as kallitype, cyanotype, Van Dyke brown printing, and gum printing are covered. It includes the history of photographic processes from the daguerreotype to the digital age. Negatives are produced from digital transparencies, xerox transparencies, ortho-litho film and natural objects. Printing on paper, fabric, wood and ceramics is covered. Papers and printing surfaces, brushes, memory storage devices and safety glasses are required. Field trips may be required. Different topics, artists, and processes are covered each semester. This course may be taken twice for credit.

**ARTPH 350  Documentary Photography  3 Units**
Prerequisite: ARTPH 300 or 305 with a grade of "C" or better
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course provides instruction in documentary photography and photojournalism techniques. Film developing, printing and digital processing are emphasized. A portfolio including an extensive essay or documentary project is required. A 35mm single lens reflex (SLR) camera or digital camera with manual options as well as darkroom and portfolio supplies are required. Field trips may be required.

**ARTPH 360  Studio Lighting  3 Units**
Prerequisite: ARTPH 300 or 305 with a grade of "C" or better
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a study in studio lighting techniques used in photography. Topics include lighting ratios, correct exposure using an electronic flash, basic portraiture, advertising, choice of camera formats and film, white balance adjustments, and color temperature. It also includes study of the history of studio photography. Black and white, color, and digital processes are included. A 35mm single lens reflex (SLR) or digital camera with manual option as well as darkroom and portfolio supplies are required. Field trips are required.

**ARTPH 370  Fashion Photography  3 Units**
Prerequisite: ARTPH 300 or 305 with a grade of "C" or better
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is an overview of basic fashion photography concepts. Topics include major movements in fashion photography as well as the study of specific fashion photographers. It also includes studio lighting and styling techniques specific to fashion and portrait photography. A 35mm single lens reflex (SLR) film camera or digital camera with manual options and darkroom supplies are required. Field trips may be required.

**ARTPH 490  Photography Lab  1 Unit**
Corequisite: Concurrent enrollment in: ARTPH 300, ARTPH 305, ARTPH 310, ARTPH 320, ARTPH 340, ARTPH 350, ARTPH 360, ARTPH 370, or ARTPH 495.
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course offers additional lab hours to more fully develop creative vision and technical skills. It provides additional assistance in assignments and portfolio development. It may be taken four times for credit with differing photography co-requisites.
Art New Media Degree

The Art New Media program emphasizes visual arts produced in a digital environment. While all new media are intimately linked to new technology, it is essential for a designer or artist to have a strong foundation in the fundamentals of visual art. Course work includes a wide spectrum of studies in traditional and new media fundamentals relevant to art and design.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- analyze design principles relevant to new media technology
- combine various technical skills in the field of art new media
- create visual images utilizing traditional and/or digital media
- synthesize concepts of modern art history and apply them to illustration, animation, graphic design and web design
- conceive visual solutions for successful visual communication
- critique new media works

Certificates:  Graphic Design

Degree:  A.A. - Art New Media

Associate Degree Requirements:  The Art New Media Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Graphic Design Certificate

The Graphic Design certificate offers a curriculum utilizing software applications, industry-standard hardware as well as developing the typographic/fundamental and technical skills necessary for today’s workplace. This certificate focuses on visual communication through layout design, typography, and the dynamic relationship between image and type; it meets current marketplace demands by incorporating print/non-print media and the effect new technologies have on a changing communications field. Students are encouraged to continue their studies in graphic design at a four year college, or encouraged to choose an entry level position in the graphic design industry.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- analyze and formulate visual communication ideas using graphic design principles and standards
- justify the historical role of typography as a communication device and know how the graphic design field fits into today’s multimedia environment
- create and assemble two-dimensional media projects taking into account form, composition, color and hierarchy of information
- manage and use technological tools used by the graphic design industry, being able to use the right tool for the right job
- evaluate problems generated by clients and execute visual responses through research, thumbnails, roughs, design development and presentation

Illustration Certificate

The Illustration certificate combines a strong foundation of traditional fine arts courses and courses using digital media. Illustration skills are used in animation and concept and character development as well as the traditional areas of editorial, advertising, technical, and book illustration. This certificate focuses on drawing and painting skills in both the traditional and digital environments. Students are encouraged to continue their studies in illustration at a four-year college, or encouraged to choose an entry level position in the illustration industry.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• create drawn and painted objects and the human figure from direct observation
• analyze the principles of color theory
• assess the most effective color harmony to enhance the viewer’s understanding of the content of an illustration or animation
• synthesize concepts of modern art history and apply them to illustrations and animation effectively communicate within contemporary culture
• create images utilizing traditional and/or digital media
• conceive visual solutions for a client within a defined timeframe

3D Animation Certificate

The 3D Animation certificate combines a strong foundation of traditional fine arts courses and courses using digital media. 3D animation skills are used in the film, game, broadcast, and web industries. This certificate focuses on drawing, sculptural, and photographic skills in the traditional and digital environments. Students are encouraged to continue their studies in 3D animation at a four-year college or to choose an entry level position in the 3D animation industry.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Create digital models from direct observation
• Analyze traditional sculpture and photography techniques
• Analyze the principles of animation
• Assess the most effective harmony of space and form to enhance the viewer’s understanding of the content of a 3D digital stage or animation
• Synthesize concepts of modern art history and apply them to 3D short films
• Synthesize contemporary 3D animation techniques

Web Design Certificate

The Web Design certificate incorporates graphic design, multimedia, and web technology through the fundamentals of design and industry standard software applications. This certificate focuses on the visual aspect of web design. Web design skills are used in business, government, educational institutions, and the entertainment industry. Students are encouraged to continue their studies in interactive design at a four-year college, or encouraged to choose an entry level position in the web design industry.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• assemble complex static and dynamic web pages/web sites using current technology
• design complex static and dynamic web pages/web sites using visual design concepts
• evaluate content needs for target audience
• assess the most effective navigation flow
• create digital layout utilizing traditional and/or digital methods
• conceive visual solutions for a client within a defined timeframe

Technical Communication Degree

The Technical Communications degree program is an interdisciplinary course of study designed to prepare students for employment as professional writers and communicators in a variety of media intended to instruct and inform audiences. The degree program includes substantial course work in writing, information design, editing, page design, online help development, web site creation, and the use of industry standard applications.

Career Opportunities

Technical communicators may be employed in a variety of occupations in government, scientific firms, nonprofits, natural resources, finance, education, and high tech.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- analyze audience information needs and propose solutions to aid the audience.
- design technical communication solutions for a variety of industry and government purposes.
- design and create web sites and help systems with effective visual design, navigation, and written content.
- design and publish printed pages with effective design, organization, content, and indexing.
- compose professional prose for a variety of audiences with a variety of purposes.
- create and edit professional documents in grammatically correct, concise English.
- create and use style templates in a variety of industry standard software.

Associate Degree Requirements: The Technical Communication Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Technical Communication Certificate

Description: The Technical Communication certificate offers an interdisciplinary program of courses in writing, Art/New Media, and Computer Information Systems to prepare students for a variety of technical writing and professional communication careers. The certificate includes the theory, writing skills, design background, and computer applications knowledge needed for jobs in technical communication.

Career Opportunities

Technical communicators find employment in medical, scientific, high tech, business, university, and government settings. They may write white papers, tutorials, reference and procedure manuals, help systems, user assistance video scripts, grants and proposals, and more.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- analyze audience information needs.
- compose concise, clearly written professional documents organized with the audiences’ needs in mind.
- design printed pages and online screens that communicate organizations’ values, enhance readability, and are easy to use.
- demonstrate basic skills in the use of key word processing, page design, help development, and web design applications.
- evaluate organizations’ communication goals with technical writing ethics in mind.

Course Transferable to CSU

Hours: 18 hours LEC; 27 hours LAB

This course is an introduction to the digital environment for Art New Media. Topics of MAC OS, digital vocabulary, scanning, saving and file formats will be included. Distinctions between vector, bit-map, and page layout applications will be made using Adobe Illustrator, Adobe Photoshop, and Adobe InDesign.

ARTNM 303  

Graphic Design: Typography  3 Units

Course Transferable to CSU

Hours: 36 hours LEC; 54 hours LAB

Graphic design is the art of visual communication and this course introduces the tools and concepts of visual thinking, with an emphasis on the potential of typography as an effective communications tool.
History of Graphic Design

ARTNM 305  History of Graphic Design  3 Units
General Education: AA/AS Area I; CSU Area C1
Course Transferable to CSU
Hours: 54 hours LEC
This course covers the history of visual communications as developed by ancient cultures through the present with an emphasis on commercial design, illustration, typographic development and technological invention. It includes modern graphic design movements of the 20th century through the expansive media innovations of today. An analysis of design from a wide range of sources and cultures is a primary focus.

Design: Fundamentals

ARTNM 310  Design: Fundamentals  3 Units
Same As: ART 320
Advisory: ENGRD 116; OR placement through assessment process.
General Education: AA/AS Area I; CSU Area C1
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course focuses on the fundamentals of design, establishing a foundation for intermediate and advanced art courses as well as developing a visual and verbal vocabulary essential to understanding and appreciating art and design esthetics. Design principles are applied through a series of studio projects that are derived from the study of both historical schools of art as well as contemporary theory. The elements of line, shape, form, spatial relationships, value and color are analyzed in concert with their use by artists throughout history. Projects utilize a wide range of tools, media, and presentation techniques. This course is not open to students who have completed ART 320.

ARTNM 320  Facial Expression and Anatomy  3 Units
Same As: ART 306
Advisory: ART 304
Course Transferable to CSU
Hours: 54 hours LEC
This course covers human facial expression and anatomy using live models, anatomical references and imagination. Issues of expression as it relates to skeletal and muscular anatomy will be addressed through a series of 2D and 3D projects. Not open to students who have taken ART 306.

Digital Design

ARTNM 324  Digital Design  3 Units
Advisory: ENGRD 116 with a grade of “C” or better; OR ENGRD 320 and ESWL 320 with a grade of “C” or better; OR placement through assessment process; and ART 300 or 320 and ARTNM 302
Course Transferable to CSU
Hours: 54 hours LEC
This course is an introduction to fundamental design principles using the basic tools of Adobe Illustrator. Design skills and the tools of the software application are applied to produce individual portfolio quality projects. This course may be taken four times on different versions.

Intermediate Digital Design

ARTNM 325  Intermediate Digital Design  3 Units
Prerequisite: ARTNM 324 with a grade of “C” or better.
Course Transferable to CSU
Hours: 54 hours LEC
This course is a continuation of ARTNM 324. It defines the elements of graphic design, such as typography, gestalt, dominance, hierarchy, balance, and color. These issues are applied to the typographic tools and imaging capabilities of Adobe Illustrator. Concepts emphasize typographic design and the relationship between type and image.

Digital Painting

ARTNM 326  Digital Painting  3 Units
Advisory: ARTNM 302, ART 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course introduces the basic operating principles of Corel Painter to create and manipulate images. The fundamental skills of drawing and painting will be applied to individual portfolio quality projects. This course may be taken four times on different platforms.

Digital Photo Imagery - PhotoShop Basics

ARTNM 328  Digital Photo Imagery - PhotoShop Basics  3 Units
Advisory: ART 320; CISC 300 (Macintosh); ENGRD 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESWL 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course is an introduction to computer-based photographic imaging using the basic operating principles of Adobe PhotoShop. Topics include color field variation, retouching, and the integration of graphics and photographs. The tools of the software application are applied to produce individual portfolio quality projects. This course may be taken four times for credit on a different version.

Intermediate Digital Photo Imagery

ARTNM 330  Intermediate Digital Photo Imagery  3 Units
Prerequisite: ARTNM 328 with a grade of “C” or better; or placement through the assessment process.
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course addresses the intermediate techniques of digital photo imagery. Topics include the terminology of digital photo imaging, intermediate masking, channel and curve techniques, photomontage history and techniques, intermediate black and white techniques, issues surrounding dynamic range, color correction, features of the Action and History palettes, exploration of Layer Blending Modes, printing and/or transferring images onto various different media, working with large format images and commercial printers. This course may be taken four times for credit on a different software package or version.

Media Studio I: Pigment-Based Media

ARTNM 331  Media Studio I: Pigment-Based Media  3 Units
Same As: ART 339
Course Transferable to CSU
Hours: 54 hours LEC
This course combines the materials and techniques used in both new media technology and traditional art practices and explores a wide variety of ideas, tools, and resources associated with pigment-based media. Topics include history, theory, and practice surrounding digital and traditional image generation, as well as image manipulation, image transfer, and material exploration. The course emphasizes developing unique forms of portfolio quality projects demonstrating new approaches and methods of integrating digital media with traditional media forms. ARTNM 331 and/or ART 339 may be taken a total of 4 times for credit using different techniques.

Digital Video

ARTNM 332  Digital Video  3 Units
Advisory: ARTNM 302 and 328.
Course Transferable to CSU
Hours: 54 hours LEC
This course applies the principles of cinematography to the production of digital video. Software applications such as Adobe Premiere and Adobe After Effects will be employed to capture/import, edit and produce high-end visual productions. The course includes transitions, multiple layers, alpha channels and composite blue screen segments. Evaluation of multimedia projects containing video segments in terms of design esthetics and technical and technical competence will also be included. This course may be taken four times on a different software package or version.
ARTNM 352  Design for Publication  3 Units  
Advisory: ART 320 and ARTNM 302  
Course Transferable to CSU  
Hours: 36 hours LEC; 54 hours LAB  
This course introduces the basic operating principles of digital page layout software using Adobe InDesign. Principles of typography and the development of the printed page are applied to individual portfolio quality projects. Areas of focus include book, magazine and newspaper design, as well as publications such as newsletters, journals and catalogs. An overview of promotions such as fliers, posters and brochures is also included. This course may be taken four times on different software versions.

ARTNM 354  Digital Prepress  3 Units  
Advisory: ARTNM 350 and CISC 300 (Macintosh).  
Course Transferable to CSU  
Hours: 36 hours LEC; 54 hours LAB  
This course introduces digital prepress for graphic design. Areas of focus will include desktop production for one-color and multi-color printing as well as the language necessary to properly communicate with service bureaus and commercial printers. Field trips are required.

ARTNM 356  Advanced Projects in Graphic Design  3 Units  
Advisory: ARTNM 324, 328, and 352.  
Course Transferable to CSU  
Hours: 36 hours LEC; 54 hours LAB  
This course covers project development and multiple software applications. Emphasis will be placed on project analysis, research, production, and presentation. Projects will be produced through the integration of major graphics applications in page layout, vector based graphics and digital imaging. A portfolio of professional level projects will be developed and presented.

ARTNM 358  College Magazine: Art Selection and Editing  1-2 Units  
Advisory: ART 300 and ARTNM 302  
Course Transferable to CSU  
Hours: 12-24 hours LEC; 16-36 hours LAB  
This course introduces production techniques and evaluation criteria for art submissions for a college level magazine. Techniques for print quality photography of art are demonstrated. Criteria for the selection of artwork are defined and applied to the editing process. Art works such as drawing, painting, photography, sculpture, jewelry, ceramics and digital media are selected and digitized for production. These images are used as visual content for the American River Review. This course may be taken two times for credit.

ARTNM 359  College Magazine: Design and Production  3 Units  
Advisory: ARTNM 302, 324, 328, 352, or 354.  
Course Transferable to CSU  
Hours: 36 hours LEC; 54 hours LAB  
This course is for the design and production of the American River Review. It incorporates creative writing from the English program and visual art from Fine Arts and Art New Media as the content for the college magazine, American River Review. Practical experience with layout is offered, establishing an esthetic relationship between the literary content and the visual image. Print production issues are addressed through the digital preparation of the magazine for print distribution. This course may be taken twice for credit.

ARTNM 370  Introduction to Illustration  3 Units  
Same As: ART 314  
Prerequisite: ART 300 with a grade of "C" or better  
Course Transferable to CSU  
Hours: 36 hours LEC; 54 hours LAB  
This course will survey the history of the art of illustration. The course defines areas of specialization and the illustrator's role in visual communication. This course will evaluate the appropriate use of materials, tools and methods. Illustration will be analyzed as a method of visual problem solving through a series of projects with varied applications. Not open to students who have taken ART 314.

ARTNM 372  Character Design  3 Units  
Same As: ART 317  
Prerequisite: ART 302 with a grade of "C" or better  
Advisory: ART 304 and ARTNM 302  
Course Transferable to CSU  
Hours: 36 hours LEC; 54 hours LAB  
This course introduces the visual development of characters including anatomical structure, environment, social and psychological concerns, and costume. Both digital and traditional media are applied. This course covers the graphical development of characters for animation, games, comics, graphic novels, children's books, and illustrated novels. ARTNM 372 and/or ART 317 may be taken two times for credit covering different characters.

ARTNM 400  Imaging For The Web  1 Unit  
Same As: CISW 350  
Advisory: CISC 306 or CISW 300  
Course Transferable to CSU  
Hours: 18 hours LEC; 18 hours LAB  
This course takes an in-depth look at designing graphics for the Web. Industry standard graphic software is used to create original graphics as well as to manipulate found imagery. Topics include developing graphic elements for a Web site using a visual theme, creating buttons and intuitive navigational elements, making background textures and images, understanding Web file formats, scanning, presenting to a client, and simple animation. May be taken twice for credit on a different platform or graphics software package.

ARTNM 401  Introduction to Web Development and Design  3 Units  
Same As: CISW 307  
Course Transferable to CSU  
Hours: 36 hours LEC; 54 hours LAB  
This course covers the strategies for the development and design of web sites. Using an industry standard web authoring tool, the course integrates both artistic and technical concepts. Topics include assembling, designing and publishing web pages using strategies, principles and processes universally practiced by the professionals in this field. This course, in combination with CISW 307, may be taken four times for credit on a different software package or version.

ARTNM 402  Intermediate Web Design  3 Units  
Prerequisite: ARTNM 328, ARTNM 401, or CISW 307 with a grade of "C" or better; or placement through the assessment process.  
Advisory: ARTNM 330 and CISC 300  
Course Transferable to CSU  
Hours: 36 hours LEC; 54 hours LAB  
This course covers production and intermediate design processes for the web with an emphasis on visual design. Various industry standard software applications are employed to create original graphics, control layout and type, process images, and publish professional web pages and/or sites. Topics include an in-depth discussion on the processes and the strategies of combining text, images, animation, video and audio elements to create compelling visual experiences for web users. This course may be taken four times on a different software package or version.
ARTNM 404  Interactive Multimedia Basics  3 Units
Same As: CISW 471
Prerequisite: ARTNM 402, ARTNM 404, CISW 300, CISW 310, or CISW 365 with a grade of “C” or better
Advisory: ARTNM 402, ARTNM 404, CISW 300, or CISW 310
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course demonstrates how to create simple vector-based graphics, animation, buttons, movies and raster files in a web environment. Topics include drawing tools, time-line effects, sound and video integration and basic interactivity. ARTNM 404 and/or CISW 365 may be taken a total of 4 times on different platforms or software versions.

ARTNM 405  Digital 2D Animation  3 Units
Advisory: ART 300 and ARTNM 302.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
The course studies techniques in 2D animation and 2D character animation incorporating sound and effects, using industry standard software. Animation topics include 2D animation structure and concepts on the development of a story and storyboard, the use of the timeline and stage, the development of content, imagery and graphics, frame by frame animation (cell animation), rotoscope, digital tweening, camera moves, camera angles, cuts and transitions. Character animation techniques include movement and walk cycles, facial expressions and lip-sync. Projects can be published on the Web, CD-Rom, and video. The course may be taken four times for credit on a different software version.

ARTNM 410  Interactive Multimedia Projects  4 Units
Same As: CISW 471
Prerequisite: ARTNM 402, ARTNM 404, CISW 300, CISW 310, or CISW 365 with a grade of “C” or better
Advisory: ARTNM 328, CISW 410, and CISW 420
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course focuses on interactive multimedia project development. Emphasis is placed on the project development cycle including design specification, research, production, modification, and presentation. Projects assigned are multifaceted, approaching the complexity that individuals would be expected to encounter in the interactive multimedia development industry. This course is not open to students who have completed CISW 471.

ARTNM 420  Introduction to Digital 3-D Modeling  3 Units
Advisory: ART 300, 320, 370, or 411.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course introduces computer 3D modeling and rendering, using industry standard software. Areas of focus include the modeling of 3D objects, camera use, and lighting techniques. The tools of the software application are applied to produce images for use in fine art, design, broadcast, film, and the Web. This course may be taken four times for credit on different software versions.

ARTNM 421  3D Character Modeling and Rigging  3 Units
Prerequisite: ARTNM 420 with a grade of “C” or better.
Advisory: ART 375.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a continuation of ARTNM 420. Human character modeling techniques are analyzed and applied. Techniques for creating animation controls, commonly known as rigging, are applied to create a digital marionette. Full body and facial character animation controls are examined. Industry issues, such as the topology flow of human anatomy and rig interfacing for animators, are developed. This course may be taken four times for credit on different software packages or versions.

ARTNM 422  3D Character Animation  3 Units
Prerequisite: ARTNM 420 with a grade of “C” or better.
Advisory: ART 375; DANCE 330.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course provides complex character animation techniques using industry standard software. Characters walk, breathe and act within a developed context. This course may be taken four times for credit on different software packages or versions.

ARTNM 423  Special Effects and Texturing in 3D Animation  3 Units
Prerequisite: ARTNM 420 with a grade of “C” or better.
Advisory: ART 411 or 419; ARTNM 326.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course provides complex texturing techniques and special effects using industry standard software. Scenes are created using texture mapping and shader trees, and atmospheres created using particles and volumetrics. Animation topics such as explosions and the breaking of objects are included. This class may be taken four times for credit on different software packages or versions.

ARTNM 425  Short Film in 3D Animation  3 Units
Advisory: ARTNM 420 or TA 310.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course introduces 3D computer animated story telling using the short film genre. The 3D animation production pipeline is examined and used in the creation process. Short films are created in a team format. The short films are prepared for a portfolio DVD quality presentation.

ARTNM 450  Portfolio for Art New Media  3 Units
Prerequisite: Completion of 9 units from one Art New Media Certificate with a grade of “C” or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course provides the fundamentals of designing and assembling an Art New Media portfolio of art and/or graphic works. Topics include techniques for presenting and photo-documenting the work and developing a resume.
Astronomy is part of the general education program at American River College. The astronomy sequence includes a laboratory and complies with general education transfer requirements.

**ASTR 300  Introduction to Astronomy  3 Units**  
Advisory: MATH 100 and 110  
General Education: AA/AS Area IV; CSU Area B1; IGETC Area 5A  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course covers modern astronomical theories, utilizing history, observations, reading, and discussion. It also includes changing conceptions of the cosmos, the planets, the universe of stars and galaxies, and cosmic evolution.

**ASTR 310  The Solar System  3 Units**  
General Education: AA/AS Area IV; CSU Area B1; IGETC Area 5A  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course explores the nature and evolution of the solar system. Topics include the nighttime sky, the history of astronomy, the tools of astronomy, and the origins and characteristics of planets, their satellites, and other components of the solar system. Emphasis is placed on how astronomers gain and refine their knowledge of the universe and interpret the latest results of planetary exploration.

**ASTR 320  Stars, Galaxies, and Cosmology  3 Units**  
General Education: AA/AS Area IV; CSU Area B1; IGETC Area 5A  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course explores the nature and evolution of stars, galaxies, and the universe. Topics include the history of astronomy, the tools of astronomy, star classification, stellar evolution, neutron stars, black holes, and the Big Bang. Emphasis is placed on how astronomers gain and refine their knowledge of the universe and interpret the latest results of space exploration.

**ASTR 330  Introduction to Astrobiology  3 Units**  
General Education: AA/AS Area IV; CSU Area B1; IGETC Area 5A  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
*This course explores the possibility of life beyond the Earth. Topics include the origin and evolution of life on Earth, the formation of Earth and other planets in the solar system, the likelihood of life existing on other planets or moons within our solar system, attempts to locate life within our solar system and attempts to communicate with intelligent life in other parts of the galaxy.*
**Automotive Collision Technology Degree and Certificate**

This degree or certificate provides a combination of classroom and hands-on shop experience to prepare for careers in all phases of automotive collision technology. Topics include component repairs, structural and non-structural repairs, and refinishing. It also covers various automotive systems, such as heating and air-conditioning, suspension and steering, and electrical.

**Student Learning Outcomes**

Upon completion of this program, the student will be able to:

- identify and estimate automotive collision damage.
- develop a repair plan.
- repair automotive collision mechanical damage.
- repair frame/unibody automotive collision structural damage.
- repair automotive collision body damage.
- refinish automotive collision damage.

**Career Opportunities**

This program provides training and hands-on experience in high-demand skills that lead to promising careers with high wages. The U.S. Labor Department reports that job opportunities for auto collision specialists are excellent because of the large number of older workers who are expected to retire in the next 5 to 10 years. In addition, it points out that experienced technicians are rarely laid off and that employers prefer to hire graduates of a formal training program because employers prefer to hire graduates of a formal training program because it provides a foundation in the latest collision technology, including the techniques and equipment used on the job.

**Associate Degree Requirements:** The Automotive Collision Technology Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

**ACT 110 Component Repairs 4 Units**

*Hours: 54 hours LEC; 54 hours LAB*

This course provides the technical information and hands-on experience to perform repairs to collision damaged vehicles. Topics covered are to correctly and safely remove, inspect, replace and align, bolt-on body components. It also covers the protection of mechanical and electrical systems, removal of damaged parts, anchoring theory and techniques applicable to damaged vehicles. Interpretation of damage analysis reports and types of collision damage are covered. Students enrolled in the Collision Technology program at American River College (ARC) may be eligible to apply for Inter-Industry Conference on Automotive Collision Repairs (I-CAR) points. This ARC/I-CAR alliance course prepares students for Automotive Service Excellence (ASE) testing and National Automotive Technicians Education Foundation (NATEF) training standards.

**ACT 120 Non-Structural Repair 4 Units**

*Hours: 54 hours LEC; 54 hours LAB*

This course provides the technical information and hands-on experience to perform limited and supervised repairs to collision damaged vehicles. It covers the principles and theory of automotive collision repair including procedures for replacement of door skins and quarter panels. Additionally, metal straightening theory, and techniques for steel and aluminum, and making repair versus replacement decisions are covered. Measuring systems techniques and their use in diagnosing and correcting collision damage are also presented. Students enrolled in the Collision Technology program at American River College (ARC) may be eligible to apply for Inter-Industry Conference on Automotive Collision Repair (I-CAR) points. This ARC/I-CAR alliance course also prepares for Automotive Service Excellence (ASE) testing and National Automotive Technicians Educational Foundation (NATEF) training standards.

**ACT 130 Structural Repair 4 Units**

*Hours: 54 hours LEC; 54 hours LAB*

This course covers principles and theory of automotive collision repair including component alignment, component replacement, structural panel repair or replacement, and chassis/frame alignment. Sectioning and full-panel replacement techniques and procedures are covered. Practical applications are emphasized. Students enrolled in the Collision Technology program at American River College (ARC) may be eligible to apply for Inter-Conference on Automotive Repair (I-CAR) points. This ARC/I-CAR alliance course also prepares students for Automotive Service Excellence (ASE) testing and National Automotive Technicians Education Foundation (NATEF) training standards.

**ACT 140 Automotive Refinishing 4 Units**

*Hours: 54 hours LEC; 54 hours LAB*

This course covers the principles and theories of paint finish application, tinting and blending, color evaluation, color adjustments, and evaluating color mismatch problems. Topics include paint application techniques, restoration of corrosion protection, blending procedures, new and emerging paint technologies, color identification, and interpreting vehicle color codes. It also addresses compliance with rules and regulations as determined by Occupational Safety and
Health Administration (OSHA), Environmental Protection Agency (EPA), Clean Air Act, and Volatile Organic Compound (VOC).

Students enrolled in the Collision Technology program at American River College (ARC) may be eligible to apply for Inter-Industry Conference on Automotive Collision repair (I-CAR) points. This ARC/I-CAR alliance courses also prepares student for Automotive Service Excellence (ASE) testing and National Automotive Technicians Education Foundation (NATEF) training standards.

**Automotive Technology**

**AT 121  Automotive Collision - Removal and Replacement of Non-Structural Components and Damage Analysis  4 Units**

*Hours: 54 hours LEC; 54 hours LAB*

This course provides the technical information and hands-on experience to perform repairs to collision damaged vehicles. Topics covered are to correctly and safely remove, inspect, replace and align, bolt-on body components. It also covers the protection of mechanical and electrical systems, removal of damaged parts, anchoring theory and techniques applicable to damaged vehicles. Interpretation of damage analysis reports and types of collision damage are covered. Students enrolled in the Collision Technology program at American River College (ARC) may be eligible to apply for Inter-Industry Conference on Automotive Collision Repair (I-CAR) points. This ARC/I-CAR alliance course prepares students for Automotive Service Excellence (ASE) testing and National Automotive Technicians Education Foundation (NATEF) training standards.

**AT 122  Automotive Collision - Non-Structural Repairs  4 Units**

*Hours: 54 hours LEC; 54 hours LAB*

This course provides the technical information and hands-on experience to perform limited and supervised repairs to collision damaged vehicles. It covers the principles and theory of automobile collision repair including procedures for replacement of door skins and quarter panels. Additionally, metal straightening theory, and techniques for steel and aluminum, and making repair versus replacement decisions are covered. Measuring systems techniques and their use in diagnosing and correcting collision damage are also presented. Students enrolled in the Collision Technology program at American River College (ARC) may be eligible to apply for Inter-Industry Conference on Automotive Collision Repair (I-CAR) points. This ARC/I-CAR alliance course also prepares students for Automotive Service Excellence (ASE) testing and National Automotive Technicians Education Foundation (NATEF) training standards.

**AT 123  Automotive Collision - Structural Panel & Component Repairs  4 Units**

*Hours: 54 hours LEC; 54 hours LAB*

This course covers principles and theory of automobile collision repair including component alignment, component replacement, structural panel repair or replacement, and chassis/frame alignment. Sectioning and full-panel replacement techniques and procedures are covered. Practical applications are emphasized. Students enrolled in the Collision Technology program at American River College (ARC) may be eligible to apply for Inter-Conference on Automotive Collision Repair (I-CAR) points. This ARC/I-CAR alliance course also prepares students for Automotive Service Excellence (ASE) testing and National Automotive Technicians Education Foundation (NATEF) training standards.

**AT 124  Automotive Refinishing Technology  4 Units**

*Hours: 54 hours LEC; 54 hours LAB*

This course covers the principles and theories of paint finish application, tinting and blending, color evaluation, color adjustment, and evaluating color mismatch problems. Topics include paint application techniques, restoration of corrosion protection, blending procedures, new and emerging paint technologies, color identification, and interpreting vehicle color codes. It also addresses compliance with rules and regulations as determined by Occupational Safety and Health Administration (OSHA), Environmental Protection Agency (EPA), Clean Air Act, and Volatile Organic Compound (VOC).

Students enrolled in the Collision Technology program at American River College (ARC) may be eligible to apply for Inter-Industry Conference on Automotive Collision Repair (I-CAR) points. This ARC/I-CAR alliance courses also prepares students for Automotive Service Excellence (ASE) testing and National Automotive Technicians Education Foundation (NATEF) training standards.

**AT 126  Automotive Collision Estimating  2 Units**

*Hours: 18 hours LEC; 54 hours LAB*

This course is designed to provide the student with both technical and practical skills necessary to properly diagnose collision damaged vehicles and to document the costs and times necessary to repair collision damaged vehicles. Using state-of-the-art computer-generated estimating programs and video imaging, the student will analyze collision-damaged vehicles and then prepare itemized estimates detailing the required procedures and parts necessary to correctly repair the vehicle.

**AT 310  Heating and Air-Conditioning Systems  4 Units**

*Corequisite: AT 100.*

*Course Transferable to CSU*

*Hours: 54 hours LEC; 54 hours LAB*

This course is an introduction to automotive heating and air conditioning theory. It meets Automotive Service Excellence (ASE) standard A7 and combines performance testing and repair practices as utilized in the industry.

**AT 311  Suspension and Steering Systems  4 Units**

*Corequisite: AT 100.*

*Course Transferable to CSU*

*Hours: 54 hours LEC; 54 hours LAB*

This course is an introduction to advanced principles and service of suspension and steering systems, including alignment of equipment, alignment procedures, and the diagnosis and repair of suspension components. It meets Automotive Service Excellence (ASE) A4 certification standards.

**AT 312  Electrical Systems  4 Units**

*Corequisite: AT 100 and 105.*

*Course Transferable to CSU*

*Hours: 54 hours LEC; 54 hours LAB*

This course covers the principles, operation, and diagnosis of automotive electrical systems including fundamentals of electricity (DC), electrical circuits, battery operation, fundamentals of magnetism, charging systems, starting systems and electrical schematics. This course meets Automotive Service Excellence (ASE) certification standards for the A6 electrical certification with completion of AT 315 and either AT 320 or AT 322.
The automotive technology program is a combination of classroom and hands-on shop experiences that prepare students for careers in all phases of automotive service and repair on all types of cars. Students are trained on the use of workshop manuals in traditional and computerized formats, hand held meters and scanners, and special shop tools including power and hand tools.

Highlights include:
- ASE certified instructors and programs.
- Students may begin 5-week courses 3 times during the semester.
- 5-week courses allow completion of some certificate programs in one semester.
- Small class size ensures individual attention and access to specialized equipment.
- Preparation for ASE and State Smog Certification (Emissions Control) exams.

Automotive Analysis Degree and Certificate

This Automotive degree and certificate prepares the student for entry level employment as a smog and driveability service technician. The certificate also prepares the student for Automotive Service Excellence (ASE) certification in Engine Repair A1, Automatic Transmissions/Transaxles A2, Electrical A6, Engine Performance A8, Advanced Engine Performance L1 along with the California Enhanced Area (EA) Smog Check License.

Student Learning Outcomes

Upon completion of this program, the student will be able to:
- Identify and implement safety procedures involved in the diagnosis, service and repair of all major automobile and light truck systems.
- Describe the function, operation and characteristics of all major components in the following automotive systems: engines, transmissions, brakes, suspension, electrical, air conditioning, emission control and computerized engine controls.
- Identify and follow manufacture standards for proper automobile diagnosis and repair.
- Operate hand and power tools necessary for automobile and light truck repair.
- Operate diagnostic equipment and interpret test results.
- Demonstrate the skills and knowledge to analyze, diagnose, and repair automotive engines, automatic and manual transmissions, suspension systems, braking systems, electrical systems, fuel delivery systems, ignition systems, emissions control systems and computerized engine controls.

Associate Degree Requirements: The Automotive Analysis Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.
Automotive Component Service Technician Degree and Certificate
This degree or certificate prepares the student for employment repairing of various automobile components including those requiring computer technology.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
• Diagnose and repair major automotive components.
• Describe the relationships between automotive components.
• Complete service and repair work to industry time and quality standards.
• Follow Federal EPA guidelines for handling and use of hazardous material found in a automotive shop.
• Demonstrate safe work practices in the auto shop.

Career Opportunities
Employment as a technician, shop foreman, service manager for new car dealers, automotive repair shops, fleet operators.

Associate Degree Requirements: The Automotive Component Service Technician Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Automotive Technology Degree and Certificate
This program prepares the student for an entry level position in the automotive industry with emphasis on engine management systems, emission controls, and complete automotive systems diagnosis and repair. The program also prepares the student for all 9 Automotive Service Excellence (ASE) certifications including Advanced Engine Performance (L-1) as well as the state Enhanced Area (EA) Smog Certification Test.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
• Apply algebraic and mathematical concepts essential to and for advancement in the automotive industry.
• Operate equipment and tools safely.
• Evaluate, adjust, test and diagnose components/system malfunctions.
• Diagnose, assess and repair manual and automatic transmissions and transaxles.
• Locate, download and analyze technical manuals from the internet, cdroms, and text sources.
• Analyze, diagnose, and repair automotive electrical and electronic systems to ASE performance level.
• Diagnose, troubleshoot, and repair basic Air-Conditioning (AC) systems.
• Diagnose, disassemble, inspect, clean and reassemble components of the steering and suspension system.
• Diagnose, diagnose, and repair engines to ASE performance levels.
• Analyze, and repair fuel injection systems to ASE standards.
• Diagnose engine emission control systems to ASE standards.
• Prepare for the state EA smog certification.

Air Conditioning Service Certificate
This certificate program prepares the student for an entry level position in the automotive industry. This program also prepares the student for Automotive Service Excellence (ASE) certification in Air Conditioning A-7.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
• Identify and implement safety procedures involved in the service and repair of Automotive Heating, Ventilation, Air Conditioning (HVAC) systems.
• Describe the function, operation and characteristics of each component in automotive HVAC systems.
• Operate diagnostic equipment and interpret results from the equipment.
• Diagnose automotive HVAC systems including manual, semi-automatic, and automatic.
• Repair automotive HVAC systems including manual, semi-automatic, and automatic.
• Diagnose engine cooling systems.
• Repair engine cooling systems.
• Follow Federal EPA guidelines for the handling and use of refrigerants.

BUSTEC 300 Beginning Keyboarding/Applications (1 - 3)

Automotive Service Technician Certificate

This certificate prepares the student for an entry-level position in the automotive industry. It also prepares the student for Automotive Service Excellence (ASE) certifications in Automotive Brakes, Manual Drive Trains and Axles, Heating and Air-Conditioning Systems, Suspension and Steering Systems, Electrical Systems, Automatic Transmission and Transaxles, and Automotive Engine Repair.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Apply essential algebraic and mathematical concepts in the automotive industry.
- Operate equipment and tools safely.
- Evaluate, adjust, test and diagnose brake components/system malfunctions.
- Diagnose, assess and repair manual transmission and transaxles.
- Locate, download, and analyze technical manuals from the Internet, CDROM, and text sources.
- Diagnose and troubleshoot basic Air Conditioning systems.
- Diagnose malfunctions and disassemble, inspect, clean and reassemble all components of the steering and suspension systems in accordance with service manual procedures.
- Diagnose and repair electrical systems at industry ASE performance standard levels.
- Diagnose and assess transmission and transaxle mechanical, electrical and hydraulic systems.
- Repair and diagnose engines at ASE performance standard levels.

Career Opportunities

The Automotive Service Technician certificate prepares the student for entry level positions in the fields of Auto Technician, Auto/Truck Specialist, Field Service, Sales Representative, Tune-up and Electrical Specialist.

BUSTEC 300 Beginning Keyboarding/Applications (1 - 3)

Parts and Service Certificate

This certificate provides training for automotive parts and service advisors. Topics include parts knowledge, integrated computer management software, scheduling, inventory control, hazardous materials and warranty documentation requirements.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Apply established procedures in the automotive industry.
- Ensure the satisfactory resolution of service-related customer issues.
- Create a service work including dispatching and invoicing.

Career Opportunities

Various positions in the automotive parts and service industry, such as service advisors and parts managers.

AT 298 Work Experience in Automotive Technology (1 - 4)

Transmission Service Certificate

This certificate program prepares the student for an entry-level position in the automotive industry. This program includes Automotive Service Excellence (ASE) certification in A-2 automatic transmission and A-3 manual drive-train.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Analyze an automotive transmission, applying elements of drive-train theory.
- Investigate an automotive electrical malfunction by locating, testing and identifying the failure in order to make necessary repairs.
- Research on-line and computer based automotive data sources in order to identify the correct repair procedure, and locate safety campaigns and bulletins.
- Describe the operation of drive-train components in order to report and justify a recommended repair procedure.
- Apply gear theory to drive-train malfunction.
- Evaluate and recognize the drive-train malfunction.

Career Opportunities

Entry-level positions in automatic transmission, clutch, and drive-train repair.

American River College Catalog 2009-2010
Undercar Service Certificate
The Undercar Service certificate provides entry-level training to perform repairs in automotive suspension, brake and exhaust service facilities.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
- develop a resume and cover letter to plan for future career opportunities.
- perform run out and parallelism evaluations on brake rotors and machine to manufacturer's specifications.
- measure and analyze suspension angles of a modern automobile and make adjustments necessary to bring the angle within manufacturer's specifications.
- identify modern exhaust system components and demonstrate how they relate to California emission control laws.
- research and synthesize brake, suspension and exhaust system information on electronic service manuals to provide information on repairs to meet industry standards.

Career Opportunities
This certificate provides students with knowledge for entry-level careers in the automotive suspension, brake and exhaust repair facilities.

Requirements for Certificate: 17 Units
AT 100 Technical Basics for the Automotive Professional 2 Units
AT 110 Automotive Brakes .................................................4
AT 145 Automotive Exhaust System ....................................4
AT 180 Automotive Data Acquisition ..................................3
AT 311 Suspension and Steering Systems .............................4

AT 100 Technical Basics for the Automotive Professional 2 Units
Hours: 36 hours LEC; 27 hours LAB
This course presents theoretical and practical training for entry-level automotive technicians. It presents basic automotive diagnosis and service procedures used in automotive shops. Lab projects performed in an automotive shop environment provide hands-on experience with industry shop tools. Shop service operations which meet Automotive Service Excellence (ASE) standards including safety, electrical, and other general automotive procedures are covered.

AT 105 Mathematics for Automotive Technology 3 Units
General Education: AA/AS Area II(b)
Hours: 54 hours LEC
This course covers mathematics as it relates to the automotive trades. Metric system, fraction, decimal equivalents, basic equations, ratio and proportion, gear and pulley ratios, power, efficiency, torque and thrust are covered.

AT 106 Automotive Dealership Operations 2 Units
Hours: 36 hours LEC
This course is an introduction to dealership operations and includes all of the various influences on the technician's position within the operation. Topics include service, sales, parts, and financial department's positions and operations. Customer Satisfaction Index (CSI) and the Bureau of Automotive Repair (BAR) are discussed. Field trips to local dealerships may be required.

AT 107 Employability Skills for Technical Careers 2 Units
Same As: ET 250 and WELD 150
General Education: AA/AS Area III(b)
Hours: 36 hours LEC
This course provides the opportunity of exploring technical careers while developing valuable work and life skills. It is an introduction to a variety of technically-related occupations. Emphasis is placed on exploring technical careers in the Sacramento area. Activities are designed to enhance personal development, employability skills, and self esteem through leadership, citizenship, and character development.

AT 108 Successful Automobile Selling Skills 1.5 Units
Hours: 27 hours LEC
This course covers successful automobile sales techniques. Topics include the process of selling cars, from greeting the consumer to closing the sale. It also covers understanding today's information age consumer.

AT 110 Automotive Brakes 4 Units
Corequisite: AT 100 and 180
Hours: 54 hours LEC; 54 hours LAB
This course covers theory, design, adjustment and repair or overhaul of brake systems and components. Operation of power and hand devices used in the servicing of brake systems and components is covered. This course meets Automotive Service Excellence (ASE) A5 standards.

AT 121 Automotive Collision - Removal and Replacement of Non-Structural Components and Damage Analysis 4 Units
Hours: 54 hours LEC; 54 hours LAB
This course provides the technical information and hands-on experience to perform repairs to collision damaged vehicles. Topics covered are to correctly and safely remove, inspect, replace and align, bolt-on body components. It also covers the protection of mechanical and electrical systems, removal of damaged parts, anchoring theory and techniques applicable to damaged vehicles. Interpretation of damage analysis reports and types of collision damage are covered. Students enrolled in the Collision Technology program at American River College (ARC) may be eligible to apply for Inter-Industry Conference on Automotive Collision Repair (I-CAR) points. This ARC/I-CAR alliance course prepares students for Automotive Service Excellence (ASE) testing and National Automotive Technicians Education Foundation (NATEF) training standards.

AT 122 Automotive Collision - Non-Structural Repairs 4 Units
Hours: 54 hours LEC; 54 hours LAB
This course provides the technical information and hands-on experience to perform limited and supervised repairs to collision damaged vehicles. It covers the principles and theory of automobile collision repair including procedures for replacement of door skins and quarter panels. Additionally, metal straightening theory, and techniques for steel and aluminum, and making repair versus replacement decisions are covered. Measuring systems techniques and their use in diagnosing and correcting collision damage are also presented. Students enrolled in the Collision Technology program at American River College (ARC) may be eligible to apply for Inter-Industry Conference on Automotive Collision Repair (I-CAR) points. This ARC/I-CAR alliance course also prepares students for Automotive Service Excellence (ASE) testing and National Automotive Technicians Education Foundation (NATEF) training standards.
AT 123 Automotive Collision - Structural Panel & Component Repairs 4 Units
Hours: 54 hours LEC; 54 hours LAB
This course covers principles and theory of automobile collision repair including component alignment, component replacement, structural panel repair or replacement, and chassis/frame alignment. Sectioning and full-panel replacement techniques and procedures are covered. Practical applications are emphasized. Students enrolled in the Collision Technology program at American River College (ARC) may be eligible to apply for Inter-Conference on Automotive Collision Repair (I-CAR) points. This ARC/I-CAR alliance course also prepares students for Automotive Service Excellence (ASE) testing and National Automotive Technicians Education Foundation (NATEF) training standards.

AT 124 Automotive Refinishing Technology 4 Units
Hours: 54 hours LEC; 54 hours LAB
This course covers the principles and theories of paint finish application, tinting and blending, color evaluation, color adjustment, and evaluating color mismatch problems. Topics include paint application techniques, restoration of corrosion protection, blending procedures, new and emerging paint technologies, color identification, and interpreting vehicle color codes. It also addresses compliance with rules and regulations as determined by Occupational Safety and Health Administration (OSHA), Environmental Protection Agency (EPA), Clean Air Act, and Volatile Organic Compound (VOC). Students enrolled in the Collision Technology program at American River College (ARC) may be eligible to apply for Inter-Industry Conference on Automotive Collision Repair (I-CAR) points. This ARC/I-CAR alliance course also prepares students for Automotive Service Excellence (ASE) testing and National Automotive Technicians Education Foundation (NATEF) training standards.

AT 125 Automotive Collision Estimating 2 Units
Hours: 18 hours LEC; 54 hours LAB
This course is designed to provide the student with both technical and practical skills necessary to properly diagnose collision damaged vehicles and to document the costs and times necessary to repair collision damaged vehicles. Using state-of-the-art computer-generated estimating programs and video imaging, the student will analyze collision-damaged vehicles and then prepare itemized estimates detailing the required procedures and parts necessary to correctly repair the vehicle.

AT 126 Automotive Collision Estimating II 2 Units
Prerequisite: AT 125 with a grade of "C" or better.
Hours: 18 hours LEC; 54 hours LAB
This course is a comprehensive study of computer-assisted estimating and office management systems used in the automotive collision repair industry. It includes a thorough study of all aspects of an estimator working in a collision repair facility environment. Advanced collision estimating concepts are presented.

AT 130 Manual Drive Trains and Axles 4 Units
Corequisite: AT 100 and 180
Hours: 54 hours LEC; 54 hours LAB
This course covers the basics of manual transmission and transaxles principles and service. Topics include clutches, manual transmissions and transaxles, drive line and shafts, differentials/limited slip differentials, and four-wheel drive/all-wheel drive. This course meets Automotive Service Excellence (ASE) standard A3.

AT 140 Advanced Automotive Skill and Speed Development 4 Units
Corequisite: AT 110, 130, 311, 312, and 314.
Hours: 54 hours LEC; 54 hours LAB
This course covers automotive heavy component diagnosis and repair, including engine and transmission removal and replacement, as well as in-car engine repairs, adjustments, and service. This course may be taken four times requiring a different project every semester.

AT 143 Automotive Parts 3 Units
Corequisite: AT 100
Advisory: AT 102
Hours: 45 hours LEC; 27 hours LAB
This course introduces the key workings of automotive systems and their related parts. It also offers preparation for the Automotive Service Excellence (ASE) P-2 Parts Specialist test. Topics include suspension systems, hazardous waste regulations, and inventory management.

AT 145 Automotive Exhaust System 4 Units
Prerequisite: AT 100 with a grade of "C" or better
Hours: 54 hours LEC; 54 hours LAB
This course is an introduction to the principles and service of exhaust systems, including pipe bending, cutting, welding, installation, repair, and inspection. It prepares students for the Automotive Service Excellence (ASE) X-1 exhaust systems test, which is required for the ASE Under-Car Specialist Certificate. Different welding techniques are covered each semester. This course may be taken three times with a different technique.

AT 146 Automotive Service Advising 3 Units
Corequisite: AT 180
Advisory: AT 100
Hours: 45 hours LEC; 27 hours LAB
This course introduces the basic requirements needed to perform the duties of an automotive service advisor. It also offers preparation for the Automotive Service Excellence (ASE) C-1 Service Consultant exam. Topics include utilization of diagnostic flow charts, recruiting techniques, and understanding of small business operations.

AT 150 Introduction to Diesel Technology 4 Units
Hours: 54 hours LEC; 54 hours LAB
This course introduces the field of diesel technology. It covers proper safety and hazardous waste training, use of basic hand and power tools, and the basic workings of the diesel engine.

AT 151 Diesel Engine Repair 4 Units
Hours: 54 hours LEC; 54 hours LAB
This course covers basic engine principles for the diesel engine. It covers disassembly and reassembly of diesel engine systems, including cleaning and safe removal of engines, fuel injection systems, valve trains, and engine heads.

AT 152 Basic Hydraulic Principles of Diesel Technology 4 Units
Hours: 54 hours LEC; 54 hours LAB
This course provides an introduction to the basic hydraulic principles and functions of the diesel engine. Topics include hydraulic fundamentals and principles, functions of hydraulic fluids, directional and flow control valves, and machine hydraulic overview.

AT 153 Diesel Brake Systems 4 Units
Advisory: AT 100
Hours: 54 hours LEC; 54 hours LAB
This course covers the operation of diesel brake systems and components. Topics include band, shoe, caliper, and full disc brakes.
AUTOMOTIVE TECHNOLOGY

AT 154  Diesel Electrical Systems  4 Units
Corequisite: AT 105
Advisory: AT 100
Hours: 54 hours LEC; 54 hours LAB
This course covers the operation of diesel electrical systems. Topics include electrical circuits, test instruments, charging systems, and electrical starting systems.

AT 155  Diesel Power Trains  4 Units
Hours: 54 hours LEC; 54 hours LAB
This course covers the diesel power train. Topics include inspection and adjustment of clutch linkage, flywheel inspection, and replacement of clutch brakes.

AT 165  Advanced DSO/Scanner Operations  1.5 Units
Prerequisite: Completion of AT 175, 322, 323, and 324; or hold a current smog license.
Hours: 27 hours LEC
This advanced course covers the use of various lab scopes and handheld computer scanners with heavy emphasis on waveform analysis and data stream diagnostics. In addition, this course will provide a hands-on approach to evaluating system readiness monitors including mode 6 and 7 validation.

AT 172  BAR A-6 Alternative - Electrical and Electronic Systems Training  1.5 Units
Hours: 27 hours LEC
This course is an intensive Bureau of Automotive Repair-approved review of automotive electrical/electronic systems. It partially satisfies ASE certification requirements when applying for a Smog Check Technician license.

AT 173  BAR A-8 Alternative - Engine Performance Systems  1.5 Units
Hours: 27 hours LEC
This course is an intensive Bureau of Automotive Repair (BAR)-approved review of automotive engine performance offered as an alternative to the ASE A-8 certification. It partially qualifies auto technicians for a Smog Check Technician license.

AT 174  BAR Approved L1 Alternative- Advanced Engine Performance/Emission Systems  2 Units
Advisory: AT 312 and AT 321 or 322, or engine performance experience in the automotive field.
Hours: 36 hours LEC
This course is preparation for the Bureau of Automotive Repair (BAR) - approved Advanced Engine Performance Exam. Topics covered include Power Train Diagnosis, Computer Control Diagnostics, Ignition System Diagnostics, Fuel and Air Induction Diagnostics, Emission Control System Diagnostics, and I/M Failure Diagnosis. The BAR L1 Alternative test is administered at the end of the class. This course may be taken four times. Credit/No Credit only.

AT 175  BAR OBD (On Board Diagnostics) II Update Course  1.5 Units
Hours: 27 hours LEC
This course presents an overview of automotive On-Board Diagnostic (OBD) systems. Instruction will include a history of OBD systems, computer diagnostics, government and Society of Automotive Engineers (SAE) regulations, OBDII diagnostics, monitors and reference information. This is a Bureau of Automotive Repair approved course.

AT 176  Bureau of Automotive Repair (BAR) Emissions Update  1 Unit
Hours: 18 hours LEC
This course is required for all licensed smog technicians who need to meet California emissions controls smog license renewal standards. This course may be taken four times for credit.

AT 180  Automotive Data Acquisition  3 Units
Hours: 54 hours LEC
This course covers the skills needed to adequately retrieve and apply automotive data acquisition, including on-line technical manuals, CD-ROM based technical manuals and computerized shop management programs. Computer-based automotive service repair order generation is covered as well as usage and application currently utilized in many automotive repair facilities.

AT 190  Advanced Student Projects  2 Units
Prerequisite: AT 100 with a grade of “C” or better
Hours: 108 hours LAB
This course provides opportunities to pursue advanced laboratory projects in all eight of the Automotive Service Excellence (ASE) educational areas. Projects are selected by the automotive department. This course may be taken four times for credit on different projects.

AT 201  ASE A-1 Engine Repair Test Preparation .5 Units
Hours: 9 hours LEC
This nine-hour course will help prepare for the ASE (Automotive Service Excellence) A-1 Engine Repair examination by reviewing ASE-style test questions and engine repair information. Credit/No Credit only. This course may be taken four times.

AT 202  ASE A-2 Auto Transmission and Transaxles Test Preparation .5 Units
Hours: 9 hours LEC
This nine-hour course will help prepare students for the ASE (Automotive Service Excellence) A-2 Transmission/Transaxle examination by reviewing ASE-style test questions and transmission/transaxle information. Credit/No Credit only. This course may be taken four times.

AT 203  ASE A-3 Manual Drive Trains and Axles Test Preparation .5 Units
Hours: 9 hours LEC
This nine-hour course will help prepare students for the ASE (Automotive Service Excellence) A-3 manual drive trains and axles examination by reviewing ASE-style test questions and drive trains information. Credit/No Credit only. This course may be taken four times.

AT 204  ASE A-4 Suspension and Steering Test Preparation .5 Units
Hours: 9 hours LEC
This nine-hour course will help prepare students for the ASE (Automotive Service Excellence) A-4 Suspension and Steering examination by reviewing ASE-style questions and suspension and steering information. Credit/No Credit only. This course may be taken four times.

AT 205  ASE A-5 Brakes Test Preparation .5 Units
Hours: 9 hours LEC
This nine-hour course will help prepare students for the ASE (Automotive Service Excellence) A-5 Brakes examination by reviewing ASE-style test questions and brakes information. Credit/No Credit only. This course may be taken four times.
AT 206  ASE A-6 Electrical/Electronic Systems Test Preparation .5 Units
Hours: 9 hours LEC
This nine-hour course will help prepare students for the ASE (Automotive Service Excellence) A-6 Electrical/Electronic Systems examination by reviewing ASE-style test questions and electrical/electronic systems information. Credit/No Credit only. This course may be taken four times.

AT 207  ASE A-7 Heating & Air Conditioning Test Preparation .5 Units
Hours: 9 hours LEC
This nine-hour course will help prepare students for the ASE (Automotive Service Excellence) A-7 Heating & Air Conditioning examination by reviewing ASE-style test questions and heating & air conditioning information. Credit/No Credit only. This course may be taken four times.

AT 208  ASE A-8 Engine Performance Test Preparation .5 Units
Hours: 9 hours LEC
This nine-hour course will help prepare students for the ASE (Automotive Service Excellence) A-8 Engine Performance examination by reviewing ASE-style test questions and engine performance information. Credit/No Credit only. This course may be taken four times.

AT 209  ASE L-1 Advanced Engine Performance Specialist Test Preparation .5 Units
Hours: 9 hours LEC
This nine-hour course will help prepare students for the ASE (Automotive Service Excellence) L-1 Advanced Engine Performance Specialist examination by reviewing ASE-style test questions and engine repair information. Credit/No Credit only. This course may be taken four times.

AT 251  Automotive Electronic Accessories and Installation 3 Units
Same As: ET 251
Corequisite: AT 312 or ET 302
Hours: 36 hours LEC; 54 hours LAB
This course covers the principles and processes involved in the installation of mobile entertainment, security, positioning and other electrical and electronic related systems and components. Safety, circuit diagrams, inspection, wiring, installation and troubleshooting techniques are covered along with the operational characteristics of the various electrical circuits. Topics related to this course cover the areas for the certification testing required to become a qualified Mobile Electronics Certified Professional (MECP) installer. A field trip is required. This course is not open to students who have taken ET 251.

AT 294  Topics in Automotive Technology .5-3 Units
Hours: 9-54 hours LEC; 27-162 hours LAB
This course provides opportunity to study current topics in automotive technology that are not included in existing courses. It may be taken four times for a maximum of six units, provided there is no duplication of topics.

AT 298  Work Experience in Automotive Technology 1-4 Units
Advisory: AT 100
General Education: AA/AS Area III(b) (effective Summer 2008)
Enrollment Limitation: Be in a paid or non-paid internship, volunteer opportunity or job related to the automotive industry.
Hours: 60-300 hours LAB
This course provides students with opportunities to develop marketable skills in preparation for employment in the automotive field. It is designed for students interested in work experience and/or internships in the automotive industry. Course content includes understanding the application of education to the workforce; completion of required forms which document the student’s progress and hours spent at the work site; and developing workplace skills and competencies. Rigor is ensured through the development of appropriate level learning objectives set between the student and the employer. During the course of the semester, the student is required to fulfill a weekly orientation and 75 hours of related paid work experience, or 60 hours of unpaid work experience for one unit. An additional 75 or 60 hours of related work experience is required for each additional unit. The weekly orientation is required for first time participants, returning participants are not required to attend the weekly orientation but are required to meet with the instructor as needed to complete all program forms and assignments. WEXP 298 may be taken for a total of 16 units when there are new or expanded learning objectives. Students can earn a total of 16 Work Experience units.

AT 301  Small Gas Engines, 4-Cycle 2 Units
Same As: HORT 330
Course Transferable to CSU
Hours: 18 hours LEC; 54 hours LAB
This course covers basic operational theory, servicing, adjusting and the maintenance of 4-cycle small gas engines as they pertain to the automotive and horticulture industries. This course is not open to students who have taken HORT 330.

AT 302  Small Gas Engines, 2-Cycle 2 Units
Same As: HORT 331
Course Transferable to CSU
Hours: 18 hours LEC; 54 hours LAB
This course covers basic operational theory, servicing, adjusting, and maintaining 2-cycle small gas engines as they pertain to the automotive and horticulture industries. This course is not open to students who have taken HORT 331.

AT 307  Biodiesel Technology 4 Units
Corequisite: AT 100 or 150
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course covers the chemistry, production, and impact of biodiesel technology. It also covers how to convert vehicle fuel systems to biodiesel and how this process affects warranties.

AT 310  Heating and Air-Conditioning Systems 4 Units
Corequisite: AT 100.
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course is an introduction to automotive heating and air conditioning theory. It meets Automotive Service Excellence (ASE) standard A7 and combines performance testing and repair practices as utilized in the industry.
AT 311 Suspension and Steering Systems 4 Units
Corequisite: AT 100.
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course is an introduction to advanced principles and service of suspension and steering systems, including alignment of equipment, alignment procedures, and the diagnosis and repair of suspension components. It meets Automotive Service Excellence (ASE) A4 certification standards.

AT 312 Electrical Systems 4 Units
Corequisite: AT 100 and 105.
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course covers the principles, operation, and diagnosis of automotive electrical systems including fundamentals of electricity (DC), electrical circuits, battery operation, fundamentals of magnetism, charging systems, starting systems and electrical schematics. This course meets Automotive Service Excellence (ASE) certification standards for the A6 electrical certification with completion of AT 315 and either AT 320 or AT 322.

AT 313 Automatic Transmission and Transaxles 4 Units
Corequisite: AT 100
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course covers the basics of automatic transmission and transaxle principles and service. Topics include hydraulic principles, diagnosis and service, power conversion, and automatic transmission operation. AT 313 and AT 317 together meet Automotive Service Excellence (ASE) standard A2.

AT 314 Automotive Engine Repair 4 Units
Corequisite: AT 100 and 105.
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course covers the principles, operation and diagnosis of automotive engines including basic engine operation and construction, parts identification and location, engine disassembly procedures, engine diagnosis using metric and English measurement systems, engine repair and rebuilding procedures, and engine reassembly procedures. Completion of AT 314 and either AT 320 or AT 322 meets Automotive Service Excellence (ASE) A1 standards.

AT 315 Advanced Electrical: Engine/Chassis/Hybrid 4 Units
Prerequisite: AT 312 with a grade of “C” or better
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course covers the principles of advanced diagnostics of engine, chassis, and hybrid electrical systems. Topics include power windows, power seats, power locks (including keyless entry), multiplexing systems, computer-controlled charging systems, navigation systems, factory installed accessory circuits, and hybrid powertrain control systems. It meets Automotive Service Excellence (ASE) certification standards for the A6 electrical certification with the completion of AT 312 and either AT 320 or AT 322.

AT 316 Alternative Fuels and Advanced Technology Vehicles 4 Units
Corequisite: AT 100 or 150
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course covers an overview of existing fuels (hydrocarbon), renewable/sustainable alternative fuels, gaseous, and future fuels. It covers how they function in various fuel delivery systems, including hybrid, by examining the history, chemistry, production, and practicality of each. Field trips may be required.

AT 317 Advanced Drivetrain 4 Units
Prerequisite: AT 313 with a grade of “C” or better
Hours: 54 hours LEC; 54 hours LAB
This course covers advanced aspects of automatic transmission and transaxle diagnosis, service, and repair. Topics include mechanical, electrical, and electronic diagnosis, diagnosis and repair of vibration problems, advanced scan tool operation, and dynamometer testing. AT 317 and AT 313 together meet Automotive Service Excellence (ASE) standard A2.

AT 320 Engine Performance Technology 12 Units
Prerequisite: AT 312 and 314 with grades of “C” or better
Course Transferable to CSU
Hours: 162 hours LEC; 162 hours LAB
This course covers the principles and diagnosis of the following systems: chassis electrical, engine electrical, engine mechanical, conventional and electronic computer-controlled ignition systems, basic fuel injection, and basic computer systems. It also includes extensive troubleshooting with use of hand-held test equipment, lab oscilloscopes, scanners, digital storage oscilloscopes (DSO) and 4- and 5-gas analyzers. It meets Bureau of Automotive Repair (BAR) and Automotive Service Excellence (ASE) A-8 certifications. It also satisfies A-1 and A-6 requirements when AT 312, AT 314 and AT 315 are completed.

AT 321 Engine Performance Technology 12 Units
Prerequisite: AT 320 with a grade of "C" or better
Course Transferable to CSU
Hours: 162 hours LEC; 162 hours LAB
This course covers theory, operation, and diagnosis of fuel delivery and emission control systems. Fuel supply, electronic feedback carburetors, mechanical and electronic fuel injection, emission components as well as operation and diagnosis are also presented. It also includes Bureau of Automotive Repair (BAR) Basic Area Clean Air Course, Enhanced Area Clean Air Course, and BAR Update Courses. This course meets Automotive Service Excellence (ASE) A8 and L1 requirements when AT 312, 314, 315 and 320 are completed.

AT 322 Engine Performance & Electronic Engine Controls 6 Units
Prerequisite: AT 312 and 314 with grades of "C" or better
Course Transferable to CSU
Hours: 72 hours LEC; 108 hours LAB
This course covers the principles, operation, and diagnosis of automotive engine performance systems including engine mechanics, ignition, fuel delivery and electronic engine controls. Instruction includes extensive troubleshooting, use of diagnostic test equipment, lab oscilloscopes, scantools, and emission analyzers. This course meets Automotive Service Excellence (ASE) certification standards for the A8 engine performance certification with completion of AT 323.
AT 323  Clean Air Car Course  6 Units
Prerequisite: AT 322 (Engine Performance & Electronic Engine Controls) with a grade of "C" or better or one year work experience in automotive engine performance
Course Transferable to CSU
Hours: 72 hours LEC; 108 hours LAB
This course covers the Bureau of Automotive Repair (BAR) certified Basic and Advanced Clean Air Car Course, which now includes the former On Board Diagnostics (OBD) II update course, and the BAR 03/04 and 05/06 update courses. Topics include: smog check laws, rules and regulations; exhaust emission analysis; emission control systems diagnosis; smog inspection procedures; digital storage oscilloscopes (DSO) usage; loaded mode emission testing and smog check failure diagnosis. It is required for first-time licensed technicians or for those whose license has been expired for more than one year. This course may be taken four times for credit.

AT 325  Performance Evaluation and Planning  4 Units
Prerequisite: AT 110, 130, 311, 312, and 314 with grades of "C" or better
Advisory: AT 320 and 322
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course explores the performance and efficiency of the modern vehicle power-train. Course topics include performance and economy modifications through systematic testing procedures while maintaining credible results through the use of modern measurement tools. This course may be taken two times on different projects.

AT 327  Advanced Motorsports  4 Units
Prerequisite: AT 110, 130, 311, 312, and 314 with grades of "C" or better
Advisory: AT 130, 313, and 321
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course is an introduction to motorsports through lecture and raceway experience. It covers real time operation of a race team, racing events, and race track operation. Field trips may be required. This course may be taken two times on different projects.
Biotechnology Degree

This program provides the theory and skills necessary for entry into the biotechnology field, which uses cellular and molecular processes for industry or research. Course work includes practical laboratory skills with emphasis on good laboratory practice, quality control, and regulatory issues in the biotechnology workplace. Completion of the program also prepares the student for transfer at the upper division level to academic programs involving biotechnology.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Apply biological and chemical concepts to biotechnology research and its practical applications.
- Demonstrate biotechnology laboratory procedures involving protein and DNA techniques, cell culture methods, and solution preparation.
- Design and interpret experiments involving biotechnology laboratory procedures.
- Evaluate biotechnology laboratory practices in the context of good laboratory practice, quality control, and regulatory issues.
- Analyze biotechnology data using mathematical and statistical methods.
- Integrate laboratory skills and theory into job-related tasks in the biotechnology workplace.
- Appraise social and ethical issues related to advances in biotechnology research and its practical applications.

Career Opportunities

This program prepares the student for entry-level work in the bioscience industry in the areas of research and development, production, clinical testing, and diagnostic work. Potential employers include biotechnology and pharmaceutical companies, as well as laboratories in hospitals, government, and universities.

Associate Degree Requirements: The Biotechnology Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Biotechnology Certificate

This program provides the theory and skills necessary for entry into the biotechnology field, which uses cellular and molecular biology processes for industry or research. Course work includes practical laboratory skills with emphasis on good laboratory practice, quality control, and regulatory issues in the biotechnology workplace. This program is suitable for preparing the student for the biotechnology workplace at the support personnel level.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Apply biological and chemical concepts to biotechnology research and its practical applications.
- Demonstrate biotechnology laboratory procedures involving protein and DNA techniques, cell culture methods, and solution preparation.
- Design and interpret experiments involving biotechnology laboratory procedures.
- Evaluate biotechnology laboratory practices in the context of good laboratory practice, quality control, and regulatory issues.
- Assess the impact of biotechnology on social and ethical issues.

Career Opportunities

This program prepares the student for entry-level work in the bioscience industry in the areas of research and development, production, clinical testing, and diagnostic work. Potential employers include biotechnology and pharmaceutical companies, as well as laboratories in hospitals, government, and universities.

American River College Catalog 2009-2010

86
American River College Catalog 2009-2010

BIOL 102 Essentials of Human Anatomy and Physiology 4 Units

General Education: AA/AS Area IV
Hours: 54 hours LAB
This course examines body systems from an anatomical and physiological point of view. The basic anatomy and physiology of all the body systems are covered with an emphasis on developing vocabulary in each area. Activities include simple physiology experiments and demonstrations, and using models and simple dissections to learn anatomy. It meets the minimum requirements for licensed vocational nursing, paramedic, gerontology, and funeral services programs.

BIOL 115 Basic Anatomy and Physiology 3 Units

General Education: AA/AS Area IV
Hours: 54 hours LEC
This course provides instruction involving basic human anatomy and physiology of the skin, skeletal, muscular, nervous, circulatory, and lymphatic systems. It is designed for medical assistants, medical secretaries, medical transcriptionists, and hazardous materials technicians. BIOL 115 and 116 compose a complete study of the basic anatomy and physiology of the human body.

BIOL 116 Basic Anatomy and Physiology 3 Units

General Education: AA/AS Area IV
Hours: 54 hours LEC
This course provides instruction involving basic human anatomy and physiology. This course is designed for medical assisting majors, medical secretaries, and other health-related technologies. It covers body organization, basic chemistry, cells, and tissues. In addition, BIOL 116 covers respiratory, digestive, urinary, endocrine, and reproductive systems. Either BIOL 115 OR 116 may be taken first, however, both courses are necessary for a complete study of human anatomy and physiology.

BIOL 117 Basic Anatomy and Physiology Lab 1 Unit

Corequisite: BIOL 115.
Hours: 54 hours LAB
This introductory laboratory course in basic human anatomy and physiology is designed to complement the lecture course BIOL 115. This course is designed for medical assistants, medical secretaries, medical transcriptionists, and hazardous materials technicians. This course is not acceptable in registered nursing and respiratory care programs.

BIOL 118 Basic Anatomy and Physiology Laboratory 1 Unit

Corequisite: BIOL 116.
Hours: 54 hours LAB
This course is an optional introductory laboratory course in basic human anatomy and physiology designed to complement the lecture course BIOL 116. It is designed for medical assisting, medical records, and hazardous materials technician majors, and other health-related technologies. It is not acceptable in most nursing and respiratory care programs.

BIOL 300 The Foundations of Biology 3 Units

General Education: AA/AS Area IV; CSU Area B2; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This non-science majors course covers basic biological principles and how they relate to humans. Concepts include an introduction to the philosophy of science. Basic cell chemistry, structure, and physiology are covered. An introduction to basic genetics (transmission and molecular) as well as some biotechnology principles are discussed. Additionally, human body systems, evolution, reproduction and development, as well as ecology and human impacts on the environment, are addressed. This course is not open to students who have completed BIOL 310.

BIOL 303 Survey of Biology 4 Units

General Education: AA/AS Area IV; CSU Area B2; CSU Area B3; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC; 54 hours LAB
This course covers biological principles with emphasis on a survey of the major groups of organisms and a comparison of the structure and function of their cells, tissues, and organ systems. Ecology, genetics, and evolution are included. Plant and animal dissection are included as part of the laboratory activities. This course is appropriate for liberal studies, elementary education, environmental studies, recreation and other related majors. Field trips are required.

BIOL 305 Natural History 4 Units

General Education: AA/AS Area IV; CSU Area B2; CSU Area B3; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC; 54 hours LAB
This course covers ecological and biological principles in order to understand the origin and diversity of living organisms. Topics range from landscape formation, habitats to the adaptations organisms have evolved to live in their environment. Although this is a broad survey course, emphasis will be placed on the animal kingdom and on local environments. A variety of field trips opportunities allow students to study the diversity of life around them. Dissection is not part of this course. Designed as non-majors, introductory course and for those who enjoy the outdoors.

BIOL 310 General Biology 4 Units

General Education: AA/AS Area IV; CSU Area B2; CSU Area B3; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC; 54 hours LAB
This non-science majors laboratory course covers basic biological principles and how they relate to humans. Concepts included are cell chemistry, structure, and physiology; genetics (transmission and molecular); biotechnology; human body systems; evolution; reproduction and development; ecology; and human impacts on the environment. This course is not open to students who have completed BIOL 300.
BIOLOGY & BIOTECHNOLOGY

BIOL 320  Field Botany  3 Units
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers identification, sight recognition and ecological relationships of native vascular plants of California. Plant keys and principles of taxonomy are stressed to develop proficiency in identification of plant species. This course covers some of society's historical uses of native plants. Frequent field trips and a plant collection are required.

BIOL 322  Ethnobotany  3 Units
General Education: AA/AS Area VI
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
The focus of this introductory course is the multicultural use of plants. Emphasis is on the identification and use of plants from several cultures including the American Indians, Europeans, South Americans, and Chinese. Topics include the use of plants for food, medicine, basketry, technology, shelter, and music. Sight recognition and plant use will be emphasized. Analysis of ethnicity and ethnocentrism is included.

BIOL 330  Natural History of Insects  3 Units
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course provides an introduction to the science of Entomology. Approximately 75% of all known species of animals are insects, therefore, they often have a profound effect on human civilization. This class details their great variety, structures and function, habitats, and their significance to plants and animals, including humans. Opportunities for field investigations will be provided.

BIOL 332  Introduction to Ornithology  2 Units
Course Transferable to CSU
Hours: 18 hours LEC; 54 hours LAB
This introductory course covers the biologically unique aspects of bird life. Topics include avian flight, migration, song, feeding and foraging ecology, reproduction and mating systems, social behavior, and conservation. Laboratory work explores bird structure and function, and is supplemented by required field trips where field skills are learned. Identification of avian family traits and common local species is accomplished by means of taxonomy and field study.

BIOL 342  The New Plagues: New and Ancient Infectious Diseases Threatening World Health  3 Units
General Education: CSU Area B2; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course explores the biology, epidemiology, and pathology of selected pathogens such as prions, viruses, bacteria, protozoa, and helminthes that threaten public health on a global scale. It explores the interaction between human behavior and disease agents on the emergence of new infectious agents and the re-emergence of ancient plagues.

BIOL 350  Environmental Biology  3 Units
General Education: AA/AS Area IV; CSU Area B2; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course provides a broad overview of the natural environment using fundamental biological and ecological principles. Major topics include the cultural history of environmentalism, the role of science in investigating environmental impacts, ecosystem structure and function, and the concept of biodiversity. Human impacts on the plant and animals of forest, grassland, river, desert, tropical, marine and polar systems are covered with a specific focus on California landscapes and global biodiversity hotspots. This course provides the scientific background to analyze major global and regional environmental problems and to discuss the scientific techniques used to solve them. Field trips are required.

BIOL 352  Conservation Biology  3 Units
General Education: AA/AS Area IV; CSU Area B2; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This introductory course covers biological and ecological principles involved in understanding and analyzing environmental problems and exploring scientifically sound conservation techniques. Major topics include the nature of science, population dynamics and distributions, evolution and species extinctions, biodiversity, ecosystem functions, and the interdependence between humans and our environment. This course places emphasis on scientific processes and methodology. Statewide and local environments will be highlighted. Field trips and a semester project may be required.

BIOL 370  Introduction to Marine Environment  4 Units
General Education: AA/AS Area IV; CSU Area B2; CSU Area B3; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC; 54 hours LAB
This course is an introduction to oceanography and marine biology. It includes the study of sea water, marine geology, marine algae, marine vertebrate and invertebrate animals, and the ecology of various marine zones. Field trips focusing on the Central California coast are required.

BIOL 390  Natural History Field Study  .5-4 Units
Course Transferable to CSU
Hours: 3-24 hours LEC; 18-144 hours LAB
This course covers identification, sight recognition and ecological methodology. Statewide and local environments will be highlighted. Field trips are required. Field trips are required. This course may be taken up to four times for a maximum of eight units.

BIOL 400  Principles of Biology  5 Units
Prerequisite: CHEM 400 with a grade of “C” or better
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area IV; CSU Area B2; CSU Area B3; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC; 108 hours LAB
This is an introductory course covering biological concepts important for a general understanding and background for biology majors and pre-professional students. Emphasis is on the scientific method and basic processes common to all forms of life. Topics include cell structure and function, cell physiology, cell reproduction, Mendelian and molecular genetics, evolution, and ecology.
BIOL 410  Principles of Botany  5 Units
Prerequisite: BIOL 400 with a grade of “C” or better
General Education: CSU Area B2; CSU Area B3; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC; 108 hours LAB
This course covers the general principles of botany for science majors. The emphasis is on anatomy, morphology, life cycles, embryology and physiology of plants and a plant kingdom survey. All laboratory work includes instructor directed lecture-discussions consisting of an introduction and analysis of the data and idea covered. One field trip is required.

BIOL 420  Principles of Zoology  5 Units
Prerequisite: BIOL 400 with a grade of “C” or better
General Education: CSU Area B2; CSU Area B3; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC; 108 hours LAB
This course covers general principles of zoology. Topics covered include a survey of the animal kingdom, embryology, evolution, genetics, systematics, and comparative anatomy and physiology. One or two field trips per semester are required.

BIOL 430  Anatomy and Physiology  5 Units
Prerequisite: BIOL 430, 409, or 400 with a grade of “C” or better
General Education: AA/AS Area IV; CSU Area B2 and B3; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC; 108 hours LAB
This course covers the principles of human anatomy and physiology, emphasizing the integration of structure and function. The topics covered include anatomical terminology, chemistry, cells, histology, articulations, and the integumentary, skeletal, muscular and nervous systems. Both BIOL 430 and BIOL 431 must be taken to study all of the major body systems.

BIOL 431  Anatomy and Physiology  5 Units
Prerequisite: BIOL 430 with a grade of “C” or better
General Education: AA/AS Area IV
Course Transferable to UC/CSU
Hours: 54 hours LEC; 108 hours LAB
This course covers the principles of human anatomy and physiology, emphasizing the integration of structure and function. It includes the following systems: cardiovascular, lymphatic, respiratory, digestive, urinary, endocrine and reproductive. Both BIOL 430 and 431 must be taken to study all of the major body systems.

BIOL 440  General Microbiology  4 Units
Prerequisite: CHEM 305, 309, 310, or 400 with a grade of “C” or better
General Education: CSU Area B2; CSU Area B3; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC; 72 hours LAB
This course introduces microorganisms and their effects on human health. It examines the structure, physiology, metabolism, and genetics of microorganisms. Laboratory work includes aseptic technique, morphological and biochemical properties of microorganisms, and medically relevant issues regarding microorganisms.

BIOL 442  General Bacteriology  5 Units
Prerequisite: CHEM 305, 310, or 400 with a grade of “C” or better
General Education: CSU Area B2; CSU Area B3; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC; 108 hours LAB
This course provides a survey of bacteria and viruses, examining their cellular and molecular structure, physiology, metabolism, and genetics. Laboratory work introduces methods for cultivating and characterizing microorganisms and explores the properties of microorganisms in various habitats.
### Biotechnology

**BIOT 300  Introduction to Biotechnology**  4 Units  
Prerequisite: BIOL 310 or 400, CHEM 305 with a grade of "C" or better.  
Course Transferable to UC/CSU  
Hours: 54 hours LEC; 54 hours LAB  
This course provides the necessary biochemistry, genetics and molecular biology principles that constitute the foundation for training in the field of biotechnology. Topics covered will include recombinant DNA technology; DNA production, characterization and analysis; PCR methodologies. Emphasis in lab and theory skills.

**BIOT 305  Introduction to Bioinformatics**  1 Unit  
Prerequisite: BIOL 310 or 400 with a grade of "C" or better.  
Advisory: BIOT 300 and CISC 305.  
Course Transferable to CSU  
Hours: 14 hours LEC; 14 hours LAB  
This course introduces topics on biology databases, search and retrieval programs, structure/function analysis of biological molecules, DNA sequence alignment and analysis, and applications of these technologies.

**BIOT 306  Computer Applications in Bioinformatics**  3 Units  
Prerequisite: BIOT 305 with a grade of "C" or better.  
Course Transferable to CSU  
Hours: 36 hours LEC; 54 hours LAB  
This course introduces computation concepts and methods used in bioinformatics. It addresses issues in genomics and proteomics, such as sequence alignment, gene recognition and regulation, and protein modeling. The course examines software and programming tools used to access and manipulate biological database information, especially nucleic acid and protein data.

**BIOT 307  Biotechnology and Society**  2 Units  
Course Transferable to UC/CSU  
Hours: 36 hours LEC  
This course focuses on the emerging impact of biotechnology on society. Basic concepts in biotechnology are introduced in a non-technical manner to explore advances in medicine, agriculture, and other fields. Public perception and ethical issues in biotechnology are also emphasized.

**BIOT 308  Exploratory Field Experience in Biotechnology Education**  3 Units  
Prerequisite: BIOL 303, 310, or 400 with a grade of "C" or better  
General Education: AA/AS Area III(b)  
Enrollment Limitation: Current TB clearance is required prior to work in schools. Fingerprinting may also be required.  
Course Transferable to UC/CSU  
Hours: 36 hours LEC; 54 hours LAB  
This course is an education-based field experience in biotechnology and bioinformatics that allows students to explore science teaching as a career choice. Students are assigned to area high schools to observe and assist in a science classroom. Students have the opportunity to learn and practice important biotechnology and bioinformatics teaching skills and to examine social and educational issues related to the school environment. Field trips and off-site activities are required for this course.

**BIOT 310  Polymerase Chain Reaction (PCR) Methods**  1 Unit  
Prerequisite: BIOT 300 with a grade of "C" or better.  
Course Transferable to CSU  
Hours: 14 hours LEC; 14 hours LAB  
This course provides training in techniques involving the polymerase chain reactions (PCR). Topics include PCR protocols, troubleshooting, and applications to medicine, forensics, and agriculture.

**BIOT 315  Methods in Biotechnology**  5 Units  
Prerequisite: BIOT 300 with a grade of "C" or better.  
Course Transferable to CSU  
Hours: 54 hours LEC; 108 hours LAB  
This course provides specialized laboratory skills and theory in biotechnology. Topics include aseptic technique, preparation of media and solutions, methods in bacteria and plant tissue culture, isolation and analysis of nucleic acids and proteins, good laboratory practice and quality control.

**BIOT 498  Work Experience in Biotechnology**  1-4 Units  
Advisory: ENGW 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area III(b)  
Enrollment Limitation: Be in a paid or non-paid internship, volunteer opportunity or job related to biotechnology. Students are advised to consult with the Biotechnology Department faculty to review specific certificate and degree work experience requirements.  
Course Transferable to CSU  
Hours: 60-300 hours LAB  
This course provides students with opportunities to develop marketable skills in preparation for employment or advancement within the field of biotechnology. It is designed for students interested in work experience and/or internships in transfer level degree occupational programs. Course content includes understanding the application of education to the workforce; completion of required forms which document the student’s progress and hours spent at the work site; and developing workplace skills and competencies. Appropriate level learning objectives are established by the student and the employer. During the semester, the student is required to fulfill a weekly orientation and 75 hours of related paid work experience, or 60 hours of unpaid work experience for one unit. An additional 75 or 60 hours of related work experience is required for each additional unit. The weekly orientation is required for first time participants, returning participants are not required to attend the orientation but are required to meet with the instructor as needed to complete all program forms and assignments. Work Experience may be taken for a total of 16 units when there are new or expanded learning objectives.
Business Transfer Degree

This business degree program is designed for those who plan to transfer to a four-year university. It meets the common core of lower-division courses required by most colleges and universities. The program includes coursework that is essential for entry-level positions and enhances the knowledge base of those who are seeking career progression.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Identify and explain the major functional areas of the business organizations including management, marketing, finance, and accounting.
• Develop leadership skills that are effective in managing a multicultural workforce.
• Analyze practical business problems and utilize research and critical thinking to evaluate and recommend alternative solutions.
• Apply accounting concepts and principles in making decisions about business operations.
• Integrate management principles in relationship to finance, personnel, products, services, and information.
• Communicate effectively verbally and in writing in various business settings.
• Apply commonly used computer application programs to create relevant business documents.

Career Opportunities

Account executive, analyst, bank employee, buyer, clerk, data-entry clerk, data-entry specialist, entrepreneur, financial planner, government service, insurance representative, investment counselor, manager, market research, office assistant, public administration, purchasing agent, retail/industrial sales, stockbroker.

Any CIS course

---

**BUS 100 English for the Professional 3 Units**  
Prerequisite: ENGWR 51 and ENGRD 15, or ESLR 310 and ESLW 310 with a grade of "C" or better; or placement through assessment process.  
Advisory: BUSTEC 300.  
Hours: 54 hours LEC  
This course is designed to prepare the student for business communication. It presents principles of correct and effective English usage as applied in business. Included are skills and techniques of written communication, sentence structure, word usage, punctuation, spelling, business vocabulary, and business document formatting. Emphasis is placed on critical thinking and effective writing techniques by analyzing written communication and composing and organizing paragraphs into effective business documents. Proofreading skills are stressed throughout the course. This course is required of all business technology majors and recommended for all business majors.

**BUS 105 Business Mathematics 3 Units**  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area II(b)  
Hours: 54 hours LEC  
This course reviews basic mathematical skills and introduces equations and formulas in solving for unknowns. Calculations for banking, commercial discounts, retail and wholesale markup-markdown, payroll computations, simple and compound interest, bank discount, present value, taxes, insurance, depreciation, and financial statements are explored. This course is recommended for business majors.

**BUS 110 Business Economics 3 Units**  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area V(b)  
Hours: 54 hours LEC  
This course is designed for two-year Accounting, Business, Computer Information, Marketing, and Real Estate majors. Both microeconomic and macroeconomic theory will be covered with the emphasis towards applications. Does not meet ECON 302 or 304 requirements for transfer students.

**BUS 150 Retail/Wholesale Operations Management 3 Units**  
Advisory: MKT 300 and 312.  
Hours: 54 hours LEC  
This is a specialized course for those in the marketing distribution system at either the wholesale or retail level. Purchasing, transportation, storage, pricing, asset management, and information management are a few of the topics covered.

**BUS 210 The Business Plan 1 Unit**  
Advisory: BUS 350; ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
Hours: 18 hours LEC  
This course offers an organized, step-by-step approach to preparing a business plan. All sections of the business plan are covered.

**BUS 212 Marketing for Small Businesses 1 Unit**  
Advisory: BUS 350; ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
Hours: 18 hours LEC  
This course covers how small businesses market products and services to consumers through the creation of a marketing plan. Topics include identifying target markets and utilizing the marketing mix to most effectively reach customers.

**BUS 214 Financing a Small Business 1 Unit**  
Advisory: ENGWR 51 and ENGRD 15, or ESLR 310 and ESLW 310; BUS 105, 350.  
Hours: 18 hours LEC  
This course covers sources and ways of raising capital for small businesses. It will explore how much money is needed and where it can be obtained, start-up costs, and projecting monthly and yearly costs. Financial ratios and key financial statements are also covered.

**BUS 216 Essential Records for the Small Business 1 Unit**  
Advisory: ENGWR 51 and ENGRD 15, or ESLR 310 and ESLW 310; BUS 105, 350.  
Hours: 18 hours LEC  
This course emphasizes the various types of records that small businesses must keep. The focus will be upon financial, employment, and tax records. Simple, easy-to-use record-keeping systems will be covered.

**BUS 218 Management Skills for the Small Business 1 Unit**  
Advisory: ENGWR 51 and ENGRD 15, or ESLR 310 and ESLW 310; BUS 105, 350.  
Hours: 18 hours LEC  
A small business owner must understand and motivate others to help the business reach its objectives. This course covers such functions as planning and organizing work flow, delegating responsibilities, understanding leadership styles, decision making, stress and time management, and working with employee organizations.

**BUS 220 Retailing and Merchandising for the Small Business 1 Unit**  
Advisory: ENGWR 51 and ENGRD 15, or ESLR 310 and ESLW 310; BUS 105, 350.  
Hours: 18 hours LEC  
This course will emphasize retailing concepts, such as inventory control and turnover rates, selecting merchandise sources, using trade and cash discounts, pricing, markup and markdown, and shrinkage control. Students will also learn how to develop a merchandising plan, inventory control system, and assess consumer behavior and demographics.
BUS 224  Customer Service  1 Unit
Advisory: ENGWR 51 and ENGRD 15, or ESLR 310 and ESLW 310; BUS 105, 350.
Hours: 18 hours LEC.
This course is a study of the principles involved in building an effective customer service team. Customer service activities in business, government, and other service industries will be examined so that improved customer service will be emphasized.

BUS 228  Selling Techniques for the Small Business  1 Unit
Advisory: ENGWR 51 and ENGRD 15, or ESLR 310 and ESLW 310; BUS 350, MKT 300.
Hours: 18 hours LEC.
This course will focus on those skills that will aid an individual to become a professional salesperson. The skills presented will be those that will aid both product and service salespeople. This course is recommended for anyone who might have to use some sales techniques in any business, industry, or government position.

BUS 230  QuickBooks (R) for Small Business  1 Unit
Same As: ACCT 141.
Advisory: ENGR 302 or ENGWR 103, or ESLR 320 and ESLW 320; BUS 350.
Hours: 18 hours LEC.
This course will emphasize the use of QuickBooks (R) to aid the small business owner in creating financial statements and other financial reports. Not open for students who have taken Accounting 141.

BUS 240  Call Center Customer Service  3 Units
Hours: 54 hours LEC.
This course is designed to provide an understanding of customer service and methods for practicing the same in the modern contact center environment. Course topics include: Defining customer service, types of customers, the value of a customer to a business, establishing rapport and dealing with difficult co-workers, customers and situations. The course also introduces the contact center via the Virtual Call Center Simulator (VCCS), client calls, responses, data-entry and a number of additional simulated call center situations.

BUS 241  Call Center Operations  2 Units
Advisory: ENGWR 102 or ENGWR 103 and ENGRD 116 or ESLR 320 and ESLW 320.
Hours: 36 hours LEC.
This course is designed to provide an understanding of the call and contact center environment, what it means to be a customer service representative (CSR), and how to efficiently use the phone to maximize your effectiveness as a CSR. Course topics include various types of call centers and how each differs in goal and function, and mastering the use of the phone as a CSR tool.

BUS 250  Survey of International Business  3 Units
Advisory: BUS 300.
Hours: 54 hours LEC.
This course is a comprehensive overview of international business designed to provide both beginners and experienced business people with a global perspective on international trade including foreign investments, impact of financial markets, international marketing, and operation of multi-national corporations.

BUS 294  Topics in Business  .5-4 Units
Advisory: ENGWR 51 and ENGRD 15, or ESLR 310 and ESLW 310.
Hours: 0-54 hours LEC, 0-108 hours LAB.
Individualized topics are developed in cooperation with business and industry to meet specialized training needs. Topics may be selected from accounting, business, computer science, management, marketing, office administration and real estate. Maximum of six units. Topics may not be repeated.

BUS 300  Introduction to Business  3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116; OR ESLR 320 and ESLW 320.
General Education: AA/AS Area V(b); CSU Area D2.
Course Transferable to UC/CSU
Hours: 54 hours LEC.
This course covers a multitude of business subject areas such as management, marketing, finance, accounting, economics, and computer information systems. It is a core requirement for business majors. This course provides an overview that is helpful for selecting a specific career and/or major in the field of business.

BUS 310  Business Communications  3 Units
Prerequisite: BUS 100 or ENGRD 102 with a grade of "C" or better; or placement through the assessment process.
Advisory: BUS/TEC 300
General Education: AA/AS Area II(a)
Course Transferable to CSU
Hours: 54 hours LEC.
This course focuses on the concepts, strategies, and principles of effective communication in business situations. Tools to communicate effectively in a fast-paced technological, global marketplace are emphasized. The course provides opportunities to create, edit, and critique business documents and reports. A formal research paper using analytical skills, graphics, and the ability to draw conclusions and make recommendations is required. An oral business presentation with visuals is prepared and delivered.

BUS 320  Concepts in Personal Finance  3 Units
Same As: ECON 320
Advisory: ENGWR 051 and ENGRD 015; OR ESLR 310 and ESLW 320; AND BUS 105.

Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area V(b); CSU Area D8; IGETC Area 4H
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an introduction to the Anglo-American Common Law System with emphasis upon the nature and purpose of law. The evolution of legal concepts as a reflection of the social environment, and the basic organization and functioning of the American judicial system will be presented from a theoretical rather than a practical view point through analysis of selected cases and reading materials. This course is not open to students who have completed POLS 332.

BUS 350  Small Business Management/Entrepreneurship  3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course provides an overview of the various elements involved in starting and operating a small business. It introduces such topics as developing a business plan, finding financial resources, developing personal and business goals, managing employees, meeting legal requirements, understanding marketing concepts, and other topics of interest to the entrepreneur.

BUS 498  Work Experience in Business  1-4 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area III(b)
Enrollment Limitation: Be in a paid or non-paid internship, volunteer opportunity, or job related to Business. Students are advised to consult with the Business Department faculty to review specific certificate and degree work experience requirements.
Course Transferable to CSU
Hours: 60-300 hours LAB
This course provides students with opportunities to develop marketable skills in preparation for employment or advancement within the field of business. It is designed for students interested in work experience and/or internships in transfer level degree occupational programs. Course content includes understanding the application of education to the workforce; completion of required forms which document the student’s progress and hours spent at the work site; and developing workplace skills and competencies. Appropriate level learning objectives are established by the student and the employer. During the semester, the student is required to fulfill a weekly orientation and 75 hours of related paid work experience, or 60 hours of unpaid work experience for one unit. An additional 75 or 60 hours of related work experience is required for each additional unit. The weekly orientation is required for first time participants; returning participants are not required to attend the orientation weekly but are required to meet with the instructor as needed to complete all program forms and assignments. Work Experience may be taken for a total of 16 units when there are new or expanded learning objectives.
Administrative Assistant Degree

The administrative assistant associate degree program is designed to develop advanced skills needed for upper-level administrative support and office management careers. The course work includes communication skills, organizational management, business documents and projects, teamwork, financial data, ethics, and a variety of computer and office technologies.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Manage office operations including employee supervision, records management, supplies and equipment, administrative support, financial statements, and customer service.
• Evaluate business projects, generate task lists, and prioritize completion of work.
• Integrate word processing, spreadsheet, database, presentation, and electronic information management systems to complete business projects.
• Create, revise, and evaluate verbal and written business messages demonstrating business communication techniques.
• Utilize critical thinking, problem solving, and organizational management skills to complete work independently or in a group.
• Analyze ethical dilemmas, utilize ethical decision-making processes, and determine appropriate ethical behavior.
• Design and build an informational web page for a business using a web-authoring tool.

Career Opportunities

Typical career opportunities include clerical, administrative support, and executive assistant positions with private industry, non-profit organizations, and government entities.

1Individuals who hold a certificate as a Certified Professional Secretary (CPS) or Certified Administrative Professional (CAP) may receive credit for this option with evidence of completion of the CPS or CAP certification.

BUSTEC 100  Keyboarding Skills 1-3 Units
Advisory: BUSTEC 300; or ability to touch type.
Hours: 12-36 hours LEC; 18-54 hours LAB
This course is designed for individuals with keyboarding skills (ability to touch type) who want to improve their speed and accuracy. Individualized skill improvement plans are based on computerized assessment of keyboarding speed and accuracy. Enroll any time throughout the semester. Earn one unit of credit for each module successfully completed. Certification testing is available. Individuals interested in beginning keyboarding should enroll in BUSTEC 300. Credit/No Credit only.

BUSTEC 101  Computer Keyboarding: 10-Key 1 Unit
Advisory: BUSTEC 300.
Hours: 12 hours LEC; 18 hours LAB
This course introduces the numeric keypad and develops the ability to key information into a computer with speed and accuracy. Simulated employment tests based on industry standards are included. Ten-key certification testing is completed at the end of the course.

BUSTEC 110  Business Procedures for Professional Success 3 Units
Prerequisite: BUSTEC 300 with a grade of "C" or better.
Corequisite: BUS 310.
Advisory: BUSTEC 310.
Hours: 54 hours LEC
This course provides preparation for the business professional in electronic workplaces. Topics include business communication, records management, and preparation of business documents. Critical thinking, problem solving, teamwork, supervision skills, administrative procedures, and information processing technologies are used to complete assignments and activities as a business professional. These skills provide the background for advancement to supervisory and management positions. Primary emphasis is on processing documents using skills in word processing, spreadsheets, presentation graphics, database, and email. Career planning and development are addressed.

BUSTEC 122  Workplace Behavior and Communication Technologies 3 Units
Advisory: BUSTEC 300, ENGRD 15, and ENGWR 51.
Hours: 54 hours LEC
This course introduces basic procedures that promote effective workplace practices. Specific topics include working with the office team, communicating effectively, problem solving, preparing and processing information using technology, and developing a portfolio. This course emphasizes activities and techniques that develop competencies needed in the global workplace.

BUSTEC 125  Office Specialist 6 Units
Corequisite: BUSTEC 101
Advisory: ENGRW 102 or ENGWR 103 and ENGRD 116 or ESLR 320 and ESLW 320
Hours: 96 hours LEC; 54 hours LAB
This course covers the skills needed for office specialist positions. The content includes computer keyboarding, word processing, and spreadsheet applications; alphabetic filing; office procedures and communications, including telephone, mail, email, and Internet; human relations; and employment resources. A department certificate is granted upon successful completion of all course segments.

BUSTEC 126  Outlook: Basics 1 Unit
Same As: CISA 126
Advisory: BUSTEC 300
Hours: 18 hours LEC
This course introduces desktop communication management for users of Microsoft Outlook. Topics include e-mail, creating and managing contacts in the address book, and accessing files and folders. The skills and topics needed to pass the International Computer Driver's License (ICDL) Module 7: Information and Communication communications portion of the ICDL exam are covered. Additionally, BUSTEC 126/CISA 126 and BUSTEC 127/CISA 127 taken together are considered sufficient preparation to pass the Microsoft Office Specialist certification objectives for the Microsoft Outlook application. This course is not open to students who have taken CISA 126.

BUSTEC 127  Outlook: Tools 1 Unit
Same As: CISA 127
Advisory: BUSTEC 300
Hours: 18 hours LEC
This Outlook course presents the communication tools beyond basic email. Topics include calendar and scheduling, recording tasks and notes, shared folders, and customizing Outlook. In addition, the course covers the integration of Outlook with other applications within the Microsoft Office suite. Additionally, BUSTEC 126/CISA 126 and BUSTEC 127/CISA 127 taken together are considered sufficient preparation to pass the Microsoft Office Specialist certification objectives for the Microsoft Outlook application. This course is not open to students who have taken CISA 127.
**BUSTEC 300  Beginning Keyboarding/Applications**

1-3 Units

Advisory: ENGW 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.

Course Transferable to CSU

Hours: 12-36 hours LEC; 18-54 hours LAB

This course provides computer training for employment or personal use. Module one covers keyboarding and skill development techniques. Modules two and three introduce Microsoft Word (word processing software) and basic formats for business correspondence - memorandums, letters, e-mail, tables, and reports. Students may enroll at any time during the semester and earn one unit of credit for each module successfully completed.

**BUSTEC 305  Introduction to Office Technology**

1 Unit

Advisory: BUSTEC 300.

Course Transferable to CSU

Hours: 18 hours LEC

This course focuses on the integration of office technology and business skills in the work environment. Topics include hardware and software; e-mail, voice, and fax communications; electronic calendars and scheduling; Internet resources; and the virtual office. This is an introductory course recommended for all business students.

**BUSTEC 310  Introduction to Word/Information Processing**

1-3 Units

Prerequisite: BUSTEC 300 with a grade of “C” or better.

Course Transferable to CSU

Hours: 12-36 hours LEC; 18-54 hours LAB

This course reviews basic word/information processing and introduces intermediate and advanced formatting for correspondence, tables, reports, newsletters, presentations, Internet documents, and other business-related documents. Related topics include integrated office applications, macros, managing multiple-user documents, and e-mail. This course is divided into three one-unit modules. Units earned in this course are based on modules successfully completed. This course may be taken four times on different modules or software packages/versions for a maximum of six units.

**BUSTEC 313  Presentations for the Business Professional**

2 Units

Advisory: BUS 310; CISA 340.

Course Transferable to CSU

Hours: 36 hours LEC

This course develops business presentation skills indispensable in today’s job market. Topics include data evaluation, content planning and organizing, visual aid development, and methods of presentation. Strategies for interviews, meetings, training, and group presentations typically found in a business environment are explored.

**BUSTEC 332  Integrated Business Projects**

3 Units

Prerequisite: BUSTEC 110 with a grade of “C” or better.

Advisory: BUSTEC 310; CISA 310; CISA 320.

Course Transferable to CSU

Hours: 54 hours LEC

This course integrates office administration skills using the Microsoft Office suite. Course content integrates word processing, spreadsheet, database, presentation and communication software to create, format, revise, share, and maintain business documents and data. Hands-on business projects are based on current office systems and incorporate problem-solving skills and real world business simulations.

**BUSTEC 350  Virtual Office Careers and Technologies**

3 Units

Course Transferable to CSU

Hours: 54 hours LEC

This course explores careers in the virtual office and identifies techniques and technologies needed by virtual office workers. Specific topics include types of virtual offices, technologies and skills needed in a virtual office, ways to establish and manage a virtual office, effective communication, and job opportunities. This course also examines issues for career preparation in a virtual environment.
American River College’s chemistry program provides a series of courses designed to meet transfer requirements for physical and biological science majors as well as students majoring in other fields of study.

**CHEM 130 Chemistry for Funeral Services**  
4 Units  
Prerequisite: MATH 100 with a grade of “C” or better  
Advisory: ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 337 with a grade of “C” or better; OR placement through assessment process.  
General Education: AA/AS Area IV; CSU Area B1; CSU Area B3; IGETC Area 5A  
Course Transferable to CSU  
Hours: 72 hours LEC  
This course is a survey of the basic principles of chemistry as they relate to Funeral Services. Especially stressed are the chemical principles involved in sanitation, disinfection, public health and embalming practices. The development and use of personal, professional and community sanitation practices are covered as well as use and precautions related to potentially harmful chemicals that are currently used in the field of funeral services.

**CHEM 305 Introduction to Chemistry**  
5 Units  
Prerequisite: MATH 100 with a grade of “C” or better  
Advisory: ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.  
General Education: AA/AS Area IV; CSU Area B1; CSU Area B3; IGETC Area 5A  
Course Transferable to UC/CSU  
Hours: 72 hours LEC; 54 hours LAB  
This course covers general principles of chemistry such as unit analysis, atomic structure, nomenclature, mole concept, stoichiometry and gases. A brief introduction of organic chemistry and biochemistry is provided. It is primarily designed for most general education and allied health majors.

**CHEM 306 Introduction to Chemistry**  
5 Units  
Prerequisite: CHEM 305 with a grade of “C” or better.  
Advisory: ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.  
Course Transferable to UC/CSU  
Hours: 72 hours LEC; 54 hours LAB  
This course is a continuation of CHEM 305. It covers the organic functional groups and reactions involved in the chemistry of life (biochemistry), as applied to the health sciences. (CAN CHEM 8); (CHEM SEQ B Sum of CHEM 305 and 306).

**CHEM 309 Survey of General, Organic, and Biological Chemistry**  
5 Units  
Prerequisite: MATH 100 with a grade of “C” or better  
Advisory: ENGRD 116, ENGRWR 102, ESLR 320, ESLW 320, and MATH 120; or placement through the assessment process.  
General Education: AA/AS Area IV; CSU Area B1; CSU Area B3  
Course Transferable to CSU  
Hours: 72 hours LEC; 54 hours LAB  
This course is a one-semester survey of general, organic, and biological chemistry for nursing majors and other health-related fields. Topics include general chemistry, organic chemistry, and biological chemistry as they apply to chemistry of the human body. This course satisfies the requirements of those health-care programs which require one semester of chemistry.

**CHEM 310 Chemical Calculations**  
4 Units  
Prerequisite: MATH 100 or 104 with a grade of “C” or better  
Corequisite: MATH 120 or 124  
Advisory: ENGRD 116 or ESLR 320  
General Education: AA/AS Area IV  
Course Transferable to CSU  
Hours: 54 hours LEC; 54 hours LAB  
This course is an introduction to chemical calculations, terminology, chemical concepts and laboratory techniques. It is designed for those who will take CHEM 400 and need intensive preparation in problem solving.

**CHEM 311 Strategies for Problem Solving in Chemistry**  
.75 Units  
Corequisite: CHEM 305, 306, 309, 400, 401, 420, 421, or 423  
Course Transferable to CSU  
Hours: 41 hours LAB  
This course develops analytical reasoning strategies, critical thinking skills, and problem-solving abilities for both quantitative and qualitative problems in chemistry. It is designed to support students enrolled in most chemistry courses at American River College. Strategies and content will be specific to the area of chemistry studied in the co-requisite. This course may be taken four times with a different co-requisite. Pass/No Pass only.

**CHEM 325 Pollution, Poisons, and Planet Earth**  
4 Units  
Advisory: MATH 32; ENGRD 116 or ESLR 320  
General Education: AA/AS Area IV; CSU Area B1; CSU Area B3; IGETC Area 5A  
Course Transferable to UC/CSU  
Hours: 54 hours LEC; 54 hours LAB  
This course describes the fundamental concepts of general, organic, and biological chemistry as they relate to human-made and natural pollution and poisons in the environment. The laboratory part of the course is designed to highlight current topics in environmental chemistry, investigate indicators of a healthy or polluted environment, and to investigate the effects of toxic chemicals on living systems. Field trips are required.
CHEM 334  Chemistry in the Kitchen  3 Units  
General Education: AA/AS Area IV  
Course Transferable to CSU  
This course qualitatively covers a variety of chemical principles in the context of cooking. These principles include basic atomic structure and geometry, phase changes, acids and bases, proteins and denaturing, fermentation, fats and carbohydrates. This course is designed for K-6 educators who want to increase their understanding of chemistry principles. Many of the topics are keyed to the new California State Science Standards.

CHEM 400  General Chemistry  5 Units  
Prerequisite: MATH 120 with a grade of “C” or better and one of the following:  
1) CHEM 310 with a grade of “C” or better 2) Or CHEM 305 with a grade of “C” or better and placement through the chemistry assessment process 3) Or High School chemistry with a grade of “C” or better and placement through the chemistry assessment process  
Advisory: ENGL 102 or 103, and ENGR 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process  
General Education: AA/AS Area IV; CSU Area B1; CSU Area B3; IGETC Area 5A  
Course Transferable to UCCSCU  
Hours: 54 hours LEC; 108 hours LAB  
This course covers the basic principles of chemistry with an emphasis on chemical calculations, chemical reactions including balancing of complicated reduction-oxidation (REDOX) reactions, stoichiometry, gas laws, thermodynamics, atomic structure and bonding theories, intonic equations, solutions, intermolecular forces and phases of matter and acid/base chemistry including titrations and pH. Laboratory work is devoted to investigations of the theoretical work discussed in lecture.

CHEM 401  General Chemistry  5 Units  
Prerequisite: CHEM 400 with a grade of “C” or better  
General Education: CSU Area B1; CSU Area B3; IGETC Area 5A  
Course Transferable to UCCSCU  
Hours: 54 hours LEC; 108 hours LAB  
This course is a continuation of the principles of chemistry with emphasis on equilibria, bonding, thermodynamics, kinetics, and electrochemistry. A brief introduction to organic chemistry is included. Laboratory work is devoted to qualitative analysis and experiments dealing with the theoretical work discussed in lecture.

CHEM 410  Quantitative Analysis  5 Units  
Prerequisite: CHEM 401 with a grade of “C” or better  
Course Transferable to UCCSCU  
Hours: 54 hours LEC; 108 hours LAB  
This quantitative analytical chemistry course emphasizes the theory and practice of gravimetric, volumetric, potentiometric, spectrophotometric and chromatographic methods of analysis. The course focuses on calibration, standardization, method development and validation procedures, sampling, and data handling. This course is for chemistry, biochemistry, chemical engineering, pharmacy, biology, molecular biology, and microbiology majors. (CAN CHEM 12)

CHEM 420  Organic Chemistry  5 Units  
Prerequisite: CHEM 401 with a grade of “C” or better  
Course Transferable to UCCSCU  
Hours: 54 hours LEC; 108 hours LAB  
This course is designed primarily for chemistry, chemical engineering, premedical, pharmacy and other majors who require a more intensive course than CHEM 423. Emphasis is on the application of modern principles regarding structure, reactivity, methods of synthesis and physical properties of carbon compounds.

CHEM 421  Organic Chemistry  5 Units  
Prerequisite: CHEM 420 with a grade of “C” or better  
Course Transferable to UC/CSU  
Hours: 54 hours LEC; 108 hours LAB  
This course covers general physical and chemical properties of aromatic compounds, ethers, carbonyl compounds, amines, carbonyl derivatives, and biological compounds of interest. It also includes mass spectrometry, UV-VIS spectrometry, and carbon-13 NMR. Special attention is given to development of reaction mechanisms, methods of organic synthesis and instrumental analysis as it applies to organic chemistry.

CHEM 423  Organic Chemistry - Short Survey  5 Units  
Prerequisite: CHEM 401 with a grade of “C” or better  
General Education: CSU Area B1; CSU Area B3; IGETC Area 5A  
Course Transferable to UCCSCU  
Hours: 72 hours LEC; 54 hours LAB  
This course is an introductory survey of the compounds of carbon with emphasis on those of biological interest, designed primarily for students majoring in the life sciences, nutrition/dietetics, and related fields. This course is not recommended for students majoring in chemistry, chemical engineering, medicine, dentistry, pharmacy, and chiropractics.

CHEM 430  Molecular Modeling  1 Unit  
Prerequisite: CHEM 401 with a grade of “C” or better  
Advisory: CHEM 420 or 423  
Course Transferable to CSU  
Hours: 12 hours LEC; 27 hours LAB  
This computer based course will cover a variety of topics involving molecular modeling and simulations. Some of the topics to be covered include reaction mechanisms, thermo chemistry, electrophilic and nucleophilic substitutions, complexes, and spectroscopy.

CHEM 480  Honors General Chemistry  1 Unit  
Prerequisite: CHEM 400 with a grade of “C” or better; ENGLWR 300 with a grade of “C” or better or honors placement on the English assessment; GPA of 3.0 or better  
Corequisite: CHEM 401  
Course Transferable to UCCSCU  
Hours: 18 hours LEC  
This honors course provides advanced studies for general chemistry students. It involves in-depth discussion and analysis of recent scientific articles in terms of general chemical principles.

CHEM 482  Biology/Chemistry Honors Seminar  1 Unit  
Same As: BIOL 480  
Prerequisite: Cumulative GPA of 3.0 or above; CHEM 400 and BIOL 400 with a grade of “C” or better; ENGLWR 300 or 480 with a grade of “C” or better  
Course Transferable to CSU  
Hours: 18 hours LEC  
This honors section will provide a seminar approach for advanced students of general chemistry and biology to discuss and analyze in-depth recent scientific articles in terms of the chemical and biological principles introduced in these curricula. Not open to students who have taken BIOL 480. May be taken two times for credit.
Area: Computer Science & Information Technology

Dean: Barbara Blanchard
Phone: (916) 484-8361
Counseling: (916) 484-8572

Degree:
- A.S. - Computer Science
- A.S. - CIS: Computer Networking Management
- A.S. - CIS: Computer Programming

Certificate of Completion:
- Computer Information Security Essentials
- Network Administration Essentials-Windows

Computer Science Degree

This program is a comprehensive exposure to programming languages, algorithms and problem solving in preparation for upper division computer science courses. The Computer Science degree includes substantial course work in mathematics as is required by most university computer science programs.

Student Learning Outcomes

Upon completion of this program, the student will be able to:
- Evaluate various programming language solutions to a proposed problem.
- Recommend tools and techniques for each step in the development of a computer program.
- Integrate the basic mathematical knowledge that is fundamental to Computer Science into the solutions of proposed problems.
- Evaluate the theories and core techniques of computer science using scientific methods.

Associate Degree Requirements: The Computer Science Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

CIS: Computer Networking Management Degree

The Computer Networking Management degree covers network administration technologies, techniques, and the hardware and software used in today’s business/enterprise networking environment. Major topics covered include installation, configuration, and troubleshooting of network operating systems. The degree stresses the knowledge and skills required for the day-to-day operation, business aspects, security and management of computer networks. This degree has three distinct concentrations with specific courses for each concentration track:
- Microsoft Windows networking concentration, focusing on preparing for the Microsoft Certified Systems Engineer (MCSE) and/or the Microsoft Certified Systems Administrator (MCSA) certification.
- Linux/Unix networking concentration, focusing on preparing for the administration of commercial Linux/Unix servers and network environments.
- Cisco router and network administration concentration, which covers all the objectives of the Cisco Certified Network Associate (CCNA) certification exam.

Student Learning Outcomes

Upon completion of this program, the student will be able to:
- demonstrate competency in basic Microsoft Windows and Linux operating system terminology, command line interface commands, account management, and file management and storage.
- define networking terminology, protocols, industry standard models, and best practices for configuring network operating system services.
- design, create, compose and format reports for use in a typical business environment using industry standard spreadsheet and word processing software applications.
- configure and implement basic data security methods for protecting servers, workstations and networks from unauthorized access.
• evaluate and demonstrate basic procedures for troubleshooting and replacing field replaceable components in microcomputers.
• implement, evaluate and troubleshoot a transmission control protocol/internet protocol (TCP/IP) addressing scheme.
• define, implement, evaluate and troubleshoot the most common utilities and protocols of the TCP/IP suite.
• define and quantify typical business issues associated with computer networking.

CISCO CONCENTRATION:
• design, evaluate, construct and implement a routed IP network using industry standard routing protocols and routing equipment, in a wired or wireless configuration.
• design, evaluate, construct and implement a multilayer switching network using switching protocols, such as Ethernet, in a wired or wireless configuration.
• design, install and test Wide Area Network (WAN) connectivity solutions.
• design and evaluate basic security and access solutions in a switched or routed LAN or WAN.
• design, evaluate, specify, and install various types of network media.

LINUX/UNIX CONCENTRATION:
• install, configure, monitor, manage, backup, and customize a Linux server.
• design, evaluate and implement and troubleshoot typical Linux server services in the areas of user account services and security, printing, web server, telnet server, firewall, email server, domain name service, dynamic host configuration protocol, network file system, and Microsoft Windows compatibility.

WINDOWS CONCENTRATION:
• install, configure, monitor, manage, backup, and customize a Microsoft server.
• design, construct and apply group policies and NTFS file system permissions to secure files and network resources.
• design, construct and troubleshoot a Microsoft Active Directory network using Microsoft workstation and server operating systems.

Career Opportunities
The Network Management degree is designed for career/technical students who plan to enter the work force as well as to upgrade the skill set of working IT professionals. The degree and its three concentrations are formulated with advice from business and industry representatives and conform to industry standards. Typical jobs a student could expect to fill would be network technical support staff, network engineers, network administrators, network designers, network systems engineers, network troubleshooters, and information systems security specialists.

Associate Degree Requirements: The CIS: Computer Networking Management Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

CIS: Computer Networking Management Certificate
The CIS: Computer Networking Management certificate provides instruction for entry-level and IT professionals aiming for skill enhancement on the specific knowledge and skills required to master one of three industry standard network technologies:
- Microsoft Windows networking concentration, focusing on preparing for the Microsoft Certified Systems Engineer (MCSE) and/or the Microsoft Certified Systems Administrator (MCSA) certification.
- Linux/Unix networking concentration, focusing on preparing for the administration of commercial Linux/Unix servers and network environments.
- Cisco router and network administration concentration, which covers all the objectives of the Cisco Certified Network Associate (CCNA) certification exam.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
- demonstrate competency in basic Microsoft Windows and Linux operating system terminology, command line interface commands, account management, and file management and storage.
- define networking terminology, protocols, industry standard models, and best practices for configuring network operating system services.
- configure and implement basic data security methods for protecting servers, workstations and networks from unauthorized access.
- evaluate and demonstrate basic procedures for troubleshooting and replacing field replaceable components in microcomputers.
- implement, evaluate and troubleshoot a transmission control protocol/internet protocol (TCP/IP) addressing scheme.
- define, implement, evaluate and troubleshoot the most common utilities and protocols of the TCP/IP suite.

CISCO CONCENTRATION:
- design, evaluate, construct and implement a routed network using TCP/IP and industry standard routing protocols and state of the technology routing equipment, in a wired or wireless configuration.
- design, evaluate, construct and implement a multilayer switching network using switching protocols, such as Ethernet, in a wired or wireless configuration.
- design, install and test Wide Area Network (WAN) connectivity solutions.
- design and evaluate basic security and access solutions in a switched or routed LAN or WAN.
- evaluate, specify, and install various types of network media.

LINUX/UNIX CONCENTRATION:
- install, configure, monitor, manage, backup, and customize a Linux server.
- design, evaluate and implement and troubleshoot typical Linux server services in the areas of user accounts and security, printing, web server, telnet server, firewall, email server, domain name service, dynamic host configuration protocol, network file system, and Microsoft Windows compatibility.
- WINDOWS CONCENTRATION:
  - install, configure, monitor, manage, backup, and customize a Microsoft Windows server.
  - design, construct and apply group policies and NTFS file system permissions to secure files and network resources.
  - design, construct and troubleshoot a Microsoft Active Directory network using Microsoft workstation and server operating systems.

CIS: Computer Programming Degree
The computer programming degree includes general topics in programming as well as focused topics related to one commonly used programming language. General topics include the use of an operating system and systems analysis. Programming language specific topics include syntax, program structuring, language constructs and proper programming methods.
Student Learning Outcomes

Upon completion of this program, the student will be able to:
- Verify the syntactic correctness of a program.
- Verify the logical correctness of a program.
- Analyze the behavior of a program and locate defects.
- Develop programs using the top-down method.
- Apply structured programming techniques.
- Assess requirements of an information system.
- Develop specifications of an information system.
- Design an information system.
- Describe how programming relates to the development of an information system.

Career Opportunities

Upon completion of the computer programming degree, a student has the minimum qualifications as an entry-level programmer/developer.

Core Requirements for Degree     10 Units
CISC 310  Introduction to Computer Information Science 3
CISP 300  Algorithm Design/Problem Solving 3
CISP 453  Introduction to Systems Programming in UNIX (4) 4
or CISA 321  Intermediate Database Management (1) 1
and CISP 350  Database Programming (3) 3

C++ Concentration    22 Units
Core Requirements ........................................... 10
CISP 360  Introduction to Structured Programming 4
CISP 400  Object Oriented Programming with C++ 4
CISP 430  Data Structures 4

Cobol Concentration   21 Units
Core Requirements ........................................... 10
CISP 320  COBOL Programming ........................................... 4
CISP 321  Advanced COBOL Programming ........................................... 4
CISP 457  Computer Systems Analysis and Design 3

Java Concentration    21 Units
Core Requirements ........................................... 10
CISP 360  Introduction to Structured Programming 4
CISP 401  Object Oriented Programming with Java 4
CISP 457  Computer Systems Analysis and Design 3

Visual Basic Concentration  21 Units
Core Requirements ........................................... 10
CISP 370  Beginning Visual Basic 4
CISP 371  Intermediate Visual Basic 4
CISP 457  Computer Systems Analysis and Design 3

Associate Degree Requirements: The CIS: Computer Programming Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

CIS: Computer Programming Certificate

This certificate provides up-to-date and general knowledge in the field of computer programming, such as syntax, programming methodologies, and structured programming. It also includes topics relating to the work environment of a programmer. Such topics include operating systems and systems analysis.

Student Learning Outcomes

Upon completion of this program, the student will be able to:
- Apply techniques of structured programming.
- Design programs using object-oriented methodology.
- Analyze problems related to programming.
- Design algorithms to solve problems related to programming.
- Assess requirements of an information system as a whole.
- Compare alternative implementations of an information system using a variety of criteria.
- Develop specifications of an information system based on requirements.
- Describe how programming fits in the context of the development of an information system.

Career Opportunities

The programming certificate enables people who are already in information technology and computer fields to develop programs.

Core Requirements for Certificate     10 Units
CISC 310  Introduction to Computer Information Science 3
CISC 320  Operating Systems 1
CISP 300  Algorithm Design/Problem Solving 3
CISP 457  Computer Systems Analysis and Design 3

C++ Concentration Requirements    22 Units
Core Requirements ........................................... 10
CISP 360  Introduction to Structured Programming ........................................... 4
CISP 400  Object Oriented Programming with C++ ........................................... 4
CISP 430  Data Structures ........................................... 4

Java Concentration Requirements  22 Units
Core Requirements ........................................... 10
CISA 321  Intermediate Database Management ........................................... 1
CISP 350  Database Programming ........................................... 3
CISP 360  Introduction to Structured Programming ........................................... 4
CISP 401  Object Oriented Programming with Java ........................................... 4

Visual Basic Concentration Requirements    22 Units
Core Requirements ........................................... 10
CISA 321  Intermediate Database Management ........................................... 1
CISP 350  Database Programming ........................................... 3
CISP 370  Beginning Visual Basic ........................................... 4
CISP 371  Intermediate Visual Basic ........................................... 4

CIS: Database Management Degree

The CIS: Database Management degree focuses on relational database technology used in the business environment. The emphasis is on selecting the appropriate system platform for database deployment. Course work includes database system design and programming for desktop, enterprise and Internet platforms, structure query language (SQL) programming, introductory principles of modular programming, system design and problem solving, desktop operating systems, electronic spreadsheets and a variety of introductory business courses.

Student Learning Outcomes

Upon completion of this program, the student will be able to:
- describe relational database technologies for desktop, enterprise and Internet platforms.
- explain and discuss database theory and principles.
• employ relational database technologies for either desktop, enterprise and Internet platforms to solve common business problems using standard database principles and practices.
• assess and document information system requirements.
• employ modular programming concepts in program development.
• design and code elementary programs encountered in business and government.
• identify interactive web publishing situations requiring database solutions.
• create interactive web database.
• analyze practical business problems and utilize critical thinking in the determination of alternative solutions.
• apply communication theory, effective writing techniques, and interpersonal communication skills to business situations.
• analyze and explain the nature and purpose of accounting and its function in business.

CIS: Microcomputer Applications Degree

This associate degree program focuses on the use of the microcomputer and current, commonly used software to solve problems in a business environment. Course work includes microcomputer applications in database management, desktop publishing, electronic spreadsheets, presentation graphics, operating systems, word processing, at least one programming language, and a variety of business courses.

Student Learning Outcomes

Upon completion of this program, the student will be able to:
• Design and manage database tables, queries and forms.
• Produce reports for use in a typical business environment.
• Evaluate the basic computing needs of a business by developing associated documentation and presentations.
• Create spreadsheet formulas and manipulate business data.
• Compose and format typical business communications documents according to industry standards.
• Combine data from different software applications into one document.
• Compose simple computer programs using basic logic.
• Apply file management techniques in organizing computer data.

CIS: PC Support Management Degree

The CIS: PC Support Management degree covers the use and maintenance of a microcomputer's hardware, software and network connections in today's business environment. Course work includes learning basic computer skills in configuration, use, and troubleshooting major hardware components, different operating systems, and applications in a standalone and network environment. Additionally, the degree introduces basic business and project management skills. This program covers all the objectives of the Computing Technology Industry Association (CompTIA) A+ certification exam.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Identify the names, purpose, and characteristics of system components.
• Evaluate and demonstrate basic procedures for adding and removing field replaceable components for desktop computers.
• Analyze and demonstrate the installation and troubleshooting of current operating systems, applications and basic networking technology used in industry.
• Formulate back-up, recovery, and system protection plans for the operating system in a network environment.
• Develop proficiency in customer service skills to effectively diagnose and communicate microcomputer software and hardware-related problems and solutions at the user level.
• Demonstrate the techniques to manage a project, control costs, and schedule resources employing management software.
• Recognize within the information technology (IT) field the diverse business environment associated with support issues.
• Configure and implement data security methods for protecting computers and networks from unauthorized access.

Information Systems Security Degree

This program provides the information and skills necessary for network administration professionals to implement security from internal and external threats to an enterprise network. It covers client and server security on different operating systems, disaster recovery planning, and forensics. This program also provides preparation for several computer information security certification exams, including the Computer Technology Industry Association (CompTIA) Security+ exam, Microsoft Certified Systems Engineer (MCSE) exams and several of the Certified Information Systems Security Professional (CISSP) certification exams.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Define best practices for configuring network operating system services to provide optimum security.
• Compare and contrast the benefits of firewalls vs. intrusion detection devices and software.
• Explain and configure a network firewall to provide optimum security from external threats and exploits.
• Analyze organizational needs and implement internal security policies for the enterprise.
• Evaluate and implement the required security programs and policies to protect the enterprise against viruses, Trojans, worms, rootkits, and spyware.
• Assess and configure secure data transfer protocols for internal and external needs, including Windows IP Security (IPSec) and the Virtual Private Network (VPN) tunneling protocols.
• Apply Windows group policy to secure the internal network and shared resources.
• Construct NTFS file system permissions and shares to allow only the minimum levels of access needed by users to use network resources.
• Prioritize and establish a disaster recovery plan for the enterprise.
• Construct and apply group policies and NTFS file system permissions to secure files and network resources.

Network Administration Essentials - Windows Certificate

This program provides the information and skills necessary for network administration professionals to administer a Windows Active Directory domain-based enterprise network. It also provides preparation for several Microsoft Certified Systems Engineer (MCSE) certification exams.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Define best practices for configuring network operating system services.
- Construct and apply group policy settings at the Organizational Unit (OU), domain, site or local machine level.
- Apply Windows group policy and NTFS file system permissions to secure the workstations, the internal network and shared resources.

Web Developer Certificate

The web developer certificate offers a program of study for students seeking jobs in the fields of web based programming and web application development. The program provides students with the necessary skills and aptitudes for creating and maintaining interactive, database-driven, web applications.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Analyze how an interactive web application is developed using static web pages, forms, client-side scripts, server-side scripts, subroutine or class libraries, and relational databases.
- Evaluate informational or business needs that could benefit from a web application and design an appropriate web application that address those needs.
- Create and debug scripts in at least one client-side and at least one server-side scripting language.
- Construct embedded Structured Query Language (SQL) commands to access, display, modify, add, and delete information via a web application.
- Integrate graphic principles and programming functionality with a web application.
- Demonstrate basic use of both Linux and Windows Operating System command-line interface.
- Devise or choose efficient algorithms for the solution of problems using the control structures of structured programming.
- Design software using object-oriented methods to develop event driven programs for both applets and applications.
Requirements for Certificate  35-36 Units

BUS 310  Business Communications ..................................3
CISC 310  Introduction to Computer Information Science ......3
CISC 320  Operating Systems ........................................1
CISC 322  Linux Operating System ...................................1
CISC 324  Intermediate Linux Operating System .............1
CISP 350  Database Programming ....................................3
CISP 370  Beginning Visual Basic ...................................4
CISP 401  Object Oriented Programming with Java ............4
CISW 300  Web Publishing ...........................................3
CISW 310  Advanced Web Publishing (4) .........................3-4
or CISW 400  Client-side Web Scripting (4)
or CISW 365  Interactive Multimedia Basics (3)
or ARTNM 404  Interactive Multimedia Basics (3)
CISW 370  Designing Accessible Web Sites .....................1
CISW 471  Interactive Multimedia Projects (4) ...............4
or ARTNM 410  Interactive Multimedia Projects (4)
And a minimum of 4 units from the following: ..................4
CISW 405  ActionScript for Flash (3)
CISW 410  Middleware Web Scripting (4)
CISW 411  Middleware Scripting Database Web Applications (2)
CISW 420  Server-side Web Scripting (4)

Web Publishing Certificate

The web publishing certificate offers a program of study for students seeking jobs in the fields of web publishing, design, and development. The program provides the necessary skills and knowledge for creating and maintaining large websites for industry, government, and nonprofit agencies. General development of web publishing skills, including a thorough grounding in the HyperText Markup Language (HTML), Internet protocols, and web standards, is emphasized.

Student Learning Outcomes

Upon completion of this program, the student will be able to:
• Research the differences in goals, techniques, and costs between traditional print publishing and web publishing.
• Create a functional website using HyperText Markup Language (HTML) and Cascading Style Sheets (CSS).
• Incorporate dynamic and interactive features into a website using client-side or server-side scripting.
• Evaluate web accessibility issues when designing websites.
• Integrate graphic principles and programming functionality with a web application.
• Demonstrate basic use of both Linux and Windows Operating System commands.

Requirements for Certificate  20 Units

BUS 310  Business Communications ..................................3
CISC 310  Introduction to Computer Information Science ......3

CISW 350  Imaging for the Web (1) .................................1
or ARTNM 400  Imaging For The Web (1)
CISW 370  Designing Accessible Web Sites .....................1
And a minimum of 3 units from the following: ..................3
ARTNM 402  Intermediate Web Design (3)
ARTNM 404  Interactive Multimedia Basics (3)
or CISW 365  Interactive Multimedia Basics (3)
or ARTNM 410  Interactive Multimedia Projects (4)
or CISW 471  Interactive Multimedia Projects (4)
CISW 355  Web Imaging Projects (2)
CISW 385  E-Commerce (3)
CISW 442  Web Publishing with XML (3)
Taken on the Windows operating system

Technical Communication Degree

The Technical Communications degree program is an interdisciplinary course of study designed to prepare students for employment as professional writers and communicators in a variety of media intended to instruct and inform audiences. The degree program includes substantial course work in writing, information design, editing, page design, online help development, website creation, and the use of industry standard applications.

Career Opportunities

Technical communicators may be employed in a variety of occupations in government, scientific firms, nonprofits, natural resources, finance, education, and high tech.

Student Learning Outcomes

Upon completion of this program, the student will be able to:
• analyze audience information needs and propose solutions to aid the audience.
• design technical communication solutions for a variety of industry and government purposes.
• design and create websites and help systems with effective visual design, navigation, and written content.
• design and publish printed pages with effective design, organization, content, and indexing.
• compose professional prose for a variety of audiences with a variety of purposes.
• compose and edit professional documents in grammatically correct, concise English.
• create and use style templates in a variety of industry standard software.

Requirements for Degree  32 Units

CISA 305  Beginning Word Processing ..............................2
CISW 300  Web Publishing ...........................................3
ENGWR 342  Introduction to Technical/Professional Communication ..3
ENGWR 344  Technical/Professional Communication: Writing Reports ... 1.5
ENGWR 348  Technical/Professional Communication: Plain English ... 1.5
ENGWR 350  Technical/Professional Communication: Proposal Writing ....... 1.5
ENGWR 352  Technical/Professional Communication: Writing Technical Manuals .......... 3
ENGWR 353  Technical/Professional Communication: Developing Help Systems ................................. 1.5
JOUR 300  Newswriting and Reporting .............................3
And a minimum of 12 units from the following: ..................12
ARTNM 328  Digital Photo Imagery - Photoshop Basics (3)
ARTNM 330  Intermediate Digital Photo Imagery (3)
ARTNM 352  Design for Publication (3)
or CISW 330  Desktop Publishing (2)
and CISW 331  Intermediate Desktop Publishing (2)
ARTNM 401  Introduction to Web Development and Design (3)
or CISW 307  Introduction to Web Development and Design (3)
ARTNM 402  Intermediate Web Design (3)
ARTNM 404  Interactive Multimedia Basics (3)
CISW 310  Advanced Web Publishing (4)

Associate Degree Requirements: The Technical Communications Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.
Technical Communication Certificate

The Technical Communications certificate offers an interdisciplinary program of courses in writing, Art/New Media, and Computer Information Systems to prepare students for a variety of technical writing and professional communication careers. The certificate includes the theory, writing skills, design background, and computer applications knowledge needed for jobs in technical communication.

Career Opportunities

Technical communicators find employment in medical, scientific, high tech, business, university, and government settings. They may write white papers, tutorials, reference and procedure manuals, help systems, user assistance video scripts, and grants and proposals, and more.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• analyze audience information needs.
• compose concise, clearly written professional documents organized with the audiences’ needs in mind.
• design printed pages and online screens that communicate organizations’ values, enhance readability, and are easy to use.
• demonstrate basic skills in the use of key word processing, page design, help development, and web design applications.
• evaluate organizations’ communication goals with technical writing ethics in mind.

Requirements for Certificate  21.5-22.5 Units

| ARTNM 352 | Design for Publication (3)          | 3-4  |
| ARTNM 330 | Intermediate Desktop Publishing (2) |      |
| or CISA 331 | Intermediate Digital Photo Imagery (3) |      |

And a minimum of 6 units from the following: .................................................. 6

| ARTNM 328 | Digital Photo Imagery - Photoshop Basics (3) |      |
| ARTNM 330 | Intermediate Digital Photo Imagery (3) |      |
| ARTNM 401 | Introduction to Web Development and Design (3) |      |
| ARTNM 402 | Intermediate Web Design (3) |      |
| ARTNM 404 | Interactive Multimedia Basics (3) |      |
| CISW 307  | Introduction to Web Development and Design (3) |      |
| CISW 310  | Advanced Web Publishing (4) |      |

American River College Catalog 2009-2010
CISA 294  Topics in Computer Information Science - Applications  .5-.5 Units
Prerequisite: To be determined with each topic.
Hours: 9-72 hours LEC; 0-54 hours LAB
This is an individualized course developed in cooperation with industry and/or government to meet specialized training needs. The course may be taken twice for credit.

CISA 305  Beginning Word Processing  2 Units
Advisory: CISC 300
General Education: AA/AS Area II(b)
Course Transferable to CSU
Hours: 27 hours LEC; 27 hours LAB
This is an introductory course in word processing. The course introduces word processing operations such as creating, editing, file management techniques, and printing text. Emphasis is on formatting and document production techniques to produce professional business documents used in today's workplace. The course culminates with the study of intermediate level features such as merge, sort, graphics, macros, style, and templates. This course may be taken four times on a different software package or version.

CISA 306  Intermediate Word Processing  2 Units
Prerequisite: CISA 305 with grade of "C" or better.
Course Transferable to CSU
Hours: 27 hours LEC; 27 hours LAB
This course is a continuation of word processing with emphasis on applications for business documents and reports. In addition, this course includes desktop publishing techniques using word processing software, newsletter production, macro editing, complex document styles and commands, importing, linking and merging data from other applications into a word processing document. This course may be taken four times on a different software packaging or version.

CISA 308  Exploring Word Processing and Presentation Software  1 Unit
Course Transferable to CSU
Hours: 18 hours LEC
The course introduces word processing and presentation software. The basic features and skills of creating, editing and formatting documents, inserting tables and graphics and enhancing word documents are covered. PowerPoint presentations are included.

CISA 315  Introduction to Electronic Spreadsheets  2 Units
Advisory: CISC 100 and the ability to touch type.
General Education: AA/AS Area II(b)
Course Transferable to CSU
Hours: 27 hours LEC; 27 hours LAB
This course introduces the use of electronic spreadsheet programs. The course includes designing spreadsheets, developing formulas for automatic calculations, developing "what if" models, and producing printed reports. In addition, the course will introduce 3-D cell referencing, accessing real-time spreadsheet data from the Internet, and data filtering techniques. The course may be taken four times for credit on a different software package or version.

CISA 318  Exploring Spreadsheet Software  1 Unit
Course Transferable to CSU
Hours: 18 hours LEC
The course introduces widely used spreadsheet software. The basic features and skills of editing and formatting a spreadsheet, using basic formulas and functions, inserting and formatting charts and graphics in a spreadsheet workbook and analyzing and presenting that workbooks are covered.

CISA 320  Introduction to Database Management  1 Unit
Advisory: BUSTEC 300 and CISC 300
General Education: AA/AS Area II(b)
Course Transferable to CSU
Hours: 18 hours LEC; 18 hours LAB
This course introduces the student, through hands-on operation, to the use of database management programs on the microcomputer. It includes designing a database; assessing, searching, and updating files, and designing and producing printed reports. This course may be taken four times for credit on a different software package or version.

CISA 321  Intermediate Database Management  1 Unit
Prerequisite: CISA 320 with grade of "C" or better.
Course Transferable to CSU
Hours: 18 hours LEC; 18 hours LAB
This course continues the study of microcomputer database with emphasis on database design, reporting, application building, and utilization of files created using other software. This course may be taken four times on a different software package or version.

CISA 322  Advanced Database Management  1 Unit
Prerequisite: CISA 321 with a grade of "C" or better in the corresponding software application CISA 322 package.
Course Transferable to CSU
Hours: 18 hours LEC; 18 hours LAB
This course continues the study of microcomputer database with emphasis on database design, reporting, application building, and utilization of files created using other software. The course may be taken four times for credit on a different software package or version.

CISA 330  Desktop Publishing  2 Units
Advisory: BUS 100, BUSTEC 100, and CISC 300
Course Transferable to CSU
Hours: 27 hours LEC; 27 hours LAB
This course provides an overview of desktop publishing (DTP) and a major desktop publishing application program. It includes page layout skills needed to produce newsletters, brochures, flyers, reports, and marketing material on the computer. Additionally it covers importing graphics and text, using palette menus, layers, master pages, and working with graphic and text frames. This course may be taken four times for credit on different software packages or versions.

CISA 331  Intermediate Desktop Publishing  2 Units
Prerequisite: CISA 330 with a grade of "C" or better.
Course Transferable to CSU
Hours: 27 hours LEC; 27 hours LAB
This course is designed to present an overview of advanced desktop publishing (DTP) skills. Advanced techniques in page layout and design, select and use software programs which interface with DTP, use advanced typographic features, create and integrate image/graphic designs, handle files and directories, and analyze DTP needs and equipment integration will be presented. This course may be taken four times on a different software package or version.
CISC 100 Computer Fundamentals with Hands-on Lab 2 Units
Hours: 27 hours LEC; 27 hours LAB
This introductory course provides general non-technical knowledge combined with a hands-on lab on how computers work including basic computer terminology and concepts. The focus is slower paced instruction with extensive hands-on reinforcement of instructional concepts. Course topics include an introduction to the operating system software and application software focusing on word processing, spreadsheets, the Internet and email.

CISC 294 Topics in Computer Information Science - Core .5-5 Units
Prerequisite: To be determined with each topic.
Hours: 9-72 hours LEC; 0-54 hours LAB
This is an individualized course developed in cooperation with industry and/or government to meet specialized training needs. The course may be taken twice for credit.

CISC 300 Computer Familiarization 1 Unit
Advisory: ENGRD 116 or ESLR 320, and the ability to touch type.
General Education: AA/AS Area II(b); AA/AS Area III(b)
Course Transferable to CSU
Hours: 18 hours LEC
This course provides a general non-technical introduction to how computers work in addition to basic computer terminology and concepts. The focus is hands-on instruction using an operating system, word processing, spreadsheet, and Internet software. The course may be taken twice for credit.

CISC 305 Introduction to the Internet 1 Unit
Advisory: CISC 300 and 320
Course Transferable to CSU
Hours: 18 hours LEC; 18 hours LAB
This course is an introduction to how the Internet works and how to effectively use basic Internet services. Topics include E-mail, E-mail lists, the World Wide Web, search engines, newsgroups, Telnet, File Transfer Protocol (FTP), various forms of asynchronous communications such as Really Simple Syndication (RSS), and Internet security considerations.

CISC 306 Introduction to Web Page Creation 1 Unit
Advisory: CISC 305.
Course Transferable to CSU
Hours: 18 hours LEC; 18 hours LAB
This course covers the production of web pages, including design, layout, construction, and presentation. A web authoring tool is used to format a web page and Extensible Hypertext Markup Language (XHTML) is introduced. This course may be taken four times for credit on a different software package or version.

CISC 308 Exploring Computer Environments and the Internet 1 Unit
Course Transferable to CSU
Hours: 18 hours LEC
The course introduces the fundamentals of microcomputer hardware, software and computer networking, focusing on operating systems. The fundamentals of the Internet and Internet tools are introduced.

CISC 309 Applied Applications Lab .5 Unit
Corequisite: CISC 300, CISA 305, CISA 306, CISA 315, CISA 316, or CISA 320.
Advisory: ENGRD 116 or ESLR 320 and ability to keyboard 20 WAM.
Course Transferable to CSU
Hours: 27 hours LAB
This course complements CISC 300, CISA 305, CISA 306, CISA 315, CISA 316, and CISA 320 by providing supplemental lab instruction. The material reinforces the concepts and techniques presented in these courses. This course may be taken four times. Credit/no credit only.

CISC 310 Introduction to Computer Information Science 3 Units
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of the computer field covering the function and purpose of computer hardware and software, computer programming concepts, productivity software, employment opportunities, and the social impact of the computer.

CISC 320 Operating Systems 1 Unit
Advisory: CISC 300 and ability to touch type.
Course Transferable to CSU
Hours: 18 hours LEC; 18 hours LAB
This course introduces operating systems for the PC. Topics include file systems, operating system services, program management, file and directory organization, and hard drive maintenance. It also includes information on protecting your PC from viruses, Trojans, worms, adware, spyware, and other malicious network exploits. Additional topics are DOS commands and batch files. The course may be taken four times on a different Windows operating system version.

CISC 323 Linux Operating System 1 Unit
Advisory: CISC 300, CISA 305, CISA 306, CISA 315, CISA 316, or CISA 320.
Corequisite: CISC 300, CISA 305, CISA 306, CISA 315, CISA 316, and CISA 320.
Advisory: ENGRD 116 or ESLR 320 and ability to keyboard 20 WAM.
Course Transferable to CSU
Hours: 27 hours LAB
This course introduces the Linux operating system for microcomputers. Concepts include kernels, file structures, daemons, shells, GUIs, procedures for installing software, creation of user accounts, shell commands, scripts, and file security.

CISC 324 Intermediate Linux Operating System 1 Unit
Prerequisite: CISC 323 with a grade of “C” or better.
Course Transferable to CSU
Hours: 18 hours LEC; 18 hours LAB
This course is a continuation of CISC 323. It covers advanced shell scripting, C Shell, K Shell, BASH and other varieties will be compared. It also includes decision-making logic, looping, nesting, and other scripting tools will be used.
CISC 350  Introduction to Data Communications
1 Unit
Advisory: CISC 300 and ability to touch type.
Course Transferable to CSU
Hours: 18 hours LEC
This course introduces business data communication concepts, systems, technology, protocols, theory, and basic terminology. Specific topics include analog and digital data encoding and transmission; media; interfaces; packet, circuit, and broadcast networks; and data multiplexing.

CISC 351  Introduction to Local Area Networks
1 Unit
Advisory: CISC 320 and 350.
Course Transferable to CSU
Hours: 18 hours LEC, 18 hours LAB
This course introduces local area networks (LAN) and provides hands-on training in LAN applications and network administration. Topics include planning, installing, and maintaining a LAN, responsibilities of the system administrator, and basic network security principles. The course may be taken for credit four times on a different Windows operating system.

CISC 361  Microcomputer Support Essentials - Preparation for A+ Certification
3 Units
Advisory: CISC 310, 320, and 350
Course Transferable to CSU
Hours: 42 hours LEC, 36 hours LAB
This course is the first of two courses covering support and repair for stand-alone personal computers. It includes training to troubleshoot hardware to a field replaceable component. Operating systems installation and simple networking are also covered. The course provides a firm grounding in the supporting software that runs the hardware and in distinguishing hardware from software problems. This course, along with CISC 363, prepares students for the Computing Technology Industry Association (CompTIA) A+ certification.

CISC 362  Microcomputer and Applications Support
2 Units
Corequisite: CISC 361
Advisory: CISA 305, 315, and 320
Course Transferable to CSU
Hours: 24 hours LEC, 36 hours LAB
This course is an in-depth investigation of the technical, business, soft, and self-management skills technicians need to provide effective customer service and support in an information technology (IT) environment. Customer service and problem solving skills needed for success in a small or large business environment are introduced. Students serve as assistants in computer support in one of the American River College (ARC) computer classrooms/labs.

CISC 363  Microcomputer Support Technical - Preparation for A+ Certification
3 Units
Prerequisite: CISC 361 with a grade of “C” or better
Course Transferable to CSU
Hours: 42 hours LEC, 36 hours LAB
This course is the second of two courses providing a foundation in personal computer (PC) support. Hands-on skills include advanced component installation and configuration, troubleshooting component hardware, and configuring and troubleshooting major operating systems and networking hardware. This course along with CISC 361 prepares students for the Computing Technology Industry Association (CompTIA) A+ Certification exam.

CISC 498  Work Experience in Computer Information Science
1-4 Units
Corequisite: Must be enrolled in a minimum of 7 units including work experience.
General Education: AA/AS Area III(b)
Course Transferable to CSU
Hours: 18 hours LEC; 75-300 hours LAB
This course is supervised work experience in Computer Information Science for the purpose of increasing the understanding of the nature and scope of the operation of business, government or service agencies. This course requires that students be employed in a paid or volunteer work experience environment. May be taken twice for a maximum of 8 units.

CISN 110  Networking Technologies - Preparation for N+ Certification
2 Units
Prerequisite: CISN 110 with a grade of “C” or better
Hours: 36 hours LEC
This is an introductory course in networking software and hardware. Topics include modern communication protocols, local and wide area networks, intra- and inter-networks, network architectures, topologies, and the Open Systems Interconnect (OSI) model. This course, along with CISN 111, provides preparation for the Computer Technology Industry Association N+ certification test.

CISN 111  Intermediate Networking Technologies - Preparation for N+ Certification
2 Units
Prerequisite: CISN 110 with a grade of “C” or better
Hours: 36 hours LEC
This is an intermediate course in networking software and hardware. Topics include network operating systems setup, analyzing network performance, diagnosing and repairing of network problems, and network security techniques. This course, along with CISN 110, provides preparation for the Computer Technology Industry Association N+ certification test.

CISN 118  Internet Protocol Subnetting
1 Unit
Advisory: CISN 110 and MATH 25
Hours: 18 hours LEC
This course introduces Transmission Control Protocol/Internet Protocol (TCP/IP) address assigning and subnetting. Topics include a review of binary, hexadecimal, and decimal numbering systems, classes of Internet Protocol (IP) addresses, Classless Inter-domain Routing (CIDR), and Variable Length Subnet Masks (VLSM). The future of IP addressing, version 4 (IPV4) and version 6 (IPV6), is covered.

CISN 119  TCP/IP Protocols
3 Units
Advisory: CISN 350.
Hours: 54 hours LEC
This course covers the TCP/IP protocol suite for the Internet. Information to support and manage TCP/IP is provided.

CISN 120  Beginning Network Administration with Linux
3 Units
Prerequisite: CISC 323 with a grade of “C” or better
Advisory: CISC 324.
Hours: 45 hours LEC, 27 hours LAB
This course covers the basics of installation and administration of the Linux Network Operating System. Topics include installation of the Linux server, connecting to a network, utilizing network utilities, administering and maintaining network printing, protecting network data, and installing network applications. This course also covers planning, accessing, and managing file systems, planning and implementing login and file system security, administering and maintaining user accounts, upgrading the kernel, and backing up servers.
CISN 121  Network Administration with Linux: LAN Services  2 Units
Prerequisite: CISN 120 with a grade of “C” or better.
Advisory: CISN 119.
Hours: 27 hours LEC; 27 hours LAB
This course covers Linux network administration of local area network (LAN) services. Topics focus on server and LAN services including the network file system (NFS), share resources between Linux and Microsoft Windows using Server Message Block (SMBs), network information service (NIS), virtual network computing (VNC), remote network access, the secure shell (SSH) vs. telnet, X-windows as a network service, and dynamic host configuration protocol (DHCP). The course also covers the command scheduler (cron), monitoring and logging system activities and system events (syslog), as well as installing and configuring MySQL Structured Query Language (SQL) database management service.

CISN 122  Network Administration with Linux: Internet Services  2 Units
Prerequisite: CISN 120 with a grade of “C” or better.
Advisory: CISN 119.
Hours: 27 hours LEC; 27 hours LAB
This course covers Linux network administration of Internet services. Topics focus on server and TCP/IP services including the internet services daemon (XINETD), file transfer protocol (FTP), email, domain name service (DNS), firewall, secure shell, and proxy services. Installing and configuring the Apache Web Server and Webmin (the Linux web based administration tool) are introduced.

CISN 140  Cisco Networking Academy (CCNA)tm: Data Communication and Networking Fundamentals  3 Units
Advisory: CISC 310, OR CISC 300 and 320.
Hours: 54 hours LEC; 18 hours LAB
This course introduces data communication and networking fundamentals. It surveys data communication hardware and software components and basic networking concepts. Topics include data communication, the OSI Model, IP addressing, routing concepts, LAN media, and network management and analyses. This is the first course in preparation for Cisco CCNA certification examination. ARC is a certified Cisco Networking Academy and all courses are taught by Cisco Certified Academy Instructors (CCAI).

CISN 141  Cisco Networking Academy (CCNA)tm: Networking Theory and Routing Technologies  3 Units
Prerequisite: CISN 140 with a grade of “C” or better.
Hours: 54 hours LEC; 18 hours LAB
This course provides an introduction to networking theory and routing technologies, including OSI Model, beginning router configurations, routed and routing protocols. This is the second course in preparation for Cisco CCNA certification examination. ARC is a certified Cisco Networking Academy and all courses are taught by Cisco Certified Academy Instructors (CCAI).

CISN 142  CISCO Networking Academy (CCNA)tm: Advanced Routing and Switching  3 Units
Prerequisite: CISN 141 with a grade of “C” or better.
Hours: 54 hours LEC; 18 hours LAB
This course provides advanced routing and switching technologies. Topics include advanced router configurations, network management, advanced network design, LAN switching, and VLANS. This is the third course in preparation for Cisco CCNA certification examination. ARC is a certified Cisco Networking Academy and all courses are taught by Cisco Certified Academy Instructors (CCAI).

CISN 143  CISCO Networking Academy (CCNA)tm: Wide-Area Network and Project-Based Learning  3 Units
Prerequisite: CISN 142 with a grade of “C” or better.
Hours: 54 hours LEC; 18 hours LAB
This course provides the skills to design and configure advanced wide area network (WAN) projects using Cisco IOS command set. This is the fourth course in preparation for Cisco CCNA certification examination. ARC is a certified Cisco Networking Academy and all courses are taught by Cisco Certified Academy Instructors (CCAI).

CISN 300  Network Systems Administration  3 Units
Advisory: CISC 320, 350, and 351.
Course Transferable to CSU
Hours: 45 hours LEC; 27 hours LAB
This course covers the administration of a server in a client/server network. Topics include designing a basic network, installing and configuring a network operating system, and managing network security with user and group accounts. Additional topics are creating network shares, setting up and managing network printers, backing up servers, monitoring and setting access permissions on network resources, and establishing policies and procedures for network operations. This course may be taken four times on a different Windows version.

CISN 302  Intermediate Network Systems Administration  3 Units
Prerequisite: CISN 300 with a grade of “C” or better.
Course Transferable to CSU
Hours: 45 hours LEC; 27 hours LAB
This course covers advanced system administration in a client/server network. Topics include configuring the server environment, implementing system policies, implementing and managing fault-tolerant disk volumes, and managing applications. Additional topics covered are managing connectivity for different network and client operating systems, as well as managing and implementing remote servers. This course covers material required for one of the Microsoft MCSE Networking certification examinations. This course may be taken four times on a different Windows software version.

CISN 307  Windows Active Directory Services  3 Units
Prerequisite: CISN 302 with a grade of “C” or better.
Course Transferable to CSU
Hours: 45 hours LEC; 27 hours LAB
This course covers installing, configuring, and administering Microsoft Windows Active Directory services. It also focuses on implementing Group Policy and understanding the Group Policy tasks required to manage users and computers. Group Policies are used to configure and manage the user desktop environment, configure and manage software, and implement and manage security settings. Installation and configuration of Domain Naming System (DNS) and Windows Internet Naming System (WINS) is covered, as well as publishing, replication and the backup of the directory services database. This course may be taken up to four times on different Windows operating system versions.

CISN 308  Internetworking with TCP/IP  3 Units
Prerequisite: CISN 302 with a grade of “C” or better.
Course Transferable to CSU
Hours: 45 hours LEC; 27 hours LAB
This course covers installing, configuring, managing, and supporting a network infrastructure using the Microsoft Windows Server products. It focuses on TCP/IP and related services, including Dynamic Host Configuration Protocol (DHCP), Domain Naming System (DNS), Windows Internet Naming Service (WINS), Internet Information Server (IIS), Public Key Infrastructure (PKI) and certificate service, Internet protocol security (IPSec), Network Address Translation (NAT), and remote access. It also covers configuring Windows
as a network router, Virtual Private Network (VPN) connectivity and managing a Windows deployment using Remote Installation Services (RIS). This course may be taken four times on different Windows operating system versions.

**CISP 314 Fiber Optic Networking 3 Units**  
Advisory: CISC 350.  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course introduces basic fiber optical technologies including splices, connectors, optical sources, detectors, optical amplifiers, splitters and modulators. Optical switching technology and fiber based standards and protocols are covered along with services such as voice, data and video. Industry procedures and practices are examined.

**CISP 374 Messaging Server Administration 3 Units**  
Prerequisite: CISP 302 with a grade of "C" or better.  
Course Transferable to CU  
Hours: 45 hours LEC; 27 hours LAB  
This course covers the installation and administration of messaging servers. Topics include the installation, configuration, management and tuning of mail and messaging services on both servers and clients; mail access protocols; security issues; backup and restore of the messaging database; and Internet connectivity. This course may be taken four times for credit on different software versions.

### CIS - Programming

**CISP 300 Algorithm Design/Problem Solving 3 Units**  
Advisory: CISC 310.  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course introduces the Computer Science major to methods for solving typical computer problems through algorithm design. Topics covered include assessing and analyzing computer problems in a top-down, divide-and-conquer approach that leads to a programming solution. It also includes programming plans and detailed design documents from which source code versions of programs will be created.

**CISP 310 Assembly Language Programming for Microcomputers 4 Units**  
Prerequisite: CISP 360 with a grade of "C" or better.  
Course Transferable to UC/CSU  
Hours: 54 hours LEC; 54 hours LAB  
This course is an introduction to the architecture of microcomputers that use the Intel microprocessor. Topics include machine and assembly language, keyboard and screen manipulation, binary and binary coded decimal (BCD) arithmetic, American Standard Code for Information Interchange (ASCII) and binary conversion, table processing, macro, and subroutines. Machine language programs are traced as an aid to debugging.

**CISP 315 Introduction to Computer Architecture and Design 4 Units**  
Prerequisite: CISP 310 with a grade of "C" or better  
General Education: AA/AS Area II(b)  
Course Transferable to UC/CSU  
Hours: 54 hours LEC; 54 hours LAB  
This course is an introduction to the fundamental theories of, and their applications in, digital computer design. Topics include machine code decoding, memory bus cycles, memory, arithmetic and logic unit, registers, latches, Boolean algebra, logic gates, state machines, binary representation, pipelining and Boolean equation optimization. Synthesis of the design of a computer in a hardware description language (HDL) is stressed. All topics are related to programming and overall computer system operations.

**CISP 320 COBOL Programming 4 Units**  
Prerequisite: CISP 300, 340, 365, or 370 with a grade of "C" or better  
Advisory: CISP 317  
General Education: AA/AS Area II(b)  
Course Transferable to CU  
Hours: 54 hours LEC; 54 hours LAB  
This is a course in Programming using the language of COBOL to analyze and solve problems found in business and government. The programs use sequential disk files for input. Both printed reports and disk files are demonstrated output options. Updating of sequential files involves the use of multiple files as input and output. Current methods of problem solving include programming structure, topdown design, and modular programming techniques. Topics covered include report formatting, control breaks, and single and double arrays.

**CISP 321 Advanced COBOL Programming 4 Units**  
Prerequisite: CISP 320 with a grade of "C" or better.  
Course Transferable to CU  
Hours: 54 hours LEC; 54 hours LAB  
This course covers advanced COBOL concepts and programming techniques. The topics include sequential file processing, data editing, indexed sequential disk file processing, disk sorts, job control language, debugging techniques, table searching, segmentation, and subroutines. Emphasis is on structured design and structured programming utilizing top-down and modular techniques.

**CISP 350 Database Programming 3 Units**  
Advisory: CISA 320 and CISC 310  
General Education: AA/AS Area II(b)  
Course Transferable to CSU  
Hours: 36 hours LEC; 54 hours LAB  
This is an introductory course in Structured Query Language (SQL) database programming. Topics include database normalization, subqueries, joins, import/export, privileges, and Procedural Language (PL)/SQL programming.

**CISP 360 Introduction to Structured Programming 4 Units**  
Prerequisite: CISP 300, 320, 340, or 370 with a grade of "C" or better  
General Education: AA/AS Area II(b)  
Course Transferable to UC/CSU  
Hours: 54 hours LEC; 54 hours LAB  
This course is an introduction to structured programming and objects. Topics include program design, documentation, testing, and debugging, as well as data representation, data types, variables, constants, and operators. It also includes control structures, interactive and file input/output, standard libraries, arrays, pointers, methods (functions), classes, and objects.

**CISP 370 Beginning Visual Basic 4 Units**  
Advisory: CISC 310 and CISP 300.  
Course Transferable to CU  
Hours: 54 hours LEC; 54 hours LAB  
This is an introductory programming course employing the language of Visual BASIC. Concepts and problems relate to a graphic user interface operating system (such as Windows) and object oriented programming. Terms, rules, and program components used in desktop customization will be explored. Applications include control menu boxes, menu bars, and scroll bar development. This course may be taken four times on a different software version. (CAN CSCI 6)
CISP 370  Intermediate Visual Basic  4 Units
Prerequisite: CISP 370 with a grade of "C" or better.
Course Transferable to CSU
Hours: 54 hours LEC, 54 hours LAB
This is the second course in Visual Basic programming. The course examines data and its relationship to the functions that operate on data. Topics include forms, components, properties, classes, objects, static and dynamic relationships, databases, data sets, queries, hierarchies, inheritance, coding, dialog boxes, associations, testing, and debugging. This course may be taken four times with a different version of Visual Basic.

CISP 372  Beginning Visual Basic for Applications Programming  1 Unit
Course Transferable to CSU
Hours: 15 hours LEC; 9 hours LAB
This course introduces Visual Basic for Applications (VBA) programming for the purposes of application automation and customization. It includes basic programming concepts such as variables, control structures and subroutines. The use of elementary user interface controls are also included in this course.

CISP 400  Object Oriented Programming with C++  4 Units
Prerequisite: CISP 360 with a grade of "C" or better
Advisory: CISC 323
General Education: AAAS Area II(b)
Course Transferable to UC/UCS
Hours: 54 hours LEC; 54 hours LAB
This course is an introduction to the C++ programming language and object-oriented programming in the Linux/UNIX environment. Topics include program analysis and design, encapsulation, overloaded operators, classes, inheritance, virtual functions, polymorphism, templates, exception handling, and the standard template library. In addition, basic Linux/UNIX commands and make files are covered.

CISP 401  Object Oriented Programming with Java  4 Units
Prerequisite: CISP 360 with a grade of "C" or better.
Course Transferable to UC/UCS
Hours: 54 hours LEC; 54 hours LAB
This course is an introduction to object oriented programming using the Java programming language. Topics include: objects, inheritance, polymorphism, interfaces, abstract classes, inner classes, error handling, graphical user interfaces, applets, threads, files, databases, and packages.

CISP 430  Data Structures  4 Units
Prerequisite: CISP 360 with a grade of "C" or better.
Advisory: CISP 400.
Course Transferable to UC/UCS
Hours: 54 hours LEC, 54 hours LAB
This course applies object-oriented techniques for systematic problem analysis and the managing of program complexity using abstraction. Specifications, design, coding, testing, and documentation of large multi-file programs are covered. It uses advanced language features such as classes, strings, non-text files, pointers, and recursion. Abstract data types such as stacks, queues, lists, binary trees, heaps, priority queues, hash tables, and graphs are examined. Various sorting and searching algorithms are presented and analyzed using Big-O notation. (CAN CSCI 24)

CISP 440  Discrete Structures for Computer Science  3 Units
Prerequisite: MATH 370 with a grade of "C" or better
Corequisite: CISP 430
General Education: AAAS Area II(b); CSU Area B4
Course Transferable to UC/UCS
Hours: 54 hours LEC
This course is an introduction to the essential discrete structures used in Computer Science, with emphasis on their applications. Topics covered include elementary formal logic and set theory, elementary combinatorics, recursive programming and algorithm analysis, finite state machines and formal languages, digital logic and switching, combinatorial circuits, and computer arithmetic.

CISP 453  Introduction to Systems Programming in UNIX  4 Units
Prerequisite: CISP 310, 360, and 430 with grades of "C" or better.
Advisory: CISC 323
Course Transferable to UC/UCS
Hours: 54 hours LEC, 54 hours LAB
This course covers the features of the C language commonly used in systems programming, and the application of those features to systems programming in a Linux/UNIX environment. Topics include C preprocessor macros, input/output, bit-manipulation facilities, timesharing system concepts, shell script programming, make files and source code control; basic system calls including fork and exec; pointers and dynamic memory allocation; libraries; and file and memory management concepts including assembler handling of symbol tables.

CISP 457  Computer Systems Analysis and Design  3 Units
Prerequisite: CISP 300 or 370 with a grade of "C" or better.
Advisory: CISA 305 and 340.
Course Transferable to CSU
Hours: 54 hours LEC
This course covers the methods used to analyze, design, and implement a computer system that meets client business needs. The methodology emphasizes the skills needed by a system analyst throughout the steps of a system development life cycle. These steps include system feasibility, analysis, design, implementation, documentation, and evaluation.

CIS - Security

CISS 300  Introduction to Information Systems Security  1 Unit
Advisory: CISC 320, 350, or 351
Course Transferable to CSU
Hours: 18 hours LEC, 18 hours LAB
This course provides an introduction to network-based and Internet-based security applications and standards. Topics include encryption, security protocols, network security applications, digital signatures, protecting computers and the network from viruses and Trojans, spyware, unsolicited E-mail and public and private key exchange.

CISS 301  Ethical Hacking  2 Units
Advisory: CISC 320, 323, 350 or 351.
Course Transferable to CSU
Hours: 27 hours LEC, 27 hours LAB
This course introduces basic security concepts, principles and “best practices” and explores ways in which security for a stand-alone PC and a network-connected PC can be compromised. It provides ways in which the security of a PC can be checked and evaluated. Principles of ethical hacking are discussed. Internal and external security threats are discussed, including viruses, worms, trojans, scripts and other malicious e-mail content. Network vulnerabilities, common exploits and basic countermeasures are discussed.
**CISS 310  Network Security Fundamentals**  
3 Units  
Advisory: CISN 119, 140, and 302.  
Course Transferable to CSU  
Hours: 45 hours LEC, 27 hours LAB  
This course provides the information and skills required to analyze security risks from potential network intrusions to organizations’ network information systems. Topics cover the required content of the Computing Technology Industry Association (CompTIA) Security+ certification exam.

**CISS 325  Network Security and Firewalls**  
3 Units  
Prerequisite: CISS 310 with a grade of “C” or better.  
Course Transferable to CSU  
Hours: 45 hours LEC, 27 hours LAB  
This course covers network and Internet security and deployment of industry standard countermeasures, including configuring Virtual Private Network (VPN) connections. Topics include the evaluation, implementation, and management of secure remote-access technologies. Also covered is the configuration of network firewalls such as Microsoft ISA Server, and allowing access to key services while maintaining security. This course provides preparation for the Check Point Security’s “Check Point Certified Security Administrator” (CCCSA) certification exam. This course is not open to students who have completed CISS 320 and CISS 330.

**CISS 341  Implementing Windows Operating System Security**  
3 Units  
Advisory: CISC 320, CISC 351, and CISS 310  
Course Transferable to CSU  
Hours: 45 hours LEC, 27 hours LAB  
This course provides in-depth information on the Microsoft Windows desktop operating system security features, as well as step-by-step configuration for most effective operating system security. The techniques needed in order to maintain the integrity, authenticity, availability, and privacy of the system and user data are covered. This course may be taken 4 times for credit on different versions of the Windows operating system.

**CISS 342  Implementing Linux Operating System Security**  
3 Units  
Advisory: CISC 323 and CISS 310  
Course Transferable to CSU  
Hours: 45 hours LEC, 27 hours LAB  
This course provides in-depth information on Linux/UNIX operating system security features, as well as step-by-step configuration for most effective operating system security. The techniques needed in order to maintain the integrity, authenticity, availability, and privacy of the system and user data are covered. This course may be taken 4 times for credit on different versions of the Linux or UNIX operating systems.

**CISS 350  Disaster Recovery**  
3 Units  
Advisory: CISS 310  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course provides methods for identifying vulnerabilities and implementing countermeasures to prevent and mitigate failure risks in the information technology infrastructure for the business enterprise. Topics include disaster recovery, development of a disaster recovery plan, and development and implementation of disaster recovery policies and procedures.

**CISS 360  Computer Forensics and Investigation**  
3 Units  
Advisory: CISC 324, CISS 310, and CISS 350  
Course Transferable to CSU  
Hours: 45 hours LEC, 27 hours LAB  
This course introduces the methods used to conduct a computer forensics investigation. Topics include an overview of computer forensics as a profession, the computer investigation process, operating systems’ boot processes and disk structures, data acquisition and analysis, ethics, and a review of standard computer forensic tools. The course topics map to the objectives of the International Association of Computer Investigative Specialists (IACIS) certification.
CISW 355 Web Imaging Projects 2 Units
Prerequisite: CISW 350 or ARTNM 402 or ARTNM 400 with a grade of "C" or better.
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course introduces the creation of professional Web sites for people with disabilities. Current legal requirements for accessible Web sites, especially the Americans with Disabilities Act (ADA), are emphasized.

CISW 365 Interactive Multimedia Basics 3 Units
Same As: ARTNM 404
Advisory: ARTNM 324, ARTNM 402, CISW 300, or CISW 310
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course demonstrates how to create simple vector-based graphics, animation, buttons, movies and raster files in a web environment. Topics include drawing tools, time-line effects, sound and video integration and basic interactivity. CISW 365 and/or ARTNM 404 may be taken a total of 4 times on different platforms or software versions.

CISW 370 Designing Accessible Web Sites 1 Unit
Prerequisite: CISW 300 with a grade of "C" or better.
Course Transferable to CSU
Hours: 18 hours LEC
This course provides an overview of the methods that are used to design Web sites for people with disabilities. Current legal requirements for accessible Web sites, especially the Americans with Disabilities Act (ADA), are emphasized.

CISW 385 E-Commerce 3 Units
Prerequisite: CISC 305 or CISW 300 with a grade of "C" or better.
Course Transferable to CSU
Hours: 54 hours LEC
This course provides both the beginner and the professional with a working knowledge of e-commerce. It emphasizes the theory and practice of marketing in an electronic environment. The personalization and interactivity of commercial Web sites as a tool to build strong customer relationships are stressed.

CISW 400 Client-side Web Scripting 4 Units
Prerequisite: CISW 300 with a grade of "C" or better
Advisory: CISP 300 and CISW 310
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course emphasizes the creation of dynamic and interactive Web sites using a client-side scripting language such as JavaScript. Topics include the Document Object Model of web pages, core features of the client-side scripting language, event handling, control of windows and frames, functions, and form validation. This course may be taken twice using a different client-side scripting language.

CISW 405 ActionScript for Flash 3 Units
Prerequisite: ARTNM 404 or CISW 365 with a grade of "C" or better.
Advisory: CISW 300 or CISW 400.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course introduces Macromedia Flash users to programming with ActionScript to animate, process data, and create dynamic content. It emphasizes the object-oriented capabilities of Macromedia Flash, and instructs how to use ActionScript objects, methods, events, properties, and functions, with an eye toward ActionScript best practices.

CISW 410 Middleware Web Scripting 4 Units
Prerequisite: CISW 300 with a grade of "C" or better
Advisory: CISP 300 and CISW 310
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course emphasizes the creation of interactive web sites using a middleware scripting environment such as PHP or Active Server Pages (ASP). Topics include core features of the middleware scripting language, embedding server commands in HTML pages, control structures, functions, arrays, form validations, cookies, environmental variables, email applications, and database-driven web applications. This course may be taken twice using different middleware web scripting environment.

CISW 411 Middleware Scripting Database Web Applications 2 Units
Prerequisite: CISW 410 with a grade of "C" or better.
Advisory: CISW 310.
Course Transferable to CSU
Hours: 27 hours LEC; 27 hours LAB
This course includes interactive database applications for the Web using a database and middleware scripting language. Topics include organizing data, developing tables for databases, creating middleware scripts that add, delete, sort, edit and merge the data in the database. Maintaining database integrity, and using XHTML to streamline certain client-side functions such as form validation are covered.

CISW 420 Server-side Web Scripting 4 Units
Prerequisite: CISW 300 with a grade of "C" or better
Advisory: CISP 300 and CISW 310
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course emphasizes the creation of interactive web sites using a server-side scripting language such as a Perl or Java. Topics include core features of the server-side web scripting language, control structures, functions, arrays, form validations, cookies, environmental variables, email applications, and database-driven web applications. This course may be taken twice using a different server-side web scripting language.

CISW 442 Web Publishing with XML 3 Units
Prerequisite: CISW 300 with a grade of "C" or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course describes how to create well-formed and valid Extensible Markup Language (XML) documents, which are later used in conjunction with Extensible Style Sheet Language (XSL) to produce Web pages and other result documents. Topics include formatting XML documents with Cascading Style Sheets (CSS), Document Type Definitions (DTD), XML Namespaces and Schemas, XPath, and Extensible Style Sheet Language Transforms (XSLT).

CISW 471 Interactive Multimedia Projects 4 Units
Same As: ARTNM 410
Prerequisite: ARTNM 402, ARTNM 404, CISW 300, CISW 310, or CISW 365 with a grade of "C" or better
Advisory: ARTNM 328, CISW 410, and CISW 420
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course focuses on interactive multimedia project development. Emphasis is placed on the project development cycle including design specification, research, production, modification, and presentation. Projects assigned are multifaceted, approaching the complexity that individuals would be expected to encounter in the interactive multimedia development industry. This course is not open to students who have completed ARTNM 410.
Design Technology Degree and Certificate

The ARC Design Technology degree and certificate emphasizes the basic skills needed for success in architectural, mechanical, and engineering occupations. These include the design process, drafting standards and practices, technical communication, material sciences, and design critique. The use of computers and various computer aided design and drafting (CADD) softwares are emphasized throughout the program.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Apply the principles of architecture and engineering technology.
• Identify, analyze, and solve technical problems within architectural and engineering disciplines.
• Plan, conduct, and analyze typical architectural and engineering design projects by applying the design process.
• Communicate architectural and engineering design solutions effectively through speaking, writing, and the use of design graphics.

Associate Degree Requirements: The Design Technology Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Engineering Technology Degree

The Engineering Technology degree gives students a basic preparation in physics, mathematics, computer aided design and drafting (CADD), chemistry, manufacturing processes, engineering materials and other subjects necessary for the well trained engineering technician.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Communicate architectural and engineering design solutions effectively through speaking, writing, and the use of design graphics.
• Plan, conduct, and analyze typical architectural and engineering design projects by applying the design process.
• Identify, analyze, and solve technical problems within architectural and engineering disciplines.
• Apply the principles of engineering technology.
• Plan, conduct, analyze, and interpret experiments.
• Communicate engineering design solutions effectively through speaking, writing, and the use of graphics.

Associate Degree Requirements: The Engineering Technology Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.
Engineering Technology Certificate

The Engineering Technology certificate gives students a basic preparation in physics, mathematics, computer aided drafting and design (CADD), chemistry, manufacturing processes, engineering materials and other subjects necessary for the well-trained engineering technician.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Apply the principles of engineering technology.

• Identify, analyze, and solve technical problems within engineering disciplines.

• Plan, conduct, analyze, and interpret experiments.

• Communicate engineering design solutions effectively through speaking, writing, and the use of graphics.

Career Opportunities

Upon completion of the two-year certificate program the engineering technician will be prepared to go directly into the employment market as a technical assistant to engineers, or other technical employment. For every engineer, several support technicians are required. Engineering technicians are needed in the fields of manufacturing, architecture, construction, materials testing, public utilities and many other fields.

Requirements for Certificate 41-44 Units

Engineering: Transfer Option

The purpose of the program is to provide academic preparation for transfer to California State University, Sacramento, for the Engineering Construction Management Program or the Mechanical Engineering Technology Program. At the completion of the courses in the option, a student will obtain an A.S. Degree and have many of the courses required for transfer. Please check the current Articulation Agreement by Major at www.assist.org.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Apply the principles of engineering to mechanical and construction technologies.

• Identify, analyze, and solve technical problems.

• Plan, conduct, analyze, and interpret experiments.

• Communicate about engineering solutions effectively through speaking, writing, and the use of graphics.

DESIGN & ENGINEERING TECHNOLOGY

And a minimum of 3 units from the following:..................3
One or more transfer level Humanities course (numbered 300-499)
And a minimum of 3 units from the following:..................3
One or more transfer level Language and Rationality course (numbered 300-499)
And a minimum of 6 units from the following:..................6
Transfer level Social Science courses (numbered 300-499)
And a minimum of 5 units from the following:..................5
Transfer level courses (numbered 300-499).

Associate Degree Requirements: The Engineering/Transfer Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

DESIGN 100  Introduction to Computer Aided Drafting and Design (CADD)  3 Units
Hours: 36 hours LEC; 72 hours LAB
This course is an introduction to computer-assisted drafting and design (CADD) and basic technical drawing. It covers orthographic and isometric projection concepts, utilizing CADD to produce basic technical drawings and applies the editing commands available in the software. It introduces basic drawings from architecture, mechanical design, electronics and space planning. This course may be taken four times using different software releases.

DESIGN 102  Intermediate Computer Aided Drafting and Design (CADD)  3 Units
Prerequisite: DESIGN 100 with a grade of “C” or better.
Hours: 36 hours LEC; 72 hours LAB
This course emphasizes advanced CADD commands and design graphics drawing principles. Orthographic and isometric projection principles are used for solving missing view problems with CADD as the tool for producing the drawings. Section views for mechanical and architectural applications are covered. Topics encompass architectural design, mechanical design, 3D-drawing, orthographic and isometric projection, sections, developments, attributes, civil drafting, and interior design and space planning. This covers the preparation for professional work skills and advanced design courses. This course may be taken four times using different software releases.

DESIGN 298  Work Experience in Design Technology  1-4 Units
Advisory: ENGRW 102 or 103, and ENGRD 116 with grade of “C” or better; OR ESRL 320 and ESLW 320 with grade of “C” or better; OR placement through assessment process
General Education: AA/AS Area III(b) (effective Summer 2008)
Hours: 60-300 hours LAB
This course provides students with opportunities to develop marketable skills in preparation for employment in the architectural and engineering field. Course content includes understanding the application of education to the workforce; completion of required forms which document the student's progress and hours spent at the work site; and developing workplace skills and competencies. Appropriate level learning objectives are established by the student and the employer. During the semester, the student is required to fulfill a weekly orientation and 75 hours of related paid work experience, or 60 hours of unpaid work experience for one unit. An additional 75 or 60 hours of related work experience is required for each additional unit. The weekly orientation is required for first time participants, returning participants are not required to attend the weekly orientation but are required to meet with the instructor as needed to complete all program forms and assignments. Work Experience may be taken for a total of 16 units when there are new or expanded learning objectives.

DESIGN 300  Introduction to Design Resources  3 Units
Advisory: ENGRW 102 or 103, and ENGRD 116 with grade of “C” or better; OR ESRL 320 and ESLW 320 with grade of “C” or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course is a survey of the resources that are used in the architectural and engineering professions for design planning, evaluation, and selection. It covers the methods and techniques used to determine human resources, evaluate and select materials for design, and disseminate design information.

DESIGN 308  Three Dimensional Design-Solids Modeling  3 Units
Prerequisite: DESIGN 100, 300, and 320 with grades of “C” or better
Corequisite: DESIGN 102
Advisory: ENGRW 102 or 103, and ENGRD 116; or ESRL 320 and ESLW 320
Course Transferable to UC/CSU
Hours: 36 hours LEC; 72 hours LAB
This course will cover the concepts and applications of three dimensional graphic design using AutoCAD solid modeling, mechanical desktop, and solid works software. Topics include the development and techniques for producing wire frame, surface, and solid models and their application in architectural and mechanical design. This course may be taken 4 times on different software releases.

DESIGN 310  Graphic Analysis  3 Units
Prerequisite: DESIGN 100 with a grade of “C” or better.
Advisory: Design Technology 102.
Course Transferable to CSU
Hours: 36 hours LEC; 72 hours LAB
This course covers CADD applications of the orthographic projection and geometric construction principles to solve technical problems as well as graphical analysis of the true length, true shape, true angle in the solution of engineering and architectural problems. This course satisfies the transfer requirements to CSUS for engineering, engineering technology, and design technology students.

DESIGN 320  Three Dimensional Graphics and Design  3 Units
Prerequisite: ENGRW 102 or 103, 116 or ESRL 320 and ESLW 320 or placement through assessment process
Course Transferable to UC/CSU
Hours: 36 hours LEC; 72 hours LAB
This course includes instruction and practice in freehand engineering computer and architectural technical expression in various graphic media. Additionally, it will cover the development of design solutions represented in freehand perspectives, 3-D CADD, and various software applications, phototype, mass modeling design projects will be included.

DESIGN 330  Machine Design  4 Units
Prerequisite: DESIGN 308 and 310 with grades of “C” or better
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course covers machine and mechanical system design through the study of mechanical system applications. Basic production documentation is applied to a variety of industrial and commercial products, utilizing orthographics, sections, auxiliary, tolerance reviews, geometric dimension and tolerancing (GDT), as well as the creation of facility and production plans. Emphasis is placed on the current American National Standards Institute (ANSI) standard for geometric dimension and tolerancing and its application to working drawings. Applications emphasize green technology concerns, such as water and energy conservation in industrial, commercial, or municipal settings.
**DESGN 340  Architecture and Construction**  5 Units
Prerequisite: DESGN 102, 310, and 320.
Course Transferable to CSU
Hours: 54 hours LEC; 108 hours LAB
This course covers individual and group exercises simulating typical design, drafting and procedures in architecture and construction. The course focuses on residential design and light commercial wood frame construction.

**DESGN 350  Surveying and Construction Measurement Techniques**  4 Units
Prerequisite: DESGN 102, DESGN 310 with a grade of "C" or better.
Advisory: Math 120.
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This course covers basic measurement and alignment techniques used in light and heavy construction for design technology analysis. Additionally, the course includes site, road staking, cut and fill calculations, and elementary surveying principles.

**DESGN 360  Commercial Engineering Design and Drafting**  5 Units
Prerequisite: DESGN 102 and 310 with a grade of "C" or better.
Advisory: Design Technology 320.
Course Transferable to CSU
Hours: 54 hours LEC; 108 hours LAB
This course employs individual and group exercises simulating typical design and engineering problems in structures, land planning, and environmental systems in buildings. Design solutions are presented by freehand, manual drafting, and CADD application. The course includes both individual and team design problems.

**DESGN 405  Advanced Computer-Aided Drafting and Design (CADD)**  3 Units
Prerequisite: DESGN 340 or 360 with a grade of "C" or better.
Course Transferable to CSU
Hours: 36 hours LEC; 72 hours LAB
This course emphasizes the study of electronic graphical data development, manipulation techniques, and research data retrieval within the areas of architectural and mechanical, and civil engineering applications. Data base development is applied to various technical design problems incorporating the design process. This course may be taken four times on different software versions.
Diesel Technology Degree and Certificate

This degree provides training in diesel technology. Topics include an introduction to diesel technology, diesel engine repair, basic hydraulic principles of diesel technology, diesel brake systems, and diesel power trains.

Career Opportunities

This degree prepares the students as diesel technicians in the following areas of specialty: brakes, engine repair, hydraulics, and electrical.

Student Learning Outcomes

Upon completion of this program, the student will be able to:
• identify and properly utilize shop equipment and chemicals used in the diesel repair environment including hazardous waste disposal.
• apply proper techniques for complete engine removal, disassembly, cleaning, and reassembly of diesel engine.
• identify and explain brake system components, as well as application of proper technique for removal and repair of diesel brake system components.
• select and use proper test equipment to evaluate electrical systems, including voltmeters, ammeters, and ohmmeters.
• identify and explain diesel power train components and their functions to assist in diagnosis of drive train failure.

Requirements for Degree or Certificate 24 Units

AT 150  Introduction to Diesel Technology 4 Units
AT 151  Diesel Engine Repair 4 Units
AT 152  Basic Hydraulic Principles of Diesel Technology 4 Units
AT 153  Diesel Brake Systems 4 Units
AT 154  Diesel Electrical Systems 4 Units
AT 155  Diesel Power Trains 4 Units

Associate Degree Requirements: The Diesel Mechanics Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Automotive Technology

AT 150  Introduction to Diesel Technology 4 Units
Hours: 54 hours LEC, 54 hours LAB
This course introduces the field of diesel technology. It covers proper safety and hazardous waste training, use of basic hand and power tools, and the basic workings of the diesel engine.

AT 151  Diesel Engine Repair 4 Units
Hours: 54 hours LEC, 54 hours LAB
This course covers basic engine principles for the diesel engine. It covers disassembly and reassembly of diesel engine systems, including cleaning and safe removal of engines, fuel injection systems, valve trains, and engine heads.

AT 152  Basic Hydraulic Principles of Diesel Technology 4 Units
Hours: 54 hours LEC, 54 hours LAB
This course provides an introduction to the basic hydraulic principles and functions of the diesel engine. Topics include hydraulic fundamentals and principles, functions of hydraulic fluids, directional and flow control valves, and machine hydraulic overview.

AT 153  Diesel Brake Systems 4 Units
Advisory: AT 100
Hours: 54 hours LEC, 54 hours LAB
This course covers the operation of diesel brake systems and components. Topics include band, shoe, caliper, and full disc brakes.

AT 154  Diesel Electrical Systems 4 Units
Corequisite: AT 105
Advisory: AT 100
Hours: 54 hours LEC, 54 hours LAB
This course covers the operation of diesel electrical systems. Topics include electrical circuits, test instruments, charging systems, and electrical starting systems.

AT 155  Diesel Power Trains 4 Units
Hours: 54 hours LEC, 54 hours LAB
This course covers the diesel power train. Topics include inspection and adjustment of clutch linkage, flywheel inspection, and replacement of clutch brakes.

Diesel / Clean Diesel Technology

DCDT 101  Diesel Preventive Maintenance 4 Units
Hours: 54 hours LEC, 54 hours LAB
This course introduces the field of clean diesel technology and preventative maintenance. It covers proper safety and hazardous waste training, use of basic hand and power tools, and the basic workings of the diesel engine. This course may be taken two times for credit using different equipment.
DCDT 102  Biodiesel Fuel and Fuel Systems  4 Units  
Hours: 54 hours LEC; 54 hours LAB
This course covers the chemistry, production, and impact of biodiesel technology. It also covers how to convert vehicle fuel systems to biodiesel and how this process affects warranties.

DCDT 103  Clean Diesel Systems  4 Units  
Hours: 54 hours LEC; 54 hours LAB
This course provides a complete overview of the clean diesel engine system. Topics include fuel injection systems, emission regulations, and diesel emission control systems. This course can be taken two times for credit using different equipment.

DCDT 104  Clean Diesel Rebuild, Retrofit, Repower, Retire  4 Units  
Hours: 54 hours LEC; 54 hours LAB
This course covers clean diesel rebuilding, repowering, retrofitting, or retiring of equipment decisions. Topics include rebuilding, replacement, and retirement of diesel systems and components. This course may be taken two times for credit using different equipment.

DCDT 110  Diesel Engine Repair  4 Units  
Hours: 54 hours LEC; 54 hours LAB
This course covers basic engine principles for diesel engine repair. It covers disassembly and reassembly of diesel engine systems, including cleaning and safe removal of engines, fuel injection systems, valve trains, and engine heads. This course may be taken two times for credit using different equipment.

DCDT 112  Clean Diesel Retrofit  4 Units  
Hours: 54 hours LEC; 54 hours LAB
This course covers diesel engine retrofit needs for older diesel engines. Topics include troubleshooting, fault codes, and diesel particulate filter systems. This course may be taken two times for credit using different equipment.

DCDT 120  Basic Hydraulic Principles of Diesel Technology  4 Units  
Hours: 54 hours LEC; 54 hours LAB
This course provides an introduction to the basic hydraulic principles and functions of the diesel engine. Topics include hydraulic fundamentals and principles, functions of hydraulic fluids, directional and flow control valves, and machine hydraulic overview. This course may be taken two times for credit using different equipment.

DCDT 130  Diesel Brake Systems  4 Units  
Hours: 54 hours LEC; 54 hours LAB
This course covers the operation of diesel brake systems and components. Topics include band, shoe, caliper, and full disc brakes. This course may be taken two times for credit using different equipment.

DCDT 140  Diesel Electrical Systems  4 Units  
Hours: 54 hours LEC; 54 hours LAB
This course covers the operation of diesel electrical systems. Topics include sensors used in emission control, electrical circuits, test instruments, charging systems, and electrical starting systems. This course may be taken two times for credit using different equipment.

DCDT 142  Diesel Emission Control Systems  4 Units  
Hours: 54 hours LEC; 54 hours LAB
This course covers the emission control system of the diesel engine. Topics include performance maintenance and emissions control within emission limits. This course may be taken two times for credit using different equipment.

DCDT 150  Diesel Power Trains  4 Units  
Hours: 54 hours LEC; 54 hours LAB
This course covers the diesel power train. Topics include inspection and adjustment of clutch linkage, flywheel, and replacement of clutch brakes. This course can be taken two times for credit using different equipment.

DCDT 162  Clean Diesel Software Support  4 Units  
Hours: 72 hours LEC
This course covers the skills needed to adequately retrieve and apply system information using internet based technical manuals specifically geared toward diesel tractor emission control systems. This course may be taken two times for credit using different software.
The ARC Early Childhood Education Program

The course work in the ARC Early Childhood Education department is approved by the California Commission on Teacher Credentialing as meeting the requirements for the California Child Development Permits. Students who complete selected certificates in the ECE program are recommended by the American River College faculty to the Commission on Teacher Credentialing for direct issuance of Child Development Permits.

Early Childhood Education Degree

This program provides a foundation for in-depth early childhood teacher preparation both through strong general education and through introductory studies in child development and in early childhood curriculum and pedagogy. Topics include an introduction to the profession, observation techniques, age-appropriate curriculum, the child in the context of family and culture, and health and safety practices for early childhood educators.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Synthesize child development research with principles and practices for early childhood teaching to create early learning environments that are respectful, supportive, and challenging for all children, from infancy through adolescence.
- Appraise and implement inclusive, culturally and linguistically appropriate learning environments, based on child development, child observations, family information and knowledge of culturally diverse child rearing practices.
- Incorporate strategies for building respectful, reciprocal family and community relationships in order to support families with their children's development and learning.
- Utilize assessment strategies based on observation, documentation, and interpretation of children's learning; use results to guide curriculum and teaching strategies.
- Evaluate and implement developmentally appropriate and culturally relevant approaches to teaching and learning that include respectful, supportive relationships with children and families, and curriculum that supports foundational skills and concepts in language, math, science, art, and social relationships.
- Demonstrate practices in maintaining health and safety standards and preventing infectious disease in group-care settings.

Career Opportunities

Upon completion of the A.A. degree, a student possesses the course work required to work as a teacher in both private and public early care and education settings, serving infants through preschool-age children. Additionally, the individual can work as a teacher in before-and-after school programs, serving school-age children.

Certificates Leading to Child Development Permits

ARC also offers a sequence of certificates that guide students in working their way up the California Development Permit matrix. Students who complete the following certificates will, upon verification of required experience, be recommended to the Commission on Teacher Credentialing for issuance of Child Development Permits.

Assistant Teacher Certificate

This certificate provides entry-level coursework in preparation to be an assistant teacher in an early care and education program. Topics include an introduction to the field and child development theories and principles. Upon completion of this certificate, the student is eligible to apply for the Assistant Teacher Child Development Permit with the Commission on Teacher Credentialing.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Describe and apply principles of physical, intellectual, social, and emotional development that occur between birth and the end of adolescence.
- Support the teaching team in the planning and implementation of developmentally appropriate indoor and outdoor environments for young children.
- Compare and contrast common curriculum approaches and program types.
- Identify components of quality in early childhood education programs.
- Record objective and detailed observations of children's behavior.

Career Opportunities

With an Assistant Teacher Certificate, students are eligible to work in private and public early care and education programs as assistant teachers. These programs include infant/toddler centers, preschools, and before-and-after school programs serving school-age children. Additionally, assistant teachers can operate their own family child care home.

Requirements for Certificate 6 Units

ECE 300 Introduction to Principles and Practices in Early Childhood Education 3
ECE 312 Child Development 3
or PSYC 372 Child Development 3

Associate Teacher Certificate

This certificate provides the educational coursework that serves as the core curriculum for the early childhood education field. Topics include an introduction to the profession, observation techniques, age-appropriate curriculum, and the child in the context of the family and community. Additionally, there is a focus on practicing these concepts in a supervised field/lab environment. With documented work experience, the student is also eligible to apply to the Commission on Teacher Credentialing for the Associate Teacher Child Development Permit.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Confirm child development principles in creating environments that are healthy, respectful, supportive, and challenging for all children, from infancy through adolescence.
- Design early childhood programs that build respectful, reciprocal family relationships with the intention of involving families in their children’s development and learning.
- Utilize systematic child assessment strategies in order to guide decisions about curriculum and teaching strategies.
- Evaluate and implement curriculum and teaching plans, as evidenced through documentation, that support foundational skills and concepts in language, math, science, art, and social relationships.
- Demonstrate practices in maintaining health/safety standards and preventing infectious disease in group-care settings.
- Analyze principles of culturally relevant and anti-biased education in developing and analyzing early childhood curriculum and environments that respond to and respect diverse cultures and individual needs of children.

Requirements for Certificate 13 Units

ECE 300 Introduction to Principles and Practices in Early Childhood Education 3
ECE 312 Child Development 3
or PSYC 372 Child Development 3
ECE 314 The Child, the Family and the Community 3
ECE 320 Curriculum and Interactions in Early Childhood Education 4

Teacher Certificate

This certificate provides a foundation for in-depth early childhood teacher preparation both through general education and through introductory studies in child development and in early childhood curriculum and pedagogy. Additionally, it covers culture and diversity issues in early childhood and health and safety practices. Students must verify required teaching experience to be recommended to the Commission on Teacher Credentialing for issuance of the Teacher Child Development Permit.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Analyze the influence of family, community and culture on the child and identify local resource agencies that support families.
- Plan and implement developmentally appropriate indoor and outdoor environments that support children’s learning through play, exploration, and problem-solving.
- Build on systematic observations of children’s behavior to design, implement, and evaluate developmentally appropriate learning activities for young children.
- Distinguish and apply positive guidance and conflict-resolution strategies that teach children self-discipline and effective, respectful social skills within a diverse group of peers.
• develop a continuing professional growth plan and advocate for public policy that supports children, families and the profession of early childhood education.

**Career Opportunities**

Upon completion of this certificate and with appropriate documented experience, the student meets the requirement for employment as a teacher in publicly funded early care and education programs, serving infants through preschool-age children. The student also meets the requirements to work as a teacher in a privately funded early care and education program, as well as in a before-and-after school-age program.

At least one course from each of the following four areas listed in the ARC graduation requirements: (1) Math/Science: Natural Science or a course satisfying the Mathematics Competency requirement; (2) English: Language & Rationality; (3) Humanities; and (4) Social Sciences: Social & Behavioral Sciences.

### Master Teacher Certificate

This certificate meets the requirements for teaching in a publicly funded early care and education program. It requires an additional 6 units of specialized study beyond the teacher level certificate, allowing the student to select a particular focus of study (i.e., infant/toddler; culture and diversity; health and nutrition; children’s literature; and art or music for young children). Applicants must verify required experience teaching children and supervising staff to be recommended to the California Commission on Teacher Credentialing for issuance of the Master Teacher Child Development Permit.

### Student Learning Outcomes

Upon completion of this program, the student will be able to:

- appraise child development principles to lead a teaching team in the design and evaluation of environments that are respectful, supportive, and challenging for all children, from infancy through adolescence.
- design early childhood programs that build respectful, reciprocal family relationships with the intentions of involving families in their children's development and learning.
- choose and utilize systematic child, program, and staff assessment tools to lead a teaching team in developing curriculum and teaching strategies.
- demonstrate practices in maintaining health and safety standards and preventing infectious disease in group-care settings.
- evaluate and implement curriculum and teaching plans, as evidenced through documentation, that support foundational skills and concepts in language, math, science, art, and social relationships.
- apply principles and practices for teaching that pull from a selected concentration of early childhood studies.
- create a continuing professional growth plan and advocate for public policy that supports children, families and the profession of early childhood education.

### Career Opportunities

This certificate qualifies students to be a master teacher or a supervising teacher in early care and education programs. Upon completion of this certificate and with documented related experience, the individual is eligible to be a lead teacher and/or mentor teacher in both publicly and privately funded programs serving young children and their families.

**Site Supervisor Certificate**

Administration of early care and education programs is the main focus of this certificate. Topics include administration, supervision and coordination of staff in early childhood settings. Additionally, it provides the educational coursework that serves as the core curriculum for the early childhood education field. Along with documented experience, this certificate leads to the Site Supervisor Permit issued by the California Commission on Teacher Credentialing and is required of those individuals supervising a publicly funded early childhood education site.

**Student Learning Outcomes**

Upon completion of this program, the student will be able to:

- formulate an educational philosophy to guide the operation of an early childhood program.
- support culturally respectful interactions among children, parents, teachers and the community.
- evaluate curriculum for sound pedagogy, content, and breadth, including planning for the learning environment, the daily routines, and the individual needs of children.
- manage program planning, budgeting, governing boards, enrollment, and personnel in accordance with the regulations of Title 5 (California Education Code of Regulations) and Title 22 (California Social Services Code of Regulations).
- create procedures for implementing standards of health, nutrition, and safety in group care early childhood education settings.
- plan professional and personal growth and advocacy activities to support children, families and teachers.

**Career Opportunities**

Upon completion of this certificate, the student exceeds the minimum requirements to work as a director/site supervisor in a privately funded early care and education program. With documented experience supervising staff, the student also meets the requirements to work as a director/site supervisor in a publicly funded early care and education program.

**Requirements for Certificate**  
60 Units

| ECE 300 | Introduction to Principles and Practices in Early Childhood Education | 3 |

| And a minimum of 23 units from the following: 23 |
| A minimum of 16 units that fulfill the ARC General Education units must be completed in all four of the following areas: Language/Rationality; Humanities; Behavioral Social Science; and Math OR Science. The additional 7 units may also be courses that fulfill the General Education requirement OR any other ECE units. |

The Early Childhood Education Department is also authorized to recommend students to the Commission on Teacher Credentialing for the Child Development Assistant Permit and for the Program Director Permit. Students who wish to be recommended for the Child Development Assistant Permit must have completed ECE 312/PSYCH 372, and ECE 300 for a total of six units. Students who wish to be recommended for the Child Development Program Director Permit must verify completion of a BA degree, possess the Child Development Teacher Certificate, and complete ECE 420, 422 and 424. This permit is required for those supervising multiple publicly-funded early childhood education sites.

**Specialist Certificates**

The following certificates are designed for students who seek courses which will prepare them to work with a specific age group or program type. The following certificates meet the minimum requirements for teaching in or administering privately-funded early care and education.
Culture & Diversity Specialist Certificate
This certificate provides the educational coursework that serves as the core curriculum for the early childhood education field. Topics include an introduction to the profession, observation techniques, age-appropriate curriculum and a supervised field/lab experience. Additionally, it offers a specialization in culture and diversity issues dealing with young children and their families.

Student Learning Outcomes
Upon completion of this program, the student will be able to:

- Analyze the influence of family, community and culture on the child's development and identify ways to respond to the diversity of cultures represented in an early childhood classroom setting.
- Plan and implement developmentally appropriate and culturally relevant classroom environment that support children's learning through play, exploration and problem-solving.
- Build on systematic observations of children's behavior and the classroom environment to design, implement, and evaluate developmentally appropriate and culturally relevant learning activities for young children.
- Distinguish and apply positive guidance and conflict-resolution strategies that teach children self-discipline and effective, respectful social skills within a diverse group of peers.
- Analyze how one's own cultural background, societal beliefs, and values impact their work with young children and families.
- Advocate for and promote culturally relevant and anti-biased education in the early care and education community.
- Demonstrate practices in maintaining health/safety standards and managing infectious disease in group-care settings.

Career Opportunities
Upon completion of this specialization certificate, the individual is eligible to be a teacher in a privately funded (Title 5) program serving young children and their families.

Family Child Care Certificate
This certificate provides a foundation in early childhood education and includes courses specific to family child care providers. Additional topics include child development theories and principles, the child in the context of the family, and general health and safety practices.

Student Learning Outcomes
Upon completion of this program, the student will be able to:

- Describe and implement developmentally appropriate activities for infant through school-age children.

- Demonstrate respectful and reciprocal interactions with children and their families.
- Construct home-style, appropriate environments for group care of young children.
- Evaluate components of a quality family child care program and apply California licensing regulations.
- Demonstrate practices in maintaining health/safety standards and preventing infectious disease in family child care settings.
- Create a parent contract for family child care.
- Assess needs of families and refer them to community resources.

Career Opportunities
Upon completion of this certificate, the student is prepared to offer quality in-home child care to families in the community.

Infant Specialist Certificate
This certificate provides the educational coursework that serves as the core curriculum for the early childhood education field. Topics include an introduction to the profession, observation techniques, age-appropriate curriculum, and a supervised field/lab experience. Additionally, it focuses on infant development and the care of education of infants/toddlers in group settings.

Student Learning Outcomes
Upon completion of this program, the student will be able to:

- Evaluate and apply knowledge of infant development to create infant and family programs that are respectful, supportive, and challenging for children from the prenatal period through the first three years after birth.
- Design infant and toddler programs that build respectful, reciprocal family relationships and support optimal infant and toddler development and learning both at home and in group care settings.
- Incorporate systematic assessment strategies using observation, documentation, and interpretation in order to guide decisions about support for infant and toddler development and curriculum.
- Design, implement, and evaluate developmentally effective curriculum and teaching plans that connect knowledge of academic content to meaningful and challenging learning environments for infants and toddlers.
- Demonstrate practices in maintaining health/safety standards and managing infectious disease in group-care settings.
- Develop a continuing professional growth plan and advocate for public policy that supports infants, toddlers, their families and the profession of early childhood education.

Career Opportunities
Upon completion of this certificate, the student exceeds the minimum requirements to be a teacher of infants and toddlers in privately funded early childhood education programs (as required by Title 22 of the California Social Services Code of

Management Specialist Certificate

This certificate provides the educational coursework that serves as the core curriculum for the early childhood education field. Topics include an introduction to the profession, observation techniques, age-appropriate curriculum, and a supervised field/lab experience. Additionally, it covers administration and management issues relating to the operation of center-based early care and education programs.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Apply child development principles to development of a philosophy statement to guide the design and operation of a child development program.
- Appraise and implement quality care for young children in group settings, including curriculum and environments for children birth through adolescence.
- Manage respectful and reciprocal interactions between children, families and teachers.
- Utilize knowledge of developmentally appropriate curriculum, environments, observation and guidance to assess one’s own strengths and weaknesses in working with young children.
- Critique and implement practices in maintaining health/safety standards and preventing infectious disease in group care settings.
- Support and implement licensing requirements for privately and publicly funded child development programs.
- Demonstrate leadership in staffing, budgets, enrollment, professional development and program implementation for privately and publicly funded programs.

Career Opportunities

Upon completion of the certificate and with additional documented experience, the student exceeds the minimum requirements for employment as a director/manager of a privately funded early care and education program. The minimum requirements are outlined in Title 22 (Department of Social Services) regulations for child care licensing.

School Age Specialist Certificate

This certificate provides the educational coursework that serves as the core curriculum for the early childhood education field. Topics include an introduction to the profession, observation techniques, age-appropriate curriculum, and a supervised field/lab experience. Additionally, it covers specific school-age program requirements and activities.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Distinguish developmental levels and appropriate activities for children in grades K-8 using systematic observation.
- Create an appropriate and flexible environment for a variety of before- and after-school programs and full-day programs.
- Analyze and apply positive guidance strategies that teach school-age children self-discipline and effective and positive interactions among a diverse group of peers.
- Demonstrate respectful and positive interactions among a diverse population of children, families, staff and the community.
- Implement practices in maintaining health and safety standards and preventing infectious disease in group settings with children ages five through fourteen.

Career Opportunities

Upon completion of this certificate and with appropriate documented experience, the student exceeds the minimum requirements for employment as a teacher in privately funded before-and-after school child care programs. These requirements are outlined in Title 22 (Department of Social Services) regulations for child care licensing.

This course is a study of the growth and development of children from the prenatal stage through adolescence. For each stage of development, the physical, cognitive, linguistic, social-moral, and emotional aspects of development, with attention to both typical as well as atypical development in each area, are discussed. Included are the influences of culture, family, and the environment. This material is designed as a foundation for early care and education, teaching, and parenting. This course is not open to students who have completed PSYC 372.

This course covers the child’s development within the family and within the community. The focus is on the impact of parenting style, marriage and transitions within the family, culture, school, and the media on the child’s development. This course offers the opportunity to research and review the diverse community resources available to support the child and the family.
ECE 316  Mass Media and Young Children  1 Unit
Course Transferable to CSU
Hours: 18 hours LEC
This course covers the role of mass media in socializing young children. Emphasis is on the influence of television, movies, commercial advertising, books, and popular music, with discussion of strategies for minimizing the negative influences of mass media on children.

ECE 320  Curriculum and Interactions in Early Childhood Education  4 Units
Prerequisite: ECE 300 and either ECE 312 or PSYCH 372 with a grade of "C" or better.
Enrollment Limitation: Current Tuberculosis clearance.
Course Transferable to CSU
Hours: 36 hours LEC, 108 hours LAB
This course provides supervised experience working with children in an early childhood setting. Topics include principles of curriculum development, classroom design, and child guidance, with opportunity to apply these key teaching principles in practical situations.

ECE 321  Advanced Practicum in Early Childhood Education  4 Units
Prerequisite: ECE 320 with a grade of "C" or better
Enrollment Limitation: Current Tuberculosis clearance.
Course Transferable to CSU
Hours: 36 hours LEC, 108 hours LAB
This advanced course provides supervised experience as a teacher in an early childhood education program. It is aimed at leadership in the areas of developing environments for learning, child observation and assessment, documentation of children's work, behavior guidance, group management, collaborative teaching, building relationships with families, and effective preparation and implementation of curriculum.

ECE 325  Guidance and Discipline for Young Children  3 Units
Course Transferable to CSU
Hours: 54 hours LEC
This course focuses on early childhood guidance and discipline through examination of theories, research and practical application for teachers in early childhood classrooms and parents at home. Developmental stages of children's behavior, positive discipline techniques and teaching social emotional skills are included.

ECE 326  Making Learning Visible Through Observation and Documentation  3 Units
Advisory: ENGRD 116 and ENGRWR 102
Course Transferable to CSU
Hours: 54 hours LEC
This course applies critical and reflective thinking to observation and assessment of young children's development. It prepares teachers of young children to use observation, documentation, and interpretation strategies to improve program quality in early childhood settings. Multiple forms of child assessment and early childhood program assessment are explored.

ECE 330  Infant Development  3 Units
General Education: AA/AS Area III(b)
Course Transferable to CSU
Hours: 54 hours LEC
This course is an examination of infant development, from conception to 36 months of age. It provides a review of research findings related to infancy and implications for infant care.

ECE 331  Education and Care of Infants in Group Settings  3 Units
Course Transferable to CSU
Hours: 54 hours LEC
This course applies current research in infant development to the teaching and care of infants in group settings. Emphasis is on early childhood education principles and practices when applied to the care and education of infants from birth to 36 months of age. It includes strategies for designing, implementing, and evaluating group care programs for infants.

ECE 334  Laboratory with Infants and Toddlers  1 Unit
Corequisite: ECE 330 or 331
Enrollment Limitation: Current Tuberculosis Clearance.
Course Transferable to CSU
Hours: 54 hours LAB
This class provides experience working with infants and toddlers in a group care program. It is designed as a laboratory for those who have completed or are enrolled in ECE 330 or 331. The course requires participation for a designated three hours per week with infants and/or toddlers in a supervised infant/toddler setting. This course may be taken three times for credit, each time in a setting with a different age group or program type.

ECE 342  Constructive Math and Science in Early Childhood Education  3 Units
Advisory: ENGRD 116 and ENGRWR 102
Course Transferable to CSU
Hours: 54 hours LEC
The course is an introduction to the constructivist approach to teaching pre-math and science in early childhood education. The content and teaching techniques support the perspective that children construct knowledge through a dynamic, interactive process that facilitates their development of working theories related to math and science. Topics include an overview of the role of the teacher in developing appropriate experiences for children and a review of current standards and guidelines.

ECE 343  Language and Literacy Development in Early Childhood  3 Units
Advisory: ENGRD 116 and ENGRWR 102
Course Transferable to CSU
Hours: 54 hours LEC
This course prepares early childhood educators and others working with young children to recognize, understand, and enhance the emergent language and literacy experiences and skills of young children. The knowledge of developmentally appropriate language and literacy practices improves early childhood educators' ability to support young children in the early years (birth to five years) to build a strong foundation for learning to read and write in the primary grades. Topics include an overview of the teachers' role in developing appropriate language and literacy experiences for young children, including ways to support the child learning English as a second language.

ECE 350  Introduction to Elementary Teaching with Field Experience  3 Units
Some As: ENGRD 324
Advisory: ECE 312 or PSYCH 372
General Education: AA/AS Area III(b)
Course Transferable to CSU
Hours: 36 hours LEC, 54 hours LAB
This course is a career exploration course with an early field experience for K-8 teaching. It includes a supervised field placement of four hours weekly in a local elementary school in addition to weekly class meetings on campus. It will fulfill one of the early field experi-
ences for the CSUS blended liberal studies major. Course content includes the profession and culture of teaching, observation skills, communication skills, diversity, and social issues. Field experience will integrate and apply the course content. Not open to students who have completed ENGED 324.

ECE 356  Programs for the School-Age Child  3 Units
Course Transferable to CSU
Hours: 54 hour LEC
This course covers the fundamentals of planning, implementing and evaluating programs for before- and after- school care of school-age children (K-8). Emphasis is on developmental levels, age-appropriate activities and day-to-day program operations.

ECE 358  Activities for the School-Age Child (Six to Fourteen Years)  3 Units
Course Transferable to CSU
Hours: 54 hour LEC
This course focuses on design, implementation and evaluation of developmentally appropriate activities for the school age child (K-8). Curriculum areas include games, construction, art, music and movement, science and nature, and drama. It explores other topics including cooperative program planning, environments, guidance techniques and the importance of positive interpersonal relationships between the adults and the children in the program.

ECE 361  Introducing Young Children to Visual Arts  3 Units
General Education: AA/AS Area I
Course Transferable to CSU
Hours: 54 hour LEC
This course prepares teachers in early childhood education with strategies for introducing young children to the media and tools of drawing, painting, sculpting, and other visual arts commonly used by young children to represent and understand the world around them. The focus is on observing children's natural ways of exploring each medium and learning strategies to facilitate and document children's emerging skills and relationship with each medium. Included are strategies for designing early childhood environments that promote children's exploration of visual arts.

ECE 363  Music and Movement with Young Children  3 Units
General Education: AA/AS Area I
Course Transferable to CSU
Hours: 54 hour LEC
This course focuses on the use of music and movement with children from infancy to age eight in group settings. Theoretical perspectives are reviewed and blended with practical applications that the teacher of young children can use to form a classroom community of learners, manage classroom behavior, and facilitate transitions. Topics include developing music and movement experience plans and creating musical instruments from inexpensive, readily available materials. It also explores music and movement as ways to involve children with cultural diversity and traditions.

ECE 404  Children with Special Needs  3 Units
Prerequisite: ECE 312 or PSYC 372 with a grade of “C” or better
Course Transferable to CSU
Hours: 54 hour LEC
This course provides a broad overview of the characteristics, assessment techniques, methods of intervention, community and family resources, and current issues of young children (from birth to age eight) with special needs. The focus is to increase the awareness and understanding of children's individual needs in an early childhood setting and to provide practical information to those currently involved with children with special needs. Observations in public or private children's centers, schools, and agencies may be required.

ECE 405  Practicum in Inclusive Settings  3 Units
Prerequisite: ECE 404 with a grade of “C” or better
Enrollment Limitation: Current tuberculosis and fingerprint clearance.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course provides supervised experience working with children with special needs in an inclusive school setting. Topics include integration strategies, classroom environments, and individualized instructional strategies for children. Emphasis is placed on providing skills in individualizing programs for communication, modifications, adaptations and behavior.

ECE 410  CPR and Pediatric First Aid  1.5 Units
Same As: HEED 311
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 27 hours LEC
This course covers emergency life saving and first aid techniques involving infants and children. Respiratory distress, non-breathing, unconsciousness, choking, and other pediatric emergencies are addressed. CPR for adults is another major component of the course. The California Child Care first aid certificate examination, the Adult CPR, and the Infant and Child CPR examination are included.

ECE 414/ HEED 311 may be taken four times.

ECE 415  Children's Health, Safety and Nutrition  3 Units
Same As: NUTRI 320
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course examines basic nutrition, health, and safety needs of children from the prenatal period through school age. Topics include identification of nutrients in foods as they affect a child's physical and mental development and standards for the maintenance of optimal health, safety, and nutrition status of children at home and in group care. Projects relating to children's nutrition, health, and safety are required as part of the course. This course is not open to students who have taken NUTRI 320.

ECE 420  Administration of Child Development Centers  3 Units
Prerequisite: ECE 300 with a grade of “C” or better; or, one year of teaching experience documented with verification of experience form.
Course Transferable to CSU
Hours: 54 hours LEC
This is an introductory course in the elements of program planning, budgeting, supervision and personnel administration. This course satisfies the administration requirement of the California Title 22 Health and Safety Code, and satisfies three of the six units of the administration requirement of the Title 5 Education Code and the California Commission for Teacher Credentialing.
ECE 422 Advanced Coordination and Supervision of Child Development Programs 3 Units
Prerequisite: ECE 420 with a grade of “C” or better.
Course Transferable to CSU
Hours: 54 hours LEC
This is an advanced course in administration and coordination of multi-faceted child development programs. The emphasis of the course is on publicly-funded programs and personnel management. It meets the requirements of the Education Code under Title 5 and the Commission for Teacher Credentialing.

ECE 424 Adult Supervision: Mentoring in a Collaborative Learning Setting 2 Units
Course Transferable to CSU
Hours: 36 hours LEC
This course covers principles and strategies for teachers who supervise the work of other teachers in early childhood education. Emphasis is on the role of the mentor teacher working collaboratively to guide a teaching team within a classroom setting. This course satisfies the adult supervision requirement for the Master Teacher Permit issued by the California Commission on Teacher Credentialing.

ECE 430 Culture and Diversity in Early Childhood Education 3 Units
General Education: AA/AS Area V(b); AA/AS Area VI
Course Transferable to CSU
Hours: 54 hours LEC
This course examines the development of social identities in diverse societies, including theoretical and practical implications of oppression and privilege as they apply to young children, families, early childhood programs, and teaching practices. Various classroom strategies are explored emphasizing culturally and linguistically appropriate anti-bias approaches supporting all children in becoming competent members of a diverse society. It also includes self-examination and reflection on issues related to social identity, stereotypes and bias, social and educational access, media, and schooling.

ECE 432 Leadership in Diversity 3 Units
Prerequisite: ECE 430 with a grade of “C” or better
Course Transferable to CSU
Hours: 54 hours LEC
This course expands upon ideas developed in ECE 430. Specific cultural differences are researched and similarities and differences are addressed. Additionally, it critically discusses the role of individual perspective and suggests ways for teachers to respond to diverse viewpoints of families and staff in an anti-bias classroom.

ECE 455 Environment Rating Scales in Early Childhood Programs 1 Unit
Course Transferable to CSU
Hours: 18 hours LEC
This course examines Environment Rating Scales (Infant/Toddler, Early Childhood, School Age Programs and Family Child Care) as a tool for quality improvement in a variety of child development programs. Emphasis is given to theory and best practices in order to evaluate classrooms, materials, and interactions between adults and children.
Economics is the study of how individuals and societies choose to use limited resources for production of goods and services and how they distribute them for current and future consumption. Economics is divided into two major areas: macroeconomics and microeconomics. Macroeconomics studies decision-making at the national level. Macroeconomics topics include gross domestic product, unemployment, inflation, and money and banking. Microeconomics studies decision-making at the individual household, business firm, and industry levels. Microeconomics topics include theories of the firm and consumer behaviors.

Courses offered by the Economics Department are designed to satisfy general education requirements at American River College, and they are transferable to the CSU system, the UC system, and other fine institutions of higher learning in the United States. Furthermore, these economics courses will provide students with essential tools to analyze contemporary national and international economic issues.

**ECON 302 Principles of Macroeconomics 3 Units**
Advisory: MATH 100 with a grade of “C” or better; ENGW 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area V(b); CSU Area D2; IGETC Area 4B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course, an introduction to macroeconomics, is concerned with the economic well-being of the national economy. Topics covered include supply, demand, aggregate supply, aggregate demand, equilibrium, money, banking, taxation, inflation, employment, and economic growth.

**ECON 304 Principles of Microeconomics 3 Units**
Advisory: ENGW 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; Math 100 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area V(b); CSU Area D2; IGETC Area 4B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is concerned with individuals and business firms and how they interact in the marketplace to determine prices, output, employment, and efficient utilization of economic resources. Topics include marginal utility, costs of production and natural resource economics. Additionally, it covers resource allocation under conditions of competition, monopoly, oligopoly, and monopolistic competition.

**ECON 320 Concepts in Personal Finance 3 Units**
Same As: BUS 320
Advisory: ENGRD 116, ENGW 102, ENGW 103, ESLR 320, and ESLW 320; ENGW 102 or 103, and ENGRD 116; OR ESLR 320 and ESLW 320; OR placement through assessment process.
General Education: AA/AS Area V(b); AA/AS Area III(b); CSU Area D2
Course Transferable to CSU
Hours: 54 hours LEC
This course is designed to assist individuals to analyze their financial affairs for lifelong decision making. Elements and conceptual basis of financial planning and the analysis and decision making in areas of budgeting, taxes, borrowing, money management, insurance, investments, and retirement will be examined. Not open to students who have completed BUS 320.
Electronic equipment is present everywhere in our lives. From computerized traffic signals to personal computers and cellular telephones, modern electronic systems make our everyday lives easier, safer, and more efficient. Electronic technicians design, develop, build, install, repair and maintain many different types of sophisticated electronic devices.

The American River College Electronics program combines broad based Electronic and Telecommunications training with the newest specialty areas (such as Robotics, Fiber Optics, Programmable Interface Controllers and Stamp Microcontrollers). By working closely with our industry partners we ensure our curriculum is relevant and meets industry current and future needs. This relevant and up-to-date education prepares graduates for excellent career opportunities in the Electronics, Robotics or Telecommunications fields.

American River College is an official NARTE (National Association of Radio and Television Engineers) Federal Communication Commission (FCC) test site and offers an FCC license preparation course.

Electronic Systems Technology Degree and Certificate

The Electronics Systems Technology Degree or Certificate combines broad-based electronic and telecommunications training with specialty areas such as robotics, fiber optics, programmable interface controllers (PICs), and stamp microcontrollers.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Design and build several of the most common circuits used in electronic communication systems.
- Develop skills in building, testing, analyzing, and troubleshooting electronic communication systems.
- Apply theory and mathematics for evaluating the design, operation, and troubleshooting of integrated amplifier circuits such as comparators and operational amplifiers.
- Interpret data from a variety of test and measurement equipment used in analysis of electronic control systems.
- Identify and diagram schematic symbols used in electric and electrical industrial applications.
- Diagram and evaluate the components of Global Positioning Systems (GPS), satellite receivers and transmitters, AM and FM transmitters and receivers, and fiber optic communication links.

- Compare the differences between a mechanical splice and a fusion splice when working with fiber optic cables.
- Employ common hand tools in the mechanical installation of a sophisticated communication system.
- Analyze aviation, marine and commercial communication systems that are covered in the FCC General Class Radiotelephone license examination.
- Apply FCC rules and regulations governing commercial, aviation, and marine communication systems to practical communication systems.

Career Opportunities

This degree or certificate provides students with the knowledge to successfully enter a variety of electronics and telecommunications careers. Working closely with our industry partners and contacts ensures our curriculum is relevant and meets the current and future needs of the Electronics and Telecommunications Industry. American River College is an official test site of the National Association of Radio and Telecommunication Engineers (NARTE) for the Federal Communication Commission (FCC) General Radio Telephone License. Included in the electronics program is an FCC license preparation course. Obtaining the degree or certificate improves the opportunities for quality employment and career advancement.

Associate Degree Requirements: The Electronics Systems Technology Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.
Mechtronics Degree and Certificate

This degree or certificate provides training in a multi-disciplinary field of which the primary focus is industrial automation. Topics such as electricity, electronics, industrial motor controls, programmable logic controllers, robotics, AC/DC drives, mechanical design, and manufacturing technologies are covered.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• integrate the principles of mechatronics to the design of mechatronic systems.
• evaluate mechanical and electrical solutions to solve technological problems.
• analyze data to create trouble shooting processes.
• apply mechatronic principles to the field of robotics and machine automation.

Career Opportunities

This degree or certificate prepares the student for the following career opportunities: Industrial mechanical/electrical systems technician, food processing machine service technician, facilities systems technician, waste water systems technician, manufacturing coordinator, field service technician, mechanical electrical machine systems installer. Obtaining the degree or the certificate improves the opportunities for quality employment and career advancement.

Associate Degree Requirements: The Mechtronics Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Basic Electronics and Telecommunications Certificate

The Basic Electronics and Telecommunications certificate provides training in basic electronics theory and applications, telecommunication Copper and fiber optic systems, and surface mount soldering devices (SMD). It also includes schematic symbol interpretation, and basic electronic troubleshooting. The courses required for this certificate can be completed in one semester, making it an ideal stepping stone to the Advanced Electronics and Telecommunications certificate.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Evaluate potential problems associated with electrostatic discharge (ESD).
• Compare and evaluate solder connections in accordance with industry standards.
• Analyze the differences between surface mount techniques and through-hole techniques.
• Inspect SMDs using a high-magnification observation station.
• Identify and diagram schematic symbols used in electronic and electrical industrial applications.
• Analyze and troubleshoot basic electronic circuits.
• Compare and contrast series and parallel resistive, capacitive, and inductive devices.
• Analyze and describe the components in a complete telecommunication system.
• Construct connectors and plugs used in telecommunication systems.
• Analyze test equipment data to determine the location of a communication system.
• Evaluate communication system components and select the best for a given application.
• Assess safety hazards when working with telecommunication systems.

Career Opportunities

The Basic Electronics and Telecommunications certificate is designed for anyone wanting to enter the electronics or telecommunications industry. This certificate satisfies the requirements of a variety of entry-level positions, such as, printed circuit board (PCB) assembler, telecommunication field technician, or rework technician.

Advanced Electronics and Telecommunications Certificate

This Advanced Electronics and Telecommunications certificate provides training in electronic system component identification and characteristics; computer component identification, repair, and upgrading; semiconductor theory and application; power supply design and operation; telecommunications copper and fiber optic systems; and advanced troubleshooting. This certificate is designed to be completed in two semesters.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Identify and describe the terminology used for working with personal computers.
• Demonstrate safe procedures for working with the internal components of a personal computer.
• Demonstrate and apply electro-static device (ESD) safety procedures for working with computer components.
• Demonstrate the removal and replacement of computer memory modules.
• Apply mathematics and semiconductor theory to identify, evaluate, and correct power supply and filter circuit problems.
• Analyze and apply mathematics, including logarithms and decibels to determine, analyze, and control outputs when problem solving transistor and field effect transistor (FET) circuits.
• Interpret data using various types of test and measurement equipment used in the analysis of power supply and amplifier circuits.
• Analyze and describe the components in a complete telecommunication system.
• Construct connectors and plugs used in telecommunication systems.
• Analyze test equipment data to determine the location of a communication system.
• Evaluate communication system components and select the best for a given application.
• Assess safety hazards when working with telecommunication systems.
• Research and interpret basic electronic components using manufacturers’ data manuals, library resources, and the Internet.
• Calculate electronic component values to design.

Career Opportunities

The Advanced Electronics and Telecommunications certificate enables those students who have completed this certificate or are currently working in industry to quickly progress up the career ladder. More skills in the critical areas along with added electronics and telecommunications theory and laboratory practice make this an ideal certificate for those wishing to upgrade and update their electronics skills.

Requirements for Certificate 17 Units

1st Semester

ET 115 Fiber Optics and Telecommunications Cabling .......... 4
ET 302 Principles of Electricity and Electronics .................. 4
ET 307 High Tech Soldering and Fabrication Techniques ...... 2

Other Semesters

ET 143 Computer Upgrade, Repair, and Assembly ........ 2
ET 322 Semiconductor Devices and Applications ............ 5

CMOS Mask Design Certificate

The CMOS Mask Design Certificate presents advanced semiconductor theory. Topics include semiconductor physical design rules and integrated circuit concepts. State of the art design software provides hands on experience.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Implement CMOS technology in the construction and layout of integrated circuits.
• Interpret logic diagrams and convert to transistor-level integrated circuit (IC) components.
• Apply design rules the layout of specialized circuits using standard cell design rules.
• Draw basic semiconductor cells using integrated circuit layout software tools.
• Modify specialized circuits using previously designed standard IC cells.
• Differentiate schematic symbols.
• Explain theory of operation of the seven basic logic gates.
• Create schematic diagrams and trace logic signals through a circuit.

Career Opportunities

By earning a CMOS Mask Design Certificate students are qualified for a wide variety of employment opportunities at an entry level position in the semiconductor industry. Experience using state of the art design software allows students hands-on experience using the same programs used by industry. Incorporating semiconductor theory along with semiconductor physical design rules and concepts make this an ideal certificate for those desiring employment in the semiconductor manufacturing industry.

Requirements for Certificate 11 Units

ET 205 CMOS Mask Design I ...................................... 3
ET 206 CMOS Mask Design II .................................... 3
ET 339 Integrated Circuits with Computer Applications ...... 5

Digital Repair and Upgrade Technician Certificate

The Digital Repair and Upgrade Technician certificate combines basic electronics theory and application with computer repair and support skills. Topics including high-tech soldering along with component and system level electronics are focused on in the electrical area. Computer repair skills and support are covered in the computer area.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Apply the rules of electrical safety for working with personal computers and associated equipment.
• Identify and describe the terminology used for working with personal computers.
• Identify and properly name the components inside a personal computer.
• Upgrade and install new and updated software programs.
• Find and download updated system drivers from the Internet.
• Compare and evaluate solid connections in accordance with industry standards.
• Evaluate operational characteristics of electronic components and devices operating under normal and abnormal conditions.
• Recognize, measure, and evaluate resistance, capacitance and inductive devices.
• Analyze and troubleshoot basic electronic circuits.
• Research and interpret basic electronic components using manufacturers’ data manuals, library resources, and the Internet.

Career Opportunities
The Digital Repair and Upgrade Technician certificate prepares the student for a wide variety of jobs in the computer industry, such as, network communication cable installer, interface troubleshooter, and fiber optic installer.

Requirements for Certificate 12-15 Units
CISC 320 Operating Systems ...........................................1
CISC 361 Microcomputer Support Essentials - Preparation for A+ Certification .............................................3
CISC 363 Microcomputer Support Technical - Preparation for A+ Certification .............................................3
ET 143 Computer Upgrade, Repair, and Assembly ..............2
ET 298 Work Experience in Electronics Technology .......... 1 - 4
ET 307 High Tech Soldering and Fabrication Techniques .... 2

Fiber Optics Certificate
The Fiber Optics certificate is an introduction into fiber optics technology. Topics include fusion and mechanical splicing, fiber connectivity, optical time domain reflectometer (OTDR), and other specialized test equipment operations. System design, installation, troubleshooting, and repair are emphasized. Courses in communication theory and copper cabling are included in the certificate, producing a technician with a wide variety of skills.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
• Define the terminology used with single mode fiber optic cable.
• Apply correct safety procedures when working with high power fiber optic modules and test equipment.
• Calculate the attenuation in a complete fiber optic communication system.
• Inspect and identify fiber optic system problems.
• Evaluate communication system components for a given application.
• Compare fiber optic component specifications using manufacturers’ data manuals, reference books, and the Internet.
• Perform inspection and quality control of fusion and mechanical fiber optic splices.

Career Opportunities
The Fiber Optic certificate prepares the student to obtain entry level employment in a wide variety of positions in the telecommunication and fiber optic industry. It is also valuable for people working in the industry to upgrade their skill level to include the newest advancements in fiber technology.

Requirements for Certificate 17 Units
ET 115 Fiber Optics and Telecommunication Cabling ...........4
ET 302 Principles of Electricity and Electronics ..................4
ET 380 Introduction to Electronic Communications ............4
ET 386 Fiber Optic Splicing, Connectivity and Testing ........3
ET 387 Advanced Fiber Optics ........................................2

Robotics Certificate
The Robotics certificate provides an overview of electronics and robotic theory and application, programming, design, and modification. Electronics theory and application are stressed along with sensors and controllers, an important part of the next generation of robotics. Various robotic platforms are used to give a wide understanding of all types of current and future systems.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
• Identify and describe the terminology used when working with Parallax stamp micro-controllers.
• Program and troubleshoot the Parallax stamp micro-controller using P-Basic language.
• Evaluate operational characteristics of electronics components and devices operating under normal and abnormal conditions.
• Synthesize and analyze electronic circuitry using computer electronic simulation software.
• Compare and evaluate solder connections in accordance with industry standards.
• Calculate speed and acceleration of robotic motion.
• Compare DC motor and servo motor characteristics.
• Analyze a fluid power schematic diagram and design a simple hydraulic circuit.

Requirements for Certificate 15 Units
ET 192 Introduction to Robotics ......................................2
ET 194 Intermediate Robotics ........................................2
ET 195 Electrical and Mechanical Power and Control Systems ... 3
ET 196 Sensors, Measurement, and Control ......................2
ET 302 Principles of Electricity and Electronics .................4
ET 307 High Tech Soldering and Fabrication Techniques .... 2

Telecommunication Specialist Certificate
The Telecommunication Specialist certificate provides both theory and hands-on application using fiber optics, coaxial cable, and CAT 6 data cable. All aspects of communication systems are covered including antennas, transmitters and receivers, transmission lines, and signal propagation. System design and troubleshooting are also included.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
• Evaluate potential problems associated with electrostatic discharge (ESD).
• Analyze and troubleshoot basic electronic circuits.
• Compare and contrast series and parallel resistive, capacitive, and inductive devices.
• Analyze the differences between surface mount techniques and through-hole techniques.
• Analyze and describe the components of a complete telecommunication system.
• Design an office building telecommunication system using fiber optics and copper cable.
• Examine and evaluate the decibel losses and gains in a complete fiber optic communication system.
• Assess safety hazards when working with fiber optic systems and associated test equipment.
• Perform repairs and adjustments to electronic communication systems according to factory specifications.
• Install epoxy, hotmelt, anaerobic, and mechanical connectors on multimode fiber optic cable.
• Prepare cost estimates for fiber optic and copper network installation using computer software.
• Identify and diagram schematic symbols used in industrial electronic and electrical applications.
• Analyze aviation, marine and commercial communication systems that are covered in the FCC General Class Radiotelephone license examination.
• Apply FCC rules and regulations governing commercial, aviation, and marine communication systems to practical communication systems.

Career Opportunities

The Telecommunication Specialist certificate provides training for design, installation, and maintenance of any type of wired or wireless communication systems, such as, remote monitoring, radio frequency (RF) control, radio and television transmitters, public safety and government communication equipment, and fiber optic systems.

Requirements for Certificate 22 Units

1st Semester
ET 115 Fiber Optics and Telecommunication Cabling ................................. 4
ET 302 Principles of Electricity and Electronics (4) ............................... 4
ET 307 High Tech Soldering and Fabrication Techniques ........................ 2

Other Semesters
ET 112 Communications Units ........................................................... 3
ET 380 Introduction to Electronic Communications ................................. 4
ET 386 Fiber optic Splicing, Connectivity and Testing ............................. 3
ET 387 Advanced Fiber Optics ............................................................... 2

ET 20 Mobile and Cellular Radio Systems 2 Units
Prerequisite: ET 102.
Hours: 36 hours LEC.
Nature of mobile radio signal and its properties. Statistical communication theory introduced and applied in four areas of mobile communications: propagation, received signal characteristics, functional design and system performance. Historic, legal and regulatory aspects of cellular radio industry. Covers specific services and features of cellular radio. Covers specific services and features of the technology, control architectures and switching systems, and siting and economic considerations.

ET 100 Introduction to Telecommunications Systems 3 Units
Hours: 54 hours LEC.
This course is an overview of the Telecommunication Industry focusing on both voice and data communication. Terminology, concepts and telecommunication practices are covered along with new and emerging changes in switching systems caused by the next generation of Internet. Additionally, this course focuses on systems that transfer data from one location to another. Field trips are required.

ET 101 Introduction to Amateur Radio .5 Units
Hours: 9 hours LEC.
This course introduces the fundamentals of amateur radio for public and emergency communication. It covers the equipment, procedures, and uses for amateur (Ham) radio.

ET 102 Advanced Telecommunication Systems 3 Units
Prerequisite: ET 100 with a grade of “C” or better, or Telecommunications Industry Experience.
Hours: 54 hours LEC.
This course expands on the concepts mastered in the Introduction to Telecommunication Systems course. Voice/data switching and transmission theory including system operation and design are covered in detail. Emphasis is placed on fiber optics and the newest methods of high speed data transfer. Also included are advanced high speed switching/routing systems along with their associated hardware/software. Dense Wave Division Multiplexing (DWDM) is also covered. Field Trips are required.

ET 103 Ham Radio Technician License Preparation 2 Units
Hours: 36 hours LEC.
This course covers the fundamentals of amateur radio required to pass the national Association for Amateur Radio Relay League (ARRL) amateur radio operators technician license. Topics include wave theory, operator rules, proper radio operation, electronics review, and regulations.

ET 110 Communications Systems 5 Units
Prerequisite: ET 330 or 335; and ET 380 with a grade of “C” or better.
Hours: 54 hours LEC; 108 hours LAB.
This course is a comprehensive study of high frequency communication concepts including antennas, transmission lines, transmitters and receivers. Commercial telecommunication equipment and schematics are used to simulate equipment that is utilized in industry. System design, component and equipment analysis and troubleshooting are stressed. Extensive use of laboratory experiments enhances theory. A field trip is required.

ET 112 Federal Communication Commission License Preparation 3 Units
Advisory: ET 380 or Communication industry experience.
Hours: 54 hours LEC.
This course is preparation for the Federal Communication Commission (FCC) General Radiotelephone license examination. The course covers both the electronics theory required and the rules and regulations mandated by the FCC. Field trips are required. This course may be taken four times for credit.

ET 114 Basic Electricity and Electronics for Installation Specialists 5 Units
Advisory: ENGWR 102 or 103, and ENGRD 116; or ESLR 320 and ESLW 320; or placement through assessment process.
Hours: 54 hours LEC; 108 hours LAB.
This course is an introduction to the concepts of Direct and Alternating Current Theory. It includes a detailed study of commonly used circuit components, mathematical concepts necessary for calculating circuit values, relationships of components in series, parallel and combination DC and AC circuit configurations and reading electrical diagrams and schematics. Emphasis is on applying electronic concepts to practical situations.

ET 115 Fiber Optics and Telecommunication Cabling 4 Units
Advisory: ET 307.
Hours: 54 hours LEC; 54 hours LAB.
This course is an introduction to the concepts of telecommunication cable installation and connection practices and standards. It includes the study of commonly used fiber and copper cable types and connectors, installation tools, and test equipment. Emphasis is on installation techniques in practical situations. Laboratory activities provide practical experience in the operation and use of tools and test equipment specific to the telecommunication industry. Field trips are required.
ET 130  Introduction to High Definition Digital Television  3 Units
Hours: 54 hours LEC
This course covers the theory and operation of High Definition Digital Television. It covers the concepts and circuitry involved in this medium. Analogies between analog and digital systems are featured enabling an understanding of current technology. Field trips are required.

ET 143  Computer Upgrade, Repair, and Assembly  2 Units
Hours: 18 hours LEC, 54 hours LAB
This course covers basic personal computer upgrading, repair, and assembly. Safety, terminology, component identification, file management, upgrades, and virus protection are among the topics that are covered. This class may be taken twice for credit.

ET 154  Wireless Communication Systems  1.5 Units
Hours: 18 hours LEC, 27 hours LAB
This is an introduction to wireless communication designed for electronic technicians. The course includes wireless communication terminology and instruction in the proper use of hardware and test equipment used in installation, maintenance and operation. Topics include the study of individual system component theory and operation as well as the entire wireless communication system.

ET 162  Home Electronics and Power  1 Unit
Hours: 18 hours LEC
This course is an overview of the power and electronics used in the modern home. It covers the power distributed through the home as well as the appliances and communication systems used. The topics of home security, power conservation, alternate energy sources, and home automation are also covered.

ET 190  Introduction to Programmable Logic Controllers (PLCs)  2 Units
Hours: 36 hours LEC
This course introduces the fundamentals of the operation and use of the Programmable Logic Controllers (PLC). The PLC uses programmable memory to store instructions and executes specific functions that include on/off control, timing, counting, and sequencing arithmetic used in machine control. Ladder logic is used in programming and troubleshooting the PLC. Field trips may be required.

ET 192  Introduction to Robotics  2 Units
Hours: 36 hours LEC
This course is an introduction to robotics utilizing the Parallax stamp microcontroller and Boe-Bot robotic vehicle. It explores how robots and microcontrollers interface with common electronic applications. It also investigates unusual and innovative applications for robots and microcontrollers. Field trips are required.

ET 194  Intermediate Robotics  2 Units
Hours: 36 hours LEC
This course covers advanced robotics utilizing the Parallax stamp microcontroller and Boe-Bot robotic vehicle. Topics include the operation and design of robots using the Robix robotic platform. This course includes how robotics and automation are utilized in industry. Hardware component selection, assembly, and software programming of various types of robotic assemblies are emphasized. The principles of electronics, physics, and engineering as they apply to robotic design are presented. Field trips are required.

ET 195  Electrical and Mechanical Power and Control Systems  3 Units
Hours: 54 hours LEC
This course is a study of electrical and mechanical power components and systems used in the control and transmission of mechanical and electrical power. Topics include the analysis of electric circuits and controls; programmable logic controllers (PLCs), electromagnetic devices and their use in systems; discrete semiconductor switching devices; hydraulic and pneumatic power devices; types and uses of electric motors and generators as well as power distribution systems. Troubleshooting and repair of hydraulic, pneumatic control equipment and electrical / electronic systems are studied through a number of industry-based projects.

ET 196  Sensors, Measurement, and Control  2 Units
Hours: 36 hours LEC
This course is a detailed study of the physical world and the sensors which measure its properties. Signals from these sensors are converted for display and used to control physical properties such as temperature or pressure. Lecture and demonstrations reinforce theory and provide experience in sensor identification and troubleshooting. PLC’s and STAMP micro controllers are used to simulate industrial situations.

ET 205  CMOS Mask Design I  3 Units
Prerequisite: ET 302 with a grade of "C" or better
Hours: 48 hours LEC; 18 hours LAB
This course introduces the foundations of the design and functionality of complementary, metal-oxide, semiconductor (CMOS) integrated-circuit (IC) computer chips. It reviews the history and evolution of computer chips, how they are manufactured, function, and applied. Additional topics include a detailed study on reading, interpreting, and creating logic diagrams, transistor level schematics, cross sectional views, and layouts associated with CMOS IC’s as well as the application of design rules, area estimation, pin and bus placements, and efficient circuit layouts. This course prepares students for entry-level mask design and technician positions in the computer industry.

ET 206  CMOS Mask Design II  3 Units
Prerequisite: ET 205 with a grade of "C" or better
Hours: 36 hours LEC; 54 hours LAB
This course builds on CMOS Mask Design I (ET 205). It applies complex logic and design rules for integrated circuit (IC) layout. It also includes practical experience in the use of an industry-standard integrated circuit design tool, and IC and mask design principles and applications.

ET 250  Employability Skills for Technical Careers  2 Units
Same As: AT 107 and WELD 150
General Education: AA/AS Area III(b)
Hours: 36 hours LEC
This course provides the opportunity of exploring technical careers while developing valuable work and life skills. It is an introduction to a variety of technically-related occupations. Emphasis is placed on exploring technical careers in the Sacramento area. Activities are designed to enhance personal development, employability skills, and self esteem through leadership, citizenship, and character development.
ET 251 Automotive Electronic Accessories and Installation 3 Units
Same As: AT 251
Corequisite: AT 312 or ET 302
Hours: 36 hours LEC; 54 hours LAB
This course covers the principles and processes involved in the installation of mobile entertainment, security, positioning and other electrical and electronic related systems and components. Safety, circuit diagrams, inspection, wiring, installation and troubleshooting techniques are covered along with the operational characteristics of the various electrical circuits. Topics related to this course cover the areas for the certification testing required to become a qualified Mobile Electronics Certified Professional (MECP) installer. A field trip is required. This course is not open to students who have taken AT 251.

ET 294 Topics in Electronics Technology 1-5 Units
Prerequisite: To be determined for each topic.
Hours: 9-90 hours LEC; 27-270 hours LAB
This is an individualized course developed in cooperation with industry to meet specialized training needs. It may be taken four times with no duplication of topics.

ET 298 Work Experience in Electronics Technology 1-4 Units
Enrollment Limitation: Be in a paid or non-paid internship, volunteer opportunity or job related to the electronics industry.
Hours: 60-300 hours LAB
This course provides students with opportunities to develop marketable skills in preparation for employment in the electronics field or advancement within their career. It is designed for students interested in work experience and/or internships in associate degree occupational programs. Course content includes understanding the application of education to the workforce; completion of required forms which document the student's progress and hours spent at the work site; and developing workplace skills and competencies. Rigor is ensured through the development of appropriate level learning objectives set between the student and the employer. During the course of the semester, the student is required to fulfill a weekly orientation and 75 hours of related paid work experience, or 60 hours of unpaid work experience for one unit. An additional 75 or 60 hours of related work experience is required for each additional unit. The weekly orientation is required for first time participants, returning participants are not required to attend the weekly orientation but are required to meet with the instructor as needed to complete all program forms and assignments. ET 298 may be taken for a total of 16 units when there are new or expanded learning objectives. Students can earn a total of 16 Work Experience units.

ET 302 Principles of Electricity and Electronics 4 Units
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This introductory course explores the field of electronics and electricity. Complete systems such as robotics, Global Positioning Systems (GPS), computers, and home electronics are used to demonstrate component application. The use of electronic simulation software combined with actual hands on lab experiments reinforces theory. Various test equipment such as digital four channel color oscilloscopes, Digital Multi Meters and programmable function generators are used to demonstrate electronic principles and theory of AC, DC, Ohm's law, inductance and capacitance as they apply to voltage and frequency response. Field trips to local electronics industries are required.

ET 303 Energy and Sustainability 3 Units
Same As: ENERGY 303 and NATR 303
General Education: AA/AS Area IV (effective Summer 2009)
Course Transferable to CSU
Hours: 54 hours LEC
Fundamentals of energy and its impact on society and the environment are covered in this course. The mechanics, advantages and disadvantages of current and future renewable, green and nonrenewable energy sources are investigated. Residential energy audits are covered. Field trips are required. This course is not open to students who have completed ENERGY 303 or NATR 303.

ET 307 High Tech Soldering and Fabrication Techniques 2 Units
Advisory: ET 302.
Course Transferable to CSU
Hours: 18 hours LEC; 54 hours LAB
This course teaches fundamental soldering techniques required in the Electronics industry. Lecture and lab exercises introduce state of the art processes involving safety, component and tool identification, diagrams, terms, standards, soldering [plated through hole (PTH), surface mount (SMT), fine and ultra fine pitch], de-soldering, electrostatic discharge (ESD), devices and assembly. Field trips are required. This course may be taken twice for credit.

ET 310 Mathematics for DC Circuit Fundamentals, Part I 1.5 Units
General Education: AA/AS Area II(b)
Course Transferable to CSU
Hours: 27 hours LEC
This course covers mathematics for direct current (DC) circuit fundamentals. Powers of ten, algebra and other mathematical concepts necessary for calculation of resistance, DC voltage and current distribution in series, parallel, and combination circuits are covered.

ET 311 Mathematics for AC Circuit Fundamentals, Part II 1.5 Units
Prerequisite: ET 310 with a grade of "C" or better.
General Education: AA/AS Area II(b)
Course Transferable to CSU
Hours: 27 hours LEC
The foundations of mathematics used in the analysis of alternating current (AC) circuits are covered in this course. Topics include algebra and trigonometry for the mathematical analysis of AC circuits involving resistance, capacitance, inductance and/or reactances in series, parallel and combination circuits.

ET 322 Semiconductors and Nanotechnology 5 Units
Prerequisite: ET 302 with a grade of "C" or better.
Advisory: ET 310 and 311.
Course Transferable to CSU
Hours: 54 hours LEC; 108 hours LAB
This course is a detailed study of semiconductor and nanotechnology devices and their applications. Semiconductor manufacturing and components such as diodes, transistors, op-amps, and field programmable analog arrays (FPAA), including their use in complex circuits are covered. Nanotechnology theory and devices including their present and possible future applications are studied. Field trips are required.

ET 335 Integrated Circuits with Computer Applications 5 Units
Prerequisite: ET 302 with a grade of "C" or better.
Course Transferable to CSU
Hours: 54 hours LEC; 108 hours LAB
This course covers integrated circuits (IC’s) and applications used in industrial and consumer products. Digital theory and applications start with standard transistor-transistor logic (TTL) and complementary metal oxide semiconductor (CMOS) logic circuits and progress into complex circuits built on programmable logic devices (PLDs) using very-large-scale-integration hardware description language (VHDL). Field trips are required.

**ET 337 Advanced Integrated Circuit Applications**  
**3 Units**  
Prerequisite: ET 330 or ET 335 with a grade of “C” or better.  
Course Transferable to CSU  
Hours: 36 hours LEC; 54 hours LAB  
This course is a continuation of Integrated Circuit Applications, ET 335. It includes a comprehensive study of advanced circuits used in various industrial and consumer applications. Topics include advanced operational amplifier circuits; electrical-mechanical transducers; voice recognition and reproduction circuits; motor driver circuits; global positioning circuits (GPS); and computer and human interface circuits. Field trips are required.

**ET 369 The Design and Fabrication of Electronics Projects**  
**2 Units**  
Prerequisite: ET 322 with a grade of “C” or better.  
Course Transferable to CSU  
Hours: 18 hours LEC; 54 hours LAB  
This course provides an opportunity for students to design and build advanced projects. It enables students to work on approved electronics projects outside the scope of typical classroom applications. Students learn the process of planning, design, prototyping, and fabrication while building an actual working project. Completed projects are entered in county and statewide technology such as the California State Fair Industrial Technology competition. A completed project is a course requirement. Projects can be completed individually or in teams. Field trips are required. This course may be taken three times on different projects.

**ET 380 Introduction to Electronic Communications**  
**4 Units**  
Prerequisite: ET 301 or ET 302 with a grade of “C” or better.  
Course Transferable to CSU  
Hours: 54 hours LEC; 54 hours LAB  
This course covers UHF, VHF, microwave, satellite, and fiber optics. AM and FM transmitters, transmission lines, antennas, and receivers are analyzed down to the component level. Propagation, wave theory, decibels, and signal transmission limitations are also covered. Technician safety and proper test equipment use are stressed throughout the course. Field trips are required.

**ET 385 Digital Home Technology Integration**  
**4 Units**  
Prerequisite: ET 115 with a grade of “C” or better  
Course Transferable to CSU  
Hours: 54 hours LEC; 54 hours LAB  
This course covers the fundamentals of Home Technology Integration (HTI). It includes the study of and practical experience in installation, integration, and troubleshooting of entertainment, voice, security, data, and networking systems found in the home or small office. Field trips are required. This course may be taken two times on different certification requirements.

**ET 386 Fiber Optic Splicing, Connectivity and Testing**  
**3 Units**  
Course Transferable to CSU  
Hours: 54 hours LEC  
This is an introductory course in fiber optic theory and operation including the complete fiber optic communication system. It includes fiber optic terminology and instruction in the proper use of tools and equipment associated with fiber optic installation and maintenance. Tests of the fiber optic systems are performed using sophisticated equipment such as optical power meters and Optical Time Domain Reflectometer (OTDR). A field trip is required. This course may be taken twice for credit using different equipment.

**ET 387 Advanced Fiber Optics**  
**2 Units**  
Prerequisite: ET 386 with a grade of “C” or better.  
Course Transferable to CSU  
Hours: 36 hours LEC  
This course covers advanced fiber optic theory and operation. Fiber optic systems are vital communication links that enable high speed transfer of video, telephone, and data to occur. Testing of fiber optic systems using sophisticated electro-optical test equipment such as the Optical Time Domain Reflectometer (OTDR) is included. This course also introduces the use of computer based software to simplify fiber optic system design. May be taken twice for credit.

**ET 420 Microcontrollers and Digital Signal Processors**  
**5 Units**  
Prerequisite: ET 302 with a grade of “C” or better.  
Course Transferable to CSU  
Hours: 54 hours LEC; 108 hours LAB  
This course is an in-depth study of microcontrollers and digital signal processors (DSP). The focus is on digital concepts such as data flow, internal architecture, programming, memory, data converters and the interfacing of input/output devices, sensors and motors. Field trips are required.

**ET 421 Advanced Microprocessors, Microcontrollers, and Programmable Logic Devices**  
**3 Units**  
Prerequisite: ET 420 with a grade of “C” or better.  
Course Transferable to CSU  
Hours: 36 hours LEC; 54 hours LAB  
This course is a continuation of ET 420. It focuses on the advanced features of microprocessors, microcontrollers, and Programmable Logic Devices (PLD). Topics include microcontroller assembly language; optical, RF and serial communication techniques; output display design; and developing Reduced Instruction Set Controller (RISC) microprocessors from PLD’s. Field trips are required.

**ET 425 Introduction to Biomedical Equipment Technology**  
**4 Units**  
Prerequisite: ET 322, 335, or 380 with a grade of “C” or better  
Course Transferable to CSU  
Hours: 72 hours LEC  
This course covers the foundation of biomedical equipment and the responsibilities of electronic technicians interested in working in the medical device service industry for hospitals, medical device manufacturers, or other service organizations. It includes a detailed study of the operation and maintenance of hospital equipment, systems and procedures, and the related electronic systems. Additional topics include basic anatomy and physiology as they relate to the biomedical equipment. Field trips are required.

**ET 490 Advanced Student Projects Laboratory**  
**2 Units**  
Prerequisite: ET 322, 335, or 380 with a grade of “C” or better  
Course Transferable to CSU  
Hours: 108 hours LAB  
This course provides opportunities to pursue advanced projects selected by the Electronics department. It may be taken two times for credit on different projects.
ENERGY 140  Electrical Applications for Solar Installers  
4 Units
Prerequisite: ET 302 with a grade of “C” or better
Hours: 54 hours LEC; 54 hours LAB
This is an introductory course in Solar Photovoltaic (PV) energy. It covers how solar photovoltaic energy works and how to assess if PV is feasible in a variety of situations. Topics include calculating and measuring PV power outputs for different conditions, using software tools and hardware for calculating and sizing PV systems, and measuring and analyzing shading conditions. Additionally, it addresses how to install and connect necessary components. This is the first course in a series leading to the solar photovoltaic energy installers certification. Field trips are required.

ENERGY 141  Electrical & Mechanical Applications for Solar Installers  
4 Units
Prerequisite: ENERGY 140 or 299 with a grade of “C” or better
Hours: 54 hours LEC; 54 hours LAB
This is an advanced course in Solar Photovoltaic (PV) energy. Topics include using hardware and software tools for shading and correctly orientating solar panels, the effect PV panel orientation has on system power output and efficiency, what effect optimum PV panel loading has on power produced, and how to perform load analysis on a specific residence. Additionally, it covers various manufacturers’ software to calculate PV panel string sizing for optimum efficiency when working with grid tie inverters. National Electrical Code (NEC) and fire code wire sizing, fusing, and other safety instructions and procedures are stressed. The successful completion of this course and ENERGY 142 qualify students to take the NABCEP (North American Certified Energy Practitioner) certified solar photovoltaic installers and service technicians entry level certificate of knowledge of PV systems test. Field trips are required. This course may be taken two times for credit using different test equipment.

ENERGY 142  NABCEP (North American Board of Certified Energy Practitioners) Entry Level Test Review  
2 Units
Prerequisite: ENERGY 140 with a grade of “C” or better
Corequisite: ENERGY 141
Hours: 36 hours LEC
This advanced course in solar photovoltaic (PV) energy offers preparation for the North American Board of Certified Energy Practitioners (NABCEP) PV Entry Level Certificate of Knowledge Exam. Topics include hardware and software tools used for determining percent of shade and orienting solar panels, the effect of PV panel orientation on system power and efficiency, and the load analysis. Additionally, it covers calculating PV panel string sizing when working with grid tie inverters as related to the NABCEP test. National Electrical Code (NEC) and fire code wire sizing, fusing, and other safety instructions and procedures are reviewed. The successful completion of this course and ENERGY 141 qualifies students to take the NABCEP certified solar photovoltaic installers and service technicians entry level certificate of knowledge of PV systems test. Field trips are required. This course may be taken two times for credit using different software.

ENERGY 303  Energy and Sustainability  
3 Units
Same As: ET 303 and NATR 303
General Education: AA/AS Area IV (effective Summer 2009)
Course Transferable to CSU
Hours: 54 hours LEC
Fundamentals of energy and its impact on society and the environment are covered in this course. The mechanics, advantages and disadvantages of current and future renewable, green and nonrenewable energy sources are investigated. Residential energy audits are covered. Field trips are required. This course is not open to students who have completed ET 303 or NATR 303.
ARC’s program provides the foundation in mathematics, physics, and engineering necessary to transfer to a four-year institution and complete a bachelor’s degree in engineering. Students should consult the institution to which they wish to transfer for the specific lower division requirements.

Most lower division engineering programs require the following ARC courses: Mathematics 400, 401, 402, 420; Physics 410, 421, 431; Chemistry 400, and Engineering 401, 413, 420, 430. See also Design & Engineering Technology.

ENGR 300 Introduction to Engineering 1 Unit
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320 AND ESWL 320.
Course Transferable to UC/CSU
Hours: 18 hours LEC
This course is an introduction to the engineering and engineering technology professions and their place in industry. It includes an explanation of engineering and engineering technology options and curricula involved. The topics include an emphasis on problem-solving techniques used in engineering and engineering technology. This course is recommended for all entering engineering, engineering technology and design technology students.

ENGR 305 Basic Technical Drawing 3 Units
Advisory: ENGWR 102 or 103 and ENGRD 116; or ESLR 320 and ESLW 320, or placement through the assessment process.
Course Transferable to CSU
Hours: 36 hours LEC; 72 hours LAB
This course introduces the graphical tools and instruments used to generate, analyze and interpret engineering drawings. This class is required for engineering students. Topics include lettering, geometric construction, or orthographic projection, auxiliary drawings, sectioning, and dimensioning.

ENGR 307 Industrial Materials Testing 3 Units
Prerequisite: MATH 100 with a grade “C” or better.
Advisory: MATH 120.
Course Transferable to CSU
Hours: 54 hours LEC; 36 hours LAB
This course covers the basic properties of materials used in industry. The course emphasizes the practical use of the materials, but uses sufficient theory to understand these applications well. The course covers metals, concretes, plastics, ceramics, glasses, wood, and other composites. This course is primarily intended for design technology, engineering technicians and other technical students.

ENGR 310 Engineering Survey Measurements 4 Units
Prerequisite: MATH 330.
Advisory: ENGWR 102 or 103, and ENGRD 116; or ESLR 320 and ESLW 320.
Course Transferable to UC/CSU
Hours: 54 hours LEC; 54 hours LAB
This course covers the basic fundamentals of surveying for engineers. Electronic surveying instruments are used in this course to develop the principles of measurement for distance, elevations and angles. Additional topics include discussions on systematic and random errors, line directions, profiles and cross-sections, traverse computations, horizontal and vertical curves, and earthwork quantity calculations. This course is intended for civil engineers, but may also be required for other programs. (CAN ENGR 10)

ENGR 312 Engineering Graphics 3 Units
Prerequisite: ENGR 305 with a grade of “C” or better
Course Transferable to UC/CSU
Hours: 36 hours LEC; 72 hours LAB
This course applies the graphical tools needed to analyze, interpret, and solve engineering problems. The engineering design process is taught using manual and introductory interactive computer-aided design and drafting (CADD) tools to solve typical three-dimensional engineering problems. Topics include descriptive geometry, vector graphics, orthogonal projection, and primary and secondary auxiliary views. This course is intended for mechanical and civil engineering majors, but may also be required for other programs.

ENGR 320 Manufacturing Processes 3 Units
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers the principles of manufacturing processes in the areas of material removal, forming, joining and casting, and the fundamentals of numerical control. Topics include the application of equipment such as lathes, milling machines, drill press machines, saws, grinders, welders, molding equipment, and core makers. It includes hands-on experience in welding and machinery operation.

ENGR 401 Introduction to Electrical Circuits and Devices 3.5 Units
Prerequisite: PHYS 421 with a grade of “C” or better.
Corequisite: MATH 420.
Course Transferable to UC/CSU
Hours: 54 hours LEC; 36 hours LAB
This course covers the basic fundamentals of electrical circuit theory and analysis for engineers. Topics include circuit analysis techniques, sinusoidal analysis, phasors, first- and second-order circuits with natural and step responses, operational amplifiers, and average power. This course is intended to provide a solid foundation for upper division engineering courses. (CAN ENGR 6)
ENGR 413  Properties of Materials  4.5 Units
Prerequisite: PHYS 410 and CHEM 400 with a grade of "C" or better.
Advisory: ENGW 300 or ESLR 340.
Course Transferable to UC/CSU
Hours: 72 hours LEC; 27 hours LAB
This is an introductory course in properties of materials used in engineering. This course places emphasis upon the theory underlying the behavior of engineering materials. The course includes a laboratory component, in which work will cover the testing of metals, polymers, composites, wood and other materials. (CAN ENGR 4)

ENGR 420  Statics  3 Units
Prerequisite: MATH 401 and PHYS 410 with grades of "C" or better.
Advisory: ENGR 305 or DESGN 300, and MATH 410.
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers the study of bodies in equilibrium with emphasis on force systems, structures, distributed loads, friction and virtual work. In this course, analytical rather than graphical methods of problem solving will be emphasized. (CAN ENGR 8)

ENGR 428  Engineering Mechanics  3 Units
Prerequisite: Physics 410 with a grade of "C" or better.
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers the study of bodies in equilibrium with emphasis on structures and friction, including methods to calculate centroids and moments of inertia. It also includes the fundamental principles of kinematics and kinetics, and the study of motion and force analysis of particles and rigid bodies.

ENGR 430  Dynamics  3 Units
Prerequisite: ENGR 420 and MATH 402 with grades of "C" or better
Advisory: MATH 420
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers the basic fundamentals of dynamics for engineers. Topics include kinematics and kinetics of particles; systems of particles and rigid bodies; systems with fixed and rotating axes; and the equations of motion, energy, and momentum.
English Degree

The English A.A. degree gives students a broad based background in writing, literature, and language analysis. It prepares students for the further study of English or a related field at a four-year school; it also supports a wide range of career options, emphasizing as it does the communication and analytic skills that provide a necessary foundation for many different endeavors.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Analyze rhetorical and literary patterns to extract meaning, whether stated directly or implied
- Discuss major literary authors, forms, and movements in both American and British literature
- Define and employ terminology of literary analysis
- Compose essays that are generally free of sentence errors and that support a clear thesis with unified paragraphs
- Evaluate and integrate research materials to support an original argument
- Employ current Modern Language Association (MLA) bibliographic methods and forms

NOTE: Students who plan to major in English at a four-year college or university would be well advised to check with an ARC counselor because four-year schools differ widely in the ways in which they construct their English majors.

Technical Communication Degree

The Technical Communications degree program is an interdisciplinary course of study designed to prepare students for employment as professional writers and communicators in a variety of media intended to instruct and inform audiences. The degree program includes substantial course work in writing, information design, editing, page design, online help development, web site creation, and the use of industry standard applications.

Career Opportunities

Technical communicators may be employed in a variety of occupations in government, scientific firms, nonprofits, natural resources, finance, education, and high tech.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Compose professional prose for a variety of audiences with a variety of purposes.
• compose and edit professional documents in grammatically correct, concise English.
• create and use style templates in a variety of industry standard software.

Associate Degree Requirements: The Technical Communications Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Technical Communication Certificate

The Technical Communications certificate offers an interdisciplinary program of courses in writing, Art/New Media, and Computer Information Systems to prepare students for a variety of technical writing and professional communication careers. The certificate includes the theory, writing skills, design background, and computer applications knowledge needed for jobs in technical communication.

Career Opportunities

Technical communicators find employment in medical, scientific, high tech, business, university, and government settings. They may write white papers, tutorials, reference and procedure manuals, help systems, user assistance video scripts, grants and proposals, and more.

Student Learning Outcomes

Upon completion of this program, the student will be able to:
• analyze audience information needs.
• compose concise, clearly written professional documents organized with the audiences’ needs in mind.
• design printed pages and online screens that communicate organizations’ values, enhance readability, and are easy to use.
• demonstrate basic skills in the use of key word processing, page design, help development, and web design applications.
• evaluate organizations’ communication goals with technical writing ethics in mind.

English - Creative Writing

ENGCW 400 Creative Writing 3 Units

Prerequisite: ENGR 300 with a grade of “C” or better
General Education: AA/AS Area II(b)
Course Transferable to UC/CSU
Hours: 54 hours LEC
This introductory creative writing course offers writing experience with three or four of the following genres: short story, poetry, creative nonfiction, and script writing (theater or film). The course includes analysis of literary models, faculty and class critiques of work, and discussion of literary techniques in each covered genre, techniques such as metaphor, imagery, dialogue, and narrative. A portfolio of creative writing is submitted at the end of the semester.

ENGCW 410 Fiction Writing Workshop 3 Units

Advisory: ENGR 300 or ENGR 400 with a grade of “C” or better
Course Transferable to CSU
Hours: 54 hours LEC
This course concentrates on fiction writing. Short stories and/ or novel chapters written during the semester will be analyzed in constructive, in-class workshops. The elements of literary creation will be critically examined from a writer’s perspective through lecture, discussion, assigned readings, and in-class writing exercises. The class includes journaling, the preparation of a portfolio of work completed during the class, and individual conferences.

ENGCW 420 Poetry Writing Workshop 3 Units

Advisory: ENGCW 400 and ENGR 300
Course Transferable to CSU
Hours: 54 hours LEC
This creative writing course concentrates on poetry writing, including the analysis of poetry written during the semester. The course examines literary styles in traditional and contemporary poetry and demonstrates revising and editing processes through lecture, discussion, assigned reading, collaborative writing projects, and in-class writing exercises. Required: a portfolio of original work and individual conferences with the instructor.
ENG 421 A Short Course in Poetry Writing 1 Unit
Advisory: ENGW 400
Course Transferable to CSU
Hours: 18 hours LEC
This creative writing course is an abbreviated version of the three-unit Poetry Writing Workshop, ENGW 420, focusing on the writing of several poems. The course examines literary styles in traditional and contemporary poetry and demonstrates revising and editing processes through lecture, discussion, and in-class writing exercises.

ENGW 430 Creative Non-Fiction Writing Workshop 3 Units
Advisory: ENGW 400 or ENGW 300
General Education: AA/AS Area II(b)
Course Transferable to CSU
Hours: 54 hours LEC
This is a creative writing course concentrating on the literary essay. The course teaches the writing of various kinds of essay, such as memoir, autobiography, personal essays, reflective nature writing, prose with poetic elements (prose-poetry), and fact-based or philosophical writing with a definite literary, stylistic component. It also includes analysis of classical and innovative essays for elements such as voice, point of view, and structure. Field trips may be required.

ENGW 440 Screenwriting Workshop 3 Units
Advisory: ENGW 300 with a grade of “C” or better.
Course Transferable to CSU
Hours: 54 hours LEC
This is an introductory writer's workshop in three areas of screenwriting: experimental, documentary, and dramatic film. It includes preparation of three short scripts in those areas plus the viewing and analysis of films representing the three fields. This course introduces career paths in screenwriting, including local government and commercial sources preparing and utilizing film.

ENGW 441 Feature Film Screenwriting Workshop I 3 Units
Advisory: ENGW 400, ENGW 440, or ENGW 300
Course Transferable to CSU
Hours: 54 hours LEC
This course introduces the writing of a feature-length film script. It includes three proposals for projects, one of which is developed through the first act in official screen format, plus scene descriptions for major scenes, character sketches, and plot outlines. Several classic feature films and scripts are analyzed for their writing strengths.

ENGW 450 College Literary Magazine 3 Units
Advisory: ENGW 300, ENGW 301, and ENGW 400.
Course Transferable to CSU
Hours: 54 hours LEC; 18 hours LAB
This course provides experience in evaluating, editing, and sequencing literature in the college magazine of literature and art, The American River Review. The course focuses on poetry, fiction, and creative nonfiction, and it may review layout and art selection, establishing an esthetic relationship between literary content and the visual image for three components of the Review: the magazine itself, an associated Internet site, and a companion DVD. This course also provides experience in soliciting manuscripts and publicity. The course teaches how to organize a literary reading. It may be repeated four times for credit.
ENGLT 300 Introduction to Fiction 3 Units
Prerequisite: ENGWR 300 with a grade of “C” or better
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers the study of fiction as a type of literature. The course will examine a wide range of fiction, critically analyzing plot, setting, character, theme, and style. The course will include British and American works, as well as fiction in translation.

ENGLT 304 Introduction to Poetry 3 Units
Prerequisite: ENGWR 300 with a grade of “C” or better
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
Designed to introduce the art of poetry, this course includes analysis and appreciation of poetry as a type of literature, a thorough study of various kinds of poetry, and a brief survey of major poets and movements. It focuses on how to react as a reader and how to help give poetry meaning in the light of one's accumulated feelings, interests, and ideas.

ENGLT 310 English Literature 3 Units
Prerequisite: ENGWR 300 with a grade of “C” or better
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of representative works in English literature from the Anglo-Saxon period to the eighteenth century.

ENGLT 311 English Literature 3 Units
Prerequisite: ENGWR 300 with a grade of “C” or better
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of representative works in English literature from the nineteenth and twentieth centuries.

ENGLT 320 American Literature 3 Units
Prerequisite: ENGWR 300 with a grade of “C” or better
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course surveys American literature from the precolonial period to the Civil War. Approximately one-third of the semester's reading, discussion, and exploration is devoted to the development and backgrounds of a truly national literature. The larger two-thirds of the semester's study focuses upon the early half of the nineteenth century prior to the Civil War with special emphasis upon eight major writers: Poe, Hawthorne, Emerson, Thoreau, Douglass, Melville, Whitman, and Dickinson. The course also examines aesthetic theories, growth of literary methods, and changes in literary tastes and opinions within the intellectual current of the times.

ENGLT 321 American Literature 3 Units
Prerequisite: ENGWR 300 with a grade of “C” or better
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course surveys representative literature from the post-Civil War period until the present. It begins with the end of the Romantic period and follows the rise of Realism. Prose includes local color and social criticism, fiction of the “Lost Generation,” and contemporary stories. Poetry includes the many movements from turn-of-the-century to contemporary.

ENGLT 327 Literature of California 3 Units
Prerequisite: ENGWR 300 with a grade of “C” or better
General Education: AA/AS Area I; AA/AS Area VI; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course examines the literature of California in the context of its ethnic, social, political, geographical and intellectual history. The course will examine a wide range of literature (fiction, non-fiction, poetry, memoirs, and essays) including but not limited to Native American legends, early California exploration accounts, prose and poetry from the California heartland, Hollywood crime fiction, and more, with emphasis on what makes the California experience unique.

ENGLT 333 African-American Dramatic Literature 3 Units
Prerequisite: ENGWR 300 with a grade of “C” or better
General Education: AA/AS Area I; AA/AS Area VI; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course investigates African-American drama between 1800 and the present. African-American drama of various periods will be compared to the dominant drama of the time to investigate cultural effects on this drama. Protest drama of the 1960s will receive special focus, as will the recent resurgence of African-American drama.

ENGLT 334 Asian-American Literature 3 Units
Prerequisite: ENGWR 300 with a grade of “C” or better
Advisory: ENGWR 301
General Education: AA/AS Area I; AA/AS Area VI; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course surveys autobiographies and fiction written by Asian Americans; the work focus on the experience of Asian Americans growing up in a culture that is dominated by Eurocentric influences. The selected readings were written in American English in the last 60 years by Filipino-, Chinese-, Japanese-, and Korean-Americans. The course compares and contrasts the perspectives with which these four groups of Asian-American writers shape their portrayals of their immigration, discrimination, and assimilation experiences; further, the course examines the diversities of these experiences both within and across the generations.

ENGLT 338 Native American Literature 3 Units
Prerequisite: ENGWR 300 with a grade of “C” or better
General Education: AA/AS Area I and VI; CSU Area C2; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course surveys the living Native American experience as expressed through Native works of autobiography, fiction, poetry, film, and historical texts. Emphasis placed on indigenous world views and perspectives. Highlighted are comparisons between the evolving culture of European Americans and that of Native Americans. The course examines how Native literature is a reflection of the historical and cultural movements that have shaped, been shaped by, and interacted with the Native community. Included are samples of Native literary voices from tribes from all areas of the Americas, North, South, and Central. Field trips are required.
### ENGLT 340  World Literature 3 Units
- **Prerequisite:** ENGWR 300 with a grade of "C" or better
- **Advisory:** ENGWR 301
- **General Education:** AA/AS Area I; CSU Area C; IGETC Area 3B
- **Course Transferable to UC/CSU**
- **Hours:** 54 hours LEC

This course surveys world literature in translation from antiquity through the early seventeenth century. In addition to significant works in the western tradition, masterpieces of nonwestern literature are studied. Ancient world cultures and historical movements are introduced, along with methods of literary analysis and research. The entire range of genres is represented and, whenever possible, works are read in their entirety.

### ENGLT 341  World Literature 3 Units
- **Prerequisite:** ENGWR 300 with a grade of "C" or better
- **General Education:** AA/AS Area I; CSU Area C; IGETC Area 3B
- **Course Transferable to UC/CSU**
- **Hours:** 54 hours LEC

This course is a survey of the literature of the world from the eighteenth century to the present, with emphasis on European literature. It is designed to establish an understanding of the philosophies of the various cultural periods, as well as the temperaments of the classicism, romanticism, and realism in literature and the related arts.

### ENGLT 345  Mythologies of the World 3 Units
- **Prerequisite:** ENGWR 300 with a grade of "C" or better
- **General Education:** AA/AS Area I; CSU Area C; IGETC Area 3B
- **Course Transferable to UC/CSU**
- **Hours:** 54 hours LEC

This literature course provides an introduction to characters and themes in myths from world literature: sagas of heroes, creation stories, and journeys to death and rebirth. It explores the metaphors of the stories, metaphors which continue to captivate readers many years later and influence characters and stories in modern literature and culture.

### ENGLT 346  Women in Literature 3 Units
- **Prerequisite:** ENGWR 300 with a grade of "C" or better
- **General Education:** AA/AS Area I; CSU Area C; IGETC Area 3B
- **Course Transferable to UC/CSU**
- **Hours:** 54 hours LEC

The roles women have played both as creators and as protagonists in the art of fiction will be examined in this course. This course includes reading and evaluating literature from a wide range of times, places, and ethnic groups, by both men and women, although emphasis will be on works written by women.

### ENGLT 370  Children and Literature 3 Units
- **Advisory:** ENGWR 102 or 103; or placement through the assessment process.
- **General Education:** AA/AS Area I; CSU Area C
- **Course Transferable to CSU**
- **Hours:** 54 hours LEC

This course is a survey of the best literature, past and present, created for children, and of the criteria for selecting, evaluating, and discussing children's literature. It includes discussion of the history of children's literature and of current issues such as censorship, literacy, and multicultural diversity. The course is intended for prospective parents, preschool teachers, early childhood education (ECE) majors, parents, and anyone who is or will be in frequent contact with children. It includes reading to children in a formal group setting, which may include an off-campus location.

### ENGLT 372  Children and Literature: Storytelling 1 Unit
- **Advisory:** ENGLT 370, ENGWR 102, or ENGWR 103; or placement through the assessment process.
- **General Education:** AA/AS Area I; AA/AS Area VI; CSU Area C
- **Course Transferable to CSU**
- **Hours:** 18 hours LEC

This course offers further study in children’s literature, emphasizing the principal types and sources of oral literature for children. Theories of how storytelling develops cognitive and language skills, social growth, self-esteem, and aesthetic appreciation in children are covered. It includes multiculturally diverse story sources of oral literature, such as legends, dramatic poetry, and family and community histories. Practice in storytelling is included.

### ENGLT 374  Children and Literature: Folklore and Fairy Tales 1 Unit
- **Advisory:** ENGWR 102 or 103
- **General Education:** AA/AS Area I; AA/AS Area VI; CSU Area C
- **Course Transferable to CSU**
- **Hours:** 18 hours LEC

This course surveys folklore and fairy tales in the United States and other countries and cultures. Readings include literature written by and about Native Americans, African Americans, Hispanic Americans, and Asian Americans, in addition to other world cultures. The course emphasizes literary analysis and the values of multicultural literature in the development of children’s cultural and aesthetic sensitivity.

### ENGLT 376  Children and Literature: Reader’s Theater 1 Unit
- **Advisory:** ENGWR 102 or 103
- **General Education:** AA/AS Area I; AA/AS Area VI; CSU Area C
- **Course Transferable to CSU**
- **Hours:** 18 hours LEC

This course emphasizes literary analysis and the values of multicultural literature in the development of children’s cultural and aesthetic sensitivity.

### ENGLT 377  Children and Literature: Folklore and Fairy Tales 1 Unit
- **Advisory:** ENGLT 370, ENGWR 102, or ENGWR 103; or placement through the assessment process.
- **General Education:** AA/AS Area I; AA/AS Area VI; CSU Area C
- **Course Transferable to CSU**
- **Hours:** 18 hours LEC

This course offers further studies in children’s literature with emphasis on selecting and adapting children’s literature to group writing and reading aloud dramatically in group situations. Criteria for selection and adaptation are applied to folk literature, plays, short novels, and storybooks. Using Reader’s Theater to develop the child’s understanding and appreciation of literary aesthetics, language skills, and cultural diversity is emphasized.

### ENGLT 378  Young Adult Literature 3 Units
- **Prerequisite:** ENGWR 300 with a grade of "C" or better
- **General Education:** AA/AS Area I; CSU Area C; IGETC Area 3B
- **Course Transferable to UC/CSU**
- **Hours:** 54 hours LEC

This course presents an overview of young adult literature and is designed to incorporate the ever changing nature of this genre. The literature addressed reflects the themes of interest to young people. Topics include a review of the history of young adult literature, readings of contemporary award-winning young adult literature, as well as a look at some of the classics from the past. Censorship concerns and culturally diverse selections also form a core part of the course. Authors may include:  S. E. Hinton, Will Hobbs, Karen Hesse, Richard Peck, Paul Zindel, J. K. Rowling, Sandra Cisneros, Lois Lowry, John Knowles, and J. D. Salinger. This course includes an analysis of literary elements, an examination of authors’ style and content, and reflection on what makes a piece of literature a classic.
ENGLT 380  Introduction to Shakespeare  3 Units
Prerequisite: ENGWR 300 with a grade of "C" or better
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of eight to ten representative dramatic works of Shakespeare and related literary criticism. It includes an examination of the Elizabethan worldview as a context for the plays. Attendance at live Shakespearean performances may be required.

ENGLT 382  Introduction to Dramatic Literature  3 Units
Prerequisite: ENGWR 300 with a grade of "C" or better
Advisory: ENGWR 301
General Education: AA/AS Area I; CSU Area C2; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course introduces drama as a type of literature. Plays from varying historical periods and cultures are covered, with an emphasis on the analysis of plot, characterization, setting, theme, and other literary elements of drama. Field trips to live theater productions are required.

ENGLT 390  Mystery and Detective Fiction  3 Units
Prerequisite: ENGWR 300 with a grade of "C" or better
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers the study of mystery and detective fiction from beginning to the present. Representative authors are Dickens, Poe, Conan Doyle, Chesterton, Sayers, Hammet, Hillerman, Eco, Graft, Forrest, James, Paretsky, Jance.

ENGLT 392  Science Fiction and Fantasy  3 Units
Prerequisite: ENGWR 300 with a grade of "C" or better
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course explores the literature of science fiction and fantasy. It includes the roots of these genres and surveys development into their contemporary forms. Topics may include selections from television, film, anime, short stories, and novels.

ENGLT 403  Film Adaptations  3 Units
Prerequisite: ENGWR 300 with a grade of "C" or better
General Education: AA/AS Area I; CSU Area C2; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course examines the processes, problems, and successes of adapting literary, stage, and previous film material into films. It discusses faithful and unfaithful adaptations through reading the original texts and viewing the adapted films with an awareness of their historical and cultural contexts. The course analyzes intention, creative distinctions, and the limits and strengths of each medium.

ENGLT 494  Topics in Literature  3 Units
Prerequisite: ENGWR 300 with a grade of "C" or better
General Education: AA/AS Area I; CSU Area C; IGETC Area
Course Transferable to CSU
Hours: 54 hours LEC
This is a literature course to be scheduled as needed under a title describing specific content. It provides the opportunity to focus on an in-depth study of specific literary subjects or genres. The course will offer an extensive study of works by significant writers of literature defined by theme, region, vocation, or human experiences. Possible titles include Retelling Stories, The Love Story, The Far West, The Military Experience in Literature, The Hero in Contemporary Fiction, Humor in American Fiction. May be taken twice for credit.

* Fulfills writing competency requirement for AA/AS degree.
** Pre-requisite for ENGWR300
ENGRD 111  Reading Across the Disciplines (R.A.D.)  .25 Units
Co-requisite: Enrollment in a below transfer level content area course.
Hours: 45 hours LEC
This course offers reading skills development as applied to various content-area courses. Topics include the following: strategies for textbook comprehension, note-taking, annotating, mastering discipline-base vocabulary, paraphrasing, reading graphics, and test-taking strategies. Students enroll in any open section and bring proof of enrollment to the R.A.D. Center to schedule discussion meetings. Pass/No Pass. This course may be taken 4 times for credit when used in conjunction with different content area classes.

ENGRD 114  College Vocabulary and Spelling  2 Units
Hours: 36 hours LEC
This course provides college vocabulary and spelling skills. Topics include Greek and Latin word parts, phonetic analysis, thematic readings, proofreading, determining meaning of technical terms in academic disciplines, and effective use of learning style strategies. Topics in this course promote college success.

ENGRD 116  Proficient Reading  3 Units
Prerequisite: ENGRD 15 with a grade of “C” or better; or placement through the assessment process.
Advisory: Concurrent enrollment in ENGRWR 102 or 103.
Hours: 54 hours LEC
This course analyzes expository and argumentative essays, textbooks, and literature in preparation for ENGRD 310 or ENGRD 312. It emphasizes recognition of an author’s thesis, supporting details, point of view, purpose, and tone through an in-depth analysis of an essay’s introduction, body, and conclusion. This course also focuses on applying study strategies for comprehending and retaining information from textbooks in preparation for tests. Individual work in the Reading Across the Curriculum Program, the Reading Across the Disciplines Program, or the Reading Center may be required.

ENGRD 117  Reading Center: Reading Skills  .25-2 Units
Prerequisite: ESLR 310 with a grade of “C” or better; or placement through the assessment process.
Advisory: ENGRD 12.
Hours: 13.5-108 hours LAB
The Reading Center offers individualized instructional modules designed to strengthen reading skills in specific areas. Course offerings vary, depending upon needs and abilities. A partial list includes the following: comprehension, vocabulary development, critical reading, textbook reading, reading for the proficiency exam, and study skills. Scheduling is flexible. Enrollment open through the eleventh week of the semester. Pass/no pass only. This course may be taken up to four times for maximum of four units with different course topics.

ENGRD 310  Prose Analysis and Interpretation  3 Units
Prerequisite: ENGRD 116 with a grade of “C” or better; or placement through the assessment process.
Advisory: Concurrent enrollment in ENGRWR 300.
General Education: AA/AS Area II(b)
Course Transferable to CSU
Hours: 54 hours LEC
This overview course covers the theory and practice of critical and speed reading skills needed for successful academic performance with an emphasis on the following: (1) critical and analytical evaluation of college-level expository and argumentative essays, (2) development of flexible reading rate and speed, (3) critical analysis and evaluation of research, (4) vocabulary development, and (5) application in multicultural essays, journals, fiction and nonfiction reading. Individual reading practice and exercises in the Reading Center, Writing Across the Curriculum or Reading Across the Disciplines programs may be required.

ENGRD 312  Academic Textbook Reading  3 Units
Prerequisite: ENGRD 116 with a grade of “C” or better; or placement through the assessment process.
Advisory: ENGRD 314
Hours: 54 hours LEC
This reading course concentrates on the refinement of the ability to read, understand, and respond to transfer-level textbooks across the curriculum. Emphasis is on critical and analytical reading, thinking and writing; graphics and other visual materials; discipline-based vocabulary; and reading rates as they relate to academic success.

ENGRD 314  Reading Across the Disciplines (R.A.D.)  .25 Units
Co-requisite: Enrollment in a transfer-level content-area course.
Course Transferable to CSU
Hours: 4.5 hours LEC
This course offers reading skills as they apply to various content-area courses. Topics include the following: strategies for textbook comprehension, note-taking, annotating, mastering discipline-based vocabulary, paraphrasing, reading graphics, test-taking, speed reading, and research techniques. Students should enroll in any open section and bring proof of enrollment to the R.A.D. Center to set a time for discussion meetings. Pass/No Pass. This course may be taken 4 times for credit when used in conjunction with different content area courses.

ENGLISH

ENGWR 51  Developmental Writing  4 Units
Prerequisite: One or more units of ENGWR 53 with “pass” grade, or placement through the assessment process.
Advisory: Concurrent enrollment in ENGRD 15
Hours: 72 hours LEC
This course focuses on basic writing skills, emphasizing the connection between writing and reading. It includes writing in response to short reading selections. In addition, the writing process and development of specific skills within the sentence, paragraph, and essay forms are covered in preparation for ENGWR 102 or ENGWR 103. A minimum of 3000 words of full-process writing is required.

ENGWR 53  Writing Center: Basic Writing Skills  .5-2 Units
Prerequisite: Placement through the assessment process or ESLW 50 and ESLW 50 with a grade of “C” or better.
Advisory: BUSTEC 300 or CISC 300.
Hours: 27-108 hours LAB
This course offers individualized instruction modules (mini English courses) that focus on improving basic writing skills, including familiarity with the writing process, sentence writing, and paragraph writing, as well as editing and proofreading. Course offerings vary depending on a student’s needs and skill levels. Computers will be used to produce writing assignments. The same module may not be repeated for credit. This course is not a substitute for any other English course. Registration is open through the twelfth week of the semester. Credit/No Credit only. May be taken three times.
ENGWR 56  Integrated Reading, Writing and Study Skills  6 Units

Same As: ENGRD 56
Hours: 108 hours LEC
This course emphasizes the interrelationships among reading, writing, and study skills at the basic skills level. Course content, activities, and assignments integrate all three areas, providing opportunities to improve reading and writing skills in a student-centered environment. The course includes reading and writing in response to a variety of fictional and non-fictional materials and reviews basic rules of grammar and usage to develop skills in sentence, paragraph, and essay writing. Additional topics include a review of campus services and programs and effective study strategies. This course requires a total of 3,500 words written throughout the semester in a variety of assignments. Individual work in the Learning Resource Center may be required. Completing this course is equivalent to completing both ENGWR 51 and ENGRD 15. This course is not open to students who have completed ENGRD 56.

ENGWR 102  Proficient Writing  3 Units

Prerequisite: ENGWR 51 with a grade of “C” or better; or placement through the assessment process.
Advisory: ENGRD 116
Hours: 54 hours LEC
This course emphasizes topic selection, focusing topics, prewriting, organization of ideas, and development of essays in preparation for ENGWR 300. It also includes the review and further development of sentence writing and editing skills and analysis of selected readings. Written final drafts totaling at least 4,500 words are required.

ENGWR 103  Practical Communication  3 Units

Prerequisite: ENGWR 51 with a grade of “C” or better; or placement through the assessment process.
Advisory: ENGRD 15
Hours: 54 hours LEC
This course covers writing formats used in the workplace. It includes the application of communication models to workplace communication, review and further development of sentence writing and editing skills, and application of workplace writing techniques as preparation for ENGWR 300. Written final drafts totaling a minimum of 4,500 words are required.

ENGWR 104  Writing Center: Writing Skills  5-2 Units

Prerequisite: Completion of at least 1 unit of ENGWR 53 or placement through assessment process.
Advisory: BUSTEC 300 or CJSC 300.
Hours: 27-108 hours LAB
This course offers individualized instruction modules (mini English courses) that focus on improving writing skills, including intermediate to advanced sentence, paragraph, and essay writing, research paper writing, literary analysis, as well as editing and proofreading. Course offerings vary depending on a student’s needs and skill levels. Computers will be used to produce writing assignments. The same module may not be repeated for credit. This course is not a substitute for any other English courses. Registration is open through the twelfth week of the semester. Credit/No Credit only. May be taken three times.

ENGWR 105  College Timed Writing Workshop  1 Unit

Prerequisite: ENGWR 102 with a letter grade of A, B, C, D or INC.
Hours: 18 hours LEC
This course provides a structured approach to improving timed essay writing skills. It includes reviewing and practicing essay writing principles particularly in limited-time situations such as final essay exams: understanding writing assignments, structuring and developing paragraphs and essays, and editing and correcting errors in grammar and mechanics. This course does not replace ENGWR 102. This course may be taken twice. Credit/No Credit only.

ENGWR 294  Topics in English Writing  1 Unit

Hours: 18 hours LEC
This course introduces a number of strategies for successful reading and writing. Although the course focuses on applying these strategies within the context of an English course, the course is intended to provide skills that apply to any course of study.

ENGWR 300  College Composition  3 Units

Prerequisite: ENGWR 102 and 103 with grades of “C” or better; or placement through the assessment process.
Advisory: Concurrent enrollment in ENGRD 310 or 312.
General Education: AA/AS Area II(a); CSU Area A2; IGETC Area 1B
Course Transferable to UC/CSU
Hours: 54 hours LEC
1) This course offers further study and practice in analytical reading and writing. 2) It covers principles of logic such as reasoning inductively and deductively, recognizing logical fallacies, and suspending judgments. 3) Assigned readings include novels, short stories, poems, plays, biographies, and literary criticism. Essays written for the course (6,500 words minimum) generalize from the texts to present carefully reasoned arguments. At least one essay will include citations from secondary sources, documented according to current MLA format. Attendance at a live theatre production may be required. One or more additional hours per week in the Learning Resource Center or Writing Across the Curriculum or Reading Across the Disciplines programs may be required.

ENGWR 301  College Composition and Literature  3 Units

Prerequisite: ENGWR 300 with a grade of “C” or better
General Education: AA/AS Area II(b); CSU Area A3; IGETC Area 1B
Course Transferable to UC/CSU
Hours: 54 hours LEC
1) This course further develops analytical skills through writing and discussion. It examines methods by which people are persuaded to think, believe, and/or act. It also includes analyses of arguments or expressions of opinions for their validity and soundness. Finally, it focuses on critically assessing, developing, and effectively expressing opinions on issues, including cultural diversity. It emphasizes thinking clearly and organizing thought carefully by using principles of logic. The course includes writing a minimum of 6500 words.

ENGWR 302  Advanced Composition and Critical Thinking  3 Units

Prerequisite: ENGWR 300 with a grade of “C” or better
Advisory: ENGRD 310
General Education: AA/AS Area II(b); CSU Area A3; IGETC Area 1B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course further develops analytical skills through writing and discussion. It examines methods by which people are persuaded to think, believe, and/or act. It also includes analyses of arguments or expressions of opinions for their validity and soundness. Finally, it focuses on critically assessing, developing, and effectively expressing opinions on issues, including cultural diversity. It emphasizes thinking clearly and organizing thought carefully by using principles of logic. The course includes writing a minimum of 6500 words.

ENGWR 330  Writing for Publication  3 Units

Prerequisite: ENGWR 300 and ENGRD 15
Advisory: Concurrent enrollment in ENGRD 310 or 312.
General Education: AA/AS Area II(b); CSU Area A3; IGETC Area 1B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an introductory course on writing nonfiction for publication. Emphasis will be on developing a saleable magazine article; finding ideas and analyzing print and online publications: writing a query letter; researching and interviewing; organizing, writing, and illustrating an article.
ENGWR 331  Writing for Publication  3 Units
Advisory: ENGWR 300 or 330 with a grade of “C” or better.
Course Transferable to CSU
Hours: 54 hours LEC
This course offers a marketing approach to selling nonfiction writing. The course surveys print and online publication, including consumer magazines, trade journals, specialty publications, regional magazines, and local markets. Topics include an analysis of a variety of magazine article styles and types; writing and sending articles to the marketplace; individual and class criticism of student manuscripts. Emphasis is on increasing freelance writing production. The course may be taken twice for credit.

ENGWR 342  Introduction to Technical/Professional Communication  3 Units
Advisory: ENGWR 102 or 103; or placement through the assessment process.
General Education: AA/AS Area II(b)
Course Transferable to CSU
Hours: 54 hours LEC
This course emphasizes principles of reader-centered writing for the workplace, focusing specifically on aspects of technical and professional communication. The course teaches the writing of documents used in businesses, academia, industry, and government. These documents may include memos, letters, brochures, reports, procedures, proposals, grants, scientific reports, web sites, software documentation, and case studies. The course may include team projects that require collaboration outside the classroom. One or more additional hours per week may be required in the Learning Resource Center.

ENGWR 344  Technical/Professional Communication: Writing Reports  1.5 Units
Advisory: ENGWR 103.
Course Transferable to CSU
Hours: 27 hours LEC
This course emphasizes the writing of reports for the workplace and for technical and scientific disciplines. The course covers audience analysis, standard report formats, research techniques, and concise, grammatical writing.

ENGWR 348  Technical/Professional Communication: Plain English  1.5 Units
Advisory: ENGWR 102 or 103.
Course Transferable to CSU
Hours: 27 hours LEC
This course emphasizes the use of clear, concise English in professional writing. The course begins with a brief review of English grammar and then covers common writing problems. The course also teaches professional editing techniques.

ENGWR 350  Technical/Professional Communication: Proposal Writing  1.5 Units
Advisory: ENGWR 342.
Course Transferable to CSU
Hours: 27 hours LEC
This course emphasizes the writing of proposals. It includes planning, writing, and evaluating proposals, both formal and informal, solicited and unsolicited. Special attention is given to requests for proposal (RFPs) and how to respond to them. The use of workplace projects is encouraged. A collaborative project is required.

ENGWR 352  Technical/Professional Communication: Writing Technical Manuals  3 Units
Advisory: ARTNM 352, CISA 305, and ENGWR 342
Course Transferable to CSU
Hours: 54 hours LEC
This course is designed for professionals in all fields who need to design, create, and revise user and reference manuals in print or online formats. The course offers strategies for audience and task analysis, product learning, document design, drafting, procedure writing, and revision. Desktop publishing and/or online help development tools are used to produce a portfolio-quality print or online manual.

ENGWR 353  Technical/Professional Communication: Developing Help Systems  1.5 Units
Advisory: CISA 305 and ENGWR 352
Course Transferable to CSU
Hours: 27 hours LEC
This course emphasizes the design, development, and delivery of self-contained and Web-based help systems. It reviews task and audience analysis and introduces strategies for designing, writing, organizing, revising, and publishing help projects. In addition, it introduces industry-standard help development tools.

ENGWR 354  Introduction to Careers in Technical Communication  1 Unit
Advisory: ENGWR 102 or 103.
Course Transferable to CSU
Hours: 18 hours LEC
This course examines trends in the profession of technical writing, including job opportunities, salaries, responsibilities, requirements, and tools. Permanent employment is compared to independent contracting and contracting with agencies. Visiting technical writers describe a day on the job and share tips for getting started. Topics include letters of application, resumes, and portfolios.

ENGWR 356  Writing Formal Reports  1 Unit
Advisory: ENGWR 342 or 344.
Course Transferable to CSU
Hours: 18 hours LEC
This technical writing course covers all the elements of formal reports, including how to write letters of transmittal, create title pages, automatically generate tables of contents, write executive summaries, format pages, and prepare glossaries and appendices. Style lessons focus on controlling tone, tense, person, and voice.

ENGWR 358  Writing Training Materials  1 Unit
Advisory: ENGWR 342 or 344.
Course Transferable to CSU
Hours: 18 hours LEC
This technical writing course focuses on developing training materials, including student handbooks, instructor guides, and other instructional aids. The course surveys instructional design theory and the impact of technology in the form of CBT (Computer-Based Training) and WBT (Web-Based Training).
ENGWR 480  Honors College Composition  3 Units  
Prerequisite: Placement through assessment process.  
General Education: AA/AS Area II(a); CSU Area A2; IGETC Area 1A  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This honors composition course requires the analysis of professional essays and at least one full-length volume of non-fiction that exhibit complexity in both subject and structure. It emphasizes writing carefully reasoned, stylistically sophisticated essays of varying lengths and in varying rhetorical modes; at least one of those essays requires research and appropriate MLA documentation. Essays written during the term will total at least 6,500 words. One or more additional hours per week in the Learning Resources Center or Writing Across the Curriculum or Reading Across the Disciplines programs may be required.

ENGWR 481  Honors College Composition and Literature  3 Units  
Prerequisite: Cumulative GPA of 3.0 or higher; ENGWR 300 or 480 with a grade of “C” or better.  
General Education: AA/AS Area II(b); CSU Area A3; IGETC Area 1B  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This is an advanced course in critical reasoning and writing about literature. It examines the four major genres—the novel, the short story, poetry, and drama by authors representing diverse perspectives. It will explore principles of formal and informal logic, characteristics of sophisticated writing, and means of recognizing logical fallacies. Written analyses will total at least 6,500 words and will include material from secondary sources, cited and documented according to MLA format. Attendance at a live theater production may be required. One or more additional hours per week in the Learning Resource Center or Writing Across the Curriculum or Reading Across the Disciplines programs may be required.

ENGWR 482  Honors Advanced Composition and Critical Thinking  3 Units  
Prerequisite: Cumulative GPA of 3.0 or higher; ENGWR 300 or 480 with a grade of “C” or better.  
Advisory: ENGRD 310 or 312  
General Education: AA/AS Area II(b); CSU Area A3; IGETC Area 1B  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This is a course in critical reasoning, reading, and writing requiring a high level of competence in English composition. Complex texts (essay and book-length works) reflecting a variety of cultural, historical, and philosophical perspectives will be read, discussed, and analyzed. The course includes inductive and deductive reasoning, fallacious reasoning, and use of persuasive language. The minimum word requirement of 6,500 words will be divided among at least four formal essays, ranging from 1,000-3,000 words each, two of which will include primary and secondary research and MLA format. Several group and individual class presentations will be required.
American River College offers courses in English as a Second Language (ESL) designed to provide non-native speakers of English with a command of the language necessary to pursue career, transfer and degree goals.

**ESL 97   ESL Center: Integrated Topics in ESL   25-1 Units**

**Prerequisite:** ESLL 20, ESLR 20, and ESLW 20 with grades of "C" or better; or placement through the assessment process.

**Hours:** 13.5-54 hours LAB

This course enables English as a Second Language students placed at the novice-high through intermediate-high levels to develop, expand and reinforce multiple English language skills while working independently and/or in small groups. Coursework includes integrated study topics relative to vocabulary and study skills, reading and grammar use, idiomatic language study and application, TOEFL preparation and assorted integrated software programs. Students may register until the twelfth week of the semester as space permits and may earn .25 unit of credit for every 13.5 hours of work. ESL 97 is graded credit/no-credit and may taken four times.

**ESL 181   ESL Center: Skills in ESL   .5-1.5 Units**

**Prerequisite:** ESLL 310, ESLR 310, and ESLW 310 with a grade of "C" or better or placement through the assessment process.

**Advisory:** Concurrent enrollment in at least one ESL course at the 320, 330, or 340 level.

**Hours:** 27-81 hours LAB

Coursework consists of a variety of self-study modules on such topics as grammar, composition, reading, vocabulary, listening, pronunciation, study skills, and work place skills and is designed to develop and reinforce English language skills at advanced levels. Independent work on complex assignments will be required. Credit/No Credit grading only. May be taken for a maximum of 6 units.

**ESL 350   Advanced Composition and Literature   4 Units**

**Prerequisite:** ESLR 340 and ESLW 340 with grades of "C" or better; General Education: AA/AS Area II(b); CSU Area A3

**Course Transferable to UC/CSU**

**Hours:** 72 hours LEC

This course covers reading and interpreting major types of literature, including poetry, drama and fiction. It includes study in critical thinking and essay writing. It also emphasizes reading and written analysis of major literary works. Writing assignments total at least 8,500 words. Field trips may be required.

**ESL 50   Intermediate-Mid Grammar   4 Units**

**Prerequisite:** ESLW 40 with a grade of "C" or better, or placement through the assessment process.

**Advisory:** Concurrent enrollment in at least one ESL course at the student's assessed level(s).

**Hours:** 72 hours LEC

This course concentrates on the fundamental grammatical structures of English at the Intermediate-Mid Level. It focuses on grammatical structures in appropriate contexts. Oral and written practice with an emphasis on sentence structure and verb tenses is included.

**ESL 310   Intermediate-High Grammar   4 Units**

**Prerequisite:** ESLG 50 with a grade of "C" or better or placement through the assessment process.

**Advisory:** Concurrent enrollment in other ESL skills at the student's assessed level.

**Course Transferable to CSU**

**Hours:** 72 hours LEC

This course focuses on further practice of the forms, meanings, and usage of grammatical structures of English at the intermediate-high level. Verbal practice in class reinforces the structures studied.

**ESL 320   Advanced-Low Grammar   4 Units**

**Prerequisite:** ESLG 310 with a grade of "C" or better, or placement through the assessment process.

**Advisory:** Concurrent enrollment in other ESL skills at the student's assessed level.

**Course Transferable to CSU**

**Hours:** 72 hours LEC

This course focuses on practice in the forms and meanings of major structures used in writing with an emphasis on clause structure at the advanced-low level. Oral practice reinforces the structures studied. Assignments emphasize sentence structure in the context of longer written work.

**ESL 20   Novice Listening and Speaking   4 Units**

**Advisory:** One year of adult school and concurrent enrollment in ESL.

**Reading and Writing courses at the student's assessed levels are highly recommended.**

**Hours:** 72 hours LEC

This course focuses on understanding and producing appropriate language utilizing learned phrases and expressions required for everyday communication. Basic clarification strategies will be demonstrated and practiced. English sounds and intonation patterns will be introduced. Credit/no credit grading only. May be taken twice for credit.
ENGLISH AS A SECOND LANGUAGE

ESLL 30  Novice-High Listening and Speaking  4 Units
Prerequisite: Placement through assessment.
Advisory: Concurrent enrollment in an ESL Reading and Writing course at the student's assessed level.
Hours: 72 hours LEC
This is a course in listening comprehension and practical conversation for non-native English speakers who plan to take college courses. The sounds of American English, stress, rhythm, and intonation patterns will be introduced. Credit/no credit grading only. May be taken twice for credit.

ESLL 40  Intermediate-Low Listening and Speaking  4 Units
Prerequisite: ESLL 30 with a grade of "C" or better, or placement through assessment.
Advisory: Concurrent enrollment in an ESL Reading and Writing course at the student's assessed level.
Hours: 72 hours LEC
This is a course that develops the listening and speaking skills needed to succeed in college courses. Activities will focus on developing phrases and sentences to communicate ideas in familiar situations. The course includes group and individual listening and speaking activities, an overview of American English sounds, and practice in stress, rhythm, and intonation. May be taken twice for credit.

ESLL 50  Intermediate-Mid Listening and Speaking  4 Units
Prerequisite: ESLL 40 with a grade of "C" or better or placement through assessment.
Advisory: Concurrent enrollment in an ESL Reading and Writing course at the student's assessed level.
Hours: 72 hours LEC
This is a course to help students understand and be understood in both familiar and unfamiliar situations. Class activities will introduce academic listening and speaking activities and will continue to work on pronunciation skills. May be taken twice for credit.

ESLL 97  ESL Center: Listening Skills in ESL  .25-1 Units
Prerequisite: ESLL 20, ESLR 20, and ESLW 20 with grade of "C" or better; or placement through the assessment process.
Hours: 13.5-54 hours LAB
This course enables English as a Second Language students placed at the novice-high through high-intermediate levels to develop and reinforce specific listening and speaking skills while working independently and/or in small groups. Coursework includes offerings in listening comprehension, conversational skills, pronunciation, vocabulary and oral grammar topics. Students may register until the twelfth week of the semester as space permits and may earn .25 unit of credit for every 13.5 hours of work. ESLL 97 is graded credit/no-credit and may be taken four times.

ESLL 310  Intermediate-High Listening and Speaking  4 Units
Prerequisite: ESLL 50 with a grade of "C" or better, or placement through assessment.
Advisory: Concurrent enrollment in an ESL Reading and Writing course at the student's assessed level.
Course Transferable to CSU
Hours: 72 hours LEC
This is a course to further practice and develop listening and speaking for academic purposes, including comprehension of lecture, note-taking, and classroom discussion. This course covers a review of American English sounds with emphasis on understanding and producing stress, rhythm, and intonation patterns to communicate effectively. May be taken twice for credit.

ESLL 320  Advanced-Low Listening and Speaking  4 Units
Prerequisite: ESLL 310 with a grade of "C" or better or placement through assessment.
Advisory: Concurrent enrollment in an ESL Reading and Writing skill course at the student's assessed level.
Course Transferable to CSU
Hours: 72 hours LEC
This is a course with intensive practice in listening and active participation strategies for American college courses. Activities include listening to extended lectures from various subject areas, refining note-taking skills, participating in in-depth discussions, and giving oral presentations. Practice of pronunciation skills will continue. May be taken twice for credit.

ESLR 20  Novice Reading  4 Units
Advisory: One year of adult school and concurrent enrollment in ESL Writing and Speaking courses at the student's assessed levels are highly recommended.
Hours: 72 hours LEC
This course, intended for non-native speakers of English, focuses on literal understanding of basic vocabulary and readings at the Novice level. There is a focus on expanding basic vocabulary through readings, word parts, and word form activities. The concepts of using context and giving personal reactions to readings are introduced.

ESLR 30  Novice-High Reading  4 Units
Prerequisite: ESLR 20 with a grade of "C" or better or, for those not previously enrolled in ESLR 20, placement through the assessment process.
Advisory: Concurrent enrollment in an ESL Listening and Speaking and Writing course at the student's level.
Hours: 72 hours LEC
This course focuses on literal comprehension of words, phrases, sentences, and paragraphs in short texts at the Novice-High level. Topics include core vocabulary, spelling rules, and grammar necessary to understand short readings.

ESLR 40  Intermediate-Low Reading  4 Units
Prerequisite: ESLR 30 (Novice-High Reading) with a grade of "C" or better; or, for those not previously enrolled in ESLR 30, placement through the assessment process.
Advisory: Concurrent enrollment in an ESL Listening and Speaking and Writing course at the student's assessed level.
Hours: 72 hours LEC
This course, intended for non-native speakers of English, focuses on understanding of vocabulary and readings at the Intermediate-Low level. There is an emphasis on developing reading skills, building vocabulary, and increasing fluency. Additional class activities include discussing and writing about readings.

ESLR 50  Intermediate-Mid Reading  4 Units
Prerequisite: ESLR 40 with a grade of "C" or better; or, for those not previously enrolled in an ESL reading course within the Los Rios District, placement through the assessment process.
Advisory: Concurrent enrollment in an ESL Listening/Speaking and an ESL Writing course at the student's assessed level.
Hours: 72 hours LEC
This course, intended for non-native speakers of English, focuses on the introduction of academic reading skills, with an emphasis on vocabulary development, and literal comprehension. Course activities include reading, analyzing, discussing and writing responses to ideas expressed in texts at the Intermediate-Mid level, as well as further practice with dictionary skills.
**ESLR 97  ESL Center: Reading Skills in ESL**

Prerequisite: ESLL 20, ESLR 20, and ESLW 20 with grade of “C” or better; or placement through the assessment process.

*Hours: 72 hours LEC*

*Course Transferable to CSU*

Advisory: Concurrent enrollment in courses addressing other ESL skills at the student’s assessed level.

This course enables English as a Second Language students placed at the novice-high through intermediate-high levels to develop, expand, and reinforce a variety of reading and vocabulary skills while working independently and/or in small groups. Coursework includes topics relative to the development of word parts and form, vocabulary expansion, dictionary skills, as well as comprehension, fluency, and summarization skills. Students may register until the twelfth week of the semester as space permits and may earn .25 unit of credit for every 13.5 hours of work. ESLR 97 is graded credit/no-credit and may be taken four times.

**ESLR 310 Intermediate-High Reading**

Prerequisite: ESLR 50 or, for those not previously enrolled in an ESL reading course within the Los Rios District, placement through the assessment process.

*Advisory: Concurrent enrollment in courses addressing other ESL skills at the student’s assessed level.*

*Course Transferable to CSU*

*Hours: 72 hours LEC*

This course, intended for non-native speakers of English, focuses on the introduction of academic reading skills with an emphasis on speed, vocabulary expansion, and comprehension of ideas. Practice is provided in understanding, paraphrasing, summarizing, and responding, either orally or in writing, to ideas expressed in reading.

**ESLR 320 Advanced-Low Reading**

Prerequisite: ESLR 310 with a grade of “C” or better; or, for those not previously enrolled in an ESL reading course within the Los Rios District, placement through the assessment process.

*Advisory: Concurrent enrollment in ESL Listening/Speaking and an ESL writing course at the student’s assessed level.*

*Course Transferable to CSU*

*Hours: 72 hours LEC*

This course, intended for non-native speakers of English, focuses on refining academic reading skills with an emphasis on speed, vocabulary development, and analytical comprehension. It also includes practice in research and synthesizing skills and extensive writing based on critical analysis of readings at the Advanced-Low level.

**ESLR 340 Advanced Reading Skills Through Literature**

Prerequisite: ESLR 320 with a grade of “C” or better; or, for those not previously enrolled in an ESL reading course within the Los Rios District, placement through the assessment process.

*Advisory: Concurrent enrollment in ESL Listening/Speaking and Writing courses at the student’s assessed levels.*

*Course Transferable to CSU*

*Hours: 72 hours LEC*

This course, intended for advanced non-native speakers of English, is designed to improve vocabulary and reading skills. Readings include various forms of literature from a variety of cultures, including essays, poetry, drama, short stories, and novels. This course focuses on further development of critical thinking and reading skills needed for academic performance: (1) analysis and comprehension skills, (2) research and synthesizing skills, (3) vocabulary development, and (4) flexibility of reading rate. It also emphasizes the comparison and contrast of universal and metaphorical themes, as applied in various cultures, and includes extensive writing based on critical analysis of readings.
ESLW 310  Intermediate-High Writing  4 Units
Prerequisite: ESLW 50 with a grade of “C” or better, or placement through assessment.
Advisory: Concurrent enrollment in other ESL skills at the student's assessed level.
Course Transferable to UC/CSU
Hours: 72 hours LEC
This course further develops the ability to respond to a variety of essay assignments. Class discussions and written responses to readings and prompts will exercise critical thinking skills. Control of a range of sentence structures will be refined.

ESLW 320  Advanced-Low Writing  4 Units
Prerequisite: ESLW 310 with a grade of “C” or better or placement through assessment.
Advisory: Concurrent enrollment in other ESL skills at the student's assessed level.
Course Transferable to UC/CSU
Hours: 72 hours LEC
This course exercises analytical and logical skills in the production of focused, developed and organized essays on a variety of topics. The course emphasizes sentence variety and the mechanics of English in the context of the essay. Essays will incorporate outside sources as well as personal experience.

ESLW 340  Advanced Composition  4 Units
Prerequisite: ESLW 320 with a grade of “C” or better for students continuing in ESL courses or placement through the assessment process for new ESL students.
Advisory: Concurrent enrollment in an ESL Reading and an ESL Listening and Speaking course at the student's assessed levels.
General Education: AA/AS Area II(a); CSU Area A2
Course Transferable to UC/CSU
Hours: 72 hours LEC
This college composition course emphasizes reading analysis, writing, and critical thinking skills, while also addressing the specific language and cultural needs of non-native speakers. These skills are essential for successful completion of a two or four-year college program. Writing assignments include expository and argumentative prose based on analysis of a variety of assigned readings and original research. Students write a minimum of 8,500 words divided among 6-8 essays, including a fully documented research paper and in-class essays. This course satisfies the Written Expression Competency requirement for graduation and the English composition requirement of some California colleges and universities.
Fashion Design Degree

The associate degree in Fashion Design develops the skills necessary to coordinate original design concepts with manufacturing, marketing, and merchandising practices. Course work includes basic industry sewing, pattern drafting, draping, textiles, historic and current fashion trends, hand and computer illustration, and entrepreneurial opportunities.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Create sample constructions utilizing basic industry sewing skills.
- Assess interrelationships between current fashion trends and influences of cultural, social, political, technological and environmental issues.
- Analyze characteristics of various fibers and how they relate to the finished fabric.
- Appraise fashion and style features of selected historical periods of the western world.
- Utilize free-hand and computer-generated techniques to create illustrations.
- Evaluate fashion trends and forecasting techniques.
- Construct patterns by computer generation and the flat pattern method.
- Devise draping techniques utilizing industry specifications.
- Conceive designs, construct patterns, and sew garments to be shown in a fashion show.
- Appraise and evaluate opportunities to start a design business in the fashion industry.

Career Opportunities

This program prepares students for entry-level jobs in apparel production companies, apparel manufacturing plants, designer workrooms, and custom sewing workrooms. This program also prepares students for self-employment or entrepreneurship. Examples of careers in Fashion Design include: Assistant Designer, CAD Technician, Computer Digitizer, Costing Engineer, Customer Services, Designer, Design Room Assistant, Fashion Illustrator, Fashion Stylist, First Pattern Maker, Grader, Manufacturer’s Sales Representative, Marker Maker, Operation Manager, Piece Goods Buyer, Product Specialist, Production Manager, Production Pattern Maker, Quality Controller, Quick Response Manager, Sales Manager, Sample Maker, Sewing Room Supervisor, Showroom Assistant, Tailor, Textile Colorist, Textile Croquis Painter, Textile Designer, Textile Researcher, Textile Tester, and Trim Buyer.

Associate Degree Requirements: The Fashion Design Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Fashion Design Certificate

The certificate in Fashion Design develops the skills necessary to coordinate original design concepts with manufacturing, marketing, and merchandising practices. Course work concentrates on basic industry sewing, pattern drafting, historic and current fashion trends, hand and computer illustration, and textiles as they relate to the fashion industry.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Draft a pattern and sew a garment which meets industry specifications.
- Analyze fashion fundamentals as they relate to changes within the fashion industry.
- Evaluate how one’s dress influences image projection and silent communication.
- Assess characteristics of various fibers and how they relate to the finished fabric.
- Distinguish between a flat working sketch and a fashion illustration.
- Construct patterns and slopers utilizing the flat pattern method.
- Conceive designs, construct patterns, and sew garments to be shown in a fashion show.

Fashion Merchandising Degree

The associate degree in Fashion Merchandising develops the skills necessary for jobs in fashion coordinating, promotion, visual presentation, management, merchandising, retail buying, and entrepreneurial opportunities.
Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Assess distribution and marketing procedures as they relate to the fashion industry.
- Evaluate how one's dress influences image projection and silent communication.
- Compare and contrast historical garment design to contemporary dress.
- Conceive and produce a fashion show.
- Critique principles of design as they relate to arranging visual displays.
- Analyze the qualities necessary for best performance and serviceability of wearing apparel.
- Solve mathematical formulas and equations for retail buying.
- Draft a six-month retail buying plan.
- Assess characteristics of various fibers and how they relate to the finished fabric.
- Distinguish between a flat working sketch and a fashion illustration.
- Appraise and evaluate opportunities to start a fashion related business.

Career Opportunities

This program prepares students for entry-level jobs in retail merchandising, such as Department Store Buyers, Small Boutique Buyers, Visual Merchandisers, Sales Associates, Management Trainees, Product Developers and Wholesalers. This program also prepares students for self-employment or entrepreneurship.

FASHN 151 Basic Industry Sewing 3 Units

Hours: 36 hours LEC; 54 hours LAB

This course introduces basic fashion industry sewing techniques. Emphasis is on industry standards and specifications concerning construction, assembly, and sequence of operations. No previous sewing experience is required.

FASHN 294 Topics in Fashion 5-4 Units

Advisory: ENGW 102 or 103 and ENGRD 116 or ESLR 320, ESLW 320, or placement through assessment.

Hours: 9-72 hours LEC

This course is designed to give students an opportunity to study topics in fashion design and/or fashion merchandising not included in current course offerings. May be taken four times up to a maximum of 6 units providing there is no duplication of topics.

FASHN 298 Work Experience in Fashion 1-4 Units

Prerequisite: Current employment or voluntary position.

General Education: AA/AS Area III(b)

Hours: 18-72 hours LEC; 60-300 hours LAB

This course reflects supervised work experience in apparel merchandising. Students work in cooperating fashion apparel firms. Class enrollment is dependent upon student being in a paid or volunteer work experience learning environment. May be repeated for credit for a maximum of sixteen units.

FASHN 300 Introduction to the Fashion Industry 3 Units

Advisory: ENGW 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.

Course Transferable to CSU

Hours: 54 hours LEC

This course is a survey of the complex diversity of today’s fashion industry. It introduces the process of how the fashion business works in sequential order from the concept to the consumer. It also provides an overview of fashion design, production, distribution, and merchandising. Field trips may be required.

FASHN 310 Fashion Analysis/Clothing Selection 3 Units

Course Transferable to CSU

Hours: 54 hours LEC

This course explores how influences on fashion (social, political, cultural, technological, and environmental) are reflected in current fashion trends. The function, aesthetics, and attitude of dress, including image projection, perceptions, and gender roles, are explored as a form of silent communication. A generational approach to consumer buying behavior and response towards fashion is examined. Other aspects of fashion analysis include identifying apparel details, styles, and elements of design.
FASHN 320  Textiles 3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; or ESLR 320 and ESLW 320 with a grade of "C" or better; or placement through assessment process.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a study of natural and man-made fibers, methods of fabrication and finishes. Topics include the selection, use and care of modern fabrics as they relate to clothing and home furnishings. (CAN FCS 6)

FASHN 330  History of Western World Fashion 3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area I; CSU Area C1
Course Transferable to CSU
Hours: 54 hours LEC
This course provides a comprehensive survey of how fashion has been influenced by major world historical events. Selected eras of history are viewed within a cultural, political, and economical context as expressed in dress. Emphasis will include cross cultural influences on major fashion trends throughout selected historical periods of the western world from the time of the Egyptians to the present.

FASHN 334  Vintage Costuming .5-2 Units
Advisory: ENGWR 51 and ENGRD 15, or ESLR 310 and ESLW 310; or placement through assessment process.
Course Transferable to UC/CSU
Hours: 9-18 hours LEC; 27-54 hours LAB
This course covers the factors that influence historical costume design and production. Principles and techniques involved in developing and constructing a period costume. The course will demonstrate these by fabricating their own costumes. The historical period will change each semester. May be taken four times for credit on different topics with a maximum of 8 units. Not open to those who have completed TA 416 on the same topic.

FASHN 342  Fashion Illustration 3 Units
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is an introduction to hand and computer generated fashion illustration. Illustration concepts unique to fashion are explored using various hand techniques and computer design software. Application of design elements and principles include color, texture, line, balance, and apparel details.

FASHN 344  Apparel Line Development 3 Units
Prerequisite: FASHN 342 with a grade of "C" or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course applies the skills used in computer-based fashion illustration and design. Emphasis is placed on the principles and elements of design to develop a line of apparel including researching fashion trends, determining a target market, selecting colors and fabrics and designing a line using computer software.

FASHN 353  Advanced Sewing and Draping 3 Units
Prerequisite: FASHN 151 with a grade of "C" or better
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course applies the skills learned in FASHN 151 and introduces more advanced techniques such as working with more complex pattern adjustments, draped patterns, notions and fabrics. Draping techniques are explored.

FASHN 370  Pattern Making and Design 3 Units
Prerequisite: FASHN 151 with a grade of "C" or better.
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; or ESLR 320, ESI 320, and ESIW 320 with a grade of "C" or better; or placement through assessment process.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is an introduction to the flat pattern method of apparel design. Drafted slopers from measurements are used to create original designs. Construction techniques are introduced for the completion of these original designs. A field trip is required.

FASHN 374  Pattern Making and Design 3 Units
Prerequisite: FASHN 151 with a grade of "C" or better.
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; or ESLR 320, ESI 320, and ESIW 320 with a grade of "C" or better; or placement through assessment process.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course applies the skills used in computer-based fashion illustration. Illustration concepts unique to fashion are explored using various hand techniques and computer design software. It makes comprehensive use of patternmaking skills acquired in previous patternmaking classes. Working from a designer's sketch, patterns are drafted and completed. A production pattern is made according to industry requirements and a muslin sample of the garment is constructed.

FASHN 378  Advanced Pattern Making and Design 3 Units
Prerequisite: FASHN 374 with a grade of "C" or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers advanced patternmaking techniques including pattern drafting and grading. It focuses on industry methods of duplicating ready-to-wear apparel. Industry fit specifications and construction techniques are refined. A field trip may be required.

FASHN 380  Computer Patternmaking 3 Units
Prerequisite: FASHN 378 with a grade of "C" or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This advanced pattern drafting course introduces industry computer software. It makes comprehensive use of patternmaking skills acquired in previous patternmaking classes. Working from a designer's sketch, patterns are drafted and completed. A production pattern is made according to industry requirements and a muslin sample of the garment is constructed.

FASHN 382  Collection Design and Production 3 Units
Prerequisite: FASHN 353 and 374 with grades of "C" or better
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course applies the skills obtained in previous design and patternmaking classes. Topics include designing a small collection, creating and modifying patterns, and constructing original garments. The role of accessorizing the completed design is explored, including the use of hats, jewelry, shoes and scarves. Finished collections are presented on the runway in a fashion show. This course may be taken two times for credit, showcasing different design collections.

FASHN 393  Fashion Promotion 3 Units
Prerequisite: FASHN 300.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a comprehensive study of promotion and presentation techniques and instinctive uses of fashion advertising, publicity and visual merchandising will be explored. The focus will be on special events such as, fashion shows, trunk shows, and the use of promotional videos. Basic media strategy, the role it plays, and its relationship with fashion merchandising will be examined. Planning and technical skills will be developed through the activity of producing a fashion show. Field trips will be required.
FASHN 395  Visual Merchandising  2 Units  
Course Transferable to CSU  
Hours: 18 hours LEC; 54 hours LAB  
This course introduces current visual merchandising techniques, equipment, lighting, and materials. The application of principles and practices in arranging and displaying fashion merchandise for single store and chain organization usage are covered. This practical experience with showcases, window, and on-floor displays will provide familiarity with professional fashion promotional presentations. A field trip is required.

FASHN 397  Fashion Retail Buying  3 Units  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course addresses the practical and business aspects of the fashion industry. Topics include defining the customer and researching current buying trends. Activities specific to fashion retail buying are explored, including developing a buying plan and planning market purchases. Career opportunities in retail buying and merchandising are also explored. Field trips may be required.

FASHN 398  Fashion Entrepreneur  3 Units  
Advisory: BUS 100  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course provides the necessary skills to become an entrepreneur in the fashion industry. It addresses the creation of a small business specific to fashion retail or apparel design and manufacturing. Topics include recognizing and creating business opportunities, marketing, selling techniques, tracking costs, and securing financing. A model business plan is developed by exploring resources necessary to be successful in a fashion business.

FASHN 498  Work Experience in Fashion  1-4 Units  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.  
Enrollment Limitation: Be in a paid or non-paid internship, volunteer opportunity or job related to fashion. Students are advised to consult with the Fashion Department faculty to review specific certificate and degree work experience requirements.  
Course Transferable to CSU  
Hours: 60-300 hours LAB  
This course provides students with opportunities to develop marketable skills in preparation for employment or advancement within the field of fashion. It is designed for students interested in work experience and/or internships in transfer level degree occupational programs. Course content includes understanding the application of education to the workforce; completion of required forms which document the student’s progress and hours spent at the work site; and developing workplace skills and competencies. Appropriate level learning objectives are established by the student and the employer. During the semester, the student is required to fulfill a weekly orientation and 75 hours of related paid work experience, or 60 hours of unpaid work experience for one unit. An additional 75 or 60 hours of related work experience is required for each additional unit. The weekly orientation is required for first time participants, returning participants are not required to attend the orientation but are required to meet with the instructor as needed to complete all program forms and assignments. Work Experience may be taken for a total of 16 units when there are new or expanded learning objectives.
Fire Technology Degree and Certificate

The Fire Technology A.A. degree or certificate focuses on preparation for a career in the fire service. It includes educational opportunities for those currently employed within the fire service, and those within volunteer fire agencies. Courses include those required for transfer to four-year colleges, those required to meet eligibility requirements for employment, and those required for incentive salary increases.

Firefighting is a public safety profession that requires special knowledge of safety, rescue, emergency medical operations, and hazardous materials. A grade of “C” or better is required in each fire technology course for progression in the program.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Complete the duties of an entry level firefighter
• Perform as an EMT at a scene of an incident or emergency
• Identify the fundamentals of the Incident Command System and assess how it is used by fire departments at emergencies
• Compare and contrast the make up of a moderate size fire department with a large fire department and a fully paid department with a volunteer fire department
• Describe the components of Firefighting Personnel Protective Equipment (PPE)
• Compare and contrast modern PPE with antiquated PPE
• Analyze simulated fire situations for indicators of flashover versus backdraft potential and prescribe mitigation measures to prevent them from occurring
• Assess the fundamentals of physical science as they relate to fire protection
• Compare and contrast fire prevention versus backdraft potential and prescribe mitigation measures to prevent them from occurring
• Describe the fundamentals of building construction and apply this knowledge to fire situations where forcible entry and overhaul evolutions may weaken the already fire-weakened structure
• Compare and contrast fire prevention versus fire suppression efforts
• Draft a pre-fire plan
• Evaluate and analyze the rate of fire spread in a structure fire
• Explain the physical and chemical properties of fire

Career Opportunities

A great variety of career opportunities is open to students who successfully complete specific portions of this program of study. There is an urgent demand for trained personnel in such areas as firefighter-paramedic, fire investigation, fire prevention, hazardous materials, public education, and firefighter. Financially and professionally rewarding employment in these areas may be found on the local, state, federal and private levels.

Associate Degree Requirements: The Fire Technology Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

FT 110 Fire Apparatus  
Advisory: FT 300  
Hours: 54 hours LEC
This course covers various aspects of fire apparatus. Topics include design, typing, specifications, construction, performance capabilities, and maintenance. Also included are warning devices and the utilization of apparatus in fire service emergencies.

FT 130 Fire Company Organization and Management  
Advisory: FT 300 or FIRE 1090.  
Hours: 54 hours LEC
This course provides a review of fire department organization, planning, organizing and supervising to meet the needs of the fire department, with emphasis on the company officer’s role.

FT 132 Fire Service Records and Reports  
Advisory: FT 300 or FIRE 1090.  
Hours: 54 hours LEC
This course covers fire department records systems, principles of report writing, applications in the area of pre-fire survey, and post-fire reporting.

FT 140 Related Codes and Ordinances  
Advisory: FT 300 or FIRE 1090.  
Hours: 54 hours LEC
This course includes familiarization and interpretation of national, state and local codes, ordinances and laws which influence the field of fire prevention.
FT 170  Fire Investigation  3 Units
Advisory: FT 300
Hours: 54 hours LEC
This course introduces the general practices involved in fire investigation. Topics include determining the cause of fires (accidental, suspicious and incendiary); types of fires; related laws; introduction to incendiary fires; motives for starting fires; recognizing and preserving evidence; interviewing witnesses and suspects; arrest, detention, and court procedures.

FT 180  Rescue Practices  3 Units
Advisory: FT 300 or FIRE 1090.
Hours: 54 hours LEC
This course focuses on rescue problems and techniques, emergency rescue equipment; toxic gases, chemicals, diseases, and radiation hazards. Also included are the care of victims including emergency childbirth, respiration and resuscitation, extrication and other emergency conditions.

FT 190  Fire Tactics and Strategy  3 Units
Advisory: FT 300
Hours: 54 hours LEC
This course of instruction is a basic requirement of all fire suppression personnel. Topics include the principles of fire control, utilization of staffing, equipment and placement, extinguishing agents, and fire control methods on the fireground.

FT 192  Wildland Fire Control  3 Units
Advisory: FT 300
Hours: 54 hours LEC
This course covers all aspects of wildland fire fighting and introduces advances in technology for wildland fire suppression. Topics include fire behavior, weather conditions, topography factors, safety, prevention, extinguishing methods, initial attack, Incident Command System (ICS), communications, aircraft assistance, hand crews, and bulldozer operation.

FT 200  Emergency Medical Technician I  5 Units
Same As: PMED 100
Prerequisite: HEED 323 with a grade of “C” or better
Enrollment Limitation: Not open to students with a current EMT-Basic certificate.
Hours: 72 hours LEC, 72 hours LAB
This course is designed to provide instruction to the level of Emergency Medical Technician - Basic. Topics include skills necessary to provide emergency medical care at a basic life support level with a fire, ambulance, or other specialized service. This course is conducted in compliance with Title 22, Division 9, Chapter 2 of the California Code of Regulations and Emergency Medical Technician - Basic (EMT-I). A "C" or better is required for certification as Emergency Medical Technician - Basic. Field trips are required. This course may be taken four times for credit.

FT 209  Emergency Medical Technician IFS Refresher Course  1 Unit
Prerequisite: Valid EMT certificate.
Hours: 20 hours LEC; 4 hours LAB
Persons who hold a valid Emergency Medical Technician I certificate, or a certificate that has been expired for less than one year, shall be admitted. Consists of classroom instruction, simulation and supervised field instruction. May be taken four times for credit.

FT 300  Fire Protection Organization  3 Units
Course Transferable to CSU
Hours: 54 hours LEC
This course provides an introduction to fire protection, career opportunities and related fire service fields. Topics include philosophy and history of fire protection, fire loss analysis, organization and function of public and private fire protection services, fire departments as part of local government, laws and regulations affecting the fire service, fire service nomenclature, specific fire protection functions, basic fire chemistry and physics, introduction to fire protection systems, and introduction to fire strategy and tactics.

FT 301  Fire Prevention Technology  3 Units
Corequisite: FIRE 1090 or FT 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course provides fundamental information regarding the history and philosophy of fire prevention. Topics include organization and operation of a fire prevention bureau, use of fire and building codes, fire investigation, identification and correction of fire hazards, plan review, report and record keeping, and duties and responsibilities of a fire prevention officer.

FT 302  Fire Protection Equipment and Systems  3 Units
Corequisite: FIRE 1090 or FT 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course provides information relating to sprinkler design and the operation of fire detection and alarm systems. Topics include fire cause and effect, heat and smoke control systems, special protection and sprinkler systems, water supply for fire protection, standpipe systems, and portable fire extinguishers.

FT 303  Building Construction for Fire Protection  3 Units
Corequisite: FIRE 1090 or FT 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course is the study of the components of building construction that relate to fire safety. Specific focus is on elements of construction and the design of structures that are shown to be key factors when inspecting buildings, pre-planning fire operations and emergency operations at fires. Topics include wood, ordinary, steel, and concrete construction, principles of fire and smoke growth, and fire resistance construction.

FT 304  Fire Behavior and Combustion  3 Units
Corequisite: FIRE 1090 or FT 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course provides the theories and fundamentals of how and why fires start, spread and are controlled. Topics include an in-depth study of fire chemistry and physics, fire characteristics of materials, extinguishing agents, and fire control techniques.

FT 310  Fire Service Hydraulics  3 Units
Advisory: FT 300 or FIRE 1090.
Course Transferable to CSU
Hours: 54 hours LEC
This course provides information on obtaining water from various sources of supply, properly routing it through the pump, and discharging it through various devices with the proper pressures for fire suppression.

FT 320  Hazardous Materials  3 Units
Advisory: FT 300 or FIRE 1090.
Course Transferable to CSU
Hours: 54 hours LEC
This course is an introduction to the world of hazardous chemicals, including physical properties, uses in industry, and characteristics when involved in spills, fires, and accidents. This course also provides basic hazardous materials information regarding emergency procedures, legal requirements, and compliance to regulations.
American River College offers courses in French, German, Italian, Japanese, Russian, and Spanish designed to help students develop a command of a variety of languages necessary to pursue career, transfer and degree goals.

**Language Studies Degree**

The Language Studies degree provides an area of emphasis in communication skills in both English and foreign languages. It is intended for students wishing to develop communication skills for the work place. Students who work closely with their counselors can use this area of emphasis to prepare for majoring at a four-year college in foreign languages as well as any other majors which require proficiency in one or more foreign languages.

**Student Learning Outcomes**

Upon completion of this program, the student will be able to:

- Write expository and argumentative papers.
- Synthesize ideas and develop conclusions.
- Examine the connection between culture and communication.
- Engage in conversation and written correspondence in a language other than English.

**French**

**FREN 351 Conversational French, Elementary** 3 Units  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course is designed for students at the elementary or 401 level in French. Conversations and discussions, both controlled and spontaneous, are used to develop basic conversational skills in French. Emphasis will include oral proficiency and development of French cultural awareness.

**FREN 352 Conversational French, Elementary** 3 Units  
Prerequisite: FREN 351 with a grade of “C” or better or two years of high school French.  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course is designed for students at the elementary or 402 level in French. Students will continue the development of oral-aural skills in French through conversations and discussions, both controlled and spontaneous. Emphasis will include oral proficiency and development of French cultural awareness.

**FREN 361 Conversational French, Intermediate** 3 Units  
Prerequisite: FREN 352 with a grade of “C” or better or three years of high school French.  
Course Transferable to CSU  
Hours: 54 hours LEC  
Students will continue the development of oral-aural skills in French through small group conversations and class discussions, both directed and open-ended. Grammar structures, idiomatic expressions, and verb usage will be reviewed. Reports, discussions on current events, assigned readings, and personal interest topics will be used in individual and group presentations.

**FREN 362 Conversational French, Intermediate** 3 Units  
Prerequisite: FREN 361 with a grade of “C” or better or four years of high school French.  
Course Transferable to CSU  
Hours: 54 hours LEC  
Students will continue to develop oral proficiency through emphasis on individual and small group presentation. Simple French readings will be used as a vehicle to continue the study and appreciation of the French culture and folklore through discussions and debates.

**FREN 401 Elementary French** 4 Units  
General Education: AA/AS Area I; IGETC Area 6  
Course Transferable to UC/CSU  
Hours: 72 hours LEC  
This course is an introduction to the language and culture of the French-speaking world. It includes the development of listening, speaking, reading, and writing French with emphasis on the communicative skills, as well as the fundamentals of French pronunciation and grammar.
FOREIGN LANGUAGES

German

FREN 402  Elementary French  4 Units
Prerequisite: FREN 401 with a grade of “C” or better or 2 years of high school French.
General Education: AA/AS Area I
Course Transferable to UC/CSU
Hours: 72 hours LEC
This course is a further development of the four basic skills: listening, speaking, reading and writing. It is a continued study of pronunciation, fundamentals of French grammar and French culture.

FREN 411  Intermediate French  4 Units
Prerequisite: FREN 402 with a grade of “C” or better or 3 years of high school French.
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 72 hours LEC
This course includes speaking, listening, and writing practice at the intermediate level of French. It also reviews French grammar, and offers readings of varied texts, many of which explore the historic, artistic and cultural backgrounds of France and French-speaking countries.

FREN 412  Intermediate French  4 Units
Prerequisite: FREN 411 with a grade of “C” or better or 4 years of high school French.
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 72 hours LEC
This course is a further exploration of the culture, history and arts of French-speaking countries, begun in French 411. Grammar and syntax are examined as a means to that exploration.

ITAL 401  Elementary Italian  4 Units
General Education: AA/AS Area I; IGETC Area 6
Course Transferable to UC/CSU
Hours: 72 hours LEC
This course is an introduction to the Italian language and culture of Italy. It includes the development of listening, speaking, reading and writing Italian with emphasis on the communicative skills, as well as the development of listening, reading and writing with emphasis on the communicative skills.
ITAL 402  Elementary Italian  4 Units
Prerequisite: ITAL 401 with grade of "C" or better or two years of high school Italian.
General Education: AA/AS Area I
Course Transferable to UC/CSU
Hours: 72 hours LEC
This course is a continuation of ITAL 401. It includes grammar essentials, further practice in conversation and composition, and a continued study of Italian culture.

ITAL 411  Intermediate Italian  4 Units
Prerequisite: ITAL 402 with a grade of "C" or better
General Education: AA/AS Area I; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 72 hours LEC
This course includes speaking, listening and writing practices at the intermediate level. It includes a review of Italian grammar; reading of various texts and further study of Italy's history and culture.

Japanese

JAPAN 401  Elementary Japanese  4 Units
General Education: AA/AS Area I; IGETC Area 6
Course Transferable to UC/CSU
Hours: 72 hours LEC
This class teaches pronunciation, intonation, basic vocabulary and grammar of spoken Japanese. The grammar emphasis is word order, postposition and some conjugation in simple sentences. Students are required to learn Hiragana script. The course includes introduction to Japanese culture.

JAPAN 402  Elementary Japanese  4 Units
Prerequisite: Japanese 401 with a grade of "C" or better
General Education: AA/AS Area I
Course Transferable to UC/CSU
Hours: 72 hours LEC
Japanese 402 continues teaching vocabulary, idioms, and grammar including more complex subordinate phrases and clauses. In addition to Hiragana, students are required to learn Katakana and simple Kanji ideographs. Discussions on Japanese culture continue.

JAPAN 405  Japanese Writing  1 Unit
Prerequisite: JAPAN 401.
Course Transferable to UC/CSU
Hours: 18 hours LEC
This is a course in the study of written scripts in the Japanese language. Fundamentals of the Japanese written language will be taught with an emphasis on reading and writing (Hiragana, Katakana, and Kanji) common in daily usage. This course may be taken twice.

Russian

RUSS 401  Elementary Russian  4 Units
General Education: AA/AS Area I; IGETC Area 6
Course Transferable to UC/CSU
Hours: 72 hours LEC
This course is an introduction to the Russian language and culture of Russia. It includes the development of listening, speaking, reading, and writing skills in Russian with emphasis on the communicative skills, as well as the fundamentals of Russian pronunciation and grammar.

RUSS 402  Elementary Russian  4 Units
Prerequisite: RUSS 401 with a grade of "C" or better or two years of high school Russian.
General Education: AA/AS Area I
Course Transferable to UC/CSU
Hours: 72 hours LEC
This course provides continued development of the Russian language and culture. It includes further development of listening, speaking, reading, and writing skills in Russian with emphasis on communicative skills, as well as the fundamentals of Russian pronunciation and grammar. Cross-linguistic and cross-cultural comparisons are emphasized.

Spain

SPAN 351  Conversational Spanish, Elementary  3 Units
Prerequisite: SPAN 402 with a grade of "C" or better or two years of high school Spanish.
Course Transferable to UC/CSU
Hours: 36 hours LEC
This intermediate-level Spanish course focuses on the further development of oral/aural skills through conversations and discussions, both directed and spontaneous. Emphasis is on fostering oral proficiency and continuing the development of Hispanic cultural awareness. Topics include nature, environment, art, politics, society, people and geography.

SPAN 352  Conversational Spanish, Elementary  3 Units
Prerequisite: SPAN 351 with a grade of "C" or better or two years of high school Spanish.
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is designed for students at the elementary or 401 level in Spanish. Conversations and discussions, both controlled and spontaneous, are used to develop basic conversational skills in Spanish. Emphasis will include oral proficiency and development of Hispanic cultural awareness.

SPAN 311  Conversational Spanish, Intermediate  2 Units
Prerequisite: SPAN 402 with a grade of "C" or better or two years of high school Spanish.
Course Transferable to CSU
Hours: 36 hours LEC
This intermediate-level Spanish course focuses on the further development of oral/aural skills through conversations and discussions, both directed and spontaneous. Emphasis is on fostering oral proficiency and continuing the development of Hispanic cultural awareness. Topics include gender issues, ethical questions, and ancient civilizations.

SPAN 313  Foreign Language Lab: Integrated Topics in Spanish  .5-1 Units
Prerequisite: SPAN 402 with a grade of "C" or better or two years of high school Spanish.
Course Transferable to CSU
Hours: 27-54 hours LAB
This laboratory course enables Spanish learners to develop, expand, and reinforce multiple Spanish language skills while working independently and/or in small groups. Coursework includes integrated study topics related to vocabulary, grammar, reading, writing, listening, and oral skills covered in SPAN 401, 402, and 411. Students may register until the twelfth week of the semester as space permits and may earn .5 unit of credit for every 27 hours of work. This course is graded credit/no-credit and may be taken four times on different topics up to a maximum of 4 units.
SPAN 361  Conversational Spanish, Intermediate  3 Units
Prerequisite: Spanish 352 with a grade of "C" or better or three years of high school Spanish.
Corequisite: SPAN 411
Course Transferable to CSU
Hours: 54 hours LEC
Students will continue the development of oral-aural skills in Spanish through small group conversations and class discussions, both directed and open-ended. Grammar structures, idiomatic expressions, and verb usage will be reviewed. Reports, discussions on current events, assigned readings, and personal interest topics will be used in individual and group presentations.

SPAN 362  Conversational Spanish, Intermediate  3 Units
Prerequisite: Spanish 361 with a grade of "C" or better or four years of high school Spanish.
Corequisite: SPAN 411
Course Transferable to CSU
Hours: 54 hours LEC
Students will continue to develop oral proficiency through emphasis on individual and small group presentation. Simple Hispanic readings will be used as a vehicle to continue the study and appreciation of the Hispanic culture and folklore through discussions, debates.

SPAN 401  Elementary Spanish  4 Units
General Education: AA/AS Area I; IGETC Area 6
Course Transferable to UC/CSU
Hours: 72 hours LEC
This course is an introduction to the language and culture of the Spanish-speaking world. It includes the development of listening, speaking, reading, and writing Spanish with emphasis on the communicative skills, as well as the fundamentals of Spanish pronunciation and grammar.

SPAN 402  Elementary Spanish  4 Units
Prerequisite: SPAN 401 with a grade of "C" or better or two years of high school Spanish.
General Education: AA/AS Area I
Course Transferable to UC/CSU
Hours: 72 hours LEC
This course continues the development of the four basic skills of the language and culture of the Spanish-speaking world. It includes further development of listening, speaking, reading, and writing Spanish with emphasis on communicative skills, as well as the fundamentals of Spanish pronunciation and grammar.

SPAN 408  Elementary Spanish I Multimedia Enhancement  2 Units
Corequisite: SPAN 401.
Course Transferable to CSU
Hours: 36 hours LEC
This course is designed at the introductory level using multimedia with focus on listening and speaking skills in Spanish. Opportunities to practice and speak Spanish in both small and large group formats will be provided in the course. Activities further reinforce what is introduced in Spanish 401. May be taken two times for credit. Credit/no credit only.

SPAN 409  Elementary Spanish II Multimedia Enhancement  2 Units
Prerequisite: SPAN 409.
Advisory: SPAN 402.
Course Transferable to CSU
Hours: 36 hours LEC
This course is designed at the introductory level using multimedia with focus on listening and speaking skills in Spanish. May be taken two times for credit. Credit/no credit only.

SPAN 411  Intermediate Spanish  4 Units
Prerequisite: SPAN 402 with a grade of "C" or better or three years of high school Spanish.
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 72 hours LEC
This intermediate-level Spanish course provides continued development of the language and culture of the Spanish-speaking world. It includes further development of listening, speaking, reading, and writing skills in Spanish with emphasis on communicative skills. Additionally, it covers more complex grammar topics and provides further study of the cultural and historical background of Spanish-speaking countries.

SPAN 412  Intermediate Spanish  4 Units
Prerequisite: SPAN 411 with a grade of "C" or better or four years of high school Spanish.
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 72 hours LEC
This course continues the development of the four basic skills of the language and culture of the Spanish-speaking world. It includes further development of listening, speaking, reading, and writing Spanish with emphasis on communicative skills. Additionally, it covers more complex grammar topics and provides further study of the cultural and historical background of Spanish-speaking countries.

SPAN 418  Intermediate Spanish I Multimedia Enhancement  2 Units
Prerequisite: SPAN 409.
Advisory: SPAN 411.
Course Transferable to CSU
Hours: 36 hours LEC
This course is designed at the intermediate level using multimedia with focus on listening and speaking skills in Spanish. Opportunities to practice and speak Spanish in both small and large group formats will be provided in this course. Activities further reinforce what is introduced in Spanish 411. May be taken two times for credit. Credit/no credit only.

SPAN 419  Intermediate Spanish II Multimedia Enhancement  2 Units
Prerequisite: SPAN 418.
Corequisite: SPAN 411.
Course Transferable to CSU
Hours: 36 hours LEC
This course is designed at the intermediate level using multimedia with focus on listening and speaking skills in Spanish. Opportunities to practice and speak Spanish in both small and large group formats will be provided in this course. Activities further reinforce what is introduced in Spanish 411. May be taken two times for credit. Credit/no credit only.
Funeral Service Education Degree

The Funeral Service Education program is a two-year associate of science degree that prepares students for entry-level positions in funeral service. The program is designed to meet the prerequisites for licensure and employment in the field of funeral service as funeral directors or embalmers.

The Funeral Service Education Program at American River College is accredited by the American Board of Funeral Service Education (ABFSE) 3432 Ashland Avenue, Suite U, St. Joseph, Missouri 64506 (816) 233-3747. Web: www.abfse.org

NOTE: All courses require a grade of “C” or better and the National Board Examination must be completed before graduation.

The annual passage rate of first-time takers on the National Board Examination (NBE) for the most recent three-year period for this institution and all ABFSE accredited funeral service education programs is posted on the ABFSE web site (www.abfse.org).

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Choose the correct techniques for each embalming case.
- Analyze information given by the family to complete the necessary paperwork for the state of California and other government agencies.
- Recommend options for the appropriate disposition of the decedent's remains.
- Contact the appropriate clergy, agencies and organizations for the disposition of the remains.
- Evaluate and prioritize the funeral choices of the family in a timely manner.
- Create a funeral service for the family.
- Participate as a volunteer in a community service activity.

Career Opportunities

The student is eligible to take the state board examination to become a licensed funeral director in California. The student also meets the criteria to take the state embalmer’s examination.

Program Goals and Objectives

- To be sensitive to the responsibility for public health, safety and welfare in caring for human remains
- To enlarge the background and knowledge of students about the funeral service profession
- To educate students in every phase of funeral service, and to help enable them to develop the proficiency and skills necessary for the profession as defined by the American Board of Funeral Service Education, Inc.
- To educate students concerning the responsibilities of the funeral service profession to the community at large
- To emphasize high standards of ethical conduct
- To provide a curriculum at the post secondary level of instruction
- To encourage student and faculty research in the field of funeral service
- To equip students with information related to the social, legal, psychological, religious and public health issues that are associated with death
- To offer students a comprehensive curriculum that will challenge their academic abilities that are consistent with the curriculum required by the American Board of Funeral Service Education, Inc.
- To prepare students for success on the National Board Examination, as well as, state examinations

Enrollment Eligibility

To be eligible for enrollment in the program, the student must meet the following criteria:

- Graduation from an accredited high school (graduates from outside the United States must have transcripts evaluated by an approved independent agency), or successful completion of General Educational Development (GED) Test or California High School Proficiency Examination (CHSPE).
- BIOL 102, ENGWR 300 and FSE 100 with a grade of “C” or better.
- Minimum cumulative college GPA of 2.0.
- A Curriculum Planning Summary Sheet completed by an ARC counselor and dated within the semester the enrollment packet is submitted.
- A completed pre-enrollment application.

Enrollment Process

Eligible students are selected for the program according to the following steps:

- Pre-enrollment applications to the program may be obtained from the Health and Education Division Office, the Coordinator of the Funeral Service Education program, or at www.arc.losrios.edu/fse. The Funeral Service Education program currently accepts students once per year for the Spring semester which begins in January. Applications for the Spring semester are available by September 15th and the deadline to submit the application is by the second Friday in December.
- Only students who meet the pre-enrollment requirements and follow the pre-enrollment procedures will be considered for the program.
- Selection is based on a random selection process should the number of applicants exceed available space in the program.
- Students admitted to the Funeral Service Education program are required to have a physical examination, laboratory and licensing agencies inoculations, drug screen, and background check by the completion of the first semester of the program. Students are responsible for any costs incurred related to meeting the health requirements.
- If a minimum number of qualified applicants are not received, enrollment will be delayed until the following semester, at which time, applicants will need to reapply.

### Associate Degree Requirements: The Funeral Service Education Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

### FSE 100 Introduction to Funeral Service 2 Units
Corequisite: ENGWR 300
Hours: 36 hours LEC
This course is a survey of the history of the funeral service industry. A comprehensive overview of the field of funeral service is covered. Emphasis is on the role and skills of the funeral service practitioner. The course provides insight into the funeral service industry and the career opportunities available. Field trips are required.

### FSE 111 Funeral Directing I 2 Units
Corequisite: BUS 340, CHEM 130, ENGWR 300, and FSE 160
Enrollment Limitation: Acceptance into the Funeral Service Education Program
Hours: 36 hours LEC
This course is designed to introduce the general practices of funeral directing. It introduces the sociological phenomena that affect all the elements of funeral service including cultural differences, family structures, and factors of change that relate to funeralization. It also includes notification of death, transfer and disposition of bodies, arrangement conferences, pre-planned funerals and post-arrangement follow-up. Field trips may be required.

### FSE 120 Embalming I 3 Units
Prerequisite: FSE 110 with a grade of “C” or better
Corequisite: BIOL 130, FSE 140, and FSE 155
Hours: 54 hours LEC
This course is an introduction to the phenomenon of death in the human body. It includes the processes of preservation, restoration, and sanitation in treating the dead human body. Field trips may be required.

### FSE 121 Embalming II 2 Units
Prerequisite: FSE 120 and 130 with a grade of “C” or better
Hours: 36 hours LEC
This course is a continuation of Embalming I. It is the study of vascular anatomy, case analysis, the selection and injection of embalming fluids, and treatment of specific conditions requiring special attention.

### FSE 130 Restorative Art 3.5 Units
Prerequisite: FSE 140 with a grade of “C” or better
Corequisite: FSE 120
Hours: 54 hours LEC, 27 hours LAB
This course introduces the techniques of creating an acceptable physical appearance of the deceased for the benefit of the survivors. Included are the study of facial features, cosmetics, and restorative treatment for a variety of situations faced by the practitioner.

### FSE 140 Pathology for Funeral Service 2 Units
Prerequisite: CHEM 130 with a grade of “C” or better
Corequisite: BIOL 130, FSE 111, and FSE 155
Hours: 36 hours LEC
This course offers a study of pathological disease conditions and how they affect various parts of the body. Particular conditions that relate to or affect the embalming or restorative art process are emphasized.
FSE 150  Funeral Service Management  3 Units  
Prerequisite: Accounting 101 or 301 and FSE 111 with grades of “C” or better  
Corequisite: FSE 120 and 130  
Hours: 54 hours LEC  
This course introduces the basic principles of management as they apply to the practice of the funeral profession. The role and function of an effective manager are explored. Emphasis is placed on the management functions of planning, organizing, motivating, directing, and controlling. Specific areas of funeral service practice and managerial guidelines for those areas are covered. Additionally, theory as it relates to funeral service practice is addressed. Field trips may be required.

FSE 155 Merchandising in the Funeral Service Industry  3 Units  
Prerequisite: FSE 110 with a grade of “C” or better  
Corequisite: BIOL 130, FSE 111, and FSE 140  
Hours: 54 hours LEC  
This course introduces merchandising as it applies to the funeral service profession. The curriculum is divided into two main sections. The first covers construction and features of caskets, outer burial containers, and other funeral-related products. The second section examines methods of pricing, display, presentation, and control of funeral merchandise. Field trips may be required.

FSE 160  Funeral Service Law and Ethics  3 Units  
Corequisite: BUS 340, CHEM 130, ENGWR 300, and FSE 110  
Enrollment Limitation: Acceptance into the Funeral Service Education Program.  
Hours: 54 hours LEC  
This course introduces law and the judicial system as they pertain to the funeral industry. Topics include: sources of law, the legal status of the dead human body, the duty of burial, rights to control funeral arrangements and final disposition, liability for funeral expenses, torts involving the dead human body and the funeral director, wills, estates, probate, cemeteries, crematories, and state and federal laws and regulations. Personal and professional ethics that guide decisions and actions in the proper treatment of the dead are also included.

FSE 170  Funeral Services Counseling  3 Units  
Prerequisite: FSE 111 with a grade of “C” or better  
Corequisite: FSE 121, FSE 297, and PSYC 390  
Hours: 54 hours LEC  
This course examines communication skills and the role of the funeral director as facilitator, counselor, and caregiver. Included are specific communications and counseling techniques as they are applied in funeral service practice. Field trips may be required.

FSE 297  Internship in Funeral Service Education  5 Units  
Corequisite: FSE 121, FSE 170, and PSYC 390.  
Hours: 18 hours LEC, 216 hours LAB  
This course provides an opportunity to apply classroom instruction in funeral service education to real-world practice in the community. Interns participate in a onsite lab experience program at an approved off-campus preceptor site.

FSE 1000  California Embalmer’s Examination Review  .5 Units  
Advisory: FSE 120.  
Hours: 9 hours LEC  
This course reviews embalming, restorative art, embalming chemistry, pathology, microbiology, safety, and California laws pertaining to the profession of embalming. The course identifies areas to study while preparing for the California Embalmer’s Examination. Credit/No Credit only.
Geography Degree
The A.S. degree provides students with a solid foundation in geography as well as the standard prerequisites for upper division coursework leading to the baccalaureate degree. The required and elective coursework surveys a broad spectrum of physical geography, cultural geography, geographic information sciences, and related disciplines.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
• Describe the general content and scope of collegiate level geography studies.
• Compare and contrast the general biophysical and sociocultural differences and similarities among world regions.
• Interpret maps and mapped data utilizing basic map elements, including scales, common coordinate systems, and map symbols.
• Compare and contrast common geographic information technologies such as Geographic Information Systems (GIS), Global Positioning System (GPS), and remote sensing.
• Evaluate and analyze geographic problems and their solutions.
• List and describe at least three career options for geographers.
• Identify and select plant materials that are used for landscapes in the northern California regions.
• Analyze a landscape site and create a complete landscape design for that site.
• Analyze a landscape design and apply the installation procedures necessary to implement the design.
• Assess a landscape and apply the maintenance operation techniques required.
• Assess a soil analysis and apply the appropriate steps for plants health and soil sustainability.
• Demonstrate horticulture skills in a work environment.
• Apply safe operating procedures and practices to all landscape operations.

Career Opportunities
The opportunities for geographers are as varied as the scope of geography itself. Geographers are found throughout the public and private sector, though rarely in positions with the title of Geographer. When combined with appropriate internships and/or other work experience, a baccalaureate degree in geography is excellent preparation for careers such as natural resource management, environmental consulting, urban and regional planning, and elementary and secondary teaching.

Requirements for Degree

|-----------------|-----------------|
| GEOG 300       | Physical Geography: Exploring Earth’s Environmental Systems | 3 |
| GEOG 301       | Physical Geography Laboratory                              | 1 |
| GEOG 310       | Human Geography: Exploring Earth’s Cultural Landscapes      | 3 |
| GEOG 330       | Introduction to Geographic Information Systems (3)          | 3 |
| or GEOG 334    | Introduction to Desktop GIS                                  | 3 |
| or CISC 310    | Introduction to Computer Information Science (3)            | 3 |
| PSYC 330       | Introductory Statistics for the Behavioral Sciences (3)      | 3 |
| or STAT 301    | Introduction to Probability and Statistics                   | 3 |

And a minimum of 6 units from the following: ........................................................................4

Associate Degree Requirements: The Geography Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Geographic Information Systems (GIS) Degree
Geographic Information Systems (GIS) are collections of computers, software applications, and personnel used to capture, store, transform, manage, analyze, and display spatial information. This powerful technology has a wide range of applications in planning and management by government agencies, business, and industry. The A.S. Degree provides a solid technical background in GIS concepts and applications including database design, the Global Positioning System (GPS), cartography, GIS programming, spatial analysis, and
interdisciplinary applications of the technology. The degree also includes ARC General Education and elective courses, which are required for graduation. Completion of the degree requires “real-world” work experience in GIS. Refer to the department web site for examples of course sequencing.

**Student Learning Outcomes**

*Upon completion of this program, the student will be able to:*

- Assess and describe fundamental aspects of geographic information and scale, with specific reference to raster and vector digital spatial data models used to represent such information.
- Evaluate and compile various types of spatial data, with specific attention to geospatial metadata, data quality, and identification of the most appropriate data type for use in a specific GIS application.
- Compare and contrast the variety of available coordinate systems, map projections, and datums, and choose the appropriate variety for a specific GIS application.
- Originate, classify, edit, and manage digital spatial data using various techniques (e.g., manual, scan, and on-screen digitizing, computer-assisted drafting, GPS, etc.).
- Design, synthesize, validate, optimize, and manage spatial attribute tables and databases.
- Apply appropriate data normalization and classification schemes to attribute data.
- Formulate geoprocessing and analysis functions that are appropriate for specific applications, and be able to perform and evaluate the results of such processes (such as buffering, overlay, reclassification, address matching, and statistical analysis).
- Compare and contrast the effectiveness of various GIS output products, including maps, tables, charts, and other digital output for specific applications.
- Describe, assess, and compare common map elements and the cartographic design process.
- Synthesize, design, apply, and manage a GIS project, including estimates of time and labor requirements.
- Propose at least three examples of GIS applications that document spatial distributions or solve spatial problems.
- List and describe at least three career options for GIS professionals.
- Design, create, and disseminate high-quality maps in both hard-copy (paper) and digital (on-screen) form.
- Compare and contrast the effectiveness of hard-copy and digital maps.
- Analyze problems encountered in the study of other disciplines, and formulate appropriate GIS solutions.

**Career Opportunities**

According to an Environmental Systems Research Institute survey, over 80 percent of the data used for decision-making in government and industry has a spatial component. New areas of rapid growth are in criminal justice, homeland security, marketing, retail site location, resource allocation, banking, health-care planning, disease control, insurance, real estate, and disaster preparedness, management, and response. Most local, state, and federal government agencies use GIS and maintain a staff of GIS technicians, analysts, and professionals. GIS is also commonly used in the private sector by businesses, planners, architects, foresters, geologists, environmental scientists, archaeologists, real estate professionals, marketers, sociologists, and bankers. The growth in application areas of GIS and of GIS as a specialized discipline represents a new way for individuals, agencies, and businesses to view the world. The expansion of jobs in GIS is anticipated to continue for many years to come. It is likely that all students, regardless of their particular field of interest, will at least be exposed to and probably use a GIS in some capacity in the years ahead. The purpose of American River College’s GIS program is to prepare students for careers in this expanding technological field.

American River College Catalog 2009-2010
GEOG 307  Environmental Hazards and Natural Disasters  3 Units
Same As: GEOG 325
General Education: General Education: AA/AS Area IV; CSU Area B1; IGETC Area 5A
course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers the environmental effects and applications of Earth-related processes. It focuses on earthquakes, volcanic eruptions, landslides, and flooding. Topics also include the availability and exploitation of natural resources, waste disposal, and global climate change. Humans as a force in environmental change are emphasized. The course addresses geology, engineering, environmental studies, natural resources, geography, and science education. One field trip is required. Not open to students who have completed GEOG 325.

GEOG 308  Introduction to Oceanography  3 Units
Same As: GEOG 330
Advisory: GEOG 300 or GEOG 300
General Education: AA/AS Area IV; CSU Area B1; IGETC Area 5A
course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an integrated study of water on Earth emphasizing physical oceanography. Topics include ocean and shoreline processes, plate tectonics, sea floor morphology, types and distribution of seafloor sediment, ocean sediment transport, ocean chemistry, ocean currents, marine resources, and environmental concerns. Regional oceanographic features are emphasized and a field trip to gain familiarity with regional physical shoreline features is required. This course is not open to students who have completed GEOG 330.

GEOG 309  Introduction to Oceanography Lab  1 Unit
Same As: GEOG 331
Corequisite: GEOG 308 or GEOG 330
Advisory: GEOG 300 or GEOG 300
General Education: CSU Area B3; IGETC Area 5A
course Transferable to UC/CSU
Hours: 54 hours LAB
This course is a laboratory investigation of water on Earth, emphasizing the shape of the sea floor, marine navigation, plate tectonics, sea floor materials and their utilization, the spatial distribution of ocean sediment, the physical and chemical nature of sea water, currents, tides, and marine weather. This course is not open to students who have completed GEOG 331.

GEOG 310  Human Geography: Exploring Earth’s Cultural Landscapes  3 Units
Advisory: ENGRD 116 or ESLR 320; ENGWR 51 or ESLW 310; MATH 32; or placement through assessment process
General Education: AA/AS Area V(b); AA/AS Area VI; CSU Area D5; IGETC Area 4E
course Transferable to UC/CSU
Hours: 54 hours LEC
This course considers the diverse patterns of human development, attitudes, and movement on earth. People’s various societal and economic systems and their different levels of interaction with nature are studied. World population and world food systems are surveyed and analyzed. The growth of cities and urban areas are considered, as are aspects of regional planning. The goal is to gain an understanding of people’s place on earth and, thus, improve human relations and also people’s relationship to the earth.

GEOG 320  World Regional Geography  3 Units
General Education: AA/AS Area V(b); AA/AS Area VI; CSU Area D5; IGETC Area 4E
course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a global survey of the world’s cultural regions. Basic geographic concepts and ideas are used to study and compare people, resources, landscapes, livelihood and economics, and origins across eight major geographic regions. The interaction of countries and regions, their global roles, and the conflicting pressures of cultural diversity versus globalization are presented. The widening gap between more developed and less developed countries is integrated throughout. Cultural and ethnic diversity, as it pertains to the expanding population of the United States, is also a major component.

GEOG 322  Geography of California  3 Units
General Education: AA/AS Area V(b); AA/AS Area VI; CSU Area D5; IGETC Area 4C; IGETC Area 4E
course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a study of the various natural and cultural environments of California, with special emphasis on the interaction of landforms, climate, natural vegetation, soils and resources with people. Historical, political, and economic development within this diverse environment is presented. The diversity of cultures which make up the state’s expanding population are studied and compared. Analysis of relevant issues of the day including those based on ethnic and cultural differences form an integral part of this course.

GEOG 330  Introduction to Geographic Information Systems  3 Units
Advisory: CISC 300
General Education: AA/AS Area II(b)
course Transferable to UC/CSU
Hours: 54 hours LEC
A Geographic Information System (GIS) is a computer-based data processing tool used to manage and analyze spatial information. Applications of GIS include environmental assessment, analysis of natural hazards, site analysis for business and industry, resource management, and land-use planning. This course introduces the concepts, techniques, and tools of GIS including data acquisition, management, manipulation, and analysis, and cartographic output.

GEOG 334  Introduction to GIS Software Applications  3 Units
Prerequisite: GEOG 330 with a grade of “C” or better
Advisory: CISC 300
course Transferable to CSU
Hours: 50 hours LEC; 12 hours LAB
This course provides the conceptual and practical foundations for using Geographic Information Systems (GIS) software. Emphasis is placed on basic GIS software functionality, display and attribute querying functions, address geocoding, beginning spatial database construction, spatial analysis, cartographic presentation, and spatial data management. This course may be taken four times on a different software package or version.
GEOG 340  Cartographic Design for GIS  3 Units
Prerequisite: GEOG 330 with a grade of “C” or better.
Advisory: CISC 300 (IBM Compatible Computers and Microsoft Windows).
Course Transferable to CSU
Hours: 54 hours LEC
This course provides a comprehensive study of GIS applicable cartography including cartographic principles. Data acquisition methods used in map production, and methods of base map development. The course will include the study of cartography to include history, principles, map projections, map scale, types of thematic maps, and map accuracy. Techniques used in GIS base map development (scanning, digitizing, and coordinate geometry) will be introduced using hands-on exercises. The course will include the production and presentation techniques of professional quality maps. The course will include hands-on work in computer-assisted mapping projects.

GEOG 342  Introduction to Remote Sensing and Digital Image Processing  3 Units
Course Transferable to CSU
Hours: 48 hours LEC; 18 hours LAB
This course introduces the principles and concepts of remote sensing and digital image processing as it relates to Geographic Information Systems (GIS). Fundamentals of remote sensing, aerial photography, satellite imagery, photogrammetry, Radio Detection and Ranging (RADAR) and Laser Incidence Detection and Ranging (LIDAR) are taught. A variety of digital image processing techniques are presented to analyze various remote sensing platforms.

GEOG 344  Spatial Analysis and Modeling in GIS  3 Units
Prerequisite: GEOG 330 with a grade of “C” or better.
Advisory: CISC 300 (IBM compatible Computers and Microsoft Windows); STAT 301.
Course Transferable to CSU
Hours: 54 hours LEC
This course extends the concepts presented in GEOG 360. The course provides a general survey of the fundamentals of spatial information systems and a survey of quantitative techniques applicable to spatial data. This course is focused on the functionality of GIS as an effective tool for modeling and analyzing complex spatial relationships quantitative methods, to include measures of central tendency, dispersion, and density, are discussed. Applications of such methods will be presented using empirical data.

GEOG 350  Data Acquisition in GIS  3 Units
Prerequisite: GEOG 330
Course Transferable to CSU
Hours: 54 hours LEC
This course is an introduction to the techniques, theory, and practical experience necessary to acquire, convert, and create digital spatial data. Topics include acquisition of existing Geographic Information Systems (GIS) data, metadata, formatting and conversion of GIS data, creating data utilizing digital cameras and scanners, the utilization of remotely sensed data, and use of the Global Positioning System (GPS).

GEOG 354  Introduction to the Global Positioning System (GPS)  1.5 Units
Advisory: GEOG 300 and 301
Course Transferable to CSU
Hours: 27 hours LEC
This course introduces the Global Positioning System (GPS). Topics include the basic concepts of GPS and hands-on operation of the technology, computer interfaces, Geographic Information Systems (GIS) software, and its use in real-world applications.

GEOG 360  Database Design and Management in GIS  3 Units
Prerequisite: CISA 320 and GEOG 330 with grades of “C” or better
Course Transferable to CSU
Hours: 54 hours LEC
This course examines principles of Geographic Information Systems (GIS) database management and design including conversion fundamentals, modeling techniques, and strategic planning. The needs, alternatives, and pitfalls of spatial database development and conversion are discussed. In addition, this course examines various types of spatial data applicable to GIS, and relevant issues including hardware and software requirements. Particular attention is paid to determining an appropriate methodology, conversion plan, and data quality assurance procedure. This course includes hands-on practical exercises in spatial database management skills.

GEOG 362  Advanced Database Design and Management in GIS  3 Units
Prerequisite: GEOG 360 with a grade of “C” or better.
Advisory: CISA 320, CISA 321, and CISC 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course extends the concepts presented in GEOG 360. The advanced applications of organizing, inputting, and editing spatial data are examined and implemented, including topology, performance tuning, spatial service management, and data organization. Traditional spatial database topics are rigorously examined in a GIS context, including data integration, warehousing, complex SQL coding, metadata management, and multi-level security.

GEOG 375  Introduction to GIS Programming  3 Units
Prerequisite: CISP 372 and GEOG 330 with grades of “C” or better
Course Transferable to CSU
Hours: 50 hours LEC; 12 hours LAB
This course is an introduction to Geographic Information Systems (GIS) programming using Visual Basic for Applications (VBA) and ArcObjects. These tools allow the user to customize the graphical user interface of popular GIS applications, to automate GIS tasks, and to create new GIS functionality. This course may be taken up to four times on a different software package or version.

GEOG 376  Intermediate GIS Programming  3 Units
Prerequisite: GEOG 375 with a grade of “C” or better.
Course Transferable to CSU
Hours: 45 hours LEC; 27 hours LAB
This course provides concepts and skills necessary to become a proficient GIS applications developer. It utilizes the Visual Basic for Applications (VBA) and Python scripting languages, in conjunction with ArcObjects, to develop complex GIS procedures and functions. Additionally, the course focuses on advanced methods for controlling feature display, querying, working with selection sets, creating dynamic layouts, editing tables, and performing geoprocessing operations. This course may be taken up to four times on a different software package or version.

GEOG 380  Advanced GIS Software Applications  3 Units
Prerequisite: GEOG 334 with a grade of “C” or better
Course Transferable to CSU
Hours: 50 hours LEC; 12 hours LAB
This course provides an overview of a full-featured, powerful Geographic Information Systems (GIS) software application (such as ArcGIS 9.x). GIS software is used to apply geoprocessing concepts to solve spatial problems. Emphasis is placed on the creation, modification, and analysis of spatial data; the creation of efficient maps; manipulation and interpretation of attribute data; and network analysis. This course may be taken four times on a different software package or version.
GEOG 385  Introduction to Web Based GIS Application Development  3 Units
Prerequisite: GEOG 330 with a grade of “C” or better
Advisory: CISW 300
Course Transferrable to CSU
Hours: 50 hours LEC; 12 hours LAB
This course introduces the development of Web-based Geographic Information Systems (GIS) solutions. Web-authoring tools and Internet map servers (such as ArcIMS and ArcServer) are used to teach the techniques of Internet mapping and interactive user interface design for GIS applications. Focus is on the theories and principles behind Internet mapping to perform map display and spatial analysis, on GIS application development, and on Web design for Internet mapping systems. This course may be taken four times on a different software package or version.

GEOG 386  Using GIS for Disaster Management  3 Units
Prerequisite: GEOG 330 or 334 with a grade of “C” or better.
Course Transferrable to CSU
Hours: 44 hours LEC; 30 hours LAB
This course provides an introduction to the use of GIS as a powerful tool in disaster management. Techniques and skills in the application of spatial information and analysis technologies to the problems of disaster and complex emergency management are investigated. GIS software and GPS technology are used to visualize, analyze, and represent spatial data in the protection of life, property, and critical infrastructure from natural disasters. Key GIS applications include natural hazard identification and mapping, multi-hazard analysis, shelter planning, mitigation, damage assessment, and recovery monitoring.

GEOG 390  Field Studies in Geography  .5-4 Units
Same As: GEOL 390
Course Transferrable to CSU
Hours: 3-24 hours LEC; 18-144 hours LAB
This course involves field study of selected locations of geographic interest. Course content varies according to field trip destination but may include topics in physical geography (e.g., plant and animal communities, climate and weather, geology and geomorphology, natural hazards, environmental impacts, etc.), human geography (e.g., cultural landscapes, economic activities, transportation issues, land use patterns, etc.), and/or introduction to tools and techniques used for geographic field research (e.g., map and compass, the Global Positioning System (GPS), Geographic Information Systems (GIS), etc.). Field excursions are required and field trip expense fees may be required. This course may be taken 4 times using different field trip destinations.

GEOG 498  Work Experience in Geography  1-4 Units
General Education: AA/AS Area III(b)
Enrollment Limitation: Be in a paid or non-paid internship, volunteer opportunity, or job related to geography or Geographic Information Systems (GIS). Students are advised to consult with the Geography Department faculty to review specific certificate and degree work experience requirements.
Course Transferrable to CSU
Hours: 60-300 hours LAB
This course provides students with opportunities to develop marketable skills in preparation for employment or advancement within the field of geography or Geographic Information Systems (GIS). It is designed for students interested in work experience and/or internships in transfer level degree occupational programs. Course content includes understanding the application of education to the workforce; completion of required forms which document the student’s progress and hours spent at the work site; and developing workplace skills and competencies. Rigor is ensured through the development of appropriate level learning objectives set between the student and the employer. During the course of the semester, the student is required to fulfill a weekly orientation and 75 hours of related paid work experience, or 60 hours of unpaid work experience for one unit. An additional 75 or 60 hours of related work experience is required for each additional unit. The weekly orientation is required for first time participants; returning participants are not required to attend the orientation but are required to meet with the instructor as needed to complete all program forms and assignments. GEOG 498 may be taken for a total of 16 units when there are new or expanded learning objectives. Students can earn a total of 16 Work Experience units.
Geology is the study of the origin and evolution of the earth, using the principles of mathematics, chemistry, physics, and biology. Geologists study rocks, minerals, and fossils in an effort to draw conclusions about the Earth's observable surface processes, as well as those processes taking place inside the Earth.

GEOL 300  Physical Geology  3 Units
Advisory: MATH 100 and ENGRD 116, ENGWR 51 or ESLW 310; or placement through assessment process.
General Education: AA/AS Area IV; CSU Area B1; IGETC Area 5A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This in-depth course provides an understanding of the dynamic nature of the Earth through the study of Earth processes. Topics include global plate tectonics and related processes such as seismic and volcanic activity. It also covers mineral and rock formation, and those processes related to the development of fluvial, glacial, desert, and coastal environments. The occurrence, use, and abuse of renewable and non-renewable resources such as air, ground and surface water, and fossil fuels are also covered. Field trips may be required.

GEOL 301  Physical Geology Laboratory  1 Unit
Corequisite: GEOL 300
General Education: AA/AS Area IV; CSU Area B1; CSU Area B3; IGETC Area 5A
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course encompasses the study and identification of common rocks and minerals, the interpretation and recognition of geologic structures and landforms, interpretation of maps, aerial photographs, remote sensing images, seismic information, analysis of geologic hazards, and field observations of the local geology.

GEOL 305  Earth Science  3 Units
Advisory: MATH 32 and ENGRD 116, ENGWR 51 or ESLW 310; or placement through assessment.
General Education: AA/AS Area IV; CSU Area B1; IGETC Area 5A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This is an introductory science course covering major topics in geology, oceanography, meteorology, astronomy, scientific method and philosophy of science. A field trip may be required. This course is not designed for science and/or geology majors. This course may not be taken with GEOL 301 (Physical Geology Laboratory).

GEOL 306  Earth Science Laboratory  1 Unit
Corequisite: GEOL 305
General Education: CSU Area B3; IGETC Area 5A
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course emphasizes scientific methods, critical thinking skills, and systematic Earth science laboratory procedures. Topics include weather analysis, rock and mineral identification, study of geologic concepts by means of topographic and geologic maps, and exercises in astronomy and oceanography. This course is not available for credit to students who have completed GEOL 300 or GEOL 301.

GEOL 310  Historical Geology  3 Units
Advisory: GEOL 300
General Education: AA/AS Area IV; CSU Area B1; IGETC Area 5A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers geologic history of the earth as shown by the changing of land and sea and by the succession of fauna and flora. Stratigraphic and other techniques for interpreting the sequence of past geological events are studied.

GEOL 311  Historical Geology Laboratory  1 Unit
Corequisite: GEOL 310
General Education: CSU Area B3; IGETC Area 5A
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course is a laboratory study in historical geology. Principles of physical geology and paleontology are applied in the reconstruction of the history of the earth. Exercises in stratigraphy, paleontology and interpretation of geologic maps will be utilized.

GEOL 325  Environmental Hazards and Natural Disasters  3 Units
Same As: GEOG 307
General Education: AA/AS Area IV; CSU Area B1; IGETC Area 5A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers the environmental effects and applications of Earth-related processes. It focuses on earthquakes, volcanic eruptions, landslides, and flooding. Topics also include the availability and exploitation of natural resources, waste disposal, and global climate change. Humans as a force in environmental change are emphasized. The course addresses geology, engineering, environmental studies, natural resources, geography, and science education. One field trip is required. Not open to students who have completed GEOG 307.

GEOL 330  Introduction to Oceanography  3 Units
Same As: GEOG 308
General Education: AA/AS Area IV; CSU Area B1; IGETC Area 5A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an integrated study of water on earth emphasizing physical oceanography. Topics include ocean and shoreline processes, plate tectonics, sea floor morphology, types and distribution of seafloor sediment, ocean sediment transport, ocean chemistry, ocean currents, marine resources, and environmental concerns. Regional oceanographic features are emphasized and a field trip to gain familiarity with regional physical shoreline features is required. This course is not open to students who have completed GEOG 308.
GEOL 331  Introduction to Oceanography Lab     1 Unit
Same As: GEOG 309
Corequisite: GEOG 308 or GEOL 330; GEOL 330 or GEOG 308
Advisory: GEOL 301 or GEOL 301
General Education: CSU Area B3; IGETC Area 5A
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course is a laboratory investigation of water on Earth, emphasizing
the shape of the sea floor, marine navigation, plate tectonics, sea
floor materials and their utilization, the spatial distribution of ocean
sediment, the physical and chemical nature of sea water, currents,
tides, and marine weather. This course is not open to students who
have completed GEOG 309.

GEOL 342  Geology of the National Parks     3 Units
Advisory: GEOL 300 and 301
General Education: AA/AS Area IV; CSU Area B1
Course Transferable to CSU
Hours: 54 hours LEC
The course is designed to introduce Earth's geologic story as revealed
by the rocks and landscapes in our National Parks. Attention will
focus on how natural earth processes have formed our National Parks
and National Monuments. Surface shaping processes such as volca-
nism, plutonism, deformation, sedimentation, glaciation, and fluvial
activity will be studied as displayed in our western parks and monu-
ments. One field trip is required.

GEOL 345  Geology of California     3 Units
General Education: AA/AS Area IV; CSU Area B1; IGETC Area 5A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course provides a survey of the physical and historical aspects
of California geology, emphasizing the linkage of geology and people
through economic and social impacts. This course is recommended
for non-majors and majors in geology and is of particular value to
science, engineering, environmental studies, education, and econom-
ics majors. One field trip is required.

GEOL 390  Field Studies in Geology     .5-4 Units
Same As: GEOG 390
Course Transferable to CSU
Hours: 3-24 hours LEC; 18-144 hours LAB
This course involves field trips to selected locations of geologic inter-
est. Course content varies according to field trip destination but may
include topics in physical geology, environmental geology, economic
geology, and introduction to tools and techniques used for geosci-
ences field research (e.g. map and compass, the Global Positioning
System (GPS), Geographic Information Systems (GIS), etc.). Field ex-
cursions are required and field trip expense fees may be required. This
course may be taken 4 times using different field trip destinations.
The Gerontology program at American River College offers continuing education courses for RNs, LVNs, CNAs, RCFE administrators, MFTs, LCSWs, and Nursing Home Administrators.

ARC has gained a reputation as a leader in gerontology studies and has been awarded National Program of Merit Status by the Association for Gerontology in Higher Education. The program is co-host for the Alzheimer's Aid Society annual conference. This leadership has enriched its offerings and enhanced the career value of an ARC gerontology degree or certificate.

The Gerontology program at American River College offers continuing education courses for RNs, LVNs, CNAs, RCFE administrators, MFTs, LCSWs, and Nursing Home Administrators.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Assess social and cultural attitudes on aging and how they impact social policy regarding the senior population
- Evaluate the biological, psychological, and social aging changes in terms of optimal aging and the impact of lifestyle choices
- Analyze legal and ethical issues relating to aging and end-of-life decisions
- Demonstrate skill, ease, confidence, rapport, and listening skills when interacting with seniors at different cognitive levels
- Evaluate cognitive levels of seniors and utilize appropriate interactional activities and techniques for communication
- Analyze the role of nutrition in the aging process and its impact on health
- Evaluate care for the dying in different environments
- Assess common mental health issues of aging and evaluate interventions and resources
- Survey services for seniors available within a community and define eligibility requirements
- Apply knowledge of gerontology to real-life business situations

Career Opportunities

Entry-level positions with private industry, government and non-profit agencies providing goods and services to senior adults and/or preparation for further gerontology/business study at a four-year college or university.

Gerontology: Environmental Design Degree

The Gerontology: Environmental Design degree provides a broad overview of the biological, psychological, and social aspects of aging along with introductory art and interior design courses emphasizing the environmental needs of an aging population. The focus is on preparation for entry-level positions with private industry, government and non-profit agencies providing design services to senior adults and/or preparation for further gerontology/design study at a four-year college or university.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Assess social and cultural attitudes on aging and how they impact social policy regarding the senior population
- Evaluate the biological, psychological and social aging changes in terms of optimal aging and the impact of lifestyle choices
- Analyze legal and ethical issues relating to aging and end-of-life decisions
- Demonstrate skill, ease, confidence, rapport, and listening skills when interacting with seniors at different cognitive levels
- Evaluate cognitive levels of seniors and utilize appropriate interactional activities and techniques for communication
- Analyze the role of nutrition in the aging process and its impact on health
- Evaluate care for the dying in different environments
- Assess common mental health issues of aging and evaluate interventions and resources
- Survey services for seniors available within a community and define eligibility requirements
- Apply knowledge of gerontology and environmental design to real-life situations in working in environmental design situations

Career Opportunities

Entry-level positions with private industry, government and non-profit agencies providing design services to senior adults

Gerontology: Health Care Degree

The Gerontology: Health Care degree provides a broad overview of the biological, psychological, and social aspects of aging along with introductory course work emphasizing the health needs of an aging population. The focus is on preparation for entry-level positions with private industry, government and non-profit agencies providing health services to senior adults and/or preparation for further gerontology/health care study at a four-year college or university.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Assess social and cultural attitudes on aging and how they impact social policy regarding the senior population
• Evaluate the biological, psychological and social aging changes in terms of optimal aging and the impact of lifestyle choices.
• Analyze legal and ethical issues relating to aging and end-of-life decisions.
• Demonstrate skill, confidence, rapport, and listening skills when interacting with seniors at different cognitive levels.
• Evaluate cognitive levels of seniors and utilize appropriate interventional activities and techniques for communication.
• Analyze the role of nutrition in the aging process and its impact on health.
• Evaluate care for the dying in different environments.
• Assess common mental health issues of aging and evaluate interventions and resources.
• Survey services for seniors available within a community and define eligibility requirements.
• Apply knowledge of gerontology to real-life health care situations.

**Career Opportunities**

Entry-level positions with private industry, government and non-profit agencies providing health services to senior adults and/or preparation for further gerontology/social policy/advocacy study at a four-year college or university.

*Prerequisite required for NURSE 101.

**Gerontology: Social Policy/Advocacy Degree**

The Gerontology: Social Policy/Advocacy degree provides a broad overview of the biological, psychological, and social aspects of aging along with introductory human services, speech, management, and political science courses emphasizing the social policy and advocacy needs of an aging population. The focus is on preparation for entry-level positions with private industry, government and non-profit agencies providing input to social policy and advocacy for senior adults and/or preparation for further gerontology/social policy/advocacy study at a four-year college or university.

**Student Learning Outcomes**

Upon completion of this program, the student will be able to:
• Assess social and cultural attitudes on aging and how they impact social policy regarding the senior population.
• Evaluate the biological, psychological and social aging changes in terms of optimal aging and the impact of lifestyle choices.
• Analyze legal and ethical issues relating to aging and end-of-life decisions.
• Demonstrate skill, ease, confidence, rapport, and listening skills when interacting with seniors at different cognitive levels.
• Evaluate cognitive levels of seniors and utilize appropriate interventional activities and techniques for communication.

Upon completion of this program, the student will be able to:
• Analyze the role of nutrition in the aging process and its impact on health.
• Evaluate care for the dying in different environments.
• Assess common mental health issues of aging and evaluate interventions and resources.
• Survey services for seniors available within a community and define eligibility requirements.
• Apply knowledge of gerontology to real-life recreation situations.
• Evaluate care for the dying in different environments
• Assess common mental health issues of aging and evaluate interventions and resources
• Survey services for seniors available within a community and define eligibility requirements
• Apply knowledge of gerontology to real-life social policy/advocacy situations

Career Opportunities
Entry-level positions with private industry, government and non-profit agencies providing input to social policy and advocacy for senior adults

Gerontology: Advocacy Concentration Requirements 39 Units
Core Requirements .......................................................... 30
And a minimum of 9 units from the following: ...................... 9
GERON 304 Ethical Issues and Client’s Rights (3)
or HSER 310 Ethical Issues and Client’s Rights (3)
MGMT 362 Techniques of Management (3)
POLS 304 Introduction to Government: California (3)
SPEECH 301 Public Speaking (3)

Gerontology: Social Policy Concentration Requirements 39 Units
Core Requirements .......................................................... 30
And a minimum of 9 units from the following: ...................... 9
GERON 304 Ethical Issues and Client’s Rights (3)
or HSER 310 Ethical Issues and Client’s Rights (3)
POLS 301 Introduction to Government: United States (3)
HSER 330 Issues of Diverse Populations (3)
or PSYC 365 Issues of Diverse Populations (3)
SPEECH 301 Public Speaking (3)

Associate Degree Requirements: The Gerontology: Associate in Arts (A.A.) Degree (in the chosen concentration) may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Gerontology: Business Certificate
The Gerontology: Business certificate provides a broad overview of the biological, psychological, and social aspects of aging along with introductory business courses emphasizing the impact of an aging population on business. The focus is on preparation for entry-level positions with private industry, government and non-profit agencies providing goods and services to senior adults.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
• Assess social and cultural attitudes on aging and how they impact social policy regarding the senior population
• Evaluate the biological, psychological and social aging changes in terms of optimal aging and the impact of lifestyle choices
• Analyze legal and ethical issues relating to aging and end-of-life decisions
• Demonstrate skill, case, confidence, rapport, and listening skills when interacting with seniors at different cognitive levels
• Evaluate cognitive levels of seniors and utilize appropriate interational activities and techniques for communication
• Analyze the role of nutrition in the aging process and its impact on health
• Evaluate care for the dying in different environments

Career Opportunities
Entry-level positions with private industry, government and non-profit agencies providing goods and services to senior adults

Gerontology: Business Certificate 39 Units
Core Requirements .......................................................... 30
And a minimum of 9 units from the following: ...................... 9
ACCT 101 Fundamentals of College Accounting (3)
or ACCT 301 Financial Accounting (4)
BUS 105 Business Mathematics (3)
or BUS 110 Business Economics (3)
BUS 320 Concepts in Personal Finance (3)
or ECON 320 Concepts in Personal Finance (3)
BUS 330 Managing Diversity in the Workplace (3)
BUS 340 Business Law (3)
GERON 304 Ethical Issues and Client’s Rights (3)
or HSER 310 Ethical Issues and Client’s Rights (3)
MGMT 300 Introduction to Modern Management (3)
or MGMT 362 Techniques of Management (3)
MGMT 304 Introduction to Management Functions (3)

Gerontology: Case Management/Social Services Certificate
The Gerontology: Case Management/Social Services certificate provides a broad overview of the biological, psychological, and social aspects of aging along with introductory human services and psychology courses emphasizing the diverse needs of an aging population. The focus is on preparation for entry-level positions with private industry, government and non-profit agencies providing case management and/or social services to senior adults.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
• Assess social and cultural attitudes on aging and how they impact social policy regarding the senior population
• Evaluate the biological, psychological and social aging changes in terms of optimal aging and the impact of lifestyle choices
• Analyze legal and ethical issues relating to aging and end-of-life decisions
• Demonstrate skill, case, confidence, rapport, and listening skills when interacting with seniors at different cognitive levels
• Evaluate cognitive levels of seniors and utilize appropriate interational activities and techniques for communication
• Analyze the role of nutrition in the aging process and its impact on health
• Evaluate care for the dying in different environments
• Assess common mental health issues of aging and evaluate interventions and resources
• Survey services for seniors available within a community and define eligibility requirements
• Apply knowledge of gerontology to real-life case management and social services situations

American River College Catalog 2009-2010
**Career Opportunities**

Entry-level positions with private industry, government and non-profit agencies providing case management and/or social services to senior adults

**Gerontology: Case Management/Social Services Certificate 39 Units**

Core Requirements .................................................. 30

And a minimum of 9 units from the following: .................. 9

GERON 310 Social Service Designee: Role and Responsibility (2.5)  
GERON 312 Social Services Designee: Fieldwork (1)  
HSER 300 Introduction to Human Services (3)  
HSER 310 Ethical Issues and Client’s Rights (3)  
or GERON 304 Ethical Issues and Client’s Rights (3)  
HSER 330 Issues of Diverse Populations (3)  
or PSYC 365 Issues of Diverse Populations (3)  
HSER 340 Introduction to Chemical Dependency (3)  
or PSYC 400 Introduction to Chemical Dependency (3)  
PSYC 390 Psychology of Death and Dying (3)

**Gerontology: Environmental Design Certificate**

The Gerontology: Environmental Design certificate provides a broad overview of the biological, psychological, and social aspects of aging along with introductory art and interior design courses emphasizing the environmental needs of an aging population. The focus is on preparation for entry-level positions with private industry, government and non-profit agencies providing design services to senior adults.

**Student Learning Outcomes**

Upon completion of this program, the student will be able to:

- Assess social and cultural attitudes on aging and how they impact social policy regarding the senior population
- Evaluate the biological, psychological and social aging changes in terms of optimal aging and the impact of lifestyle choices
- Analyze legal and ethical issues relating to aging and end-of-life decisions
- Demonstrate skill, ease, confidence, rapport, and listening skills when interacting with seniors at different cognitive levels
- Evaluate cognitive levels of seniors and utilize appropriate interactional activities and techniques for communication
- Analyze the role of nutrition in the aging process and its impact on health
- Evaluate care for the dying in different environments
- Assess common mental health issues of aging and evaluate interventions and resources
- Survey services for seniors available within a community and define eligibility requirements
- Apply knowledge of gerontology and environmental design to real-life design situations

**Career Opportunities**

Entry-level positions with private industry, government and non-profit agencies providing design services to senior adults

**Gerontology: Environmental Design Certificate 39 Units**

Core Requirements .................................................. 30

And a minimum of 9 units from the following: .................. 9

ART 320 Design: Fundamentals (3)  
IDES 300 Fundamentals of Interior Design (3)  
IDES 330 Beginning Interior Design Studio (3)  
IDES 334 Interior Environment and Space Planning (3)

Prerequisite required for IDES 334

---

**Gerontology: Health Care Certificate**

The Gerontology: Health Care certificate provides a broad overview of the biological, psychological, and social aspects of aging along with introductory course work emphasizing the health needs of an aging population. The focus is on preparation for entry-level positions with private industry, government and non-profit agencies providing health services to senior adults.

**Student Learning Outcomes**

Upon completion of this program, the student will be able to:

- Assess social and cultural attitudes on aging and how they impact social policy regarding the senior population
- Evaluate the biological, psychological and social aging changes in terms of optimal aging and the impact of lifestyle choices
- Analyze legal and ethical issues relating to aging and end-of-life decisions
- Demonstrate skill, ease, confidence, rapport, and listening skills when interacting with seniors at different cognitive levels
- Evaluate cognitive levels of seniors and utilize appropriate interactional activities and techniques for communication
- Analyze the role of nutrition in the aging process and its impact on health
- Evaluate care for the dying in different environments
- Assess common mental health issues of aging and evaluate interventions and resources
- Survey services for seniors available within a community and define eligibility requirements
- Apply knowledge of gerontology to real-life health care situations

**Career Opportunities**

Entry-level positions with private industry, government and non-profit agencies providing health services to senior adults

**Gerontology: Health Care Certificate 39 Units**

Core Requirements .................................................. 30

And a minimum of 9 units from the following: .................. 9

AH 110 Medical Language for Health-Care Providers (3)  
BIOL 102 Introduction to Concepts of Human Anatomy and Physiology (4)  
or BIOL 115 Basic Anatomy and Physiology (3)  
GERON 304 Ethical Issues and Client’s Rights (3)  
or HSER 310 Ethical Issues and Client’s Rights (3)  
NURSE 100 Nurse Assistant (6)  
NURSE 101 Home Health Aide (2)  
PET 312 Theory and Techniques of Adapted Physical Education (3)  
PET 313 Laboratory in Adapted Physical Education (1-2)  
PSYC 390 Psychology of Death and Dying (3)

Prerequisite required for NURSE 101.

---

**Gerontology: Recreation Certificate**

The Gerontology: Recreation certificate provides a broad overview of the biological, psychological, and social aspects of aging along with introductory recreation and physical education courses emphasizing the recreational needs of an aging population. The focus is on preparation for entry-level positions with private industry, government and non-profit agencies providing recreational services to senior adults.
Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Assess social and cultural attitudes on aging and how they impact social policy regarding the senior population.
- Evaluate the biological, psychological and social aging changes in terms of optimal aging and the impact of lifestyle choices.
- Analyze legal and ethical issues relating to aging and end-of-life decisions.
- Demonstrate skill, case, confidence, rapport, and listening skills when interacting with seniors at different cognitive levels.
- Evaluate cognitive levels of seniors and utilize appropriate interpersonal activities and techniques for communication.
- Analyze the role of nutrition in the aging process and its impact on health.
- Evaluate care for the dying in different environments.
- Survey services for seniors available within a community and define eligibility requirements.
- Apply knowledge of gerontology to real-life social policy situations.

Career Opportunities

Entry-level positions with private industry, government, and non-profit agencies providing input to social policy and advocacy regarding the senior population.

The Gerontology: Social Policy/Advocacy certificate provides a broad overview of the biological, psychological, and social aspects of aging along with introductory human services, speech, management, and political science courses emphasizing the social policy and advocacy needs of an aging population. The focus is on preparation for entry-level positions with private industry, government and non-profit agencies providing input to social policy and advocacy for senior adults.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Assess social and cultural attitudes on aging and how they impact social policy regarding the senior population.
- Evaluate the biological, psychological and social aging changes in terms of optimal aging and the impact of lifestyle choices.
- Analyze legal and ethical issues relating to aging and end-of-life decisions.
- Demonstrate skill, case, confidence, rapport, and listening skills when interacting with seniors at different cognitive levels.
- Evaluate cognitive levels of seniors and utilize appropriate interpersonal activities and techniques for communication.
- Analyze the role of nutrition in the aging process and its impact on health.
- Evaluate care for the dying in different environments.
- Survey services for seniors available within a community and define eligibility requirements.
- Apply knowledge of gerontology to real-life social policy and advocacy situations.

Career Opportunities

Entry-level positions with private industry, government, and non-profit agencies providing input to social policy and advocacy for senior adults.

Gerontology: Recreation Certificate 39 Units

Core Requirements ...................................................... 30
And a minimum of 9 units from the following: .................... 9

GERON 430 Introduction to Activity Coordinator (0.5)
GERON 432 Interviewing and Counseling Techniques with Elderly (0.5)
GERON 434 Hearing and Speech - Age Changes (0.5)
GERON 436 Documentation: State and Federal Regulations Part I (0.5)
GERON 438 Documentation: State and Federal Regulations Part II (0.5)
GERON 440 Etiology of Illness in Later Life (0.5)
GERON 442 Social and Psychological Forces of Aging (0.5)
GERON 444 Dementia: Behaviors and Activity (0.5)
GERON 446 Effective Leadership Skills (0.5)
GERON 448 Community Agencies and Resources (0.5)
GERON 450 Needs-Based Programming (0.5)
GERON 452 Creating an Activity Program (0.5)
GERON 454 Directed Fieldwork Experience (0.5)
PET 312 Theory and Techniques of Adapted Physical Education (3)
PET 313 Laboratory in Adapted Physical Education (1 - 2)
RECR 300 Introduction to Recreation and Leisure Services (3)
RECR 310 Outdoor Recreation (3)
RECR 320 Recreation Activity Leadership (3)

Gerontology: Advocacy Concentration Certificate 39 Units

Core Requirements ...................................................... 30
And a minimum of 9 units from the following: .................... 9

GERON 304 Ethical Issues and Client’s Rights (3)
or HSER 310 Ethical Issues and Client's Rights (3)
MGMT 362 Techniques of Management (3)
POLS 304 Introduction to Government: California (3)
SPEECH 301 Public Speaking (3)

Gerontology: Social Policy Concentration Certificate 39 Units

Core Requirements ...................................................... 30
And a minimum of 9 units from the following: .................... 9

GERON 304 Ethical Issues and Client’s Rights (3)
or HSER 310 Ethical Issues and Client's Rights (3)
POLS 304 Introduction to Government: United States (3)
HSER 330 Issues of Diverse Populations (3)
or PSYC 365 Issues of Diverse Populations (3)
SPEECH 301 Public Speaking (3)

Vocational Certificates

Activity Coordinator Certificate

The Activity Coordinator certificate provides a comprehensive overview of the role and duties of an activity coordinator in a long-term care facility. The certificate meets State of California, Title 22 (Department of Social Service) requirements for activity coordinator certification.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Articulate the role and responsibilities of the activity coordinator in a long-term care facility.
- Demonstrate effective communication skills in interviewing long-term care residents.
- Analyze normal and disease process changes in hearing and speech and develop strategies for effective communication.
• Generate required documentation to comply with State and Federal regulations
• Create activities which meet physical and emotional needs of residents in long-term care
• Assess effects of institutionalization and possible impact on mental health and family relationships
• Identify types of dementia and appropriate communication and behavior management strategies
• Demonstrate effective problem solving, motivation, and communication skills involved in leadership of an activity program
• Compare and contrast community services available and their relevance to an activity program
• Develop appropriate activities and monthly activity calendar to meet the needs of individual residents in long-term care

Career Opportunities
Activity Coordinator in long-term care, assisted living, and retirement facilities

Requirements for Certificate 6.5 Units
GERON 430 Introduction to Activity Coordinator ........................................0.5
GERON 432 Interviewing and Counseling Techniques with Elderly ...............0.5
GERON 434 Hearing and Speech - Age Changes ...........................................0.5
GERON 436 Documentation: State and Federal Regulations Part I ................0.5
GERON 438 Documentation: State and Federal Regulations Part II ................0.5
GERON 440 Etiology of Illness in Later Life ....................................................0.5
GERON 442 Social and Psychological Forces of Aging ....................................0.5
GERON 444 Dementia: Behaviors and Activity ...............................................0.5
GERON 446 Effective Leadership Skills .........................................................0.5
GERON 448 Community Agencies and Resources ...........................................0.5
GERON 450 Needs-Based Programming .......................................................0.5
GERON 452 Creating an Activity Program .......................................................0.5
GERON 454 Directed Fieldwork Experience .....................................................0.5

Leadership in Assisted Living Communities Certificate
The Leadership in Assisted Living Communities provides a comprehensive overview of leadership, team building, and communication in assisted living communities.

Career Opportunities
Supervisory positions in assisted living communities.

Requirements for Certificate 1.5 units
Geron 299A Leadership and Team Building in Assisted Living Communities ........5
Geron 299B Professionalism and Ethics in Assisted Living Communities ............5
Geron 299C Communication for Supervision in Assisted Living Communities .......5

Dementia Care Certificate
The Dementia Care Certificate provides a comprehensive overview of dementias, behavior management, and communication.

Career Opportunities
Direct care and supervision of dementia patients, in-service for caregivers.

Requirements for Certificate 2 units
GERON 444 Dementia: Behaviors and Activity .............................................5
GERON 1009 Dementia: Behavior Management .............................................5
GERON 1053 Alzheimer’s Disease and Other Dementias .................................5
GERON 1008 Validation: Theory and Practice ...............................................5

Ethnicity and Aging Certificate
The Ethnicity and Aging Certificate provides a comprehensive overview of how ethnicity affects the aging experience.

Career Opportunities
Direct care and supervision of seniors from diverse backgrounds, in-service for caregivers.

Requirements for Certificate 2 units
GERON 360 Ethnic Diversity and Aging .........................................................5
GERON 1011 Aging Experience in Asian Families .........................................5
GERON 1064 Aging Experience in Hispanic Families .....................................5
GERON 1066 Aging Experience in African-American Families .........................5

Elder Care Certificate
The Elder Care Certificate provides a comprehensive overview of the caregiving experience.

Career Opportunities
Direct care and supervision of seniors, in-service for caregivers.

Requirements for Certificate 2 units
GERON 1021 Elder Abuse ..............................................................................5
GERON 1031 Stress Management: New Approaches .....................................5
GERON 1037 Strategies for Caregivers .........................................................5
GERON 1008 Validation: Theory and Practice ...............................................5

Program Assistant Certificate
The Program Assistant certificate provides a comprehensive overview of the role and duties of a program assistant in adult day care, adult day health care and residential care.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
• Articulate organization and population of adult day care, adult day health care and residential care facilities
• Compare duties and responsibilities of program assistants in adult day care, adult day health care and residential care
• Assess dementia care and communication in adult day care, adult day health care and residential care

Career Opportunities
Program Assistant in adult day care, adult day health care and residential care facilities

Requirements for Certificate 2 Units
GERON 320 Program Assistant .................................................................5
RCFE Administrator Certificate

The Residential Care Facility for the Elderly (RCFE) Administrator Certificate meets State of California, Title 22 (Department of Social Service) requirements for an RCFE administrator license. This certificate program is pending State of California Department of Social Services approval.

Career Opportunities:

Administrator of a Residential Care Facility for the Elderly.

Requirements for Certificate  2.5 units

Geron 1080 Understanding Licensed Residential Care .......... 5
Geron 1081 RCFE Licensing Regulations and Resident Services .... 5
Geron 1082 RCFE Facility, Residents, Records, and Food Service .... 5
Geron 1083 RCFE Residents and Services ................................ 5
Geron 1084 RCFE Medications, Reporting, Rights, Resources ...... 5

Social Service Designee Certificate

The Social Services Designee certificate provides a comprehensive overview of the role and duties of a social services designee in a long-term care facility.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Articulate the role and responsibilities of the social services designee in a long-term care facility
- Analyze normal age changes and their impact on residents
- Incorporate resident rights and responsibilities into daily practice
- Apply Omnibus Budget Reconciliation Act (OBRA)/Title 22 (State of California Department of Social Services) regulations to work environment
- Evaluate legal and ethical issues relating to powers of attorney, long-term care financing, and end-of-life decisions
- Evaluate long-term care facility environments
- Interview and assess long-term care residents to assure needs are being met

Career Opportunities

Social Services Designee in long-term care, assisted living, and retirement facilities

Requirements for Certificate  4.5 Units

GERON 310 Social Service Designee: Role and Responsibility ....2.5
GERON 311 Social Services Designee: Legal Issues and End-of-Life Decisions ............................................. 1
GERON 312 Social Services Designee: Fieldwork ......................1

GERON 302 Psychology of Aging: Adult Development and Aging 3 Units

Same As: PSYC 374
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AAAS Area V(b); CSU Area E1
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers the psychological, social, and physical aspects of the aging process including the interactions between the elderly and the rest of society. Topics include an analysis of stereotypes, social bonds, environmental factors, sexuality, physical health, mental health, death, and bereavement. Not open to students who have completed PSYC 374.

GERON 304 Ethical Issues and Client’s Rights  3 Units

Same As: HSER 310
Corequisite: HSER 300
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course is a comprehensive exploration of the basic ethical issues involving human services delivery. Topics include professional ethics, confidentiality, counselor and clients’ rights, and other areas involving ethical controversies. This course is not open to students who have completed HSER 310.

GERON 310 Social Service Designee: Role and Responsibility  2.5 Units

Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 45 hours LEC
This course covers the role of the Social Services Designee in long-term care. The focus is on family, patient adjustment, and dementia. It also covers documentation for the Social Services Designee work environment.

GERON 311 Social Services Designee: Legal Issues and End-of-Life Decisions  1 Unit

Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 or ESLR 320, ESLW 320 or placement through assessment process.
Course Transferable to CSU
Hours: 18 hours LEC
This course covers legal issues involved with long-term care. The focus is on probate, wills, trusts, power of attorney, conservatorship, consent, and right-to-die issues.

GERON 312 Social Services Designee: Fieldwork  1 Unit

Prerequisite: GERON 310, 311.
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 or ESLR 320, ESLW 320 or placement through assessment process.
Course Transferable to CSU
Hours: 9 hours LEC, 27 hours LAB
This course provides supervised fieldwork in the role of social services designee in long-term care facility.
### GERON 320 Program Assistant 2 Units
Course Transferable to CSU
Hours: 36 hours LEC
This course provides the training necessary to become a program assistant in adult day care, adult day health care and residential care. Topics include organization and populations of adult day care, personal care, services, communication, responsibilities, ethics, safety, and dementia. Certificate will be issued upon successful completion of course.

### GERON 330 Communicating with and Validating Older Adults 3 Units
Same As: PSYC 378
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AAAS Area III(b)
Enrollment Limitation: Current tuberculosis clearance
Course Transferable to CSU
Hours: 54 hours LEC
This course explores positive lifestyle choices throughout life which have a positive effect on health and well being. Topics include nutrition, stress management, chronic disease, and adaptations for disability.

### GERON 334 Reminiscence Therapy 3 Units
Same As: PSYC 379
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AAAS Area III(b)
Course Transferable to CSU
Hours: 54 hours LEC
This course introduces the basic theory and techniques of reminiscence therapy and provides experience in planning, facilitating, and evaluating reminiscence groups with the elderly in an institutional setting. Off-campus supervision by an activity professional in a long-term care setting is required. It is not open to students who have completed PSYC 379.

### GERON 335 Wellness for Older Adults 3 Units
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course explores positive lifestyle choices throughout life which have a positive effect on health and well being. Topics include exercise, nutrition, stress management, chronic disease, and adaptations for disability.

### GERON 340 Nutrition for Healthy Aging 3 Units
Same As: NUTR 324
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course is an introduction to nutritional concerns as they apply to the elderly, their implications in the aging process, and the environmental, economic and culture factors affecting nutritional status. This course is not open to students who have completed NUTR 324.

### GERON 360 Ethnic Diversity and Aging .5 Units
Course Transferable to CSU
Hours: 9 hours LEC
This course is an overview of ethnicity as a factor in the aging process. Emphasis is on values, beliefs and culture, and their impact on the design and delivery of senior services. Credit/No Credit only.

### GERON 362 Biology of Aging .5 Units
Course Transferable to CSU
Hours: 9 hours LEC
This course is an overview of the biology of aging and health of the older adult. It focuses on chronic and acute illnesses, normal aging changes, sexuality, nutrition, and strategies for good health. Credit/No Credit only.

### GERON 366 Coping with Death and Related Bereavement .5 Units
Course Transferable to CSU
Hours: 9 hours LEC
This course is an exploration of our societal and personal views of death, dying, and bereavement with the focus on ways in which our Western society treats the subject of death. Topics include right-to-die issues and the theoretical stages of death and bereavement. Credit/No Credit only.

### GERON 368 Mental Health and Aging .5 Units
Course Transferable to CSU
Hours: 9 hours LEC
This course is an overview of mental health as it is impacted by the aging process. Emphasis is on correlates of mental health, incidence of mental illness, depression, dementia, substance abuse, intervention, and mental health resources for seniors. Credit/No Credit only.

### GERON 372 Alzheimer’s Workshop .5 Units
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 or ESLR 320, ESLW 320 or placement through assessment process.
Course Transferable to CSU
Hours: 9 hours LEC
This course is an overview of current information on all aspects of dementia and caregiving issues, focusing on research, legal issues, grief, resources, medication, behavior management and activities. Credit/No Credit only.

### GERON 376 Body Mechanics and Safety .5 Units
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 or ESLR 320, ESLW 320 or placement through assessment process.
Course Transferable to CSU
Hours: 9 hours LEC
This course is an overview of body mechanics emphasizing a problem-solving approach and focusing on basic methods and techniques of positioning, transfer, and ambulation, as well as personal safety, adaptive exercise and assistive devices. Credit/No Credit only.

### GERON 380 Nutrition and Aging .5 Units
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 or ESLR 320, ESLW 320 or placement through assessment process.
Course Transferable to CSU
Hours: 9 hours LEC
This course concentrates on the practical aspects of nutrition and aging. Cost effective directions for meeting nutritional needs and food recipes will be included. Information regarding environmental factors implicated in the aging process will be discussed. Credit/No Credit only.
GERON 430  Introduction to Activity Coordinator  .5 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 9 hours LEC
This course introduces the role and responsibilities of an Activity Coordinator in long-term care facilities. Topics include program planning, utilizing volunteers, budgeting, and working as a team. Credit/No Credit only.

GERON 432  Interviewing and Counseling Techniques with Elderly  .5 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 OR ESLR 320 and ESLW 320.
Course Transferable to CSU
Hours: 9 hours LEC
This course is an overview of basic counseling and interviewing techniques when working with older adults. The focus is on communication skills, interviewing techniques, and specific therapeutic approaches to working with impaired older persons. Credit/No Credit only.

GERON 434  Hearing and Speech - Age Changes  .5 Units
Corequisite: GERON 432.
Advisory: ENGWR 102 or 103, and ENGRD 116 OR ESLR 320 and ESLW 320.
Course Transferable to CSU
Hours: 9 hours LEC
This course is an overview of age-related changes in speech and hearing. The techniques for working with impaired older adults and development of positive communication with seniors will be emphasized. Credit/No Credit only.

GERON 436  Documentation: State and Federal Regulations Part I  .5 Units
Corequisite: GERON 434.
Advisory: ENGWR 102 or 103, and ENGRD 116 OR ESLR 320 and ESLW 320.
Course Transferable to CSU
Hours: 9 hours LEC
This course is an overview of Title 22 regulations and required documentation as it relates to activity coordinators. Topics include activity assessments, social histories, monthly updates, care plans, and quarterly reviews. Credit/No Credit only.

GERON 438  Documentation: State and Federal Regulations Part II  .5 Units
Corequisite: GERON 440.
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 or ESLR 320 and ESLW 320.
Course Transferable to CSU
Hours: 9 hours LEC
This course is an overview of state and federal regulations governing activity coordinators in a health care facility and the necessary documentation required to comply with these regulations. Credit/No Credit only.

GERON 440  Etiology of Illness in Later Life  .5 Units
Corequisite: GERON 436.
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 or ESLR 320 and ESLW 320.
Course Transferable to CSU
Hours: 9 hours LEC
This course is an overview of the etiology of major illnesses found in the aging population, focusing on indications and contraindications for activities. Credit/No Credit only.

GERON 442  Social and Psychological Forces of Aging  .5 Units
Corequisite: GERON 438.
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 OR ESLR 320 AND ESLW 320.
Course Transferable to CSU
Hours: 9 hours LEC
This course is an overview of basic psychological and social forces affecting an individual upon entering long-term care. Topics include depression, role loss, myths, and potential benefits and problems of working with families. Credit/No Credit only.

GERON 444  Dementia: Behaviors and Activity  .5 Units
Corequisite: GERON 442.
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 OR ESLR 320 AND ESLW 320.
Course Transferable to CSU
Hours: 9 hours LEC
This course is an overview of dementia and memory loss. Topics will focus on types, characteristics, communications, behavior management, and caregiving of dementia patients. Credit/No Credit only.

GERON 446  Effective Leadership Skills  .5 Units
Corequisite: GERON 444.
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 OR ESLR 320 AND ESLW 320.
Course Transferable to CSU
Hours: 9 hours LEC
This course is an overview of the fundamentals of leadership for the activity coordinator. Strategies for information processing, problem solving, and decision making will be included. Credit/No Credit only.

GERON 448  Community Agencies and Resources  .5 Units
Corequisite: GERON 450.
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 OR ESLR 320 AND ESLW 320.
Course Transferable to CSU
Hours: 9 hours LEC
This course is an overview of community resources and how to use them within the health care facility. Credit/No Credit only.

GERON 450  Needs-Based Programming  .5 Units
Corequisite: GERON 442.
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 or ESLR 320 AND ESLW 320.
Course Transferable to CSU
Hours: 9 hours LEC
This course is an overview of the importance of needs-based activity planning and its impact on the individual in long-term care. The focus is on developing a specific activity designed to meet a specific patient’s needs. Credit/No Credit only.
GERON 452  Creating an Activity Program  .5 Units  
Course prerequisite: GERON 448.  
Advisory: ENGW 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
Course Transferable to CSU  
Hours: 9 hours LEC  
This course is an overview of the development of an activity program for seniors in long-term care facilities. Focus is on developing programs to meet the needs of those with differing physical and cognitive abilities, different genders, and different cultural backgrounds. Credit/No Credit only.

GERON 454  Directed Fieldwork Experience  .5 Units  
Course prerequisite: GERON 448.  
Advisory: ENGW 102 or ENGRW 103, and ENGRD 116 or ESLR 320 AND ESLW 320.  
Course Transferable to CSU  
Hours: 3 hours LEC; 18 hours LAB  
This course is an opportunity for the student to acquire practical experience working with an activity coordinator in a health care setting. Credit/No Credit only.

GERON 490  Practices in Gerontology  3 Units  
Course prerequisite: GERON 300 or 302.  
Course Transferable to CSU  
Hours: 18 hours LEC; 108 hours LAB  
This course provides advanced study and supervised field experience in public and/or private agencies, businesses or organizations providing services to seniors and senior programs. Students apply concepts, values and skills acquired in other core courses to the process of working with the senior population. Students also develop a resource file of senior services and define areas of interest for employment in senior services. Different cases are discussed each semester. This course may be taken two times for credit.

GERON 1000  Home Adaptations for Safety and Independence  .5 Units  
Hours: 9 hours LEC  
This course explores adaptations to the home environment to promote safety and independence for those with disabilities. Topics include assessment, durable equipment, home modifications and resources. Credit/No Credit only.

GERON 1003  Intergenerational Family Dynamics  .5 Units  
Hours: 9 hours LEC  
This course focuses on changing dynamics in the family as members are confronted with their own developmental stages and issues related to the aging process. A family systems theory approach is used to examine and analyze communication patterns, areas of conflict and coping strategies in the family. Credit/No Credit only.

GERON 1004  Pharmacology and Aging  .5 Units  
Hours: 9 hours LEC  
This course is an overview of drugs commonly prescribed for the elderly. It also examines how the aging process impacts medication effects, compliance, and adverse reactions. Drug therapy and interactions are also covered. Credit/No Credit only.

GERON 1006  Parkinson's Disease and Other Movement Disorders  .5 Units  
Hours: 9 hours LEC  
This course explores the current knowledge of Parkinson's Disease and other movement disorders. Topics include medical treatments and coping mechanisms. Credit/No Credit only.

GERON 1008  Validation: Theory and Practice  .5 Units  
Hours: 9 hours LEC  
This course presents Validation theory as a communication technique used with individuals with differing levels of cognitive ability. Criteria for evaluating stages of dementia and the selection of appropriate techniques are covered. Credit/No Credit only.

GERON 1009  Dementia: Behavior Management  .5 Units  
Hours: 9 hours LEC  
This course explores the many facets of behavior management as they apply to those diagnosed with a form of dementia. Topics include defining the problem, determining whose problem it is, problem solving principles, environmental triggers, caregiver response, and techniques for specific problem behaviors. Pass/No Pass only.

GERON 1010  Understanding Licensed Residential Care  .5 Units  
Hours: 9 hours LEC  
This course is an introduction to residential care and the role of regulators. Topics include regulatory function and perspective, function of the California Community Care Licensing Division, and rights and responsibilities of licensees. Credit/No Credit only.

GERON 1011  Aging Experience in Asian Families  .5 Units  
Hours: 9 hours LEC  
This course examines the aging experience unique to Asian families. The impact of culture, societal expectations and their effect on family roles, values and beliefs and how these affect care giving is discussed. Focus is on strategies for dealing with stress and social support services for Asian families. Credit/No Credit only.

GERON 1013  Protecting Your Back  .5 Units  
Hours: 9 hours LEC  
This course examines proper spine care and body mechanics. Proper exercises to prevent or minimize back injuries are demonstrated. Credit/No Credit only.

GERON 1014  Aging and Long-term Care  .5 Units  
Hours: 9 hours LEC  
This course provides a broad knowledge of gerontology and long-term care. It covers biological and psychosocial changes of age, dilemmas facing caregivers and care receivers, and decision making when an individual needs long-term care. Credit/No Credit only.

GERON 1015  Diabetes and Aging  .5 Units  
Hours: 9 hours LEC  
This course examines the causes and risk factors associated with diabetes, focusing on how the aging body influences these risk factors and the course of the disease. Recommendations for lifestyle changes that can reduce risks and complications associated with diabetes are also presented. Credit/No Credit only.

GERON 1016  Issues in Gerontology as Seen through Film  .5 Units  
Hours: 9 hours LEC  
This course examines certain aspects of the aging experience and how the media influences society's perception of age by viewing selected excerpts from films dealing with aging issues. Topics include developmental and cultural perspectives, relationships, sexuality, and life review. Credit/No Credit only.
GERON 1017 Heart Health and Aging .5 Units
Hours: 9 hours LEC
This course examines the causes and risk factors associated with cardiovascular disease, focusing on how the aging body influences these risk factors and the course of the heart disease and stroke. In addition, recommendations for lifestyle changes that can reduce risks and complications associated with cardiovascular disease are presented. Credit/No Credit only.

GERON 1018 Social Security--Past, Present, and Future .5 Units
Hours: 9 hours LEC
This course examines the Social Security, Medicare, and Supplemental Security Income (SSI) programs from before their inceptions through today’s current controversies. Topics include population demographics and their impact on social programs and historical overviews of program development. Credit/No Credit only.

GERON 1020 Demographic Changes and the Effect on Caregiving .5 Units
Hours: 9 hours LEC
This course examines issues surrounding the current “Age Wave” in relationship to the historical views of the elderly, ageism, stereotypes and myths, and how these issues affect caregiving. The implications that an aging society has on health care delivery including acute, sub-acute, and community based services are discussed. Credit/No Credit only.

GERON 1021 Elder Abuse .5 Units
Hours: 9 hours LEC
This course is an overview of elder abuse. It focuses on occurrence, prevention strategies, and resources to prevent elder abuse. Credit/No Credit only.

GERON 1022 Aging and Family Dynamics .5 Units
Hours: 9 hours LEC
This course is an overview of how the aging process affects not only individuals, but also families and relationships. The focus is on changing roles and the relationship strategies for negotiating these transitions to help families resolve aging issues. Credit/No Credit only.

GERON 1023 Interpersonal Relationships .5 Units
Hours: 9 hours LEC
This course covers listening and communication skills. The focus is on understanding emotions, family involvement, and adaptive behavior in long-term care settings. Demonstrations with role play provides practical experience to enhance understanding. Credit/No Credit only.

GERON 1024 Exploring the Field of Gerontology .5 Units
Hours: 9 hours LEC
This course covers aspects of Gerontology which relate to marketing oneself and developing a business as a provider of services to the elderly. Topics include diversity of the field of Gerontology, resumes, interviews, marketing, and future projections. Credit/No Credit only.

GERON 1025 The Gerontologist .5 Units
Hours: 9 hours LEC
This course examines the field of Gerontology. Topics include the role/responsibilities of the Gerontologist and the educational process required to become a Gerontologist. Current and future employment are covered. Credit/No Credit only.

GERON 1026 Health of Older Women .5 Units
Hours: 9 hours LEC
This course analyzes the uniqueness of older women's health needs. Topics focus on gender differences, activities of daily living, caregiver role, economics, self-care, and long-term care. Credit/No Credit only.

GERON 1027 HIV/AIDS and the Elderly .5 Units
Hours: 9 hours LEC
This course examines HIV/AIDS as a disease process and its effect on the aging population. Topics include transmission, universal precautions, treatment options, and psychosocial issues. Credit/No Credit only.

GERON 1028 Men as Caregivers .5 Units
Hours: 9 hours LEC
This course is an overview of specific issues of men as caregivers. Topics include changing roles, research, future projections, and resources relating to men as caregivers. Credit/No Credit only.

GERON 1029 End-Stage Life Care .5 Units
Hours: 9 hours LEC
This course focuses on effective strategies for assisting the dying patient and his/her family. Topics include concepts of sub-acute care, physician-assisted suicide, euthanasia, and the effect of these issues on the elderly population. Credit/No Credit only.

GERON 1030 Legislation: Origin and Influence .5 Units
Hours: 9 hours LEC
This course is an overview of how the political process affects issues of aging and delivery of services. It focuses on means of impact on the legislative process and the influence of this process on community resources for older adults. Credit/No Credit only.

GERON 1031 Stress Management: New Approaches .5 Units
Hours: 9 hours LEC
This course examines stress from a communication perspective, focusing specifically on caregivers. The concept of high-risk messages is introduced focusing on how stress reactions affect behavior and morale in residential care facilities and other systems of care for the elderly. Emphasis is on how a message is translated and how this translation affects stress, overload, and spill-over effects. Stress management skills are demonstrated. Credit/No Credit only.

GERON 1032 Illness in Later Life .5 Units
Hours: 9 hours LEC
This course examines chronic diseases associated with age. Topics covered are osteoarthritis, hypertension, diabetes, coronary artery disease, and stroke. In addition, the prevention and management of chronic illness through lifestyle choices are covered. Credit/No Credit only.

GERON 1033 Spirituality, Religion and the Elderly .5 Units
Hours: 9 hours LEC
This course examines religion and belief systems practiced by the elderly population in the U.S. The differences between spirituality and religiosity are discussed, as well as how both are integrated and manifested in the lives of the elderly. Spirituality as a coping mechanism and source of strength and hope is also discussed. Credit/No Credit only.

GERON 1034 Sexuality and Aging .5 Units
Hours: 9 hours LEC
This course examines basic sexual anatomy and physiology of men and women with emphasis on the changes that occur with aging. Topics include sexuality, menopause, impotence, sexually transmitted diseases, heterosexuality, and homosexuality of the older population. Credit/No Credit only.
GERON 1035  Special Need Seniors: Mentally Ill and Homeless .5 Units

Hours: 9 hours LEC
This course is an overview of the unique factors involved in caring for the mentally ill and the homeless senior population. Topics covered are types and stages of mental illness, social stereotypes, resources for the mentally ill, effects of homelessness on elders, acceptance of aged homeless, and resources for elderly homeless. Credit/No Credit only.

GERON 1036  Right-to-Die Movements and Issues .5 Units

Hours: 9 hours LEC
This course examines both the right-to-die and right-to-life movements as they address the elderly and the dying. Topics include assisted suicide, advance directives, hospice, and palliative care. Credit/No Credit only.

GERON 1037  Strategies for Caregivers: Effectively Caring for the Elderly in the Community .5 Units

Hours: 9 hours LEC
This course covers strategies for providing effective care for the elderly, including how it is complicated by dementia, role reversal, and guilt. Common sense strategies for caregiving that not only meet the needs of the elderly but also lessen the caregiving burden are explained. Credit/No Credit only.

GERON 1040  Emotional Health and Aging .5 Units

Hours: 9 hours LEC
This course is an overview of the factors involved in emotional health and aging. Topics include social support systems, having a purpose and role, goals, effects of stereotypes, the duration of life skills, and the development of wisdom. Credit/No Credit only.

GERON 1041  Psychological Treatment Modalities and Aging .5 Units

Hours: 9 hours LEC
This course explores different treatment modalities relevant to mental health and aging. Topics include the following therapies as they apply to seniors: grief, cognitive-behavioral, family-intergenerational, and psychoanalytical. Credit/No credit only.

GERON 1042  Life Review and Reminiscence .5 Units

Hours: 9 hours LEC
This course explores the role and techniques of life review and reminiscence in older age and their therapeutic effects. Topics include history of storytelling, group process, facilitating groups, and the art of listening. Credit/No Credit only.

GERON 1043  Caregiving .5 Units

Hours: 9 hours LEC
This course examines theories and research on caregiving. Topics include developmental stages of aging, managing and defining caregiver roles, palliative care, coping with stress and burnout, and community resources. Credit/No credit only.

GERON 1044  Creativity and Aging .5 Units

Hours: 9 hours LEC
This course covers the diversity of creative expression and the changes which may come with age. Topics include differing definitions of creativity, nurturing life-long creativity, opening new creative paths, and creative exercises. Credit/No Credit only.

GERON 1045  Super Centenarians .5 Units

Hours: 9 hours LEC
This course examines the new phenomenon of large numbers of people living 100 or more years. Topics include the reasons for this increased longevity and its implications for society. Credit/No credit only.

GERON 1046  Fundamentals of Aging: Working with Older Adults .5 Units

Hours: 9 hours LEC
This course is designed for those who provide direct and indirect care and services for seniors. It focuses on population changes; physical, social and psychological changes with age; ethical choices in working with seniors; independence and dependency; and communication skills. Credit/No Credit only.

GERON 1048  The Graying of America .5 Units

Hours: 9 hours LEC
This course examines the increase in the aging population and its impact on long-term care. Topics include changes in population groups, life expectancy, family structure, and long-term care. Credit/No Credit only.

GERON 1049  Economics of Aging .5 Units

Hours: 9 hours LEC
This course provides an overview of the economics of retirement including Social Security, pensions, Medicare, and MediCal. It also covers economic problems and proposed solutions, fiduciary abuses and fraud. Credit/No credit only.

GERON 1050  Alcohol and the Elderly .5 Units

Hours: 9 hours LEC
This course explains how alcohol affects seniors in both independent and assisted living environments and explores treatment options for seniors. Credit/No Credit only.

GERON 1052  Professionalism and Ethics in Gerontology .5 Units

Hours: 9 hours LEC
This course explores professionalism and ethical conduct for those working with seniors in independent and long-term care environments. Topics include the difference between ethics and morals as well as professional conduct and listening skills. Credit/No Credit only.

GERON 1053  Alzheimer’s Disease and Other Dementias .5 Units

Hours: 9 hours LEC
This course is an introduction to dementia, including Alzheimer’s Disease. Topics include types of dementia, patient care, environmental issues, and strategies for understanding and responding to associated behaviors. Credit/No Credit only.

GERON 1055  Motivating Older Adults to Stay Active .5 Units

Hours: 9 hours LEC
This course focuses on how to motivate healthy older adults to stay independent, active, and mobile. Topics include wellness, aerobic fitness, nutrition, stress, self- and group-motivation techniques, and cognition as they affect seniors. Credit/No Credit only.

GERON 1056  Suicide and the Elderly .5 Units

Hours: 9 hours LEC
This course examines the risk of suicide among older adults including factors of loss, depression, religiosity, and poverty. Suicide prevention programs are also explored. Credit/No Credit only.
GERON 1057 Generational Interdependency .5 Units
Hours: 9 hours LEC
This course explores the changing relationships among generations. Topics include intergenerational programming and community building, aging policy and its effects on society, and community program development. Credit/No Credit only.

GERON 1058 Aging of the Brain .5 Units
Hours: 9 hours LEC
This course explores how the human brain works and how it ages. Emphasis is on the difference between normal aging and pathology associated with age as well as strategies to maximize healthy functioning of the brain throughout the aging process. Credit/No Credit only.

GERON 1059 Exploring Case Management as a Career .5 Units
Hours: 9 hours LEC
This course is an overview of the roles and functions of the Case Manager in long-term care. Topics include the skills and education required to be a Case Manager and the career benefits, earnings, and advancement potential.

GERON 1060 Housing Options and Aging .5 Units
Hours: 9 hours LEC
This course is an overview of the different housing options available for senior living. Public and private resources, financial issues, and misconceptions about senior housing are analyzed. Credit/No Credit only.

GERON 1061 Case Management: Processes and Skills .5 Units
Hours: 9 hours LEC
This course examines the skills and processes involved in geriatric case management. The process of creating and conducting a biologic, psychological, and social assessment; developing a care plan; coordinating services; and managing a caseload are explored. Focus is on communication skills and tools needed to practice ethical geriatric case management in a variety of settings. Credit/No Credit only.

GERON 1062 Gerontological Social Work .5 Units
Hours: 9 hours LEC
This course examines the field of gerontological social work and its nature, settings, roles, skills, educational requirements, and projected employment rates. Focus is on the increased need for educated social workers and the roles and settings in which they practice. Credit/No Credit only.

GERON 1063 Aging and Leisure Services .5 Units
Hours: 9 hours LEC
This course explores the many facets of leisure as it applies to the aging population. Emphasis is on activities for both high and low functioning adults. Adaptive leisure programs and materials are identified. Other topics include indoor and outdoor recreation options, such as travel, lifelong learning, volunteerism, camps, and community services. Credit/No Credit only.

GERON 1064 Aging Experience in Hispanic Families .5 Units
Hours: 9 hours LEC
This course examines the aging experience unique to Hispanics and the impact of culture, societal expectations, family roles, values, beliefs, and caregiving. Focus is on social support systems and strategies for assisting aging Hispanics and their families. Credit/No Credit only.

GERON 1065 Movement Matters .5 Units
Course Transferable to CSU
Hours: 9 hours LEC
This course introduces the importance of movement for seniors and provides examples adapted to specific chronic conditions. Topics include movement related to Parkinson’s, multiple sclerosis, osteoarthritis, osteoporosis, and Alzheimer’s and other dementias. Credit/No Credit only.

GERON 1066 Aging Experience in African-American Families .5 Units
Hours: 9 hours LEC
This course examines the economic, social, and health status of elderly African-Americans. It focuses on their unique relationship to the dominant American culture, vulnerability to specific diseases and the health care system, and family structures in the African-American community and their implications for family relationships and caregiving. Pass/No Pass only.

GERON 1067 Aging Experience in Native American Families .5 Units
Hours: 9 hours LEC
This course examines the economic, social, and health status of elderly Native Americans. It focuses on their unique relationship to the dominant American culture, being members of sovereign nations, tribal and governmental institutions that impact their lives, family relationships, and caregiving.

GERON 1068 Understanding Licensed Residential Care .5 Units
Hours: 9 hours LEC
This course is an introduction to the philosophy, mission, and operations of a residential care facility for the elderly (RCFE). Regulations, rights, and responsibilities of licensees are discussed. Pass/No Pass only.

GERON 1069 RCFE Licensing Regulations and Resident Services .5 Units
Hours: 9 hours LEC
This course covers Residential Care Facilities for the Elderly (RCFE) requirements and Community Care Licensing regulations. Topics include fingerprinting and criminal record clearances, licensing regulations, psychosocial needs of residents, and specialized services. Pass/No Pass only.

GERON 1070 RCFE Facility, Residents, Records, and Food Service .5 Units
Prerequisite: GERON 1061
Hours: 9 hours LEC
This course covers Residential Care Facilities for the Elderly (RCFE) and includes resident assessment, retention, and eviction; resident records and services; and food service regulations. Pass/No Pass only.

GERON 1071 RCFE Facility, Residents, Records, and Food Service .5 Units
Prerequisite: GERON 1062
Hours: 9 hours LEC
This course covers the requirements for the Residential Care Facility for the Elderly (RCFE) license. It includes physical plant requirements; resident assessment, retention, and eviction; resident records and services; and food service regulations. Pass/No Pass only.

GERON 1072 RCFE Residents and Services .5 Units
Prerequisite: GERON 1063
Hours: 9 hours LEC
This course covers residents and services in Residential Care Facilities for the Elderly (RCFE). It includes resident accommodations, assistance, individual assessment, admission agreement, special diets, and services required. Pass/No Pass only.
GERON 1084  RCFE Medications, Reporting, Rights, Resources .5 Units
Prerequisite: GERON 1083
Hours: 9 hours LEC
This course covers residents and services in Residential Care Facilities for the Elderly (RCFE). It includes requirements regarding resident medications, abuse reporting, residents' rights, theft and loss, and community resources. Pass/No Pass only.

GERON 1090  Independent Living Skills for the Physically/Neurologically Limited 3-5 Units
Enrollment Limitation: Physician certification of disability is required.
Hours: 54 hours LEC; 108 hours LAB
This course explores all aspects of independent living skills necessary for students with adult-acquired physical/neurological limitations to gain successful reintegration into the community and workforce. Topics include functional mobility/fitness, activities of daily living, speech/language, and computer proficiency. An assessment of needs and goals and a Student Education Contract (SEC) determines which aspects of the course are taken. Field trips may be required. This course may be taken four times for credit, for a maximum of 12 units, emphasizing different assessed needs. Pass/No Pass only.

GERON 1091  Applied Theories of Disabilities for the Physically/Neurologically Limited 1-4 Units
Corequisite: GERON 1090
Hours: 18-72 hours LEC
This course explores student/caregiver support systems to increase understanding and management of disabilities for students with adult-acquired physical/neurological limitations. Topics include self-esteem and using community resources to facilitate reintegration into the community and workforce. An assessment of needs and a Student Education Contract (SEC) determines which aspects of the course are taken. This course may be taken four times for credit, for a maximum of eight units, emphasizing different assessed needs. Pass/No Pass only.

GERON 1092  Orientation to the Community for the Physically Limited 1-4 Units
Corequisite: GERON 1091
Hours: 18-72 hours LEC; 54-216 hours LAB
This course provides experience for students with physical disabilities to explore educational, recreational, and vocational opportunities in the community. It includes an orientation session and field trips into the community. This course is designed for students with a physician's certification of adult-acquired disability. An assessment of needs and goals and an Student Education Contract (SEC) determines which aspects of course are taken. This course may be taken four times for credit, for a maximum of eight units, emphasizing different assessed needs. Pass/No Pass only.
The college program in health education is designed to provide students the essential information for the evaluation and maintenance of individual health.

HEED 308 Environmental Health Science 3 Units
General Education: AAIAS Area IV (effective Summer 2009)
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course provides a survey of society's interaction with the environment, current environmental factors, and the influence of these interactions on human health. These factors include population dynamics, poverty, hunger, the atmosphere, climate change, air pollution, the water cycle, water resources, water pollution, solid and hazardous wastes, food management, pests and pesticides, toxic substances, and environmental diseases that are associated with these factors. The focus is on sustainable solutions and the reduction of environmentally related disease in humans. Field trips may be required.

HEED 310 Community CPR and Adult AED 1 Unit
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; or placement through assessment process.
Course Transferable to UC/CSU
Hours: 18 hours LEC
This course provides knowledge and skills for emergency life-saving techniques involving infants, children, and adults. Respiratory and cardiovascular distress, non-breathing, unconsciousness, choking, and cardiac arrest are addressed. The infant and child and the adult cardiopulmonary resuscitation (CPR)/Automatic External Defibrillator (AED) certification examinations are included. This course may be taken four times.

HEED 311 CPR and Pediatric First Aid 1.5 Units
Same As: ECE 414
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 27 hours LEC
This course covers emergency life-saving and first aid techniques involving infants and children. Respiratory distress, non-breathing, unconsciousness, choking, and other pediatric emergencies are addressed. CPR for adults is another major component of this course. The California Child Care first aid certificate examination, the Adult CPR, and the Infant and Child CPR examination are included. ECE 410 and this course fulfill Title 22 (California Department of Social Services) Health and Safety requirements for staff. ECE 414/HEED 311 may be taken four times.

HEED 316 First Aid: Responding to Emergencies 2 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 36 hours LEC
This course provides consistent guidelines that enable the citizen responder to give appropriate care, regardless of the type of emergency. It is designed for anyone desiring a general knowledge of first aid procedures (parents, foster parents, teachers, recreation majors, police officers, lifeguards, etc.). Situations involving heart attacks, breathing difficulties, lack of pulse, and severe bleeding are covered. Injuries and sudden illnesses are also addressed. The following certification examinations are included: Responding to Emergency (first aid), Adult CPR/AED, and Infant and Child CPR.

HEED 323 Cardio Pulmonary Resuscitation (CPR)/Automated External Defibrillators (AED) for the Professional Re .5 Units
Enrollment Limitation: Current American Red Cross Community CPR or American Heart Association Basic Life Support Certification.
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; or placement through assessment process.
Course Transferable to CSU
Hours: 9 hours LEC
This course meets the requirements for Red Cross certification as a professional rescuer. It includes legal considerations, disease transmission, severe bleeding, and moving the victims, as well as professional rescuer situation practice sessions. May be taken four times for credit.

HEED 494 Topics in Health Education .5-3 Units
Course Transferable to CSU
Hours: 9-54 hours LEC
This course provides opportunities to study contemporary topics in health which are not included in current offerings or which require emphasis beyond existing courses. The course may be taken four times for a maximum of 6 units providing there is no duplication of topics.
HEED 300  Health Science  3 Units
General Education: AA/AS Area III(b); CSU Area E1
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course focuses upon those elements of human behavior which influence the health status of both the individual and the community. Topics include personal fitness, nutrition, sexuality, sexually transmitted disease, drug dependence including alcohol and tobacco, as well as lifestyle disease especially cancer, cardiovascular disease and lung disease.

HEED 352  Stress Management and Health  3 Units
Same As: PSYC 359
General Education: AA/AS Area III(b); CSU Area E1
Course Transferable to CSU
Hours: 54 hours LEC
This course examines productive and nonproductive stress and the influence of various types of stress on health and wellness. Topics include the physiological aspects of stress and its effects on health, assessments of personal coping style, strategies for coping effectively with stress, relaxation techniques, and positive reinforcers. Emphasis is placed on practical application of stress management techniques in daily life. This course is not open to students who have completed PSYC 359.
The study of history contributes to cultural literacy and develops critical thinking and other useful skills while helping students understand today.

**HIST 300 History of Western Civilization 3 Units**
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(b); AA/AS Area I; CSU Area C; CSU Area D6; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course surveys western civilization from its origins in the Ancient Middle East until the Renaissance. It emphasizes the social, political, economic, cultural, and intellectual forces that have served to define western civilization. The focus is on the cultural legacies and contributions of the Ancient Middle East, Greece, Rome, and Medieval Europe to the development of western civilization.

**HIST 302 History of Western Civilization 3 Units**
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(b); AA/AS Area I; CSU Area C; CSU Area D6; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of western civilization from the Renaissance to the present, emphasizing the interplay of social, political, economic, cultural, and intellectual forces in creating and shaping the modern world. The focus is on the process of modernization, stressing the secularization of western society and examining how war and revolution have served to create our world.

**HIST 305 Women in Western Civilization 3 Units**
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(b); AA/AS Area I; CSU Area C; CSU Area D6; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of women's contributions to the major ideas, institutions, and events of Western Civilization, emphasizing the diversified roles of women from antiquity to the present. The focus of the course is on the interaction between the sexes, the effects of the patriarchal family structure on society, and the pervasive impact of patriarchy on all institutions of western culture.

**HIST 307 History of World Civilizations to 1500 3 Units**
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(b); AA/AS Area I; AA/AS Area VI; CSU Area C; CSU Area D6; IGETC Area 4F
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course surveys world civilizations from antiquity to the 1500's, with a particular emphasis on the dynamic interaction and comparison of peoples and cultures. The focus is on the role played by social, political, economic, cultural, and religious forces in shaping the major world civilization and the legacy of these subsequent civilizations for our world today.

**HIST 308 History of World Civilizations, 1500 to Present 3 Units**
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(b); AA/AS Area I; AA/AS Area VI; CSU Area C; CSU Area D6; IGETC Area 4F
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of world history from the 16th century to the present, with particular emphasis on the increased integration of peoples and cultures as the result of the continuing process of globalization. The focus is on the revolutionary transformations of human society and human social relations caused by such new ideas as scientific racism, nationalism, imperialism, and constitutional government. It also covers important trends of the past five-hundred years including the increasing prevalence of migration, the changing nature of warfare, the harnessing of fossil fuels, the growing integration of global economies, and the scientific and technological breakthroughs that are continuing to revolutionize humanity's understanding of and relationship with the natural world. Through this focus it is possible to better understand the forces that have shaped world society over the past five-hundred years and that continue to shape the world today.

**HIST 310 History of the United States 3 Units**
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(a); CSU Area D6; CSU Area F1; IGETC Area 4F
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of United States history from its European, African, and Native American backgrounds to 1865. The course examines the origin and development of many of this nation's political, social, economic and intellectual institutions including their influences upon contemporary American life. These analyses also emphasize such historical concepts as cause and effect, multiple causation and historical interpretation.

HIST 311  History of the United States  3 Units
Advisory: ENGRD 116, OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(a); CSU Area D6; CSU Area F1; IGETC Area 4F
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of United States History from 1865 to the present. It examines many of America’s political, social, economic, and intellectual institutions, including their influences upon contemporary life. This course also examines this nation’s increasing involvement in world affairs. These analyses are set within the context of such historical concepts as cause and effect, multiple causation, and historical interpretation.

HIST 318  American Intellectual and Cultural History  3 Units
Advisory: ENGRD 116, OR ESLR 320 and ESLW 320; OR placement through assessment process.
General Education: AA/AS Area V(a); CSU Area D6; CSU Area F1; IGETC Area 4F
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of major themes and developments in American culture and ideas from the colonial to the contemporary period. Special emphasis is given to religious, scientific, literary, artistic, philosophical, and political thought to explore the sources, expressions, and transformation of cultural and intellectual values in the history of the United States.

HIST 320  History of the United States: African-American Emphasis  3 Units
Advisory: ENGRD 116, OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(a); CSU Area D6; CSU Area F1; IGETC Area 4F
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers U.S. history from the founding of Jamestown in 1607 through the Civil War. The course begins with a brief overview of the Black American’s African heritage. It continues with the role played by African-Americans, their relationships to other groups, and their specific contributions in the growth and development of the nation.

HIST 321  History of the United States: African-American Emphasis  3 Units
Advisory: ENGRD 116, OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(a); AA/AS Area VI; CSU Area D6; CSU Area F1; IGETC Area 4F
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers U.S. history from 1865 to present, including coverage of state and local government with an emphasis on the role of African Americans, their relationships to other groups, and their specific contributions in the growth and development of the nation.

HIST 323  History of the United States: The American Indian Experience  3 Units
Advisory: ENGRD 116, OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(a); AA/AS Area VI; CSU Area D6; CSU Area F1; IGETC Area 4F
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey course that examines the history of Native American peoples from prehistoric times to the present. It covers the effects of European contact, trade, and colonization. It examines the effects of United States political, economic, and social policies on Native Americans throughout U.S. history. Also, emphasis is placed on American Indian people’s attempts to protect their sovereignty and revitalize their societies across time.

HIST 325  History of Asian/Pacific Americans  3 Units
Advisory: ENGRD 116, OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(a); AA/AS Area VI; CSU Area D3; CSU Area D6; IGETC Area 4F
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of the North American Indian nations. The course covers the effects of European contact, trade, and colonization. It examines the effects of United States political, economic, and social policies on Indians throughout U.S. history. Also, emphasis is placed on American Indian people’s attempts to protect their sovereignty and revitalize their societies across time.

HIST 327  History of the Chicano/Mexican American  3 Units
Advisory: ENGRD 116, OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(a); CSU Area D6; CSU Area F1; IGETC Area 4F
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of the North American Indian nations. The course covers the effects of European contact, trade, and colonization. It examines the effects of United States political, economic, and social policies on Indians throughout U.S. history. Also, emphasis is placed on American Indian people’s attempts to protect their sovereignty and revitalize their societies across time.

HIST 330  Women in American History  3 Units
Advisory: ENGRD 116, OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(a); CSU Area D6; CSU Area F1; IGETC Area 4F
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a study of the relationship between the development of American and Mexican civilization in the Western Hemisphere. Focus is on the role of the Mexican American experience as it was affected by social, political, and economic events in the U.S. Emphasis is placed on socio-cultural contributions of Mexican Americans to American institutions.
HIST 340  History of California through 1879  3 Units
General Education: AA/AS Area V(b); CSU Area C; CSU Area D6; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of the original people of California, the discovery and settlement of California by the Spanish, the Mexican period, American conquest and occupation, the Gold Rush, and events through the Constitution of 1879.

HIST 341  History of California: 1879 to Present  3 Units
General Education: AA/AS Area V(b); CSU Area C; CSU Area D6; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of California history from 1879 to the present. Political, economic, social, and cultural developments are emphasized. This course fulfills the CSU graduation requirement for a course in state and local government, but does not meet the requirement for United States Constitution.

HIST 343  The California Mother Lode  .5-3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(b); CSU Area D6
Course Transferable to CSU
Hours: 8-54 hours LEC; 3-18 hours LAB
This course is a history of the Mother Lode with emphasis on the Gold Rush Era and its effects on the natural environment of the region. Lecture-lab activities at selected locations in the Mother Lode region complement the classroom instruction. Each combination of classroom and on-site instruction constitutes one half unit of credit. A student may earn a maximum of three units.

HIST 344  History of California through 1945  3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(b); CSU Area C; CSU Area D6; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of the history of California from 1879 to the present. It examines the major social, political, and economic developments that have shaped Russian society and culture. Special attention is given to Russian culture, politics and protest during the 19th century, the revolutions of 1917 and the Bolshevist rise to power, the creation and expansion of the Soviet state under Stalin, and the decline and collapse of Soviet power.

HIST 345  History of Mexico  3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(b); CSU Area C; CSU Area D6; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of the history of Mexico from the pre-classical period to the present. It examines the origins and development of Mexico’s political, economic, religious, and intellectual institutions, their influence on Mexican society and culture, and the resultant legacy that is modern Mexico.

HIST 346  History of Mexico 3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(b); CSU Area C; CSU Area D6; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of the history of Mexico from the pre-classical period to the present. It examines the origins and development of Mexico’s political, economic, religious, and intellectual institutions, their influence on Mexican society and culture, and the resultant legacy that is modern Mexico.

HIST 364  Asian Civilization  3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(b); CSU Area D6
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of Asian Civilizations from the emergence of agriculture and complex societies to 1800 C.E., with particular focus on India, China, and Japan. Topics include the rise of complex societies across Asia; the relationship between agrarian civilizations and the herders of Inner Asia; state-building and imperialism; the emergence of the major Asian philosophies and religious faiths, including that of Islam; Asian technology and innovation; the Mongol conquests; and the entrance of Europeans into the Asian world beginning in the 15th century.

HIST 365  Asian Civilization  3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(b); AA/AS Area I; CSU Area C; CSU Area D6; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of the political, social, economic and cultural transformation of India, China and Japan since 1800. It emphasizes how these countries responded to the challenges of modernity and western imperialism by embracing new ideas, new approaches to statecraft, and new social and cultural norms. Topics include the emergence of western dominance in Asia, the breakdown of states and empires in conjunction with, and partly as a result of, western imperialism, the development of Asian nationalisms and nationalist movements, and the growth of Japanese imperialism and the effects that this had on the rest of Asia.

HIST 367  History of Russia  3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116; OR ESR 320 and ESLW 320
General Education: AA/AS Area V(b); CSU Area C; CSU Area D6; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of Russian history from 1861 to the present. It examines the major social, political, and economic developments that have shaped Russian society and culture. Special attention is given to Russian culture, politics and protest during the 19th century, the revolutions of 1917 and the Bolshevist rise to power, the creation and expansion of the Soviet state under Stalin, and the decline and collapse of Soviet power.

HIST 368  History of Western Civilization - Honors  3 Units
Prerequisite: Cumulative GPA of 3.0 or above; ENGWR 300 or 480 with a grade of "C" or better.
General Education: AA/AS Area V(b); AA/AS Area I; CSU Area C; CSU Area D6; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an advanced course in Western civilization, covering the emergence of western dominance in Asia, the breakdown of states and empires in conjunction with, and partly as a result of, western imperialism, the development of Asian nationalisms and nationalist movements, and the growth of Japanese imperialism and the effects that this had on the rest of Asia.
HIST 481  History of Western Civilization - Honors  
3 Units  
Prerequisite: Cumulative GPA of 3.0 or above; ENGWR 300 OR 480 with a grade of "C" or better.  
General Education: AA/AS Area V(b); AA/AS Area I; CSU Area C; CSU Area D6; IGETC Area 3B  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course is a survey of western civilization from the Renaissance to the present. Emphasis will be on the social, political, economic, cultural and intellectual forces that have served to shape the modern world. The focus will be on challenging students to interpret the past by critically analyzing both primary sources and relevant works by leading historians.

HIST 483  History of the United States - Honors  
3 Units  
Prerequisite: Cumulative GPA of 3.0 or above; ENGWR 300 or 480 with a grade of "C" or better.  
General Education: AA/AS Area V(a); CSU Area D6; CSU Area F1; IGETC Area 4F  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course is an in-depth study of American history from the Colonial through the American Civil War eras. Particular emphasis will be placed on the interrelationships of the developing American political, economic, social, and cultural institutions.

HIST 484  History of the United States - Honors  
3 Units  
Prerequisite: Cumulative GPA of 3.0 or above; ENGWR 300 or 480 with a grade of "C" or better.  
General Education: AA/AS Area V(a); CSU Area D6; CSU Area F1; IGETC Area 4F  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course is an intense study of American history from 1865 to the present day. Particular emphasis will be placed on the interrelationships of American political, economic, social, and cultural developments.

HIST 494  Topics in History  
.5-4 Units  
Advisory: HIST 302  
Course Transferable to CSU  
Hours: 9-72 hours LEC  
This course provides the opportunity for concentrated study on specialized topics in History. It covers topics from a wide range of academic disciplines including anthropology, economics, engineering, fine arts, history, law, life science, literature, mathematics, philosophy, political science, sociology, psychology and varies in content and scope with the interests and expertise of both the instructors and the students. This course may be taken four times on different topics.
Landscape Industry Degree

The degree presents horticultural science and provides skills that relate to the landscape construction and maintenance industry. The program concentrates on plant identification, design, installation, irrigation, maintenance, soils sustainability, and disease and pest certification. Work experience is required.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Identify and select plant materials that are used for landscapes in the northern California regions.
- Analyze a landscape site and create a complete landscape design for that site.
- Analyze a landscape design and apply the installation procedures necessary to implement the design.
- Assess a landscape and apply the maintenance operation techniques required.
- Assess a soil analysis and apply the appropriate steps for plant health and soil sustainability.
- Demonstrate horticulture skills in a work environment.
- Apply safe operating procedures and practices to all landscape operations.

Requirements for Degree 30-33 Units

Associate Degree Requirements: The Landscape Industry Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Landscape Industry Certificate

This certificate presents horticultural science and provides skills that relate to the landscape construction and maintenance industry. The focus of this program concentrates on plant identification, design, installation, maintenance, soils sustainability, and disease and pest certification.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Identify and select plant materials that are used for landscapes in northern California regions.

Nursery Industry Degree

This degree provides a broad overview of the science of horticulture as it relates to the nursery industry. The focus of the program covers plant production and sales, plant identification, soils and fertilizers, plant diseases and pests, design and pesticide certification. Work experience is required.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- List the propagation options for nursery plants.
- Describe the merchandising practices used in retail nursery sales.
- Apply the principles of soil science and pest identification to nursery plant production and sales.
- Categorize plant material by specific use in the landscape.
- Design a basic landscape plan.
- Demonstrate horticultural skills in a work environment.

CERTIFICATES

**Associate Degree Requirements:** The Nursery Industry Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

**Nursery Industry Certificate**

This certificate provides a broad overview of the science of horticulture as it relates to the nursery industry. The focus of the program covers plant production and sales, plant identification, soils and fertilizers, plant diseases and pests, design and pesticide certification.

**Student Learning Outcomes**

*Upon completion of this program, the student will be able to:*

- list the propagation options for nursery plants.
- apply the principles of soil science and pest identification to nursery plant production and sales.
- categorize plant material by specific use in the landscape.
- describe the merchandising practices used in retail nursery sales.
- design a basic landscape plan.
- recommend solutions to various landscape practices and situations.

**Floristry Certificate**

The Floristry certificate provides well-balanced training in the fundamentals of floral design, the identification of flowers and foliage, the care of fresh cut product and the sources of floral materials. Courses cover special event floral design such as weddings, funerals and holidays, and prepares students to participate in the varied floral enterprises.

**Student Learning Outcomes**

*Upon completion of this program, the student will be able to:*

- Identify floral specimens used in commercial floristry by scientific name and availability
- Assess and utilize floral materials and design to create a visually appealing and salable arrangement
- Demonstrate methods in the care and merchandising of floral materials
- Resource and purchase floral materials
- Apply the distinctive marketing skills for both the retail and mass market in the floral industry

**Career Opportunities**

Completion of the certificate provides satisfactory qualification for employment in retail and mass market floristry industries. The program also is a means to upgrade skills of those already working in the industry.

**Nursery Industry Associate in Science (A.S.) Degree**

The Nursery Industry Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

**Floristry Certificate**

- **Horticulture (HORT) 203:** Multi Occasion, Sympathy Design and the Mass Market (2 units)
- **Plant Diseases and Pests (HORT) 100:** 3 units
  - Prerequisite: HORT 300
  - Corequisite: HORT 300
  - Hours: 36 hours LEC, 54 hours LAB
  - This course is a study of local plant diseases and pests including weed problems, recognition of symptoms and causes, plant/insect/disease life cycles, host and habitat relationships and methods of control.

**Pest Control Licensing For Certification (HORT 105):**

- **Horticulture (HORT) 105:** Pest Control Licensing For Certification (2 units)
  - Prerequisite: HORT 300 with a grade of “C” or better.
  - Hours: 36 hours LEC
  - This course covers the laws and regulations for operators, applicators, and advisors including the study of weeds, diseases and insects and accepted standards for control.

**Irrigation Design (HORT 110):**

- **Horticulture (HORT) 110:** Irrigation Design (2 units)
  - Prerequisite: HORT 300 with a grade of “C” or better.
  - Hours: 36 hours LEC
  - This course is a study of water hydraulics, irrigation equipment inclusive of heads, pipes, pumps, clocks, and valves. Irrigation design, which includes preparing plans, dealing with measurement, head layout, pipe sizing and specifications, is covered.

**Advanced Student Projects (HORT 140):**

- **Horticulture (HORT) 140:** Advanced Student Projects (2 units)
  - Prerequisite: HORT 300 with a grade of “C” or better.
  - Hours: 108 hours LAB
  - This course provides the student with an opportunity to pursue advanced projects which are selected by the department. This course may be taken twice for credit.

**Introduction to Retail Floristry (HORT 200):**

- **Horticulture (HORT) 200:** Introduction to Retail Floristry (2 units)
  - Hours: 18 hours LEC, 54 hours LAB
  - This course presents fundamentals of design techniques and skills practiced in the floral industry. Topics include design mechanics, guides to design, identification of flower and foliage shapes and their use, cut flower care, corsage practice, and containers and designers’ aids. Field trips may be required.

**Floral Design (HORT 201):**

- **Horticulture (HORT) 201:** Floral Design (2 units)
  - Prerequisite: HORT 200 with a grade of “C” or better.
  - Hours: 18 hours LEC, 54 hours LAB
  - This course builds on the theory, techniques and skills developed in HORT 200. Identification of wholesale sources, origin of product, and seasonal price fluctuations in the industry and market are discussed. The emphasis of the course is on design techniques. Field trips may be required.

**Corsage and Wedding Floral Design (HORT 202):**

- **Horticulture (HORT) 202:** Corsage and Wedding Floral Design (2 units)
  - Prerequisite: HORT 201 with a grade of “C” or better.
  - Hours: 18 hours LEC, 54 hours LAB
  - This course presents the history and uses of wedding and body flower designs. The principles, methods, and practices used to create wedding bouquets and arrangements are explored and practiced. The techniques for wiring corsages, tools and materials for creating them, and other body flower designs are taught and experienced. Field trips may be required.
HORT 203  Multi Occasion, Sympathy Design and the Mass Market  2 Units
Prerequisite: HORT 202 with a grade of "C" or better.
Hours: 18 hours LEC; 54 hours LAB
This course presents the theory of sympathy, tribute, party and multi-occasion floral design. Design applications for standing, flat sprays, set work, large multi-occasion arrangements and casket covers are included, as well as their delivery and set up. The mass market place in floral design is explored. Field trips may be required.

HORT 204  Sympathy Tributes  1 Unit
Hours: 18 hours LEC
This course emphasizes principles and elements of sympathy tributes in the funeral business. It also includes the practical application of sympathy design. It covers trends, care and handling, customs, etiquette, and display of sympathy tributes.

HORT 205  Oriental Floral Design  .5 Unit
Hours: 9 hours LEC
This course provides an introduction and overview of oriental floral arranging. The art, principles, and skills of Asian floral design are explored. This course has a class material fee. This course can be taken four times for credit as different oriental schools are covered.

HORT 206  Floral Arranging for Bereavement  .5 Unit
Hours: 9 hours LEC
This course provides an introduction and overview of floral arrangements used in burial rituals. It also covers significant trends in the use of sympathy flowers and how they have evolved over time. A material fee is required for this course. This course may be taken four times for credit emphasizing flowers available in each of the four seasons.

HORT 207  Floral Designs For Special Events  .5 Unit
Hours: 9 hours LEC
This course provides an introduction and overview of floral arrangements for special events. The art, principles, and skills of floral designs for weddings, corporate events, high school events and special occasion designs are explored. This course has a class materials fee. This course can be taken four times for credit as different types of events are covered.

HORT 298  Work Experience in Horticulture  1-4 Units
Prerequisite: Horticulture 300 with a grade of "C" or better.
Advisory: HORT 100, 302, and 305.
General Education: AA/AS Area III(b)
Hours: 18 hours LEC, 60-225 hours LAB
This course provides supervised work experience in the field of horticulture for the purpose of increasing students’ understanding of the nature and scope of the operation of horticulture businesses. Class enrollment is dependent upon student being in a paid or volunteer work experience learning environment.

HORT 300  Introduction to Horticulture  3 Units
General Education: AA/AS Area IV
Course Transferable to CSU
Hours: 54 hours LEC
This course is a survey of principles and practices of horticulture designed to improve the knowledge of the home gardener as well as those seeking a career in horticulture. Topics include basic plant structure and function, general knowledge of plant usage, landscape planning and maintenance.

HORT 302  Soils and Plant Nutrition  3 Units
Corequisite: HORT 300.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a study of the nature and properties of soils and their relationship to plant needs. Topics include water and irrigation problems and erosion control, composition, value and use of fertilizer materials, conditioners and agricultural minerals.

HORT 305  Plant Materials I  3 Units
Corequisite: HORT 300.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a study of the identification, habits of growth, cultural requirements and uses of ornamental woody and herbaceous plants used in the California landscape. Emphasis is on those plants best observed in the fall and winter seasons.

HORT 306  Plant Materials II  3 Units
Corequisite: HORT 300.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course is an overview of the practices involved in commercial nursery operations. Topics include selling techniques, displays and advertising, and customer assistance with basic garden practices.

HORT 310  Nursery Practices  3 Units
Prerequisite: HORT 300 with a grade of "C" or better.
Advisory: HORT 100, 302, 305, and 306.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a study of the fundamental principles involved in propagating plants including identification of facilities, equipment and techniques utilized in plant production. Topics include seed and vegetative propagation, media selection and structures.

HORT 312  Plant Propagation  3 Units
Prerequisite: HORT 300 with a grade of "C" or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a study of the problems and practices in the management of greenhouses, including the production of specific greenhouse crops.

HORT 314  Greenhouse Operations  3 Units
Prerequisite: HORT 300 with a grade of "C" or better.
Advisory: HORT 100, 302, 305, and 306.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a study of the problems and practices in the management of greenhouses, including the production of specific greenhouse crops.

HORT 320  Landscape Construction  3 Units
Prerequisite: HORT 300 with a grade of "C" or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course provides the theory and skills needed in the landscape construction industry. Landscape operations covered include carpentry, masonry, concrete/pavers, irrigation/drainage, low-voltage lighting, soil preparation and drainage, plant materials/turf, plan reading, estimating and bidding in the landscape trades. Field trips are required.
HORT 322  Landscape Graphics  3 Units
Pre requisite: HORT 300 with a grade of "C" or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is the study of technical drafting skills and freehand
graphics including line quality, lettering and organization as it relates
to landscape design. It also includes an introduction to three dimen-
sional sketching and the use of a variety of graphics skills and media.

HORT 324  Landscape Maintenance  3 Units
Pre requisite: HORT 300 with a grade of "C" or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a study of landscape maintenance of exterior and in-
terior residential and commercial landscapes, parks, highways, and
public buildings. Topics include planting, pruning, watering, fertil-
izing, pest control and power equipment operation and maintenance.
Field trips are required.

HORT 326  Landscape Design  3 Units
Pre requisite: HORT 322 with a grade of "C" or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a study of the basic principles and elements of land-
scape design related to the problem solving process, design theory
and composition, functional and design uses of landscape materials,
and client and maintenance criteria.

HORT 327  Advanced Landscape Design  3 Units
Pre requisite: HORT 322 with a grade of "C" or better
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is the study of the advanced and in-depth principles of
custom residential landscape design related to proposal writing, site
analysis, design development and construction document prepara-
tion. Further exploration of design composition is studied as well
as the development of spaces and the use of materials based upon a
client's program desires.

HORT 328  Turf Grass Management  3 Units
Pre requisite: Horticulture 300 with a grade of "C" or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a study of the maintenance and management of
turfgrass areas including golf greens, athletic fields, parks, as well as
residential lawns.

HORT 329  Landscape CAD Design  3 Units
Pre requisite: HORT 322 with a grade of "C" or better
Advisory: DESGN 100
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is an introduction to computer assisted landscape de-
sign and drafting utilizing Computer Aided Drafting and Design
(CADD) software to produce professional quality landscape designs
for residential and commercial sites. Design emphasis includes site
plan development and landscape planting and landscape irrigation
plans, with the generation of materials lists based on the design cre-
ated for the site.

HORT 330  Small Gas Engines, 4-Cycle  2 Units
Same As: AT 301
Course Transferable to CSU
Hours: 18 hours LEC; 54 hours LAB
This course covers basic operational theory, servicing, adjusting, and
the maintenance of 4-cycle small gas engines as they pertain to the
automotive and horticulture industries. This course is not open to
students who have taken AT 301.
Culinary Arts/Restaurant Management Degree

This degree focuses on basic and advanced culinary techniques, related to both hot food and baking. There is additional emphasis on supervisory and management skills, marketing, law, and financial accountability. The Oak Cafe is a small, fine dining restaurant that provides a management training lab for advanced students in the program.

Student Learning Outcomes

Upon completion of this program, the student will be able to:
• Analyze and design cost effective labor and production schedules.
• Analyze and compare methods of internal cost control.
• Assess contracts commonly used in the food service industry.
• Choose and demonstrate optimal cooking procedures for all categories of foods to include, but not be limited to, vegetables, fruits, fats and oils, milk products, eggs, legumes, grains, baked products, poultry, meat seafood, and soups.
• Assess standards and procedures for delivery concepts into appropriate restaurant service.
• Construct menus considering food, labor, production costs, and marketing.
• Evaluate quality principles to management of the restaurant kitchen, including team building.

Career Opportunities

The hospitality industry is one of the fastest growing market segments available for entry level and professional employees. Businesses including, restaurants, hotels, theme parks, bakeries, cruise ships, caterers and grocery stores are in search of line cooks, entry level and advanced managers, chefs, sous chefs, servers and more.

Hospitality Management: Restaurant Management Certificate
This Certificate provides hands-on learning with an emphasis on supervisory and management skills in the restaurant environment. Management and the front-of-the-house skills are emphasized, with students learning basic culinary skills. The Oak Cafe is a small, fine dining restaurant that provides a management training lab for advanced students in the program.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
• Analyze and design cost effective labor and production schedules.
• Analyze and compare methods of internal cost control.
• Assess standards and procedures for delivery concepts into appropriate restaurant service.
• Construct menus considering food, labor, production costs, and marketing.
• Evaluate quality principles to the management of a restaurant, including team building and motivation.

Career Opportunities
The continued growth of the hospitality industry has resulted in an increased need for qualified managers, both entry level and advanced, in all levels of restaurants, hotels, bakeries and other food service and hospitality establishments.

Requirements for Certificate  28 Units
HM 100  Calculations in Foodservice Occupations  3
HM 110  Management and Supervision in the Hospitality Industry  3
HM 115  Advertising and Sales in Food Service  2
HM 120  Beverage Operation  2
HM 300  Becoming a Chef  3
HM 310  Sanitation, Safety and Equipment  3
HM 315  Food Theory and Preparation  4
HM 340  Cost Control in the Food Service Industry  2
HM 370  Dining Room Management  21
And a minimum of 5 units from the following:  5
HM 498  Work Experience in Hospitality Management (1 - 4)
1HM 370 requires an additional minimum of 8 hours per week in the Oak Cafe

Introductory Baking Certificate
The Introductory Baking certificate provides hands-on learning, focusing on job skills with an emphasis on baking and pastry. It includes production baking, candies, wedding and specialty cakes, plated desserts and artisan breads.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
• Assess and demonstrate basic mixing methods for yeast doughs, cakes, cookies and pastries.
• Analyze and critique professional, commercial bakeshop ingredients and supplies.
• Analyze quality defects in baked products and specify possible errors in technique or ingredient selection.
• Prepare and critique a variety of products in include: biscuits, artisan breads, Danish pastry, muffins, coffee cakes, pies, tarts, puff pastry, cakes, cookies, pastry cream, pate a choux, icings, souffles, ice creams and meringues.

Requirements for Certificate  17 Units
HM 300  Becoming a Chef  3
HM 310  Sanitation, Safety and Equipment  3
HM 315  Food Theory and Preparation  4
HM 320  Breads, Yeast Doughs and Pastry  2
HM 325  Fine Baking and Pastry (European)  2
HM 330  Advanced Baking and Pastry  3

HM 100  Calculations in Foodservice Occupations  3 Units
Advisory: MATH 25; or placement through the assessment process. Hours: 54 hours LEC
This course is a study of mathematical principles in the context of commercial food production. Topics include recipe conversion and yields, production baking formulas, weights and measures, product yield tests, and recipe and food cost analysis.

HM 101  Introductory Culinary Skills  1.5 Units
Hours: 27 hours LEC
This introductory course is designed to provide the foundation for all entry level food preparation courses. It focuses extensively on the development of job skills, equipment utilization, weights, measurements, knife speed and accuracy, as well as kitchen product identification.

HM 110  Management and Supervision in the Hospitality Industry  2 Units
Advisory: ENGRD 116 or ESLR 320, ESLL 320, and ESLW 320, or placement through assessment. Hours: 36 hours LEC
The role of management in supervision including profiles of effective management styles, supervision and leadership is covered. Current theories of management and supervision of service industry are introduced.

HM 115  Advertising and Sales in Food Service  2 Units
Advisory: ENGRD 116 or ESLR 320, ESLL 320, and ESLW 320, or placement through assessment. Hours: 36 hours LEC
This course is an introductory presentation of principles involved in advertising for food service establishments. Topics covered include menu planning, design and pricing, marketing plans, market information systems, consumer behavior and internal and external promotions.
HM 120  Beverage Operation  2 Units
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, and ESLW 320, or placement through assessment.
Hours: 36 hours LEC
This course is a study of beverages, both alcoholic and non-alcoholic, used in the food service industry. Topics include: beverage composition, production methods and regions, quality, characteristics, uses in drinks and food, beverage service; wine analysis, service and pairing with food; government regulations and licenses. Field trips are included.

HM 125  Legal Aspects of the Hospitality Industry  2 Units
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, and ESLW 320, or placement through assessment.
Hours: 36 hours LEC
This course provides an explanation of legal aspects of the food service industry. Topics include government regulations, patron safety and rights; liability issues for food, alcohol, property and ownership protection; employee issues of fair hire and termination and forms of business organization.

HM 150  Catering  3 Units
Prerequisite: HM 315 with a grade of “C” or better.
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, and ESLW 320, or placement through assessment.
Hours: 18 hours LEC; 108 hours LAB
This course covers the business and culinary aspects of catering. Topics include starting a catering business, laws, licenses, taxes, insurance and contracts. Also included are interviewing clients and organizing catered menus and events; pricing menus and services; staffing, equipping, and transporting catered services; culinary techniques; and weddings and receptions. Off-campus catering events are required.

HM 155  Mediterranean Cuisine  3 Units
Prerequisite: HM 315 with a grade of “C” or better.
Advisory: HM 100 and 310.
Hours: 36 hours LEC, 54 hours LAB
This course presents the study of ingredients and culinary techniques used in preparing foods from the Mediterranean including France, Italy, Sicily, Greece, Spain, North Africa and regional focuses within these areas. The laboratory component includes skills development, production and the use of equipment specific to preparation of Mediterranean foods.

HM 165  Regional American Cuisine  3 Units
Advisory: HM 310, 310, and 315.
Hours: 36 hours LEC, 54 hours LAB
This course presents the study of ingredients and culinary techniques used in the preparation of foods from a variety of North American cuisines, including New England, Floribian, Cajun, Californian, Midwestern, Southern, Pacific Northwestern, and others. Topics include the foods indigenous to the regions and the influences of early settlers. The laboratory component includes skills development, production and the use of equipment specific to those individual areas.

HM 180  Garde Manger  3 Units
Prerequisite: HM 315 with a grade of “C” or better.
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, and ESLW 320, or placement through assessment.
Hours: 36 hours LEC; 54 hours LAB
This course focuses on the art of the cold kitchen with emphasis on both modern and classical techniques. Topics covered include hors d’oeuvre, canaps, salads, brining, pickling, curing, and smoking. It also includes basic charcuterie with emphasis on forcemeats, moul.selins, terrines, pates, galantines and sausages.

HM 290  Competitive Culinary Training  2-4 Units
Prerequisite: Hospitality Management 315 with a “C” or better.
Hours: 18 hours LEC; 60-225 hours LAB
This course is a cooperative effort between the college, The American Culinary Federation and The Capital Chef’s Associations. Students will work with instructors and local chefs to prepare themselves to compete in regional and national culinary competitions, using the American Culinary Federation format. Labs will include knife skills and hot food preparation. Field trips to local restaurants will be included to work with local chefs. This course may be taken 4 times for a maximum of 12 units.

HM 297  Internship in Hospitality Management  1-4 Units
Prerequisite: Must have completed 15 units in Hospitality Management with a grade of “C” or better.
Advisory: MATH 25, ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, and ESLW 320, or placement through assessment process.
Hours: 18 hours LEC, 60-225 hours LAB
This course is a cooperative effort between the college and hospitality industry to provide training through practical on-the-job experience. Internship sponsors/employers assist in the acquisition of skills and application of knowledge learned in the classroom. May be taken 4 times for credit for a maximum of 8 units.

HM 300  Becoming a Chef  3 Units
Course Transferable to CSU
Hours: 54 hours LEC
This course covers the history of the culinary profession, explores the numerous avenues of opportunity, and studies the advantages of continuing education in the field. It also covers the backgrounds and approaches of successful chefs and restaurateurs. Field trips are required and provide exposure to different types of kitchens, industry food shows, and/or markets.

HM 310  Sanitation, Safety and Equipment  3 Units
Advisory: MATH 204, ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, and ESLW 320, or placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course covers all phases of food sanitation; cause, control and investigation of illnesses caused by food contamination; sanitary practices in food preparation, proper dishwashing procedures; sanitation of kitchen, dining room, and all equipment; cleaning materials and procedures; garbage and refuse disposal. The course includes general safety precautions, including elementary first aid; maintenance and operation of appropriate food service equipment; and elements of kitchen planning and types of equipment used.

HM 315  Food Theory and Preparation  4 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 36 hours LEC; 108 hours LAB
This course is a comprehensive study of basic principles of food science and theory and techniques involved in food preparation. A study of the factors that influence foods and the changes which occur in foods during preparation is included. Emphasis is on basic cooking skills, theory application, product and quality identification.

</table>

This course covers the study of intermediate culinary techniques, production standards, recipe analysis, presentation, stocks, sauces, and major ingredients used in professional cooking. The laboratory component includes use of equipment, skills development and time management in the commercial kitchen.

This course focuses on restaurant management with emphasis on service and the dining room. Topics include the historical view of service, quality and exceeding expectations, methods of service, management of service operations and personnel, internal and external marketing, and daily reports and controls. Work experience component allows for hands-on experience running the dining room of the Oak Cafe two days a week.

This course covers theory and principles of fine baking and pastry with emphasis on the European tradition. Concentration is on cakes, fine pastry, chocolate work, decoration, and classic and modern desserts. All lecture and laboratory material is intended for students interested in commercial application in restaurants, bakeries and other food service facilities. Laboratory work allows individual and quantity production of products studied.

This course focuses on commercial production of baked products, pastries, candies, restaurant style desserts and wedding cakes. Lecture emphasizes advanced baking science; laboratory hours are spent in commercial production. Products include European style breads, restaurant style plate presentation, frozen desserts, tortes, cakes, sauces, tarts, pulled sugar, piping and chocolate work. Emphasis is placed on production of high quality products and professional presentation. Field trips to professional bakeries are required.

This course covers accounting and cost control principles in the foodservice industry. It includes the use of accounting techniques to analyze food and labor cost control, business operations, budgeting, financing, and profit and loss statements.

This course presents the study of intermediate culinary techniques, production standards, recipe analysis, presentation, stocks, sauces, and major ingredients used in professional cooking. The laboratory component includes use of equipment, skills development and time management in the commercial kitchen.
American River College's counseling and guidance classes are designed to help the student in achieving success in college through a variety of classes, which include study skills, exploration of careers, and field experience in the disabled student services program.

**HCD 111 College Discovery Program**  
1 Unit  
*Hours: 18 hours LEC*  
This course is a review of opportunities and resources relevant to student success at American River College. It will focus on goals and objectives, campus requirements, and skills, techniques, and attitudes compatible with student progress. Examination of student services, instructional area, and campus life. May be taken twice for credit.

**HCD 114 Human Potential Seminar**  
2 Units  
*Hours: 36 hours LEC*  
This course provides an in-depth examination of techniques to be used in enhancing one’s chances for success in college. It is designed to meet the needs of students who are experiencing difficulty in achieving their goals in higher education. Course topics include: motivation, goal setting, communication skills, time management, exam preparation, note taking and reading college textbooks. It is required for most dismissed students for readmission to the college.

**HCD 115 Orientation to College**  
.5 Units  
*Hours: 9 hours LEC*  
This course is an introduction to college services and programs at American River College. Topics covered include campus resources, procedures and college requirements. Additionally, a campus tour is required.

**HCD 122 Study Skills**  
1 Unit  
*Same As: INDIS 100*  
*Hours: 18 hours LEC*  
This course covers specific study skills strategies. It provides the opportunity to analyze attitudes toward studying, and current study skill habits. Topics include specific learning styles, strategies for time management, goal setting, note-taking, memory improvement, reading skills, and how to prepare for, and take exams. This course is not open to students who have completed INDIS 100.

**HCD 136 Career Preparation and the World of Work**  
3 Units  
*Hours: 54 hours LEC*  
This course provides career planning based on the assessment of interests, personality traits, values, and skills. It develops strategies for a career campaign, including cover letter/resume writing. It concentrates on the physical and emotional demands of work, the study of work among professional, technical, and laboring groups, as well as large and small companies.

**HCD 160 Applied Life and Success Skills**  
2 Units  
*Hours: 36 hours LEC*  
This course covers the skills and tools necessary for daily independent living and success as a college student. It focuses specifically on disability management, personal goals and community and campus resources. It also serves as preparation for those individuals who are interested in careers in human services and disability services.

**HCD 310 College Success**  
3 Units  
*Advisory: ENGRD 116 or ESLR 320; ENGRW 102 or 103 or ESLW 320*  
*Course Transferable to UC/CSU*  
*Hours: 54 hours LEC*  
This course covers the skills and knowledge necessary for college success. Topics include motivation, self discipline, learning styles, memory development, time management, communication skills, goal-setting, career planning, study skills and techniques, and critical thinking skills. Additionally, it covers personal issues that are commonly encountered by many college students. Campus resources, college regulations, and information competency are also addressed. This course is highly recommended for first time college students and/or continuing college students who would benefit. Field trips may be required.

**HCD 316 Athletic Seminar**  
1 Unit  
*Course Transferable to CSU*  
*Hours: 18 hours LEC*  
This course addresses the concerns and issues of student athletes. Course topics include support services at ARC, educational planning, career planning, study skills, two-year and four-year eligibility rules, recruitment rules, and nutrition.

**HCD 318 Transfer: Making It Happen**  
2 Units  
*General Education: AA/AS Area III(b)*  
*Course Transferable to CSU*  
*Hours: 36 hours LEC*  
This course provides the necessary tools and skills to successfully transfer from a community college to a four-year college or university. In addition, it demonstrates the applications of knowledge from college research, self-analysis, and differentiation between college selection and majors.

**HCD 330 Life and Career Planning**  
1 Unit  
*Advisory: ENGRW 51, ESLR 310, or ESLW 310*  
*General Education: AA/AS Area III(b)*  
*Course Transferable to CSU*  
*Hours: 18 hours LEC*  
This course is a comprehensive approach to life and career planning based on extensive measurement of aptitude, interests, personality type, values, and skills. Personal and career goals are formulated using career research and decision-making strategies. Course topics include changing career trends and job search techniques.

**HCD 331 Career and Job Search Strategies**  
1 Unit  
*Advisory: HCD 330*  
*General Education: AA/AS Area III(b)*  
*Course Transferable to CSU*  
*Hours: 18 hours LEC*  
This course is designed to assist in the development of research skills in preparation for future employment in a competitive employment market. Topics include researching career fields, setting specific career/educational goals, and examining employment trends. It also includes resume writing, interview skills, and job search strategies.
HCD 336  Exploring Health Careers  1 Unit
General Education: AA/AS Area III(b)
Course Transferable to CSU
Hours: 18 hours LEC
This course will introduce a wide variety of health-related occupa-
tions with particular emphasis on educational programs and career
opportunities. Through analysis of interests, personality, and re-
search, an individual college and career plan will be developed.

HCD 337  Volunteer Experience in Health Careers  1.5 Units
Advisory: ENGWR 102 or ENGWR 103 or ESLW 320 or ESLL 320, 
HCD 336.
Course Transferable to CSU
Hours: 9 hours LEC; 54 hours LAB
This course offers an opportunity to obtain a “hands-on” volunteer
health career experience. Placement will be in hospitals, dental offic-
es, physical therapy clinics, animal health centers, or other locations
utilizing health professionals. May be taken twice for credit.

HCD 380  Specific Learning Skills Assessment  1 Unit
Course Transferable to CSU
Hours: 18 hours LEC
This course is designed for the student with special learning dif-
ficulties who may have a specific learning disability. Individual as-
seessment of learning strengths and weaknesses will be completed to
determine eligibility for Learning Disabilities services using criteria
mandated by the California community college system. Offered on a
credit/no credit basis only.

HCD 382  Specific Learning Strategies  3 Units
Course Transferable to CSU
Hours: 54 hours LEC
This course provides learning support related to specific learning dis-
abilities. It will present academic strategies to compensate for learn-
ing disabilities in order to provide for success in other college course
work. May be taken twice for credit.

HCD 384  Field Experience in Disabled Student
Programs and Services  3 Units
Advisory: ENGWR 102 or 103 or ESLW 320 or ESLR 320.
Course Transferable to CSU
Hours: 162 hours LAB
This course provides the student with an in-depth understanding, in-
creased knowledge, and direct application of the techniques and skills
required to assist disabled students to be successful in the college
setting. The majority of course time will be spent providing support
services to students with disabilities. Placement will be determined
by the instructor. May be taken three times for credit.

HCD 386  Experiences in Disabled Student Programs
and Services  .5-3 Units
Advisory: ENGWR 102 or 103 or ESLW 320 or ESLL 320.
Course Transferable to CSU
Hours: 27-162 hours LAB
This course allows students an initial opportunity to provide direct,
supervised services to disabled college students, thereby assisting in
their adaptation to the physical and academic environment of the
community college setting. Placement on campus determined by
instructor. Course can be entered up to twelfth (12th) week. May
be taken for a maximum of nine (9) units.
Human Services Degree and Certificate

The program in Human Services centers around the broad array of entry level skills and abilities effectively used in social service delivery systems. Coursework includes the twelve helper core function applications in client screening, intake, assessment, orientation, counseling, consultation, client’s rights, confidentiality, crisis intervention, client education, professional ethics, and reports and record keeping.

Student Learning Outcomes

Upon completion of this degree program, the student will be able to:

- Define the functions of social service delivery systems
- Analyze public policy issues, complexities and controversies affecting social service agencies and their clients
- Integrate different theoretical approaches in working with clients
- Identify the community resources used in assisting clients
- Appraise and apply the knowledge of existing California professional codes of ethics for the helping professions
- Describe the application of clients’ rights in the social service delivery system
- Evaluate one’s own values and attitudes as they apply to ethical decision making
- Demonstrate appropriate interpersonal and social skills in interactions with a diverse population using principles of equity, justice, and inclusion

HSER 362 Practices in Human Services (3)

HSER 362 must be taken twice.

Associate Degree Requirements: The Human Services Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Chemical Dependency Studies Degree and Certificate

The program in Chemical Dependency Studies centers around the specific skills and abilities necessary to provide comprehensive drug and alcohol counseling. Course work includes the twelve counselor core function applications in addiction screening, intake, assessment, orientation, counseling, crisis intervention, consultation, clients education, client’s rights, confidentiality, professional ethics, and reports and record keeping.

Student Learning Outcomes

Upon completion of this degree program, the student will be able to:

- Evaluate the components of a quality chemical dependency counseling program
- Demonstrate the twelve essential counseling skills as they apply to chemical dependency and recovery processes
- Utilize counseling strategies based on examination of scientific theories of addiction
- Identify the community resources used in assisting clients with addiction issues
- Appraise and apply the knowledge of California Professional Codes of Ethics for Drug and Alcohol counselors
- Evaluate one’s own values and attitudes as they apply to ethical decision making
- Demonstrate appropriate interpersonal and social skills in interactions with a diverse population using principles of equity, justice, and inclusion

Career Opportunities

Upon completion of the program a student possesses the coursework required for initial certification as a California drug and alcohol counselor (CDAC).

And a minimum of 6 units from the following: 6

HSER 362 Practices in Human Services (3)

HSER 362 must be taken twice.

Associate Degree Requirements: The Chemical Dependency Studies Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.
HSER 300  Introduction to Human Services  3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course is a comprehensive overview of the field of human services and an introduction to attitudes and methods that enhance communication skills in human relations and enable effective intervention in problem situations. Emphasis is on the roles and skills of associate professionals, such as drug and alcohol counselors, health workers, activity directors with the elderly, and child welfare assistants. Group techniques are emphasized. This course is required for Human Services and Chemical Dependency degrees and certificates.

HSER 310  Ethical Issues and Client’s Rights  3 Units
Same As: GERON 304
Corequisite: HSER 300
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course is a comprehensive exploration of the basic ethical issues involving human services delivery. Topics include professional ethics, confidentiality, counselor and clients’ rights, and other areas involving ethical controversies. This course is not open to students who have completed GERON 304.

HSER 320  Introduction to the Principles of Psychiatric Rehabilitation  3 Units
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 or ESLR 320, ESLW 320, or placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course is an introduction to the principles and practices of psycho-social rehabilitation (PSR) used for working with individuals who have severe mental illness to live successfully in community-based settings. Emphasis is on the roles and skills of unlicensed mental health workers in hospitals, treatment and social rehabilitation settings.

HSER 330  Issues of Diverse Populations  3 Units
Same As: PSYC 365
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area V(b); AA/AS Area VI; CSU Area E1
Course Transferable to CSU
Hours: 54 hours LEC
This course is a study of the values, problems, issues, concerns and counseling needs of special population groups including the elderly, African Americans, Hispanics, Asians, Native Americans, homosexuals, the poor and terminally ill. It also includes the nature and extent of chemical dependency and other addictive behaviors. Not open to students who have completed PSYC 365.

HSER 340  Introduction to Chemical Dependency  3 Units
Same As: PSYC 400
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area III(b); CSU Area E1
Course Transferable to CSU
Hours: 54 hours LEC
This course examines the physiological effects of chemical dependency on the individual. It includes an analysis of the effects of substance abuse on the family; the sociological, economic conditions contributing to substance abuse; and a description of community efforts at prevention and treatment. This course is not open to students who have completed PSYC 400.

HSER 341  Physiology and Pharmacology: Alcohol & Other Drugs  3 Units
Same As: PSYC 401
Prerequisite: HSER 340 or PSYC 400 with a grade of “C” or better
Course Transferable to CSU
Hours: 54 hours LEC
This course is a study of the chemical composition of alcohol and the mechanism of action in the body of alcohol and other psychoactive drugs, including opiates, stimulants, depressants, psychotherapeutics, and psychedelics. It also includes the social and psychological implications of tolerance, habituation, and substance abuse of the user and abuser. This course is not open to students who have completed PSYC 401.

HSER 342  Alcoholism: Intervention, Treatment & Recovery  3 Units
Same As: PSYC 402
Prerequisite: HSER 341 or PSYC 401 with a grade of “C” or better
Course Transferable to CSU
Hours: 54 hours LEC
This course is a study and evaluation of techniques used in the treatment of chemical dependency. Topics include intervention, individual and group counseling, detoxification, twelve-step program, therapeutic communities, and aftercare programs. This course is not open to students who have completed PSYC 402.

HSER 360  Techniques of Interviewing and Counseling  3 Units
Prerequisite: HSER 300 with a grade of “C” or better
Corequisite: GERON 304 or HSER 310
Course Transferable to CSU
Hours: 54 hours LEC
This course is a survey of interview and counseling techniques appropriate for paraprofessionals in mental health, corrections, and substance abuse counseling. It includes theories of family co-dependency and techniques for counseling the family and significant others of substance abusers.

HSER 362  Practices in Human Services  3 Units
Corequisite: HSER 310 and HSER 360 or 365
Enrollment Limitation: Completion of the American River College Human Services Agency placement process.
Course Transferable to CSU
Hours: 18 hours LEC; 108 hours LAB
This course provides advanced study and supervised field experience in public and/or private agencies providing mental health, corrections, chemical dependency, and child/adolescent treatment services. Students apply concepts, values, and skills acquired in other core courses to the process of helping others. This course may be taken three times for credit/no credit only.
HSER 365  Techniques of Group Counseling  3 Units  
Prerequisite: HSER 360 with a grade of “C” or better  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course covers the basic elements of group counseling. Ethical issues are compared and analyzed. Emphasis is on the use of facilitating skills and group dynamics.

HSER 494  Topics in Human Services  3 Units  
Advisory: ENGWR 102 or ENGWR 103, ENGRD 116 or ESLR 320, ESLW 320 or placement through the assessment process.  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course is a concentrated study of current issues in the field of psychosocial rehabilitation. Topics will reflect contemporary issues and problems in the areas of treatment, recovery, advocacy, and future trends. Emphasis will be in the promotion and support of community-based systems of service.
Humanities courses at ARC emphasize the connections between the arts of major cultures in a process which analyzes the core values of a specific age or place. Art, literature, music, and philosophy are viewed in the historical contexts of classical and modern Europe, the cultures of the Americas, and the civilizations of the East. Courses also provide introductions to the Middle East and to the biblical traditions of the Old and New Testament.

**HUM 300 Classical Humanities 3 Units**
Advisory: ENGWR 102, ENGWR 103, or ESLW 320; or placement through the assessment process.
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of Western culture that focuses on the human values expressed through painting, sculpture, architecture, music, literature, and philosophy. Emphasis is on the civilizations of Greece, Rome, and the Middle Ages.

**HUM 302 Global Humanities: Atheism in Creativity, Thought, and Inspiration Traditions 3 Units**
Advisory: ENGWR 102, ENGWR 103, ESLR 320, and ESLW 320
Course Transferable to CSU
Hours: 54 hours LEC
This academic and non-sectarian course emphasizes the historical and cultural frameworks of atheism. It takes a basic, integrated humanities approach to global non-religious traditions. The course analyzes a broad range of visual and performance arts, as well as literary documents, that explore diverse atheist philosophies over time and around the world. It reviews the difference between atheism and related conceptual traditions in creative expression. The course studies works and ideas comparatively, analyzing their relation to their contexts and to their impacts.

**HUM 310 Modern Humanities 3 Units**
Advisory: ENGWR 102, ENGWR 103, or ESLW 320; or placement through the assessment process.
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of Western culture that focuses on the human values expressed through painting, sculpture, architecture, music, literature, and philosophy. Emphasis is on the period from the Renaissance to the Modern Age.

**HUM 320 Asian Humanities 3 Units**
Advisory: ENGWR 102, ENGWR 103, or ESLW 320; or placement through the assessment process.
General Education: AA/AS Area I; AA/AS Area VI; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course surveys traditions, cultures, literature, art, music and film of India, China, and Japan from ancient times to the present. Emphasis is on the inter-relationships of the arts, literatures and philosophies in their historical contexts within each geographical area.

**HUM 326 Middle Eastern Humanities 3 Units**
Advisory: ENGWR 102, ENGWR 103, or ESLW 320; or placement through the assessment process.
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course surveys the cultures of the Middle East, with an emphasis on the analysis and appreciation of the arts, architecture, music, and sacred and secular texts of Egypt, Israel, Saudi Arabia, Iran, Iraq, Turkey and other countries from ancient to modern times, as they apply to cultural and political developments.

**HUM 330 Humanities of the Americas 3 Units**
Advisory: ENGWR 102, ENGWR 103, or ESLW 320; or placement through the assessment process.
General Education: AA/AS Area I; AA/AS Area VI; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course surveys traditions, cultures, literature, art, music and film of the Western Hemisphere from antiquity to contemporary times, with an emphasis on an awareness of and a sensitivity to the literature, philosophy, music of the past and present, and specific attention to the distinctively American aspects of those arts and their difference from the European tradition.

**HUM 360 Introduction to the Old Testament (The Hebrew Bible) 3 Units**
Advisory: ENGWR 102, ENGWR 103, ESLR 320, or ESLW 320; or placement through the assessment process.
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course provides a literary and historical approach to the Hebrew Bible. This academic and non-sectarian course explores the ancient Israelite society prior to the Common Era through a study of the Old Testament of the Bible, culture artifacts, and other writings of contemporaneous societies of the ancient Middle East, and a study of scholarly theories and archaeological studies related to biblical texts and ancient Israelite material culture.

**HUM 365 Introduction to the New Testament 3 Units**
Advisory: ENGWR 102, ENGWR 103, ESLR 320, or ESLW 320; or placement through the assessment process.
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course provides a literary and historical approach to the New Testament. The course surveys the cultures of the Middle East, with an emphasis on the analysis and appreciation of the arts, architecture, music, and sacred and secular texts of Egypt, Israel, Saudi Arabia, Iran, Iraq, Turkey and other countries from ancient to modern times, as they apply to cultural and political developments.
HUM 481  Honors Classical Humanities  1 Unit
Prerequisite: Cumulative GPA of 3.0 or above; ENGWR 300 or 480 with a grade of "C" or better.
Corequisite: HUM 300
General Education: CSU Area C
Course Transferable to UC/CSU
Hours: 18 hours LEC
This honors course supplements HUM 300. It is an in-depth investigation of seminal works and thought in Western culture from antiquity to the Renaissance. The seminar format requires significant reading and presentation commitments.

HUM 482  Honors Modern Humanities  1 Unit
Prerequisite: Cumulative GPA of 3.0 or above; ENGWR 300 or 480 with a grade of "C" or better.
Corequisite: HUM 310
General Education: CSU Area C
Course Transferable to UC/CSU
Hours: 18 hours LEC
This honors course supplements HUM 310. It is an in-depth investigation of seminal works and thought in Western culture from the Renaissance to the present. The seminar format requires significant reading and presentation commitments.

HUM 494  Topics in Humanities  .5-4 Units
Advisory: ENGWR 102 or ESLW 320 or placement through assessment.
Course Transferable to CSU
Hours: 9-72 hours LEC
This course will provide the opportunity for concentrated study on specialized topics in the Humanities. Each offering focuses on the integration of arts and ideas in the works of a particular time and place and/or illuminates a selected theme. Refer to class schedule for current topic. Individual field trips may be required. Course may be taken for a maximum of 6 units.
English Communication and Literature Degree

The English Communication and Literature degree provides an area of emphasis in verbal and written communication skills, along with the study of literature. It offers a general background in communication skills which can be used in the work place. Students who work closely with their counselor can also use this area of emphasis to prepare for majoring at a four-year college in English Composition, Literature and Communication.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Apply the elements of style in writing.
• Identify premises, both explicitly stated and implied.
• Maximize communication effectiveness by planning and adapting to specific audiences.
• Write analytically about literature.
• Examine fiction as a reflection of the authors’ cultures and values.

History of the Creative Arts Degree

The History of the Creative Arts degree provides an area of emphasis in the history of art, fashion, music and theatre. It is intended for students who wish to work in the creative arts. Students who work closely with their counselor can also use this area of emphasis to prepare for majoring at a four-year college in Art, Music, Theatre and Humanities.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Recognize the role of the arts in society.
• Analyze the influences of social, political and ethnic issues on the arts.
• Compare and contrast styles of artistic expressions.
• Assess the historical, artistic, social, and philosophical environments in an artistic genre.

Requirements for Degree

A minimum of 3 units from the following: ........................................ 3
- SPEECH 311 Argumentation and Debate (3)
- SPEECH 321 Interpersonal Communication (3)

A minimum of 3 additional units chosen from either of the groups of courses listed above.

Associate Degree Requirements: The English Communication and Literature Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.
The Individual and Society Degree

The Individual and Society degree provides an area of emphasis in the effects of culture, religion, ethnicity, and gender on individuals living in a global society. It is designed for students wishing to work more effectively with others in the workplace. Students who work closely with their counselor can use this area of emphasis to prepare for majoring at a four-year college in Psychology, Sociology, Ethnic Studies, Women's Studies and Child Development.

Student Learning Outcomes

Upon completion of this program, the student will be able to:
- examine human diversity in relation to psychological theory,
- identify the consequences of ethnocentrism and gender bias on social interactions,
- analyze the influence of culture, family, society, and environment on an individual's development,
- analyze patterns of social problems which are based on ethnic and cultural differences in the United States.

Requirements for Degree 18 Units

A minimum of 18 units from the following: 18

CSU General Education Certificate

The CSU General Education certificate is designed for students planning to transfer to a California State University (CSU) campus. Completion of this certificate ensures that the student has met the lower division General Education requirements for all CSU campuses.

Student Learning Outcomes

Upon completion of this degree program, the student will be able to:
- explain the values of a culture as expressed through its art or language,
- demonstrate effective expository and persuasive writing skills,
- develop a reasoned solution to a problem,
- evaluate new and accepted ideas about the natural universe using testable methodology,
- evaluate the methods of inquiry and evidence used in the behavioral and social sciences.

Requirements for Certificate 39 Units

A minimum of 39 units from the following: 39

Students must complete a minimum of 39 units used to satisfy the CSU General Education requirements. See the CSU General Education patterns listed in the American River College (ARC) catalog or consult with an ARC counselor.

Intersegmental General Education Transfer (IGETC) Certificate

The Intersegmental General Education Transfer (IGETC) certificate is designed for students planning to transfer to a California State University (CSU) or University of California (UC) campus. It ensures that the student has met the lower division General Education/Breadth requirements for all CSU and UC campuses.

Student Learning Outcomes

Upon completion of this degree program, the student will be able to:
- explain the values of a culture as expressed through its art or language,
- demonstrate effective expository and persuasive writing skills,
- develop a reasoned solution to a problem,
- evaluate new and accepted ideas about the natural universe using testable methodology,
- evaluate the methods of inquiry and evidence used in the behavioral and social sciences.

Requirements for Certificate 39 Units

A minimum of 39 units from the following: 39

Students must complete a minimum of 39 units used to satisfy IGETC certification requirements. See the IGETC pattern in the American River College (ARC) catalog or consult with an ARC counselor.
**Interdisciplinary**

**INDIS 100 Study Skills**
1 Unit

Same As: HCD 122

Hours: 18 hours LEC

This course covers specific study skills strategies. It provides the opportunity to analyze attitudes toward studying, and current study skill habits. Topics include specific learning styles, strategies for time management, goal setting, note-taking, memory improvement, reading skills, and how to prepare for, and take exams. This course is not open to students who have completed HCD 122.

**INDIS 320 Introduction to Tutor Training**
1 Unit

Advisory: A grade of "B" or better in the course the student will serve as a tutor.

Course Transferable to CSU

Hours: 18 hours LEC

This course is offered in coordination with the American River College Tutorial Services Program. It is designed to train students to become effective tutors.

**INDIS 321 Introduction to Group Tutoring**
1 Unit

Advisory: A grade of "B" or better in course to be tutored. Faculty recommendation to be a Beacon Learning Assistant or Learning Resource Center group tutor.

Course Transferable to CSU

Hours: 9 hours LEC; 27 hours LAB

This course is offered in coordination with the Beacon Peer-Assisted Learning Program and the Tutorial Services Program. It is designed to familiarize the Learning Assistant with the role of the tutor and the methods of effective group tutoring. This course emphasizes collaborative, interactive approaches to learning in a group setting.

**INDIS 325 Tutoring High School Students**
3 Units

General Education: AA/AS Area III(b); CSU Area E1

Enrollment Limitation: Interview

Course Transferable to CSU

Hours: 36 hours LEC; 18 hours LAB

A program offered in coordination with the high schools. The course will include a four-week introductory training period. Tutors will work at a selected high school twice per week with assigned tutees. The course is recommended for students majoring in teacher preparation. It may be taken twice for credit.

**INDIS 330 Group Leadership Processes**
1-4 Units

Prerequisite: An introductory course in psychology, sociology or speech.

Course Transferable to CSU

Hours: 18-72 hours LEC

Designed to offer and to prepare students for necessary experiences in group processes as participants and as leaders. Students will be given opportunities to assume group leadership roles and to practice effective oral communication as they assist new students with general information about the college and its curriculum.

**INDIS 400 Teaching Online**
1 Unit

Prerequisite: ENGWR 300 with a grade of "C" or better.

Advisory: Working knowledge of Macintosh/PC.

Course Transferable to CSU

Hours: 18 hours LEC

This course offers the opportunity to integrate the usage of software, hardware, and Internet tools and their related pedagogies into online teaching. The course will require specific hands-on activities and development of materials using technologies featured within the course. This course will provide a brief overview of how to teach a course online. The course will show how to facilitate a class discussion online, how to create quizzes online, and how to send and receive assignments online.

**Tutoring**

**HSER 1000 Supervised Tutoring**
0 Units

Corequisite: Student must be enrolled in a college credit course and be referred by an instructor or counselor.

Hours: hours LAB

This course offers individualized tutoring designed to assist students to increase their success in college courses. Content varies depending upon the adjunct course. Attention is given to essential study skills and utilization of campus learning resources. Students may enroll for support of more than one college course per semester. This course may be repeated in subsequent semesters.
Interior Planning and Design Degree

The A.A. degree in interior planning and design provides a foundation of education and skills for students in the expanding field of interior design. Topics include space planning, building and life-safety codes, and the Americans with Disabilities Act (ADA). Additionally, it covers reading construction documents, and architectural and furniture history.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- select the appropriate finishes and materials for commercial and residential interiors.
- identify building types and occupancy classifications.
- prepare construction and presentation drawings both manually and via Computer Aided Drafting and Design (CADD) that meet building codes.
- assess client's needs and plans with the American Disabilities Act (ADA), Life-Safety Codes and Universal/Barrier-Free Design.
- analyze interiors to reflect the needs of the end user.
- design spaces that are aesthetically pleasing as well as incorporating sound design principles.

Career Opportunities

The field of interior design offers a variety of career options, including residential design by itself or with a specialty of kitchen and bath design. It also offers commercial design, restaurant, hotel, cruise ship design, set design, historical and adaptive reuse design. It also offers commercial design opportunities, which include space planning, hospitality (restaurant, hotel, cruise ship) design, set design, historical and adaptive reuse design.

Associate Degree Requirements: The Interior Planning and Design Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Kitchen and Bath Design Certificate

This certificate covers the design of efficient and aesthetic kitchens and baths, including space considerations, equipment, materials, building codes and human factors. Designing for clients with special needs, working with challenging spaces, and theme design are included. Residential lighting is included. This certificate facilitates the needs of those trying to pass the National Kitchen and Bath Association certification exam.

Student Learning Outcomes

Upon completion of this degree program, the student will be able to:

- draft and draw efficient and attractive work spaces for kitchens and baths to meet the client's needs.
- plan and specify types of cabinets and finishes suitable for kitchens and baths.
- appraise and specify suitable appliances for kitchens and baths.
- design kitchens and baths that meet current building codes, including Universal Design.
- evaluate and prioritize client needs specific to the kitchen and bath industry.
- select equipment and finishes for clients with special style requests.
- express design ideas using drafting, written specifications and verbal skills.

Career Opportunities

Students completing this certificate can have careers in the kitchen and bath industry. It might include being a designer, a product representative, or showroom work.

This certificate provides a foundation of education and skills for students in the expanding field of interior design. Topics include space planning, building and life-safety codes, the Americans with Disabilities Act (ADA), as well as, reading construction documents, architectural and furniture history. This degree includes an internship within the interior design industry.

**Student Learning Outcomes**
Upon completion of this degree program, the student will be able to:

- categorize building types and occupancy classifications.
- prepare construction and presentation drawings both manually and via Computer-Aided Drafting and Design (CADD) that would meet building codes.
- appraise the client's needs and plans with the Americans with Disabilities Act (ADA), Life-Safety Codes and Universal/Barrier-Free Design.

**IDE 110 Estimating and Calculating for Interior Design**
3 Units

*Hours: 54 hours LEC*
This course includes techniques for accurately calculating yardage and materials of interior products for residential and commercial installations. Field trips are required.

**IDE 300 Fundamentals of Interior Design**
3 Units

*Advisory: ENGRD 116 with a grade of "C" or better; or ENGRD 118 with a grade of "C-" or better; or placement through assessment process. Course Transferable to CSU*

*Hours: 54 hours LEC*
This introductory survey course addresses various aspects of the interior design industry and profession. It includes the study and application of design principles and elements; influences of historical, cultural and functional design factors; the selection and arrangement of interior furnishings and materials; and an overview of career options in interior design. Field trips are required.
IDES 302 Introduction to Green Building and Sustainable Design in Interiors 3 Units
Course Transferable to CSU
Hours: 54 hours LEC
This course introduces the basic principles of green building and sustainable design (GBSD). It focuses on applications in the practice of commercial or residential interior space planning and design. It includes an historic perspective and the appropriate application of these principles in the profession. It also introduces issues involved in Leadership in Energy and Environmental Design (LEED) certification. Field trips are required.

IDES 310 History of Interior Architecture and Furnishings I 3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AAIAS Area I
Course Transferable to CSU
Hours: 54 hours LEC
This course covers the historical relationship between the decorative arts, period furniture and interior architecture from antiquity through English Regency. Emphasis is placed on identification of specific furniture styles and architectural features.

IDES 312 History of Interior Architecture and Furnishings II 3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AAIAS Area I
Course Transferable to CSU
Hours: 54 hours LEC
This course covers the historical relationship between the decorative arts, period furniture and interior architecture from the American Colonial periods through Modern and Contemporary. Emphasis is on style development as it relates to socio-economic and political factors of the times, as well as identification of specific furniture styles and architectural features. Asian, African, Mid-Eastern and other non-western styles are included.

IDES 322 Materials of Interior Design 3 Units
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, ESLW 320; or placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course covers the industry, technology, products, and specifications of interior finish materials. Textiles, floor coverings, paint and wall coverings, window treatments, furnishings and surface materials lighting, plumbing fixtures and appliances will be included. Field trips required.

IDES 324 Interior Design Business Practices 3 Units
Advisory: CISC 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course covers the business and practical aspects of interior design. Topics include ethical practices, methods of compensation, establishing clients’ budget, estimating costs, purchasing, billing, marketing, and sales. Field trips are required.

IDES 326 Interior Design Sales 3 Units
Prerequisite: IDES 324 with a grade of “C” or better.
Course Transferable to CSU
Hours: 54 hours LEC
This course covers various aspects of selling proposed residential and commercial design projects. Included are personal presentation, selling techniques, making the sale, closing the deal, job completion and follow up. Field trips are required.

IDES 330 Beginning Interior Design Studio 3 Units
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers basic manual drafting and presentation techniques for interior design. Topics include development of floor plans, furniture arrangements, and elevations for interior space planning. Presentation boards and other methods of presentation are explored.

IDES 332 Interior Illustration and Rendering 3 Units
Prerequisite: IDES 330 with a grade of “C” or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers procedures for developing finished presentation drawings and boards for interior design. It includes methods for illustrating plan views, elevations, mechanical and free-hand perspectives to scale, shades, shadows and techniques for color application.

IDES 334 Interior Environment and Space Planning 3 Units
Prerequisite: IDES 330 with a grade of “C” or better
Corequisite: IDES 350.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers the analysis and application of design concepts and space planning techniques. It includes resources necessary to creatively solve problems relative to the function and quality of human environments. Topics include the integration of barrier-free design, the Americans with Disabilities Act (ADA), resource management and environmental psychology design. Field trips are required.

IDES 340 Beginning CADD for Interior Design 3 Units
Prerequisite: IDES 330 with a grade of “C” or better
Advisory: IDES 334
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course employs beginning CADD (computer and drafting design) for interior design projects. Floor plans, space planning, elevations, and perspectives are created. Field trips are required.

IDES 341 Intermediate CADD for Interior Design 3 Units
Prerequisite: IDES 340 with a grade of “C” or better
Advisory: IDES 334 and 354
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a continuation of the Computer Aided Drafting and Design (CADD) skills developed in IDES 340, utilizing a different CADD program. It also includes placing floor plans into view ports, adding attributes, and the creation of customized tool bars. Field trips are required.
IDES 342  CADD for Kitchen and Bath Design  2 Units
Prerequisite: IDES 340 with a grade of “C” or better.
Course Transferable to CSU
Hours: 24 hours LEC; 36 hours LAB
This course introduces the design of efficient and aesthetic kitchens. Design
for clients with special needs, working with challenging spaces, and theme design are covered.
Field trips are required.

IDES 350  Codes and Universal Access for Interior Design  2 Units
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, ESLW 320, or placement through assessment process.
Course Transferable to CSU
Hours: 36 hours LEC
This course explores local, state and federal regulations, codes and specifications concerning life-safety issues, and barrier free access (American Disabilities Act universal design requirements) relative to residential and contract design. Special attention is given to performance, health-safety, and barrier free design when estimating and preparing specifications for space planning, materials and furnishings/products.

IDES 351  Codes and Universal Access Lab  1 Unit
Prerequisite: IDES 350 with a grade of “C” or better.
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, ESLW 320, or placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LAB
This course applies the content and skills from IDES 350 to various design scenarios requiring universal design, barrier-free design and ADA (Americans with Disabilities Act) compliance. Projects are drafted following prescribed criteria.

IDES 354  Reading Construction Documents  2 Units
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 320, ESLL 320, ESLW 320, or placement through assessment process; MATH 32 or placement through assessment process; CISC 300.
Course Transferable to CSU
Hours: 36 hours LEC
This course covers the language of construction documents and specifications including: symbols, conventions, scales, nomenclature, contract documents, specifications and uniform building codes.

IDES 355  Residences: Designed 4 Life  3 Units
Prerequisite: GERON 302 (Psychology of Aging: Adult Development and Aging) and IDES 350 (Codes and Universal Access for Interior Design) with grades of “C” or better.
Course Transferable to CSU
Hours: 54 hours LEC
This course covers how to successfully design residences for a variety of users, regardless of age, size, and physical abilities or limitations. It also encompasses specialty and adaptive appliances, plumbing fixtures, cabinetry, appropriate finish materials, space planning, and furnishings. Field trips may be required.

IDES 361  Beginning Kitchen Design  3 Units
Prerequisite: IDES 330 and 354 with grades of “C” or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course introduces the design of efficient and aesthetic kitchens. Space considerations, equipment, materials, building codes and human factors are included. This course facilitates the needs of those trying to pass the National Kitchen and Bath Association (NKBA) certification exam. Field trips are required.

IDES 362  Advanced Kitchen Design  3 Units
Prerequisite: IDES 361 with a grade of “C” or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a continuation of IDES 361. It refines the skills needed to design efficient and aesthetically pleasing kitchens. Designing for clients with special needs, working with challenging spaces, and theme design are covered. Residential lighting is included. This course facilitates the needs of those trying to pass the National Kitchen and Bath Association certification exam. Field trips are required.

IDES 375  Beginning Bath Design  3 Units
Prerequisite: IDES 330 and 350 with grades of “C” or better.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course introduces the design of efficient and aesthetic bathrooms. Space consideration, equipment, appropriate materials, building codes and other design considerations are included. This course facilitates the needs of those trying to pass the National Kitchen and Bath Association certification exam. Field trips are required.

IDES 376  Advanced Bath Design  2 Units
Prerequisite: IDES 375 with a grade of “C” or better.
Course Transferable to CSU
Hours: 24 hours LEC; 36 hours LAB
This course is a continuation of IDES 375. It refines the skills needed to design efficient and aesthetically pleasing bathrooms. Designing for clients with special needs, working with challenging spaces, and theme design are covered.

IDES 381  Lighting and Electrical for Green and Sustainable Interiors  3 Units
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course introduces green and sustainable lighting design in both commercial and residential interiors. Topics include Leadership in Energy and Environmental Design (LEED) certification, photometrics, light sources, and effective lighting control. Field trips may be required.

IDES 494  Topics in Interior Design  2-4 Units
Advisory: CISC 300; ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 36-72 hours LEC
This course is designed to provide an opportunity to study topics in Interior Design not included in current course offerings. Examples include kitchen & bath design; barrier-free design; in depth period style design. May be taken 3 times up to a maximum of 6 units without duplication of topics.

IDES 497  Internship in Interior Design  3 Units
Prerequisite: Internship placement and IDES 300, 310, 312, 322, 324, 332, 334, 351, and 354 with a grade of “C” or better.
Advisory: CISC 300.
Course Transferable to CSU
Hours: 18 hours LEC; 160 hours LAB
This course provides opportunity for supervised job internships at interior design related work sites. Skills and knowledge obtained in Interior Design courses will be utilized. Assistance for the internship search is provided by the program coordinator, but placement is not guaranteed. The lecture portion only may be offered on-line.
IDES 498  Work Experience in Interior Design
1-4 Units

Advisory: ENGRD 116, ENGWR 102, ENGWR 103, ESLR 320, and ESLW 320

General Education: AA/AS Area III(b)

Enrollment Limitation: Students must be in a paid or non-paid internship, volunteer position or job related to interior design. Students are advised to consult with the Interior Design Department faculty to review specific certificate and degree work experience requirements.

Course Transferable to CSU

Hours: 60-300 hours LAB

This course provides students with opportunities to develop marketable skills in preparation for employment or advancement within the field of interior design. It is designed for students interested in work experience and/or internships in transfer level degree occupational programs. Course content includes understanding the application of education to the workforce; completion of required forms which document the student's progress and hours spent at the work site; and developing workplace skills and competencies. Appropriate level learning objectives are established by the student and the employer.

During the semester, the student is required to fulfill a weekly orientation and 75 hours of related paid work experience, or 60 hours of unpaid work experience for one unit. An additional 75 or 60 hours of related work experience is required for each additional unit. The weekly orientation is required for first time participants, returning participants are not required to attend the orientation but are required to meet with the instructor as needed to complete all program forms and assignments. Work Experience may be taken for a total of 16 units when there are new or expanded learning objectives.
Journalism and Mass Communication Degree

This program is a comprehensive exposure to mass communication and communications media. Students learn the inner workings of a variety of media, including print, broadcast and Web. Courses cover all areas of news writing, public relations, graphics, design, photojournalism, and newspaper and Web production.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Identify and assess the basic elements of print and broadcast journalism
- Evaluate, compose, produce, and edit news and feature stories and press releases
- Design, develop and lay out pages of different types of publications using a variety of software programs and applying visual design principles
- Identify and explain the processes, elements, history, theory and effects of modern mass media in society
- Complete journalistic assignments on deadline
- Create artwork to accompany news and feature stories in a variety of formats
- Assemble the various components of print publications and broadcast stories

Career Opportunities

This program gives students the opportunity to prepare for entry-level positions as writers, reporters, photographers, designers, copy editors, and fact checkers for all communications media; technical writers or editors; desktop publishers or designers; or other positions in-house publication writers, editors, and designers; copy editors for all communications media; technical writers or editors; desktop publishers or designers; or other positions that include writing, editing, photography, and/or page layout and design.

Associate Degree Requirements: The Journalism and Mass Communication Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

JOUR 150 | Public Relations Media Techniques | 3 Units
Hours: 54 hours LEC
Study of public relations techniques; scientific polling techniques and their practical application to various projects, and the role of public relations in business, education, entertainment, social service and other fields.

JOUR 300 | Newswriting and Reporting | 3 Units

Advisory: Ability to keyboard
General Education: AA/AS Area II(b)
Course Transferable to CSU
Hours: 54 hours LEC
This course covers evaluating, gathering and writing news in accepted journalistic style under newsroom conditions. It includes personal interviews, speeches, meetings, and other event coverage. The role of the reporter and the legal and ethical issues related to reporting are also examined.

JOUR 301 | Advanced Newswriting and Reporting | 3 Units

Prerequisite: JOUR 300 with a grade of “C” or better
Course Transferable to CSU
Hours: 54 hours LEC
This course covers the development of advanced skills of reporting, interviewing, and writing in the range of work handled by a general assignment reporter. It emphasizes in-depth research, critical analysis, and story format. It also introduces feature and editorial writing.

JOUR 310 | Mass Media and Society | 3 Units

General Education: AA/AS Area V(b); CSU Area D7
Course Transferable to UC/CSU
Hours: 54 hours LEC
The course is a survey of the mass media. It covers the history, philosophy, structure, and trends of mass media, as well as the theories that help to explain its effects on social institutions. It includes an exploration of economics, technology, law, ethics, and social issues, including cultural and ethnic diversity.

JOUR 320 | Race and Gender in the Media | 3 Units

General Education: AA/AS Area V(b) (effective Summer 2009); AA/AS Area VI (effective Summer 2009)
Course Transferable to UC/CSU
Hours: 54 hours LEC
The course examines the roles of gender, ethnicity, and social class as represented and documented in the mass media. These issues are analyzed within the context of mass media content, development, policy, and ownership, including stereotypes and the role of alternative and community media. Critical thinking is emphasized through the review of mass media, focusing on the contributions of diverse groups to mass media and mass communication as an agent and documenter of social change.

American River College Catalog 2009-2010
JOUR 350  Writing for Broadcasting  3 Units
Prerequisite: JOUR 300, ability to type.
Course Transferable to CSU
Hours: 54 hours LEC
Theory and technique of writing for the broadcast media. Includes reporting for radio and television news, writing and storyboarding commercials and public service programming, and an introduction to production techniques. Recommended for students who plan to work in broadcasting, instructional media and related fields.

JOUR 360  Photojournalism  3 Units
Prerequisite: ARTPH 300 or ARTPH 305 with a grade of “C” or better or equivalent photo experience as determined by the instructor
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is an introduction to the theory and technique of telling stories with pictures. The role of the photojournalist in the media, pertinent ethical and legal issues, and professional standards are emphasized. Topics include digital still camera operation, composition and lighting, digital image processing, news judgment, and accuracy. Also covered are environmental portraits, photo stories, and feature, sports, and breaking news photography.

JOUR 361  Multimedia Journalism  3 Units
Prerequisite: JOUR 360 with a grade of “C” or better
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is an introduction to the theory and technique of combining still images, audio, and video to create multimedia photojournalism content for distribution via the Internet. It provides practical experience in capturing and editing still images, audio, and video with software such as Adobe Photoshop, Audacity, Soundslides Pro, and Apple’s iMovie and Final Cut Pro. A digital still or video camera is required. This course may be taken three times for credit using different software or techniques.

JOUR 401  College Newspaper Production  2 Units
Prerequisite: JOUR 300 with a grade of “C” or better.
Course Transferable to CSU
Hours: 108 hours LAB
This course provides weekly deadline experience in research and analysis, writing, editing, photography and design phases of the campus’ student newspaper. It includes desktop publishing and digital photo-imaging. It may be taken four times for credit. Some universities limit transfer credit; see the department adviser or your counselor.

JOUR 404  Editing and Production  3 Units
Advisory: JOUR 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course provides instruction and practice in editing and design, including page makeup, copy editing, photo editing, legal/ethical issues and production methods for newspapers, magazines and other publications. It also includes preparing, planning and organizing publications.

JOUR 405  Publications Production Skills Lab  .5-3 Units
Corequisite: JOUR 404.
Advisory: JOUR 300.
Course Transferable to CSU
Hours: 27-162 hours LAB
This course provides applicable skills to enhance editing and production skills learned in JOUR 404. It also includes instruction in photo illustrations, infographics, typography and project management. May be taken 4 times for credit.
Legal Assisting Degree

The Legal Assisting degree is a two year A.A. degree. The program includes general education requirements in addition to legal specialty classes. Legal courses cover basic substantive and procedural areas including civil litigation, legal research and legal writing, contracts and torts in preparation for an entry level position as a legal assistant. The associate degree program is in full compliance with California Business and Professions Code section 6450 regarding preparation for work in this field.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Discuss and apply basic legal theories in various substantive areas of law as required by supervising attorney.
- Define and use legal terminology accurately and appropriately.
- Differentiate between relevant and irrelevant information and evidence.
- Research relevant legal authority.
- Verify the currency of relevant legal authority.
- Draft correspondence to be sent to clients or opposing counsel and others.
- Prepare basic legal documents for signature and submission to court by the supervising attorney.
- Organize professional assignments efficiently.
- Apply knowledge to support the supervising attorney in all phases of legal practice.
- Demonstrate ethical behavior in the legal setting.
- Recognize acts that may constitute the unlicensed practice of law.

Career Opportunities

Career opportunities for Legal Assistants have an excellent outlook. According to the US Department of Labor’s Job Outlook, legal assistant jobs are projected to grow faster than average through 2012. This translates to an increase of 21% to 35%.

Legal assistants find employment in both the State and Federal government as well as private practice and corporate settings.

Associate Degree Requirements: The Legal Assisting Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Introduction to Law and Legal Research Certificate

This certificate is designed to meet the minimum educational requirements of the State of California for the position of Legal Assistant within the state employment structure. Completion of the two required courses with a grade of “C” or better will qualify the student for this certificate.

Student Learning Outcomes

Upon completion of this degree program, the student will be able to:

- Define the role and functions of the legal assistant.
- Analyze a fact pattern.
- Use basic legal terminology.
- Compare and contrast the elements of civil and criminal law.
- Classify the various legal research resources.
- Identify appropriate resources for various problems.
- Synthesize the information provided in various resources into a useful summary for the use by an attorney.
- Plan a research approach to an issue.
- Utilize a variety of computer resources to aid the research process.

Career Opportunities

This certificate meets the required minimum education for the State of California for those who desire to qualify for Legal Assistant positions.

Law Office Assistant Certificate

This certificate provides the skills needed for entry-level clerical positions in law offices. The course work emphasizes workforce skills including an introduction to the use of terms particular to the legal field.

Student Learning Outcomes

Upon completion of this degree program, the student will be able to:

- Demonstrate keyboarding competence in the legal workplace.
- Solve common office problems using current business technology and software applications.
• Practice effective communication with law office personnel and clients.
• Apply appropriate ethical standards to the special situations encountered in a law office.
• Produce written documents in appropriate formats using typical legal office technology.

Career Opportunities

Typical career opportunities are entry-level clerical positions in a law office.

Requirements for Certificate  12-16 Units

LA 300  Introduction to Law and the American Legal System 3
LA 350  Law Office Management 3
BUSTEC 100  Keyboarding Skills (1-3) 1-3
or BUSTEC 300  Beginning Keyboarding/Applications (1-3)
BUSTEC 122  Workplace Behavior and Communication Technologies 3
BUSTEC 305  Introduction to Office Technology 1
BUSTEC 310  Introduction to Word/Information Processing 1-3

1A total of 3 units from these courses must be taken.

Legal Assisting Certificate

The Legal Assisting Certificate is a one-year course of study consisting of 30 units of legal specialty courses. Legal courses cover basic substantive and procedural areas including civil litigation, legal research and legal writing, contracts and torts in addition to electives within the program. The certificate program is in full compliance with California Business and Professions Code section 6450 regarding preparation for work in this field.

Student Learning Outcomes

Upon completion of this degree program, the student will be able to:
• Discuss and apply basic legal theories in various substantive areas of law as required by supervising attorney.
• Define and use legal terminology accurately and appropriately.

LA 300  Introduction to Law and the American Legal System  3 Units

Same As: None.
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC.

This is an introductory course to the American legal system, its history and function. It provides an overview of several important areas of law such as torts and crimes and the legal assistant’s role in the system.

LA 310  Civil Procedures and Litigation  3 Units

Corequisite: LA 312 or 314.
Advisory: ENGWR 300 or ESLW 340.
Course Transferable to CSU
Hours: 54 hours LEC.

This course is an introduction to the California legal system with emphasis on understanding the practical aspects of litigation and the proper procedures required by statutes and rules of court. The phases of California court procedure, including State and Federal constitutional limitations, jurisdiction, venue, pleadings, and motions will be covered. The course also includes the forms by which matters are submitted to the court system from pre-litigation through appeals.

LA 312  Torts and Personal Injury  3 Units

Corequisite: LA 300
Advisory: ENGWR 300 or ESLW 340; or placement through the assessment process.
Course Transferable to CSU
Hours: 54 hours LEC.

This course is an overview of substantive tort law as it applies to personal injury (PI) cases. It introduces tort concepts, such as negligence, intent, and strict liability, including the elements required to prove liability and defenses available to litigants. This course covers pretrial procedures, such as discovery, settlement offers, and witness and trial preparation.
LA 314  Contract Law for Legal Assistants  3 Units
Course prerequisite: LA 300.
Advisory: ENGW 300 or ESLW 340
Course Transferable to CSU
Hours: 54 hours LEC
This course covers basic contract principles, including formation, validity, defenses, rights of third parties, performance, breach, remedies, and damages.

LA 320  Legal Research  3 Units
Advisory: ENGW 300 or ESLW 340, or placement through the assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course is designed to familiarize the legal assistant with the basic tools of legal research in both federal and California law, with emphasis on California materials. Location and use of primary and secondary sources are studied. The elements of a court decision and how to brief a case are presented.

LA 321  Legal Writing  3 Units
Prerequisite: LA 320 and either ENGW 300 or ESLW 340 with a grade of "C" or better.
Course Transferable to CSU
Hours: 54 hours LEC
This course is a continuation of LA 320. It includes the application of research methods to gather information which may be used in a variety of written products. Information is synthesized into various documents typically used in the law office. Documents created may include interoffice memoranda, court briefs, and letters to clients.

LA 330  Family Law and Procedure  3 Units
Prerequisite: LA 300 with a grade of "C" or better.
Advisory: LA 320.
Course Transferable to CSU
Hours: 54 hours LEC
This course is designed to familiarize the legal assistant with California Family Law relating to dissolution procedures, property issues and non-marital relationships. Legal procedures, preparation of necessary forms and their significance will be emphasized.

LA 332  Administrative Law and Procedure  3 Units
Advisory: LA 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course is designed to familiarize the legal assistant with administrative law and procedure in general with specific emphasis on California law and procedure.

LA 334  Criminal Law and Procedure  3 Units
Course Transferable to CSU
Hours: 54 hours LEC
This course provides the paralegal with a background in both substantive crimes and criminal procedure. It includes a detailed study of the operation of the criminal justice system, from arrest and filing of charges through trial, conviction and appeal.

LA 340  Techniques of Interview  1 Unit
Prerequisite: LA 300 with a grade of "C" or better.
Course Transferable to CSU
Hours: 18 hours LEC
This course provides general background information about basic communication and relates this information to the skills used by a legal assistant in interviewing clients and witnesses.

LA 342  Evidence  3 Units
Advisory: LA 310.
Course Transferable to CSU
Hours: 54 hours LEC
This course is designed to familiarize the legal assistant with the rules for the admission of evidence in federal and state courts.

LA 350  Law Office Management  3 Units
Prerequisite: LA 300 with a grade of "C" or better.
Course Transferable to CSU
Hours: 54 hours LEC
This course serves as a basic primer related to the practical aspects of representing debtors or creditors within the bankruptcy system.

LA 360  Corporations Law  3 Units
Advisory: Legal Assisting 332, ENGW 102 or ENGW 103, and ENGRD 116 or ESLR 320, ESLW 103 or placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course introduces the legal assistant to corporation terminology and legal requirements governing corporations.

LA 362  Estate Planning and Probate Procedure  3 Units
Prerequisite: LA 300 and 320 with a grade of "C" or better.
Course Transferable to CSU
Hours: 54 hours LEC
This course focuses on the most common types of landlord-tenant disputes. Litigation and non-litigation matters covered.

LA 364  Landlord Tenant Law  3 Units
Course Transferable to CSU
Hours: 54 hours LEC
This course focuses on the most common types of landlord-tenant disputes. Litigation and non-litigation matters covered.

LA 366  Basic Bankruptcy Law  3 Units
Advisory: Legal Assisting 332, ENGW 102 or ENGW 103, and ENGRD 116 or ESLR 320, ESLW 103, or placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course provides an overview of the Workers' Compensation Law in California. The focus will be on the procedural aspects of handling a Workers' Compensation claim from both the applicant's side and the defense side.

LA 368  Workers' Compensation Law  3 Units
Advisory: LA 300 and LA 312.
Course Transferable to CSU
Hours: 54 hours LEC
This course covers basic contract principles, including formation, validity, defenses, rights of third parties, performance, breach, remedies, and damages.

LA 497  Internship in Legal Assisting  2-4 Units
Prerequisite: LA 300, 310, and 320 with a grade of "C" or better.
Corequisite: Maintain a minimum of seven (7) units.
Course Transferable to CSU
Hours: 18 hours LEC, 60-225 hours LAB
This is a course of supervised work experience in law firms or public agencies available to legal assisting students. May be taken twice for credit for a maximum of 4 units.
Library courses develop the skills necessary to conduct academic and personal research.

LIBR 102  Introduction to Library Resources  1 Unit
Course Transferable to UC/CSU
Hours: 18 hours LEC
This course introduces basic library services and resources. It explores the services and functions of an academic library and develops the skills needed to retrieve information from print and electronic resources using the library catalog, online databases, and the Internet. Access to and use of an academic library is required.

LIBR 310  Introduction to Genealogy Research  1 Unit
General Education: AA/AS Area III(b)
Course Transferable to CSU
Hours: 18 hours LEC
This course introduces genealogy research methods utilizing sources dating from colonial times to the present. Topics include evaluating and choosing genealogical resources, developing skills to analyze data, and organizing family history information using print forms or a software program.

LIBR 318  Library Research and Information Literacy
1 Unit
Advisory: LIBR 302
General Education: AA/AS Area III(b)
Course Transferable to UC/CSU
Hours: 18 hours LEC
This course provides the information competency skills necessary to conduct academic or personal research. It offers a step-by-step guide to the research process that is applicable to term papers, course work, and life-long learning.

LIBR 320  Introduction to Internet Research  1 Unit
Course Transferable to CSU
Hours: 18 hours LEC
This course provides an introduction to the Internet as an information and resources search tool for academic and personal use. It includes a brief history of the Internet, as well as various skills and strategies for locating, retrieving and evaluating information from the Internet. Topics include basic Internet navigation techniques, search tools, website evaluation criteria, searching strategies and ethical/legal issues involving the Internet.

LIBR 325  Internet Research Skills
3 Units
Advisory: ENGW 102 or 103, and ENGRD 116; OR ESLR 320 and ESLW 320; and CISC 300.
General Education: AA/AS Area III(b)
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a comprehensive survey of the content, use, and evaluation of electronic information sources. Emphasis is placed on the effective use of the Internet as a research tool. It covers Internet resources, online databases, email, newsgroups, listservs, blogs and the deep web. Database search strategies and techniques are covered. Historical and social issues surrounding the Internet are also discussed.

LIBR 494  Topics in Library Science  .5-4 Units
Course Transferable to CSU
Hours: 9-72 hours LEC
This course provides an opportunity to study current topics in library science that are not included in existing courses. It may be taken four times for a maximum of six units, providing there is no duplication of topics.
## Management Degree

This program is intended for those who wish to progress to positions of responsibility in their respective industry. Its strong management focus provides the knowledge and skills needed to progress into management positions. Topics include management communication, human resources, organizational behavior, diversity management, and business computer applications.

### Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Incorporate leadership skills and abilities that are effective in managing a multicultural workforce.
- Analyze practical business problems.
- Apply current management philosophies to current management problems.
- Integrate management principles in relationship to finance, personnel, products, services and information.
- Communicate effectively verbally and in writing in various business settings.
- Utilize critical thinking and research skills in the evaluation of alternative solutions.

Modern Management Degree
The Modern Management degree program centers around the management functions essential to building world class organizations in today’s diverse and complex environments. The focus of the program is customer service and includes the elements of effective planning, systems design, development, measurement and improvement, statistical analysis, teamwork and leadership. It includes the study of physics, statistics, ethics, business communications, accounting principles, organizational psychology and the fundamental of personnel management.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
• Assess and appraise the underlying principles and practices of modern management both personally and professionally.
• Construct and implement a systems approach to work, providing fundamental systems diagrams, flow charts and functional methodologies for improvement.
• Analyze and plan organizational strategies to ensure management functions are focused on the customer and measured for efficiency and effectiveness.
• Distinguish the relationship between leadership and managing with an understanding of the emerging leadership styles and leadership issues of today.
• Evaluate the types of groups and teams in organizations today with an appreciation for how managers design team-centered corporate cultures to enhance organizational success.
• Manage and measure the importance of operations management in relationship to designing effective control procedures that evolve into a continual improvement approach to production strategies, systems, and processes.

American River College Catalog 2009-2010
Leadership in Action: Psychology and Team Facilitation Certificate

The Leadership in Action: Psychology and Team Facilitation certificate centers around the elements of human psychology as it relates to organizational groups, work teams and self-managed teams. It provides a framework of individual self-study as it relates to interacting with others. Furthermore, it includes the design, development and implementation of high performance teams to maximize organizational success.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Analyze the important aspects of group behavior and team process in relationship to individual psychological variance.
- Identify the organizational and social benefits of group and team formation and the four stages of their development: forming, storming, norming and performing.
- Measure the utilization and effectiveness of empowerment, teamwork and self-managed teams from a task and maintenance function perspective in teams as it relates to organizational success.
- Apply team empowerment concepts relative to organizational effectiveness.

Leadership in Action: Systems Thinking Certificate

The Leadership in Action: Systems Thinking certificate focuses on the holistic nature of life and examines organizations from this foundational perspective. It centers on the design, implementation and measurement of systems that carry out predefined actions as a result of anticipated events, identifies the nature of imperfect implementation technology and describes how system limitations complicate organizational progress.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Evaluate the defining factors of a system by determining the purpose of the system, the events to which it must respond, its fundamental activities and the formation of both current and past events that the system must store in order to carry out its responses to establish and maintain system integrity.
- Construct systems models of organizational processes specific to the individual's work for the purpose of performance measurement and improvement.
- Analyze the functionality of systems design in relationship to overall product output, organizational productivity and customer satisfaction.

Leadership in Action: Theory of Knowledge/Prediction Certificate

The Leadership in Action: Theory of Knowledge/Prediction certificate centers on the basic business systems and the practical application of the tools of systems thinking. It focuses on the principles of Profound Knowledge as it relates to the planning processes of organizations, the manager's ability to design and implement effective systems to the prediction of the strategic plans and the measurement of the output and outcomes on overall effectiveness.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Appraise organizational progress with the tools of Essential Process Analysis (EPA) to revise and design the delivery of organizational products and services.
- Explore human capabilities of systems' members.
- Apply the theories of Emotional Intelligence at work.
- Use the tools of information management to explore patterns in systems thinking.

Leadership in Action: Variation and Statistics Certificate

The Leadership in Action: Variation and Statistics certificate centers on the importance of statistical knowledge of variation, variation patterns and the methodology and use of statistical tools to assist managers with the measurement and improvement of organizational processes. It emphasizes the practical application of statistical tools in the workplace.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Apply statistical tools to effect direct improvement to critical variances in organizational performance.
- Collect valid data on real-life organizational problems and perform statistical analysis.
- Evaluate the methods of the Taguchi Loss Function in the development and design of administrative and service processes.
- Compare and constrast the appropriate uses for Statistical Process Control (SPC) as an organizational tool to measure and improve overall systems effectiveness and customer satisfaction.

MGMT 120  Self-Leadership for Personal Excellence, Module A  1 Unit

This course is designed as an introduction for those who are interested in examining the practical application of self-leadership tools. It explores introductory concepts in the areas of the sources of leadership, external and personal factors, the impact of beliefs, the power of self-rewards, imagination and creativity. This course emphasizes the connection between effective self-leadership and effective leadership of others.

MGMT 121  Self-Leadership for Personal Excellence, Module B  1 Unit

This course is designed as a continuation for those who are interested in examining the practical application of self-leadership tools. It expands the areas of the sources of leadership, external and personal factors, the impact of beliefs, the power of self-rewards, imagination and creativity, and introduces the concepts of team self-leadership, and the application of tools to empower change. This course emphasizes the connection between effective self-leadership and effective leadership of others.

MGMT 122  Self-Leadership for Personal Excellence, Module C  1 Unit

This course is the last in a series of courses designed for those who are interested in examining the practical application of self-leadership tools. It further explores the areas of the sources of leadership, external and personal factors, the impact of beliefs, the power of self-rewards, imagination and creativity, team self-leadership, and the application of tools to empower change. This course validates and reinforces the need for individuals to assist attendees in applying the examined principles to influence their own life and career. This course emphasizes the connection between effective self-leadership and effective leadership of others.

MGMT 142  Project Management Techniques and Software  3 Units

Same As: CISA 160
Advisory: ENGRD 116 or ESLR 320 and ESLW 320, CISC 300
Hours: 54 hours LEC
This is an introductory course covering the responsibilities of a project manager. It includes the knowledge needed to manage a project, control costs and schedule resources. It will also introduce the use of project management software to track project resources, tasks and milestones. Not open to students who have taken CISA 160.

MGMT 174  Social Responsibility and Ethics in Management  3 Units
Corequisite: MGMT 300
General Education: AA/AS Area V(b)
Hours: 54 hours LEC
This course examines the new ethical climate, the problems which need to be confronted and analyzed; and the role integrity plays in the survival and productivity of American organizations in both the private and public sectors. Course work and studies will incorporate daily news events as well as text materials.

MGMT 294  Topics in Management  .5-5 Units
Prerequisite: To be determined with each topic.
Hours: 9-90 hours LEC; 27-125 hours LAB
This is an individualized course developed in cooperation with industry and/or government to meet specialized training needs.

MGMT 300  Introduction to Modern Management  3 Units

Advisory: ENGRD 116 or ESLR 320 and ESLW 320.
Course Transferable to CSU
Hours: 54 hours LEC
This course examines the underlying principles and practices of modern management, and how both individuals and organizations can implement them. Such concepts as Continuous Process Improvement, Total Quality Management, and Customer Focused Management are presented.

MGMT 304  Introduction to Management Functions  3 Units

Advisory: ENGRD 116 or ESLR 320 and ESLW 320 or placement through assessment.
Course Transferable to CSU
Hours: 54 hours LEC
This is a basic course in management that introduces a variety of modern management concepts. This course includes the basic management functions of planning, organization, staffing, leadership and control. In addition, such concepts as team development, communication, business ethics, and global management perspectives will be discussed.

MGMT 308  Personnel and Human Resources Management  3 Units
Course Transferable to CSU
Hours: 54 hours LEC
This course is an introduction to the complex study and analysis of such areas as civil rights, labor law, the “Human Resources” organization and various management theories currently found in both public and private sector organizations.

MGMT 320  Modern Management: Variation and Statistics I  3 Units
Prerequisite: MGMT 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course continues the extension of the basic business statistical knowledge introduced in MGMT 300, with a focus on understanding variation, variation patterns, and how statistical tools can be used to improve existing processes. It also focuses on the support and use of Statistical Process Control (SPC). Emphasis is placed on the immediate application of the tools to the workplace, emphasizing administrative, white collar environments. Course requires team participation.

MGMT 330  Teams and Team Facilitation  3 Units
Prerequisite: MGMT 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course continues the expansion of the basic business knowledge of teams introduced in MGMT 300. It focuses on practical application of the knowledge and tools of metalinguistics and individual/group psychological character. Emphasis is placed on the immediate application of the tools to the work place, emphasizing administrative, white collar environments. Course requires team participation outside of class.
MGMT 340 Management and Systems Thinking I
3 Units
Prerequisite: MGMT 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course focuses on the extension of the basic business knowledge of systems. It is based on practical application of the knowledge and tools of Systems Thinking. Essential Process Analysis/Synthesis is used as the tool for appraising and revising the design and delivery of administrative and service products offerings. Emphasis is also placed on the tools of Fuzzy Thinking, and the theory of Living Systems in the workplace. The need to recognize/counter the main obstacle to systems change, fear, is also closely examined. Course requires team participation outside of class.

MGMT 350 Organizational Learning: Theory of Knowledge
3 Units
Prerequisite: MGMT 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course continues the study of “Profound Knowledge”, as described by Dr. W. Edwards Deming. It focuses on the Theory of Knowledge, customer service, and organization leadership based on integrity. It emphasizes basic team formation/member psychology and the total quality impact in society, the organization, the team, and individual lives.

MGMT 351 Modern Management: Theory of Knowledge II: Organizational Implementation
3 Units
Prerequisite: MGMT 300.
Course Transferable to CSU
Hours: 54 hours LEC
This class continues the expansion of the attendees understanding and ability to utilize the concept of “Profound Knowledge” as described by Dr. W. Edwards Deming. The class focuses of the Theory of Knowledge (the ability to make accurate predictions of system activity), the formation of the “New Leadership” in executive teams, and the importance of developing an internal education/training effort using the newest principles of Action Learning as practiced by many Fortune 500 companies.

MGMT 360 Management Communication
3 Units
Advisory: BUS 110, ENGRD 116, or ESLR 310 and ESLW 310
Course Transferable to CSU
Hours: 54 hours LEC
This course provides skill training in coping with communication problems in organizations. It includes the study of the communication process, the analysis of the barriers to effective oral and written communication, and the development of guidelines to improve interpersonal relations within an organization through the effective methods of communication.

MGMT 362 Techniques of Management
3 Units
Advisory: ENGWR 102 or ENGRD 116 and ESLR 320 or ESLW 320; or placement through assessment.
Course Transferable to CSU
Hours: 54 hours LEC
This course is designed for supervisors and other entry level managers as well as those entering mid-management positions. It focuses on primary management functions of planning, organizing, controlling, and leading. Related skills such as time management, cost control, performance evaluation, motivation, communication techniques, and the social responsibility of managers are also emphasized. The course provides a clear understanding of management tasks as well as skill development in essential management activities.

MGMT 372 Human Relations and Organizational Behavior
3 Units
Advisory: ENGWR 102 or 103 and ENGRD 116 or ESLR 310 and ESLW 310.
Course Transferable to CSU
Hours: 54 hours LEC
This course emphasizes the psychology of human relations management. It covers human interaction principles that build confidence, competence and positive attitudes in work organizations. Topics include the basis for human behavior, perception, communication, motivation, performance improvement, group behavior, ethics and social responsibility.
Marketing Degree

The Marketing degree provides an opportunity for students to acquire knowledge and training for careers in sales, advertising, and marketing. The competency-based curriculum is designed to prepare students for a variety of positions and to provide basic training for advancement to management positions and for transfer to four-year universities.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Integrate the functions of the marketing mix.
- Identify and examine consumer buyer behavior and evaluate marketing communications influence decisions.
- Plan, produce and select the appropriate media for advertising.
- Integrate management principles related to finance, personnel, products, services and information.
- Investigate principles of product development, pricing, distribution strategies, promotion strategies and market research.
- Evaluate practical business problems and utilize critical thinking in the determination of alternative solutions.
- Identify and explain the major functional areas of the business organizations including management, marketing, finance, and accounting.
- Apply the marketing mix to create and analyze various marketing strategies.

Associate Degree Requirements: The Marketing Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Advertising and Sales Promotion Degree

This degree program covers the general areas of marketing. In addition it provides the knowledge and skills necessary to pursue a career in advertising. Graduates should qualify for employment opportunities with retail and general business organizations, advertising agencies, and advertising media (radio, television, magazines, newspapers and outdoor) companies.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Apply advertising principles including strategies for planning, producing and selecting the appropriate media.
- Evaluate the characteristics of various types of promotion.
- Describe the consumer decision-making process and how marketing communications influence decisions.
- Analyze consumer buyer behavior and recommend how to utilize marketing communications most effectively to meet the consumer needs.
- Analyze and evaluate practical business problems and utilize critical thinking in the determination of alternative solutions.
- Integrate the major functional areas of the business organizations including management, marketing, finance, and accounting.
- Apply document design techniques utilizing desktop publishing programs to create effective marketing materials.
- Communicate effectively verbally and in writing in various business settings.
- Plan and design promotional programs.

Career Opportunities

Sales, copywriter, in-house communications, public relations, technical communications, media planner, media buyer.

Associate Degree Requirements: The Advertising and Sales Promotion Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Retail Management Degree

The Retail Management program builds on the general business curriculum and prepares students for a leadership role in the retail industry. Depending upon the size of the retail company, retail managers are responsible for one or more parts of a retail operation including sales, marketing, buying, merchandising, operations, inventory control, human resources, and finance.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Demonstrate the principles of sales management including the development and analysis of sales programs, budget and expense reports.
• Apply principles of retail buying such as planning, merchandise selection and control, and building positive vendor relationships.
• Communicate effectively with consumers, staff and vendors.
• Integrate the nature of business operations, personnel, finances, regulations, marketing and decision-making.
• Analyze data related to market share, inventory control and profitability.
• Analyze practical business problems and utilize critical thinking in the determination of alternative solutions.
• Integrate principles of product development, pricing, distribution strategies, promotion strategies and market research in the decision making process.

Career Opportunities

Buyer, department manager, store director, sales associate, account executive, merchandiser, sales manager.

Retail Management (WAFC) Certificate

The program gives an overview of the retail industry and the skills needed to succeed within this arena. It is designed to provide training for those wishing to be owners, managers, and employees of retail organizations. The Retail Management certificate meets the needs of industry leaders such as the Western Association of Food Chains (WAFC).

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Recognize retailing trends, applications and the variables involved in service retailing.
• Incorporate principles of product development, pricing, distribution strategies, promotion strategies and market research.
• Evaluate practical business problems.
• Analyze the organization necessary for effective purchasing procedure in a large organization.
• Integrate management principles in relationship to finance, personnel, products, services and information.
• Utilize critical thinking in the determination of alternative solutions.

Career Opportunities

Buyer, department supervisor, store director, entrepreneur, customer service representative.
MKT 300  Principles of Marketing  3 Units
Advisory: ENGWR 102 or ENGWR 103 and ENGRD 116, or ESLR 320 and ESLW 320; or placement through assessment.
Course Transferable to CSU
Hours: 54 hours LEC
This course will examine in detail the four functions of marketing: product, promotion, price, and place. The marketing concept will be the basis for the entire course. The external marketing factors of environment, competition, government regulation, and consumer behavior will be studied also.

MKT 310  Selling Professionally  3 Units
Advisory: ENGWR 102 or ENGWR 103 and ENGRD 116, ESLR 320 and ESLW 320, or placement through assessment; BUS 105.
Course Transferable to CSU
Hours: 54 hours LEC
This course demonstrates the importance of effective selling techniques. This course will examine and present the qualifications necessary to achieve success in professional selling. This course also emphasizes the development of a business personality and its application to the approach, direction, and closing of a sale. Different types of selling experience such as direct, industrial, wholesale, and retail are covered. This class is recommended for those entering any field of business careers.

MKT 312  Retailing  3 Units
Advisory: ENGWR 102 or ENGWR 103 and ENGRD 116, or ESLR 320 and ESLW 320 or placement through assessment; MKT 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course is a study of modern retail store operation with emphasis on consumer behavior, store location and layout, pricing, organization, promotion, merchandising, and pertinent legislation.

MKT 314  Advertising  3 Units
Advisory: ENGWR 102 or ENGWR 103 and ENGRD 116 or ESLR 320 and ESLW 320 or placement through assessment; MKT 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course is a study of the marketing promotional mix with special emphasis on the field of advertising. The course will cover the advertising message from initial research through the final advertising message. Different advertising media will be examined and compared.

MKT 332  Advertising on the Internet (Electronic Commerce)  3 Units
Advisory: ENGWR 102 or ENGWR 103 and ENGRD 116; or ESLR 320 and ESLW 320, or placement through assessment.
Course Transferable to CSU
Hours: 54 hours LEC
This course addresses the process of advertising in the electronic commerce environment. It focuses on discussing on-line marketing. The effects of electronic commerce on market research, demographics and traditional advertising channels and case studies of successful models will be studied and examined.
Mathematics Degree

The A.S. degree in mathematics provides a foundation of mathematics for students in preparation for transfer to a four-year program in mathematics or statistics. Course work includes a three-semester calculus series, differential equations, linear algebra, and statistics and/or symbolic logic.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Identify, formulate, and solve applied problems (using calculus and linear algebra) in verbal, numeric, graphical, and symbolic form related to science, economics, or business.
• Recognize and construct valid arguments using deductive and inductive reasoning skills.
• Define and utilize terminology of mathematics with emphasis in calculus, linear algebra, and either statistics, logic or problem solving.
• Calculate derivatives and integrals using a variety of defined rules and strategies of calculus, algebraic properties and trigonometric identities.

Associate Degree Requirements: The Mathematics Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Physical Science/Mathematics Degree

This program provides a broad study in fields of physical science and mathematics. It provides a good foundation for transfer to a four-year program in science.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Recognize and utilize correctly the terminology of math, statistics and/or science.
• Analyze and interpret data, charts and graphs using quantitative and qualitative methods.
• Recognize and construct valid arguments using deductive and inductive reasoning.
• Evaluate new and accepted ideas about the natural universe using testable methodology.

Career Opportunities

This program is intended to provide a broad foundation of skills and knowledge to help students succeed in the completion of a bachelor’s degree in a variety of science, math or engineering-related areas.

Requirements for Degree 18 Units

A minimum of 18 units from the following: 18 units

Transferable courses must be selected from the following areas: astronomy, chemistry, engineering, geology, mathematics, physical geography, physical science, physics, and statistics.

Associate Degree Requirements: The Physical Science/Mathematics Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Mathematics

MATH 10 Developing Confidence in Math 1 Unit

Advisory: Concurrent enrollment in another math course.

Hours: 18 hours LEC

This course helps students to recognize common fears and misconceptions of mathematics, and to overcome math anxiety and avoidance. Strategies to achieve success in mathematical situations are discussed. This course is also useful for tutors, counselors, and teachers interested in helping others overcome their math anxiety. Credit/No Credit only.

MATH 23 Computational Arithmetic - Part I 2 Units

Advisory: Confirm placement using ARC’s Math Self-Assessment System

Hours: 36 hours LEC

This course introduces the fundamentals of arithmetic with an emphasis on computational skills. Topics include whole numbers, exponents, order of operations, factors, fractions, problem solving, and applications.

MATH 24 Computational Arithmetic - Part II 2 Units

Prerequisite: MATH 23 with a grade of “C” or better

Hours: 36 hours LEC

This course completes the fundamentals of arithmetic with an emphasis on computational skills. Topics include rounding decimals, operations on decimals, ratios, rates, proportions, percents, problem solving, and applications.

MATH 25 Computational Arithmetic 3 Units

Advisory: Confirm placement using ARC’s Math Self-Assessment System.

Hours: 54 hours LEC

This course covers fundamentals of arithmetic with an emphasis on computational skills. Topics include whole numbers, fractions, decimals, problem solving, and applications.
MATH 32 Pre-Algebra 3 Units
Prerequisite: MATH 24 or 25 with a grade of “C” or better; or placement through the assessment process.
Hours: 54 hours LEC
This course will briefly review the fundamentals of arithmetic, including whole numbers, fractions, and decimals. Course content will include order of operations, signed numbers, concepts of variables, exponents, ratios and proportions, area/perimeter/volume of geometric figures, and solving equations.

MATH 38 Pre-Algebra - Part I 2 Units
Prerequisite: MATH 24 or 25 with a grade of “C” or better; or placement through the assessment process.
Hours: 36 hours LEC
This course introduces material that is essential for success in algebra. Topics include order of operations, signed numbers, application problems, concepts of variables, exponents, and solving equations. In addition, the fundamentals of arithmetic are briefly reviewed, including operations on whole numbers, fractions, and decimals.

MATH 39 Pre-Algebra - Part II 2 Units
Prerequisite: MATH 38 with a grade of “C” or better
Hours: 36 hours LEC
This course completes material that is essential for success in algebra. Topics include percent problems, proportions, solving algebraic equations, applications of equations, polynomials, graphing points and lines, and area/perimeter/volume of geometric figures.

MATH 100 Elementary Algebra 5 Units
Prerequisite: MATH 32 or 39 with a grade of “C” or better; or placement through the assessment process.
Hours: 90 hours LEC
This course introduces material that is essential for success in algebra. Topics include percent problems, proportions, solving algebraic equations, applications of equations, polynomials, graphing points and lines, and area/perimeter/volume of geometric figures.

MATH 103 Elementary Algebra, Part I 3 Units
Prerequisite: MATH 32 or 39 with a grade of “C” or better; or placement through the assessment process.
Hours: 54 hours LEC
This course covers the first half of the traditional MATH 100 course and includes the fundamental concepts and operations of algebra with problem solving skills emphasized. Topics include properties of real numbers, linear equations and inequalities, integer exponents, polynomials, and factoring polynomials. Other topics include rational exponents and rational/radical expressions with associated equations. Additional topics introducing the rectangular coordinate system, focus on graphs and equations of lines, systems of linear equations/inequalities, and solving quadratic equations.

MATH 104 Elementary Algebra, Part II 3 Units
Prerequisite: MATH 103 with a grade of “C” or better
Hours: 54 hours LEC
This course covers the second half of the traditional MATH 100 course. Topics include polynomial factorization, rational expressions and equations, radical expressions and equations, rational exponents, quadratic equations, and applications.

MATH 106 Elementary Algebra 3 Units
Prerequisite: MATH 103 with a grade of “C” or better
Hours: 54 hours LEC
This course introduces material that is essential for success in algebra. Topics include percent problems, proportions, solving algebraic equations, applications of equations, polynomials, graphing points and lines, and area/perimeter/volume of geometric figures.

MATH 110 Elementary Geometry 5 Units
Prerequisite: MATH 100 or 104 with a grade of “C” or better; or placement through the assessment process.
Hours: 90 hours LEC
This course covers aspects of elementary geometry. Topics include terms and definitions, properties of parallel lines and parallelograms, congruent and similar triangles, properties of circles, construction of loci, areas, and volumes. The course also emphasizes problem solving strategies, elementary logic, and reading and writing proofs.

MATH 120 Intermediate Algebra 5 Units
Prerequisite: MATH 100 or 104 with a grade of “C” or better; or placement through the assessment process.
General Education: AA/AS Area II(b)
Hours: 90 hours LEC
This course reviews and extends the concepts of elementary algebra with an emphasis on problem solving. Topics which are reviewed and extended include linear and quadratic equations, factoring polynomials, rational expressions, exponents, radicals, graphing, and system of equations. New topics include graphs and their translations and reflections, functions, exponential and logarithmic functions, graphs of quadratic and polynomial functions, nonlinear systems of equations, polynomial and rational inequalities, and an introduction to conic sections.

MATH 123 Intermediate Algebra, Part I 3 Units
Prerequisite: MATH 100 or 104 with a grade of “C” or better; or placement through the assessment process.
Hours: 54 hours LEC
This course reviews and extends the concepts of elementary algebra with an emphasis on problem solving. Topics include solving linear equations and inequalities, factoring polynomials, solving quadratic equations, rational expressions, exponents, solving equations containing rational expressions, equations of lines, functions, and absolute value equations and inequalities.

MATH 124 Intermediate Algebra, Part II 3 Units
Prerequisite: MATH 123 with a grade of “C” or better
General Education: AA/AS Area II(b) (effective Summer 2009)
Hours: 54 hours LEC
This course extends the concepts of elementary algebra and MATH 123 with problem solving skills emphasized throughout. Topics include graphs and their translations and reflections, radicals and complex numbers, composite and inverse functions, exponential and logarithmic functions, graphs of quadratic and polynomial functions, nonlinear systems of equations, and an introduction to conic sections.

MATH 290 PACE: Applications of Mathematics 1 Unit
Hours: 18 hours LEC
This course presents extended applications of mathematics not generally covered in the classroom. Topics include 2-D and 3-D geometry, measurement, proportion, and budgetary analysis. The course incorporates computer software as a learning tool. It culminates in a final project and presentation.

MATH 294 Topics in Mathematics .5-4 Units
Hours: 9-72 hours LEC
This course is designed to give students an opportunity to study topics in mathematics not included in current course offerings. Individualized topics are developed to foster, complement and build upon arithmetic, geometric and algebraic skills with an emphasis on critical thinking. The course may be taken four times for a maximum of 6 credits with no duplication of topics.
MATH 300 Introduction to Mathematical Ideas 3 Units
Prerequisite: MATH 120 or 124 with a grade of "C" or better
General Education: AA/AS Area II(b); CSU Area B4
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course focuses on elements of mathematical systems. It is designed to make fundamental concepts and processes more meaningful to the general student. Its content may include systems, logic, geometry, combinatorics, probability, statistics, sets, matrices, and number theory. Not recommended for students entering elementary school teaching or business administration majors.

MATH 310 Mathematical Discovery 3 Units
Prerequisite: MATH 110 and (MATH 120 or MATH 124) with grades of "C" or better
General Education: AA/AS Area II(b); CSU Area B4
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course explores mathematical patterns and relations, and formulation and proof of conjectures. Topics from number theory, probability and statistics, and geometry will be investigated. Recommended for students interested in education.

MATH 315 Exploratory Field Experience in Mathematics 3 Units
Prerequisite: MATH 120 or 124 with a grade of "C" or better
General Education: AA/AS Area II(b)
Enrollment Limitation: Current TB clearance is required prior to work in schools. Fingerprinting may also be required.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course is an education-based field experience in mathematics allowing students to explore teaching as a career choice. Students are assigned to area schools to observe and/or assist in a mathematics classroom. Students have the opportunity to learn and practice essential skills to assist younger students with their progress through the mathematics sequence, and to learn about social, cultural, and educational issues related to mathematics and the school environment. Weekly seminars allow students to share experiences and compare observations. This course is recommended for those who may wish to pursue a single-subject credential in mathematics.

MATH 320 Symbolic Logic 3 Units
Same As: PHIL 325
Prerequisite: (PHIL 320 or MATH 110) and (MATH 120 or MATH 124) with a grade of "C" or better.
General Education: AA/AS Area II(b)
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers an introduction to symbolic logic including the logic of sentences (the statement of calculus) and the logic of classes and relations (the predicate calculus) together with an introduction to the nature and development of deductive systems. Applications include examples of logic used in elementary mathematics and the analysis of verbal arguments. Not open to students who have completed PHIL 325.

MATH 325 Problem-Solving 3 Units
Prerequisite: MATH 120 or 124 with a grade of "C" or better
General Education: AA/AS Area II(b); CSU Area B4
Course Transferable to CSU
Hours: 54 hours LEC
This course focuses on the problem-solving skills necessary to solve both real-life and nontraditional mathematics problems. Problem-solving strategies presented in this course include: drawing a diagram, eliminating possibilities, making a systematic list, looking for a pattern, guessing and checking, solving an easier related problem, working backward, algebraic representation, finite differences, and other related techniques. Divergent thinking, group work, and the clear presentation of mathematical work will be emphasized throughout the course.

MATH 330 Trigonometry 3 Units
Prerequisite: MATH 110 and (MATH 120 or MATH 124) with a grade of "C" or better.
General Education: AA/AS Area II(b); CSU Area B4
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course presents the fundamentals of trigonometry. Topics include definitions of trigonometric and circular functions, graphs, identities and applications. Other material covered includes solving trigonometric equations, solving triangles using the Laws of Sines and Cosines, vectors, polar coordinates and polar representations of complex numbers.

MATH 340 Calculus for Business and Economics 3 Units
Prerequisite: MATH 120 or 124 with a grade of "C" or better
General Education: AA/AS Area II(b); CSU Area B4; IGETC Area 2
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an introduction to differential and integral calculus with applications in the fields of business, economics, social science and biological science. It is not recommended for mathematics and physical science majors.

MATH 342 Modern Business Mathematics 3 Units
Prerequisite: MATH 120 or 124 with a grade of "C" or better
General Education: AA/AS Area II(b); CSU Area B4
Course Transferable to CSU
Hours: 54 hours LEC
This course is designed around applications of mathematics in economic and business contexts. Specific topics include functions and related business formulas, tables and graphs, finance (interest and exponential models in economics), rates of change including applications and optimization, and linear programming.

MATH 344 Finite Mathematics 3 Units
Prerequisite: MATH 120 or 124 with a grade of "C" or better
General Education: AA/AS Area II(b); CSU Area B4; IGETC Area 2
Course Transferable to UC/CSU
Hours: 54 hours LEC; 18 hours LAB
This course covers sets, probability and combinatorics, expected value, matrix theory systems of equations and inequalities, linear programming, and mathematics of finance with emphasis on applications in business administration, biological sciences, and social science. It also includes computer applications.

MATH 350 Calculus for the Life and Social Sciences I 3 Units
Prerequisite: MATH 330 with a grade of "C" or better
General Education: AA/AS Area II(b); CSU Area B4; IGETC Area 2
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers functions, limits, and derivatives, and introduces exponential models in economics), rates of change including related techniques. Divergent thinking, group work, and the clear presentation of mathematical work will be emphasized throughout the course.

MATH 330 Trigonometry 3 Units
Prerequisite: MATH 110 and (MATH 120 or MATH 124) with a grade of "C" or better.
General Education: AA/AS Area II(b); CSU Area B4
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course presents the fundamentals of trigonometry. Topics include definitions of trigonometric and circular functions, graphs, identities and applications. Other material covered includes solving trigonometric equations, solving triangles using the Laws of Sines and Cosines, vectors, polar coordinates and polar representations of complex numbers.

The following courses are available as Math 1000 in the Math Learning Center:
- Math 32, 39, 103, 104, 123, 124
MATH 351 Calculus for the Life and Social Sciences II  3 Units
Prerequisite: MATH 350 with a grade of "C" or better
General Education: CSU Area B4; IGETC Area 2
Course Transferable to UC/CSU
This course is the continuation of MATH 350. It covers integration and differentiation of commonly used functions and applications of analytic geometry and calculus.

MATH 360 Introduction to Scientific Graphing Calculators  1 Unit
Prerequisite: MATH 330 with a grade of "C" or better.
Course Transferable to CSU
This course introduces the basic functions and applications of scientific graphic calculators. It covers plotting, evaluating, and solving functions. It also discusses calculator-based solutions of problems from algebra and trigonometry; and introduces techniques that will be useful in subsequent courses like precalculus and calculus. A calculator of a model and type that will be specified by instructor is required.

MATH 370 Pre-Calculus Mathematics  5 Units
Prerequisite: MATH 330 with a grade of "C" or better
General Education: AA/AS Area II(b); CSU Area B4; IGETC Area 2
Course Transferable to UC/CSU
This course includes application and graphing of polynomial, logarithmic, exponential and trigonometric functions, as well as systems of linear and non-linear equations and inequalities. It also covers analytic geometry including straight lines, conic sections, graphing and curve sketching.

MATH 400 Calculus I  5 Units
Prerequisite: MATH 370 with a grade of "C" or better
Advisory: Students who took Precalculus in a non-college setting should confirm adequate preparation for MATH 400 using ARC’s Math Self-Assessment System
General Education: AA/AS Area II(b); CSU Area B4; IGETC Area 2
Course Transferable to UC/CSU
This course is an introduction to differential and integral calculus. It includes limits, continuity, differentiation and integration of algebraic, trigonometric, logarithmic, exponential, and other transcendental functions. Some applications are also covered.

MATH 401 Calculus II  5 Units
Prerequisite: MATH 400 with a grade of "C" or better
General Education: CSU Area B4; IGETC Area 2
Course Transferable to UC/CSU
This course is a continuation of MATH 400. It includes techniques of integration, indeterminate forms of limits, improper integrals, infinite series, polar coordinates, and parametric and polar equations. Many calculus applications are also covered.

MATH 402 Calculus III  5 Units
Prerequisite: MATH 401 with a grade of "C" or better
General Education: CSU Area B4; IGETC Area 2
Course Transferable to UC/CSU
This course is a continuation of MATH 401. It extends the concepts of limits, derivatives, and integrals to vector-valued functions and multi-variable functions. The topics include: multi-variable functions, partial derivatives, extrema of multi-variable functions, iterated integrals, development of vector calculus, line integrals, three-dimensional analytic geometry, and Green’s, Gauss’ (Divergence), and Stokes’ Theorems. Many applications of calculus are also covered.

MATH 410 Introduction to Linear Algebra  3 Units
Prerequisite: MATH 400 with a grade of "C" or better
Advisory: MATH 402
General Education: CSU Area B4; IGETC Area 2
Course Transferable to UC/CSU
This course includes application and graphing of polynomial, logarithmic, exponential and trigonometric functions, as well as systems of linear and non-linear equations and inequalities. It also covers analytic geometry including straight lines, conic sections, graphing and curve sketching.

MATH 420 Differential Equations  4 Units
Prerequisite: MATH 401 with a grade of "C" or better
Advisory: MATH 402
General Education: CSU Area B4; IGETC Area 2
Course Transferable to UC/CSU
This course includes application and graphing of polynomial, logarithmic, exponential and trigonometric functions, as well as systems of linear and non-linear equations and inequalities. It also covers analytic geometry including straight lines, conic sections, graphing and curve sketching.

MATH 481 Honors Applications of Calculus  1 Unit
Prerequisite: Cumulative GPA of 3.0 or better; MATH 402 with a grade of "C" or better.
Course Transferable to UC/CSU
This course focuses on professional applications of mathematics in such fields as biomathematics, economics, political science, computer science, earth science, social sciences and psychology. AA/AS area 4C

MATH 1000 Individualized Mathematics  2-3 Units
Prerequisite: To enroll in a "Part I" course, students must first complete the corresponding "Part I" course. Advisory: To enroll in a "Part I" course, confirm placement using ARC’s Math Self-Assessment System
General Education: CSU Area B4; IGETC Area 2
Course Transferable to UC/CSU
This program is an open-entry/open-exit, independent study approach for students wishing to take MATH 23 (Computational Arithmetic - Part I, 2 units), MATH 24 (Computational Arithmetic - Part II, 2 units), MATH 38 (Pre-Algebra - Part I, 2 units), MATH 39 (Pre-Algebra - Part II, 2 units), MATH 103 (Elementary Algebra, Part I, 3 units), MATH 104 (Elementary Algebra, Part II, 3 units), MATH 123 (Intermediate Algebra, Part I, 3 units), or MATH 124 (Intermediate Algebra, Part II, 3 units). During the first class meeting, students choose the specific course in which to enroll. To enroll in MATH 23, MATH 38, MATH 103, or MATH 123, students should either meet the prerequisite or complete ARC’s on-line self-assessment system. To enroll in MATH 24, MATH 39, MATH 104, or MATH 124, students must show proof of meeting the prerequisite. Students who complete one course may advance immediately to the next one. Students may choose to complete a course as quickly as possible or may take up to one semester’s worth of time. Unit credit is only awarded for the semester in which the course is completed. Students who receive a notation of ‘In Progress’ must register in the same individualized course the following semester in order to complete the course and receive full unit credit. Computer-based instruction via the Internet is an integral component.
Statistics

STAT 300 Introduction to Probability and Statistics 4 Units
Prerequisite: MATH 120 or 124 with a grade of “C” or better
General Education: AA/AS Area II(b) (effective Summer 2009)
Course Transferable to CSU
Hours: 72 hours LEC
This course is an introduction to probability and statistics. Topics include elementary principles and applications of descriptive statistics, counting principles, elementary probability principles, probability distributions, estimation of parameters, hypothesis testing, linear regression and correlation, and Analysis of Variance (ANOVA). This course is currently under review for UC transferability and will be submitted in 2009 for CSU GE and IGETC, effective Fall 2010. Check with a counselor before taking this course. A calculator with two-variable statistics capabilities is required.

STAT 301 Introduction to Probability and Statistics 3 Units
Prerequisite: MATH 120 or 124 with a grade of “C” or better
Advisory: ENGRD 116
General Education: AA/AS Area II(b); CSU Area B4; IGETC Area 2
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course will introduce basic concepts of probability and statistics. It will include analysis of data, probability, distributions, test of hypothesis, estimation, regression and correlation, and analysis of variance. Related applications to psychology, social science, natural science, business, and engineering will be explored. A scientific calculator that has a stat package (2-variable) is used throughout the course.

STAT 360 Introduction to Scientific Graphing Calculators for Statistics 1 Unit
Prerequisite: MATH 120 or 124 with a grade of “C” or better
Corequisite: STAT 301
Course Transferable to CSU
Hours: 18 hours LEC
This course introduces the basic statistics functions and applications of scientific graphing calculators with a statistics package. Topics include graphical representations of data, measures of position, probability, normal distributions, confidence intervals, hypothesis testing, and regression. A scientific graphing calculator of a model and type that will be specified by the instructor is required.
The Music Degree program is designed to provide students with a foundation in music theory and history. In addition, ARC provides a degree program in Jazz Studies. Performance opportunities in both vocal and instrumental music enhance a student’s understanding and skill levels.

The Commercial Music program provides opportunities for degrees and certificates in either the recording or music business.

**Music Degree**

The Music degree includes vocal and instrumental components, as well as courses in music, history, and theory. The general program is designed to provide students with a foundation in music theory and history. Performance opportunities in both vocal and instrumental music enhance a student’s understanding and skill levels.

**Student Learning Outcomes**

Upon completion of this program, the student will be able to:

- analyze musical scores and compositions
- critique personal music performances and those of other musicians
- analyze and perform the elements of music (rhythm, melody, harmony, and form)
- create derivative or original music at a level appropriate to the area of specialization
- compare and contrast the characteristics of various musical cultures and historical periods from the origin of music history to the present

**Career Opportunities**

The Music degree prepares students for careers in music performance, education, composition, conducting, retail music industry, music publishing, and music therapy. The degree also prepares students for further study at a four-year institution.

**Core Requirements for Degree**

**Degrees:**

- A.A. - Music
- A.A. - Commercial Music: Business
- A.A. - Commercial Music: Recording
- A.A. - Jazz Studies

**Certificates:**

- Commercial Music: Business
- Commercial Music: Recording

---

**Guitarists/Pianists Concentration**

- Core Requirements ........................................... 26
- And a minimum of 8 units from the following: ............. 8
  - MUP 310 Orchestra (2)
  - MUP 330 Concert Band (2)
  - MUP 340 Symphonic Band (2)
  - MUP 350 College Choir (2)
  - MUP 360 Chamber Singers (2)

**Instrumentalists Concentration**

- Core Requirements ........................................... 26
- And a minimum of 8 units from the following: ............. 8
  - MUP 310 Orchestra (2)
  - MUP 330 Concert Band (2)
  - MUP 340 Symphonic Band (2)

**Vocalists Concentration**

- Core Requirements ........................................... 26 units
- And a minimum of 8 units from the following: ............. 8
  - MUP 350 College Choir (2)
  - MUP 360 Chamber Singers (2)

**Associate Degree Requirements:** The Music Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

**Jazz Studies Degree**

The Jazz Studies degree provides a rigorous curriculum of jazz theory, history, performance groups, improvisation, piano, and individual applied instruction.

**Student Learning Outcomes**

Upon completion of this program, the student will be able to:

- analyze musical scores and compositions from the jazz idiom
- critique personal music performances and those of other musicians
- analyze and perform the basic elements of music (rhythm, melody, harmony, and form)
- create (compose and improvise) jazz music appropriate to the area of specialization
- compare and contrast the characteristics of various historical periods of jazz
- arrange compositions and assemble musicians for a performance

**Career Opportunities**

The Jazz Program prepares a student for careers in performance (concert and studio), education, arranging/composing, and in the music industry. The degree also prepares students for transfer to a four-year institution.

### Associate Degree Requirements: The Jazz Studies Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

### Commercial Music: Business Degree and Certificate

The Commercial Music: Business program explores the inner workings of the music industry in areas such as publishing, entertainment, distribution, and music law. Course work addresses industry-specific issues such as copyright, record contracts, publishing agreements, artist management, promotion, and marketing.

### Student Learning Outcomes

Upon completion of this program, the student will be able to:

- develop a business and marketing plan for a music business and evaluate its quality
- organize an artist tour, assemble a promotional packet, create a publicity campaign, and develop media, industry, and fan lists
- evaluate and implement recordkeeping systems for financial, employment, and tax records
- analyze case problems and apply legal principles to interpret regulations, laws, and statutes related to the music industry
- compare the job descriptions and duties of attorneys, publishers, merchandisers, record company personnel, agents, managers, and producers
- assess record contract points, publisher-writer exclusive agreements, attorney-client contracts, as well as management and touring agreements

### Career Opportunities

Typical career options include booking agent, personal manager, business manager, concert promotion, studio owner/manager, music legal services, publicity writer/public relations, tour management, music retail, music publishing and distribution, and music licensing. The degree also prepares students for transfer to a four-year institution.

### Associate Degree Requirements: The Commercial Music: Business Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

### Commercial Music: Recording Degree and Certificate

The Commercial Music: Recording program provides students the core skills needed to enter a career in audio engineering. Foundational classes in the theory and art of recording are coupled with significant laboratory experiences in order to prepare the student for further study at a four-year institution or for an entry-level career position.

### Student Learning Outcomes

Upon completion of this program, the student will be able to:

- analyze the signal flow within a typical recording studio
- plan and employ the use of analog and digital mixing consoles for audio recording
- operate analog and digital multitrack recorders
- assess the efficacy of employing analog or digital equipment for the recording process
- compare and set up outboard signal processing equipment used for audio enhancement
- evaluate and demonstrate the use of recording, sequencing, and notation software
- design and equip a fully-functioning and acoustically-sound recording studio
- formulate and implement effective recording session techniques

### Career Opportunities

Typical career paths include recording engineer, broadcast engineer, live sound reinforcement, post-production audio, sound effects editor, multi-media/internet audio, and audio/music education.

Music Fundamentals / History and Literature

MUFHL 300  Introduction to Music  3 Units
Advisory: ENGRD 116 or ESLR 320; or placement through the assessment process.
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an introductory examination of how composers and songwriters exploit the various elements of music to heighten the expressive impact of a composition. Aspects of melody, rhythm, harmony, tone, and structure are studied through focused listening of works from the Renaissance to contemporary styles of avant-garde and popular music. This course requires no previous musical study.

MUFHL 308  Introduction to Music: Rock & Roll  3 Units
General Education: AA/AS Area I
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course examines social, political, cultural, and economic issues as they relate to the history of Rock & Roll music. It includes guided listening and video presentations to show the evolution of Rock from its roots to current stylistic trends. This course requires no previous musical study.

MUFHL 310  Survey of Music History and Literature  3 Units
Advisory: ENGRD 116 or ESLR 320, or placement through assessment process.
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of the history of music, including the most significant composers and works from antiquity to the Baroque period. It is required for music majors and also designed for those students interested in humanities or the arts.

MUFHL 311  Survey of Music History and Literature  3 Units
Advisory: ENGRD 116 or ESLR 320, ESLL 320, and ESLW 320, or placement through assessment process.
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of the history of music including its composers and most significant works from the Classical period to the present. It is required for music majors and also designed for those students having a background in music and who are particularly interested in humanities or the arts.

MUFHL 315  Jazz History  3 Units
Advisory: ENGRD 116 or ESLR 320; or placement through the assessment process.
General Education: AA/AS Area I; AA/AS Area VI; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an historical, comprehensive, and comparative listener survey of the traditions of jazz music from around the world and in the United States. Concepts of ethnicity, ethnocentrism, racism, ageism, class differences, and gender issues are addressed. Guided listening presentations show how African and early African American musical traditions have led to the development of various improvisational forms and styles including: ragtime, swing, bebop, free jazz, fusion, and acid jazz. Jazz styles of the Americas, Asia, Africa, India, and Europe are covered.

MUFHL 321  Basic Musicianship  3 Units
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an introductory examination of the elements of music including scales, chords, aural skills, harmonic progression, form, notation, and composition. No previous musical study is required.

MUFHL 330  World Music  3 Units
Advisory: ENGRD 116 or ESLR 320, or placement through assessment process.
General Education: AA/AS Area I; AA/AS Area VI; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an introduction to folk, dance, ceremonial, and popular music from around the world. Guided listening presentations show how traditional forms and styles have led to the urban, professional music popular in many countries today known as “World Beat.” Concepts of ethnicity, ethnocentrism, racism, ageism, class differences, and gender issues are addressed. Music of the Americas, Africa, Asia, Australia and Europe are compared. No previous musical experience is required.

MUFHL 400  Music Theory  4 Units
Prerequisite: Knowledge of musical notation
Advisory: MUIVI 340
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC; 54 hours LAB
This course is a study of scales, intervals, triads, diatonic harmonies, part writing, rhythms, sight singing, ear training, dictation, history and performance. Short creative assignments are included to provide students with experience in the application of materials learned in class. It includes analysis and composition and is required for music majors.

MUFHL 401  Music Theory  4 Units
Prerequisite: MUFHL 400 with a grade of “C” or better
Advisory: MUIVI 341
General Education: CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC; 54 hours LAB
This course is a continuation of MUFHL 400. It provides a more in-depth study of scales, triads and seventh chords, diatonic harmonies, part writing, rhythms, sight singing, ear training, dictation, form, history, and performance. It includes analysis and composition and is required for music majors.
MUFHL 410  Advanced Music Theory  
Prerequisite: MUFHL 401 with a grade of “C” or better 
Advisory: MUIVI 350 
General Education: CSU Area C1; IGETC Area 3A 
Course Transferable to UC/CSU 
Hours: 54 hours LEC, 54 hours LAB 
This course is a continuation of MUFHL 401. It includes the study of 16th and 18th century counterpoint, fugue, variation, altered chords, sonata allegro and rondo forms, and late 19th century writing techniques; practice in rhythmic, melodic, harmonic, and contrapuntal sight singing; ear-training, and dictation. This course is required for music majors.

MUFHL 411  Advanced Music Theory  
Prerequisite: MUFHL 410 with a grade of “C” or better 
Advisory: MUIVI 351 
General Education: CSU Area C1; IGETC Area 3A 
Course Transferable to UC/CSU 
Hours: 54 hours LEC, 54 hours LAB 
This course is a continuation of MUFHL 410. It includes more in-depth study of altered chords and late nineteenth- and twentieth-century writing techniques including: 9th, 11th and 13th chords; altered dominants; chromatic harmony; set theory; aleatory; minimalism; and analysis techniques. Practice in rhythmic, melodic, harmonic and contrapuntal sight singing; ear-training and dictation. This course is required for music majors.

MUFHL 420  Beginning Jazz Theory  
Prerequisite: MUFHL 400 with a grade of “C” or better 
Advisory: MUIVI 385 and 400 
Course Transferable to UC/CSU 
Hours: 36 hours LEC, 18 hours LAB 
This course introduces the elements of jazz theory including harmonic, melodic and formal analysis in the jazz idiom.

MUFHL 421  Advanced Jazz Theory  
Prerequisite: MUFHL 420 with a grade of “C” or better 
Advisory: MUIVI 386 and 400 
Course Transferable to CSU 
Hours: 36 hours LEC, 18 hours LAB 
This course presents a continuation of jazz concepts presented in MUFHL 420. The emphasis is on advanced elements of jazz theory including composition and arranging, as well as harmonic, melodic, and formal analysis in the jazz idiom.

MUFHL 480  Honors Introduction to Music  
Prerequisite: Cumulative GPA of 3.0 or above; ENGWR 300 or 480 with a grade of “C” or better 
Advisory: Previous experience in music notation, theory, and/or performance is recommended. 
General Education: CSU Area C1; IGETC Area 3A 
Course Transferable to UC/CSU 
Hours: 54 hours LEC 
This course is designed as a seminar for the student who has previous experience in music notation, theory, and/or performance. Included in the course are (1) an analysis of the listening process and recognizing the roles of the composer, the performer and the listener, and (2) an evaluation of the intellectual and emotional elements of listening. This course also covers the distinctions between the functional and aesthetic purposes of music. Attendance at live musical performances and/or field trips is required.

MUIVI 310  Voice Class  
Prerequisite: MUIVI 310 with a grade of “C” or better 
Course Transferable to UC/CSU 
Hours: 36 hours LEC; 18 hours LAB 
This course emphasizes the development of the individual singer’s voice. Basic vocal techniques of breathing and mouth position are practiced. Solo repertoire is learned and performed in class.

MUIVI 311  Voice Class  
Prerequisite: MUIVI 310 with a grade of “C” or better 
Course Transferable to UC/CSU 
Hours: 36 hours LEC; 18 hours LAB 
This course emphasizes the continued development of the individual singer’s voice. Topics include the International Phonetic Alphabet (IPA) and techniques of breathing and vowel formation. Solos are learned and performed in class.

MUIVI 320  Voice Class, Intermediate  
Prerequisite: MUIVI 311 with a grade of “C” or better 
Course Transferable to UC/CSU 
Hours: 36 hours LEC; 18 hours LAB 
This course focuses on the practical application of bel canto technique with emphasis on English and Italian diction and literature. The course offers solo singers the opportunity to further develop the concepts begun in the first and second semesters of vocal study. Performance in class is required.

MUIVI 321  Voice Class, Intermediate  
Prerequisite: MUIVI 320 with a grade of “C” or better 
Course Transferable to UC/CSU 
Hours: 36 hours LEC; 18 hours LAB 
This course emphasizes the continued development of the individual’s voice. The course offers solo singers the opportunity to further develop the concepts begun in the first three semesters of vocal study. Performance in class is required.

MUIVI 340  Beginning Piano  
Prerequisite: MUIVI 340 with a grade of “C” or better; MUIVI 340 with a grade of “C” or better, or the ability to sight read an eight measure composition with a single line in each hand and the ability to play I-IV-I-V7-I in 5 major keys (C,G,D,A major) 
Course Transferable to UC/CSU 
Hours: 36 hours LEC; 18 hours LAB 
This course is designed for students interested in piano as a medium of expression and enjoyment, and for prospective nursery, kindergarten and elementary teachers. It is required for music majors who do not demonstrate equivalent piano proficiency.

MUIVI 341  Beginning Piano  
Prerequisite: MUIVI 340 with a grade of “C” or better; MUIVI 340 with a grade of “C” or better, or the ability to sight read an eight measure composition with a single line in each hand and the ability to play I-IV-I-V7-I in 5 major keys (C,G,D,A major) 
Course Transferable to UC/CSU 
Hours: 36 hours LEC; 18 hours LAB 
This course is a continuation of MUIVI 340 and is designed for students interested in piano as a medium of expression and enjoyment, and for prospective nursery, kindergarten and elementary teachers. It is required for music majors who do not demonstrate equivalent piano proficiency.
MUIVI 350 Intermediate Piano 2 Units
Prerequisite: MUIVI 340 with a grade of “C” or better; or the ability to play major scales (one octave, hands together C, D, E, F, G, and A) and the ability to play a simple melody with basic chordal accompaniment in a major or minor key.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 18 hours LAB
This course expands on the piano playing foundations of MUIVI 340 and includes further study of the harmonization of melodies, major and minor scales, and repertoire.

MUIVI 351 Intermediate Piano 2 Units
Prerequisite: MUIVI 350 with a grade of “C” or better; or the ability to play all major scales, hands together, two octaves and harmonic minor in A, B, C, and D.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 18 hours LAB
This course is the second year of piano study. It is a continuation of MUIVI 350. The course includes the further development of insight into music as an artistic means of communication through the study of scales, chords, melodic harmonization and repertoire. The course also serves to develop the fundamental skills for the non-keyboard music major.

MUIVI 370 Beginning Guitar 2 Units
General Education: CSU Area C1
Course Transferable to UC/CSU
Hours: 36 hours LEC; 18 hours LAB
This course provides guitar instruction emphasizing the fundamentals of music reading and basic technique. It may be taken two times for credit using different music.

MUIVI 371 Intermediate Guitar 2 Units
Prerequisite: MUIVI 370 with a grade of “C” or better.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 18 hours LAB
This course is a continuation of MUIVI 370 with emphasis on increased skills in note reading, improvisation, accompanying, and development of personal style.

MUIVI 385 Jazz Styles and Improvisation 2 Units
Prerequisite: Ability to play a melodic instrument or ability to sight sing; ability to read music in a clef.
Advisory: MUFHL 400
General Education: CSU Area C1
Course Transferable to UC/CSU
Hours: 36 hours LEC; 18 hours LAB
This course is the study of instrumental and vocal applications of jazz improvisation. This course may be taken twice for credit.

MUIVI 386 Jazz Styles and Improvisation 2 Units
Prerequisite: MUIVI 385 with a grade of “C” or better
Advisory: MUFHL 420
Course Transferable to UC/CSU
Hours: 36 hours LEC; 18 hours LAB
This course is the study of advanced instrumental and vocal applications of jazz improvisation. This course may be taken twice for credit.

MUIVI 390 Beginning Jazz and Popular Vocal Styles 2 Units
Prerequisite: MUIVI 310 with a grade of “C” or better; or by audition
Course Transferable to CSU
Hours: 36 hours LEC; 18 hours LAB
This course offers instruction in the stylistic and performance elements of jazz and popular solo singing styles and repertoire including blues, rhythm and blues, pop, rock and country. This course may be taken twice for credit.

MUIVI 391 Intermediate Jazz and Popular Vocal Styles 2 Units
Prerequisite: MUIVI 390 with a grade of “C” or better
Course Transferable to UC/CSU
Hours: 36 hours LEC; 18 hours LAB
This course offers intermediate studies in jazz and popular solo singing styles. Topics include scat improvisation and singing in the following styles: Latin jazz, swing, funk, and blues. This course may be taken twice for credit.

MUIVI 400 Beginning Jazz Piano 2 Units
Prerequisite: MUIVI 340 with a grade of “C” or better
Advisory: MUFHL 400, MUFHL 420, and MUIVI 385
Course Transferable to CSU
Hours: 36 hours LEC; 18 hours LAB
This course is an introduction to the fundamentals of jazz piano. Topics include blues, left-hand voicings, two-hand voicings, and scale theory applications to the keyboard. This course requires at least five hours per week outside preparation. This course may be taken two times for credit.

MUIVI 401 Intermediate Jazz Piano 2 Units
Prerequisite: MUIVI 400 with a grade of “C” or better
Advisory: MUFHL 400, MUFHL 420, and MUIVI 385
Course Transferable to UC/CSU
Hours: 36 hours LEC; 18 hours LAB
This course covers intermediate studies in jazz piano. Topics include arranging jazz harmonies at the keyboard using techniques such as three- and four-note rootless voicings, five-note mixed-modal voicings, “drop 2,” Red Garland voicings, and the “So What” chord. This course requires at least five hours per week outside preparation. This course may be taken two times for credit.

MUIVI 420 Applied Music 1 Unit
Corequisite: Enrolled in 2 units from: MUP 310, 330, 340, 350, or 360; AND enrolled in 4 units from: MUFHL 400, 401, 410, or 411.
Enrollment Limitation: Audition
Course Transferable to UC/CSU
Hours: 7 hours LEC
This is the first course in a four-part series and offers individualized instrumental or vocal instruction seven hours per semester with a private instructor, two hours per semester of solo performance and recital attendance, and ten and one-half hours monitored practice time per week. It focuses on the development of individual performance skills and solo and ensemble repertoire. Juried performance is also required. Required for all traditional performance and jazz music majors.

MUIVI 421 Applied Music 1 Unit
Prerequisite: MUIVI 420 and Audition
Corequisite: Enrolled in 2 units from: MUP 310, 330, 340, 350, or 360; AND enrolled in 4 units from: MUFHL 400, 401, 410, or 411
Course Transferable to UC/CSU
Hours: 7 hours LEC
This is the second course in a four-part series and offers individualized instrumental or vocal instruction seven hours per semester with a private instructor, two hours per semester of solo performance and recital attendance, and ten and one-half hours monitored practice time per week. It focuses on the development of individual performance skills and solo and ensemble repertoire. Juried performance is also required. Required for all traditional performance and jazz music majors.

MUIVI 422 Applied Music 1 Unit
Prerequisite: MUIVI 421 and Audition
Corequisite: Enrolled in 2 units from MUP 310, 330, 340, 350, or 360 and enrolled in 4 units from MUFHL 400, 401, 410, or 411
Course Transferable to UC/CSU
Hours: 7 hours LEC; 191 hours LAB
This is the third course in a four-part series and offers individualized instrumental or vocal instruction seven hours per semester with a private instructor, two hours per semester of solo performance and recital attendance, and ten and one-half hours monitored practice time per week. It focuses on the development of individual performance skills and solo and ensemble repertoire. Juried performance is also required. Required for all traditional performance music majors.

MU1VI 423  Applied Music  1 Unit
Prerequisite: MU1VI 422 and audition.
Corequisite: Enrolled in 2 units from MUP 310, 330, 340, 350, or 360 and enrolled in 4 units from MUFHL 400, 401, 410, or 411.
Course Transferable to UC/CSU
Hours: 7 hours LEC; 191 hours LAB
This is the fourth course in a four-part series and offers individualized instrumental or vocal instruction seven hours per semester with a private instructor, two hours per semester of solo performance and recital attendance, and ten and one-half hours monitored practice time per week. It focuses on the development of individual performance skills and solo and ensemble repertoire. Juried performance is also required. Required for all traditional performance music majors.

MU1VI 425  Applied Music - Jazz  1 Unit
Prerequisite: MU1VI 421 and audition.
Corequisite: Enrolled in 4 units from MUFHL 420 or 421, and enrolled in MUP 320, 400, or 424.
Course Transferable to UC/CSU
Hours: 7 hours LEC; 191 hours LAB
This is the third course in a four-part series specializing in individualized jazz instrumental or vocal instruction seven hours per semester with a private instructor, two hours per semester of solo performance and recital attendance, and ten and one-half hours monitored practice time per week. It focuses on the development of individual performance skills and solo and ensemble repertoire. Juried performance is also required. Required for all traditional performance music majors.

MU1VI 426  Applied Music - Jazz  1 Unit
Prerequisite: MU1VI 425 and audition.
Corequisite: Enrolled in 2 units from MUP 310, 330, 340, 350, or 360 and enrolled in 4 units from MUFHL 420 or 421; and enrolled in MUP 320, 400, or 424.
Course Transferable to UC/CSU
Hours: 7 hours LEC; 191 hours LAB
This is the fourth course in a four-part series specializing in individualized jazz instrumental or vocal instruction seven hours per semester with a private instructor, two hours per semester of solo performance and recital attendance, and ten and one-half hours monitored practice time per week. It focuses on the development of individual performance skills and solo and ensemble repertoire. Juried performance is also required. Required for all traditional performance music majors.

MU1VI 430  Beginning Organ  1 Unit
Prerequisite: Keyboard proficiency required. The student must be able to play a composition for piano comparable in difficulty to a Bach Two-Part Invention.
General Education: CSU Area C1
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course is designed to introduce and develop fundamental organ/keyboard skills. It is required for organ majors. It may be taken twice for credit.

MU1VI 431  Intermediate Organ  1 Unit
Prerequisite: Two semesters of MU1VI 430.
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course is a continuation of MU1VI 430. It includes the further development of skills relative to music written for the organ. Required for organ majors. May be taken twice for credit.

MU1VI 440  Brass Instruction  1 Unit
General Education: CSU Area C1
Enrollment Limitation: The ability to play a brass instrument is needed to be successful in this course
Course Transferable to UC/CSU
Hours: 9 hours LEC; 27 hours LAB
This course provides specialized instruction in aspects of applied literature and performance on a brass instrument. This course may be taken four times for credit.

MU1VI 442  String Instruction  1 Unit
General Education: CSU Area C1
Course Transferable to UC/CSU
Hours: 9 hours LEC; 27 hours LAB
This course provides specialized instruction, including aspects of applied literature and performance, on a string instrument. It may be taken four times for credit using different music.

MU1VI 444  Woodwind Instruction  1 Unit
General Education: CSU Area C1
Enrollment Limitation: The ability to play a woodwind instrument is needed to be successful in this course
Course Transferable to UC/CSU
Hours: 9 hours LEC; 27 hours LAB
This course provides specialized instruction in aspects of applied literature and performance on a woodwind instrument. This course may be taken four times for credit.

MU1VI 446  Percussion Instruction  1 Unit
General Education: CSU Area C1
Course Transferable to UC/CSU
Hours: 9 hours LEC; 27 hours LAB
This course provides specialized instruction, including aspects of applied literature and performance, on percussion instruments. It may be taken four times for credit using different music.

MUP 310  Orchestra  2 Units
General Education: CSU Area C1
Enrollment Limitation: Ability to play an orchestral instrument.
Course Transferable to UC/CSU
Hours: 18 hours LEC; 54 hours LAB
This course is the study and performance of orchestral repertoire. It is open to those who play an orchestral instrument. Public performances and/or field trips are required. This course may be taken four times for credit.

MUP 311  Advanced Orchestra  1-2 Units
Prerequisite: MUP 310 with a grade of “C” or better; or an audition.
Course Transferable to CSU
Hours: 9-18 hours LEC; 27-54 hours LAB
This course is the continuing study and performance of orchestral repertoire. Additional topics include experience in conducting, rehearsal techniques, and section leading. Public performances and/or field trips are required. This course may be taken four times for credit.
MUP 320  Jazz Band  2 Units
General Education: CSU Area C1
Enrollment Limitation: Ability to play at least one instrument commonly used in jazz ensemble; audition required.
Course Transferable to UC/CSU
Hours: 18 hours LEC; 54 hours LAB
This course is the study and performance of jazz band repertoire performing a wide variety of music in the jazz style. Public performance and field trips are required. This course may be taken four times for credit.

MUP 321  Advanced Jazz Band  1-2 Units
Prerequisite: MUP 320 (8 units)
Enrollment Limitation: Ability to play at least one instrument commonly used in jazz ensemble; audition required.
Course Transferable to CSU
Hours: 9-18 hours LEC; 27-54 hours LAB
This course is the continuing study and performance of jazz band repertoire and techniques. Additional topics include improvising, conducting, rehearsal technique and section leading. Public performance, recording sessions, and field trips may be required. This course may be taken four times for credit.

MUP 327  Chamber Jazz Ensemble  2 Units
Prerequisite: Ability to play at least one instrument commonly found in a jazz ensemble; audition required.
Course Transferable to CSU
Hours: 18 hours LEC; 54 hours LAB
This course examines and evaluates techniques of chamber jazz group organization, jazz arranging, and jazz improvisation. Chamber jazz recording techniques are analyzed focusing on studio etiquette, microphone setup, headphone mix, and playback critique. Public performance and field trips are required. This course may be taken four times for credit.

MUP 328  Advanced Chamber Jazz Ensemble  2 Units
Prerequisite: Completion of 8 units of MUP 327 with a grade of “C” or better.
Course Transferable to CSU
Hours: 18 hours LEC; 54 hours LAB
This course examines and evaluates advanced techniques of chamber jazz ensemble organization. Ensemble members select music, formulate rehearsal strategy, conduct rehearsals, and set up and evaluate group performances. Public performances and field trips are required. This course may be taken four times for credit.

MUP 330  Concert Band  2 Units
General Education: CSU Area C1
Enrollment Limitation: Ability to play a concert band instrument.
Course Transferable to UC/CSU
Hours: 18 hours LEC; 54 hours LAB
This course is the study and performance of concert band repertoire. It is open to those who play a concert band instrument. Public performances and/or field trips are required. This course may be taken four times for credit.

MUP 331  Advanced Concert Band  1-2 Units
Prerequisite: MUP 330 (Concert Band) with a grade of “C” or better; or audition.
Course Transferable to CSU
Hours: 9-18 hours LEC; 27-54 hours LAB
This course is the continuing study and performance of concert band literature. Additional topics include experience in conducting, rehearsal technique, and section leading. Public performances and/or field trips are required. This course may be taken four times for credit.

MUP 340  Symphonic Band  2 Units
General Education: CSU Area C1
Enrollment Limitation: Ability to play a symphonic band instrument.
Course Transferable to UC/CSU
Hours: 18 hours LEC; 54 hours LAB
This course is the study and performance of symphonic band repertoire. It is open to those who play a symphonic band instrument. Public performances and/or field trips are required. This course may be taken four times for credit.

MUP 341  Advanced Symphonic Band  1-2 Units
Prerequisite: MUP 340 (Symphonic Band) with a grade of “C” or better; or audition.
Course Transferable to CSU
Hours: 9-18 hours LEC; 27-54 hours LAB
This course is the continuing study and performance of advanced symphonic band literature. Additional topics include experience in conducting, rehearsal technique, and section leading. Public performances and/or field trips are required. This course may be taken four times for credit.

MUP 345  Wind Ensemble  2 Units
Prerequisite: Ability to play an instrument found in a wind or chamber ensemble
Enrollment Limitation: Audition
Course Transferable to CSU
Hours: 18 hours LEC; 54 hours LAB
This course offers the study and performance of various styles of wind literature designed for one-on-a-part performance. Chamber music literature, rehearsal technique, and performance practices are examined. Public performances and field trips may be required. This course may be taken four times for credit.

MUP 350  College Choir  2 Units
General Education: CSU Area C1
Enrollment Limitation: Ability to match pitch and produce a good tone demonstrated in the initial assessment
Course Transferable to UC/CSU
Hours: 18 hours LEC; 54 hours LAB
This course is the study and performance of choir literature including classical works, contemporary pieces, and music of many diverse cultures. Public performances, festivals, and field trips are required. This course may be taken four times for credit.

MUP 352  Advanced Concert Choir  1-2 Units
Prerequisite: 8 units of MUP 350 with a grade of “C” or better
Enrollment Limitation: Ability to match pitch and produce a good tone demonstrated in the initial assessment
Course Transferable to CSU
Hours: 9-18 hours LEC; 27-54 hours LAB
This course is the study and performance of advanced choir literature including classical works, contemporary pieces, and music of many diverse cultures. Advanced ensemble members may conduct pieces and lead sectionals. Public performances, festivals, and field trips are required. This course may be taken four times for credit.

MUP 360  Chamber Singers  2 Units
General Education: CSU Area C1
Enrollment Limitation: Audition required. Auditions generally occur the first week of class. The audition includes sight singing, the preparation of a short musical excerpt, and an aural skills assessment.
Course Transferable to UC/CSU
Hours: 18 hours LEC; 54 hours LAB
This course is an advanced choral ensemble of limited size performing a wide variety of music: classical, world music, folksong arrangements, and contemporary compositions. Public performances, festivals, and field trips are required. This course may be taken four times for credit.
MUP 361  Advanced Chamber Singers  1-2 Units
Prerequisite: 8 units of MUP 360 with a grade of "C" or better
Enrollment Limitation: Audition required. Auditions generally occur the first week of class. The audition includes sight singing, the preparation of a short musical excerpt, and an aural skills assessment.
Course Transferable to CSU
Hours: 18 hours LEC, 54 hours LAB
This course is an advanced choral ensemble of limited size performing a wide variety of music—classical, world music, folksong arrangements, and contemporary compositions. Advanced ensemble members may conduct pieces and lead sectionals. Public performances, festivals, and field trips are required. This course may be taken four times for credit.

MUP 370  Rehearsal and Performance - Musical Ensemble  .5-3 Units
Same As: TA 466
Enrollment Limitation: Audition
Course Transferable to UC/CSU
Hours: 27-162 hours LAB
This course explores the development of a musical theatre production presented before the campus and community. A different production will be presented each semester the course is offered. May be taken four times for credit up to a maximum of twelve units. Not open to students who are taking TA 466 for the same production.

MUP 400  Vocal Jazz Ensemble  2 Units
General Education: CSU Area C1
Enrollment Limitation: Audition is required. The audition will include sight singing, aural skills, improvisation and the preparation of a short musical excerpt.
Course Transferable to UC/CSU
Hours: 18 hours LEC, 54 hours LAB
This course is a vocal jazz ensemble of limited size performing a wide variety of music in the jazz style. Public performance, festival and field trips are required. This course may be taken four times for credit.

MUP 401  Advanced Vocal Jazz Ensemble  1-2 Units
Prerequisite: MUP 400 with a grade of "C" or better
Enrollment Limitation: Audition is required. The audition will include sight singing, aural skills, improvisation and the preparation of a short musical excerpt.
Course Transferable to UC/CSU
Hours: 9-18 hours LEC, 27-54 hours LAB
This course is the continuing study of vocal jazz ensemble repertoire and techniques. Additional topics include experiences in scat singing, conducting, rehearsal technique and section leading. Public performance, festivals, recording sessions and field trips are required. This course may be taken four times for credit.

MUP 410  Woodwind Ensemble  1 Unit
General Education: CSU Area C1
Enrollment Limitation: The ability to play a woodwind instrument is needed to be successful in this course
Course Transferable to UC/CSU
Hours: 9 hours LEC, 27 hours LAB
This course is designed for small ensemble experience and practice for woodwind players. Public performances and field trips are required. The course may be taken four times for credit.

MUP 412  Percussion Ensemble  1 Unit
General Education: CSU Area C1
Course Transferable to UC/CSU
Hours: 9 hours LEC, 27 hours LAB
This course is the study of percussion ensemble literature. Public performances and/or field trips are required. It may be taken four times for credit.

MUP 414  String Ensemble  1 Unit
Course Transferable to UC/CSU
Hours: 9 hours LEC, 27 hours LAB
This course is a study of string literature including duets, trios, quartets, and ensembles. Public performances and/or field trips are required. This course may be taken four times for credit.

MUP 416  Brass Ensemble  1 Unit
General Education: CSU Area C1
Enrollment Limitation: The ability to play a brass instrument is needed to be successful in this course
Course Transferable to UC/CSU
Hours: 9 hours LEC, 27 hours LAB
This course is designed for small ensemble experience and practice for brass players. Public performances and field trips are required. This course may be taken four times for credit.

MUP 418  Piano Ensemble  1 Unit
Enrollment Limitation: Audition required.
Course Transferable to UC/CSU
Hours: 9 hours LEC, 27 hours LAB
The emphasis of this class is on the artistic interpretation and performance of music for two or more pianists. This class is limited to advanced pianists who can read music. It is recommended for piano majors. The course may be taken four times for credit.

MUP 420  Special Ensemble Participation  2 Units
Enrollment Limitation: Audition
Course Transferable to UC/CSU
Hours: 18 hours LEC, 54 hours LAB
This course is open to all students who sing or play musical instruments. Studies are designed for instrumental and vocal groups of various combinations. Students may explore chamber music, large ensemble, or solo repertoire. Public performances and/or field trips are required. This course may be taken four times for credit.

MUP 424  Commercial Music Ensemble  2 Units
Prerequisite: Ability to play at least one instrument or vocalize in a popular style. Performers must also sight read and improvise.
General Education: CSU Area C1
Enrollment Limitation: Audition
Course Transferable to UC/CSU
Hours: 18 hours LEC, 54 hours LAB
The Commercial Music Ensemble studies and performs contemporary commercial music. Rock styles, rhythm and blues, country, funk, contemporary jazz, world beat, and other areas associated with popular music will be studied. Public performances and field trips are required. This course may be taken four times for credit.

MUSM 110  The Business of Music  3 Units
Hours: 54 hours LEC
This course covers the processes of the music industry. This includes record contracts as well as the duties and responsibilities of record producers, agents, managers, and performing artists.

MUSM 111  The Business of Music  3 Units
Prerequisite: MUSM 110 with a grade of “C” or better
Hours: 54 hours LEC
The course covers the fundamentals and organization of the music business. This includes the duties of attorneys, publishers, and radio stations regarding musical and financial matters. The course also defines and analyzes publishing agreements, merchandising contracts, trademark and servicemark points, as well as radio and record-industry relations.
MUSM 112 The Business of Music/Artist
Management 3 Units
Hours: 54 hours LEC
This course covers the definitions, duties, and agreements of artist management. Topics include the functions of a personal manager, guidelines to career planning, choosing managers and clients, record company negotiations, and selecting other team players. It also analyzes the personal manager agreement and how to organize an artist's tour.

MUSM 113 The Business of Music/Promotion 3 Units
Hours: 54 hours LEC
This course covers the process of music promotion. Topics include definitions of promotion, developing media/industry fan lists, and assembling a promotion packet. The course also discusses current internet strategies and new technologies developed for promotion. In addition, a campaign for album release and distribution is discussed and planned. Field trips may be required.

MUSM 114 The Business of Music, Advanced 3 Units
Prerequisite: MUSM 111, MUSM 112, and MUSM 113 with a grade of "C" or better.
Hours: 54 hours LEC
The course meets the requirements at an advanced high level of application and integration into the music industry majors. Course contents include application, evaluation and formulation of record contracts, publishing and management agreements, and career plans at a high level with an integration into the music industry.

MUSM 120 Contemporary Songwriting 3 Units
Prerequisite: MUSM 121 with a grade of "C" or better
Hours: 54 hours LEC
This course examines the processes of the songwriting industry in popular music today, including instrumental and vocal arrangements in jazz, pop, and rock musical styles. Other related topics such as lyrics, formation of melodies and harmonies, popular music form, and musical notation are covered.

MUSM 121 Contemporary Songwriting 3 Units
Prerequisite: MUSM 120 with a grade of "C" or better
Hours: 54 hours LEC
This course covers the processes of writing popular songs, including lyric evaluation, song forms, and music styles. Production techniques, publishing, and marketing strategies are also included.

MUSM 140 Concert Sound Reinforcement 2 Units
Hours: 36 hours LEC; 18 hours LAB
This course is an overview of live concert sound reinforcement. Topics to be covered include basic sound system theory/applications, and study of individual sound system component operation (microphones, mixers, effects, power amplifiers, speaker systems). Demonstrations, discussions, and a hands-on approach will provide ways to troubleshoot, sound check, and mix sound for live performance, and touring. This course may be taken twice for credit.

MUSM 334 Introduction to Musical Instrument Digital Interface (MIDI) 2 Units
Advisory: MUSM 334 with a grade of "C" or better.
Course Transferable to CSU
Hours: 18 hours LEC; 54 hours LAB
This course is an introduction to the rapidly evolving use of professional music software and MIDI electronic instruments. Various music hardware options, including keyboards, synthesizers, samplers, computers and drum machines, will be explored. A series of MIDI projects will cover music sequencing, notation, and CAI (computer-assisted instruction) software. Field trips are required.
MUSM 356  Pro Tools 101, Introduction to Pro Tools 1.5 Units

Prerequisite: MUSM 342 (Recording Studio Techniques) with a grade of “C” or better.
Course Transferable to CSU
Hours: 27 hours LEC
This course is an introduction to Digidesign’s Pro Tools digital audio workstation software application. Basic Pro Tools principles, including how to complete a Pro Tools project from initial set up to final mixdown are covered. It includes how to record, edit, and mix music and Musical Instrument Digital Interface (MIDI) tracks within the Pro Tools LE application. This course is the first in a series of four courses leading to certification as a Pro Tools Operator. It may be taken twice for credit using different software versions.

MUSM 357  Pro Tools 110 Intermediate Pro Tools 1.5 Units

Prerequisite: MUSM 356 with a grade of “C” or better
Course Transferable to CSU
Hours: 27 hours LEC
This is an intermediate course in Digidesign’s Pro Tools digital audio workstation hardware and software application. Concepts and skills needed to operate large sessions in a project studio environment are covered. It includes managing large track counts, multiple channels of simultaneous inputs and outputs, and the use of specialized plug-ins for specific music and post-production tasks. This course is the second in a series of four courses leading to certification as a Pro Tools Operator. It may be taken twice for credit using different software versions.

MUSM 366  Pro Tools 201, Advanced Pro Tools 1.5 Units

Prerequisite: MUSM 344 and 357 with grades of “C” or better
Course Transferable to CSU
Hours: 27 hours LEC
This is an advanced course in Digidesign’s Pro Tools digital audio workstation hardware and software application. It covers the core concepts and skills needed to operate a Digidesign Pro Tools HD system in a professional studio environment. Advanced recording, editing, and mixing techniques are presented. This course is the third in a series of four courses leading to certification as a Pro Tools Operator. It may be taken twice for credit using different software versions.

MUSM 370  Music for Children 3 Units

General Education: AA/AS Area I; CSU Area C1
Course Transferable to CSU
Hours: 54 hours LEC
This course focuses on the principles of teaching and using music in nursery school, pre-school, elementary school and recreational programs. Methods and material used in singing, creating, moving, reading and listening are covered. The course is recommended for nursery school workers and Early Childhood credential candidates whose major is not music. It is suggested for recreational leaders and workers and others who use music with groups of children.
# Natural Resources Degree

Natural Resources is an interdisciplinary program that advances understanding of ecological systems and their interrelationships, including those with human society. Core study involves plant and animal ecology and natural history, field methods and study design, and conservation and management of ecosystems and natural resources. This program includes courses in a wide range of areas of environmental studies, and provides many unique opportunities for hands-on and real-world field experience and coursework.

## Student Learning Outcomes

Upon completion of this program, the student will be able to:

- apply the scientific method and critical analysis to environmental investigations
- evaluate natural resource systems, including their past and present use and management and future sustainability
- analyze social, ethical, and biological implications of environmental management alternatives
- identify ecological phenomena in one’s everyday experiences and apply ecological principles to understand local, national and global environmental issues
- assess the relationships of plants and animals to their environment and to each other
- measure and analyze the physical environment of plant and animal populations
- evaluate basic land survey, water quality, vegetation, and wildlife data
- examine the significance of biodiversity conservation

## NATR 294 Topics in Natural Resources

### 5-5 Units

Current topics in natural resources conservation and management not covered by regular catalog offerings are examined. Topics and field locations vary. Course topics may include but are not limited to: advanced subjects related to wildlife, fisheries, soil and water resources, conservation biology, forest resources and management, restoration ecology and aquatic ecology. Field trips may be required. This course may be taken four times on different topics.

### NATR 300 Introduction to Natural Resource Management

**General Education:** AA/AS Area IV

**Course Transferable to UC/CSU:**

**Hours:** 54 hours LEC

This course provides a survey of natural resources, such as soils, water, wildlife, fisheries, rangeland, and forests, with a focus on their sustainable management and conservation. Overexploitation, pollution, and waste issues are integrated throughout the course. Principles, problems, and solutions are explored in the context of economics, ethics, and past, present, and future natural resource issues. Critical thinking and ecological dynamics are stressed. Sustainability, global environmental problems, and energy are major themes of the course. Field trips are required.

### NATR 302 Introduction to Wildlife Biology

**General Education:** AA/AS Area IV

**Course Transferable to CSU:**

**Hours:** 54 hours LEC, 54 hours LAB

This course is an introduction to wildlife biology and the basic principles and techniques related to the practice of wildlife management.
It emphasizes ecological principles of populations and communities as they relate to the interdependence of wildlife and human populations. Topics include the social, political and biological implications of wildlife management. Game, non-game, threatened and endangered, and invasive species of wildlife are explored. Additionally, this course covers habitat and population sampling, radio telemetry, and the development of a wildlife management plan. Field trips are required.

**NATR 303 Energy and Sustainability** 3 Units  
Same As: ENERGY 303 and ET 303  
General Education: AA/AS Area IV (effective Summer 2009)  
Course Transferable to CSU  
Hours: 54 hours LEC  
Fundamentals of energy and its impact on society and the environment are covered in this course. The mechanics, advantages and disadvantages of current and future renewable, green and nonrenewable energy sources are investigated. Residential energy audits are covered. Field trips are required. This course is not open to students who have completed ENERGY 303 or ET 303.

**NATR 304 The Forest Environment** 3 Units  
General Education: AA/AS Area IV  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course covers basic biological and physical science concepts important to a general understanding of forest ecology and forestry. Forest history, forests of the United States, general tree taxonomy, forest ecology, soils, silvics, and insects and diseases of forest trees are investigated. Additional topics include the role of fire in forest management, forest measurements, multiple use management, and current forest issues and policies related to forest resource use. Field trips are required.

**NATR 306 Introduction to Range Management** 3 Units  
Course Transferable to CSU  
Hours: 36 hours LEC, 54 hours LAB  
This course examines the historical developments of range management and theory and application of grazing strategies. This course focuses on the effects of grazing on range ecosystems, the taxonomy and physiology of range plants, ruminant nutrition and physiology. In addition, sampling techniques of field vegetation, the use of fire and other methods for range conversion and maintenance are explored. Field trips are required.

**NATR 310 Natural Resource Measurements** 4 Units  
Course Transferable to CSU  
Hours: 54 hours LEC, 54 hours LAB  
This course provides basic natural resource measurement and survey skills. Included are elementary surveying, public land surveying, distance and direction measurement, topographic map reading, stream flow measurement, basic aquatic and water quality sampling. It focuses on forest and herbaceous vegetation sampling techniques such as transects and quadrates. Also included are the fundamentals of wildlife sampling techniques such as radio telemetry, population sampling techniques, Global Positioning Systems (GPS), Geographic Information Systems (GIS), and use of the internet as a research tool. Field trips are required.

**NATR 311 Natural Resource Measurements-Land Surveying Methods** 1 Unit  
Course Transferable to CSU  
Hours: 9 hours LEC, 27 hours LAB  
This course provides basic natural resource land survey skills. Included in this course are elementary surveying, public land survey, distance and direction measurements, and topographic map reading. Field trips are required.

**NATR 312 Natural Resource Measurements-Field Methods and Study Design** 1 Unit  
Course Transferable to CSU  
Hours: 9 hours LEC, 27 hours LAB  
This course provides basic statistics and study design as well as fundamental wildlife sampling techniques and an introduction to field applications of Global Positioning Systems (GPS) and Geographic Information Systems (GIS). Field trips are required.

**NATR 313 Natural Resource Measurements-Vegetation Analysis and Forest Sampling** 1 Unit  
Course Transferable to CSU  
Hours: 9 hours LEC, 27 hours LAB  
This course provides basic forest and vegetation sampling skills. Included in this are forest sampling techniques such as tree heights, diameters, volume, and age. Vegetation sampling techniques such as quantitative and semi-quantitative analysis, and single species surveys will be covered. Field trips are required.

**NATR 314 Natural Resource Measurements-Aquatic Resource Sampling** 1 Unit  
Course Transferable to CSU  
Hours: 9 hours LEC, 27 hours LAB  
This course provides basic aquatic resource sampling skills. Included in this are stream flow measurements and water quality sampling. Sampling techniques for fisheries and other aquatic organisms will also be addressed. Field trips are required.

**NATR 320 Principles of Ecology** 4 Units  
General Education: AA/AS Area IV  
Course Transferable to UC/CSU  
Hours: 54 hours LEC, 54 hours LAB  
This course covers basic principles of ecology, including the physical and biological factors of different environments in relation to the distribution and abundance of plants and animals. Emphasis is on the management of ecosystems using ecological principles and the understanding of current ecological issues. Field trips are required.

**NATR 325 Black Bear Ecology and Management in California** 2 Units  
Course Transferable to CSU  
Hours: 27 hours LEC, 27 hours LAB  
This course explores the natural history, habitat, and management of the black bear. Topics include the distribution, abundance, physiology, reproduction, and behavior of black bears. A field trip into black bear country is required to allow observation of bear sign and appreciation of the natural habitat of this animal.

**NATR 326 Analysis of a Predator-The Mountain Lion** 1.5 Units  
Course Transferable to CSU  
Hours: 27 hours LEC  
This course explores the natural history and political history of the mountain lion. Topics include the distribution and abundance of mountain lions in California and throughout western North America; the important ecological role of these predators; problems associated with mountain lions, and the legal status of mountain lions in California. A field trip into mountain lion country is required to allow observation of lion sign and appreciation of the natural habitat of this predator.
NATR 330  Native trees and shrubs of California  
4 Units  
General Education: AA/AS Area IV (effective Summer 2009)  
Course Transferable to CSU  
Hours: 54 hours LEC; 54 hours LAB  
This dendrology course covers classification and ecology of major natural plant communities of California and their tree and shrub component species. It focuses on characterization of the dominant vegetation types and identification of native woody species using plant keys and sight identification. Topics include natural history and life cycle, physiology, evolution, and human uses of--and threats to--California plant communities and individual species. The course involves the creation of a plant collection including at least 60 representative native woody species. Field trips are required.

NATR 332  Wildflowers of the Sacramento Region  
4 Units  
General Education: AA/AS Area IV  
Course Transferable to UC/CSU  
Hours: 54 hours LEC; 54 hours LAB  
This course focuses on the wildflowers of the Sacramento Region. The identification, distribution, and interrelationships of herbaceous plants in their natural environment, ecological principles, and representative plant communities are examined. Special emphasis will be given to the study of plant families in our local grasslands, vernal pools, oak woodlands and foothills, and the use of taxonomic keys.

AA/AS area A

NATR 340  John Muir “Conservationist”  
2 Units  
Course Transferable to CSU  
Hours: 36 hours LEC  
This course covers the life, writings, and philosophy of John Muir, one of the founders of the American Conservation Movement. It focuses on his significant contributions to the formation of the National Park System. This course is recommended for elementary and secondary educators and those interested in natural resources, conservation, and California history. Field trips are required.

NATR 498  Work Experience in Natural Resources  
1-4 Units  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of ‘C?’ or better; OR ESLR 320 and ESLW 320 with a grade of ‘C?’ or better; OR placement through assessment process.  
General Education: AA/AS Area III(b)  
Enrollment Limitation: Be in a paid or non-paid internship, volunteer opportunity or job related to natural resources. Students are advised to consult with the Natural Resources Department faculty to review specific certificate and degree work experience requirements.  
Course Transferable to CSU  
Hours: 60-300 hours LAB  
This course provides students with opportunities to develop marketable skills in preparation for employment or advancement within the field of natural resources. It is designed for students interested in work experience and/or internships in transfer level degree occupational programs. Course content includes understanding the application of education to the workforce; completion of required forms which document the student’s progress and hours spent at the work site; and developing workplace skills and competencies. Appropriate level learning objectives are established by the student and the employer. During the semester, the student is required to fulfill a weekly orientation and 75 hours of related paid work experience, or 60 hours of unpaid work experience for one unit. An additional 75 or 60 hours of related work experience is required for each additional unit. The weekly orientation is required for first time participants, returning participants are not required to attend the orientation but are required to meet with the instructor as needed to complete all program forms and assignments. Work Experience may be taken for a total of 16 units when there are new or expanded learning objectives.
Registered Nursing Degree

Nursing is a health care profession that requires knowledge of biological, behavioral and physical sciences. The Nursing Program consists of a combination of general education and nursing courses with related laboratory experiences. Successful completion of the program qualifies the student to take the National Council Licensure Examination (NCLEX-RN) to become registered as a nurse and eligible for employment.

A grade of “C” or better is required in each nursing course for progression in the program and for an Associate Degree in Science - Nursing. There are required morning, afternoon, evening, and weekend clinical experiences that may change with limited notice. The student is responsible for providing uniforms, laboratory fees, malpractice insurance, necessary equipment, and transportation to off-campus laboratory locations.

Note: In accordance with Regulation 480 of the State Board of Registered Nursing, a person convicted of any offense other than a minor traffic violation, may not qualify to be licensed as a registered nurse. If there are any questions regarding this matter, please contact the State Board of Registered Nursing, or visit their website at www.rn.ca.gov.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Identify, apply, analyze, and synthesize Orem’s Self-Care Deficit Theory of Nursing to humans throughout the lifespan.
• Synthesize, apply, and validate principles of the biological, physical, psychological and behavioral sciences to assist clients and families in maintaining their ability to perform self-care and dependent care.
• Apply the principles of therapeutic/interpersonal communication throughout the nursing process.
• Utilize nursing/managerial skills in providing direct and indirect client/family care.
• Demonstrate professional, legal and ethical responsibilities while recognizing boundaries of professional nursing practice.
• Utilize nursing/managerial skills in providing direct and indirect client/family care.

Career Opportunities

Employment in the field for registered nurses is excellent locally and nationally. The registered nurse enjoys a well compensated, rewarding, highly flexible career, which should continue in the future. This field is expanding; growth in the job market is projected.

Enrollment Eligibility

To be eligible for enrollment in the program, the student must meet the following criteria:

• Graduation from an accredited high school (graduates from outside the United States must have transcripts evaluated by an approved independent agency), or successful completion of General Education Development (GED) or California High School Proficiency Exam (CHSPE). These requirements are defined by the current Nurse Practice Act, Title 16, California Code of Regulations, Section 1412.
• A cumulative G.P.A. of 3.0 in the following science prerequisites: BIOL 430, BIOL 431, and BIOL 440 or BIOL 442.
• A grade of “C” or better and a cumulative college GPA of 2.5 in the following courses: ENGWR 300, NUTRI 300, and PSYC 300.
• Eligibility for ENGRD 310 or 312.
• Current curriculum planning summary sheet for first-time applicants.
• In-progress grades will not be accepted for prerequisite courses.
• Transfer-In Policy: Students wishing to transfer into any semester of the Nursing program are asked to contact the department office at (916) 484-8254. The office can give you current information on availability of space. Should there be a possibility of transfer, a packet of information will be sent for completion and return.

Enrollment Process

Eligible students are selected for the program according to the following steps:

• Pre-enrollment applications and deadlines are available from the Admissions and Records office, Nursing Department, or the ARC website at www.arc.losrios.edu/education/nursing.html.
• Selection is based on a computerized random selection process from among the qualified applicants.
• Only students who meet the educational and pre-nursing requirements and follow the pre-enrollment procedures will be considered for the program. Meeting all these requirements does not guarantee acceptance into the program.
• Acceptance of pre-nursing courses taken outside the Los Rios Community College District will be determined by the Nursing admissions committee.
• All students accepted into the Nursing program will complete the Test of Essential Academic Skills (TEAS) developed by Assessment Technologies Institute, LLC (ATI). A composite score of 67 is required for program enrollment. Additional information is available on the ARC nursing website.
· The student accepted into the Nursing program is required to have a physical examination, inoculations, drug screen, background check, current CPR card and malpractice insurance prior to the start of the semester.

^1BIOL 430, 440, and 442 have a prerequisite of an introductory college chemistry course with a grade of “C” or better. Please check catalog course descriptions.

^2SPEECH 301 or 331 must be taken either prior to or concurrently with NURSE 400.

^3SOC 300 or ANTH 310 must be taken either prior to or concurrently with NURSE 410.

Associate Degree Requirements: The Registered Nursing Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

LVN to RN Career Mobility Degree

The Career Mobility Program for the Licensed Vocational Nurse (LVN) consists of a combination of general education and nursing courses with related laboratory experiences. The LVN Career Mobility program is offered in conjunction with Sacramento City College (SCC). Successful completion of the program qualifies the student to take the National Licensing Examination to become registered as a nurse and eligible for employment.

A grade of “C” or better is required in each nursing course for progression in the program and for an Associate Degree in Science - Nursing. There are required morning, afternoon, evening, and weekend clinical experiences that may change with limited notice. The student is responsible for providing uniforms, laboratory fees, malpractice insurance, necessary equipment, and transportation to off-campus laboratory locations.

Note: In accordance with Regulation 480 of the State Board of Registered Nursing, a person convicted of any offense other than a minor traffic violation, may not qualify to be licensed as a registered nurse. If there are any questions regarding this matter, please contact the State Board of Registered Nursing, or visit their website at www.rn.ca.gov.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Identify, apply, analyze, and synthesize Orem’s Self-Care Deficit Theory of Nursing to humans throughout the lifespan.
- Synthesize, apply, and validate principles of the biological, physical, psychological and behavioral sciences to assist clients and families in maintaining their ability to perform self-care and dependent care.
- Apply the principles of therapeutic/interpersonal communication throughout the nursing process.
- Utilize nursing/managerial skills in providing direct and indirect client/family care.
- Demonstrate professional, legal and ethical responsibilities while recognizing boundaries of professional nursing practice.

Career Opportunities

Employment in the field for registered nurses is excellent locally and nationally. The registered nurse enjoys a well compensated, rewarding, highly flexible career, which should continue in the future. This field is expanding; growth in the job market is projected.

Enrollment Eligibility

To be eligible for enrollment in the program, the student must meet the following criteria:

- Possession of a current California Vocational Nurse (LVN) license at the time of application.
- Completion of a minimum of six months of recent LVN work experience, preferably in the medical-surgical area.
- A cumulative G.P.A. of 3.0 in the following science prerequisites: BIOL 430, BIOL 431, and BIOL 440 or BIOL 442.
- A grade of “C” or better and a cumulative G.P.A. of 2.5 in the following ARC prerequisite courses: ENGRD 310, NUTRI 300, PSYC 300, SPEECH 301 or SPEECH 331, and SOC 300 or ANTH 310; or in the following SCC prerequisite courses: COMM 301 or 331, ENGRW 300, FCS 324, FCS 340, PSYC 300, and SOC 300 or ANTH 310.
- Eligibility for ENGRD 310 or 312.
- Current curriculum planning summary sheet within the semester in which the pre-enrollment packet is being submitted.

Enrollment Process

Eligible students are selected for the program according to the following steps:

- Pre-enrollment applications and deadlines for the LVN-to-RN Career Mobility Program are available from the Nursing Department at either ARC or SCC.
- Selection is based on a computerized random selection process from among the qualified applicants and is subject to space availability.
- Only students who meet the educational and pre-nursing requirements and follow the pre-enrollment procedures will be considered for the program. Meeting all these requirements does not guarantee acceptance into the program.
- Acceptance of pre-nursing courses taken outside the Los Rios Community College District will be determined by the Nursing admissions committee.
- All students accepted into the Nursing program will complete the Test of Essential Academic Skills (TEAS) devel-
oped by Assessment Technologies Institute, LLC (ATT). A composite score of 67 is required for program enrollment. Additional information is available on the ARC nursing website.

The student accepted into the Nursing program is required to have a physical examination, inoculations, drug screen, background check, current CPR card and malpractice insurance prior to the start of the semester.

### Requirements for Degree  75-76 Units

- **BIOL 430** Anatomy and Physiology ........................................ 5
- **BIOL 431** Anatomy and Physiology ........................................ 5
- **BIOL 440** General Microbiology (4) ........................................ 4 - 5
or **BIOL 442** General Bacteriology (5)
- **ENGWR 300** College Composition ........................................ 3
- **NURSE 305** Transition to Associate Degree Nursing ......................... 4
- **NURSE 400** Fundamentals of Medical-Surgical Nursing I ................. 10.5
- **NURSE 410** Maternal/Child and Medical-Surgical Nursing II .......... 10.5
- **NURSE 420** Psychiatric and Medical-Surgical Nursing III ............. 10.5
- **NURSE 430** Management of Multiple Patients & Medical-Surgical Nursing IV ...................................................... 10.5
- **NUTRI 300** Nutrition ................................................................. 3
- **PSYC 300** General Principles ...................................................... 3
or **SPEECH 331** Group Discussion (3)
- **SPEECH 301** Public Speaking (3) .................................................. 3
or **SPEECH 331** Group Discussion (3)

1 BIOL 430, 440, and 442 have a prerequisite of an introductory college chemistry course with a grade of "C" or better. Please check catalog course descriptions.

2 ANTH 310, SOC 300, SPEECH 301 and SPEECH 331 may be taken after enrollment in the program, but must be completed before taking NURSE 420.

**Certified Nurse Assistant Certificate**

This certificate expands on previously learned Certified Nurse Assistant (CNA) theory to incorporate the holistic care and health needs of the adult patient in the acute care setting. This program introduces the student to the roles and responsibilities of the acute care nurse assistant. Students who successfully complete the course will receive a Certificate of Completion.

### Requirements for Certificate  8 Units

- **NURSE 102** Nurse Assistant ...................................................... 6
- **NURSE 102** Acute Care Certified Nursing Assistant ..................... 2

**Certified Nurse Assistant Certificate**

The Certified Nurse Assistant (CNA) certificate program provides instruction in the holistic care and health needs of people over 65 years of age, who live in long-term care facilities. Students who successfully complete the program will receive a Certificate of Completion. The program will also prepare the student to take the State of California competency examination for certification as a nurse assistant.

Note: Successful completion of NURSE 100 requires attendance at all class and clinical experiences to meet Department of Health Services minimum hour requirements.

### Student Learning Outcomes

**Upon completion of this program, the student will be able to:**

- Differentiate long-term care versus acute care nursing.
- Describe assistive personnel role limitations and expectations in the acute care setting.
- Describe the “Patients’ Bill of Rights.”
- Apply safety measures/precautions following Occupational Safety and Health Administration (OSHA) guidelines.
- Identify key factors related to effective communication, time management, and organizational skills.

### Enrollment Eligibility

To be eligible for enrollment in the program, the student must meet the following criteria:

- Proof of successful completion of a Department of Health Services (DHS) approved Certified Nurse Assistant (CNA) course or copy of current, active status CNA certificate.
- TB test within the last six months or a chest x-ray within one year prior to entrance into NURSE 102.
- Physical exam within one year prior to entrance into NURSE 102.

### Student Learning Outcomes

**Upon completion of this program, the student will be able to:**

- Identify key factors related to effective communication, time management, and organizational skills.

### Enrollment Eligibility

To be eligible for enrollment in the program, the student must meet the following criteria:

- Proof of successful completion of a Department of Health Services (DHS) approved Certified Nurse Assistant (CNA) course or copy of current, active status CNA certificate.
- TB test within the last six months or a chest x-ray within one year prior to entrance.
- Physical exam within one year prior to entrance.
- ESLW 40, ESLR 40, and ESLI 40; or ENGW 51 and ENGRD 15; or placement by ARC Assessment Center.
Enrollment Process
Eligible students are selected for the program according to the following steps:
- Attendance at a mandatory orientation session prior to the first class. Students unable to attend must contact the Nursing department before the orientation session.

Requirements for Certificate 6 Units
NURSE 100 Nurse Assistant ................................................................. 6

Home Health Aide Certificate
This certificate expands on previously learned Certified Nurse Assistant (CNA) theory to incorporate the holistic care and health needs of the elderly homebound person. This program introduces the student to the roles and responsibilities of the home health aide. Students who successfully complete the course will receive a Certificate of Completion. The State of California will certify the CNA as a Home Health Aide after successful course completion and without further testing.

Note: Successful completion of the NURSE 101 requires attendance at all class and clinical experiences to meet DHS minimum hour requirements.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
- Describe and discuss the roles and responsibilities of the Home Health Aide (HHA).
- Discuss and demonstrate documentation requirements of the HHA.
- Describe how culture, religious/spiritual needs, lifestyle, and life-experiences of the client and family can influence care provided by the HHA.
- Describe and discuss the signs and symptoms of common diseases and disorders of the homebound client.
- Provide basic personal care needs and a clean, safe, and healthy environment for the homebound client.

Career Opportunities
The Home Health Aide may expand on the CNA work setting to include the homebound client.

Licensed Vocational Nurse (LVN) 30-unit option Certificate
The 30-unit option provides the Licensed Vocational Nurse (LVN) the opportunity to prepare and sit for the National Council Licensure Examination (NCLEX-RN). This option is available to all LVNs entering the ARC Nursing Program. This option does not satisfy ARC’s Nursing Program requirements or lead to an Associate Degree in nursing.

A grade of “C” or better is required in each nursing course for progression toward the 30-unit option certificate. There are required morning, afternoon, evening, and weekend clinical experiences that may change with limited notice. The student is responsible for providing uniforms, laboratory fees, malpractice insurance, necessary equipment and transportation to off-campus laboratory locations.

Note: In accordance with Regulation 480 of the State Board of Registered Nursing, a person convicted of any offense other than a minor traffic violation, may not qualify to be licensed as a registered nurse. If there are any questions regarding this matter, please contact the State Board of Registered Nursing, or visit their website at www.rn.ca.gov

Student Learning Outcomes
Upon completion of this program, the student will be able to:
- Identify, apply, analyze, and synthesize Orem’s Self-Care Deficit Theory of Nursing to humans throughout the lifespan.
- Synthesize, apply, and validate principles of the biological, physical, psychological and behavioral sciences to assist clients and families in maintaining their ability to perform self-care and dependent care.
- Apply the principles of therapeutic/interpersonal communication throughout the nursing process.
- Utilize nursing/managerial skills in providing direct and indirect client/family care.
- Demonstrate professional, legal and ethical responsibilities while recognizing boundaries of professional nursing practice.

Career Opportunities
The State of California provides the LVN with an option to sit for the National Council Licensure Examination (NCLEX-RN) after completing 30 college semester units. The LVN seeking this path to RN licensure may not receive reciprocal RN licensure in other states. LVNs considering moving out-of-state are encouraged to consult with that state’s board of nursing for RN licensure requirements before committing to the 30-unit option.

Enrollment Eligibility
To be eligible for enrollment in the program, the student must meet the following criteria:
- Possession of a current California Vocational Nurse (LVN) license at the time of application.
- Completion of a minimum of six months recent LVN work experience, preferable in the medical-surgical area.
- Completion of BIOI 431 or equivalent 4-5 semester unit physiology course, and BIOI 440 or equivalent 4 semester unit microbiology course, with a grade of “B” or better prior to enrollment in the nursing courses.
- Current curriculum planning summary sheet with the semester in which the pre-enrollment packet is being submitted.
### Enrollment Process

Eligible students are selected for the program according to the following steps:

- Contact the Nursing department at 916-484-8254 for an appointment with the Academic Program Director.
- Provide official transcripts and course descriptions of physiology, microbiology, and previous LVN program prior to the appointment.
- Objective counseling of this option and individual evaluation of the applicant's academic deficiencies irrespective of time such courses were completed will occur at the appointment.
- Entry is subject to space available.
- Transcripts of physiology, microbiology, and nursing course work completed will be provided to the Board of Registered Nursing upon completion of the 30-unit option.

### Nursing

#### NURSE 100  Nurse Assistant  6 Units

Prerequisite: ESLW 040, ESLR 040, and ESLL 040; OR ENGW 051 and ENGRD 015; OR evaluation through assessment at ARC assessment center.

Enrollment Limitation: Prior to the first class the following requirements must be submitted to the ARC student health office: (1.) Proof of physical exam within one year prior to class. (2.) Proof of negative tuberculin (TB) skin test within six months prior to class. (3.) If TB skin test result is positive, proof of inactive TB chest x-ray within one year prior to class. (4.) No felony convictions from Department of Health Services (DHS) Aide and Technician Certification Section (ATCS) list of penal codes. ATCS 98-4 (4/02) (5.) Demonstrate the ability to read and write the English language at a minimum 6th grade level. (6.) Demonstrate the ability to listen, comprehend, and respond appropriately to the spoken English language at a minimum 6th grade level.

**Hours:** 63 hours LEC, 135 hours LAB

This course leads to the nurse assistant certification exam. Emphasis is on the gerontological nursing assistant's role and responsibilities as a health care team member. Other key components in this course are principles of asepsis, infection control, resident care skills, and emotional, social, and spiritual needs of the resident.

#### NURSE 101  Home Health Aide  2 Units

Prerequisite: NURSE 100 with a grade of “C” or better or current California Nurse Assistant Certification.

**Hours:** 27 hours LEC; 27 hours LAB

This course focuses on home health aide responsibilities; personal and rehabilitation nursing care in the home, skills of maintaining a safe home environment, meal planning and preparation, emotional care of the homebound, and home emergency procedures.

#### NURSE 102  Acute Care Certified Nursing Assistant  2 Units

Prerequisite: NURSE 100 with a grade of “C” or better or current Nurse Assistant Certificate.

**Hours:** 27 hours LEC; 27 hours LAB

This course is designed as a supplemental educational program for Certified Nursing Assistants (CNAs) to meet current industry demands for employment as an Acute Care Nursing Assistant (ACNA). The course will present the expanded scope of practice of the CNA with emphasis on safe and competent nursing and personal care skills and service in accordance with the needs description provided by the acute care facilities.

#### NURSE 110  Physical Assessment for Health Care Providers  2 Units

Prerequisite: NURSE 400 or higher (or equivalent); RN or LVN licensure; or CNA certification.

**Hours:** 36 hours LEC

This course is designed for health care professionals and Allied Health students desiring to expand their physical assessment skills. Advanced physical assessment of all major body systems will be included across the life span. Additional topics include nutritional, psychosocial, cognitive, and activity assessment. This course fulfills BRN continuing education requirements.

#### NURSE 111  Basic Electrocardiography (ECG) Interpretation  1 Unit

Advisory: NURSE 420 with a grade of “C” or better, or RN or LVN licensure.

**Hours:** 18 hours LEC

This course covers basic electrocardiography (ECG) interpretation. Topics include atrial junctional and ventricular rhythm recognition. This course also fulfills Board of Registered Nursing (BRN) and Emergency Medical Services (EMS) requirements for continuing education.

#### NURSE 112  Bedside Cardiac Assessment  1 Unit

Advisory: Completion of NURSE 420 or Licensed Vocational Nurse or Registered Nurse licensure.

**Hours:** 18 hours LEC

This course is designed for health care professionals and students who wish to improve their cardiac assessment skills. Topics include heart sounds, chest pain assessment, risk factor identification, physiological assessment, and anatomy and physiology overview. This course satisfies the State Board of Registered Nursing continuing education requirements.

#### NURSE 113  Laboratory Value Interpretation and Diagnostic Studies  1 Unit

Advisory: Completion of NURSE 400 or LVN or RN Licensure or Nurse Assistant Certificate.

**Hours:** 18 hours LEC

This course is designed for health care professionals and students who wish to improve their knowledge of laboratory values and diagnostic testing. This course also fulfills Board of Registered Nursing (BRN) and Emergency Medical Services (EMS) requirements for continuing education.

#### NURSE 114  Strategies for Clinical Success  1 Unit

Enrollment Limitation: Acceptance into ARC nursing program.

**Hours:** 18 hours LEC

This course is designed for health care professionals who wish to update and improve their knowledge and skills of maintaining a safe home environment, meal planning and preparation, emotional care of the homebound, and home emergency procedures.
NURSE 305 Transition to Associate Degree Nursing 4 Units
Enrollment Limitation: Acceptance into the Associate Degree Nursing Program.
Course Transferable to CSU
Hours: 54 hours LEC; 54 hours LAB
This bridge course is designed for the California Licensed Vocational Nurse (LVN) who is admitted for advanced placement into the second year of the Associate Degree Nursing Program. Critical thinking skills necessary for successful role transition are emphasized throughout the course. Topics include care of adult and geriatric clients with specific medical-surgical nursing disorders, assessment skills, pharmacology, nursing process, theory-based nursing practice, legal/ethical issues, cultural and ethnic diversity, and the educator role of the Registered Nurse (RN). Concurrent acute care hospital laboratory experience emphasizes critical thinking, problem solving, and decision making, implementing nursing theory into practice.

NURSE 310 Pharmacology and Implications for Health Care Practitioners 3 Units
Course Transferable to CSU
Hours: 54 hours LEC
This course presents the principles of drug therapy as they apply to treating disease and maintaining health. It covers the metabolism and action of drugs with an emphasis on absorption, duration of action, distribution in the body, and adverse drug reactions. Major drug classes are included, as well as their related implications for people receiving these drugs. How these drugs affect the body systems, prevent and treat pain, treat infections, and malignant neoplasms is discussed. Drugs that alter psychogenic behavior and sleep patterns are also included.

NURSE 320 Medical Dosage Calculations 1.5 Units
Advisory: MATH 25 or higher
Course Transferable to CSU
Hours: 27 hours LEC
This course prepares health professionals to calculate oral and parenteral drug dosages with a focus on safety and accuracy. Three systems of measurement and conversion are practiced. This course also provides experience in understanding drug orders and drug labels. Calculation accuracy is emphasized by clinical scenarios and case study assignments.

NURSE 341 Introduction to the Childbirth Support Profession: A DONA-Approved Birth Doula Workshop 1.5 Units
Course Transferable to CSU
Hours: 27 hours LEC
This course prepares individuals to become professional labor support providers (birth doulas) and meets the didactic requirements for certification as a birth doula through DONA (Doulas of North America) International. Course content is also beneficial for current healthcare providers and those preparing for professions in the perinatal field. The course provides a foundation in reproductive anatomy and physiology, fetal development, perinatal care practices, and clinical terminology. It covers professional standards and ethics, business practices, values clarification, and communication skills. It teaches techniques for providing comfort, examines methods for facilitating the labor process and supporting the mother-baby dyad, and focuses on the emotional and psychological aspects of the birth experience with its significance for women's future self-concept and self-efficacy.

NURSE 390 Fundamentals of Lactation Consultant Assisting 1.5 Units
Course Transferable to CSU
Hours: 18 hours LEC; 27 hours LAB
This course is designed for community workers responsible for promoting and protecting breastfeeding and charged with providing basic assessment, support, and appropriate referral for breastfeeding mothers in the community. It is also an introductory course in human lactation for students entering or preparing for professions in nursing, nutrition, health education, or early childhood development as well as for practicing professionals in these fields. The course provides an overview of factors impacting breastfeeding rates, explores health effects and current recommendations, discusses the anatomy and physiology of lactation, and considers the role of the lactation consultant assistant in facilitating breastfeeding. It covers counseling skills, cultural awareness, and community resources for promoting, protecting, and supporting breastfeeding.

NURSE 391 Supporting the Mother-Baby Connection: Evidence-Based Practices for Perinatal Care 1 Unit
Course Transferable to CSU
Hours: 18 hours LEC
This course is designed for practicing health care professionals as well as students preparing to enter the fields of nursing, nutrition, health education, or early childhood development. The course focuses on the physiology of attachment, bonding, and breastfeeding and the short- and long-term impacts of perinatal care practices on the mother-baby dyad. It challenges the student to apply best-practice guidelines and model hospital policies to alleviate barriers for mothers choosing exclusive breastfeeding and to create environments that support maternal-infant biology and the newborn's natural capabilities, allowing improved outcomes with less time and effort. This course meets Board of Registered Nursing continuing education requirements and, when combined with requisite supervised clinical experience, fulfills all criteria for staff education as set by the Baby Friendly Hospital Initiative.

NURSE 400 Fundamentals of Medical-Surgical Nursing I 10.5 Units
Corequisite: SPEECH 301 or 331.
Enrollment Limitation: Acceptance into the Associate Degree Nursing program.
Course Transferable to CSU
Hours: 81 hours LEC; 324 hours LAB
This course applies the concepts of Orem's model of self-care that are applied to care of the newborn, child, middle and senior adult. Pathophysiological and pathopsychological factors creating health deviations are emphasized. Supervision is provided in the utilization of the nursing process. Legal issues relevant to health care and their implications are studied. Concurrent laboratory experience takes place in subacute and acute care settings.

NURSE 410 Maternal/Child and Medical-Surgical Nursing II 10.5 Units
Prerequisite: NURSE 400 with a grade of “C” or better.
Corequisite: ANTH 310 or SOC 300.
Enrollment Limitation: SPEECH 301 or 331.
Course Transferable to CSU
Hours: 81 hours LEC; 324 hours LAB
This course applies the concepts of Orem's model of self-care that are applied to care of the newborn, child, middle and senior adult. Pathophysiological and pathopsychological factors creating health deviations are emphasized. Supervision is provided in the utilization of the nursing process. Legal issues relevant to health care and their implications are studied. Concurrent laboratory experience takes place in medical-surgical and maternal/child health settings. Field trips are required.
NURSE 420  Psychiatric and Medical-Surgical Nursing III 10.5 Units
Prerequisite: NURSE 410 with a grade of “C” or better.
Course Transferable to CSU
Hours: 81 hours LEC, 324 hours LAB
In this course, concepts of Orem’s nursing model of self-care theory are applied to the psychiatric and medical-surgical patient. Pathophysiological and pathopsychological factors creating health deviations are emphasized. Independence is encouraged and supported in the utilization of the nursing process. Introductory concepts of nursing leadership and management are explored. Community resources and experiences relevant to the course of study are included. Concurrent laboratory experiences take place in the psychiatric and medical-surgical settings. Field trips are required.

NURSE 430  Management of Multiple Patients and Medical - Surgical Nursing IV 10.5 Units
Prerequisite: NURSE 420 with a grade of “C” or better
Course Transferable to CSU
Hours: 81 hours LEC, 324 hours LAB
This course covers concepts of Orem’s nursing model of self-care theory as applied to the care of the middle and senior adults. It focuses on the nursing management of a group of acutely ill patients and participation on the health care team. Pathophysiological and pathopsychological factors creating health deviations are emphasized. Priorities are given to the utilization of the nursing process in making and evaluating decisions. During the first twelve weeks, laboratory experience takes place in the medical-surgical and the community health setting under the direct supervision of the faculty. The final four weeks involve completing a pre-licensure preceptorship with a registered nurse in a clinical setting of the student’s choice. The transition from student to graduate nurse is explored through study of the Nurse Practice Act and discussion of the problems, responsibilities, and challenges confronting the registered nurse. Concurrent laboratory experiences take place in acute care and home health setting. Field trips may be required.

NURSE 1000  NCLEX-RN Review 1-3 Units
Prerequisite: NURSE 420 with a grade of “C” or better
Corequisite: NURSE 430
Enrollment Limitation: For students with English as a Second Language, the participant must take the Test for English Proficiency Level (TEPL) and score a minimum of 5 on the test, or have completed the equivalent to English Writing 300.
Hours: 9-27 hours LEC, 27-81 hours LAB
This course prepares the student to take the NCLEX-RN (National Council Licensure Examination-Registered Nurse). Coursework includes computer test-taking skills, barriers to success, identification of knowledge deficits via a standardized assessment test, and overview of NCLEX-RN content areas. In the classroom, students may earn .5 unit of credit for every 9 hours. In the lab, students implement an individualized study plan and may earn .5 unit of credit for every 27 hours of work. This course is designed to be taken during the last semester of an RN program or after completion of a nursing program. The course is designed for first-time and repeat test takers. Credit/No Credit only.

AH 110  Medical Language for Health-Care Providers 3 Units
Hours: 54 hours LEC
This course is an orientation to medical language. It covers the basic structure of medical terms and their components: prefixes, suffixes, roots, and combining forms with emphasis on meaning, spelling, and pronunciation. This course also builds a medical vocabulary applicable to the specialties of medicine, the systems of the body, names of major diseases, and terms used in physical examination, diagnosis, and treatment.

AH 112  Strategies for Student Success in Health Occupations 3 Units
Advisory: ENGWR 102, ENGWR 103, or ESLW 320; or placement through the assessment process.
Hours: 54 hours LEC
This course provides realistic and useful strategies to enhance success in reaching career goals associated with health occupations. It covers the necessary skills to determine a career path based on a realistic understanding of specific health occupations and associated aptitudes. Field trips may be required.

AH 320  Introduction to Healthcare Interpreting .5 Units
Course Transferable to CSU
Hours: 9 hours LEC
This course is designed for bilingual/bicultural individuals interested in exploring the career choice of healthcare interpreter by developing an awareness of the roles and responsibilities of the interpreter in healthcare settings. It addresses required skills related to both language interpretation and cultural brokering and allows consideration of personal interests and aptitudes.

AH 321  Healthcare Interpreting I 3 Units
Prerequisite: AH 320
Corequisite: AH 110 and BIOL 102, or BIOL 115 & 116 or BIOL 430 & 431
Advisory: SPEECH 301
Course Transferable to CSU
Hours: 48 hours LEC, 18 hours LAB
This course is designed for bilingual individuals interested in developing the awareness, knowledge, and skills necessary for effective language interpretation in healthcare settings. It emphasizes the roles and responsibilities of a healthcare interpreter and basic knowledge of common medical conditions, treatments, and procedures in the areas of diagnostics, cardiovascular, renal, ophthalmic, and gastrointestinal specialties. It focuses on insight into language and cultural nuances for specific communities necessary in the art of interpretation.

AH 322  Healthcare Interpreting II 3 Units
Prerequisite: AH 321 with a grade of “C” or better
Advisory: SPEECH 301
Course Transferable to CSU
Hours: 48 hours LEC, 18 hours LAB
This course is designed for bilingual individuals. It further develops the awareness, knowledge, and skills necessary for effective language interpretation in healthcare settings covered in AH 321. It emphasizes the roles and responsibilities of a healthcare interpreter and basic knowledge of common medical conditions, treatments, and procedures in musculoskeletal, respiratory, immunologic, and obstetric specialties. It focuses on insight into language and cultural nuances for specific communities necessary in the art of interpretation.
AH 323  Healthcare Interpreting III  3 Units
Prerequisite: AH 322 with a grade of "C" or better
Advisory: SPEECH 301
Course Transferable to CSU
Hours: 48 hours LEC, 18 hours LAB
This course is designed for bilingual individuals preparing to become an integral member of the health care team, bridging the language and cultural gap between clients and providers. It further develops interpreting skills covered in AH 322. Topics include specialized health care service areas, such as genetics, pediatrics, and endocrinology. It also emphasizes the development of cultural competency in the community and workplace.

AH 324  Healthcare Interpreting IV  3 Units
Prerequisite: AH 323 with a grade of "C" or better
Advisory: SPEECH 301
Course Transferable to CSU
Hours: 48 hours LEC, 18 hours LAB
This course is designed for bilingual individuals completing their preparation to become an integral member of the healthcare team, bridging the language and cultural gap between clients and providers. It further enhances interpreting skills covered in AH 323. Topics include specialized health care service areas such as men's and women's health, mental health, neonatal intensive care, and death and dying. The course also focuses on careers in interpreting and career preparation.

AH 325  Healthcare Interpreting Fieldwork  3 Units
Prerequisite: AH 323 with a grade of "C" or better
Corequisite: AH 324
Advisory: SPEECH 301
Course Transferable to CSU
Hours: 18 hours LEC, 108 hours LAB
This course is designed for interpreters-in-training to facilitate linguistic and cultural communication between healthcare clients and providers. It provides fieldwork experience applying technical interpreting skills covered in AH 321, 322, 323, and 324.
Dietary Manager/Dietary Service Supervisor Certificate

The Dietary Manager/Dietary Service Supervisor Certificate provides certification for employment in nutritional care and dietary management within a health-care facility, such as a skilled nursing facility. This certificate program meets the California State Department of Health Service’s requirements for certification.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- identify the location of applicable laws and regulations and determine compliance to regulatory requirements (state and federal), and determine acceptable standards of care in dietary services.
- identify the role and limitations (no scope of practice) of the Dietary Service Supervisor under law (Title 22) for the Operation of Food Service.
- participate with the Registered Dietitian (RD) in the timely review and revision of the facility’s policies and procedures to ensure that they are in compliance with regulations and standards of practice.
- assist in the orientation of new employees. Assist in the ongoing, planned development of seasoned employees to ensure that they are competent to carry out the functions of the dietary service and trained in approved policies.
- assist in the development of Quality Assurance Programs to monitor staff practices for compliance, to determine training needs, and to evaluate resident/patient satisfaction.
- assist in the development of planned and disaster menus to meet the nutritional needs of resident/patient in accordance with the Recommended Dietary Allowances (RDAs).
- ensure that therapeutic menus and standardized recipes are followed, served and consumed in their appropriate form, as approved by RD.
- ensure that food is served by methods that conserve nutritive value, flavor and appearance. Ensure that food is prepared in a form designed to meet individual needs and substitutions are of similar nutritive value.
- maintain current profile cards, and provide assistive devices as needed.
- ensure that food is stored, prepared, distributed, and served under sanitary conditions to prevent food borne illness. This includes the sanitation oversight of equipment such as internal components of the ice machine, nurse pantry refrigerators and trash disposal systems.
- ensure that the food department runs smoothly, including food ordering and storage, according to applicable state requirements, staffing schedules, employee health, labor relations, safety programs and other duties as assigned by administration.

Career Opportunities

Dietary Manager in a Long Term Care Facility.

NUTRI 107 Nutrition Basics for the Childcare Provider - Basic Nutritional Needs of Children 0-5

1 Unit

Same As: ECE 107
Advisory: ENGWR 102, ENGWR 103, or ESLW 320; or placement through the assessment process.
Hours: 18 hours LEC
This course examines scientific information on the basic nutritional needs of children 0-5 years of age. Topics include macronutrient and micronutrient functions, dietary requirements, and growth and activity patterns in infants, toddlers, and preschool age children. It is designed to satisfy continuing education requirements for childcare providers advancing toward a Master Teacher Certificate. This course is not open to students who have taken ECE 107.

NUTRI 108 Nutrition Basics for the Childcare Provider - Diet, Health, & Physical Activity 0-5 years

1 Unit

Same As: ECE 108
Prerequisite: ECE 107 or NUTRI 107 with a grade of “C” or better
Hours: 18 hours LEC
This course provides scientific information on the relationship between diet, physical activity, and health of children 0-5 years of age. Topics include health implications of dietary deficiencies and excesses, childhood obesity, and physical activity. It is designed to satisfy continuing education requirements for childcare providers advancing toward the Master Teacher Certificate. This course is not open to students who have taken ECE 108.

NUTRI 109 Nutrition Basics for the Childcare Provider - Healthy Foods and Meal Planning

1 Unit

Same As: ECE 109
Prerequisite: ECE 108 or NUTRI 108 with a grade of “C” or better
Hours: 18 hours LEC
This course provides practical information for planning healthy meals and diets for children 0-5 years of age. It’s focus is on: creative ways to incorporate fruits and vegetables; how to address neophobia; teaching opportunities at meal and snack time; the importance of a balanced diet; meal and snack planning. It is designed to satisfy continuing education requirements for childcare providers advancing toward the Master Teacher Certificate. This course is not open to students who have taken ECE 109.
NUTRI 110  Nutritional Care Management  3 Units
Corequisite: NUTRI 112.
Advisory: ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
Hours: 54 hours LEC
This course is a study of medical nutrition therapies as used in health care facilities. The emphasis is on the modification of diets for various dietary needs. The topics discussed include normal nutrition, medical nutrition therapy, food/drug interactions, nutritional care management of the long term care resident, and cultural foods.

NUTRI 112  Clinical Experience-Nutrition Care Management  2.5 Units
Corequisite: NUTRI 110.
Advisory: ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
Enrollment Limitation: Current TB clearance and other immunizations required by clinical facility.
Hours: 18 hours LEC; 90 hours LAB
This course provides a clinical experience, under the supervision of a clinical professional, in the dietary departments of participating acute care hospitals and long term care facilities. Topics include normal and life cycle nutrition, disorders of the gastrointestinal tract, diabetes, wasting disorders, nutrition and mental health.

NUTRI 120  Management of the Dietary Department in Health Care Facilities  3 Units
Corequisite: NUTRI 112.
Advisory: ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
Enrollment Limitation: Current ServSafe Certification.
Hours: 18 hours LEC; 90 hours LAB
This course is a study of medical nutrition therapies as used in health care facilities. Topics include types and components of food production systems, work flow, menu implementation, emergency planning, maintenance of equipment, food production procedures, sanitation and safety, and dietary staff schedules and management.

NUTRI 122  Clinical Experience in Health Care Facilities  2.5 Units
Corequisite: NUTRI 120.
Hours: 18 hours LEC; 90 hours LAB
This course is designed to be taken concurrently with NUTRI 120. This course includes 90 hours of clinical experience in the dietary departments of participating acute hospitals and long term care facilities. The clinical experience is performed under professional supervision.

NUTRI 130  Introduction to Dietary Management  2 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
Hours: 36 hours LEC
This course provides an introduction to the profession of dietetics, with emphasis on a career as a dietary services supervisor (DSS). It examines current public policy and legislation related to the profession. It also includes the fundamentals of basic nutrition, individuals’ nutritional needs throughout the life cycle, health promotion, and disease prevention.

NUTRI 132  Management of the Dietary Department in Health Care Facilities  3 Units
Prerequisite: NUTRI 130 with a grade of "C" or better
Corequisite: NUTRI 133
Advisory: ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
Enrollment Limitation: Current ServSafe Certification
Hours: 54 hours LEC
This course reviews the standards of management and food preparation as they apply to the quantity of food production in health care facilities. Topics include types and components of food production systems, workflow, menu implementation, emergency planning, maintenance of equipment, food production procedures, dietary staff schedules, and management. This course is designed to be taken concurrently with NUTRI 133.

NUTRI 133  Clinical Experience in Health Care Facilities  2.5 Units
Prerequisite: NUTRI 130 with a grade of "C" or better
Corequisite: NUTRI 132
Advisory: ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
Enrollment Limitation: Current TB clearance and other immunizations required by clinical facility.
Hours: 18 hours LEC; 90 hours LAB
This course offers clinical experience in health care facilities. It includes 90 hours of clinical experience in the dietary departments of participating acute hospitals and long term care facilities. The clinical experience is performed under professional supervision. This course is designed to be taken concurrently with NUTRI 132.

NUTRI 134  Nutritional Care Management  3 Units
Prerequisite: NUTRI 130 with a grade of "C" or better
Corequisite: NUTRI 135
Advisory: ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
Hours: 54 hours LEC
This course is a study of nutrition therapeutic diets used in health care facilities. It emphasizes the modification of diets for various dietary needs of the long term care resident. This course is designed to be taken concurrently with NUTRI 135.

NUTRI 135  Clinical Experience in Nutritional Care Management  2.5 Units
Prerequisite: NUTRI 130 with a grade of "C" or better
Corequisite: NUTRI 134
Advisory: ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
Enrollment Limitation: Current TB clearance and other immunizations required by clinical facility.
Hours: 18 hours LEC; 90 hours LAB
This course provides clinical experience, under the supervision of a clinical professional, in the dietary departments of participating acute care hospitals and long term care facilities. Topics include disorders of the gastrointestinal tract, diabetes, wasting disorders, nutrition, and mental health. This course is designed to be taken concurrently with NUTRI 134.
NUTRI 294  Topics in Nutrition and Foods .5-4 Units
Hours: 9-72 hours LEC
This course provides opportunities to study current, controversial topics in nutrition which are either not included in current offerings or require emphasis beyond that offered in existing courses. The course may be taken four times for a maximum of 6 units providing there is no duplication of topics.

NUTRI 300  Nutrition  3 Units
Advisory: ESLL 320; or placement through the assessment process; ENGRW 102 or 103, and ENGRD 116, or ESLR 320, ESLL 320, and ESLW 320, or placement through assessment process
General Education: AA/AS Area III(b); AA/AS Area IV; CSU Area E1; TCSU NUTR 110
Course Transferable to UC/CSU
Hours: 54 hours LEC
This is an in-depth study of the essential nutrients and their functions, and the chemical compositions of foods and their utilization in the body. This course includes discussion of the nutritional values of foods, current topics in nutrition, and individuals’ nutrition needs throughout the life cycle. This course is not open to students who have completed NUTRI 302.

NUTRI 302  Nutrition for Physical Performance  3 Units
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area III(b); AA/AS Area IV
Course Transferable to CSU
Hours: 54 hours LEC
This course presents a comprehensive study of nutrition and fitness as they interrelate and apply to fitness and sport skill training and to athletic performance. The course includes an in-depth study of essential nutrients and functions, chemical compositions of foods and their use in the body as they relate to physical performance. Specifically, nutrition is related to muscle strength development, cardiovascular fitness, and body composition. Emphasis on current nutrition practices related to athletic performance. Designed for individuals interested in the study of how nutrition enhances athletic performance. Not open to students who have completed NUTRI 300.

NUTRI 305  Nutrition for Health  2 Units
Advisory: ENGRW 102 or ENGRW 103 and ENGRD 116, or ESL 320, ESLR 320, and ESLW 320; or placement through the assessment process.
General Education: AA/AS Area III(b)
Course Transferable to CSU
Hours: 36 hours LEC
This course presents a study of nutrition and fitness designed to increase an awareness of food, nutrition, and physical activity and their interrelationships. Topics include diet selection and food preparation. This course is designed for those interested in general wellness.

NUTRI 307  Nutrition for Fitness  2 Units
Same As: PET 402
Course Transferable to CSU
Hours: 36 hours LEC
This course is part of the Fitness Specialist Certificate Program. Basic principles of nutrition are studied and the ramifications of nutrition on fitness training. Not open to students who have completed PET 402.

NUTRI 310  Cultural Foods of the World  3 Units
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course compares various western and non-western culture food customs and patterns including their social, religious, economic, and aesthetic significance. Ethnocentrism, gender-related stereotypes, and racism as they relate to the availability, distribution, and preparation of food throughout the world will be compared. The nutritional status of various cultures as it relates to geographic agricultural and socioeconomic factors will be studied.

NUTRI 320  Children’s Health, Safety and Nutrition  3 Units
Same As: ECE 415
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course examines basic nutrition, health, and safety needs of children from the prenatal period through school age. Topics include identification of nutrients in foods as they affect a child’s physical and mental development and standards for the maintenance of optimal health, safety, and nutrition status of children at home and in group care. Projects relating to children’s nutrition, health, and safety are required as part of the course. This course is not open to students who have taken ECE 415.

NUTRI 324  Nutrition for Healthy Aging  3 Units
Same As: GERON 340
Advisory: ENGRW 102 or 103, and ENGRD 116, or ESLR 320, ESL 320, and ESLW 320, or placement through the assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course is an introduction to nutritional concerns as they apply to the elderly, their implications in the aging process, and the environmental, economic and culture factors affecting nutritional status. This course is not open to students who have completed GERON 340.
Paramedic Degree and Certificate

Paramedicine is an allied health specialty whose practitioners respond to emergencies before a patient reaches a hospital, rendering basic and advanced medical treatment before and during transport to a medical facility. Classroom, clinical and field internship training prepares paramedics to assess and treat a wide variety of medical and traumatic emergencies. The knowledge, skills and experience gained through the paramedic program allows students to meet the responsibilities outlined in the Department of Transportation’s National Standard Paramedic Training Curriculum.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Synthesize pre-arrival information and initial assessment findings to classify patient acuity.
• Utilize support personnel and equipment to maximize scene and patient management.
• Diagnose patient conditions using auditory, tactile and visual senses.
• Correlate signs and symptoms of common diseases to emergency patients and their primary complaint.
• Formulate competent treatment plans for medical or trauma patients.
• Report assessment findings, diagnosis, and treatment plans to appropriate health professionals.
• Develop and implement strategies to strengthen personal empathy and sympathy for prehospital patients.
• Apply ethical practices during all phases of an emergency medical response.
• Demonstrate advanced life support skills competency as set by the National Registry of Emergency Medical Technicians.
• Assess scene and personal safety before, during and after each emergency response.
• Compose accurate, timely and specific patient care reports in accordance with local, regional and state documentation standards.

Career Opportunities

The ARC Paramedic program is designed to prepare the student for licensure as a paramedic, working for a fire department, rescue squad, private provider, industry, clinic or hospital.

Enrollment Eligibility

To be eligible for enrollment in the program, the student must meet the following criteria:

• Graduation from an accredited high school in the United States, or successful completion of General Education Development (GED) or the California High School Proficiency Exam (CHSPE).
• Students with a high school diploma from a school outside the United States must have transcripts evaluated by an approved independent agency. Such cases will be evaluated on an individual basis.
• A cumulative college GPA of 2.0 and a grade of “C” or better in BIOL 102, or BIOL 430 and BIOL 431, or other college human anatomy and physiology course with a lab which includes all human systems; a grade of “C” or better in NURSE 320 or PMED 105.
• Current curriculum planning summary sheet within the semester in which the pre-enrollment packet is being submitted.
• Current certification as an Emergency Medical Technician-Basic and one year verified EMS experience.
• If less than one year EMS experience, the student must successfully complete PMED 106.

Enrollment Process

Eligible students are selected for the program according to the following steps:

• Pre-enrollment applications to the program may be obtained from the Health and Education Division office or at www.arc.losrios.edu/edhealth/paramed.html. Applications for Spring admission will be available by September and must be submitted to the division office no later than the first Friday in December by 4:00 p.m. Please refer to the Paramedic Information Sheet for the most current information.
• Only students who meet the educational requirements and follow the pre-enrollment procedures will be considered for the program. Meeting all of these requirements does not guarantee enrollment in the program.
• Class size is limited. If the pre-enrollment pool is greater than the program can accept, students are selected based on a computerized random selection process from among the qualified candidates.
• Students accepted into the Paramedic program are required to have a physical examination, inoculations, drug screen, background check, and malpractice insurance prior to entering the second semester.

PMED 100 Emergency Medical Technician - Basic 5 Units

Same As: FT 200
Prerequisite: HEED 323 with a grade of “C” or better
Enrollment Limitation: Not open to students with a current EMT - Basic certificate.
Hours: 72 hours LEC; 72 hours LAB
This course is designed to provide instruction to the level of Emergency Medical Technician - Basic. Topics include skills necessary to provide emergency medical care at a basic life support level with a fire, ambulance, or other specialized service. This course is conducted in compliance with Title 22, Division 9, Chapter 2 of the California Code of Regulations. The completion of PMED 103 and PMED 104 is equivalent to PMED 100. PMED 104 must be taken immediately after the successful completion of PMED 103 in consecutive semesters. This course is not open to students who are currently certified as an EMT-Basic.

PMED 101 Pre-paramedic Emergency Medical Technician - Basic Skills .5 Units
Prerequisite: Current certification of Emergency Medical Technician - Basic (EMT-B).
Hours: 8 hours LEC; 16 hours LAB
This course is designed for the Emergency Medical Technician - Basic (EMT-B) to review a variety of emergency field skills in preparation to begin a field internship. It also includes a selected number of EMT-B skills used as part of the skills competency requirement by the National Registry of Emergency Medical Technicians. This course may be taken four times for credit.

PMED 102 Emergency Medical Technician - Basic, Pre-hospital Field Internship 5 Units
Prerequisite: PMED 101.
Advisory: ENGW 102 or ENGW 103 and ENGRD 116, or ESLW 320, and MATH 32.
Hours: 18 hours LEC; 216 hours LAB
This course is an internship that provides opportunities to refine hands-on basic life support skills in the pre-hospital setting. This internship is in preparation for application to the American River College, Paramedic Education Program.

PMED 103 EMT-Basic Introduction to Basic Life Support 3.5 Units
Prerequisite: HEED 323 with a grade of “C” or better
Enrollment Limitation: Background check, proof of current immunizations, and campus Health Center clearance.
Hours: 54 hours LEC; 27 hours LAB
This course provides preparation for Emergency Medical Technician - Basic (EMT-Basic) certification. It provides the skills necessary for emergency medical care at a basic life support level with an ambulance service, fire department or other specialized service. This course complies with Title 22, Division 9, Chapter 2 of the California Code of Regulations. The completion of PMED 103 and PMED 104 is equivalent to PMED 100. This course is not open to PMED 100 students. PMED 104 must be taken immediately after the successful completion of PMED 103 in consecutive semesters. This course is not open to students who are currently certified as an EMT-Basic.

PMED 104 EMT-Basic Application of Basic Life Support 1.5 Units
Prerequisite: PMED 103 with a grade of “C” or better
Enrollment Limitation: A background check, proof of current immunizations and campus Health Center clearance are required. Current CPR certification at one of the following levels: Healthcare Provider, Professional Rescuer or equivalent.
Hours: 27 hours LEC; 45 hours LAB
This course provides preparation for Emergency Medical Technician - Basic (EMT-Basic) certification. It provides the skills necessary for emergency medical care at a basic life support level with an ambulance service, fire department or other specialized service. This course complies with Title 22, Division 9, Chapter 2 of the California Code of Regulations. The completion of PMED 103 and PMED 104 is equivalent to PMED 100. PMED 104 must be taken immediately after the successful completion of PMED 103 in consecutive semesters. This course is not open to students who are currently certified as an EMT-Basic.

PMED 105 Prehospital Calculations .5 Units
Prerequisite: Current certification as an EMT-basic in the state of California, as required by Title 22.
Advisory: MATH 32.
Hours: 9 hours LEC
This course provides basic instruction in calculating medication dosages in the pre-hospital setting.

PMED 106 Emergency Medical Technician Pre-hospital Practices and Internship 6.5 Units
Prerequisite: Current California Emergency Medical Technician (EMT-I) certification.
Corequisite: BIOL 102
Advisory: ENGRD 116, ENGW 103, and MATH 32; or placement through the assessment process.
Enrollment Limitation: A background check, proof of current immunizations and campus Health Center clearance are required. Current CPR certification at one of the following levels: Healthcare Provider, Professional Rescuer or equivalent.
Hours: 36 hours LEC; 243 hours LAB
This course reviews and expands the Basic Life Support (BLS) knowledge and skills of the Emergency Medical Technician (EMT). It provides opportunities to practice the appropriate life support skills during a structured clinical and field internship. It serves as preparation for Advanced EMT coursework and application to the American River College Paramedic Education Program.

PMED 108 Emergency Medical Response 3 Units
Hours: 45 hours LEC; 13.5 hours LAB
This course is an introduction to the principles and practices of the Emergency Medical Services (EMS). It provides the knowledge and skills needed to integrate the care provided through the EMS system. A certificate of completion is available upon successful completion of this course.

PMED 110 Introduction to Advanced Prehospital Care 12 Units
Prerequisite: Acceptance into the Paramedic Program.
Hours: 144 hours LEC; 216 hours LAB
This course contains the didactic material and the related skills necessary to establish a foundation for subsequent prehospital assessment and management. Topics include anatomy and physiology, pharmacology, intravenous therapy, basic and advanced life support, electrocardiography, medical/surgical, pediatric, obstetrics, and psychiatric/geriatric problems. Crisis intervention, strategies, and medical legal concepts are also discussed.
PMED 111 Advanced Prehospital Care: Preparatory and Airway Management 4.5 Units

Enrollment Limitation: Acceptance into the Paramedic Program
Hours: 54 hours LEC; 81 hours LAB
This course contains the initial didactic material and related skills necessary to establish a foundation for subsequent prehospital assessments and management. Topics include anatomy and physiology, pharmacology, intravenous therapy, basic and advanced airway control techniques and respiratory emergency management. The completion of PMED 111, PMED 112 and PMED 113 is equivalent to PMED 110. This course is not available to those who have completed PMED 110.

PMED 112 Advanced Prehospital Care: General Medical Emergencies 2.5 Units

Prerequisite: PMED 111 (Advanced Prehospital Care-Preparatory and Airway Management) with a "B" or better.
Hours: 27 hours LEC; 54 hours LAB
This course contains the didactic material and the related skills necessary to assess and properly manage prehospital patients with medical complaints. Topics include respiratory and cardiac pathologies. The completion of PMED 111, PMED 112 and PMED 113 is equivalent to PMED 110. This course is not available to those who have completed PMED 110.

PMED 113 Advanced Prehospital Care: Trauma and Pediatric Care 5 Units

Prerequisite: PMED 112 (Advanced Prehospital Care-General Medical Emergencies) with a "B" or better.
Hours: 63 hours LEC; 81 hours LAB
This course contains the didactic materials and related skills necessary to assess and manage prehospital trauma and pediatric patients. Topics include pediatrics and obstetrics, kinematics of trauma, soft-tissue injuries, toxicology, substance abuse and advanced ambulance operations. The completion of PMED 111, PMED 112 and PMED 113 is equivalent to PMED 110. This course is not available to those who have completed PMED 110.

PMED 120 Clinical Internship 6 Units

Prerequisite: PMED 110, with a grade of "C" or better; current Emergency Medical Technician I certification.
Hours: 36 hours LEC; 216 hours LAB
This course is designed to provide an opportunity to apply the cognitive knowledge and skills gained in the Paramedicine course to patient care in a hospital setting. This course provides for increasing assessment techniques and advanced skills.

PMED 130 Prehospital Field Internship 14 Units

Prerequisite: PMED 120 with a grade of "C" or better.
Enrollment Limitation: Current EMT-Basic certification required. This course requires successful completion of a background check prior to starting a field internship assignment.
Hours: 54 hours LEC; 600 hours LAB
Under the direct supervision and evaluation of a licensed paramedic or a mobile intensive care nurse, the intern completes a prehospital field experience. This internship provides the paramedic student with hands-on prehospital experience and is the final course in the series preparing them for a California paramedic license.

PMED 140 Pediatric Advanced Life Support Certification (PALS) .5 Units

Prerequisite: Current Provider C Basic Cardiac Life Support Card or county-approved equivalent certificate. Current licensure as a paramedic, nurse, physician, allied health professional or current enrollment in an Allied Health Program.
Hours: 6 hours LEC; 12 hours LAB
This course provides education modules for health care professionals specific to pediatric emergencies. Certification in pediatric advanced life support is granted to students who successfully complete the course. This course may be taken four times.

PMED 142 Advanced Cardiac Life Support Certification .5 Units

Prerequisite: Current Provider C Basic Cardiac Life Support Card or equivalent licensure as a paramedic, nurse, physician, allied health professional or current enrollment in an Allied Health Program.
Hours: 6 hours LEC; 12 hours LAB
This course provides education modules for health care professionals specific to pediatric emergencies. Certification in advanced cardiac life support is granted to students who successfully complete the course. This course may be taken four times.

PMED 160 Introductory Wilderness Medicine 2 Units

Prerequisite: Current certification in provider level Cardiopulmonary Resuscitation.
Advisory: Basic First Aid.
Hours: 27 hours LEC; 27 hours LAB
This course provides the didactic material and related skills necessary to establish a foundation of medical care in the wilderness setting. Anatomy and physiology, care of traumatic injuries, patient assessment, environment injuries, medical emergencies, and common simple wilderness medical problems are included. Additionally, basic wilderness survival for the initial responder, and selecting and caring for wilderness medical equipment and supplies will be covered. This course emphasizes improvised care options, and long term care in field settings.

PMED 161 Advanced Wilderness Medicine 2 Units

Prerequisite: PMED 160 or EMT, or other health care provider such as nurse or doctor.
Hours: 27 hours LEC; 27 hours LAB
This course allows the student to gain an advanced level of medical care in the wilderness setting. Anatomy and physiology, improvised airway control, principles of musculoskeletal care, integration of field, synthesis of wilderness medicine and urban care, and common simple wilderness medical problems are included. Additionally, basic wilderness survival for the wilderness responder, and selecting and caring for wilderness medical equipment and supplies will be covered. This course emphasizes improvised care options, and long term care in remote field settings.

PMED 165 EMS Search and Technical Rescue 2 Units

Hours: 27 hours LEC; 27 hours LAB
This course provides the student with a foundation in several technical rescue disciplines. Practical applications of water rescue, low angle and high angle rescue, and urban search and rescue are covered. Additionally, basic survival skills in rescue environments for the EMT/Paramedic, and selecting and caring for rescue equipment and supplies will be covered. This course emphasizes scenario-based learning in safely assessing, managing and pre-planning for the technical rescue environment.
PMED 240  Pediatric Advanced Life Support- Recertification  .5 Units
Enrollment Limitation: Current American Heart Association Pediatric Advanced Life Support Provider Card or county approved equivalent certificate.
Hours: 8 hours LEC; 3 hours LAB
This course provides specific pediatric modules for health care professionals. It provides recertification according to the American Heart Association's Pediatric Advanced Life Support standards and guidelines. This course may be taken four times.

PMED 242  Advanced Cardiac Life Support- Recertification  .5 Units
Enrollment Limitation: Current American Heart Association Advanced Cardiac Life Support Provider Card or county approved equivalent certificate.
Hours: 8 hours LEC; 3 hours LAB
This course provides education modules specific for adult cardiac emergencies for health care professionals. It provides recertification according to the American Heart Association’s Advanced Cardiac Life Support standards and guidelines. This course may be taken four times.

PMED 1000  Emergency Medical Technician - Basic: Refresher  1.5 Units
Enrollment Limitation: Current certification as an Emergency Medical Technician - Basic
Hours: 23 hours LEC; 12 hours LAB
This course provides continuing education and skills verification modules for current Emergency Medical Technicians (EMTs) certified at the Basic Life Support (BLS) level. It satisfies most of the refresher requirements of local, state and national Emergency Medical Services (EMS) certifying organizations. EMS related topics include airway management and ventilation, cardiac care and resuscitation, patient assessment, injury management, legal and ethical issues, vital signs monitoring and assisting with medication administration. This course does not provide preparation for the National Registry of Emergency Medical Technicians (NREMT) entry or recertification exam. This course may be taken four times. Credit/No Credit only.
Philosophy is the critical, rational examination of fundamental questions that people have pondered for more than 2500 years. These include, but are not limited to, questions such as: What is reality? What is the nature of the self? Does God exist? What is good and just? What ought I to do? Philosophy courses are directed towards an understanding of these and other fundamental questions, often through reading and studying philosophers who have addressed these questions in the past, with appreciation of the historical and cultural contexts in which these questions are raised and answered. Philosophy courses help students to develop good logical and critical reasoning skills, expose hidden preconceptions, encourage open debate and independent thought, and provide opportunity to apply valuable insights gained to contemporary life.

**PHIL 300  Introduction to Philosophy  3 Units**  
Advisory: ENGWR 102 and ENGRD 116; or ESLW 320 with a grade of "C" or better; or placement through the assessment process.  
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course examines some of the perennial questions that have been addressed in the history of philosophy. Some of these include: Do we have free will? Is there a God? What is knowledge? What is the fundamental nature of reality? What makes actions right or wrong? The examination includes a critical analysis of fundamental concepts involved in the issues addressed by these questions, as well as an evaluation of reasoning used to defend various answers to them.

**PHIL 310  Introduction to Ethics  3 Units**  
Advisory: ENGWR 102 and ENGRD 116; or ESLW 320 with a grade of "C" or better; or placement through the assessment process.  
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This is a survey of various approaches to understanding fundamental ethical ideas such as good, evil, right, and wrong. Deontological and consequentialist theories of ethics are presented. Subjectivist and objectivist views of ethics are considered.

**PHIL 315  Contemporary Moral Issues  3 Units**  
Advisory: ENGWR 102 and ENGRD 116; or ESLW 320 with a grade of "C" or better; or placement through the assessment process.  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This is an investigation into some of the moral issues our society presently faces. These issues may include abortion, euthanasia, genetic engineering, individual liberty and the collective good, sexuality/gender and society, war and terrorism, capital punishment, hunger/poverty and moral obligation, discrimination, and affirmative action.

**PHIL 320  Logic and Critical Reasoning  3 Units**  
Advisory: ENGWR 102 and ENGRD 116; or ESLW 320 with a grade of "C" or better; or placement through the assessment process.  
General Education: AA/AS Area II(b); CSU Area A3  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course is an introduction to basic principles of good reasoning. It focuses on recognizing arguments and identifying their premises and conclusions. It examines the distinction between inductive and deductive standards of evaluation and includes an overview of types of inductive reasoning, deductive argument patterns, use and misuse of language, and fallacious reasoning. Practical application to everyday life is emphasized.

**PHIL 325  Symbolic Logic  3 Units**  
Same As: MATH 320  
Prerequisite: PHIL 320 or MATH 110, and MATH 120 or MATH 124 with a grade of "C" or better.  
General Education: AA/AS Area II(b)  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course covers an introduction to symbolic logic including the logic of sentences (the statement of calculus) and the logic of classes and relations (the predicate calculus) together with an introduction to the nature and development of deductive systems. Applications include examples of logic used in elementary mathematics and the analysis of verbal arguments. Not open to students who have completed MATH 320.

**PHIL 330  History of Classical Philosophy  3 Units**  
Advisory: ENGWR 102 and ENGRD 116; or ESLW 320 with a grade of "C" or better; or placement through the assessment process.  
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course is an overview of some of the important themes in Western Philosophical thought from the Pre-Socratic era to the Late Medieval era. These themes may include the fundamental nature of reality, knowledge, values, society, God, and human nature.

**PHIL 331  History of Modern Philosophy  3 Units**  
Advisory: ENGWR 102 and ENGRD 116; or ESLW 320 with a grade of "C" or better; or placement through the assessment process.  
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course is an overview of important themes in Western Philosophical thought from the Early Modern era to the present. These themes may include the fundamental nature of reality, knowledge, values, society, God, and human nature.
PHIL 350  Philosophy of Religion  3 Units
Advisory: ENGWR 102 and ENGRD 116; or ESLR 320 and ESLW 320 with a grade of "C" or better; or placement through the assessment process.
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an introduction to a philosophical examination of religion. This examination typically includes an analysis of basic religious concepts such as God, the afterlife, the soul, faith, karma, religious experience, good and evil. The rationality of religious belief and the relation of religion to science may also be covered.

PHIL 353  Religions of the Far East  3 Units
Advisory: ENGWR 102 and ENGRD 116; or ESLR 320 and ESLW 320 with a grade of "C" or better; or placement through the assessment process.
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an introduction to the major religions of the Far East, which may include Jainism, Hinduism, Buddhism, Taoism, Confucianism, and Shinto. The history, basic teachings, and practices of these are examined.

PHIL 354  Religions of the West  3 Units
Advisory: ENGWR 102 and ENGRD 116; or ESLR 320 and ESLW 320 with a grade of "C" or better; or placement through the assessment process.
General Education: AA/AS Area I; CSU Area C; IGETC Area 3B
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an introduction to the three major "Western" religions: Judaism, Christianity, and Islam. Basic teachings, practices, and histories of these religions are examined.

PHIL 360  Social/Political Philosophy  3 Units
Advisory: [ENGWR 102 or 103] and ENGRD 116; or [ESLR 320 and ESLW 320] with a grade of "C" or better, or placement through the assessment process.
General Education: AA/AS Area I; CSU Area C; CSU Area D7; IGETC Area 4G
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a historical and topical survey of significant themes of social/political philosophy from Plato to the present. Topics may include freedom, government, justice, law, rights, punishment, war, authority, and the state.
The ARC physical education program offers a wide variety of courses that improve physical fitness, sport skills, and dance performance abilities.

The UC system has a limitation on the number of units of physical education courses which can be transferred. The CSU system has no such limitation, but there are restrictions placed on the number of physical education units which can be applied toward the major. Refer to the catalog of the transfer institution of your choice for detailed information.

All activity classes are open to both men and women unless noted. Students may enroll in more than one physical education class at the same time. They may not enroll in more than two sections of the activity during the same semester. Semester activity courses may be taken up to four times in each activity area (e.g., four Tennis, four Weight Training, four Modern Dance, etc.) unless otherwise noted in the units column. The prefixes “ADAPT, DANCE, FITNS, PACT, TMACT, and SPORT” refer to courses used to satisfy the physical education requirement.

Courses which are designated with a PET prefix are theory-oriented rather than activity-oriented and DO NOT satisfy the graduation requirements.

**Fitness Specialist Certificate**

This one-year program prepares students for employment in the health and fitness industry and equips them with the knowledge and hands-on experience necessary to begin a career in the dynamic field of fitness. Upon completion of this certificate, the students are prepared to take national certification exams such as ACSM and ACE.

**Student Learning Outcomes**

*Upon completion of this program, the student will be able to:*

- Design, implement, and analyze fitness programs for a diverse population.
- Critique and explore various health and fitness job opportunities.
- Demonstrate knowledge and skills necessary to pass national certification exams such as ACSM and ACE.

**Career Opportunities**

The fitness certificate program is ideal for anyone desiring an entry-level position as a personal trainer, fitness center or health club employee, group exercise instructor, or strength and conditioning coach.

**Certificates:**

**Fitness Specialist**

**Requirements for Certificate**

**ADAPT 310 Adapted Lifetime Sports**

*Advisory: ENGW 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.*

*General Education: AA/AS Area III(a); CSU Area E2*

*Enrollment Limitation: A physician’s statement verifying the disability, contraindication, and recommended activities.*

*Course Transferable to UC/CSU*

*Hours: 54 hours LAB*

Adapted Lifetime Sports is a physical education class designed to introduce students with physical disabilities to a variety of sports. Modifications and assistive devices will be used to enable students to safely participate in sports such as, but not limited to, archery, volleyball, tennis, soccer, softball, basketball, and golf.

**ADAPT 314 Wheelchair Sports and Games**

*General Education: AA/AS Area III(a); CSU Area E2*

*Enrollment Limitation: A health care professional’s statement describing 1) the student’s disability, 2) contraindications, and 3) recommended activities.*

*Course Transferable to UC/CSU*

*Hours: 54 hours LAB*

This course is designed for individuals with physical disabilities who are confined to a wheelchair or who are ambulatory, but more successful in sports when using a wheelchair. Sports will include, but not be limited to, basketball, quad rugby, volleyball, badminton, and tennis. This course may be taken four times for credit.

**ADAPT 316 Adapted Personal Safety**

*General Education: AA/AS Area III(a); CSU Area E2*

*Enrollment Limitation: A physician’s statement describing 1) student’s disability, 2) contraindications, and 3) recommended activities.*

*Course Transferable to UC/CSU*

*Hours: 54 hours LAB*

This course is designed for the student who is unable to participate in the general personal safety course. It includes the skills, knowledge, and attitude which are important in avoiding or defending a physical attack. Topics include awareness and prevention of dangerous situations. Defensive strategies for protection while in the home, in the community, and on mass transit are also covered. This course may be taken four times.
ADAPT 330  Adapted Weight Training and Fitness  

1 Unit

General Education: AA/AS Area III(a); CSU Area E2
Enrollment Limitation: A statement signed by a health professional verifying the disability, contraindications, and recommended activities
Course Transferable to UC/CSU
Hours: 54 hours LAB

Adapted weight training and fitness is designed for the student who is unable to participate in a general physical education activity class. This course includes individualized physical fitness programs including activities to develop muscular strength, flexibility, and cardiovascular endurance. This course may be taken four times for credit.

ADAPT 332  Adapted Aquatics  

1 Unit

General Education: AA/AS Area III(a); CSU Area E2
Enrollment Limitation: A physician’s statement verifying the disability, contraindications, and recommended activities
Course Transferable to UC/CSU
Hours: 54 hours LAB

Adapted aquatics is an individualized swimming, water safety, and fitness class designed for individuals with disabilities. It focuses on cardiovascular endurance, range of motion, mobility, muscular strength, and muscular endurance. This course may be taken four times for credit.

ADAPT 337  Adapted Walk and Wheel  

1 Unit

General Education: AA/AS Area III(a); CSU Area E2
Enrollment Limitation: A physician’s statement verifying the disability, contraindications, and recommended activities
Course Transferable to UC/CSU
Hours: 54 hours LAB

This course is designed for the student who is unable to participate in a general physical education activity class. Individualized programs are designed which include walking or wheeling for cardiovascular endurance and specific exercises for muscular strength, muscular endurance, and flexibility. Small group games and activities are included to promote fitness and fun. This course may be taken four times for credit.

ADAPT 338  Adapted Aerobic Activity  

1 Unit

Advisory: ENGRD 116, ENGW 102, ENGW 103, ESLW 320, or ESLW 320; or placement through the assessment process.
General Education: AA/AS Area III(a); CSU Area E2
Enrollment Limitation: A physician’s statement verifying: 1) disability 2) contraindications 3) recommended activities
Course Transferable to UC/CSU
Hours: 54 hours LAB

This course is designed for the student who is unable to participate in a general physical education activity course. It includes group activities as well as individualized activities. Indoor and outdoor workouts are used to enhance cardiovascular endurance and affect body composition. Activities may include walking and jogging, aerobic dance, chair aerobics, circuit training and cardio equipment workouts.

DANCE 300  Diverse Cultures in Dance  

1 Unit

General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB

This course compares and contrasts three forms of indigenous, ethnic, and culturally derived dance. Students learn the traditional significance, origins, movement patterns, and basic steps of the dance form. Field trips may be required. This course may be taken four times for credit.

DANCE 302  African Dance  

1 Unit

General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB

This course covers basic movements from African and West African styles of dance. Afro-Haitian, Afro-Caribbean, and Congolese styles may also be included. Classes consist of beginning level warm ups, across the floor movement, and center combination movements to varied drum rhythms. This course may be taken four times for credit.

DANCE 304  Polynesian Dance  

1 Unit

General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB

This course covers basic dances from Polynesia, including dances from Tahiti, Hawaii, and New Zealand. Class sessions consist of warm ups, center dances, and cultural vocabulary. An opportunity to study the history, origin, and cultural importance of Polynesian dance is presented. This course may be taken four times for credit.

DANCE 305  Hawaiian Dance  

1 Unit

General Education: AA/AS Area III(a)
Course Transferable to UC/CSU
Hours: 54 hours LAB

This course covers the basic components of Hawaiian dance within its traditional context. Class sessions consist of warm ups, center dances, and cultural dance vocabulary. An opportunity to study the history, origin, and cultural importance of hula is also presented. Basic Hawaiian vocabulary for dance and instructions for creating floral adornments are included. This course may be taken four times for credit.

DANCE 310  Jazz Dance  

1 Unit

General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB

This course is offered as beginning or intermediate jazz dance. Beginning jazz dance covers basic skills of alignment, balance and technique. It gives a foundation in the basic steps, vocabulary, history, and traditions of jazz dance. Intermediate jazz dance refines the basic skills, introduces varied rhythms and methods of counting, and initiates more complex transitions and steps in center combinations. This course may be taken four times for credit.

DANCE 311  Urban Hip Hop  

1 Unit

General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB

This course includes basic urban-style Hip Hop moves and rapid level changes for floor work. Choreography is provided on a bare bones theme and developed according to individual style, ability and personal interpretation. The history of this genre and the traditional competitive elements of Hip Hop dance are examined, as well as the role of dance in Hip Hop culture. An opportunity for Freestyle, Old Style, Poppin’, Lockin’, and Dance Poetry exploration is offered. This course may be taken four times for credit.
DANCE 320 Ballet 1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course is offered as beginning or intermediate ballet. Beginning ballet covers basic skills, alignment, steps and technique suitable for beginners. It gives a foundation in the etiquette, vocabulary, history and traditions of classical ballet. Intermediate ballet refines the basic skills, introduces more complex steps and initiates more difficult center combinations. Both levels include a progression of barre exercises and warm-ups designed to develop strength and range of motion as well as balance and alignment. Classical ballet technique, and vocabulary are emphasized at the barre and repeated across the floor and in center. This course may be taken four times for credit.

DANCE 330 Modern Dance 1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course is offered as beginning or intermediate modern dance. Beginning modern dance includes basic movement technique, alignment and vocabulary. It gives a foundation in the history and traditions of modern dance in America and encourages individual expression and creativity. Intermediate modern dance refines the basic skills and utilizes improvisation and problem solving techniques in dealing with space, design, time, shape, and energy. This course may be taken four times for credit.

DANCE 340 Ballroom Dance 1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course is offered as beginning or intermediate ballroom dance. Beginning ballroom covers basic partnering skills, alignment, technique, and footwork. It gives a foundation in the etiquette, vocabulary and traditions of ballroom dance. Intermediate ballroom refines the basic skills, introduces varied rhythms, and initiates more complex foot patterns and partnering. This course may be taken four times for credit.

DANCE 348 Ballroom Challenge: Competition and Performance 1 Unit
General Education: AA/AS Area III(a)
Enrollment Limitation: Audition
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course includes ballroom training for competition and performance. Dancers work on an intermediate to advanced level and perform in at least three basic styles, such as Waltz, Foxtrot, and East Coast Swing, as well as three Latin styles. Topics include audition skills, learning new styles, new routines, and a competition within class for ranking. There are opportunities to compete against other groups and perform outside of class. Field trips may be required. This course may be taken four times for credit.

DANCE 350 Country Western Dance 1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course is offered as beginning or intermediate country western dance. Beginning country western dance covers basic partnering and line dance skills, alignment, technique and footwork. It gives a foundation in the etiquette, vocabulary and traditions of country western dance. Intermediate country western dance refines the basic skills, introduces varied rhythms, and initiates more complex footwork. This course may be taken four times for credit.

DANCE 360 Tap Dance 1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course is offered as beginning or intermediate tap dance. Beginning tap covers basic tap rhythms, walks, alignment, technique, and footwork. It gives a foundation in the history, etiquette, vocabulary, and traditions of tap dance. Intermediate tap refines the basic skills, introduces varied rhythms, and initiates more complex footwork. This course may be taken four times for credit.

DANCE 370 Dance Production 3 Units
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course focuses on lecture, choreography, and performance with an emphasis on performance skills. Choreographic studies and intermediate to advanced contemporary dance technique are included. Organizational skills for rehearsal, choreography, and performance are explored. Field trips may be required. This course is by audition only and may be taken four times for credit.

DANCE 375 Jazz Dance Performance Group 3 Units
General Education: AA/AS Area III(a); CSU Area E2
Enrollment Limitation: Audition
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a jazz dance lecture and performance group for intermediate to advanced dancers with an emphasis on community outreach, dance demonstrations, and a concert performance. The history of jazz dance is covered and ethnic styles are compared. An opportunity to choreograph is offered. Field trips may be required. This course is by audition only and may be taken four times for credit.

DANCE 376 Choreography 1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course covers basic elements of choreography and provides an opportunity to explore choreographic structure. Choreographic concepts are introduced, developed, and applied to various dance styles in a manner appropriate for all levels of dance skill. Emphasis is on the choreographic process. This course may be taken four times for credit.

DANCE 377 Theatre Dance 1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course provides opportunities to experience theatre dance and gain skill in musical theatre style presentational movement. Dance styles covered include cultural, modern, tap, and jazz. Choreographed routines, audition techniques for musical theatre dance, and basic group and partnering skills for presentational dance are utilized. There is an opportunity for student choreography. This course may be taken four times for credit.

DANCE 498 Work Experience in Dance 1-4 Units
Advisory: ENGW 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area III(b) (effective Summer 2008); AA/AS Area III(a)
Enrollment Limitation: Be in a paid or non-paid internship, volunteer opportunity or job related to dance. Students are advised to consult with the Dance Department faculty to review specific certificate and degree work experience requirements.
This course provides students with opportunities to develop marketable skills in preparation for employment or advancement within the field of dance. It is designed for students interested in work experience and/or internships in transfer level degree occupational programs. Course content includes understanding the application of education to the workforce; completion of required forms which document the student’s progress and hours spent at the work site; and developing workplace skills and competencies. Appropriate level learning objectives are established by the student and the employer. During the semester, the student is required to fulfill a weekly orientation and 75 hours of related paid work experience, or 60 hours of unpaid work experience for one unit. An additional 75 or 60 hours of related work experience is required for each additional unit. The weekly orientation is required for first time participants, returning participants are not required to attend the orientation but are required to meet with the instructor as needed to complete all program forms and assignments. Work Experience may be taken for a total of 16 units when there are new or expanded learning objectives.

---

**Fitness**

FITNS 303  **Dance Aerobics**  1 Unit  
General Education: AA/AS Area III(a); CSU Area E2  
Course Transferable to UC/CSU  
Hours: 54 hours LAB  
This is a physical conditioning program designed to increase cardiovascular efficiency, flexibility, and endurance through choreographed routines and rhythmic exercises. This course may be taken four times for credit.

FITNS 305  **Hip Hop Aerobics**  1 Unit  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.  
General Education: AA/AS Area III(a); CSU Area E2  
Course Transferable to UC/CSU  
Hours: 54 hours LAB  
Based on hip hop dance movement, this course is designed to promote cardiovascular fitness, flexibility, and overall strength by incorporating hip hop dance style, level changes, and rhythm into an aerobic and anaerobic conditioning program.

FITNS 306  **Aerobics: Cardio-Kickboxing**  1 Unit  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.  
General Education: AA/AS Area III(a); CSU Area E2  
Course Transferable to UC/CSU  
Hours: 54 hours LAB  
This course emphasizes proper alignment, execution, and timing of faster paced movements from kickboxing, boxing, and aerobic dance to improve cardiovascular fitness.

FITNS 307  **Aerobic Mix Workout**  1 Unit  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.  
General Education: AA/AS Area III(a); CSU Area E2  
Course Transferable to UC/CSU  
Hours: 54 hours LAB  
This course includes a variety of aerobic activities that provide a new approach to each workout. The emphasis is on rotating aerobic forms such as aerobic dance, step, cardio-kickboxing, and aerobic circuit to keep the workouts challenging and interesting. Basic heart rate calculations, nutrition, and workout facts will be covered.

---

**FITNS 308  Step Aerobics**  1 Unit  
Advisory: ENGWR 102 or ENGWR 103, ENGRD 116 or ESLR 320, ESLW 320, or placement through assessment process.  
General Education: AA/AS Area III(a); CSU Area E2  
Course Transferable to UC/CSU  
Hours: 54 hours LAB  
A physical conditioning program designed to improve cardiovascular fitness and encourage better endurance, flexibility and strength through the use of step aerobics training methods. This course includes instruction in rhythmic, choreographed step routines, basic stretch and toning exercises and provides information related to overall health and fitness.

**FITNS 310  Aqua Aerobics**  1 Unit  
General Education: AA/AS Area III(a); CSU Area E2  
Course Transferable to UC/CSU  
Hours: 54 hours LAB  
This is a fitness course using the resistance of water for low- or non-weight bearing exercise for improvement in cardiovascular fitness, muscular endurance, flexibility and strength. The course includes exercises in deep and shallow water and provides information related to overall health and fitness. No swimming skills are needed. This course may be taken four times for credit.

**FITNS 312  Aquatic Fitness**  1 Unit  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.  
General Education: AA/AS Area III(a); CSU Area E2  
Course Transferable to UC/CSU  
Hours: 54 hours LAB  
This is a self-paced “overload” method of training using a workout approach that stresses aerobic and anaerobic fitness. Deep and shallow water running will be emphasized, stroke efficiency, and lap swimming will be included.

**FITNS 314  Deep Water Jogging**  1 Unit  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.  
General Education: AA/AS Area III(a); CSU Area E2  
Course Transferable to UC/CSU  
Hours: 54 hours LAB  
This fitness course uses the resistance of water for non-weight bearing exercises. Emphasis will be on cardiovascular fitness, muscular endurance, strength and flexibility. Progress will be monitored through appropriate fitness testing. No swimming skills are needed. An optional flotation belt will be provided.

**FITNS 316  Lap Swimming**  1 Unit  
Advisory: Swimming, Advanced; ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.  
General Education: AA/AS Area III(a); CSU Area E2  
Course Transferable to UC/CSU  
Hours: 54 hours LAB  
This course includes a workout approach that emphasizes aerobic and anaerobic fitness through lap swimming. It is a self-paced class and utilizes interval training, cardiovascular conditioning, swimming technique, and aerobic training principles.

**FITNS 321  Core Conditioning**  1 Unit  
General Education: AA/AS Area III(a); CSU Area E2  
Course Transferable to UC/CSU  
Hours: 54 hours LAB  
This course incorporates a variety of activities including exercises with the stability and Bosu ball, Pilates mat, and yoga styles of core work to enhance abdominal, lower back, gluteal, and hip strength with toning benefits to the entire body. May be taken 4 times for credit.
FITNS 325 Pilates 1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
The focus of this course is on precision alignment, core strength, and building an awareness of the body. Pilates involves a kinesiologic awareness that builds core strength and confidence in movement. Mat and wall stretches, exercises and relaxations are used to encourage flexibility, balance and coordination beginning with the deep postural muscles of the body. This course may be taken four times for credit.

FITNS 331 Boot Camp Fitness 1 Unit
Advisory: ENGRD 116 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course is designed as an intense boot camp fitness class conducted on and off campus using indoor and outdoor facilities. Training includes aerobic, anaerobic conditioning, strength and endurance training, individual and team fitness concepts. May be taken four times for credit.

FITNS 332 Off Season Conditioning .5-1 Units
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 27-54 hours LAB
This course involves sport specific training, conditioning and movement techniques for the intercollegiate off-season athlete. There is a concentration of basic concepts with emphasis on conditioning. This course may be taken four times for credit.

FITNS 339 Triathlon Training 1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course covers physical fitness triathlon training sessions utilizing a variety of training methods including swimming, biking (stationary and non-stationary) and running. Topics include transitional techniques for duathlons and triathlons. Some class sessions meet off-campus. Students must supply their own road or mountain bike and helmet. This course may be taken four times for credit.

FITNS 350 Fitness And Weight Control 2 Units
Advisory: ENGRD 116, ENGRW 102, ENGRW 103, ESLR 320, and ESLW 320; OR ENGRW 102 or ENGRW 103, ENGRD 116 or ESLR 320, ESLW 320, or placement through assessment process.
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 18 hours LEC; 54 hours LAB
This course is designed to assess and improve physical fitness levels, and encourage a healthy attitude toward figure evaluation and weight control. Students receive instruction concerning the theories and practical activities involved in obtaining and maintaining an appropriate level of physical fitness.

FITNS 351 Exercise, Balance and Mobility 1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course is specifically designed for adults starting a fitness program. It provides safe and effective exercises to gain balance, flexibility and mobility. Students develop a personal fitness program that can also be carried out at home. Periodic fitness assessments measure progress in individualized fitness program.

FITNS 380 Circuit Weight Training 1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course presents the student with a system of exercise using weights and cardiovascular activities to provide a balanced approach to physical fitness training. There is an emphasis on increasing strength, muscular endurance, cardiovascular endurance and flexibility while decreasing body fat. This course may be taken four times.

FITNS 381 Weight Training 1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course provides instruction in weight training to promote muscular strength and endurance. Safety, weight training principles, and program design are emphasized to reach personal fitness and strength goals. Components of fitness are addressed, including flexibility and body composition. Workout guidelines for general fitness, sport performance, and/or bodybuilding may be chosen for individual goals. This course may be taken four times for credit.

FITNS 385 Weight Training for Competition 1 Unit
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course is a strength/power training program for students involved in intercollegiate athletics. It is designed to develop strength, power, and muscle endurance appropriate to specific athletic events.

FITNS 392 Yoga 1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course in Hatha Yoga emphasizes breathing, stretching, and relaxing techniques. Yoga positions and philosophies are examined. This course may be taken four times.

FITNS 395 Stretch 1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course emphasizes stretching for health and increased range of motion. It provides an individualized approach to stretching and includes pre- and post-stretching techniques for specific activities such as sports, dance, or repetitive stress work-related movements. This course may be taken four times for credit.

FITNS 400 Body Fitness (Walking or Jogging) 1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course promotes physical well-being through stress reduction and weight control. Attention is given to increasing cardiovascular efficiency, muscular strength and endurance. Individual workout schedules are based on heart rate readings related to a variety of training methods.

FITNS 405 Marathon Training 1 Unit
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course emphasizes a personal approach to attaining a higher level of fitness through the attempt to complete a marathon (26.2 miles) in one day. Individual workout programs will be established and monitored to include endurance and self-pacing. Pre- and post-fitness testing will also be evaluated.

FITNS 412  Martial Arts: Taekwondo  1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course is a physical fitness program that concentrates on muscle development, improvement of coordination and flexibility, and increased aerobic capacity through the practice of various poomsae, sparring techniques and self-defense movements used in martial arts. It is offered at beginning, intermediate, and advanced levels. This course may be taken four times. Fields trips may be required.

FITNS 414  Tai Chi  1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course explores the traditional Chinese fitness exercise of Tai Chi. It provides for the development of basic skills and techniques that lead toward an integration of the mind-body-spirit trilogy. Various Chinese fitness exercises in relation to health are explored. Principles of Confucianism and Taoism, including a basic review of Tai Chi history and philosophy are discussed. Overall, the physical discipline and structure of Tai Chi movements are emphasized. This course may be taken four times for credit.

FITNS 438  Water Safety Instructor (Lifeguard Training)  3 Units
Prerequisite: FITNS 440 (Advanced) with a grade of “C” or better.
Corequisite: HEED 316 or 322.
Advisory: ENGW 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area III(a); CSU Area E2
Enrollment Limitation: A valid Advanced First Aid Certificate.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course includes teaching techniques and preparation for instructing swim courses. The emphasis is on teacher training, life guarding knowledge and skills. Completion of this course with a grade of B or better confers an American Red Cross Certification for “Lifeguard Training” and “Water Safety Instructor.”

FITNS 440  Swimming  1 Unit
Advisory: ENGW 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
The beginning class is designed for non-swimmers, students who cannot swim one length of the pool (25 yards). Instruction will be given in physical and psychological adjustment to the water, basic swimming techniques, and safety skills. The intermediate course provides instruction in the following swimming strokes: streamline position, front and back crawl, elementary back, breaststroke, side stroke, and butterfly kick. Related aquatic techniques of diving, treading, turns, sculling, basic rescue, and survival skills will also be taught. The advanced course includes advanced techniques in freestyle, backstroke, breaststroke, butterfly, individual medley, touch turns, flip turns, and starts. In addition, various aerobic and anaerobic training methods will be taught. Endurance and stroke efficiency will be emphasized.

FITNS 450  Personal Safety  1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 9 hours LEC; 27 hours LAB
This course provides the knowledge and skills for an individual’s personal safety in a variety of situations. Topics include awareness and prevention of dangerous situations, along with physical and non-physical defensive strategies. Community resources for victims of assault are discussed.

PACT 300  Archery  1 Unit
Advisory: ENGW 102 or 103, and ENGRD 116; OR ESLR 320 and ESLW 320; or placement through assessment process.
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
The course in beginning archery emphasizes safety, knowledge, and basic skill development in a variety of beginning bow and arrow shooting activities. The intermediate course includes instruction and practice in more advanced skills of archery. It will also review basic techniques with an emphasis on development of the physical and mental strengths necessary to perform at greater distances with greater accuracy.

PACT 310  Badminton  1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course includes scoring, fundamentals, techniques, rules and social etiquette of bowling. It is designed to accommodate the beginning, intermediate and advanced bowler. May be taken four times.

PACT 320  Bowling  1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course includes scoring, fundamentals, techniques, rules and social etiquette of bowling. It is designed to accommodate the beginning, intermediate and advanced bowler. May be taken four times.

PACT 350  Golf  1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course covers the basic skills and knowledge necessary to play the game of golf. It focuses on the fundamental skills necessary to strike and putt the ball, the rules and etiquette necessary to play the game, and course management strategies in order to negotiate a golf course. There are beginning, intermediate and advanced levels of this course. Some sections of this course are held on area regulation golf courses in which students must bring their own golf clubs.

PACT 390  Tennis  1 Unit
General Education: AA/AS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course is offered as beginning, intermediate, or advanced tennis. Beginning tennis covers the basic technique of strokes, rules of play, simple strategies, and the etiquette of the sport. Intermediate tennis focuses on refining basic skills, introducing more complicated technique, teaching players more advanced strategies for singles, and includes an introduction to doubles. In advanced tennis, players work on improving the more complicated skills and techniques of the sport and competitive play takes a higher priority. This course may be taken four times for credit.
PHYSICAL EDUCATION

PACT 394  Tennis, Doubles  1 Unit
Prerequisite: PACT 390 with a grade of “C” or better
Advisory: ENGRD 102 or ENGRW 103, and ESLW 320, or placement through assessment process.
General Education: AAAS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 90 hours LAB
This course provides instruction for intermediate and advanced players in competitive doubles tennis. Game tactics and skills development are emphasized. May be taken four times for credit.

PACT 400  Track and Field  1 Unit
Advisory: ENGRW 102 or ENGRW 103, ENGRD 116, or ESLW 320, or placement through assessment process.
General Education: AAAS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course includes skill development in men’s and women’s track and field activities, including running, jumping, and throwing events.

SPORT 300  Baseball, Intercollegiate-Men  2 Units
Advisory: ENGRW 102 or ENGRW 103, ENGRD 116 or ESLW 320, or placement through assessment process.
General Education: AAAS Area III(a); CSU Area E2
Enrollment Limitation: Tryout
Course Transferable to UC/CSU
Hours: 180 hours LAB
This course covers fundamentals, rules, individual and team strategies appropriate to intercollegiate baseball.

SPORT 311  Basketball, Intercollegiate-Men, Fall  1 Unit
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLW 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AAAS Area III(a); CSU Area E2
Enrollment Limitation: Tryout
Course Transferable to UC/CSU
Hours: 90 hours LAB
This course covers fundamentals, rules, individual and/or team strategies appropriate to intercollegiate basketball. May be taken three times for credit.

SPORT 312  Basketball, Intercollegiate-Men, Spring  1 Unit
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLW 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AAAS Area III(a); CSU Area E2
Enrollment Limitation: Tryout
Course Transferable to UC/CSU
Hours: 90 hours LAB
This course covers fundamentals, rules, individual and/or team strategies appropriate to intercollegiate basketball. May be taken three times for credit.

SPORT 316  Basketball, Intercollegiate-Women, Fall  1 Unit
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLW 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AAAS Area III(a); CSU Area E2
Enrollment Limitation: Tryout
Course Transferable to UC/CSU
Hours: 90 hours LAB
This course covers fundamentals, rules, individual and/or team strategy appropriate to intercollegiate athletic competition. May be taken three times for credit.

SPORT 317  Basketball, Intercollegiate-Women, Spring  1 Unit
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLW 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AAAS Area III(a); CSU Area E2
Enrollment Limitation: Tryout
Course Transferable to UC/CSU
Hours: 90 hours LAB
This course covers fundamentals, rules, individual and/or team strategy appropriate to intercollegiate athletic competition. May be taken three times for credit.

SPORT 320  Cross Country, Intercollegiate-Men  2 Units
Advisory: ENGRW 102 or ENGRW 103, ENGRD 116 or ESLW 320, or placement through assessment process.
General Education: AAAS Area III(a); CSU Area E2
Enrollment Limitation: Tryout
Course Transferable to UC/CSU
Hours: 180 hours LAB
This course covers fundamentals, rules, individual and/or team strategy appropriate to intercollegiate athletic competition.

SPORT 325  Cross Country, Intercollegiate-Women  2 Units
General Education: AAAS Area III(a); CSU Area E2
Enrollment Limitation: Tryout
Course Transferable to UC/CSU
Hours: 180 hours LAB
This course is an intercollegiate sport providing opportunities for competition in women’s cross country. It provides instruction in cross country fundamentals and skills, including rules and individual and team strategies appropriate for intercollegiate athletic competition. May be taken three times for credit.

SPORT 330  Football, Intercollegiate-Men  2 Units
Advisory: ENGRW 102 or ENGRW 103, ENGRD 116 or ESLW 320, or placement through assessment process.
General Education: AAAS Area III(a); CSU Area E2
Enrollment Limitation: Tryout
Course Transferable to UC/CSU
Hours: 180 hours LAB
This course covers fundamentals, rules, individual and/or team strategies appropriate to intercollegiate athletic competition.

SPORT 340  Golf, Intercollegiate-Men  2 Units
General Education: AAAS Area III(a); CSU Area E2
Enrollment Limitation: Tryout
Course Transferable to UC/CSU
Hours: 180 hours LAB
This course is an intercollegiate sport providing opportunity for competition in men’s golf. It covers golf fundamentals and skills. It also includes rules and individual and team strategies appropriate for intercollegiate athletic competition. May be taken three times for credit.
**SPORT 345**  Golf, Intercollegiate-Women  2 Units  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area III(a); CSU Area E2  
Enrollment Limitation: Tryout  
Course Transferable to UC/CSU  
Hours: 180 hours LAB  
This course covers fundamentals, rules, individual and/or team strategy appropriate to intercollegiate athletic competition.

**SPORT 350**  Soccer, Intercollegiate-Men  2 Units  
General Education: AA/AS Area III(a); CSU Area E2  
Enrollment Limitation: Tryout  
Course Transferable to UC/CSU  
Hours: 180 hours LAB  
This course provides opportunity for intercollegiate competition in men's soccer. Soccer fundamentals and skills are covered. It also includes rules, and individual and team strategy appropriate for intercollegiate athletic competition. This course may be taken 3 times for credit.

**SPORT 355**  Soccer, Intercollegiate-Women  2 Units  
General Education: AA/AS Area III(a); CSU Area E2  
Enrollment Limitation: Tryout  
Course Transferable to UC/CSU  
Hours: 180 hours LAB  
This course is an intercollegiate sport providing opportunity for competition in women's soccer. It provides soccer fundamentals and skills and includes rules, individual and team strategy appropriate for intercollegiate athletic competition. This course may be taken 3 times for credit.

**SPORT 365**  Softball, Intercollegiate-Women  2 Units  
General Education: AA/AS Area III(a); CSU Area E2  
Enrollment Limitation: Tryouts  
Course Transferable to UC/CSU  
Hours: 180 hours LAB  
This is an advanced softball activity that provides competition with other community college teams. Fundamentals, rules, team strategy, and softball skills appropriate to intercollegiate athletic competition are expected of the competitors. This course may be taken three times for credit.

**SPORT 370**  Swimming and Diving, Intercollegiate-Men  2 Units  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area III(a); CSU Area E2  
Enrollment Limitation: Tryout  
Course Transferable to UC/CSU  
Hours: 180 hours LAB  
This course in swimming and diving for men includes fundamentals, rules, individual technique and team strategy appropriate to intercollegiate athletic competition.

**SPORT 375**  Swimming and Diving, Intercollegiate-Women  2 Units  
General Education: AA/AS Area III(a); CSU Area E2  
Enrollment Limitation: Tryout  
Course Transferable to UC/CSU  
Hours: 180 hours LAB  
This is an advanced swimming and diving activity course that provides competition with other community college teams. Fundamentals, rules, team strategy, and aquatic skills appropriate to intercollegiate athletic competition are expected of competitors. This course may be taken three times for credit.

**SPORT 380**  Tennis, Intercollegiate-Men  2 Units  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area III(a); CSU Area E2  
Enrollment Limitation: Tryout  
Course Transferable to UC/CSU  
Hours: 180 hours LAB  
This course covers fundamentals, rules, individual and/or team strategy appropriate to intercollegiate athletic competition.

**SPORT 385**  Tennis, Intercollegiate-Women  2 Units  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area III(a); CSU Area E2  
Enrollment Limitation: Tryout  
Course Transferable to UC/CSU  
Hours: 180 hours LAB  
This course covers fundamentals, rules, individual and/or team strategy appropriate to intercollegiate athletic competition.

**SPORT 390**  Track and Field, Intercollegiate-Men  2 Units  
General Education: AA/AS Area III(a); CSU Area E2  
Enrollment Limitation: Tryout  
Course Transferable to UC/CSU  
Hours: 180 hours LAB  
This course covers fundamentals, rules, individual and/or team strategy appropriate to intercollegiate athletic competition.

**SPORT 395**  Track and Field, Intercollegiate-Women  2 Units  
General Education: AA/AS Area III(a); CSU Area E2  
Enrollment Limitation: Tryout  
Course Transferable to UC/CSU  
Hours: 180 hours LAB  
This course is an intercollegiate sport providing opportunities in women's track and field. It provides instruction in track and field fundamentals and skills, including rules and both individual and team strategies appropriate for intercollegiate athletic competition. This course may be taken three times for credit.

**SPORT 405**  Volleyball, Intercollegiate-Women  2 Units  
General Education: AA/AS Area III(a); CSU Area E2  
Enrollment Limitation: Tryout  
Course Transferable to UC/CSU  
Hours: 180 hours LAB  
This course is an intercollegiate sport providing opportunity for competition in women's volleyball. This course provides volleyball fundamentals and skills. It also includes rules, individual and team strategies appropriate for intercollegiate athletic competition. This course may be taken three times for credit.
PHYSICAL EDUCATION

SPORT 410  Water Polo, Intercollegiate-Men  2 Units
Advisory: ENGRD 116, ENGWR 102, ENGWR 103, ESLR 320, and ESLW 320; or placement through the assessment process.
General Education: AAAS Area III(a); CSU Area E2
Enrollment Limitation: Tryout
Course Transferable to UC/CSU
Hours: 180 hours LAB
This course is an intercollegiate sport providing opportunity for competition in men's water polo. This course provides water polo fundamentals and skills and includes rules, individual and team strategy appropriate for intercollegiate athletic competition. This course may be taken 3 times for credit.

SPORT 415  Water Polo, Intercollegiate-Women  2 Units
General Education: AAAS Area III(a); CSU Area E2
Enrollment Limitation: Tryout
Course Transferable to UC/CSU
Hours: 180 hours LAB
This is an advanced water polo team activity that provides competition with other community college teams. Fundamentals, rules, team strategy, and swimming skills appropriate to intercollegiate athletic competition are expected of the competitors. This course may be taken 3 times for credit.

Team Activities

TMACT 300  Soccer, Indoor  1 Unit
General Education: AAAS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course is designed to provide a greater awareness and understanding of indoor soccer by teaching the skills, strategy, and rules that govern the play of indoor soccer.

TMACT 302  Soccer - Outdoor  1 Unit
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AAAS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
The beginning course is designed to give students a greater awareness and understanding of soccer by teaching the skills and strategy of soccer and rules that govern the play of soccer. The advanced course is designed to provide a greater awareness of soccer by teaching advanced skills, strategy, and rules that govern the play of soccer.

TMACT 310  Baseball  1 Unit
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AAAS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course emphasizes defense, offense, pitching, base running, team strategy, and conditioning for advanced baseball.

TMACT 320  Basketball  1 Unit
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AAAS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course features tournament scrimmage play to improve offensive, defensive, and team skills for advanced basketball.

TMACT 330  Volleyball  1 Unit
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AAAS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
The beginning course is designed to develop basic volleyball skills through lecture, demonstration, drills, and practice games. Students will gain a better understanding of and appreciation for volleyball and will be provided with opportunities for skill development. The intermediate course is designed to develop intermediate skills. Lecture and demonstration will provide the knowledge to continue this activity at a higher level. The advanced course is designed to develop advanced skills in those students who have already participated at the elementary level. Lecture and demonstration will provide the knowledge to continue this activity at a higher level skill.

TMACT 340  Football  1 Unit
Advisory: ENGRD 116, ENGWR 102, ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AAAS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This course emphasizes instruction in advanced techniques of offensive and defensive football skills.

TMACT 350  Softball, Fast Pitch  1 Unit
Advisory: High school varsity or college level softball; ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AAAS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
This is a course emphasizing defense, offense, pitching, base running, and conditioning which is designed to develop advanced skills in fielding, pitching, base running, and hitting. Emphasis will be placed on team offensive and defensive strategies at an advanced playing level.

TMACT 352  Softball, Slow Pitch  1 Unit
General Education: AAAS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
Slow pitch softball is a physical education course designed to teach the basic softball skills of throwing, catching, pitching, and hitting. Rules and strategies are also covered, including position play and baserunning. This course may be taken four times for credit.

TMACT 365  Intramural Sports/Campus Recreation  1 Unit
General Education: AAAS Area III(a); CSU Area E2
Course Transferable to UC/CSU
Hours: 54 hours LAB
A class for students interested in increasing their own sports/physical fitness skills and in promoting particular sports/physical fitness activities among other students. This course is intended to provide recreational, competitive and instructional opportunities other than on-going programs. Grading is on a credit/no credit basis.
PHYSICAL EDUCATION

Physical Education Theory

PET 302 Introduction to Physical Education 3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 or ESLR 320 or ESLW 320, or placement through assessment process.
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers the responsibilities and opportunities associated with the physical education profession. Course topics include leadership, theory, history, and principles of physical education.

PET 307 Mental Skills for Sports Performance 3 Units
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 with a grade of "C" or better; or ESLR 320 and ESLW 320 with a grade of "C" or better; or placement through assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course provides an orientation to specific disabilities and important principles of physical activity for individuals with disabilities. Basic knowledge of movement-related terminology, exercise principles and concepts, transfer techniques, and characteristics of specific disabilities as they relate to exercise are covered. This course is invaluable for students interested in pursuing a career in adapted physical education, physical therapy, occupational therapy, nursing, physical education, gerontology, early childhood education, teaching, or fields requiring one to work with individuals with disabilities. It may be of interest to students with disabilities who desire more information about personal health and fitness as they live with their particular disability.

PET 312 Theory and Techniques of Adapted Physical Education 3 Units
Course Transferable to CSU
Hours: 54 hours LEC
This course provides an orientation to specific disabilities and important principles of physical activity for individuals with disabilities. Basic knowledge of movement-related terminology, exercise principles and concepts, transfer techniques, and characteristics of specific disabilities as they relate to exercise are covered. This course is invaluable for students interested in pursuing a career in adapted physical education, physical therapy, occupational therapy, nursing, physical education, gerontology, early childhood education, teaching, or fields requiring one to work with individuals with disabilities. It may be of interest to students with disabilities who desire more information about personal health and fitness as they live with their particular disability.

PET 313 Laboratory in Adapted Physical Education 1-2 Units
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 or ESLR 320, ESLW 320, or placement through assessment.
Course Transferable to CSU
Hours: 54-108 hours LAB
This course offers practical experience in the implementation of physical activity for students with disabilities. This course may be taken three times for credit.

PET 330 Care and Prevention of Athletic Injuries 3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116; or ESLR 320 and ESLW 320, or placement through assessment process.
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an introduction to injury prevention, injury care, and rehabilitation of athletic injuries. It includes basic information regarding sports injuries, their causes, and treatments.

PET 334 Practical Applications in Athletic Training/ Sports Medicine 3 Units
Corequisite: PET 330
Advisory: BIOL 430, ENGWR 102 or ENGWR 103, and ENGRD 116 with a grade of "C" or better; or ESLR 320 and ESLW 320 with a grade of "C" or better; or placement through assessment process.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course provides basic information on a variety of athletic issues ranging from the prevention and treatment of athletic injuries and illnesses to the use of performance enhancement supplements. Topics reflect concerns for athletic performance in competitive sports and wellness.

PET 336 Health Concerns in Athletics 1 Unit
Course Transferable to CSU
Hours: 18 hours LEC
This course covers current problems and new trends in football with emphasis on lecture, demonstrations, and videos of basic fundamental basketball skills, team strategy, offensive and defensive strategies, conditioning drills, and a variety of philosophical methods of how the game is played. May be taken twice.

PET 337 Common Injuries in Athletics 1 Unit
Course Transferable to CSU
Hours: 18 hours LEC
This course offers practical experience in the implementation of physical activity for students with disabilities. This course may be taken twice for credit.

PET 344 Theory of Basketball 1 Unit
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 or ESLR 320, ESLW 320, or placement through assessment.
Course Transferable to UC/CSU
Hours: 18 hours LEC
This course covers current problems and new trends in football with emphasis on basic fundamentals, team defense and offense. May be taken twice.

PET 345 Theory of Football 1 Unit
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 or ESLR 320, ESLW 320, or placement through assessment.
Course Transferable to UC/CSU
Hours: 18 hours LEC
This course covers current problems and new trends in football with emphasis on basic fundamentals, team defense and offense. May be taken twice.

PET 356 Theory of Softball 1 Unit
Advisory: ENGWR 102 or ENGWR 103, and ENGRD 116 or ESLR 320, ESLW 320, or placement through assessment.
Course Transferable to UC/CSU
Hours: 18 hours LEC
This course covers current problems and new trends in football with emphasis on basic fundamentals, team defense and offense. May be taken twice.
PET 400  Applied Physiology of Exercise  2 Units
Course Transferable to CSU
Hours: 36 hours LEC
This course is part of the Fitness Specialist Certificate Program and examines how the body functions under conditions of exercise stress. It covers the practical applications of muscle function, cardiorespiratory functions, training techniques, and the effect of environmental conditions on exercise.

PET 401  Applied Kinesiology  2 Units
Course Transferable to CSU
Hours: 36 hours LEC
This course, a part of the Fitness Specialist Certificate Program, will discuss movement as it relates to exercise. It will include analysis of movements in sport skills, stressing the contributions made by the muscular and skeletal systems.

PET 402  Nutrition for Fitness  2 Units
Same As: NUTRI 307
Course Transferable to CSU
Hours: 36 hours LEC
This course is part of the Fitness Specialist Certificate Program. Basic principles of nutrition are studied and the ramifications of nutrition on fitness training. Not open to students who have completed NUTRI 307.

PET 403  Fitness and Exercise Assessment  1 Unit
Course Transferable to CSU
Hours: 18 hours LEC
This course is part of the Fitness Specialist Certificate Program. It covers the assessment of cardiorespiratory endurance, body fat, muscular strength and endurance, blood pressure, and the evaluation of the results of such tests.

PET 404  Identification and Management of Fitness Injuries  2 Units
Course Transferable to CSU
Hours: 36 hours LEC
This course is part of the Fitness Specialist Certificate Program. This course addresses elementary human anatomy and its relationship to physical activity. Athletic training methods and protective equipment are covered. Treatment and rehabilitation of injuries as they relate to fitness training will be presented.

PET 405  Special Populations  1 Unit
Course Transferable to CSU
Hours: 18 hours LEC
This course for the Fitness Specialist Certificate Program will cover the effects of exercise on special populations and to modify exercise based on age and medical conditions. Special groups discussed will include seniors; children; the physically impaired; and individuals with coronary heart disease, diabetes, asthma, obesity, low back pain, arthritis, or pregnancy.

PET 406  Techniques of Instruction - Strength Training  2 Units
Course Transferable to CSU
Hours: 36 hours LEC
This course, part of the Fitness Specialist Certificate Program, is designed to provide a thorough review of strength training. The course studies anatomy and physiology as they apply to strength training, training sequences, available equipment, and safety factors. Included in this course is the development of strength training routines.

PET 407  Techniques of Instruction - Aerobics and Group Fitness  2 Units
Course Transferable to CSU
Hours: 36 hours LEC
This course is part of the Fitness Specialist Certificate Program and covers teaching a variety of fitness activities to groups of individuals. Emphasis will be on how to design a physiologically safe and effective aerobic exercise class.

PET 408  Administration of Fitness Programs  2 Units
Course Transferable to CSU
Hours: 36 hours LEC
This course is part of the Fitness Specialist Certificate Program. It serves as an introduction to the administration of fitness programs including business operations, office procedures, and facility and equipment considerations.

PET 494  Topics in Physical Education Theory  .5-4 Units
Advisory: ENGWR 102 or ENGWR 103, ENGRD 116 or ESLR 320, ESLW 320, or placement through assessment process.
Course Transferable to CSU
Hours: 9-72 hours LEC
This umbrella course provides concentrated study of a variety of current fitness issues. Topics will reflect contemporary concerns for physical fitness, performance in competitive sport, and wellness. May be taken up to 3 units of credit.

PET 497  Internship in Physical Education - Theory  1.5 Units
Prerequisite: A grade of “C” or better in at least 8 units from the following courses: PET 400, 401, 402 (or NUTRI 307), 403, 404, 405, 406, 407, 408.
Course Transferable to CSU
Hours: 9 hours LEC; 54 hours LAB
This course is designed to provide students in the Fitness Specialist Certificate Program with practical experience in screening, performing fitness assessment tests, and formulating an exercise prescription based on fitness test indicators. In addition to the lecture schedule, there will be additional practicum hours to be arranged at local fitness centers and health clubs.
Physical Science/Mathematics Degree
This program provides a broad study in fields of physical science and mathematics. It provides a good foundation for transfer to a four-year program in science.

Student Learning Outcomes
Upon completion of this program, the student will be able to:
• Recognize and utilize correctly the terminology of math, statistics and/or science.
• Analyze and interpret data, charts and graphs using quantitative and qualitative methods.
• Recognize and construct valid arguments using deductive and inductive reasoning.
• Evaluate new and accepted ideas about the natural universe using testable methodology.

Career Opportunities
This program is intended to provide a broad foundation of skills and knowledge to help students succeed in the completion of a bachelor’s degree in a variety of science, math or engineering-related areas.

Requirements for Degree Major 18 units
A minimum of 18 units from the following: ........................................18
Transferable courses must be selected from the following areas:
astronomy, chemistry, engineering, geology, mathematics, physical
groundy, physical science, physics, and statistics.

Associate Degree Requirements: The Physical Science/Mathematics
Associate in Science (A.S.) Degree may be obtained by completion of the
required program, plus general education requirements, plus sufficient
electives to meet a 60-unit total. See ARC graduation requirements.
PHYS 350  General Physics   4 Units
Prerequisite: MATH 330 with a grade of “C” or better
Advisory: PHYS 311
General Education: AA/AS Area IV; CSU Area B1; CSU Area B3;
IGETC Area 5A
Course Transferable to UC/CSU
Hours: 54 hours LEC; 54 hours LAB
This trigonometry-based physics course covers the mechanics of particles, rigid bodies, and fluids. It also covers mechanical waves, sound, heat, and thermodynamics. The PHYS 350/360 series is designed for biological science students, including those in pre-medical, pre-dental, agricultural, and forestry programs.

PHYS 360  General Physics   4 Units
Prerequisite: PHYS 350 with a grade of “C” or better
Course Transferable to UC/CSU
Hours: 54 hours LEC; 54 hours LAB
This trigonometry-based physics course covers electricity, magnetism, basic electric circuit theory, optics, wave behavior, and modern physics. The PHYS 350/360 series is designed for biological science students, including those in pre-medical, pre-dental, agricultural, and forestry programs.

PHYS 410  Mechanics of Solids and Fluids   5 Units
Prerequisite: MATH 400 with a grade of “C” or better
Corequisite: MATH 401
Advisory: PHYS 311
General Education: AA/AS Area IV; CSU Area B1; CSU Area B3;
IGETC Area 5A
Course Transferable to UC/CSU
Hours: 72 hours LEC; 54 hours LAB
This calculus-based physics course covers mechanics of particles, rigid bodies, and fluids. The PHYS 410, 421, 431 sequence is required for majors in physics, chemistry, or engineering. The course includes lecture, laboratory, and problem discussion sections.

PHYS 421  Electricity and Magnetism   4 Units
Prerequisite: PHYS 410 with a grade of “C” or better
Advisory: MATH 402
Course Transferable to UC/CSU
Hours: 54 hours LEC; 54 hours LAB
This calculus-based physics course is an in-depth treatment of electricity and magnetism. It involves problem solving with an emphasis on physics problems that require integral calculus.

PHYS 431  Heat, Waves, Light and Modern Physics   4 Units
Prerequisite: PHYS 410 with a grade of “C” or better
Advisory: MATH 402
Course Transferable to UC/CSU
Hours: 54 hours LEC; 54 hours LAB
This calculus-based physics course explores the fundamental theories of thermodynamics, waves, optics, and modern physics. Topics include heat, temperature, kinetic theory, waves, sound, light reflection and refraction, optics, interference, diffraction, atomic theory, and nuclear physics.
**International Studies Certificate**

The International Studies Certificate is designed to benefit students who are interested in international issues. Course work focuses on issues ranging from economy and trade to culture, politics, and environment from a transnational perspective.

**Student Learning Outcomes**

Upon completion of this program, the student will be able to:

- Evaluate information presented in a comparative perspective.
- Compare and contrast competing social scientific perspectives and describe the relative usefulness of each perspective to world issues.
- Develop a scientific framework for the analysis of international issues.
- Construct a culturally relativistic view of the world.
- Define his/her place in history based on the knowledge acquired.
- Recognize the complexity of the world as an interconnected and interdependent community.

**Requirements for Certificate**  

**29 Units**

The history course used to meet this requirement may not be used towards the 9 unit elective requirement.

**POLS 301 Introduction to Government: United States**  

**3 Units**

Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.

General Education: AA/AS Area V(a); CSU Area D8; CSU Area F2; CSU Area F3; IGETC Area 4H

Course Transferable to UC/CSU

Hours: 54 hours LEC

This course analyzes the U.S. government's historic origins, philosophical and theoretical justification, constitutional structures and how these institutions work. It examines and describes the procedural aspects of the political system including holding elections, campaigning, voting, lobbying, legislating, executing and adjudicating law. It provides an analysis of contemporary problems and issues. It also describes California state and local governments' constitutional base, structures and functions, political process, problems and issues.

**POLS 302 Introduction to Government: Foreign**  

**3 Units**

Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.

General Education: AA/AS Area V(b); CSU Area D8; IGETC Area 4H

Course Transferable to UC/CSU

Hours: 54 hours LEC

This course comparatively examines the political systems of selected Western European, Eastern European, Asian, Middle Eastern, African, and Latin American countries. Emphasis is on the formation of political institutions, political culture, citizen and interest participation, political parties, and bureaucratic public policy roles.

**POLS 304 Introduction to Government: California**  

**3 Units**

Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better.

Course Transferable to CSU

Hours: 54 hours LEC

This course covers the essential organization, institutions and processes of California state and local government. It fulfills the California State University requirement for state and local government, but not the requirement for the U.S. Constitution.
POLS 310  Introduction to International Relations  3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area V(b); CSU Area D8; IGETC Area 4H
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of the international political system. The focus will be on global issues as they relate to the nation-state system, the role of non-state actors, Global North and Global South relations, globalization, the proliferation of weapons of mass destruction, armed conflict and its causes, regional and hemispheric relations, and international political economy.

POLS 320  Introduction to Political Theory  3 Units
Advisory: ENGRD 116, ENGWR 102, ENGWR 103, ESLR 320, or ESLW 320; or placement through the assessment process.
General Education: CSU Area D8; IGETC Area 4H
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of the ideas that have shaped Western political development, covering important thinkers from the ancient, medieval and modern periods. Topics covered may include theories of just and unjust societies, social contract theory, justifications for government authority, and the rights of citizens versus the responsibilities of citizenship.

POLS 322  Political Ideologies  3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area V(b); CSU Area D8; IGETC Area 4H
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of competing ideological approaches to government and politics. It provides comparative and historical analyses of various ideologies. Emphasis is on the theories, values, and assumptions that make up various political ideologies and their effects on political systems.

POLS 330  Constitutional Rights  3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area V(b); CSU Area D8
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is a survey of American constitutional rights and civil liberties. Emphasis is placed on analysis of U.S. Supreme Court decisions and related materials dealing with issues arising under the Bill of Rights and the 14th Amendment to the U.S. Constitution.

POLS 332  Law and Society  3 Units
Same As: BUS 345
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area V(b); CSU Area D8; IGETC Area 4H
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an introduction to the Anglo-American Common Law System with emphasis upon the nature and purpose of law. The evolution of legal concepts as a reflection of the social environment, and the basic organization and functioning of the American judicial system will be presented from a theoretical rather than a practical viewpoint through analysis of selected cases and reading materials. This course is not open to students who have completed BUS 345.
Psychology Degree

Psychology focuses on the study of behavior of humans and other animals. It involves both pure and practical application of science to matters of everyday life.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Differentiate between scientifically derived knowledge versus myth and conjecture within the field of psychology.
- Compare and contrast the major theoretical orientations in psychology.
- Define basic psychological terminology regarding behavior, cognition, and emotion, and be able to express it clearly when writing or speaking about psychology.
- Evaluate psychological data using the scientific method, draw reasonable conclusions, recognize the ethical implications of these conclusions, and apply these to personal, community, and scientific problems.
- Employ psychological principles that lay the foundation for life-long personal growth and development of interpersonal and social skills.
- Demonstrate appropriate interpersonal and social skills in interactions with a diverse population using principles of equity, justice, and inclusion.

Career Opportunities

The Psychology degree is designed to facilitate students’ successful transfer to four-year programs that prepare them for advanced study in a variety of graduate programs. Psychologists with graduate degrees and professional certificates have a broad range of employment opportunities including, but not limited to, clinical practice, research, and teaching. Clinical psychologists work in a variety of settings and with a wide range of clients. Research psychologists work in a range of fields associated with the study of human behavior, including biomedical, sports psychology, and cognitive neuroscience.

18 Units

Associate Degree Requirements: The Psychology Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

PSYC 300  General Principles  3 Units

General Education: AAAS Area V(b); CSU Area D9; IGETC Area 4I
Course Transferable to UC/CSU
Hours: 54 hours LEC

This course provides a broad overview of general principles of psychology. Topics include the scientific method, statistics, biological determinants, as well as general processes of behavior, such as development, learning, language, intelligence, perception, motivation, emotion, personality, and mental health.

PSYC 305  Personal Growth and Adjustment  3 Units

Advisory: ENGW 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AAAS Area V(b); CSU Area D9; IGETC Area 4I
Course Transferable to UC/CSU
Hours: 54 hours LEC

This course explores human behavior emphasizing the practical and affective aspects of psychology in everyday life. Topics include development, personal growth and adjustment over the life span, motivation, emotions, stress, adjustment, behavior disorder, personality, attitudes, values, and interpersonal relationships.

PSYC 310  Biological Psychology  3 Units

Prerequisite: PSYC 300 with a grade of “C” or better
General Education: AAAS Area IV; CSU Area B2; IGETC Area 5B
Course Transferable to UC/CSU
Hours: 54 hours LEC

This course is an analysis and description of the physiological determinants of behavior. Content includes the brain, the nervous system, central nervous pathologies, endocrine function and the biochemistry of mental disease. This is a basic course for psychology, medical and biological science majors.
PSYC 311  Biological Psychology Laboratory  1 Unit
Corequisite: PSYC 310  
General Education: AA/AS Area IV; CSU Area B2; CSU Area B3;  
IGETC Area 5B
Course Transferable to UC/CSU  
Hours: 54 hours LAB  
This course involves the applied study of the nervous system, focusing on its anatomy, physiology, biochemistry, and impact on behavioral and mental processes. It provides a foundation in the principles of the scientific method and practical experience in its application to the study of biological psychology. Specific topics include anatomy, physiology, and organization of the nervous system, with special emphasis on the brain; anatomy and physiology of the neuron; physiology of nerves and nerve conduction; the biochemistry of the synapse; anatomy and physiology of sensory systems; and psychophysical examination of sensation and perception. Brain dissection procedures, interactive computer simulations, and lab experiments with data collection and analysis are utilized.

PSYC 320  Social Psychology  3 Units
Prerequisite: PSYC 300 with a grade of "C" or better  
General Education: AA/AS Area V(b); CSU Area D9; IGETC Area 4I  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course analyzes human behavior in relation to the social environment, including the power of the situation, other individuals, and the social group. Emphasized topics include aggression, prejudice, attraction, altruism, attitude change, conformity, gender roles, cultural norms, person perception, and social cognition.

PSYC 330  Introductory Statistics for the Behavioral Sciences  3 Units
Prerequisite: PSYC 300 and Math 120 or Math 124 with a grade of "C" or better.  
General Education: AA/AS Area II(b); CSU Area B4; IGETC Area 2  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course focuses upon the concepts and applications of descriptive and inferential statistics in psychology and other behavioral sciences. Topics include hypothesis testing, correlation, chi-square, and analysis of variance procedures.

PSYC 331  Introduction to Statistics for the Behavioral Science - Lab  1 Unit
Corequisite: PSYC 330.  
Course Transferable to CSU  
Hours: 54 hours LAB  
This lab complements Introduction to Statistics for the Behavioral Sciences (PSYC 330) and/or Research Methods in Psychology (PSYC 335) by providing hands-on experience and facilitated instruction in the use of both the SPSS and Microsoft Excel computer software programs. Emphasis is on the techniques of software-assisted applied statistical analysis and data presentation using these software packages.

PSYC 335  Research Methods in Psychology  3 Units
Prerequisite: PSYC 300 with a grade of "C" or better  
Corequisite: PSYC 330 or STAT 301  
Course Transferable to UC/CSU  
Hours: 36 hours LEC; 54 hours LAB  
This course covers the planning and execution of research studies in the behavioral sciences. Crucial topics include hypothesis formation, review of the professional literature, research design, collection of data, statistical analysis, and scientific report writing.

PSYC 340  Abnormal Behavior  3 Units
Prerequisite: PSYC 300 or 305 with a grade of "C" or better  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR placement through assessment process  
General Education: AA/AS Area III(b); CSU Area D9; CSU Area E1; IGETC Area 4I  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course is an exploration of the broad questions of normality and abnormality. Topics include the investigation of specific mental, emotional, and behavioral difficulties and current approaches to psychological intervention including present community mental health practices. It considers the contribution of social, biological and psychological factors to the development and persistence of behavior disorders.

PSYC 342  Introduction to Applied Behavior Analysis  3 Units
Prerequisite: PSYC 300 or 305 with a grade of "C" or better  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR placement through assessment process  
General Education: AA/AS Area III(b); CSU Area E1  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course focuses on basic behavioral principles that describe relations between operant behavior and the social and physical environment. Behavior is examined as a part of the natural world and in everyday situations. The primary focus is on principles of operant conditioning, such as reinforcement, extinction, differential reinforcement, and punishment, as they are related to naturally occurring events. Additional topics include experimental and intervention procedures of applied behavioral analysis. It also covers practical applications including self management, institutional settings, schools, child behavior management, as well as treatment of developmental disorders such as Autism and Asperger's disorders.

PSYC 354  Marriage, The Family and Alternatives  3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area III(b); CSU Area E1  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course is a study of marriage, the family and alternatives from historical, sociological and psychological viewpoints. Topics include the structure and functions of the family, childbearing, gender roles, mate selection, the sexual revolution, conflict, crisis, divorce, and alternatives to traditional marriage.

PSYC 356  Human Sexuality  3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area III(b); CSU Area D9; CSU Area E1; IGETC Area 4I  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course provides an overview of human sexual behavior from birth through adulthood. Sexuality is explored from historical, cultural, psychological, physiological, sociological and legal viewpoints.

PSYC 358  Principles of Interpersonal Relations  3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area III(b); CSU Area E1  
Course Transferable to CSU  
Hours: 54 hours LEC
This course is an introduction to the principles involved in effective interpersonal relationships. Topics will include interpersonal feedback, self-disclosure, listening, the role of emotions, conflict resolution, personal values, and self-awareness. Emphasis is on methods to enhance relationships at home, work, and school.

**PSYC 359  Stress Management and Health  3 Units**  
Same As: HEED 352  
General Education: AA/AS Area III(b); CSU Area E1  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course examines productive and nonproductive stress and the influence of various types of stress on health and wellness. Topics include the physiological aspects of stress and its effects on health, assessments of personal coping style, strategies for coping effectively with stress, relaxation techniques, and positive reinforcers. Emphasis is placed on practical application of stress management techniques in daily life. This course is not open to students who have completed HEED 352.

**PSYC 361  Psychology of Women in a Multicultural Society  3 Units**  
General Education: AA/AS Area V(b); AA/AS Area VI; CSU Area D3; CSU Area D9  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course is a study of the psychological effects of society upon women. Emphasis is on the exploration of gender roles, sex roles, stereotypes, as well as the sociocultural, intrapersonal, and interpersonal factors in the development of women.

**PSYC 365  Issues of Diverse Populations  3 Units**  
Same As: HSER 330  
Advisory: ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area V(b); AA/AS Area VI; CSU Area E1  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course is a study of the values, problems, issues, concerns and counseling needs of special population groups including the elderly, African Americans, Hispanics, Asians, Native Americans, homosexuals, the poor and terminally ill. It also includes the nature and extent of chemical dependency and other addictive behaviors. Not open to students who have completed HSER 330.

**PSYC 370  Human Development: A Life Span  3 Units**  
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area V(b); AA/AS Area III(b); CSU Area D9; CSU Area E1; IGETC Area 4I  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course examines human development across the lifespan, from conception through death, by focusing on development from the perspectives of physiology, cognition, and psychology along with the interaction among these three domains. Emphasis is placed on development as an on-going process and practical application of course material. This course is designed as a foundation for careers in educational, social, psychological, and medical fields as well as providing a better understanding of one's own developmental process.

**PSYC 372  Child Development  3 Units**  
Same As: ECE 312  
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area V(b); CSU Area D9; CSU Area E1; IGETC Area 4I  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course is a study of the growth and development of children from the prenatal stage through adolescence. For each stage of development, the physical, cognitive, linguistic, social-moral, and emotional aspects of development, with attention to both typical as well as atypical development in each area, are discussed. Included are the influences of culture, family, and the environment. This material is designed as a foundation for early care and education, teaching, and parenting. This course is not open to students who have completed ECE 312.

**PSYC 373  Child Psychology  3 Units**  
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area V(b) (effective Summer 2009)  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course introduces the science of child psychology through the analysis of developmental theories and research. Key developmental events across the main domains in developmental psychology (physical, cognitive, socio-emotional) are examined from conception through adolescence. Questions about development are investigated, with an emphasis on the role of the scientific method. Typical and atypical psychological development research is explored as well as the influences of culture, society, family, and physical environments on children's behavior and mental processes. This course provides a scientific foundation for future studies in social sciences, including psychology.

**PSYC 374  Psychology of Aging: Adult Development and Aging  3 Units**  
Same As: GERON 302  
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area V(b); CSU Area E1  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course covers the physical, psychological, and social aspects of the aging process including the interactions between the elderly and the rest of society. Topics include an analysis of stereotypes, social bonds, environmental factors, sexuality, physical health, mental health, death, and bereavement. Not open to students who have completed GERON 302.

**PSYC 378  Communicating with and Validating Older Adults  3 Units**  
Same As: GERON 330  
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area III(b)  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course introduces the basic theory, techniques, and experiences for communication with, validation of, and stimulation of the elderly at different cognitive levels in long-term care. This class is held off campus in a long-term care setting. For internet modality, supervision by an activity professional in a long-term care setting is required. It is not open to students who have completed GERON 330.
PSYC 379  Reminiscence Therapy  3 Units
Same As: GERON 334
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area III(b)
Course Transferable to CSU
Hours: 54 hours LEC
This course introduces the basic theory and techniques of reminiscence therapy and provides experience in planning, facilitating, and evaluating reminiscence groups with the elderly in an institutional setting. Off-campus supervision by an activity professional in a long-term care setting is required for internet modality. It is not open to students who have completed GERON 334.

PSYC 383  Introduction to Organizational Psychology  3 Units
Advisory: PSYC 300, 330, and 335
General Education: AA/AS Area V(b); CSU Area D9
Course Transferable to CSU
Hours: 54 hours LEC
This course provides an overview of the field of organizational psychology, focusing on motivation, leadership, organizational assessment, personnel selection, training, and the application of psychological research techniques in the work environment.

PSYC 390  Psychology of Death and Dying  3 Units
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area III(b); CSU Area E1
Course Transferable to CSU
Hours: 54 hours LEC
This course involves an investigation of beliefs, attitudes, anxieties, and behaviors associated with dying and death. Included will be information relevant to suicide, life-threatening illnesses, bereavement, euthanasia, and various philosophical views on the phenomenon.

PSYC 400  Introduction to Chemical Dependency  3 Units
Same As: HSER 340
Advisory: ENGRW 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.
General Education: AA/AS Area III(b); CSU Area E1
Course Transferable to CSU
Hours: 54 hours LEC
This course examines the physiological effects of chemical dependency on the individual. It includes an analysis of the effects of substance abuse on the family; the sociological, economic conditions contributing to substance abuse; and a description of community efforts at prevention and treatment. This course is not open to students who have completed HSER 340.

PSYC 401  Physiology and Pharmacology: Alcohol & Other Drugs  3 Units
Same As: HSER 341
Prerequisite: HSER 340 or PSYC 400 with a grade of "C" or better
Course Transferable to CSU
Hours: 54 hours LEC
This course is a study of the chemical composition of alcohol and the mechanism of action in the body of alcohol and other psychoactive drugs, including opiates, stimulants, depressants, psychotherapeutics, and psychedelics. It also includes the social and psychological implications of tolerance, habituation, and substance abuse of the user and abuser. This course is not open to students who have completed HSER 341.

PSYC 402  Alcoholism: Intervention, Treatment & Recovery  3 Units
Same As: HSER 342
Prerequisite: HSER 341 or PSYC 401 with a grade of "C" or better
Course Transferable to CSU
Hours: 54 hours LEC
This course is a study and evaluation of techniques used in the treatment of chemical dependency. Topics include intervention, individual and group counseling, detoxification, twelve-step program, therapeutic communities, and aftercare programs. This course is not open to students who have completed HSER 342.

PSYC 480  Honors General Principles  3 Units
Prerequisite: Cumulative GPA of 3.0 or above; ENGRW 300 or 480 with a grade of "C" or better; ENGRD 015 with "C" or better; OR placement through assessment process.
General Education: AA/AS Area V(b); CSU Area D9; IGETC Area 4I
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is for psychology majors, behavioral science majors and other students who desire a challenging, critical thinking and issues-oriented introduction to general principles. Topics include the scientific method, statistics, biological determinants and general processes of behavior such as development, learning, verbal behavior, intelligence, perception, motivation, emotion, personality and mental health. Using a seminar style, the focus will be on encouraging thorough analysis and evaluation of psychological theories and research studies as they relate to practical, everyday issues.

PSYC 481  Honors Abnormal Behavior  3 Units
Prerequisite: Cumulative GPA of 3.0 or above; PSYC 300 or PSYC 480 with a grade of "C" or better; ENGRW 300 OR ENGRW 480 with a grade of "C" or better.
General Education: AA/AS Area III(b); CSU Area D9; CSU Area E1; IGETC Area 4I
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is for psychology majors, behavioral science majors, and others who desire a challenging, critical thinking, and issues-oriented exploration of normality and abnormality. Examination of the origins, symptoms and treatment of psychological disorders through first-person accounts, role of multicultural factors, and various theoretical stances. The focus is on thorough analysis and evaluation of biopsychosocial theories and research studies as they relate to the development and persistence of behavior disorders and treatment approaches.
The Sacramento Regional Public Safety Training Center (SRPSTC), operated by American River College, is dedicated to providing high quality training and educational programs for public safety personnel. The center offers entry-level and advanced in-service instruction in areas that meet the needs of individuals as well as public and private agencies.

All courses meet the academic standards of the Los Rios Community College District. These courses may be certified by the California Commission on Peace Officers Standards and Training (POST), California Standards and Training for Corrections (STC), and the California State Fire Marshal’s Office. Most courses presented at the SRPSTC are offered in an intensive, concentrated, short-term format.

Graduates from the basic core courses may be eligible for employment in county and city law enforcement agencies specializing in police, corrections and/or probation.

**Technical/Professional Development (In-Service) courses**

Technical training and in-service courses are geared primarily for law enforcement officers, correctional officers, probation officers or other individuals within the criminal justice system. Individuals taking these courses generally are seeking technical knowledge and skills for professional enhancement or they are mandated by POST, STC, or the California State Fire Marshal’s Office. Technical courses involving instructor certification may require a proficiency skills test prior to registration. California Statute or prerequisites may restrict student registration into some courses.

**Program Costs and Registration**

Additional information and course reservations are available by calling the center at (916) 570-5000 or visit our website at www.arc.losrios.edu/safety. Students are required to pay for the cost of the materials consumed during the training course and established community college enrollment fees.

**Contract Partnerships**

The Sacramento Regional Public Safety Training Center, Los Rios Community College District and select local and regional agencies have partnered to establish additional training options for the Public Safety Professional/Student. Courses offered through our Contract partnership meet all of the regulatory standards set by the Los Rios Community College District, American River College, POST, and/or STC. California Statute or prerequisites may restrict student registration into some courses.

**County of Sacramento**

- For information on the Basic Academy, contact the Sacramento Sheriff’s Training Academy, 1000 River Walk Way, Carmichael, CA 95608, call (916) 874-1098, or visit the webpage at: www.sacsheriff.com/divisions/dtfr/acadinfo.cfm.
- For information regarding in-service training course, contact the Sheriff’s Department, Division of Training and Reserve Forces at (916) 874-1098 or visit the webpage at www.sacsheriff.com/divisions/dtfr/inservice.cfm.
- For information regarding the P.C. 832 Modular Training, contact the Division of Training and Reserve Forces at (916) 875-0006, or visit the website: www.sacsheriff.com/divisions/dtfr/pc832.cfm.

**City of Sacramento**

Sacramento Regional Chaplain’s Program

• For information on courses presented by the Sacramento Regional Chaplain’s Program, call (916) 857-1801 or visit their website at: www.sacchaplains.com.

Folsom Police Department

• For information on courses presented by the Folsom Police Department, call (916) 355-7298.

Additional information regarding training programs offered by the Sacramento Regional Public Safety Training Center and any one of its Contract partners, is available by contacting any staff member at (916) 570-5000 or any staff member of the agency’s training division.
Real Estate Degree

The associate degree program in real estate focuses on the practical application and concepts utilized in real estate markets and career fields. Course work includes real estate principles, legal aspects, practice, finance, economics and appraisal.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Identify and explain the major functional areas of real estate, including legal aspects, finance, economics, real estate practice, and appraisal.
• Demonstrate effective leadership skills in a real estate environment.
• Analyze practical real estate problems.
• Integrate real estate principles related to finance, law, products, services and information.
• Assess current real estate market conditions.
• Recommend appropriate sales strategies, based on market conditions.
• Qualify for the California Real Estate Brokers and Salesperson license examinations.
• Utilize research and critical thinking to evaluate and recommend alternative solutions to real estate problems.

Career Opportunities

Real estate salesperson; real estate broker; real estate appraiser; small business owner

Associate Degree Requirements: The Real Estate Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Real Estate Certificate

This certificate introduces the basic concepts of the real estate career field. Topics include the principles of real estate, law, economics, finance, practice and appraisal.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Apply a basic knowledge of the fundamental concepts of real estate.
• Define the technical terminology involved in the real estate field.
• Interpret and apply a knowledge of real estate transactions.
• Qualify for the California Real Estate Salesperson’s License Examination.
• Analyze real estate situations and property, interpret the data, and properly complete deposit receipts.

Note: The California Department of Real Estate gives the exams and issues the Real Estate Salesperson and Broker’s Licenses. Students should contact DRE at the start of this program to verify individual requirements.
RE 190 Real Property Management 3 Units
Advisory: ENGWR 102 or ENGWR 103 and ENGRD 116 or ESLR 320 and ESLW 320.
Hours: 54 hours LEC
In this class, the student will learn about the day-to-day operation and management of real property including: marketing procedures, leases, maintenance, accounting and economics, record-keeping, management forms, legal requirements, laws, human relations, employer responsibilities and management.

RE 300 California Real Estate Principles 3 Units
Course Transferable to CSU
Hours: 54 hours LEC
This course covers the basic laws and principles of California real estate. It provides the background and terminology necessary for advanced study in specialized courses. This course is required by the California Department of Real Estate prior to taking the real estate salesperson's examination.

RE 310 Real Estate Practice 3 Units
Advisory: ENGWR 102, or ENGWR 103, and ENGRD 116; or ESLR 320 and ESLW 320; and BUS 105 and RE 300
Course Transferable to CSU
Hours: 54 hours LEC
This course covers the daily operations in the role of real estate agent or broker. It includes listing, prospecting, advertising, financing, sales techniques, escrow, and ethics. It also covers basic laws and practices of California real estate and provides background and terminology necessary for advanced study in more specialized courses. It applies towards the educational requirements for the broker's examination.

RE 320 Real Estate Finance 3 Units
Advisory: ENGWR 102, or ENGWR 103, and ENGRD 116 or ESLR 320 and ESLW 320; and BUS 105.
Course Transferable to CSU
Hours: 54 hours LEC
This course surveys real estate financing, including lending policies and problems in financing transactions in residential apartments, commercial and special purpose properties. Methods of financing properties are emphasized. This course meets one of the educational requirements to qualify for the California Department of Real Estate broker's examination.

RE 330 Legal Aspects of Real Estate 3 Units
Advisory: RE 300; ENGWR 102 or ENGWR 103 and ENGRD 116 or ESLR 320 and ESLW 320; and BUS 105.
Course Transferable to CSU
Hours: 54 hours LEC
This course surveys California real estate laws, including methods of ownership, estates, transfers, financing instruments, foreclosures, leasing, contracts, and agency. This course meets one of the educational requirements to qualify for the California Department of Real Estate broker's examination.

RE 342 Real Estate Appraisal 3 Units
Course Transferable to CSU
Hours: 61 hours LEC
This course provides entry-level education in the real estate appraisal field. Concentrating on the appraisal of single-family residences, the course covers basic appraisal principles and procedures, and Uniform Standards of Professional Appraisal Practice (USPAP) pursuant to the federal Appraisal Qualification Board’s (AQB) Real Property Appraiser Qualification Criteria (effective January 1, 2008). It meets the California Office of Real Estate Appraisers' (OREA) requirements for Basic Education and the National Uniform Standards of Professional Appraisal Practice (USPAP). The course also applies toward Department of Real Estate’s (DRE) educational requirements (3 semester units) for the broker's examination. Field trips may be required.

RE 350 Real Property Management 3 Units
Course Transferable to CSU
Hours: 54 hours LEC
This course covers operation and management of real property marketing procedures, leases, maintenance, insurance, accounting, records, public and human relations, employer responsibilities, and selection of personnel and agreements. It applies towards the educational requirements for the broker's examination.

RE 360 Real Estate Economics 3 Units
Advisory: RE 300.
Course Transferable to CSU
Hours: 54 hours LEC
This course covers the nature and classification of real estate and real estate investments. Topics include economic development of real property, real estate cycles and market trends, and governmental and private sector influence on the economics of real estate. It is recommended that this course be taken last in the real estate series. This course meets one of the educational requirements to qualify for the California Department of Real Estate broker's examination.

RE 390 Real Estate Investment Analysis 3 Units
Advisory: RE 300 and 320.
Course Transferable to CSU
Hours: 54 hours LEC
This course is designed for brokers, salespersons and investors. It involves property and financial analysis of a wide range of real estate investment offerings, their risks and associated yields. The course emphasizes planning and the specific objectives of the investor.
Recreation Management Degree

This degree provides training for an entry-level career in the field of recreation and leisure services. It explores the many career fields in recreation including public service, private recreation, outdoor recreation and leadership positions.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• analyze community needs for parks and recreation programs.
• create recreation programs and supervise staff.
• demonstrate leadership skills in recreation programs.
• administer a wide variety of parks and community services.

Career Opportunities

Careers in recreation include jobs in park facilities and services in federal, state, municipal and voluntary nonprofit agencies. Commercial and private recreation also provide opportunities for employment. Travel and tourism, club management, resort recreation, food and beverage services, lodging, professional sports, entertainment and cultural services are very much a part of the exploding recreation and leisure services market.

Associate Degree Requirements: The Recreation Management Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

RECR 310 Outdoor Recreation 3 Units

Advisory: ENGWR 102, ENGRD 116 or ESLR 320, ESLW 320.
Course Transferable to CSU
Hours: 54 hours LEC
Orientation to job opportunities; trends, problems and issues in public and private outdoor recreation agencies. Philosophies and operating purposes of state and local governmental outdoor recreation facilities. Field trips to outdoor recreation areas required.

RECR 320 Recreation Activity Leadership 3 Units

Advisory: ENGWR 102 or ENGRD 103, ENGRD 116 or ESLR 320, ESLW 320; or placement through assessment process.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This is a basic course for recreation majors, involving a study of essential elements and basic principles of organization and leadership of various types of recreation programs. It covers the methods and materials used in planning and conducting organized recreation programs in public and private agencies. Special emphasis will be placed on the role of the face-to-face leader in organizing recreational programs in a variety of settings. Required of all recreation majors. (CAN REC 4)

RECR 498 Work Experience in Recreation 1-4 Units

Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AAS Area III(b)
Enrollment Limitation: Be in a paid or non-paid internship, volunteer opportunity, or job related to recreation. Students are advised to consult with the Physical Education Department faculty to review specific certificate and degree work experience requirements.
Course Transferable to CSU
Hours: 60-300 hours LAB
This course provides students with opportunities to develop marketable skills in preparation for employment or advancement within the field of recreation. It is designed for students interested in work experience and/or internships in transfer level degree occupational programs. Course content includes understanding the application of education to the workforce; completion of required forms which document the student’s progress and hours spent at the work site; and developing workplace skills and competencies. Appropriate level learning objectives are established by the student and the employer. During the semester, the student is required to fulfill a weekly orientation and 75 hours of related paid work experience, or 60 hours of unpaid work experience for one unit. An additional 75 or 60 hours of related work experience is required for each additional unit. The weekly orientation is required for first time participants; returning participants are not required to attend the weekly orientation but are required to meet with the instructor as needed to complete all program forms and assignments. Work Experience may be taken for a total of 16 units when there are new or expanded learning objectives.
The ARC Respiratory Care Program

The program is accredited by the Commission on Accreditation of Allied Health Programs. Successful completion of the program qualifies the graduate to apply for the credentialing examinations offered through the State of California and the National Board for Respiratory Care. The student is responsible for providing laboratory coats, laboratory fees, malpractice insurance and transportation to off-campus facilities. There may be morning, afternoon or evening clinical experiences in a variety of clinical settings with limited notice.

NOTE: In accordance with Article 5 of the Respiratory Care Practice Act, a person convicted of any offense other than a minor traffic violation, may not qualify to be licensed as a Respiratory Care Practitioner. Questions regarding this matter must be directed to the Respiratory Care Board, Board of Medical Quality Assurance.

Respiratory Care Degree

This degree is designed to prepare licensed respiratory care practitioners. It focuses on the treatment and management of patients with conditions affecting the cardiopulmonary system. Courses include physical assessment, medical gas administration, life-supporting mechanical ventilation, pharmacology, neonatal/pediatric therapy, and specialized cardiopulmonary procedures.

NOTE: All degree major courses require a grade of “C” or better.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Recommend competent treatment plans based upon auditory, tactile and visual feedback.
• Implement appropriate therapy to patients within accepted standards of care in a timely fashion.
• Report assessment findings, treatment plans and recommendations for care to appropriate health care professionals.
• Document patient care in accordance with local, regional and national standards in a timely manner.
• Comply with ethical standards established by state licensing board.

Career Opportunities

The outlook for respiratory care practitioners is expected to grow in the coming years due to the large increase in the elderly population, the impact of environmental problems that have contributed to breathing problems, and technological advances that are prolonging the lives of those suffering from heart attack, cancer and accidents, as well as premature babies. In addition, an increasing number of practitioners have branched out into alternate care settings such as nursing homes, physicians' offices, home health agencies, specialized care hospitals, medical equipment supply companies, and patients’ homes.

Enrollment Eligibility

To be eligible for enrollment in the program, the student must meet the following criteria:

• Graduation from an accredited high school in the United States or successful completion of the General Educational Development (GED) Test or California High School Proficiency Examination (CHSPE) as defined by the current requirements of the State of California and National Board for Respiratory Care.
• BIOL 430 with a grade of “C” or better.
• MATH 100 or equivalent with a grade of “C” or better.
• Minimum cumulative college GPA of 2.0.
• A Curriculum Planning Summary Sheet dated within the semester the enrollment packet is submitted.

Respiratory Care Program - Spring 2010

The ARC Respiratory Care Program is updating the curriculum beginning with the Spring 2010 class. The curriculum changes were designed to support better student success and advanced preparation for clinical practice. In additions, the changes will comply with changing industry and accreditation standards.

Students who wish to be considered for the Spring 2010 new Respiratory Care Program should consult the Health Science Division Office website and the ARC Counseling Office for changes in the pre-enrollment requirements.

Enrollment Process

Eligible students are selected for the program according to the following steps:

• Applications to the program may be obtained at the Health and Education Building, Room 770 or online at www.arclosrios.edu/edhealth/respcare.html, and are due in the Health and Education office no later that 4:00 p.m. the second Friday in October.
• Selection is based on a computerized random selection process from among the qualified applicants.
• Only students who meet the pre-enrollment requirements and follow the pre-enrollment procedures will be considered for the program.
• The student accepted into the Respiratory Care program is responsible for providing laboratory coats, laboratory fees, malpractice insurance.

Associate Degree Requirements: The Respiratory Care Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

RC 110 Introduction to Health Care for the Respiratory Care Practitioner 2 Units
Prerequisite: Acceptance into the Respiratory Care Program. Corequisite: RC 111 and 112.
Hours: 36 hours LEC
The course describes the organizational context of the U.S. health care system as it relates to the role and function of respiratory care practitioners. It focuses on the skills of communication and human interaction within the context of the modern health care delivery system. It also presents the ethical, legal, interprofessional, and economic aspects of health care. It also identifies health care related safety techniques including universal precautions and infection control. Critical thinking processes are presented as a basis for comprehension of course content.

RC 111 Applied Cardiopulmonary Physiology 3 Units
Prerequisite: Acceptance into the Respiratory Care Program. Corequisite: RC 110 and 112; BIOL 431.
Hours: 54 hours LEC
This course provides a foundation for the development of critical thinking skills necessary for the clinical practice of respiratory care. It gives a comprehensive overview of the cardiopulmonary system with emphasis on applied physiology expanding on the concepts introduced in anatomy and physiology, and provides in depth information on ventilation, gas transport and acid-base balance, including interpretation of data and the relationship of physiological principles to patient care.

RC 112 Patient Assessment - Introduction to Clinical Problem Solving 2 Units
Prerequisite: Acceptance into the Respiratory Care Program. Corequisite: RC 110, 111, and 113.
Hours: 36 hours LEC
This course presents a clinically oriented guide to assessment of the patient's cardiopulmonary system with emphasis on its application to respiratory care procedures. It also describes assessment procedures, equipment, and the interpretation of results arising from the gathered information.

RC 113 Patient Assessment Techniques 2 Units
Prerequisite: Acceptance into Respiratory Care program. Corequisite: RC 110, 111, and 112.
Hours: 108 hours LAB
This course consists of laboratory introduction of skills and procedures as well as supervised clinical experience, with emphasis on the application of theories and techniques related to assessment of patients with cardiopulmonary illness. It integrates the patient assessment procedures, manipulation, examination, plus assessment of equipment, with the evaluation, interpretation, and application of patient data in the clinical setting.

RC 120 Pharmacology for Respiratory Care 3 Units
Prerequisite: RC 110, 111, 112, and 113 with a grade of “C” or better. Corequisite: RC 121, 122, 123.
Hours: 54 hours LEC
The course covers the concepts and principles of pharmacology required in the practice of respiratory care, including medications, actions, dosages, routes of administration and adverse reactions. It also includes patient education of medication delivery devices, patient monitoring devices, utilization techniques, and the standards for therapeutic efficacy in relation to asthma, chronic obstructive pulmonary disease and smoking cessation.

RC 121 Cardiopulmonary Pathophysiology 3 Units
Prerequisite: RC 110, 111, 112 with a grade of “C” or better. Corequisite: RC 120 and 122.
Hours: 54 hours LEC
This course covers the manifestations of cardiopulmonary and related diseases encountered in respiratory care practice. It presents the causes for and general treatment, as well as respiratory care treatment of these diseases. It also includes the evaluation for possible diagnoses, treatment approaches and evaluation of patient response to treatment for possible modification.

RC 122 Theory and Techniques I - Fundamental Respiratory Care 3 Units
Prerequisite: RC 110, 111, 112, and 113 with a grade of “C” or better. Corequisite: RC 120, 121, and 123; and PHYS 310.
Hours: 54 hours LEC
The course presents the principles of medical gas delivery devices; humidity, aerosol and hyperinflation therapies and chest physiotherapy. It also presents the application, patient assessment, patient monitoring, and the evaluation of the efficacy of medical gas, humidity, aerosol and hyperinflation therapies and chest physiotherapy.
RESPIRATORY CARE

RC 123 Fundamental Respiratory Care Techniques 2 Units
Prerequisite: RC 110, 111, 112, and 113 with grade of "C" or better.
Corequisite: RC 120, 121, 122.
Hours: 108 hours LAB
This course consists of laboratory introduction of skills and procedures as well as supervised clinical experience, with emphasis on the application of theories and techniques related to fundamental respiratory care procedures. Focus is on the application of skills learned in previous respiratory care courses while developing new skills related to medical gas, humidity, aerosol medication administration, hyperinflation therapies and chest physiotherapy.

RC 130 Theory II - Adult Critical Care Techniques/Special Procedures 3 Units
Prerequisite: RC 120, 121, 122 with a grade of "C" or better.
Corequisite: RC 131.
Hours: 54 hours LEC
This course presents the principles of airway management, mechanical ventilatory support of the adult, hemodynamic monitoring, metabolic assessment, hyperbaric oxygen therapy and the transport of the mechanically ventilated adult. It presents advanced cardiopulmonary life support techniques.

RC 131 Techniques II- Adult Critical Care Techniques/Special Procedures 1 Unit
Prerequisite: RC 120, 121, 122, and 123 with grades of "C" or better.
Corequisite: RC 130 and 132.
Hours: 54 hours LAB
This course provides in class laboratory practice in airway management, including intubation, suctioning and bronchoscopy to adult patients in critical care units. It further provides in class laboratory practice in non-invasive and invasive mechanical ventilatory support, including ventilator settings/adjustments, monitoring, adjusting ventilators to improve oxygenation and/or ventilation and discontinuance from ventilatory support on adult patients in critical care units.

RC 132 Clinical Application: Adult Critical Care Techniques/Special Procedures 6 Units
Prerequisite: RC 120, 121, 122, and 123 with grades of "C" or better.
Corequisite: RC 130 and 131.
Enrollment Limitation: Meet the health requirements of the Los Rios Community College District for Allied Health programs and certification in Basic Life Support for the Health Care Provider.
Hours: 324 hours LAB
This course provides clinical practice in the application of airway management, including intubation, suctioning and bronchoscopy to adult patients in critical care units. It further provides clinical practice in application of non-invasive and invasive mechanical ventilatory support as applied to neonatal and pediatric patients in specialized critical care units. It also provides practice in pulmonary rehabilitation techniques, cardiopulmonary stress testing, sleep studies and respiratory care techniques in the home setting. Field trips are required.

RC 140 Theory III - Respiratory Care in Specialty Areas 3 Units
Prerequisite: RC 130, 131 with a grade of "C" or better; current certification of advanced cardiopulmonary life support.
Corequisite: RC 141.
Hours: 54 hours LEC
This course presents the principles of neonatal/pediatric respiratory care, including basic and advanced techniques as well as transport of mechanically ventilated newborns and children. It also presents the principles underlying cardiopulmonary rehabilitation, including patient assessment, stress testing, reconditioning techniques, psychosocial aspects specific to the home setting and long term ventilator care.

RC 141 Techniques III - Neonatal/Pediatric and Cardiopulmonary Rehabilitation Techniques 1 Unit
Prerequisite: RC 130 and 131 with grades of "C" or better.
Corequisite: RC 140 and 142.
Hours: 54 hours LAB
This course provides in class laboratory practice in medical gas, humidity/aerosol, hyperinflation and bronchial hygiene therapies, airway management and non-invasive and invasive mechanical ventilatory support as applied to neonatal and pediatric patients in specialized critical care units. It also provides practice in pulmonary rehabilitation techniques, cardiopulmonary stress testing, sleep studies and respiratory care techniques in the home setting.
General Science Degree

This program provides a broad study in the fields of biological and physical sciences in preparation for transfer to a four-year program and continuation of studies in upper division science courses.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Evaluate new and accepted ideas about the natural universe using scientific methods.
• Analyze a wide variety of natural phenomena using basic definitions and fundamental theories of biological or physical sciences.
• Analyze and interpret collected data using appropriate quantitative and qualitative methods.
• Articulate orally and/or in writing the importance of continuous examination and modification of accepted ideas as a fundamental element in the progress of science.

Requirements for Degree 18 Units

A minimum of 18 units from the following: .......................... 18
Transfer level courses in addition to other graduation requirements.
One laboratory course in a physical science and one laboratory course in a biological science must be included. Courses may be selected from anatomy, astronomy, bacteriology, biology, biotechnology, botany, chemistry, geology, physical anthropology, physical geography, physical science, physiology, physics, and zoology.

Associate Degree Requirements: The General Science Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.
Sign Language Studies: Business Degree and Certificate

The program in Sign Language Studies: Business provides an introductory overview of American Sign Language, the Deaf community in a cultural context and the psychosocial dynamics of people who want to pursue training in business management while working in the Deaf community.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Demonstrate ability to carry on a sign language conversation consistent with the ability of a 4th semester second language learner with a Deaf individual or groups of Deaf people.
- Categorize and describe characteristics that impact a Deaf person's life in the following areas: the world of work, education, family, language, and social development.
- Organize a plan to utilize career development tools and resources for use in the Deaf community.
- Appraise educational resources, processes, and practices that apply to Deaf people.
- Evaluate criteria that relate to personal growth within the Deaf community.
- Apply human relations techniques with individuals and groups within the Deaf community.
- Assess the necessary processes for changes in organizational behavior to occur within the Deaf community.

Sign Language Studies: Human Services Degree and Certificate

The program in Sign Language Studies: Human Services provides an introductory overview of American Sign Language, the Deaf community in a cultural context and the psychosocial dynamics of people working in the Deaf community. The certificate also emphasizes development of skills related to paraprofessional services in an individual or group setting in an educational or social services agency which serves deaf clients.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Demonstrate ability to carry on a sign language conversation consistent with the ability of a 4th semester second language learner with a Deaf individual or groups of Deaf people.
- Compare and contrast characteristics that impact a Deaf person's life in the following areas: the world of work, education, family, language, and social development.
- Utilize career development tools and resources for use in the Deaf community.
- Appraise educational resources, processes, and practices that apply to Deaf people.
- Apply characteristics related to personal growth and adjustment in various populations within and outside of the Deaf community.
- Demonstrate skills in working with school age Deaf children in the educational setting.
- Compare and differentiate the Deaf individual to individuals of diverse populations when comparing human development.

**Associate Degree Requirements:** The Sign Language Studies: Human Services Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

**Interpreter Preparation Program Degree**

The Sign Language Studies Interpreting program provides an integrated series of coursework in American Sign Language (ASL) and ASL/English interpretation to prepare students for entry-level positions. A foundation in ASL discourse and interpretation is established through theoretical models. The emphasis is on the practical application of these models and knowledge in the areas of human relations, language skills, interpreting skills, and professionalism. The general education requirements complete the sequence of coursework to attain the A.A. degree.

**Student Learning Outcomes**

Upon completion of this program, the student will be able to:

- Discuss and apply knowledge of linguistic, cross-cultural and interpretation theories.
- Demonstrate communicative competency in English and in ASL through effective communication in a variety of settings with speakers of varying age, gender, and ethnicity.
- Analyze, identify and apply personal, professional and ethical decisions in a manner consistent with theoretical models and standard professional practice.
- Demonstrate interpersonal competencies that foster effective communication and productive collaboration with colleagues, consumers and employers in an interpreting context.
- Formulate effective interpretations both consecutively and simultaneously.
- Develop an on-going professional action plan integrating interactions with D/deaf related organizations, connections with interpreter employers, and the implications of certification on the provision of interpreting.

**Career Opportunities**

Employment in the field for American Sign Language/English interpreters is excellent locally, regionally, and nationally. The qualified American Sign Language/English interpreter enjoys a well compensated, rewarding, highly flexible career, which should continue in the future. This field is expanding; growth in the job market is projected.

**Enrollment Eligibility**

To be eligible for enrollment in the program, the student must meet the following criteria:

- Graduation from an accredited high school in the United States, or successful completion of the General Educational Development (GED) Test or California High School Proficiency Examination (CHSPE) prior to time of application. a) Students with a high school diploma from a school outside the United States must have transcripts evaluated by a National Association of Credential Evaluation Services (NACES) approved independent agency. Such cases will be evaluated on an individual basis. b) Students who possess an Associate of Arts/Associate of Science degree or higher from a regionally accredited college are exempt from the educational requirement stated above. c) Students who have attended college outside the United States must have transcripts evaluated by a NACES approved independent agency, demonstrating AA/AS degree or higher. Such cases will be evaluated on an individual basis.
- SILA 316, ASL 4 or the equivalents, with a grade of “C” or better.
- Eligibility for ENGRD 310 or 312.
- A completed pre-enrollment application.

**Associate Degree Requirements:** The Sign Language Studies: Interpreter Preparation Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

**Interpreter Preparation Program Certificate**

The Sign Language Studies Interpreting program provides an integrated series of coursework in American Sign Language (ASL) and ASL/English interpretation to prepare students for entry-level positions. A foundation in ASL discourse and interpretation is established through theoretical models. The emphasis is on the practical application of these models and knowledge in the areas of human relations, language skills, interpreting skills and professionalism.

**Student Learning Outcomes**

Upon completion of this program, the student will be able to:

- Discuss and apply knowledge of linguistic, cross-cultural and interpretation theories.
- Demonstrate communicative competency in English and in ASL through effective communication in a variety of settings with speakers of varying age, gender, and ethnicity.
- Analyze, identify and apply personal, professional and ethical decisions in a manner consistent with theoretical models and standard professional practice.
- Demonstrate interpersonal competencies that foster effective communication and productive collaboration with colleagues, consumers and employers in an interpreting context.
- Formulate effective interpretations both consecutively and simultaneously.
- Develop an on-going professional action plan integrating interactions with D/deaf related organizations, connections with interpreter employers, and the implications of certification on the provision of interpreting.

**Career Opportunities**

Employment in the field for qualified American Sign Language/English interpreters is excellent locally, regionally, and nationally. The qualified American Sign Language/English interpreter enjoys a well compensated, rewarding, highly flexible career, which should continue in the future. This field is expanding; growth in the job market is projected.

**Enrollment Eligibility**

To be eligible for enrollment in the program, the student must meet the following criteria:

- Graduation from an accredited high school in the United States, or successful completion of the General Educational Development (GED) Test or California High School Proficiency Examination (CHSPE) prior to time of application: a) Students with a high school diploma from a school outside the United States must have transcripts evaluated by a National Association of Credential Evaluation Services (NACES) approved independent agency. Such cases will be evaluated on an individual basis. b) Students who possess an Associate of Arts/Associate of Science degree or higher from a regionally accredited college are exempt from the educational requirement stated above. c) Students who have attended college outside the United States must have transcripts evaluated by a NACES approved independent agency, demonstrating AA/AS degree or higher. Such cases will be evaluated on an individual basis.

- SILA 316, ASL 4 or the equivalents, with a grade of “C” or better.
- Eligibility for ENGRD 310 or 312.
- A completed pre-enrollment application.

**Enrollment Process**

Eligible students are selected for the program according to the following steps:

- Pre-enrollment applications and deadlines for the Interpreter Preparation Program (IPP) are available from the Humanities Division, the coordinator of the IPP or at the ARC IPP website. The Interpreter Preparation Program currently accepts students once per year for the Fall semester which begins in August. Applications for the Fall semester are available by February 15th and the deadline to submit the application is by the second Friday in April.
- Only qualified applicants who meet the educational requirements and follow the pre-enrollment procedures will be considered for the program. Meeting all these requirements does not guarantee acceptance into the program.
- Selection is based on a random selection process should the number of applicants exceed available space in the program.
- Upon completion and acceptance of the pre-enrollment application, students will participate in an interview/screening process conducted by the Interpreter Preparation Program. Should the number of qualified applicants exceed available space in the program, selection will be based on the rankings from the interview/screening process.

**Intrp 300** Ethics and Professional Standards of Interpreting 3 Units  
Prerequisite: Intrp 303 with a grade of “C” or better  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course provides an exploration of personal ethics and values, the Registry of Interpreters for the Deaf (Rid) Code of Professional Conduct, and interpersonal relations as they relate to professional and ethical decision-making. Emphasis is on professional integrity, managing personal and professional behaviors, and conflict resolution for interpreters.

**Intrp 303** Orientation to the Interpreting Profession 3 Units  
Enrollment Limitation: Acceptance into the Interpreter Preparation Program  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course provides working knowledge of the interpreting profession. Topics include the history of the interpreting field, personal and professional demands, laws and regulations, certification and evaluation standards, and the employment environment. Career-long learning, self-awareness, and intrapersonal and interpersonal skills are explored during this course.

**Intrp 305** ASL to English Interpreting 3 Units  
Prerequisite: Intrp 303 with a grade of “C” or better  
Corequisite: Intrp 307  
Course Transferable to CSU  
Hours: 36 hours LEC, 54 hours LAB  
This course provides basic skills in translation and consecutive interpreting from American Sign Language (ASL) to English. Topics include a theoretical analysis of the interpreting process, application of academic and world knowledge, and an introduction to fundamental interpreting skills and techniques for professional interactions.

**Intrp 307** English to ASL Interpreting 3 Units  
Prerequisite: Intrp 303 with a grade of “C” or better  
Corequisite: Intrp 305  
Course Transferable to CSU  
Hours: 36 hours LEC, 54 hours LAB  
This course provides basic skills in translation and consecutive interpreting from English to American Sign Language (ASL). Topics include a theoretical analysis of the interpreting process, application of academic and world knowledge, and an introduction to fundamental interpreting skills and techniques for professional interactions.

**Intrp 310** Introduction to Deaf Blind Interpreting .5 Units  
Prerequisite: Intrp 303 with a grade of “C” or better  
Course Transferable to CSU  
Hours: 9 hours LEC  
This course provides an exposure to, background in, and techniques for working with members of the deaf blind community.

**Intrp 312** Introduction to Oral Transmission .5 Units  
Prerequisite: Intrp 303 with a grade of “C” or better  
Course Transferable to CSU  
Hours: 9 hours LEC  
This course provides exposure to, background in, and techniques for oral transmission and interaction with oral deaf people.

**Intrp 314** Introduction to Multicultural Communication .5 Units  
Prerequisite: Sila 316 with a grade of “C” or better  
Advisory: Intrp 305  
Course Transferable to CSU  
Hours: 9 hours LEC  
This course is an introduction to the field of multicultural communication. The focus will be on cultural and linguistic diversity, personal life experiences, and on enhancing racial and ethnic diversity in the interpreting profession.

**Intrp 320** Simultaneous Interpreting 4 Units  
Prerequisite: Intrp 305 and 307 with grades of “C” or better  
Advisory: Sila 330 and 332  
Course Transferable to CSU  
Hours: 72 hours LEC  
This course provides intermediate knowledge and skill development in the area of simultaneous interpreting. Both American Sign Language (ASL) to English and English to ASL interpreting skills are incorporated. Topics include an application of the interpreting process, a focus on analytical and composition skills, and incorporation of cultural considerations.

**Intrp 323** Interactive Interpreting 2 Units  
Prerequisite: Intrp 307 with a grade of “C” or better  
Course Transferable to CSU  
Hours: 36 hours LEC  
This course focuses on interactive interpreting skills from English to American Sign Language (ASL) and from ASL to English. Topics include information processing, features of interactive discourse, coping strategies, and effective interpersonal skills. This course uses a hands-on approach that emphasizes analysis of texts and contexts of naturally occurring dialogues.

**Intrp 325** Transliteration 4 Units  
Prerequisite: Intrp 320 with a grade of “C” or better  
Advisory: Sila 330 and 332  
Course Transferable to CSU  
Hours: 72 hours LEC  
This course provides basic skills in transliteration. It incorporates both sign to voice and voice to sign transliterating skills. Topics include language and consumer assessment, contact signing forms, semantic appropriateness, syntactic considerations, prosodic features, lipshadowing, lipreading, and fingerspelling reception and production.
INTRP 330  Introduction to Educational Interpreting, K-12  1 Unit
Prerequisite: INTRP 305 with a grade of “C” or better.
Course Transferable to CSU
Hours: 18 hours LEC
This course is an introduction to interpreting in the educational setting with a focus on the elementary and secondary levels of education. Emphasis will be on vocabulary development and enrichment specific to educational interpreting, resource development, team building, roles and responsibilities, communicating with children, and ethics.

INTRP 332  Introduction to Educational Interpreting, Post Secondary  1 Unit
Prerequisite: INTRP 305 with a grade of “C” or better.
Course Transferable to CSU
Hours: 18 hours LEC
This course is an introduction to interpreting in the educational setting with a focus on the post secondary level of education. Emphasis will be on vocabulary development and enrichment specific to educational interpreting, resource development, team building, roles and responsibilities, and ethics.

INTRP 334  Introduction to Medical Interpreting  1 Unit
Prerequisite: INTRP 305 with a grade of “C” or better.
Course Transferable to CSU
Hours: 18 hours LEC
This course is an introduction to interpreting in the medical setting. Environmental considerations, vocabulary development, resource building, introductory knowledge, and ethics will be considered.

INTRP 336  Introduction to Performing Arts Interpreting  1 Unit
Prerequisite: INTRP 305 with a grade of “C” or better.
Course Transferable to CSU
Hours: 18 hours LEC
This course is an introduction to interpreting in the performing arts setting. Environmental considerations, vocabulary development, resource building, introductory knowledge, and ethics will be considered.

INTRP 338  Introduction to Social Services and Employment Interpreting  1 Unit
Prerequisite: INTRP 305 with a grade of “C” or better.
Course Transferable to CSU
Hours: 18 hours LEC
This course is an introduction to interpreting in the social services/employment setting. Environmental considerations, vocabulary development, resource building, introductory knowledge, and ethics will be considered.

INTRP 340  Introduction to Telephone, Television and Remote Relay Interpreting  .5 Unit
Prerequisite: INTRP 305 with a grade of “C” or better.
Course Transferable to CSU
Hours: 9 hours LEC
This course is an introduction to interpreting using the telephone, via television and video and remote relay interpreting. Environmental considerations, vocabulary development, resource building, introductory knowledge, and ethics will be considered.

INTRP 342  Introduction to Religious Interpreting  .5 Unit
Prerequisite: INTRP 305 with a grade of “C” or better.
Course Transferable to CSU
Hours: 9 hours LEC
This course is an introduction to interpreting in the religious setting. Environmental considerations, vocabulary development, resource building, introductory knowledge, and ethics will be considered.

INTRP 344  Introduction to Working with a Certified Deaf Interpreter  .5 Unit
Prerequisite: INTRP 305 with a grade of “C” or better.
Course Transferable to CSU
Hours: 9 hours LEC
This course is an introduction to interpreting with a certified deaf interpreter (CDI). Definition of roles, resource building, introductory knowledge, team development, and ethics are considered.

INTRP 346  Specialized Vocabulary: Math and Computers  .5 Unit
Prerequisite: SILA 316 with a grade of “C” or better.
Advisory: INTRP 305.
Course Transferable to CSU
Hours: 9 hours LEC
This course provides an opportunity to develop specialized discourse for use in future interpreting assignments. The focus of the class will include use of general resources in ASL and English and the development of vocabulary and resources related to mathematics and computers.

INTRP 349  Signing for Dependency Situations  5 Unit
Prerequisite: INTRP 300 with a grade of “C” or better.
Course Transferable to CSU
Hours: 18 hours LEC
Advisory: INTRP 305.
This course provides an opportunity to interpret for an ongoing college class. Focus is on application of text analysis, assignment preparation, and information processing.

INTRP 350  Observation Supervision  .5 Unit
Prerequisite: INTRP 303 with a grade of “C” or better.
Course Transferable to CSU
Hours: 4.5 hours LEC; 13.5 hours LAB
This course provides an opportunity to examine a setting in which interpreting occurs and applies systematic analysis through the lens of the Demand-Control Schema. Students may be placed in a variety of educational and/or community settings. This course may be taken up to four times in different settings.

INTRP 352  Mock Interpreting I  1 Unit
Prerequisite: INTRP 305 and 307 with grades of “C” or better.
Course Transferable to CSU
Hours: 18 hours LEC
This course provides an opportunity to interpret for live or taped presentations in class. Focus is on application of text analysis, assignment preparation, and information processing.

INTRP 354  Mock Interpreting II  1 Unit
Prerequisite: INTRP 300, 305, and 307 with grades of “C” or better.
Course Transferable to CSU
Hours: 4.5 hours LEC; 40.5 hours LAB
This course provides an opportunity to interpret for an ongoing college class. Focus is on application of text analysis, assignment preparation, information processing, and giving and receiving feedback.
INTRP 356  Fieldwork in Interpretation  2.5 Units  
Prerequisite: INTRP 300 and 320 with grades of "C" or better  
Course Transferable to CSU  
Hours: 9 hours LEC, 30-190 hours LAB  
This course provides supervised work experience and career guidance in agencies which provide interpreting services to deaf clients. Students will be required to perform interpreting services to receive credit toward the completion of the interpreting certificate program. Students gain third party interpreter/transliterating experiences under supervision of an interpreting mentor. May be taken four times for a maximum of 8 units.

**SIGN LANGUAGE STUDIES**

SILA 305  American Sign Language 1  4 Units  
Advisory: ENGRD 116 and ENGW 103; or ESLR 320 and ESLW 320; or placement through assessment process.  
General Education: AA/AS Area I; IGETC Area 6  
Course Transferable to UCG/CSU  
Hours: 72 hours LEC  
This is a beginning course in a series of four courses in the visual-gestural processes of American Sign Language (ASL). It provides instructional activities to become competent in communication with deaf people. The emphasis is on non-speech communication.

SILA 306  American Sign Language 2  4 Units  
Prerequisite: SILA 305 with a grade of "C" or better  
Advisory: ENGRD 116 and ENGW 103; or ESLR 320 and ESLW 320; or placement through the assessment process.  
General Education: AA/AS Area I  
Course Transferable to UCG/CSU  
Hours: 72 hours LEC  
This is the second in a series of four courses in American Sign Language. The emphasis is on nonverbal communication. Topics include grammatical features such as adjective descriptors, differentiation between cardinal/ordinal numbers, contrastive structure, temporal aspect markers and temporal sequencing.

SILA 315  American Sign Language 3  4 Units  
Prerequisite: SILA 306 with a grade of "C" or better  
Advisory: ENGRD 116 and ENGW 103; ESLR 320 and ESLW 320; or placement through the assessment process.  
General Education: AA/AS Area I; CSU Area C  
Course Transferable to UCG/CSU  
Hours: 72 hours LEC  
This course is the third in a series of four courses in American Sign Language. It emphasizes expressive and receptive nonverbal communication skills between signers who have preliminary American Sign Language syntactical and lexical skills. It provides an understanding of deaf cultural processes by identifying behaviors and norms from activities assigned in the class. It also includes dialogues that involve asking, empathizing, negotiating and agreeing or disagreeing.

SILA 316  American Sign Language 4  4 Units  
Prerequisite: SILA 315 with a grade of "C" or better  
General Education: AA/AS Area I; CSU Area C  
Course Transferable to UCG/CSU  
Hours: 72 hours LEC  
This course is the fourth in a series of courses in American Sign Language (ASL). It emphasizes expressive communication skills that involve locating and signing interesting facts, making major life decisions, discussing health conditions, and using money. It incorporates information and activities previously learned about Deaf culture into these narratives.

SILA 317  ASL Linguistics  3 Units  
Prerequisite: SILA 315 with a grade of "C" or better  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course provides a foundation in American Sign Language (ASL) linguistics. Topics include theoretical knowledge and practical application of phonology, morphology, semantics, syntax, discourse, and language acquisition.

SILA 318  American Sign Language 5  4 Units  
Prerequisite: SILA 316 with a grade of "C" or better  
Course Transferable to CSU  
Hours: 72 hours LEC  
This course is an advanced course in American Sign Language (ASL) to help prepare students to communicate effectively. It emphasizes expressive communication skills that involve narrating unforgettable moments, telling about accidents, and storytelling. It incorporates information and activities previously learned about Deaf Culture into these narratives.

SILA 320  American Sign Language Discourse  3 Units  
Prerequisite: SILA 316 with a grade of "C" or better  
Advisory: SILA 498.  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course introduces signing beyond the conversational level. Complex and diverse signed situations are presented to improve both expressive and receptive skills. The focus will be on the diversity of register, affect, and style in American Sign Language.

SILA 330  Impact of Deafness  3 Units  
Advisory: ENGRD 116, ENGW 103, ESLR 320, and ESLW 320; or placement through the assessment process.  
General Education: AA/AS Area V(b); AA/AS Area VI  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course is a survey of four institutions which have critical impact on the psycho-social development of Deaf people: family, education, work, and society. It provides awareness and sensitivity to the unique challenges of deafhood and how they influence personal-social and communication competencies of the Deaf person. Selected visits to community events may be required.

SILA 332  Educating Deaf People  3 Units  
Advisory: ENGRD 116, ENGW 103, ESLR 320, and ESLW 320; or placement through the assessment process.  
Course Transferable to CSU  
Hours: 54 hours LEC  
This is a survey course of topics related to educating deaf children, adults, and multi-handicapped individuals. It also covers teaching methods and philosophies, school placement issues, child development, and methods of addressing developmental and linguistic stages.
SILA 344  ASL Numbers 1  .5 Units
Prerequisite: SILA 305 with a grade of “C” or better
Course Transferable to CSU
Hours: 9 hours LEC
This course provides hand-on experiences using American Sign Language (ASL) cardinal, ordinal, and unique numbers. This course is offered credit/no credit only.

SILA 346  Fingerspelling I  .5 Units
Prerequisite: SILA 305 with a grade of “C” or better
Course Transferable to CSU
Hours: 9 hours LEC
This course provides hands-on experiences with fingerspelling. Topics include expressive and receptive fingerspelling techniques. Pass/No Pass only.

SILA 348  Fingerspelling II  .5 Units
Prerequisite: SILA 346 with a grade of “C” or better
Course Transferable to CSU
Hours: 9 hours LEC
This course expands upon the skills covered in SILA 346 and introduces more sophisticated fingerspelling usage used by members of the Deaf community. Pass/No Pass only.

SILA 350  Classifiers  .5 Units
Corequisite: SILA 306, 315, or 316
Course Transferable to CSU
Hours: 9 hours LEC
This course provides extensive hands-on experience in American Sign Language (ASL) using basic and complex classifiers. This course is offered credit/no credit only.

SILA 354  Life Situations  .5 Units
Advisory: SILA 305
Course Transferable to CSU
Hours: 9 hours LEC
This course provides hands-on experiences in American Sign Language (ASL) that relate to common household chores, life milestones, and holiday seasons. This course is offered credit/no credit only.

SILA 356  Pronominals  .5 Units
Advisory: SILA 305
Course Transferable to CSU
Hours: 9 hours LEC
This course focuses on advanced pronoun use with expressive and receptive skill through practice in American Sign Language (ASL). This course is offered credit/no credit only.

SILA 360  Non-Verbal Communication  .5 Units
Advisory: SILA 305
Course Transferable to CSU
Hours: 9 hours LEC
This course provides an introduction to gesture and mime processes that are fundamental to American Sign Language (ASL). This course is offered credit/no credit only.

SILA 362  Introduction to the Interpreting Profession  .5 Units
Course Transferable to CSU
Hours: 9 hours LEC
This course introduces general information about the field of American Sign Language (ASL)/English interpretation. Topics include regulations, certification and educational requirements, fundamental and requisite skills, the Code of Professional Conduct, and pay scale and job opportunities in the field of ASL/English interpretation. An overview of the Interpreter Preparation Program at American River College and hands-on experiences are incorporated. Credit/no credit only.

SILA 364  Political and Legal Signs  .5 Units
Advisory: SILA 315
Course Transferable to CSU
Hours: 9 hours LEC
This course introduces signs related to advocacy efforts, the political/legislative process, and the legal system as it relates to the Deaf Community. This course is offered credit/no-credit only.

SILA 368  Signs for Sports  .5 Units
Advisory: SILA 315
Course Transferable to CSU
Hours: 9 hours LEC
This course addresses signs related to sports, sporting events, and recreational activities enjoyed by members of the Deaf Community. This course is offered credit/no credit only.

SILA 370  Non-Manual Signals in ASL  .5 Units
Advisory: SILA 305
Course Transferable to CSU
Hours: 9 hours LEC
This course illustrates the importance of non-manual signals in ASL. Topics include the role of non-manual signals as adverbs, as grammatical distinctions in certain clauses, and as linked with a specific sign. This course is offered credit/no credit only.

SILA 494  Topics in Sign Language Studies  .5-3 Units
Prerequisite: SILA 305.
Course Transferable to CSU
Hours: 9-54 hours LEC
Each module is a study of a specific topic or a technique in the area of sign language or deafness. Credit/no credit only.

SILA 498  Work Experience in Sign Language Studies  1-3 Units
Prerequisite: SILA 305 with a grade of “C” or better.
General Education: AA/AS Area III(b)
Course Transferable to CSU
Hours: 9 hours LEC; 30-190 hours LAB
This course is supervised practical experience working with deaf clients. Under supervision of an agency mentor, the student provides entry-level paraprofessional services based on their skill level and other applicable experiences such as tutoring, note taking, communication aide, peer counselor, office assistant, administrative aide, instructional aide services. May be taken four times for credit for a maximum of 8 units.
Social Science Degree

The Social Science degree provides an interdisciplinary approach to academic studies. The purpose of the program is for students to gain an understanding of the interconnectedness of various scientific disciplines. The interdisciplinary approach enables students to understand how issues and events are shaped by diverse socio-economic, political, ecological, biological and geographical forces.

Student Learning Outcomes

Upon completion of the program, the student will be able to:

- Research and analyze topics from an interdisciplinary perspective.
- Integrate various social-scientific perspectives into the understanding of the subject matter.
- Compare and contrast the relative contribution of courses offered in various disciplines to an overall understanding of issues and events.
- Develop a personal interpretation about issues and matters under study.
- Identify and explain various forces that interact to shape events and social occurrences.
- Define and describe issues and events within an interdisciplinary perspective.

Requirements for Degree 18 Units

A minimum of 18 units from the following: 18

Transferable courses must be selected from four of the following areas: anthropology, economics, geography, history, philosophy, political science, psychology (except PSYC 335), and sociology. Courses used for General Education purposes cannot be used for this degree.

Associate Degree Requirements: The Social Science Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

International Studies Certificate

The International Studies Certificate is designed to benefit students who are interested in international issues. Course work focuses on issues ranging from economy and trade to culture, politics, and environment from a transnational perspective.

Student Learning Outcomes

Upon completion of the program, the student will be able to:

- Evaluate information presented in a comparative perspective.
- Compare and contrast competing social scientific perspectives and describe the relative usefulness of each perspective to world issues.
- Develop a scientific framework for the analysis of international issues.
- Construct a culturally relativistic view of the world.
- Define his/her place in history based on the knowledge acquired.
- Recognize the complexity of the world as an interconnected and interdependent community.

1The history course used to meet this requirement may not be used towards the 9 unit elective requirement.
SOCSC 310  International Studies - Peace and Conflict Studies   3 Units  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area V(b); CSU Area D7; IGETC Area 4G  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course examines the political and socioeconomic causes of peace and conflict. It also includes an analysis of inter- and intra-state war, terrorism, ethnic conflict, gender issues and conflict, Just War Theory, post-conflict reconciliation and peace in international relations.

SOCSC 312  International Studies - Current International Development Issues   3 Units  
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.  
General Education: AA/AS Area V(b); CSU Area D7; IGETC Area 4G  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course deals with current socio-economic and political issues in developing countries. It presents alternative theories of development with a particular focus on the issues of globalization including political and social change.
Sociology is the study of human behavior in society focusing on the study of systems, and how individuals live, work, and interact within them.

**SOC 300  Introduction to Sociology  3 Units**  
Advisory: ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.  
General Education: AA/AS Area V(b); CSU Area D0; IGETC Area 4J  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course examines principles and basic concepts in sociology. It includes the study of institutions, culture, social organization, group interaction, social stratification, economy, politics, social movements, and urbanization.

**SOC 301  Social Problems  3 Units**  
Advisory: ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.  
General Education: AA/AS Area V(b); CSU Area D0; IGETC Area 4J  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course surveys social problems of present day American society including a study of their causes, consequences, and an evaluation of proposed solutions and methods of treatment. Attention is directed to poverty and inequality, race and gender inequalities, problems of the environment, unequal access to education, and problems in the economy and globalization.

**SOC 315  Introduction to Corrections  3 Units**  
Prerequisite: PSYC 300.  
Course Transferable to CSU  
Hours: 54 hours LEC  
This course covers the development, function and administration of federal, state, county and city law enforcement institutions. Causes and impact of crime and delinquency upon society. Treatment programs at local, state and federal correctional institutions, adult and juvenile, including probation and parole. Lectures, field trips, interviews and report writing.

**SOC 320  Minorities in America  3 Units**  
Advisory: ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.  
General Education: AA/AS Area VI; CSU Area D0; IGETC Area 4J  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course examines patterns of racial and ethnic group relations in the United States of America. The course employs basic sociological approaches to the study of race and ethnicity, with an emphasis on a comparative analysis of historical, social, and economic factors affecting intergroup and intragroup dynamics. The topics include prejudice, discrimination, racism, racial and ethnic stratification, assimilation patterns among groups, demographic shifts, civil rights and other related topics.

**SOC 325  Chicano Culture  3 Units**  
Advisory: ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.  
General Education: AA/AS Area V(b); CSU Area D0; IGETC Area 4J  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
This course examines the individual Chicano(a) and their culture pattern within the United States; the acquisition of their culture, innovation, adaptation and direction of their cultural development.

**SOC 333  Sociology of Popular Culture  3 Units**  
This course analyzes the historical development and emergence of American popular culture and the relationship between contemporary popular culture, social institutions and collective behavior. Further, it considers popular culture within the context of social, political, and economic changes in the United States and includes an analysis of theories of popular culture, hegemony, advertising, music, and film.
295/495  Independent Studies in (Subject)  1-4 Units
College courses basic to the study
An Independent studies course involves an individual student or small group of students in study; research, or activities beyond the scope of regularly offered courses, pursuant to agreement among the college, faculty member, and student(s). Studies having to do with transfer programs are numbered 495, and studies related to two-year vocational programs are numbered 295. For more information see Instructional Program: Independent and Special Study in the front of the catalog.

299/499  Experimental Offering in (Subject)  1-4 Units
College courses basic to the study
An experimental offering scheduled to provide students with the opportunity to pursue studies of special interest which are not covered in established catalog courses. Specific studies are designated according to the subject field to be studied. Studies having to do with transfer programs are numbered 499, and studies related to two-year vocational programs are numbered 299.
Area: Humanities
Dean: Dr. Lisa Aguilera Lawrenson
Phone: (916) 484-8653
Counseling: (916) 484-8572
See: (Communication--Sacramento City College)
(Communication Studies--Cosumnes River College and Folsom Lake College)

The number-one skill identified by employers is the ability to communicate clearly in both oral and written form. The number-two skill identified by employers is the ability to work effectively as a member of a group or team. Speech courses are vital to developing the communication skills necessary for personal and professional success.

**SPEECH 301 Public Speaking 3 Units**
General Education: AA/AS Area II(b); CSU Area A1; IGETC Area 1C
Course Transferable to UC/CSU
Hours: 54 hours LEC
This is a course in oral composition and delivery. It focuses on the organization of support materials, methods of securing interest, and the presentation of information and ideas in oral communication situations typically found in the business and social community. Video recording equipment may be used as an aid to the student's self-analysis and improvement.

**SPEECH 302 Persuasive Speech 3 Units**
Prerequisite: SPEECH 301 with a grade of "C" or better
General Education: CSU Area A3
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is detailed study emphasizing persuasive discourse through an understanding of basic communication principles. Emphasis will be placed on the use of proofs, language and logical thinking. Videotaping equipment may be used as an aid to the student's self-analysis and improvement.

**SPEECH 311 Argumentation and Debate 3 Units**
General Education: CSU Area A3
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course focuses on the theory, methods and application of argumentation and debate. It considers the use evidence and appeals in the advocacy of dissenting propositions.

**SPEECH 321 Interpersonal Communication 3 Units**
Advisory: ENWR 102, ENWR 103, and ESLW 320; or placement through the assessment process.
General Education: AA/AS Area III(b); CSU Area E1
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course focuses on communication between individuals, with emphasis on the acquisition of techniques and skills essential to self-actualization and to establishing authentic relationships. Effective communication strategies are discussed, practiced, and reflected upon both in and outside the classroom environment.

**SPEECH 322 Listening 3 Units**
Advisory: ENWR 102, ENWR 103, ESL 320, and ESLW 320; or placement through the assessment process.
Course Transferable to CSU
Hours: 54 hours LEC
This course focuses on the listener in communication. It covers the process of listening as well as how to listen for a variety of purposes, such as listening for content, listening for critical evaluation, listening to build relationships, and listening for appreciation.

**SPEECH 325 Intercultural Communication 3 Units**
Advisory: ENWR 102, ENWR 103, ESL 320, and ESLW 320; or placement through the assessment process.
General Education: AA/AS Area VI
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an introduction to the challenges and rewards of intercultural communication in everyday situations. It is designed to increase understanding of variations in communication patterns across cultures and prepares individuals for more effective communication. Emphasis is on both international culture variance and sub-cultural group-based experiential background variance.

**SPEECH 331 Group Discussion 3 Units**
Advisory: ENWR 102, ENWR 103, ESL 320, and ESLW 320; or placement through the assessment process.
General Education: AA/AS Area II(b); CSU Area A1; IGETC Area 1C
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers the dynamics of group communication and prepares individuals to function more effectively in groups. It focuses on communication in task and social groups. Topics include communication concepts and behaviors in problem-solving, decision-making, leadership, group roles, norms, and conformity.

**SPEECH 361 The Communication Experience 3 Units**
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course provides students with an introduction to basic skills and concepts necessary for effective communication in a variety of contexts. Topics include effective listening, facilitation of interpersonal relationships, conflict resolution, practical group experience, and speech making.

**SPEECH 363 Introduction to Communication Theory 3 Units**
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an introduction to the symbolic process of human communication through the study of basic communication models, fundamental theory, and relevant research findings, including the intrapersonal, and sociocultural levels. Emphasis will be on achieving an understanding of the communication process, its component elements, and its significance in human affairs.
Speech - Language Pathology Assistant Degree

This degree prepares students to assist Speech-Language Pathologists in treating disorders of communication. Such disorders may be related to articulation and phonology, child and adult language, motor speech, voice, fluency, and hearing. Topics include an introduction to the field of communication disorders, professional issues and practices in speech-language pathology, clinical considerations in service delivery to clients with communication disorders, and fieldwork experience.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- describe various communication disorders, including etiology and some remedial techniques.
- explain the major areas of cultural diversity and the relationship between culture and communication.
- demonstrate skills needed to assist in the management of speech-language pathology programs and services.
- describe the therapeutic process especially in terms of how learning occurs and strategies for effective lesson delivery.
- implement a treatment protocol as prescribed by the supervising Speech-Language Pathologist.
- describe professional responsibilities and ethical behavior appropriate for the Speech-Language Pathology Assistant.

Career Opportunities

Upon completion of the Associate of Science degree, a student possesses the course work and fieldwork experience to work as a Speech-Language Pathology Assistant in both private and public agencies, such as hospitals, rehabilitation centers, and the public schools serving preschool through adult-age clients. Successful completion of the Speech-Language Pathology Assistant program qualifies the graduate for eligibility to apply to the Speech-Language Pathology and Audiology Board for registration as a Speech-Language Pathology Assistant.

Degree: A.S. - Speech - Language Pathology Assistant

SLPA 102 Introduction to Communication Disorders 3 Units

Hours: 54 hours LEC

This course is an introduction to the field of communication disorders, including an overview and history of the profession of speech-language pathology. It includes an overview of various speech and language disorders, as well as guidelines for determining the development of typical and atypical speech and language. Observations of multimedia materials showing individuals who demonstrate speech and language disorders, as well as observations at various clinical sites in the area, are a part of the course.

SLPA 110 Professional Issues and Practices in Speech-Language Pathology 3 Units

Prerequisite: SLPA 102 with a grade of "C" or better

Hours: 54 hours LEC

This course introduces principles and practices for management of individuals with communicative disorders, with consideration for cultural and linguistic variations. It includes legal and ethical considerations, as well as requirements for employment in various work settings, including interdisciplinary and supervisory relationships, and scope of relationships.

SLPA 120 Clinical Considerations in Service Delivery to Clients with Communication Disorders 3 Units

Prerequisite: SLPA 110 and TA 375 with grades of “C” or better

Hours: 54 hours LEC

This course explores in depth specific disorders of communication, their causes, and characteristics. Specific materials and strategies regarding service delivery (assessment and intervention) are emphasized, with a focus on evidence-based practice. It covers remediation techniques and rationales for commonly used therapeutic approaches as well as principles of learning, strategies for service delivery with groups of clients, data collection, clinical documentation, and record keeping. The scope of responsibilities and the role of the Speech-Language Pathology Assistant (SLPA) in intervention and behavior management strategies are also reviewed.
SLPA 121  Fieldwork Experience in Speech-Language Pathology  4 Units

Prerequisite: SLPA 120 with a grade of "C" or better
Enrollment Limitation: Current tuberculosis clearance, live scan fingerprint clearance, and malpractice insurance.
Hours: 18 hours LEC, 162 hours LAB

This course provides supervised fieldwork experience assisting with the clinical management of persons with communicative disorders. There are opportunities to interact with clients/patients while implementing a prescribed treatment plan, and assisting with screening or evaluation under the direction of a Speech-Language Pathologist. The experience also includes opportunities for record keeping and managing client data, setting up/preparing for sessions as needed, and performing various clerical duties as needed. All fieldwork is done in specified off-campus locations.

**SGVT 300 Introduction to Student Government**  
*2 Units*

Course Transferable to CSU  
*Hours: 18 hours LEC, 54 hours LAB*

This course is a study of the legal, educational and philosophical basis of student government. It is designed for students interested in or participating in student government. This course provides practical experience in student government, in the administration of student programs, and participation on faculty and administrative committees. May include field trips to other campuses, area conferences, and state conferences. May be taken three times for credit.

**SGVT 310 Leadership Development**  
*3 Units*

Course Transferable to CSU  
*Hours: 54 hours LEC*

This course is designed to provide emerging and existing student leaders the opportunity to explore the concept of leadership and to develop and improve their leadership skills. The course integrates group exercises, films, and contemporary readings on leadership.
Theatre Arts: Acting Degree

The Acting degree provides training in the areas of acting, voice, movement, improvisation, and dramatic styles. The course work and theatrical production activities are arranged to provide opportunities for students to develop an appreciation for theatre, to improve in the knowledge and skills necessary for work in the theatrical arts professions, and to transfer to a four-year theatre program.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• recognize standard practices of ensemble playing in a rehearsal/performance environment
• compare and analyze the theories and techniques of acting from a historical perspective
• analyze texts and scripts as they pertain to performance
• demonstrate technical aspects of acting, including physical, vocal, imaginative, analytical, and emotional elements
• analyze theatre as a dynamic art form influencing society
• compare and contrast theatrical periods and styles in terms of acting, directing, playwriting, and technical elements
• analyze the components of a theatrical production
• apply imagination and character analysis to identify and describe the personality and motivations of a given character
• apply technical processes, including lighting, set, costume, and/or stage makeup design, as they pertain to a given dramatic script

Career Opportunities

Students with an Acting A.A. degree may go into directing, acting, teaching, and film/television.

Two TA courses not used to fulfill other requirements for the major. Earned by participation in two productions.

Associate Degree Requirements: The Theatre Arts: Acting Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Theatre Arts: Technical Degree

The Technical Theatre degree provides a broad overview of theatre with an emphasis on exploring the technical elements of theatre. Coursework includes stagecraft, lighting, costuming, makeup, sound and puppetry, together with opportunities for practical participation in productions. The program is designed to prepare students for work as technicians and crew, or to transfer to four-year colleges in preparation to be designers.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• Assess the influence of theatre as a dynamic art form and a social and cultural force in our society.
• Compare theatrical periods and styles in terms of acting, directing, playwriting, and technical elements.
• Analyze the components of a theatrical production and the role of technical theatre in the production process.
• Evaluate a script, assess production requirements, and develop practical and artistic solutions through scenic, lighting, costume, sound or makeup designs.
• Integrate practical information from construction plans.
• Demonstrate proficiency in technical production skills.
• Evaluate tools, materials, and processes used in technical theatre work.

Career Opportunities

Students with a Technical Theatre A.A. may work in theatre, Students with a Technical Theatre A.A. may work in theatre, film, TV or entertainment venues as technicians or designers in the areas of scenery, lighting, sound, properties, costumes, makeup, or stage management.

TA 397 Introduction to Readers’ Theatre (3)
TA 400 Creative Drama for Children (3)
TA 406 Children’s Theatre (3)

And a minimum of 6 units from the following: 6
Three TA courses not used to fulfill other requirements for the major

1Earned by enrollment for a minimum of 0.5 units in each of two productions for a total of 2 units.
2Selected from three or more distinct courses on the list.

Associate Degree Requirements: The Theatre Arts: Technical Associate in Arts (A.A.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Acting Certificate

The Acting certificate provides training in the theories and techniques of acting. The training starts with the basic principles of acting and refines them through theoretical, rehearsal and performance processes. The curriculum is designed to introduce and develop the craft of acting through transferable courses.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• analyze children’s literature for dramatic structure, characterization, and performance elements
• demonstrate the basic skills of drama, acting, voice, movement and improvisation
• develop simple drama activities and games to promote child creativity
• apply technical processes, including stagecraft, costume construction, and/or stage make-up, as they pertain to children’s theatre
• integrate dramatic techniques of acting, puppetry, storytelling, and movement into children’s theatre productions

Career Opportunities

Students with a Children’s Theatre certificate may go into acting, directing, film, teaching, and many other careers where oration and presentation are key components.

Requirements for Certificate 16 Units

TA 351 Theory and Techniques of Acting II 3
TA 370 Theatre Movement 2
TA 375 Voice, Diction and Dialects 3
TA 437 Stage Make-up I 2

And a minimum of 3 units from the following: 3

TA 356 Acting for the Camera I (3)
TA 357 Acting for the Camera II (3)
TA 362 Styles of Acting: Classical (3)
TA 366 Styles of Acting: Modern (3)

And a minimum of 3 units from the following: 3

TA 406 Children’s Theatre (3)
TA 460 Rehearsal and Performance (0.5 - 3)
TA 461 Rehearsal and Performance - Drama (0.5 - 3)
TA 462 Rehearsal and Performance - Comedy (0.5 - 3)
TA 463 Rehearsal and Performance - Classical (0.5 - 3)
TA 464 Rehearsal and Performance - Children’s Show (0.5 - 3)
TA 465 Rehearsal and Performance - Musical (0.5 - 3)
TA 466 Rehearsal and Performance - Musical Ensemble (0.5 - 3)
TA 475 Fundamentals of Repertory Production (1 - 6)

Children’s Theatre Certificate

The Children’s Theatre certificate provides the knowledge needed to create theatrical productions for children. Coursework includes acting, improvisation, voice, technical theatre, and theatre productions for children.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

• analyze children’s literature for dramatic structure, characterization, and performance elements
• demonstrate the basic skills of drama, acting, voice, movement and improvisation
• develop simple drama activities and games to promote child creativity
• apply technical processes, including stagecraft, costume construction, and/or stage make-up, as they pertain to children’s theatre
• integrate dramatic techniques of acting, puppetry, storytelling, and movement into children’s theatre productions

Career Opportunities

Students with a Children’s Theatre certificate may work as actors or directors in children’s theatre, or utilize their skills to augment careers in elementary education, recreation, or arts programs.

Requirements for Certificate 13-17 Units

TA 344 Improvisation and Theatre Games (2) 2 - 3
or TA 370 Theatre Movement (2)
or TA 375 Voice, Diction and Dialects (3)
TA 350 Theory and Techniques of Acting I 3
TA 400 Creative Drama for Children (3) 1 - 3
or TA 404 Techniques of Puppetry (3)
or ENGLT 372 Children and Literature: Storytelling (1)
Costuming Certificate

The Costuming certificate provides training in the skills needed to create theatrical costumes. Coursework includes costume construction, history of costume, patterning, and makeup.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Analyze the role of costumes and the costume shop staff in a theatrical production.
- Organize a practical and artistic solution to the costume requirements of a dramatic work.
- Evaluate the costumes of a dramatic production.
- Analyze the techniques required to design and develop a period costume.
- Analyze the components of major historical fashion periods and their relationship to society.
- Demonstrate techniques in altering, constructing, patterning, dying, and painting costumes.

Career Opportunities

The student with a costuming certificate may work creating and maintaining costumes for theatre, film, TV, advertising, and other entertainment fields.

Musical Theatre Certificate

The Musical Theatre certificate synthesizes the performance skills of movement, acting, and singing with the musical theatre script/song. Training starts with the basic principles of musical theatre techniques and refines them through the choreographic, theoretic, and performance processes. The curriculum is designed to introduce and develop the craft of musical theatre through transferable courses.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- identify historical eras in the development of American Musical Theatre
- analyze the components of a film including acting, directing, screenwriting, cinematography, and production and technical elements.
- analyze the historical development of film.
- develop and perform an audition package consisting of a ballad and an up-tempo song.
- critique acting, singing, and movement skills in a musical theatre production.

Career Opportunities

Students with a Musical Theatre certificate may go into acting or directing careers in musical theatre or may augment careers in education, recreation and arts programs.

### TA 294  Topics in Theatre Arts .5-4 Units

**Hours: 54 hours LEC; 27-162 hours LAB**

This course is designed to give students an opportunity to study topics in theatre which are not included in current course offerings. This course may be taken four times with no duplication of topics.

### TA 300  Introduction to the Theatre  3 Units

**Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.**

**General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A**

**Course Transferable to UC/CSU**

**Hours: 54 hours LEC**

This course provides a general introduction to live theatre as an artistic and social force. It surveys the literary, cultural, and historical aspects of theatre arts. This is an audience-oriented, non-performance course open to all students. Field trips may be required.

### TA 302  History and Theory of the Theatre I  3 Units

**Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.**

**General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A**

**Course Transferable to UC/CSU**

**Hours: 54 hours LEC**

This course is a survey of the history of theatre from the Greeks through the 17th century. The history and development of theatre and drama are studied in relationship to cultural, political and social conditions of the time. Plays are read for analysis of structure, plot, character and historical relevance. The course is recommended for students planning to major in theatre, humanities, English or speech.

### TA 303  History and Theory of the Theatre II  3 Units

**Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.**

**General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A**

**Course Transferable to UC/CSU**

**Hours: 54 hours LEC**

This course is a survey of the history of theatre from the 17th century through modern theatre. The history and development of theatre and drama are studied in relationship to cultural, political, and social conditions of the time. Recommended for students planning to major in theatre, humanities, English or speech.

### TA 306  Diversity in American Drama (1960 to Present)  3 Units

**Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.**

**General Education: AA/AS Area I; AA/AS Area VI; CSU Area C1; IGETC Area 3A**

**Course Transferable to UC/CSU**

**Hours: 54 hours LEC**

This course surveys the theatrical (not the literary) expression of native-American, African-American, Latino, and Asian-American theatre from 1960 to the present, including the social, political, cultural, and economic climate in which the theatre was created, and other special interest group theatrical expression as appropriate.

### TA 310  Introduction to Film  3 Units

**Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.**

**General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A**

**Course Transferable to UC/CSU**

**Hours: 54 hours LEC**
This course explores the artistic, business, and social elements of modern film. It examines the elements that go into making films: acting, directing, cinematography, writing, and editing. It investigates the techniques that manipulate the audience into fear, laughter, and sadness; and compares the commercial box office hit and “movie star” to enduring artistic films and actors. The class will view and analyze films to evaluate filmmaking techniques and the impact of films and the movie business on society.

**TA 312 History of Film** 3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
Art of the motion picture, using both lectures and films. Students study the history of motion pictures, view and evaluate films which are landmarks in the art of movie making.

**TA 314 History of Film: 1880’s through 1950’s** 3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an historical and critical survey of film as an art form. It emphasizes the evolution of artistic and technical facets of production in features, documentary and experimental films.

**TA 315 History of Film: 1950’s to Present** 3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course is an historical and critical survey of film as an art form. It emphasizes the evolution of artistic and technical facets of production in features, documentary and experimental films.

**TA 318 Diversity in American Film** 3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area I; AA/AS Area VI; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course surveys the cinematic expression of artists often under-represented in the mainstream media such as women, Native-Americans, African-Americans, Latinos, Asian-Americans and gays and lesbians. Media stereotypes and the social, political and cultural climate that created them will be covered through films, lecture and discussion.

**TA 320 Cinema Genres** 3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area I
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course surveys one or more film topics or genres. It explores specific types of film in depth, concentrating on historical and technical changes in a specific genre. Additional topics include the style of directing, acting, and design for that genre. It examines specific actors, directors, writers, cinematographers, producers, and/or studios for that genre. This course may be taken four times for credit on different genres. Field trips may be required.

**TA 344 Improvisation and Theatre Games** 2 Units
Course Transferable to UC/CSU
Hours: 18 hours LEC; 54 hours LAB
This class will include theatre games and improvisational exercises designed to develop trust and cooperation, mental acuity, and physical and vocal range as an actor. Improvisation technique will be built from the ground up, providing a strong foundation for advanced work in non-scripted performance and also in modern rehearsal technique that involves extensive use of improvisation.

**TA 350 Theory and Techniques of Acting I** 3 Units
Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course explores the major theories and techniques of acting, including improvisation, physical expressiveness, voice production, character portrayal and scene work.

**TA 351 Theory and Techniques of Acting - II** 3 Units
Prerequisite: TA 350 or TA 480 Honors with a grade of “C” or better.
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course covers the application of acting theories and techniques to scripts of realistic drama, memorized scenes, various acting exercises and audition pieces—all of which are presented in the classroom.
(CAN DRAM 22)

**TA 356 Acting for the Camera - I** 3 Units
Prerequisite: TA 350 or TA 480 with a grade of “C” or better.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This is an introductory course in the theory and technique of acting for film and video, focusing on the differences between stage acting and acting for the camera. Scenes and commercials are enacted and played back on videotape for class critiquing.

**TA 357 Acting for the Camera - II** 3 Units
Prerequisite: TA 350 with a “C” or better.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course builds upon the principles learned in Acting for the Camera I, developing advanced skills of acting for film and television. Monologues, commercials and scenes are enacted and played back on video for class critiquing.

**TA 360 Styles of Acting** 3 Units
Prerequisite: TA 350 or 480 with a grade of “C” or better.
Advisory: TA 300 and 351.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
Investigation of styles of acting through lectures and prepared scenes from representative classic and modern plays and one-act plays.
TA 360 Styles of Acting: Classical  3 Units
Prerequisite: TA 350 or 480 with a grade of “C” or better.
Advisory: TA 300 and 351.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course explores the styles of acting required for Classic Theatre from the Greeks through Restoration. It will examine the actor’s approach to the text as well as the voice and movement needs of classical styles. Styles include Greek, Commedia dell’ Arte, Shakespeare, Comedy of Manners, and Restoration.

TA 366 Styles of Acting: Modern  3 Units
Prerequisite: TA 350 or 480 with a grade of “C” or better.
Advisory: TA 300, 351.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course explores the styles of acting required for modern the theatre from 1875 to the present. It will examine the actor’s approach to modern texts as well as the voice and movement needs of modern styles. Styles include Realism and Theatre of the Absurd.

TA 370 Theatre Movement  2 Units
Course Transferable to UC/CSU
Hours: 18 hours LEC; 54 hours LAB
This course is an active participation and performance experience designed to provide opportunities in discovery and to solve movement tasks of the actor. The course incorporates exercises to expand the individual’s movement for characters and scenes, as well as training in specific movement areas, such as combat, mime, period style, and dance. Field trips may be required.

TA 375 Voice, Diction and Dialects  3 Units
Advisory: ENGW 102 or 103, and ENGR 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to UC/CSU
Hours: 54 hours LEC
This course focuses on the overall improvement of vocal quality, explores monologue and dialog performances, and develops confidence in speaking and voice production. It emphasizes self-improvement drills involving breath control, resonance, pitch, inflection and articulation, and introduces a study of the vocal mechanism, its parts and their functions. Additionally, this course covers the study and application of the International Phonetic Alphabet (IPA), and includes a special study and application of stage dialects and/or accent reduction.

TA 377 Musical Theatre Techniques  3 Units
Prerequisite: Theatre Arts 350 with a grade of “C” or better.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course is a performance oriented course integrating acting and singing skills through the creation of a whole, unified character. The course is both an introduction for students with little or no previous musical theatre experience and a continuing performance forum for those with previous training. Primary emphasis in this course is placed on the three core areas of musical theatre performance: acting, singing, and movement. Field trips may be required.

TA 390 Directing and Play Production  3 Units
Prerequisite: TA 351 with a grade of “C” or better.
Advisory: ENGW 102 or 103, and ENGRD 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 and ESLL 320 with a grade of “C” or better; OR placement through assessment process.
General Education: CSU Area C1
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course is an introduction to directing and the elements of play production. It includes the process of preparing and analyzing a script for production, casting the show, blocking and rehearsing actors, and dealing with technical and promotion needs. It also includes directing scenes and preparing a prompt book.

TA 397 Introduction to Readers’ Theatre  3 Units
Advisory: ENGW 102 or 103, and ENGR 116 with a grade of “C” or better; OR ESLR 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 54 hours LAB
This course introduces group oral performance of literature. It explores the analysis of poetry, prose, and drama with a goal of adapting literary materials for group performance. Students develop analytical and performance skills which culminate in Readers’ Theatre presentations. Field trips may be required.

TA 400 Creative Drama for Children  3 Units
Course Transferable to CSU
Hours: 54 hours LEC
This course will explore basic drama forms to help the drama leader guide children in developing their own dramatic skills. The course provides instruction on how to infuse drama, pantomime, improvisation, and creative role-playing into school curriculum and recreational programs. This class is designed for anyone who interacts with pre-school and elementary age children.

TA 404 Techniques of Puppetry  3 Units
Advisory: ENGW 51 and ENGRD 15 or ESLR 310 and ESLW 310; or placement through assessment.
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course explores puppetry as a dramatic medium. Topics to be covered include: history and development of puppetry; puppet design and creation; puppet manipulation and improvisation; and puppet play production techniques and applications.

TA 406 Children’s Theatre  3 Units
General Education: AA/AS Area I; CSU Area C1
Enrollment Limitation: Audition
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course explores children’s literature in performance through dramatic presentations of fiction, drama and poetry for an audience of children or young people. It provides the opportunity to analyze and experience the production process from script to stage. Class participation includes the development of a touring children’s production. No prior theatrical experience is required. Recommended for theatre, education, early childhood education and recreation majors. Public performances and regular field trips are required.

TA 420 Stagecraft  3 Units
Advisory: MATH 25, ENGW 51 and ENGR 15.
Course Transferable to UC/CSU
Hours: 36 hours LEC; 72 hours LAB
This course is an introduction to backstage and the creation of scenery for theatre, film and television. It covers design styles, painting, design and creation; puppet manipulation and improvisation; and puppet play production techniques and applications.

American River College Catalog 2009-2010
TA 422 Stage Lighting 3 Units
Advisory: MATH 25, ENGRWR 51 and ENGRWR 15.
Course Transferable to UC/CSU
Hours: 36 hours LEC, 72 hours LAB
This course is an introduction to the basic concepts of lighting for stage, film and television. The course covers the planning of lighting from the basics of electricity, equipment and control, to the design elements of color, space, scenery and movement to produce a lighting design. (CAN DRAM 10)

TA 424 Advanced Technical Theatre 3 Units
Prerequisite: TA 420 and 422.
Course Transferable to UC/CSU
Hours: 36 hours LEC, 72 hours LAB
This course is an advanced study dealing with technical theatre production techniques and design in the areas of scenery, props, lighting, sound, scenic painting, rigging and stage management through individual projects and participation in major productions. May be taken twice for credit.

TA 430 Costume Construction 3 Units
Advisory: ENGRWR 51 and ENGRWR 15 or ESLW 310 and ESLW 310, or placement through assessment.
Course Transferable to UC/CSU
Hours: 36 hours LEC, 54 hours LAB
This course explores the basic areas of costume construction. Topics include fabrics, color, patterns, sewing techniques, costume pieces, and accessories. Period styles, costume analysis, and basic design are also covered. It offers experience in constructing costumes for theatrical productions. This course may be taken twice for credit using different techniques. Field trips may be required.

TA 433 Costume Production .5-3 Units
Advisory: TA 430.
Course Transferable to CSU
Hours: 27-162 hours LAB
This course explores the process of developing costumes for theatrical productions through the set-up, creation, and assembly of costumes for main stage productions. Projects focus on developing sewing, craft, and patterning skills, clothing alteration methods and working with fabrics, hats and accessories, dyes and textile paints as utilized in each production. Additionally the course examines the design process and period styles associated with each production. This course is open to all skill levels. It may be taken four times for a maximum of twelve units.

TA 434 Vintage Costuming .5-2 Units
Same As: FASHN 334
Advisory: ENGRWR 051 and ENGRWR 015, or ESLW 310 and ESLW 310 or placement through assessment process.
Course Transferable to UC/CSU
Hours: 9-18 hours LEC, 27-54 hours LAB
This course covers the factors that influence historical costume design and production. Principles and techniques involved in developing and constructing a period costume included. The course demonstrate these by fabricating their own costumes. The historical period will change each semester. May be taken four times for credit on different topics with a maximum of 8 units. Not open to those who have completed FASHN 334 on the same topic.

TA 435 History and Theory of Costuming 3 Units
Advisory: ENGRWR 102 or 103, and ENGRWR 116 with a grade of “C” or better; OR ESLW 320 and ESLW 320 with a grade of “C” or better; OR placement through assessment process.
General Education: AA/AS Area I; CSU Area C1
Course Transferable to CSU
Hours: 54 hour LEC
This is a survey course of historical periods as portrayed through fashion and costumes from ancient through modern times. The impact of social, political, cultural and economic issues on costuming is explored and analyzed, as is the effect of costumes on society. It integrates design elements with historical styles to develop designs for theatrical costumes. Field trips may be required.

TA 437 Stage Make Up - I 2 Units
Course Transferable to UC/CSU
Hours: 18 hours LEC, 54 hours LAB
This course covers the basic techniques of theatrical makeup. It explores makeup materials, color and light, and modeling techniques in the development of makeup designs for youth, middle and old age, historical persons, stylized faces, clowns, animals, and fantasy makeup. (CAN DRAM 14)

TA 440 Arts Management 3 Units
Advisory: ENGRWR 102 and ENGRWR 116 or ESLW 320, ESLW 320 or placement through the assessment process.
Course Transferable to CSU
Hours: 36 hours LEC, 54 hours LAB
This course is a general survey class in arts management with emphasis on organization, marketing/development, and financial management. It includes promotion and publicity, house management, box office operations and public relations. Field work will include projects with an existing arts organization.

TA 452 One-Act Play Workshop 3 Units
Prerequisite: TA 350 or 360, and TA 351 or 360 or 420 or 422.
Course Transferable to UC/CSU
Hours: 36 hours LEC, 54 hours LAB
This course explores the play production process. Class members collaborate in the analysis, preparation and production of one-act plays through participation as either directors, writers, actors, or technicians. The process culminates in public performances. May be taken four times for credit.

TA 460 Rehearsal and Performance .5-3 Units
Enrollment Limitation: Audition/Interview
Course Transferable to UC/CSU
Hours: 27-162 hours LAB
This course provides a workshop training experience in the preparation and performance of theatre productions. Students interested in acting audition with the director for acting, singing or dancing roles. Students interested in technical work interview for positions in stage management, crewing, set construction, costumes and makeup, lighting and sound, box office and publicity. Field trips may be required. This course may be taken four times for credit on different productions.

TA 461 Rehearsal and Performance - Drama .5-3 Units
Enrollment Limitation: Audition / Interview
Course Transferable to UC/CSU
Hours: 27-162 hours LAB
This course provides a workshop training experience in the preparation and performance of dramatic theatre productions. Students interested in acting audition with the director for acting roles. Students interested in technical work interview for backstage positions in stage management, crewing, set construction, costumes and makeup, lighting and sound, box office and publicity. Field trips may be required. This course may be taken four times for credit on different dramatic productions for a maximum of 12 units.

American River College Catalog 2009-2010
**TA 462  Rehearsal and Performance - Comedy** .5-3 Units

Enrollment Limitation: Audition / Interview  
Course Transferable to UC/CSU  
Hours: 27-162 hours LAB  
This course provides a workshop training experience in the preparation and performance of comedic theatre productions. Students interested in acting audition with the director for acting roles. Students interested in technical work interview for backstage positions in stage management, lighting, and sound, box office and publicity. Field trips may be required. This course may be taken four times for credit on different comedic productions for a maximum of 12 units.

**TA 463  Rehearsal and Performance - Classical** .5-3 Units

Enrollment Limitation: Audition / Interview  
Course Transferable to UC/CSU  
Hours: 27-162 hours LAB  
This course provides a workshop training experience in the preparation and performance of classical theatre productions. Students interested in acting audition with the director for acting roles. Students interested in technical work interview for backstage positions in stage management, lighting, and sound, box office and publicity. Field trips may be required. This course may be taken four times for credit on different classical productions for a maximum of 12 units.

**TA 464  Rehearsal and Performance - Children's Show** .5-3 Units

Enrollment Limitation: Audition / Interview  
Course Transferable to CSU  
Hours: 27-162 hours LAB  
This course provides a workshop training experience in the preparation and performance of children's theatre productions. Students interested in acting audition with the director for acting roles. Students interested in technical work interview for backstage positions in stage management, lighting, and sound, box office and publicity. Field trips may be required. This course may be taken four times for credit on different children's productions for a maximum of 12 units.

**TA 465  Rehearsal and Performance - Musical** .5-3 Units

Enrollment Limitation: Audition / Interview  
Course Transferable to UC/CSU  
Hours: 27-162 hours LAB  
This course provides a workshop training experience in the preparation and performance of musical theatre productions. Students interested in acting audition with the director for acting roles. Students interested in technical work interview for backstage positions in stage management, lighting, and sound, box office and publicity. Field trips may be required. This course may be taken four times for credit on different musicals for a maximum of 12 units.

**TA 466  Rehearsal and Performance - Musical Ensemble** .5-3 Units

Same As: MUP 370  
Enrollment Limitation: Audition  
Course Transferable to UC/CSU  
Hours: 27-162 hours LAB  
This course explores the development of a musical theatre production presented before the campus and community. A different production will be presented each semester the course is offered. May be taken four times for credit for a maximum of 12 units. Not open to students who are taking MUP 370 for the same production.

**TA 470  Rehearsal and Performance II** .5-3 Units  
Prerequisite: Theatre Arts 461, 462, 463, 464, 465, and 466 with a grade of “C” or better and audition.  
Course Transferable to UC/CSU  
Hours: 27-162 hours LAB  
This course provides intermediate level workshop training experiences in the preparation and performance of dramatic theatre productions. It examines the techniques of play production through practical audition rehearsal and performance for the actor, director and stage manager. It explores the design and technical elements of a production through practical experience opportunities in set construction, costumes, makeup, lighting, sound, box office and publicity. May be taken four times for credit for a maximum of 12 units.

**TA 472  Rehearsal and Performance III** .5-3 Units  
Prerequisite: Theatre Arts 470 with a grade of “C” or better.  
Course Transferable to UC/CSU  
Hours: 27-162 hours LAB  
This course provides intermediate level workshop training experiences in the preparation and performance of dramatic theatre productions. It examines the techniques of play production through practical audition rehearsal and performance for the actor, director and stage manager. It explores the design and technical elements of a production through practical experience opportunities in set construction, costumes, makeup, lighting, sound, box office and publicity. May be taken four times for credit for a maximum of 12 units.

**TA 475  Fundamentals of Repertory Production** .5-6 Units  
Prerequisite: Audition/Interview.  
Course Transferable to UC/CSU  
Hours: 0-36 hours LEC; 27-216 hours LAB  
This repertory production workshop provides for participation in one or more productions, working in all areas of theatre including acting, scenery, lighting, costumes, make-up and theatre publicity, and culminates in performances at the end of the session. May be taken four times for credit up to a maximum of 12 units.

**TA 477  Repertory Production - II** .5-6 Units  
Prerequisite: Theatre Arts 475 with a grade of “C” or better and audition.  
Course Transferable to UC/CSU  
Hours: 0-36 hours LEC; 27-216 hours LAB  
This repertory production workshop provides for participation in one or more productions, working in all areas of theatre including acting, scenery, lighting, costumes, make-up and theatre publicity, and culminates in performances at the end of the session. May be taken four times for credit up to a maximum of 12 units.

**TA 478  Repertory Production - III** .5-6 Units  
Prerequisite: Theatre Arts 477 with a grade of “C” or better and audition.  
Course Transferable to UC/CSU  
Hours: 0-36 hours LEC; 27-216 hours LAB  
This repertory production workshop provides for participation in one or more productions, working in all areas of theatre including acting, scenery, lighting, costumes, make-up and theatre publicity, and culminates in performances at the end of the session. May be taken four times for credit for a maximum of 12 units.
**TA 480  Honors Theory and Techniques of Acting**  
3 Units

Prerequisite: Cumulative GPA of 3.0 or above; two semester of high school drama; ENGWR 300 or 480 with a grade of "C" or better  
General Education: AA/AS Area I; CSU Area C1; IGETC Area 3A  
Course Transferable to UC/CSU  
Hours: 54 hours LEC  
The major theories and techniques of acting, including improvisation, physical expressiveness, voice production and memorized scenes. Supplementary reading and writing required. Attendance at live theatrical performances required.

**TA 481  Honors Seminar in History of Film**  
1 Unit

Prerequisite: A cumulative GPA of 3.0 or above; ENGWR 300 or 480 with a grade of "C" or better  
Corequisite: TA 312, 314, or 315; TA 312, 314, or 315  
Advisory: TA 310  
General Education: CSU Area C1  
Course Transferable to UC/CSU  
Hours: 18 hours LEC  
This honors course (a supplement to TA 312, 314, and 315) provides a seminar for advanced students to view and analyze additional films important to the development of cinematic art to analyze and criticize those films in terms of acting, directing, writing, editing, cinematography, and genre. May be taken twice with different corequisites.

**TA 494  Topics in Theatre Arts**  
.5-3 Units

Course Transferable to CSU  
Hours: 0-54 hours LEC; 27-162 hours LAB  
This course is designed to give students an opportunity to study topics in theatre which are not included in current course offerings. May be taken four times for credit for a maximum of 12 units on different topics.

**TA 498  Work Experience in Theatre Arts**  
1-4 Units

General Education: AA/AS Area III(b)  
Course Transferable to CSU  
Hours: 60-300 hours LAB  
This course provides a supervised work experience in a professional theatre setting. Students may be assigned to work the box office, wardrobe, scenery construction, properties, lighting and sound, stage management, costuming, makeup, design, or acting. May be taken four times for a maximum of 8 units.
The Welding Technology degree provides skills and knowledge in manual and semi-automatic welding processes used in the metal fabrication and construction industries. Instruction covers materials, equipment, procedures, testing techniques, as well as, safety and blueprint reading. Competencies include techniques of joining ferrous and non-ferrous metals by the use of Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), Flux Cored Arc Welding (FCAW), and Gas Tungsten Arc Welding (GTAW), and welding procedures.

Student Learning Outcomes

Upon completion of this program, the student will be able to:

- Select the correct electrode classification and parameters for various thickness of material and welding positions on ferrous and nonferrous metals.
- Define principles of gas metal arc welding.
- Interpret GMA electrode and classification and specification.
- Describe gas metal arc (GMA) welding operations of various joint designs using selected electrodes on different positions.
- Describe shielded metal arc welding operations of various positions using selected electrodes on different joint designs.
- Define principles of arc welding.
- Select correct electrode amperage settings for the job application.
- Identify gas tungsten arc (GTA) welding principles and safe welding practices.
- Define GTA applications and limitations.
- Explain the reason for the formation of each discontinuity type, and distinguish different discontinuities.
- Interpret fabrication blueprints using a systematic process.
- Interpret graphic welding symbols.
- Relate the requirements for welding ferrous and nonferrous metals.

- Select the appropriate setting and application methods.
- List the methods used for discontinuity prevention and identify surface defects in welds.

Career Opportunities

Welding certification is recognized by the welding industry as an important step in the profession. The American Welding Society (AWS) nationally accredits American River College’s welding program. The ARC welding program has met all the requirements of the AWS QC4 standards for Accreditation of Test Facilities for their Certified Welder Program.

Graduating students may find positions in oil refineries, nuclear power plants, aerospace, structural buildings, bridge construction, auto industry, and small commercial fabricating shops.

Associate Degree Requirements: The Welding Technology Associate in Science (A.S.) Degree may be obtained by completion of the required program, plus general education requirements, plus sufficient electives to meet a 60-unit total. See ARC graduation requirements.

Gas Metal Arc, Flux Cored Arc Welding Plate (252 hours) Certificate

The Gas Metal Arc Welding certificate promotes competence in welding with different types of metal transfer, constant voltage power sources, different types of shielding gases, and electrode selection on various joint designs. Instruction is provided in gas metal and flux cored arc welding on fillet and groove welds to specific structural and pipe standards.
Student Learning Outcomes
Upon completion of this program, the student will be able to:

- Identify and demonstrate the proper use of common power tools and accessories used in the welding trade
- Interpret fabrication blueprints using a systematic process
- Interpret graphic welding symbols
- Interpret electrical and electronically controlled circuits
- Evaluate testing equipment used for welding maintenance repair

Shielded Metal Arc Plate and Pipe (270 hours) Certificate

The Shielded Metal Arc Welding plate and pipe certificate promotes competence in plate and pipe welding. Emphasis is on power sources, electrode selection on various joint designs, techniques, and positions in welding. Instruction includes safety and proper procedures in making fillet and groove welds that are in compliance with structural and pipe welding codes.

Student Learning Outcomes
Upon completion of this program, the student will be able to:

- Interpret electrode classification and specification
- Select correct amperage setting for the job application
- Define principles of arc welding
- Certify and perform SMA operations in various positions using selected electrodes on different joint designs

Welding Metallurgy and Inspection (270 hours) Certificate

The Welding Metallurgy and Inspection certificate provides the science of metallurgy and weld inspection. Emphasis is on the identification and selection of irons and steel, mechanical and physical properties of metals and crystal structures of metals, rules and regulations of the welding construction industry, and principles, requirements and methods of inspection.

Student Learning Outcomes
Upon completion of this program, the student will be able to:

- Describe the mechanical properties of different types of metals
- Interpret and explain the Nondestructive Testing (NDT) procedures of codes and specifications relating to welding
- Evaluate and explain in simple terms the reason for the formation of discontinuity in each of the welding processes
- Explain different methods used for the prevention of weld discontinuities
- Describe the crystalline structures of metals and explain how grain forms in metal
- Explain the problems hydrogen causes when welding steel
- Analyze phase diagrams of carbon and stainless steels

### Requirements for Certificate
- **WELD 102**: Introduction to Welding Metallurgy
- **WELD 106**: Welding Inspection
- **WELD 117**: Ultrasonic Testing Level One
- **WELD 118**: Ultrasonic Testing Level Two
- **WELD 300**: Introduction to Welding

**Total Units Required:** 14

### Course Descriptions
- **WELD 101 Introduction to Welding and Cutting**: 1 Unit
  - **Prerequisite**: Acceptance into a registered apprenticeship program.
  - **Hours**: 9 hours LEC; 27 hours LAB
  - This course is an introduction to welding processes for apprentices. Shielded metal arc, oxyacetylene cutting on joint designs, and positions used in industry are taught. Safety in arc welding and oxyacetylene cutting is also covered.

- **WELD 102 Introduction to Welding Metallurgy**: 3 Units
  - **Prerequisite**: WELD 300 with a grade of “C” or better.
  - **Hours**: 54 hours LEC; 36 hours LAB
  - This course covers the production of iron and steel used in industry. The focus is on the identification and selection of irons and steels, the mechanical and physical properties of metals, and the crystal structure of metals. It also covers metallurgical failure of welds, deformation, and the heat treatment of steels.

- **WELD 103 Gas Metal Arc Welding of Sheet Steel**: 1.5 Units
  - **Hours**: 18 hours LEC; 27 hours LAB
  - This course covers technique application and joint design used in the auto body repair and sheet steel manufacturing industries. Sheet steel applications in the areas of steel decks, panels, storage racks, and joint framing members are presented using Gas Metal Arc Short Circuit Transfer process. Proper safety welding techniques are also covered.

- **WELD 104 Introduction to Metal Fabrication and Sculpture**: 0.5-3 Units
  - **Same As**: ART 120
  - **Hours**: 0-36 hours LEC; 27-54 hours LAB
  - This course covers metal sculpture techniques, design principles and materials used for sculpture, functional and nonfunctional art forms, on ferrous and non-ferrous metals. Techniques on the major welding processes such as shielded metal arc, gas metal arc, gas tungsten arc and oxy-acetylene are an integral part of the course as well as related safety issues. Different artists and topics are covered each semester. ART 120 and/or WELD 104 may be taken 4 times for a total of 6 units.

- **WELD 107 Welding Equipment Maintenance**: 3 Units
  - **Hours**: 36 hours LEC; 54 hours LAB
  - This course covers the basics of welding equipment maintenance, trouble-shooting and repair. Electrical and electronically controlled circuits are discussed and tested. Overall theory of operation and safety are presented, as well as maintenance scheduling and the use of electronic test equipment and other measuring devices. A field trip is required.

- **WELD 115 Code Welding**: 2 Units
  - **Prerequisite**: WELD 300 with a grade of “C” or better.
  - **Hours**: 18 hours LEC; 54 hours LAB
  - This course provides individualized training for welder performance qualification. Welders select the code, metal, process, and position to be used. Code and test requirements are presented. This course may be taken four times for credit using a different code, metal, process, or position.

- **WELD 116 Welding Inspection**: 2 Units
  - **Prerequisite**: WELD 300.
  - **Hours**: 36 hours LEC
  - This course covers the welding requirements for any type of welded structure made from commonly used carbon and low-alloy steel construction. It includes the rules and regulations for the welding construction industry and the principles, requirements, and methods of inspection. Weld measurement and discontinuities for evaluation acceptance using a variety of tools are taught.

- **WELD 117 Ultrasonic Testing Level One**: 3 Units
  - **Hours**: 45 hours LEC; 27 hours LAB
  - This course covers advanced theory, technique application, and evaluation techniques used in the material processing, welding, and inspection industries. Ultrasonic testing as applied to industry practices such as building construction, aeronautics, shipbuilding, materials fabrication, and many others are covered. Proper safety techniques are also covered. Successful completion of this course certifies that the requirements of ASNT TCI-A for UT level 1 are met.

- **WELD 118 Ultrasonic Testing Level Two**: 3 Units
  - **Prerequisite**: WELD 117 with a grade of “C” or better.
  - **Hours**: 45 hours LEC; 27 hours LAB
  - This course covers advanced theory, technique application, and evaluation techniques used in the material processing, welding, and inspection industries. Advanced ultrasonic testing as applied to industry practices such as building construction, aeronautics, shipbuilding, materials fabrication and many others are covered. Proper safety techniques are also covered. Successful completion of this course certifies that the requirements of ASNT TCI-A for UT level II are met.

- **WELD 123 Welding Certification to D1.5 Bridge Code**: 1 Unit
  - **Prerequisite**: WELD 320 with a grade of “C” or better.
  - **Hours**: 9 hours LEC; 27 hours LAB
  - This course covers the welding requirements of the American Association of State Highway and Transportation Officials (AASHTO) for welded highway bridges made from carbon and low-alloy construction steels. It includes the general requirements for welder certification under this code. This course provides welding procedures for certification in accordance with ANSI/AASHTO/AWS D1.5 Bridge Welding Code, an American National Standard.

- **WELD 130 Gas Tungsten Arc Welding**: 3 Units
  - **Prerequisite**: WELD 300 with a grade of “C” or better.
  - **Hours**: 36 hours LEC; 54 hours LAB
  - This course covers tungsten inert gas welding of aluminum, stainless steel, and other metals used in industry. Certification and procedure qualification using Gas Tungsten Arc Welding (GTAW) are also covered.

- **WELD 133 Gas Metal Arc Welding, Semi-Automatic Processes**: 3 Units
  - **Hours**: 36 hours LEC; 54 hours LAB
  - This course covers semi-automatic wire feed welding with micro wires on steel plate of varying thickness. Joint design, gas variations and joint framing members are presented using Gas Metal Arc Short Circuit Transfer process. Proper safety welding techniques are also covered. Successful completion of this course certifies that the requirements of ASNT TCI-A for UT level II are met.
WELD 134 Gas Metal Arc Welding: Ferrous and Non-Ferrous Metals 2 Units
Hours: 18 hours LEC; 54 hours LAB
This course covers semiautomatic wire feed welding including fine through heavy wire welding on aluminum and stainless steel plate of varying thickness. Joint design, gas variations and all welding positions are covered. The emphasis of this course is on code welding aluminum and stainless steels. This course content is relevant to the performance qualification test of the American Welding Society (AWS) D1.2 and D1.6.

WELD 140 Mathematics for Welding Technicians 3 Units
General Education: AA/AS Area II(b)
Hours: 54 hours LEC
This course covers the application of mathematics in technical and trade work. It applies mathematical principles to the welding trade. Areas covered are common fractions, fraction/decimal conversion, percentages, practical algebra, rectangles, triangles, metric measurement, measuring instruments, strength of materials and essentials of trigonometry. Problems involving labor and cost of material are also covered.

WELD 150 Employability Skills for Technical Careers 2 Units
Same As: AT 107 and ET 250
General Education: AA/AS Area III(b)
Hours: 36 hours LEC
This course provides the opportunity of exploring technical careers while developing valuable work and life skills. It is an introduction to a variety of technically-related occupations. Emphasis is placed on exploring technical careers in the Sacramento area. Activities are designed to enhance personal development, employability skills, and self esteem through leadership, citizenship, and character development. Not open to students who have completed AT 107 or ET 250.

WELD 290 Advanced Student Projects 2 Units
Prerequisite: WELD 300 with a grade of “C” or better.
Hours: 108 hours LAB
This course provides an opportunity to pursue advanced projects selected by the welding department. This course may be taken twice for credit.

WELD 294 Topics in Welding .5-5 Units
Hours: 9 hours LEC; 27-270 hours LAB
This course provides an opportunity to study current topics in welding technology that are not included in existing courses. It may be taken four times for a maximum of six units, providing there is no duplication of topics.

WELD 300 Introduction to Welding 3 Units
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course is an introduction to welding processes: shielded metal arc, gas metal arc, flux-cored gas shield and self shield, gas tungsten arc, oxyacetylene cutting and welding on joint designs and positions used in industry. Safety in arc, oxyacetylene welding and cutting is also covered.

WELD 320 Shielded Metal Arc Welding (Stick Electrode Welding) 3 Units
Prerequisite: WELD 300 with a grade of “C” or better
Course Transferable to CSU
Hours: 36 hours LEC; 54 hours LAB
This course covers pre-employment training for welding technicians. Emphasis is on developing manipulative proficiency in the use of Shielded Metal Arc Welding (SMAW) in the flat, horizontal, verti-
Cooperative Work Experience Education is an experiential, academic program which allows students to apply what they have learned in the classroom to a work environment. Upon completion of their Work Experience (WEXP) orientation course, students may earn 1-4 units of transferable credit with a letter grade. Work Experience serves: College interns, volunteers, and employees. Positions may be paid or unpaid.

Occupational Work Experience (298/498) provides students with opportunities to develop or add marketable skills related to their major study programs. These units may count towards the Area III GE pattern, and possibly elective units or major units, only 498 units are transferable to CSU.

General Work Experience (198) assists students in exploring the world of work and provides students with opportunities to develop or add marketable skills related to their career goals. Like occupational work experience, it is designed for students wanting to apply skills learned in the classroom to a work environment. These units may count towards the Area III GE pattern, and possibly elective units or major units, 198 units are NOT transferable.

For more information about Cooperative Work Experience, please see the Programs of Study section of the catalog.

**WEXP 198  Work Experience - General  1-3 Units**

*Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.*

*Enrollment Limitation: Be in a paid or non-paid internship, volunteer opportunity or job related to career goals.*

*Hours: 60-225 hours LAB*

This course provides students with opportunities to develop marketable skills in preparation for employment or advancement within a career. It is designed for students interested in exploring various career options. Course content includes understanding the application of education to the workforce; completion of required forms which document the student's progress and hours spent at the work site; and developing workplace skills and competencies. Appropriate level learning objectives are established by the student and the employer. During the semester, the student is required to fulfill a weekly orientation and 75 hours of related paid work experience, or 60 hours of unpaid work experience per one unit. An additional 75 or 60 hours of related work experience is required for each additional unit. The weekly orientation is required for first time participants, returning participants are not required to attend the weekly orientation but are required to meet with the instructor as needed to complete all program forms and assignments. This course may be taken for a total of 6 units. Work Experience may be taken for a total of 16 units when there are new or expanded learning objectives.

**WEXP 298  Work Experience in (Subject)  1-4 Units**

*Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.*

*Enrollment Limitation: Be in a paid or non-paid internship, volunteer opportunity or job related to career goals.*

*Course Transferable to CSU*

*Hours: 60-300 hours LAB*

This course provides students with opportunities to develop marketable skills in preparation for employment in their major field of study or advancement within their career. It is designed for students interested in work experience and/or internships in associate degree level occupational programs. Course content includes understanding the application of education to the workforce; completion of required forms which document the student's progress and hours spent at the work site; and developing workplace skills and competencies. Appropriate level learning objectives are established by the student and the employer. During the semester, the student is required to fulfill a weekly orientation and 75 hours of related paid work experience, or 60 hours of unpaid work experience for one unit. An additional 75 or 60 hours of related work experience is required for each additional unit. The weekly orientation is required for first time participants, returning participants are not required to attend the weekly orientation but are required to meet with the instructor as needed to complete all program forms and assignments. Work Experience may be taken for a total of 16 units when there are new or expanded learning objectives.

**WEXP 498  Work Experience in (Subject)  1-4 Units**

*Advisory: ENGWR 102 or 103, and ENGRD 116 with a grade of "C" or better; OR ESLR 320 and ESLW 320 with a grade of "C" or better; OR placement through assessment process.*

*Enrollment Limitation: Be in a paid or non-paid internship, volunteer opportunity or job related to career goals.*

*Course Transferable to CSU*

*Hours: 60-300 hours LAB*

This course provides students with opportunities to develop marketable skills in preparation for employment in their major field of study or advancement within their career. It is designed for students interested in work experience and/or internships in transfer level degree occupational programs. Course content includes understanding the application of education to the workforce; completion of required forms which document the student's progress and hours spent at the work site; and developing workplace skills and competencies. Appropriate level learning objectives are established by the student and the employer. During the semester, the student is required to fulfill a weekly orientation and 75 hours of related paid work experience, or 60 hours of unpaid work experience for one unit. An additional 75 or 60 hours of related work experience is required for each additional unit. The weekly orientation is required for first time participants, returning participants are not required to attend the orientation but are required to meet with the instructor as needed to complete all program forms and assignments. Work Experience may be taken for a total of 16 units when there are new or expanded learning objectives.
In this section you will find:

- Transfer to four-year institutions, including the California State University and University of California systems
- California Articulation Number (CAN) system
- California State University (CSU) General Education Patterns
- Intersegmental General Education Transfer Curriculum (IGETC)
- Transfer Center
- Transcripts
transfer to four-year institutions

Our transfer-level courses are equivalent to their university counterparts and can count toward your B.A. or B.S. degree in any major.

ARC transfers more students to UC Davis and CSUS than any other community college, and research shows that our transfer students do as well as or better than students who begin college at CSU or UC campuses.

Transfer program

American River College courses numbered 300 to 499 are accepted by the California State Universities (CSU). Transferable courses can satisfy lower division major preparation, general education, and/or elective requirements. Students should meet with their ARC counselor regarding the transferability of courses to the University of California (UC) and independent colleges and universities.

Transfer information has been compiled to assist American River College students who intend to transfer to another college or university. Students are encouraged to work with their ARC counselor to ensure they are taking courses that meet lower division general education and major requirements. CSU and UC campuses will accept a maximum of 70 semester units from community colleges.

There are many independent colleges and universities to which ARC students transfer, as well. Each institution of higher learning has its own requirements for admission and for junior standing. Several of these schools accept the CSU General Education pattern or IGETC in lieu of their own general education requirements.

Articulation

Articulation agreements are formal agreements between two colleges, such as between American River College and Sacramento State University. They define how courses taken at one college or university campus can be used to satisfy a subject matter requirement at another college or university campus.

American River College has a cooperative articulation program with most California State University (CSU) and University of California (UC) campuses. In addition, the college, through the efforts of its counseling staff and articulation officer, maintains excellent relations with UC and CSU campuses, as well as private universities in and outside of California.

The articulation officer of the college, in conjunction with the articulation staff of the universities, has developed written agreements in many areas of the curriculum. These agreements assure ARC students accurate preparation for another university or college. Articulation agreements with CSU and UC campuses can be viewed online [www.assist.org]. Articulation agreements with private and out-of-state colleges and universities can be viewed on the Transfer Center Web page [arc.losrios.edu/transfer] under the heading College - Specific Guidelines. See a counselor for assistance.

Four transfer options

Students must decide which college they will attend and learn the requirements of that institution in order to transfer to a CSU, UC or independent university. It is highly recommended that students avail themselves to the services offered by our Transfer Center, and meet with their ARC counselor regularly to ensure they are taking the appropriate coursework for transfer.

In general, however, students will work with one of the following paths:

1. If you are certain that you want to transfer to any campus of the California State University (CSU), follow the guidelines in Section A, and choose either the CSU GE pattern or IGETC to fulfill your lower division General Education requirements.

2. If you are certain that you want to transfer to any campus of the University of California (UC), follow the guidelines in Section B, and choose either the IGETC or individual UC campus GE/Breadth pattern to fulfill lower division General Education requirements.

3. If you are uncertain whether you wish to transfer to a CSU or UC campus, work closely with your counselor to ensure you are completing the admission requirements outlined in both Sections A and B, and follow the IGETC to complete lower division general education requirements. To help things go smoothly, choose your transfer college and major as early as possible.

4. If you want to transfer to a specific campus (UC, CSU or elsewhere), you may ask that campus for a copy of its specific admission and General Education/Breadth requirements.
A. Transfer to California State University

Students intending to transfer to a state university should plan a program to meet the graduation requirements of the specific institution which they plan to attend. Transfer admission eligibility is based on transferable college units and/or high school record and test scores. Consult the catalog issued by the individual campus for a complete description of the curricula and regulations. Catalogs are available in the Transfer Center.

Students who were eligible for admission to a California State University upon graduation from high school, but who have attended American River College, may transfer with less than 60 transferable units, but must have earned a grade point average of C (2.0) or better in the total program attempted and be in good standing at American River College in order to be accepted for transfer. However, consult with an ARC counselor to ensure that the CSU campus you choose is accepting transfer students with less than 60 units.

Students who were ineligible for admission to a California State University on the basis of high school grade point average, test scores, or subject requirements, will be eligible only if they (1) have completed 60 transferable college units with a grade point average of 2.0 or better; (2) are in good standing at ARC; and (3) have satisfied the following CSU admission requirements. Some CSU campuses have additional admission requirements. Check with your counselor to ensure you are meeting the entrance requirements for your chosen CSU campus.

CSU Admission requirements

1. High School graduate prior to 1987.
   a. Area A 1, 2, 3 (With grade of C or better).
   b. Area B 4 (With grade of C or better).

2. High School graduate 1988 and later.
   a. Area A 1, 2, 3 (With grade of C or better).
   b. Area B 4 (With grade of C or better).
   c. Thirty (30) semester units of General Education with C or better. This includes areas A and B.

*See the CSU General Education Requirements in the Transfer section of this catalog for listings of courses that meet Areas A 1, 2, 3 and B 4.

All students wishing to transfer to a CSU campus have the option of using the California State University General Education pattern, the Intersegmental General Education Transfer Curriculum (IGETC), or CSU campus-specific requirements to meet CSU general education requirements. Completion of the CSU General Education pattern or IGETC allows the student to transfer to a CSU campus without the need to take additional lower division, general education courses after transfer. Students are encouraged to complete as many lower division major requirements as possible for their chosen CSU campus while attending ARC. These requirements can be found online [www.assist.org].

Foreign visa students should consult with the international student counselor of the specific CSU campus.

CSU General Education and IGETC Certification

Students transferring to a CSU campus find it to their advantage to complete the required General Education requirements prior to transfer. This can be accomplished by completing either the California State University GE or IGETC certification pattern. These patterns are listed in Section C. Students must make an appointment with their ARC counselor to have these patterns certified prior to transfer.

High school subject requirements

Specific high school courses and grade requirements, as well as placement examinations, vary among four-year colleges and universities. American River College offers courses and programs that enable the high school graduate or non-graduate to make up course and grade deficiencies, and qualify for a particular college or university.

Completion/transfer (Student Right to Know)

In compliance with the Student Right to Know and Campus Security Act of 1990, completion and transfer rates for students attending American River College can be found online [www.cpec.ca.gov/ or http://srtk.cccco.edu/index.asp].

The California Articulation Number (CAN) System

The California Articulation Number (CAN) System is a statewide numbering system independent from course numbers assigned by local colleges. A CAN number signifies that participating CSU and Community Colleges have determined that courses offered by other colleges are equivalent in content and scope to courses offered at their own college, regardless of their unique titles or local identifying numbers. A listing of American River College CAN approved courses follows.

ARC-qualified CAN courses

CAN is in the process of being replaced by the Transfer California State University (TCSU) system. The CSU system is in the process of creating course descriptions for courses which appear in lower division major preparation for CSU campuses. These Course descriptions will have a TCSU designator. Community College courses which are equivalent to these descriptors will also have the same TCSU designator. American River College courses which qualify for these designators have their TCSU designator listed in the course descriptions in this catalog.

The California State University Lower Division Transfer Pattern

The Lower Division Transfer Pattern (LDTP) is a program sponsored by the California State University (CSU) and supported by the California Community Colleges. This program presents potential transfer students with the most direct path to a bachelor's degree in the CSU system. The ultimate goal of the LDTP is to identify a set of 'road maps' for students to follow that will increase their academic preparation and decrease their time to graduate once they enter CSU. These 'road maps' include a distinct set of general education and major courses which enable the student to transfer to their chosen CSU campus in a chosen major fully prepared to begin upper division course work.

LDTP major patterns are posted at www.csumentor.edu
When viewing these patterns, you may want to refer to the ARC-qualified CAN Courses listed in this catalog.

The CSU system is developing a program in which student who elect to follow the LDTP option may receive the highest priority for admission to a CSU campus. Full details of this program were not available a the publication of this catalog. Please refer to www.csumentor.edu for more information.
CSU GE pattern

Check with your ARC counselor before choosing whether to complete the CSU General Education (GE) Pattern or the Intersegmental General Education Transfer Curriculum (IGETC) on the following pages.

Final status of this information was unavailable at publication time. Contact the ARC Counseling Center at (916) 484-8572 for 2009-2010 requirements.

Requirements for the Bachelor’s Degree

The degree requirements at a California State University (CSU) consist, in general, of: (1) the general education requirements which are required of all degree candidates; (2) the major department requirements which are a part of the student’s field of specialization; (3) individual campus graduation requirements, and (4) state law requirements. These requirements are classified in two levels: lower division and upper division. Students may transfer a maximum of 70 lower division semester units which may involve preparation for the major and all of the lower division in the general education pattern while attending American River College.

General education requirements 2008-2009

To be eligible for graduation with a Bachelor’s Degree from a California State University, students must complete a minimum of 48 semester units of general education. American River College will certify completion of 39 lower division general education units for students if they follow the pattern outlined below. At least 9 units must be upper division courses completed at the four year university. It is important that students complete the required courses for their major, or courses that prepare them for their major, prior to transfer; 60 transferable semester units are needed for a student to transfer with junior standing.

Advanced Placement (AP) Examinations are appropriate for inclusion in the General Education breadth list. See AP (Advanced Placement) Test Scores chart in Getting Started section.

Note: Students must meet with a counselor in order to have their CSU General Education certified prior to transfer.

2008-2009 California State University (CSU) General Education Pattern

The following American River College courses meet CSU lower division:

A. Communication – Oral, Written, Critical Thinking (9 units minimum, 1 course from each area)

| A1 (one course) | SPEECH 301, 331, 361 |
| A2 (one course) | ENGWR 300, 480; ESLW 340 |
| A3 (one course) | ENGWR 301, 302, 481, 482; ESL 350, PHI 320; SPEECH 302, 311 |

B. Science and Math (9 units minimum, 1 course from each area.) One course from Section 1 or 2 must include a 4 or 5 unit course with a lab.

| B1 (one course) | ASTR 300, 310, 320, 330, 400(L); CHEM 305(L), 309 (L), 325 (L), 400(L), 401(L), 423(L); GEOG 300, 301(L), 306, +307, +308, +309(L); GEOL 300, 301(L), 305, 306(L), 310, 311(L), +325, +330, +331(L), 342, 345; PHYS 310, 311, 312(L), 350(L), 410(L); PS 300, 301(L) |
| B2 (one course) | ANTH 300, 301(L), 303, 480; BIOL 300, 303(L), 305(L), 310(L), 342, 350, 352, 370(L), 400(L), 410(L), 420(L), 430(L), 440(L), 442(L), 482(L); PSYC 310, 311(L) |
| B4 (one course) | CISP 440; MATH 300, 310, 325, 330, 340, 342, 344, 350, 351, 370, 400, 401, 402, 410, 420; PSYC 330; STAT 301 |
C. The Arts, Literature, Philosophy, Foreign Language
(9 units minimum with at least one from the Arts and one from Humanities plus 1 from either Arts or Humanities)

<table>
<thead>
<tr>
<th>The Arts</th>
<th>Humanities</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-2 courses</td>
<td></td>
</tr>
</tbody>
</table>

D. (0-9) Social, Political, Economic Institutions
(9 units minimum, 1 course from each area.)

<table>
<thead>
<tr>
<th>1 course</th>
<th>1 course</th>
<th>1 course</th>
</tr>
</thead>
</table>

E. Lifelong Understanding
(3 units minimum, one course from each area.)

<table>
<thead>
<tr>
<th>E1 (one course)</th>
<th>E2 (one course)</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECE *312; GERON +300, +302; HEED 300, +352; HSER +330, +340; INDIS 325; NUTRI 300; PSYC *340, 342, 354, *356, 358, +359, +365, *370, +372, 390, 400, +481; SOC *335; SPEE 321</td>
<td>Activity course with one of the following prefixes: ADAPT, DANCE, FITNS, PACT, TMACT, SPORT except FITNS 321, 339, FITNS 400 taken on line or any course numbered 495, 498 or 499</td>
</tr>
</tbody>
</table>

*Courses appearing in more than one category may be used to satisfy only one category.
+Courses are cross-numbered in two subject areas and may count in only one area. Courses in the major field may or may not be counted for General Education. (For exceptions, see your counselor.)
B: transfer to university of california

This section gives general information concerning requirements for transfer into the 10 University of California campuses. Specific information regarding preparation for major and/or breadth requirements to the individual campuses is available in the ARC Counseling Center.

Students wishing to transfer to a University of California campus have the option of using the IGETC (listed in Section C) or a UC campus’s individual breadth requirements to meet lower division breadth requirements. However, not all majors at UC campuses accept the IGETC. Students should check with their ARC counselor in order to choose the correct option. Transfer students are encouraged to complete as many lower division major requirements as possible at ARC. UC campuses often select students based on their major preparation. It is advised that students meet with their ARC counselor regularly to make sure they are meeting UC entrance requirements. Students can also find lower division major requirements for UC campuses online [www.assist.org].

UC Minimum Admission/Eligibility Requirements

There are three ways to meet the University’s minimum admission requirements for transfer students. The path you use depends on the degree to which you satisfied UC’s minimum eligibility requirements for freshmen when you graduated from high school.

At high school graduation, if you:

1. Met the Subject, Scholarship and Examination Requirements then to be eligible to transfer to UC you must:
   • Maintain a C average (2.00 GPA) in your transferable coursework.

2. Met the Scholarship Requirement, but did not satisfy the Subject Requirement then to be eligible to transfer to UC you must:
   • Take transferable college courses in the missing subjects, earning a C or better in each course, and
   • Maintain a C average (2.00 GPA) in your transferable coursework.

3. Were not eligible for admission to UC because you did not meet the Scholarship Requirement then to be eligible to transfer to UC you must:
   a. Complete 60 semester (90 quarter units) of transferable credit with a 2.40 GPA, taking no more than 14 semester (21 quarter units) Pass/No Pass.
   b. Complete the following course pattern, earning a grade of C or better in each course:
      • Two transferable courses (3 semester or 4-5 quarter units each) in English composition.

demonstrate the applicant’s promise for contributing to the intellectual vitality of a campus.

• Completion of special projects undertaken either in the context of the college/university curriculum or in conjunction with special school events, projects or programs cosponsored by the college/university, community organizations, post-secondary educational institutions, post-secondary educational institutions, other agencies or private firms, that offer significant evidence of an applicant’s special effort and determination or that may indicate special suitability to an academic program on a specific campus.

• Academic accomplishments in light of the applicant’s life experiences and special circumstances. These experiences and circumstances may include, but are not limited to, disabilities, low family income, first generation to attend college, need to work, disadvantaged social or educational environment, difficult personal and family situations or circumstances, refugee status or veteran status.

• Location of the applicant’s college and residence. These factors shall be considered to provide for geographic diversity in the student population and also to account for the wide variety of education environments existing in California.

Advanced Standing (Transfer) Selection Guidelines

An advanced standing student is one who has been a registered student in another college or university or in college-level extension classes other than a summer session immediately following high school graduation. Advanced standing applicants may not disregard their college records and apply for admission as a freshman.

To be eligible for admission, applicants must meet the University’s undergraduate admission requirements. The following guidelines provide the framework within which the campuses establish procedures for selecting applicants when the number of eligible applicants exceeds the places available.

Each campus develops enrollment targets that specify the number of new freshman and advanced standing students expected to enroll. Campuses that receive more applications than the number required to meet their enrollment target admit students using the criteria described below.

Primary emphasis in the selection will be given to the criteria related to academic performance (first four bulleted items). Consideration also will be given to other criteria to assess applicants’ overall promise of success and to achieve strength and diversity in campuses’ advanced standing student body (last four bullets).
Priority consideration for admission will be given to students eligible for transfer as juniors. Consideration may include the following:

- Completion of a specified pattern or number of courses that provide continuity with upper division courses in the major.
- Grade point average in all transferable courses.
- Participation in academically selective honors courses and/or programs.
- Special talents, achievements and awards in a particular field, such as in the visual and performing arts or in athletic endeavors; special skills, such as demonstrated written and oral proficiency in other languages; special interests, such as intensive study and exploration of other cultures; experiences that demonstrate unusual promise for leadership, such as significant community service or significant participation in student government; or other significant experiences or achievements that demonstrate the applicant's promise for contributing to the intellectual vitality of a campus.
- Completion of special projects undertaken either in the context of the college/university curriculum or in conjunction with special school events, projects or programs cosponsored by the college/university, community organizations, post-secondary educational institutions, post-secondary educational institutions, other agencies or private firms, that offer significant evidence of an applicant's special effort and determination or that may indicate special suitability to an academic program on a specific campus.
- Academic accomplishments in light of the applicant's life experiences and special circumstances. These experiences and circumstances may include, but are not limited to, disabilities, low family income, first generation to attend college, need to work, disadvantaged social or educational environment, difficult personal and family situations or circumstances, refugee status or veteran status.
- Location of the applicant's college and residence. These factors shall be considered to provide for geographic diversity in the student population and also to account for the wide variety of education environments existing in California.

**High school proficiency examination**

Transfer applicants who have passed a high school proficiency examination must also meet regular university entrance requirements.

---

**Transfer Opportunity Program (TOP)**

The Transfer Opportunity Program (TOP) exists at American River College to assist ARC transfer students in the transition to the University of California at Davis. A transfer advisor from UC Davis is available once a week in the Counseling Center at ARC to assist students in fulfilling admission requirements, lower division major requirements, breadth requirements, and screening requirements in selective majors.

If you are interested in meeting with the UC Davis transfer advisor, make an appointment in the Transfer Center.

See over for 2008-09 IGETC
**2008-09 IGETC (for CSU and UC)**

(Intersegmental General Education Transfer Curriculum for transfer to the University of California and California State University)

*Final status of this information was unavailable at publication time. Contact the ARC Counseling Center at (916) 484-8572 for 2008-09 requirements.*

Completion of all the requirements in the Intersegmental General Education Transfer Curriculum (IGETC) will permit a student to transfer from a community college to a campus in either the California State University or University of California system without the need, after transfer to take additional lower-division general education courses. The course requirements for all areas should be completed before transfer. All courses must be completed with grades of “C” or better.

NOTE: Student must see a counselor to have this pattern certified before transferring. Students who have selected a specific campus for transfer should consult with an ARC counselor before following the IGETC pattern.

CSU/UC will always accept completion of general education coursework at certifying institutions provided the course was on an approved IGETC requirement list at the time it was completed.

Advanced placement (AP) Examinations are appropriate for inclusion in the IGETC. See AP (Advanced Placement) Test Scores Chart in the Getting Started section of the ARC catalog.

**ARC Transfer Curriculum (IGETC) 2008-09**

**AREA 1: English Communication (6-9 units)**

| 1 A | 1 Course | ENGWR 300, 480  
Note: (UC Only) ENGWR 300 & 480 combined: maximum credit-1 course. |
| 1 B | 1 Course | ENGWR 301, 302, 481, 482  
Note: (UC Only) ENGWR 301 & 481 combined: maximum credit-1 course. ENGWR 302 & 482 combined: maximum credit-1 course. |
| One Course Group C | SPEECH 301, 331 (CSU requirement only) |

**AREA 2: Mathematical Concepts and Quantitative Reasoning (3 units)**

| 2 A | 1 Course | MATH 340, 344, 350, 351, 370, 400, 401, 402, 410, 420; PSYC 330; STAT 301  
Note: (UC Only) Math 400, 350 & 340 combined: Math 401 & 351 combined – maximum credit 1 course for each set. PSYC 330 & STAT 301 combined: maximum credit-1 course |

**AREA 3: Arts and Humanities (9 units, at least 1 course from Arts and 1 course from Humanities)**

| 3 A | Arts | ARTH 300, 302, 308, 310, 322, 333, 334, 480; MUFHL 300, 310, 311, 315, 321, 330, 400, 401, 410, 411, 480; TA 300, 302, 303, 306, 310, 312, 314, 315, 318, 350, 480  
Note: (UC Only) No Credit for MUFHL 321 if taken after 400. MUFHL 300 & 480 combined: maximum credit-1 course. TA 350 & 480 combined: maximum credit-1 course. TA 312, 481 & 314, 315 combined: maximum credit-6 units |
| 1 Course |  |  |
TRANSFER

AREA 4: Social & Behavioral Sciences (9 units, at least 3 courses from at least 2 areas)

| 4 A-J | ANTH 310, 315, 320, 330, 333, 334, 341; BUS 345; ECE 312; ECON 302, 304; GEOG 310, 320, 322; HIST 307, 308, 310, 311, 318, 320, 321, 323, 325, 327, 330, 483, 484; PHIL 360; POLS 301, 302, 310, 320, 322, 332; PSYC 300, 305, 320, 340, 356, 370, 372, 480, 481; SOC 300, 301, 320, 325, 342, 350; SOCS 310, 312
Note: (UC Only) PSYC 300, 305 & 480 combined: maximum credit–1 course. PSYC 340 & 481 combined: maximum credit–1 course. HIST 310, 320 & 483 combined: maximum credit–1 course. HIST 311, 321, & 484 combined: maximum credit–1 course

AREA 5: Physical and Biological Sciences (7-9 units, at least one physical science and one biological science, one must include a laboratory)

| 5A | ASTR 300, 310, 320, 330, 400(L); CHEM 305(L), 325(L), 400(L), 401(L), 423(L); GEOG 300, 301(L), 306, 307, 308, 309(L); GEOL 300, 301(L), 305, 306(L), 310, 311(L), 325, 330, 331(L), 345; PHYS 310, 311, 312 (L), 350(L), 410(L); PS 300, 301(L)
| 5B | ANTH 300, 301(L), 303, 480; BIOL 300, 303(L), 305(L), 310(L), 342, 352, 370(L), 400(L), 410(L), 420(L), 430(L), 440(L), 442(L), 482(L); PSYC 310, 311(L)
Note: (UC Only) ANTH 300 & 480 combined: maximum credit–1 course. ASTR 300, 310 & 320 combined: maximum credit–2 courses. BIOL 300, 310 & 320 combined: maximum credit–1 course. BIOL 300, 303 & 310 combined: maximum credit–2 courses. No credit for BIOL 300 or 310, if taken after BIOL 400. CHEM 305, 306, 400 & 401 combined: maximum credit–1 series. CHEM 420 & 423 combined: maximum credit–1 course. PHYS 350, 360 & 410, 412, 431 combined: maximum credit–1 series. PHYS 310 & 311 combined: maximum credit–1 course. No credit for PHYS 310 or 311, if taken after 410 or 350. No credit for GEOL 305, if taken after a college course in Astronomy, Geology, Meteorology or Oceanography. No credit for GEOL 306 if taken after GEOL 300 or 301. No credit for PS 300 if taken after a college level course in Astronomy, Chemistry, Geology, Meteorology or Physics.

UC Requirement Only

| 6A | Language – Not English |
| Proficiency equivalent to two years of high school study in the same language. Or, the following courses at ARC also will fulfill this requirement: FREN 401, GERM 401, ITAL 401, JAPAN 401, RUSS 401, SILA 305, SPAN 401 |
Note: Please see a counselor for options for fulfilling this requirement.

CSU Graduation Requirement Only

| U.S. History, Constitution and American Ideals |
| 6 semester units, one course from each group |
| Group 1 – POLS 301 |
| Group 2 – HIST 310, 311, 318, 320, 321, 323, 325, 327, 330, 483, 484 |
Note: If a student used these 2 courses to fulfill AREA 4, the student may need to complete two additional upper division courses in AREA 4 after transferring.
transfer services and resources

Transfer Center

The Transfer Center provides to students and all staff the most current information to ensure a smooth transition to four-year colleges and universities. Applications, catalogs, and other resource materials, including Internet access, are available to students who are committed to transfer as well as to those exploring the possibility of transfer. Students may talk to community college counselors and meet with admissions advisors from several colleges and universities including, but not limited to, California State University, Sacramento; University of California, Davis; and University of the Pacific. Each of the four-year representatives can assist with other campuses within their system. A calendar listing the dates and times the Transfer Center is hosting college representatives can be found at: arc.losrios.edu/transfer.

Working with ARC counselors, students who meet certain criteria may enter into a Transfer Admissions Agreement (TAA) with Bethany University, Golden Gate University, Humboldt State University, San Francisco State University, Santa Clara University, UC Davis, UC Irvine, UC Merced, UC Riverside, UC San Diego, UC Santa Barbara, UC Santa Cruz, and Univ. of the Pacific. TAA’s guarantee eligible students admission as juniors to the above campuses.

The mission of the Transfer Center is to help students learn of the many options available to them to continue their studies at four-year colleges and universities. ARC is committed to helping students become better informed so that they may plan for their future with as much knowledge and support as possible. The center is located in the Counseling Center, and also maintains a website [arc.losrios.edu/transfer]. Phone (916) 484-8685.

Transcripts

A transcript is an official record of work completed at American River College, and is required for admission to other colleges and universities.

Two ARC transcripts are furnished free, and others may be ordered for $2 each, payable in advance. The student must initiate a written request to Enrollment Services or submit their request online through the college website [www.arc.losrios.edu]. A service charge of $10 is assessed for any transcript requested to be processed within 24 hours. Students may also request transcripts by faxing (916) 484-8865. A credit card number is required for transcripts that are ordered through fax, and a $10 charge per transcript is imposed.

faculty statement of professional ethics

1. Professors, guided by a deep conviction of the worth and dignity of the advancement of knowledge, recognize the special responsibilities placed upon them. Their primary responsibility to their subject is to seek and to state the truth as they see it. To this end professors devote their energies to developing and improving their scholarly competence. They accept the obligation to exercise critical self discipline and judgment in using, extending, and transmitting knowledge. They practice intellectual honesty. Although professors may follow subsidiary interests, these interests must never seriously hamper or compromise their freedom of inquiry.

2. As teachers, professors encourage the free pursuit of learning in their students. They hold before them the best scholarly and ethical standards of their discipline. Professors demonstrate respect for students as individuals and adhere to their proper roles as intellectual guides and counselors. Professors make every reasonable effort to foster honest academic conduct and to ensure that their evaluations of students reflect each student’s true merit. They respect the confidential nature of the relationship between professor and student. They avoid any exploitation, harassment, or discriminatory treatment of students. They acknowledge significant academic or scholarly assistance from them. They protect their academic freedom.

3. As colleagues, professors have obligations that derive from common membership in the community of scholars. Professors do not discriminate against or harass colleagues. They respect and defend the free inquiry of associates. In the exchange of criticism and ideas professors show due respect for the opinions of others. Professors acknowledge academic debt and strive to be objective in their professional judgment of colleagues. Professors accept their share of faculty responsibilities for the governance of their institution.

4. As members of an academic institution, professors seek above all to be effective teachers and scholars. Although professors observe the stated regulations of the institution, provided the regulations do not contravene academic freedom, they maintain their right to criticize and seek revision. Professors give due regard to their paramount responsibilities within their institution in determining the amount and character of work done outside it. When considering the interruption or termination of their service, professors recognize the effect of their decision upon the program of the institution and give due notice of their intentions.

5. As members of their community, professors have the rights and obligations of other citizens. Professors measure the urgency of these obligations in the light of their responsibilities to their subject, to their students, to their profession, and to their institution. When they speak or act as private persons, they avoid creating the impression of speaking or acting for their college or university. As citizens engaged in a profession that depends upon freedom for its health and integrity, professors have a particular obligation to promote conditions of free inquiry and to further public understanding of academic freedom.

ARC Academic Senate

classified staff statement of professional ethics

The quality of any institution is, to a large extent, based upon the quality of its employees. American River College has a tradition of excellence in education. This tradition is the result of the college’s excellent employees and their service to students and the community. The classified staff embraces this philosophy through their professionalism, integrity, and excellence.

Professionalism is demonstrated through respecting one another; collaborating and communicating with each other, including:
- Mutual respect
- Innovative thinking
- Networking and collaboration
- Superior technical skills
- Open communication

Integrity of the classified staff is exemplified through ethical behavior. The classified staff upholds integrity through:
- Fiscal responsibility
- Embracing diversity
- Respectful behavior
- Trustworthiness
- Personal commitment

Excellence is exhibited through our support and reliance on each other. We strive to be an elite, premier, learning community through:
- Creative ideas
- Supportive actions
- Dedication
- Sound judgment
- Campus and community development

These are qualities that are fostered through the collaboration between classified staff, students, faculty and administrators. As the classified staff at American River College, we support the intellectual and vocational education of our student body. Through our students’ achievements, we strive to feed the heart of our surrounding communities. In our pursuit to meet these goals, our ultimate objective is to ensure student success.

ARC Classified Senate
administrator statement of professional ethics

American River College administrators recognize that ethical behavior is a prerequisite to successful leadership and management. Ethical behavior, defined as behavior that meets commonly accepted rules of conduct, encompasses the principles of honesty and equity.

At American River College, administrators strive to exercise judgments that are dispassionate, fair, consistent, and equitable. They seek openness and reliability, do their utmost to address issues and people without prejudice, and consistently work to maintain a focus on the best interests of the college’s students, employees and communities served.

In fulfilling their responsibilities, American River College administrators adhere to the approved ARC Values (www.arc.losrios.edu/Documents/Vision_Mission_Values.pdf) related to access, benefit of education, excellence, leadership, student learning outcomes, diversity, community development, human resources, communication, innovation and risk taking, fiscal responsibility, and evaluation.
